**Release: 1**

# Assessment Requirements for CPPSIS2013 Store and retrieve basic spatial data

## Modification History

Release 1.

Replaces superseded equivalent CPPSIS2013A Assist in the storage and retrieval of spatial data.

This version first released with CPP Property Services Training Package Version 3.

## Performance Evidence

A person demonstrating competency in this unit must satisfy the requirements of the elements, performance criteria, foundation skills and range of conditions of this unit. The person must also follow procedures and instructions to store and retrieve basic spatial data for two different projects.

While storing and retrieving the above basic spatial data, the person must:

- adhere to data privacy and information copyright laws relating to data storage and retrieval
- communicate clearly with others to clarify work tasks
- comply with organisational requirements to work safely when using screen-based equipment
- cooperate with team members to store and retrieve spatial data
- report problems and seek assistance with work tasks
- use a computer and software to store and retrieve spatial data.

## Knowledge Evidence

A person demonstrating competency in this unit must demonstrate knowledge of:

- organisational policies and procedures relating to:
  - data privacy and information copyright
  - preparing and using computers and software
  - reporting problems with spatial data availability and formats
  - working safely when using screen-based equipment.

## Assessment Conditions

The following must be present and available to learners during assessment activities:

- equipment:
  - computers and software required to collect basic spatial data
- specifications:

- standard operating procedures and documentation relating to data privacy and information copyright
- physical conditions:
  - access to equipped work station
- relationships with team members and supervisor:
  - access to supervisor and other appropriate persons for assistance with work tasks.

Timeframe:

- as specified by task and organisational requirements
