**Release 2**

## CPPSS00047 Manage timber pests

### Modification History

Release 2 This version first released with CPP Property Services Training Package Release 9.0.

CPP units updated to latest releases.

Release 1 This version first released with CPP Property Services Training Package Version 2.

This skill set replaces equivalent CPPSS00025 Manage Timber Pests Skill Set, now superseded and not replaced in CPP07 Property Services Training Package Version 14.1.

### Description

This skill set provides pest management technicians with the competencies required to inspect premises for timber pests. It also covers developing pest management plans, and with the agreement of the client, implementing pest management methods including biological controls, chemical barrier treatments, physical barrier treatments, management controls or the installation of physical termite management systems.

### Pathways Information

Completion of these units provides credit towards CPP30119 Certificate III in Urban Pest Management.

### Licensing/Regulatory Information

Licensing, legislative, regulatory or certification requirements apply to pest management in some States. Relevant state and territory regulatory authorities should be consulted to confirm those requirements

The skill set is applicable in some States but does not meet the full licensing requirements of all States and Territories.

### Skill Set Requirements

CPPUPM3008 Inspect for and report on timber pests

CPPUPM3010 Control timber pests

CPPUPM3042 Install termite management systems

## **Target Group**

This skill set is for people who provide an urban pest management service managing timber pests.

## **Suggested words for Statement of Attainment**

These units from CPP Property Services Training Package meet industry requirements for managing basic timber pests in most States and Territories.
