Assessment Requirements for CPPSSI4036 Operate spatial software applications

Release: 1

Assessment Requirements for CPPSSI4036 Operate spatial software applications

Modification History

Release 1   This version first released with CPP Property Services Training Package Release 12.0.

This unit supersedes and is equivalent to CPPSIS4036 Operate spatial software applications.

Performance Evidence

To demonstrate competency a candidate must meet the elements and performance criteria of this unit by planning and producing two spatial documents. Each spatial document must use two different types of spatial software applications.

Knowledge Evidence

To be competent in this unit a candidate must demonstrate knowledge of:

- types of spatial documents
- types of spatial software applications and their features, tools and functions
- format conventions for spatial documents
- data privacy, copyright and/or licensing relating to spatial documents.

Assessment Conditions

Assessors must meet the requirements for assessors contained in the Standards for Registered Training Organisations.

Competency is to be assessed in the workplace or a simulated environment that accurately reflects performance in a real workplace setting where these skills and knowledge would be performed.

Candidates must have access to:

- computer and software
- organisational policies and procedures relating to:
  - work health and safety (WHS)
  - data privacy, copyright and/or licensing.
