Application

This unit describes the skills required to develop and maintain a cooperative work group, communicate objectives and required standards, support development activities and provide leadership to the work group.

This unit applies to those working in a leadership role at an operational level. In practice, coordinating a work group may overlap with other generalist or specialist work activities.

This is a generic management unit that has been designed to allow significant contextualisation according to the requirements of the organisation, management structures and candidates' work roles and responsibilities.

The skills and knowledge described in this unit must be applied within the legislative, regulatory and policy environment in which they are carried out. Organisational policies and procedures must be consulted and adhered to, particularly those related to leadership.

Those undertaking this unit usually work independently drawing upon support from a range of established resources.

No licensing, legislative or certification requirements apply to unit at the time of publication.
