# **Assessment Requirements for CSCSAS027 Maintain operational security**

**Release: 1**

# Assessment Requirements for CSCSA027 Maintain operational security

## Modification History

Release 1. This is the first release of this unit of competency in the CSC Correctional Services Training Package Release 5.0

## Performance Evidence

Evidence required to demonstrate competence in this unit must be relevant to and satisfy all of the requirements of the elements and performance criteria on at least two occasions and include:

- operating and checking routine activities and equipment for security factors
- evaluating security situations and making decisions based on evaluation
- reporting outcomes of equipment checks
- using security equipment required in the work site and consistent with work role, responsibilities, and delegation
- accessing and recording relevant information.

## Knowledge Evidence

Evidence required to demonstrate competence in this unit must be relevant to and satisfy all of the requirements of the elements and performance criteria and include knowledge of:

- organisational policies and procedures related to security and surveillance
- organisational emergency response procedures
- organisational procedures for communication systems and alarms
- organisational incident reports
- observation and evaluation techniques
- organisation's intelligence systems.

## Assessment Conditions

Assessors must hold credentials specified within the Standards for Registered Training Organisations current at the time of assessment.

Assessment must satisfy the Principles of Assessment and Rules of Evidence and all regulatory requirements included within the Standards for Registered Training Organisations current at the time of assessment.

Assessment must occur in workplace operational situations. Where this is not appropriate, assessment must occur in simulated workplace operational situations that reflect workplace conditions.

Assessment processes and techniques must be appropriate to the language, literacy and numeracy requirements of the work being performed and the needs of the candidate.

Resources for assessment must include access to:

- a range of relevant exercises, case studies and/or simulations
- acceptable means of simulation assessment
- applicable documentation, including workplace procedures, regulations, codes of practice and operation manuals
- relevant materials, tools, equipment and PPE currently used in industry.
