Release 1	This version first released with CUA Creative Arts and Culture Training Package Version 5.0.

Qualification Description

This qualification reflects the role of individuals who have a broad range of technical and conceptual design skills.

The outcomes of this qualification apply to work in design roles across different work environments.

Practice at this level is underpinned by the application of integrated technical and theoretical knowledge and the ability to develop concepts and solutions in response to a brief. Individuals at this level usually operate autonomously, however they may provide some leadership and guidance to others with limited responsibility for the output of others.

The job roles that relate to this qualification may include Junior Graphic Design Assistant, Interior Design Assistant or Interior Decoration Assistant, Fashion Design Assistant and Furniture Design Assistant. It also provides a pathway to other design roles.

Licensing, legislative, regulatory or certification considerations

Qualification

No licensing, legislative or certification requirements apply to this qualification at the time of publication.

Units of competency in qualification

Some individual units of competency may have their own licensing, legislative, regulatory or certification requirements. Users must check individual units of competency for licensing, legislative, regulatory or certification requirements relevant to that unit.
