**Release: 2**

## Assessment Requirements for CUACER301 Produce ceramics

### Modification History

| Release   | Comments   |
|-----------|--|
| Release 2 | This version was released with CUA Creative Arts and Culture Training Package Version 4.1. Minor update to performance evidence. |
| Release 1 | This version first released with CUA Creative Arts and Culture Training Package Version 2.0.                                     |

### Performance Evidence

Evidence of the ability to:

- explore ideas, techniques and historical and contemporary ceramic practice and choose techniques to support own work
- identify and acquire resources required to complete chosen work
- adapt and use combined ceramic techniques to create a single major work or multiple pieces of work that show technical proficiency in chosen techniques
- review and document the work process.

Note: If a specific volume or frequency is not stated, then evidence must be provided at least once.

### Knowledge Evidence

To complete the unit requirements safely and effectively, the individual must:

- outline basic intellectual property considerations when making ceramics
- outline methods of exploring techniques to achieve different effects in ceramic work
- summarise the main aspects of historical and contemporary ceramic practice and how they can inform own design ideas
- describe, for the elements and principles of design, the key characteristics, key interrelationships and use in ceramics
- summarise, for a range of tools and equipment used to produce ceramic work, key physical features and uses, cleaning and maintenance techniques and storage requirements
- describe the physical properties and capabilities of a range of materials and techniques used to produce ceramic work

- discuss typical work space requirements for producing ceramic work including ways of organising space and equipment for efficient work operation
- describe procedures for working safely with ceramics materials, tools and equipment.

## Assessment Conditions

Assessment must be conducted in a safe environment where evidence gathered demonstrates consistent performance of typical activities experienced in creative arts industry environments. The assessment environment must include access to:

- equipment, tools and materials used to produce ceramic work
- relevant information sources.

Assessors of this unit must satisfy the requirements for assessors in applicable vocational educational and training legislation, frameworks and/or standards.
