**Release: 1**

# Assessment Requirements for CUADES611 Manage design realisation

## Modification History

Release	Comments
Release 1	This version first released with CUA Creative Arts and Culture Training Package Version 5.0.

## Performance Evidence

The candidate must demonstrate the ability to complete the tasks outlined in the elements, performance criteria and foundation skills of this unit, including evidence of the ability to:

- manage the realisation of at least two different designs.

In the course of the above, the candidate must:

- adhere and monitor brief requirements that include:
  - standards, timeframes and budgets
  - technical feasibility
- develop a plan and schedule for design realisation
- participate in a discussion to clarify, negotiate and agree on terms and conditions of design realisation.

## Knowledge Evidence

The candidate must be able to demonstrate knowledge to complete the tasks outlined in the elements, performance criteria and foundation skills of this unit, including knowledge of:

- key responsibilities of required personnel in the design realisation context
- best practices when dealing with setbacks in the production process
- organisational policies and procedures applicable to realising designs
- production processes in a particular industry context or discipline including required materials, tools and equipment.

## Assessment Conditions

Skills in this unit must be demonstrated in a workplace or simulated environment where the conditions are typical of those in a working environment in this industry.

This includes access to:

- resources, tools, materials and equipment required for realising a design in a specific context
- a design concept that the candidate can take to realisation stage
- other people to reflect the collaborative nature of the work.

Assessors of this unit must satisfy the requirements for assessors in applicable vocational education and training legislation, frameworks and/or standards.
