Assessment Requirements for CUAGLA301 Produce glasswork

Release: 1

Assessment Requirements for CUAGLA301 Produce glasswork

Modification History

Release	Comments
Release 1	This version first released with CUA Creative Arts and Culture Training Package version 2.0.

Performance Evidence

Evidence of the ability to:

- explore ideas, techniques and historical and contemporary glassworking practice and choose techniques to support own work
- identify and acquire resources required to complete chosen work
- adapt and use combined ceramic techniques to create a single major work or multiple pieces of glasswork that show technical proficiency in chosen techniques
- review and document the work process.

Note: If a specific volume or frequency is not stated, then evidence must be provided at least once.

Knowledge Evidence

To complete the unit requirements safely and effectively, the individual must:

- outline basic intellectual property considerations when making glasswork
- outline methods of exploring techniques to achieve different effects in glasswork
- summarise the main aspects of historical and contemporary glassworking practice and how they can inform own design ideas
- describe, for the elements and principles of design, the key characteristics, key interrelationships and use in glasswork
- summarise, for a range of tools and equipment used to produce glass objects, key physical features and uses, cleaning and maintenance techniques, and storage requirements
- describe the physical properties and capabilities of a range of materials and techniques used to produce glass objects
- discuss typical work space requirements for producing glass objects including ways of organising space and equipment for efficient work operation
- describe procedures for working safely with glassworking materials, tools and equipment.

Assessment Conditions

Assessment must be conducted in a safe environment where evidence gathered demonstrates consistent performance of typical activities experienced in creative arts industry environments. The assessment environment must include access to:

- equipment, tools and materials used to produce glass objects
- relevant information sources.

Assessors of this unit must satisfy the requirements for assessors in applicable vocational educational and training legislation, frameworks and/or standards.
