# Assessment Requirements for CUAPHI313 Process photo images

## Modification History

Release	Comments
Release 1	This version first released with CUA Creative Arts and Culture Training Package Version 5.0.

## Performance Evidence

The candidate must demonstrate the ability to complete the tasks outlined in the elements, performance criteria and foundation skills of this unit, including evidence of the ability to:

- process photo images according to at least four different production brief requirements.

In the course of the above, the candidate must:

- prepare required work environment, equipment and materials for the task
- produce proof sheets, work-prints and digital files using appropriate techniques within required timeframe
- follow workplace health and safety procedures during photo processing work
- check, clean and store equipment according to workplace requirements.

## Knowledge Evidence

The candidate must be able to demonstrate knowledge to complete the tasks outlined in the elements, performance criteria and foundation skills of this unit, including knowledge of:

- work space requirements for photo imaging
- capabilities of digital equipment and their applications for processing photo images
- characteristics of materials under different treatments and the varying effects achieved
- common enhancement techniques used to improve the quality of photographic prints
- work health and safety requirements for photo imaging work.

## Assessment Conditions

Skills in this unit must be demonstrated in a workplace or simulated environment where the conditions are typical of those in a working environment in this industry.

This includes access to:

- materials, resources and equipment needed to process and enhance analog or digital photo images.

Assessors of this unit must satisfy the requirements for assessors in applicable vocational education and training legislation, frameworks and/or standards.
