Assessment Requirements for CUAPHI504 Employ specialised imaging technologies

Release: 1

Assessment Requirements for CUAPHI504 Employ specialised imaging technologies

Modification History

Release	Comments
Release 1	This version first released with CUA Creative Arts and Culture Training Package version 2.0.

Performance Evidence

Evidence of the ability to:

- create a body of photo images experimenting with, and applying, specialised imaging technologies around a specific theme or subject matter
- document specialised imaging processes for use in future contexts
- evaluate own performance for improvement.

Note: If a specific volume or frequency is not stated, then evidence must be provided at least once.

Knowledge Evidence

To complete the unit requirements safely and effectively, the individual must:

- describe a range of specialised imaging technologies, their attributes and their applications
- outline the history of the development of photo imaging technologies
- explain the opportunities offered by imaging technology to represent the subject matter in different ways
- explain the health and safety considerations associated with imaging technology.

Assessment Conditions

Assessment must be conducted in a safe environment where evidence gathered demonstrates consistent performance of typical activities experienced in creative arts industry environments. The assessment environment must include access to:

- specialised image technologies
- sources of information on historical and contemporary imaging technology and techniques.

Assessors of this unit must satisfy the requirements for assessors in applicable vocational educational and training legislation, frameworks and/or standards.
