Release: 1

CUAPPM513 Incorporate creative and technical needs into management processes

Modification History

Release	Comments
Release 1	This version first released with CUA Creative Arts and Culture Training Package Version 5.0.

Application

This unit describes the skills and knowledge required to work with creative and technical personnel to realise concepts that underpin productions in the screen, media, entertainment and events industries. It involves evaluating creative and technical production trends and applying this knowledge to production activities.

The unit applies to those who display a high level of initiative and judgement as they take responsibility for ensuring that production management decisions take account of creative and technical considerations. They may also be responsible for coordinating and supervising the work of teams engaged in a range of production activities.

No licensing, legislative or certification requirements apply to this unit at the time of publication.

Unit Sector

Media and Live Entertainment Production – Production Management

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
