# **Application**

This unit describes the performance outcomes, skills and knowledge required to create a range of visual effects, such as textures and trompe l'oeil, on scenic art for productions in the screen, media, entertainment and events industries.

Individuals who apply these skills work autonomously in a team environment as they take responsibility for ensuring that special effects on scenic art meet the creative requirements of productions. They may be responsible for supervising others.

No licensing, legislative or certification requirements apply to this unit at the time of publication.
