Assessment Requirements for CUASOU202

Perform basic sound editing

Release: 1

Assessment Requirements for CUASOU202 Perform basic sound editing

Modification History

Release	Comments
Release 1	This version first released with CUA Creative Arts and Culture Training Package version 2.0.

Performance Evidence

Evidence of the ability to:

- prepare and edit audio content to meet creative and technical production requirements
- use editing software and equipment proficiently, manipulating and applying effects where required
- digitise audio content in compatible formats
- assess and optimise quality of sound sequences
- accurately mark, log, document and archive edited sequences
- seek feedback from others to improve own technical and creative performance.

Note: If a specific volume or frequency is not stated, then evidence must be provided at least once.

Knowledge Evidence

To complete the unit requirements safely and effectively, the individual must:

- describe a range of digital formats compatible with various editing processes, platforms and equipment
- outline procedures to log and document edited sequences
- outline typical challenges that arise collecting and organising content for broadcast and publication, and how to handle these
- identify characteristics of sound that can be manipulated to achieve high quality output
- outline work health and safety requirements for working with sound.

Assessment Conditions

Assessment must be conducted in a safe environment where evidence gathered demonstrates consistent performance of typical activities experienced in creative arts industry environments. The assessment environment must include access to:

- audio editing software and equipment
- manuals and instructions to support software and equipment
- audio content.

Assessors of this unit must satisfy the requirements for assessors in applicable vocational educational and training legislation, frameworks and/or standards.
