Assessment Requirements for CUA403 Operate flying systems

Release: 2

Assessment Requirements for CUA ST A403 Operate flying systems

Modification History

Release	Comments
Release 2	This version released with CUA Creative Arts and Culture Training Package version 2.0. Updated assessment conditions section. Updated modification history section to reflect changed name of training package.
Release 1	This version first released with CUA Creative Arts and Culture Training Package version 1.0.

Performance Evidence

Evidence of the ability to:

- operate flying systems for at least two productions
- follow safety procedures
- work collaboratively.

Note: If a specific volume or frequency is not stated, then evidence must be provided for each of the above points at least once.

Knowledge Evidence

To complete the unit requirements the individual must:

- describe issues and challenges that typically arise when operating flying systems, along with solutions to address them
- explain the link between flying and other aspects of productions and the range of elements that are commonly flown
- explain different ways in which flying systems can be operated
- explain safety issues that impact on flying systems, including regulations about the scope of work that can be undertaken by unlicensed personnel and emergency procedures
- explain sequencing, timing and speed requirements for flying systems in a range of productions
- provide examples of communication systems and correct signals to use when operating flying systems
- explain the following in relation to counterweight systems:
 - loading and unloading cradles

- safe working loads
- single and double purchase
- spreading the load
- swinging bars
- where to hang lighting bars and masking.

Assessment Conditions

Assessment must be conducted in a safe environment where evidence gathered demonstrates consistent performance of typical activities experienced in creative arts industry environments. The assessment environment must include access to:

- a venue in which a theatrical flying system is installed
- a production that requires the operation of flying systems.

Assessors of this unit must satisfy the requirements for assessors in applicable vocational educational and training legislation, frameworks and/or standards.
