Assessment Requirements for CUAVSS301 Install and test vision systems

Release: 2

Assessment Requirements for CUAVSS301 Install and test vision systems

Modification History

Release	Comments
Release 2	This version released with CUA Creative Arts and Culture Training Package version 2.0. Updated assessment conditions section. Updated modification history section to reflect changed name of training package.
Release 1	This version first released with CUA Creative Arts and Culture Training Package version 1.0.

Performance Evidence

Evidence of the ability to:

- install and test vision system equipment according to at least two different vision system plans
- meet work deadlines
- follow safety procedures
- work collaboratively.

Note: If a specific volume or frequency is not stated, then evidence must be provided for each of the above points at least once.

Knowledge Evidence

To complete the unit requirements the individual must:

- describe key operational features, capacities and limitations of a range of vision system equipment
- explain how the technical areas of staging, lighting and sound are used in conjunction with vision systems
- describe issues and challenges that typically arise when setting up and testing vision system equipment and suggest solutions to address them
- describe how the following health and safety issues apply to installing and testing vision systems:
    - licensing requirements for persons performing high risk work and entering building sites
    - manual-handling techniques

- rigging procedures
- working with electricity and hazardous substances.

Assessment Conditions

Assessment must be conducted in a safe environment where evidence gathered demonstrates consistent performance of typical activities experienced in creative arts industry environments. The assessment environment must include access to:

- vision system plans
- a venue where vision systems can be installed and tested.

Assessors of this unit must satisfy the requirements for assessors in applicable vocational educational and training legislation, frameworks and/or standards.
