Repair and maintain vision system
equipment**

Release: 2

Assessment Requirements for CUA VSS303 Repair and maintain vision system equipment

Modification History

Release	Comments
Release 2	This version released with CUA Creative Arts and Culture Training Package version 2.0. Updated assessment conditions section. Updated modification history section to reflect changed name of training package.
Release 1	This version first released with CUA Creative Arts and Culture Training Package version 1.0.

Performance Evidence

Evidence of the ability to:

- use the appropriate tools to undertake routine repairs and maintenance on vision systems
- apply logical fault-detection procedures
- follow health and safety procedures when testing and maintaining vision system equipment
- refer to service and technical manuals when undertaking repair and maintenance tasks
- work collaboratively.

Note: If a specific volume or frequency is not stated, then evidence must be provided for each of the above points at least once.

Knowledge Evidence

To complete the unit requirements the individual must:

- explain typical maintenance needs and schedules for a range of vision systems
- explain the type of cleaning agents to use with different equipment
- explain techniques and processes for detecting and repairing common faults in lighting equipment
- describe common spare parts and sub-assemblies used when maintaining and repairing vision systems
- explain how to handle, maintain and store the following recording/playback mediums used in vision systems:
 - computer discs
 - film

- RAM chips
- servers
- tapes
- video
- explain the consequences of not operating and maintaining vision systems in optimal condition
- describe health and safety issues in relation to the repair and maintenance of vision systems.

Assessment Conditions

Assessment must be conducted in a safe environment where evidence gathered demonstrates consistent performance of typical activities experienced in creative arts industry environments. The assessment environment must include access to venues or locations with vision systems.

Assessors of this unit must satisfy the requirements for assessors in applicable vocational educational and training legislation, frameworks and/or standards.
