# Assessment Requirements for CUAVSS312 Operate vision systems

# Assessment Requirements for CUAVSS312 Operate vision systems

## Modification History

| Release | Comments |
|---------|----------|
| Release 1 | This version first released with CUA Creative Arts and Culture Training Package Version 5.0. |

## Performance Evidence

The candidate must demonstrate the ability to complete the tasks outlined in the elements, performance criteria and foundation skills of this unit, including evidence of the ability to:

- operate industry-standard vision system equipment during at least two live productions.

In the course of the above, the person must:

- interpret and test running sheets
- follow safety procedures during run through, systems operations and power down
- work collaboratively with others to ensure production requirements and deadlines are met.

## Knowledge Evidence

The candidate must be able to demonstrate knowledge to complete the tasks outlined in the elements, performance criteria and foundation skills of this unit, including knowledge of:

- key operational features, capacities and limitations of the vision system equipment required in performance evidence
- procedures for using the production areas of staging, lighting and sound in conjunction with vision systems
- issues and challenges that typically arise when operating vision systems and strategies to address them
- role and responsibilities of vision system technicians during live productions and events
- work health and safety requirements relating to operating vision systems, including:
  - licensing requirements for persons performing high risk work and entering building sites
  - safe manual-handling techniques
  - rigging procedures
  - working safely with electricity and hazardous substances.

## Assessment Conditions

Skills in this unit must be demonstrated in a workplace or simulated environment where the conditions are typical of those in a working environment in this industry.

This includes access to:

- vision system cue sheets
- standard vision system equipment
- a venue where vision systems can be operated.

Assessors of this unit must satisfy the requirements for assessors in applicable vocational education and training legislation, frameworks and/or standards.
