CUAWOO501 Refine woodworking techniques

Release: 1

CUAWOO501 Refine woodworking techniques

Modification History

Release	Comments
Release 1	This version first released with CUA Creative Arts and Culture Training Package version 2.0.

Application

This unit describes the skills and knowledge required to research and experiment with a broad range of woodworking techniques to refine and evaluate an individual professional style.

It applies to highly skilled visual artists who integrate the use of those different techniques explored, to realise a coherent body of creative work which could include functional items or art pieces. They work with a high level of independence seeking mentoring and guidance as required.

No licensing, legislative or certification requirements apply to this unit at the time of publication.

Unit Sector

Visual communication – wood

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
1. Research woodworking ideas and techniques	1.1 Support professional practice by expanding knowledge of historical and contemporary woodwork 1.2 Research ways that other artists have used different woodworking techniques 1.3 Investigate how particular woodworking techniques work to achieve different technical effects 1.4 Evaluate the relationships between woodworking techniques and ideas 1.5 Adapt and use relevant ideas and approaches and comply with intellectual property requirements

ELEMENT	PERFORMANCE CRITERIA
2. Select woodworking techniques for refinement	2.1 Evaluate creative and professional opportunities offered by different woodworking techniques 2.2 Identify and assess limitations and constraints of particular techniques 2.3 Select a broad range of woodworking techniques for refinement
3. Determine safety requirements for woodworking	3.1 Investigate safety issues associated with woodworking 3.2 Set up work space, equipment, tools and materials according to safety requirements 3.3 Establish and follow safe work practices 3.4 Monitor key safety issues during production of the work
4. Consolidate woodworking technique to professional level	4.1 Develop increasing confidence and skill through practice and experimentation 4.2 Proactively identify and resolve technical problems in woodworking projects based on developing expertise 4.3 Challenge and test ideas and use creative thinking techniques to encourage new and unpredictable ideas to emerge 4.4 Evolve ideas and other professional skills through ongoing experimentation with technique 4.5 Develop own ways of working with techniques to create individual style 4.6 Create a coherent body of woodwork that shows command of selected woodworking techniques
5. Evaluate own woodworking technique	5.1 Evaluate development of own technique with others and seek feedback 5.2 Seek and participate in professional discussions that challenge and explore different concepts and approaches 5.3 Evaluate particular ways that experimentation with different techniques has informed own artwork 5.4 Identify ways to further develop technique as part of professional practice and build ideas into future work

Foundation Skills

This section describes language, literacy, numeracy and employment skills incorporated in the performance criteria that are required for competent performance.

Skill	Performance Criteria	Description
Reading	1.1-1.3	Interprets and evaluates complex and unfamiliar information to support design ideas and to identify key information about techniques
Oral Communication	5.1, 5.2	- Uses questioning and active listening techniques to elicit feedback and confirm understanding - Initiates and participates in complex discussions, using language and features appropriate to the audience and context
Navigate the world of work	1.5, 3.1-3.4	Takes responsibility for compliance with legislative and sustainability requirements associated with creative work
Interact with others	5.1, 5.2	- Encourages contribution of creative, innovative and technical ideas from other artists - Fosters a collaborative approach to professional skills development through sharing and receiving knowledge, experience and information
Get the work done	1.1-1.4, 2.3, 4.1-4.6	- Develops plans to broaden own artistic knowledge, techniques and professional style, identifying and responding to issues as they arise - Takes responsibility for completing own research and creative works from design inception to realisation, managing own time and productivity to sequence stages - Manages own decisions about refinement of techniques - Resolves problems with technique through practice, experimentation and analysis - Creates opportunities to use a more innovative approach and personal style
