Unit Descriptor
This unit describes the performance outcomes, skills and knowledge required to organise movement in order to compose a short dance sequence with limited topic or scope. It involves using the body in space, designing timing and dynamic contrasts, and building relationships that convey the message of the dance. The skills developed in this unit are the building blocks for the craft of choreography.

Application of the Unit
Dancers who are required to compose short and simple dance sequences apply the skills and knowledge outlined in this unit. At this level dance composition is simple in nature, for example using one prop or taking a theme, such as meeting and parting, and could be applied to a variety of dance styles, such as tap, jazz, contemporary, street and cultural forms of dance. Pieces could be developed as part of dance studies or for informal presentation. Work is usually undertaken under supervision, though some autonomy and judgement can be expected.

Licensing/Regulatory Information
No licensing, legislative, regulatory or certification requirements apply to this unit at the time of endorsement.

Pre-Requisites
Not applicable.

Employability Skills Information
This unit contains employability skills.

Required Skills and Knowledge

This section describes the skills and knowledge required for this unit.

Required skills

- communication and teamwork skills to:
  - work collaboratively with others, including providing direction
  - receive constructive feedback and apply it to future work
- initiative and creativity skills to:
  - compose dance within a specified form
  - work creatively with others
  - solve problems in a simple dance sequence
  - follow through with own individual style or idea
- learning skills to:
  - improve performance and skills through experimentation and practice
  - research a topic to inform basic dance composition tasks
- planning and organising skills to collect information about various dance works for analysis
- technical skills to:
  - perform appropriate stretches, exercises and breathing techniques to warm up and cool down
  - demonstrate the use of starting points, intent and form when composing dance.

Required knowledge

- dance as a form of communication
- form, intent and starting points in dance composition
- appropriate vocabulary used in dance
- issues and challenges that arise in the context of composing dance
- OHS practices, procedures and standards as they apply to dancing in a range of physical environments
- difference between abstraction and stylisation.
Evidence Guide

The evidence guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, range statement and the Assessment Guidelines for the Training Package.

Assessment methods should closely reflect workplace demands (e.g. literacy) and the needs of particular groups (e.g. people with disabilities and people who may have literacy or numeracy difficulties, such as speakers of languages other than English, remote communities and those with interrupted schooling).

| Guidance information for assessment | Holistic assessment with other units relevant to the industry sector, workplace and job role is recommended, for example: |

Range Statement

The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording, if used in the performance criteria, is detailed below. Essential operating conditions that may be present with training and assessment (depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts) may also be included.

| Warm-up activities may include:        | • minor stretches  
|                                      | • joint-mobility exercises  
|                                      | • flexibility exercises  
|                                      | • aerobic activities  
|                                      | • coordinated breathing activities.  

| Cool-down activities may include:     | • floor work  
|                                      | • stretching.  

| Injury-prevention techniques may include: | • warming up and cooling down before and after class and performance  
|                                          | • wearing appropriate clothing and footwear  
|                                          | • applying intent and focus while dancing  
|                                          | • not overstretching  
|                                          | • wearing appropriate bandaging and bracing where appropriate to support body  
|                                          | • appropriate diet and rest  
|                                          | • use of appropriate equipment, such as:  
|                                          |   • barre  
|                                          |   • mirror  
|                                          |   • sprung floors  
|                                          | • attention to teacher.  

| Common health concerns may include:   | • lack of rest  
|                                      | • poor diet  
|                                      | • lack of understanding of basic anatomy and physiology of dance  
|                                      | • lack of warming up and cooling down adequately  
|                                      | • overstraining the muscles  
|                                      | • dehydration.  

| Relevant personnel may include:       | • teacher  
|                                      | • peer  
|                                      | • director  
|                                      | • producer  
|                                      | • agent.  

| Elements of dance may                 | • space  

include:

- time
- dynamics.

Components may include:

- starting points
- working with intention
- working with motifs:
  - identifying a motif
  - developing motifs by manipulating components of time, space and dynamics
- choreographic forms
- phrasing:
  - shaping
  - creating variety in length
- structuring a work:
  - unity and variety
  - contrast
  - climax and resolution
  - repetition
  - sequencing
  - transitions
- abstraction and stylisation.

Intent may include:

- reading movement
- expressing an idea through movement
- using known movements with intention versus creating new vocabularies
- working intuitively and cognitively.

Form may include:

- choreographic forms:
  - binary
  - ternary
  - rondo
  - theme and variations
  - narrative
  - organic.

Dance may be documented through:

- notation
- video recording.

Concepts of music may include:

- duration
- pitch
- dynamics
- tone colour
- texture
- structure.
**Starting points** may include:

- beginning with:
  - an idea
  - a movement phrase
  - a piece of music
  - waiting for inspiration
  - other beginnings.

**Stimuli** may include:

- music, such as:
  - musical styles, like jazz, hip-hop and world
  - vocal
  - instrumental
- percussion, such as:
  - drums
  - hands
  - feet stamps
  - percussion instruments
- word motivation, such as:
  - wobble, twitch, freeze
  - vault, twirl, collapse
  - pause, swell, jerk
  - vibrate, bound, creep
- technical equipment, such as:
  - lighting
  - audiovisual
  - fog machines
  - scaffolding
- other props, objects and materials, such as:
  - fabric
  - instruments
  - puppets or dolls
  - piece of clothing
  - ladder or chair
- silent space
- various texts.

**Composing a dance sequence** may include:

- starting points
- solving problems
- researching a topic
- improvisation
- reflection and analysis
- refinement and rehearsal.
Working with other dancers may include:
- introduction to rehearsing and directing skills
- recognising the skill level and strengths of available dancers.
