CUS09 Music

Release: 1.1

CONTENTS

Imprint **13**
Preliminary Information **14**
History **14**
List of AQF Qualifications **15**
List of all CUS units in CUS09 Training Package **16**
Mapping to Previous Training Package **31**
Overview **49**
Historical and General Information **53**
Introduction to the Industry **54**
Qualifications Framework **55**
Qualification Pathways **61**
Skill Sets in this Training Package **62**
Industry Requirements for Employability Skills **63**
Whole of Industry Qualification Information **69**
Assessment Guidelines **70**
Competency Standards **97**
Appendices **103**
CUS20109 Certificate II in Music **117**
CUS30109 Certificate III in Music **121**
CUS30209 Certificate III in Technical Production **127**
CUS30309 Certificate III in Music Business **135**
CUS40109 Certificate IV in Music **141**
CUS40209 Certificate IV in Sound Production **148**
CUS40309 Certificate IV in Music Business **156**
CUS50109 Diploma of Music **165**
CUS50209 Diploma of Sound Production **172**
CUS50309 Diploma of Music Business **179**
CUS60109 Advanced Diploma of Music **189**
CUS60209 Advanced Diploma of Sound Production **197**
CUS60309 Advanced Diploma of Music Business **204**
CUSSS00001 Music tutor skill set **212**
CUSADM301A Administer operations for rehearsals and performances **214**
CUSEVT301A Book performance venues **221**
CUSFIM501A Secure funding for projects **229**
CUSIND301B Work effectively in the music industry **237**
CUSIND302A Plan a career in the creative arts industry **248**
CUSIND401A Develop specialist expertise in the music industry **258**
CUSIND501A Apply music knowledge and artistic judgement **267**
CUSLED501A Provide instrumental or vocal tuition **277**
CUSLED502A Provide tuition for composition **289**
CUSMCP301A Compose simple songs or musical pieces **298**
CUSMCP302A Write song lyrics **307**
CUSMCP303A Develop simple musical pieces using electronic media **316**
CUSMCP401A Develop techniques for arranging music **326**
CUSMCP402A Develop techniques for composing music **337**
CUSMCP501A Compose music using electronic media **347**
CUSMCP502A Compose music for screen **358**
CUSMCP503A Prepare compositions for publishing **369**
CUSMCP601A Extend techniques for composing music **377**

CUSMCP602A Extend techniques for arranging music 387
CUSMGT401A Manage distribution of music and associated products 397
CUSMGT402A Administer music publishing income 405
CUSMGT403A Manage licensing of music 414
CUSMGT404A Administer artists' royalty income 423
CUSMGT502A Manage artists and their careers 431
CUSMGT503A Develop artists and repertoire 440
CUSMKG301A Assist with the promotion of creative acts 449
CUSMKG501A Manage the promotion of creative acts 458
CUSMLT201A Develop and apply musical ideas and listening skills 470
CUSMLT202A Apply knowledge of music culture to music making 478
CUSMLT301A Apply knowledge of genre to music making 485
CUSMLT302A Develop and apply aural-perception skills 492
CUSMLT303A Notate music 499
CUSMLT401A Notate music for performance 506
CUSMLT402A Articulate ideas about music 513
CUSMLT403A Analyse functional harmony 522
CUSMLT501A Refine aural-perception skills 530
CUSMLT502A Apply concepts about the impact of music to professional practice 538
CUSMLT601A Analyse music 545
CUSMLT602A Analyse harmony 554
CUSMPF101A Develop skills to play or sing music 563
CUSMPF102A Develop ensemble skills to perform simple musical parts 571
CUSMPF201A Play or sing simple musical pieces 576
CUSMPF202A Incorporate music technology into performance 584
CUSMPF203A Develop ensemble skills for playing or singing music 590
CUSMPF204A Play music from simple written notation 598
CUSMPF301A Develop technical skills in performance 604
CUSMPF302A Prepare for performances 614
CUSMPF303A Contribute to backup accompaniment 621
CUSMPF304A Make a music demo 628
CUSMPF305A Develop improvisation skills 636
CUSMPF401A Rehearse music for group performances 643
CUSMPF402A Develop and maintain stagecraft skills 652
CUSMPF403A Develop repertoire as part of a backup group 660
CUSMPF404A Perform music as part of a group 667
CUSMPF405A Develop instrumental techniques 676
CUSMPF406A Perform music as a soloist 685
CUSMPF407A Develop vocal techniques 693
CUSMPF408A Develop performance techniques on a second instrument 703
CUSMPF409A Perform music using digital media 713
CUSMPF410A Perform music from written notation 720
CUSMPF501A Prepare a program for performance 727
CUSMPF502A Incorporate interactive technology into performance 735
CUSMPF503A Perform accompaniment 744
CUSMPF505A Perform improvisation for audiences 753
CUSMPF506A Develop technical skills and expand repertoire 760
CUSMPF507A Present live audition programs 769
CUSMPF508A Provide musical leadership in performance 778
CUSMPF601A Present a music performance 787
CUSMPF602A Manage stagecraft aspects of performances 796
CUSMPF603A Refine performance techniques and expand repertoire 804
CUSMPF604A Extend improvisation techniques 814

CUSMPF605A Develop advanced vocal techniques 823
CUSMPF606A Conduct musical performances 833
CUSMPF607A Lead music rehearsals 842
CUSOHS301A Follow occupational health and safety procedures 853
CUSPUR501A Establish and manage recording contracts 868
CUSSOU201A Assist with sound recordings 877
CUSSOU202A Mix sound in a broadcasting environment 886
CUSSOU301A Provide sound reinforcement 894
CUSSOU302A Record and mix a basic music demo 903
CUSSOU303A Set up and disassemble audio equipment 913
CUSSOU304A Restore audio tracks 927
CUSSOU305A Analyse soundtracks 937
CUSSOU401A Record sound 943
CUSSOU402A Develop and implement sound plans 956
CUSSOU403A Perform advanced sound editing 965
CUSSOU404A Edit dialogue 977
CUSSOU405A Mix recorded music 988
CUSSOU406A Record sound on location 996
CUSSOU407A Coordinate location sound recording 1006
CUSSOU501A Develop sound designs 1015
CUSSOU502A Produce sound recordings 1024
CUSSOU503A Implement sound designs 1035
CUSSOU504A Create a final sound balance 1045
CUSSOU505A Compile music for soundtracks 1054
CUSSOU601A Manage production of sound designs 1064
CUSSOU602A Manage production of sound recordings 1075
CUSWRT501A Write about music 1085
BSBADM307B Organise schedules 1094
BSBADM311A Maintain business resources 1100
BSBADM502B Manage meetings 1106
BSBADM506B Manage business document design and development 1114
BSBADV405A Perform media calculations 1121
BSBADV406A Buy and monitor media 1127
BSBADV407A Apply media analysis and processing tools 1133
BSBADV507B Develop a media plan 1139
BSBADV509A Create mass print media advertisements 1149
BSBADV510A Create mass electronic media advertisements 1156
BSBADV511A Evaluate and recommend advertising media options 1164
BSBCMM301A Process customer complaints 1171
BSBCMM401A Make a presentation 1177
BSBCON401A Work effectively in a business continuity context 1184
BSBCON601A Develop and maintain business continuity plans 1193
BSBCON701A Establish and review the business continuity management framework and strategies 1206
BSBCRT301A Develop and extend critical and creative thinking skills 1214
BSBCRT401A Articulate, present and debate ideas 1223
BSBCRT402A Collaborate in a creative process 1230
BSBCRT501A Originate and develop concepts 1237
BSBCRT601A Research and apply concepts and theories of creativity 1246
BSBCUS301A Deliver and monitor a service to customers 1254
BSBCUS401A Coordinate implementation of customer service strategies 1262
BSBCUS501A Manage quality customer service 1270
BSBDES201A Follow a design process 1275

The views expressed in the copyright work do not necessarily represent the views of the Commonwealth of Australia.

This work is copyright and licensed under the AEShareNet Free for Education instant licence (AEShareNet-FfE Licence). The onus rests with you to ensure compliance with the AEShareNet-FfE licence and the following is merely a summary of the scope of the Licence.

When you obtain a copy of material that bears the AEShareNet-FfE licence mark by legitimate means you obtain an automatic licence to use and copy the work in whole or in part, solely for educational purposes.

Individual learners may:

1. use the material personally for their education such as including it, with proper attribution, in work that is performed in the course of that education; and
2. make unlimited copies, in whole or in part, of the material.

Organisations may:

1. use the material within the organisation or for the services provided by the organisation;
2. make or give copies to learners;
3. charge for the education provided; and
4. charge learners for the material on a cost-recovery basis.

Conditions for the licence can be found at http://www.aesharenet.com.au/FfE2/. Queries regarding the standard AEShareNet-FfE Licence conditions should be directed to the AEShareNet website at http://www.aesharenet.com.au/help/support/.

In addition to the standard AEShareNet-FfE Licence conditions, the following special conditions apply:

1. The copyright work must only be used in Australia and New Zealand.
2. You are not permitted to develop either an Edited Version or Enhancements of the Licensed Material

Use of this work for purposes other than those indicated above, requires the prior written permission from the Commonwealth. Requests should be addressed to Training Copyright, Department of Education, Employment and Workplace Relations, GPO Box 9880 Canberra City, ACT, 2601 or email copyright@training.com.au.

This work is the result of wide consultations with Australian industry participants. It is a collaborative view and does not necessarily represent the view of the Department or any specific body. For the sake of brevity it may omit factors which could be pertinent in particular cases.

While care has been taken in the preparation of this Training Package, the Department and the original developer do not warrant that any licensing or registration requirements specified here are either complete or up-to-date for your State or Territory. The Department and the original developer do not accept any liability for any damage or loss (including indirect and consequential loss) incurred by any person as a result of relying on the information contained in this Training Package.

The Commonwealth, through the Department of Education, Employment and Workplace Relations, does not accept any liability to any person for the information or advice (or the use of such information or advice) which is provided in this material or incorporated into it by reference. The information is provided on the basis that all persons accessing this material undertake responsibility for assessing the relevance and accuracy of its content. No liability is accepted for any information or services which may appear in any other format. No responsibility is taken for any information or services which may appear on any linked websites.

Preliminary Information

Important Note to Users

Training Packages are not static documents; they are amended periodically to reflect the latest industry practices and are version controlled. It is essential that the latest version is always used.

Check the version number before commencing training or assessment

This Training Package is Version 1.1 - check whether this is the latest version by going to the National Training Information Service (www.ntis.gov.au) and locating information about the Training Package. Alternatively, contact Innovation and Business Industry Skills Council at http://www.ibsa.org.au to confirm the latest version number.

Explanation of version number conventions

The primary release Training Package is Version 1. When changes are made to a Training Package, sometimes the version number is changed and sometimes it is not, depending on the extent of the change. When a Training Package is reviewed it is considered to be a new Training Package for the purposes of version control, and is Version 1. Do not confuse the version number with the Training Packages national code (which remains the same during its period of endorsement).

History

CUS09 Music Training Package is a revision of CUS01 Music Industry Training Package, developed by the now defunct CREATE Australia.

Version 1 of CUS01 was endorsed on 5 April 2001 and, for the first time in Australia, provided national qualifications for vocational education and training in the music industry. The Training

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

Package covered diverse occupations in the music industry across music business, sound production, and performing and composing music.

A review of the Training Package in 2002 resulted in some minor typographical changes to units of competency listed within qualifications.

CUS09 has involved a number of changes to the Training Package. The industry coverage remains the same as for CUS01, namely music business, sound production, music performance and music composition. However, sound production has been expanded to encompass a broad range of industry production contexts – from live music concerts and stage productions to sound recording, mixing and editing in the screen, media and interactive games industries.

CUS09 also sees the introduction of a music tutor skill set, which provides pathways into qualifications in the BSB07 Business Services Training Package and the TAA04 Training and Assessment Training Package.

List of AQF Qualifications

List of AQF Qualifications

Qualification Code	Title
Preparatory pathway qualifications	
CUF10107	Certificate I in Creative Industries

Overview

What is a Training Package?

A Training Package is an integrated set of nationally endorsed competency standards, assessment guidelines and Australian Qualifications Framework (AQF) qualifications for a specific industry, industry sector or enterprise.

Each Training Package:

- provides a consistent and reliable set of components for training, recognising and assessing peoples skills, and may also have optional support materials
- enables nationally recognised qualifications to be awarded through direct assessment of workplace competencies
- encourages the development and delivery of flexible training which suits individual and industry requirements
- encourages learning and assessment in a work-related environment which leads to verifiable workplace outcomes.

How do Training Packages fit within the National Skills Framework?

The National Skills Framework applies nationally, is endorsed by the Ministerial Council for Vocational and Technical Education, and comprises the Australian Quality Training Framework 2007 (AQTF 2007), and Training Packages endorsed by the National Quality Council (NQC).

How are Training Packages developed?

Training Packages are developed by Industry Skills Councils or enterprises to meet the identified training needs of specific industries or industry sectors. To gain national endorsement of Training Packages, developers must provide evidence of extensive research, consultation and support within the industry area or enterprise.

How do Training Packages encourage flexibility?

Training Packages describe the skills and knowledge needed to perform effectively in the workplace without prescribing how people should be trained.

Training Packages acknowledge that people can achieve vocational competency in many ways by emphasising what the learner can do, not how or where they learned to do it. For example, some experienced workers might be able to demonstrate competency against the units of competency, and even gain a qualification, without completing a formal training program.

With Training Packages, assessment and training may be conducted at the workplace,

off-the-job, at a training organisation, during regular work, or through work experience, work placement, work simulation or any combination of these.

Who can deliver and assess using Training Packages?

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

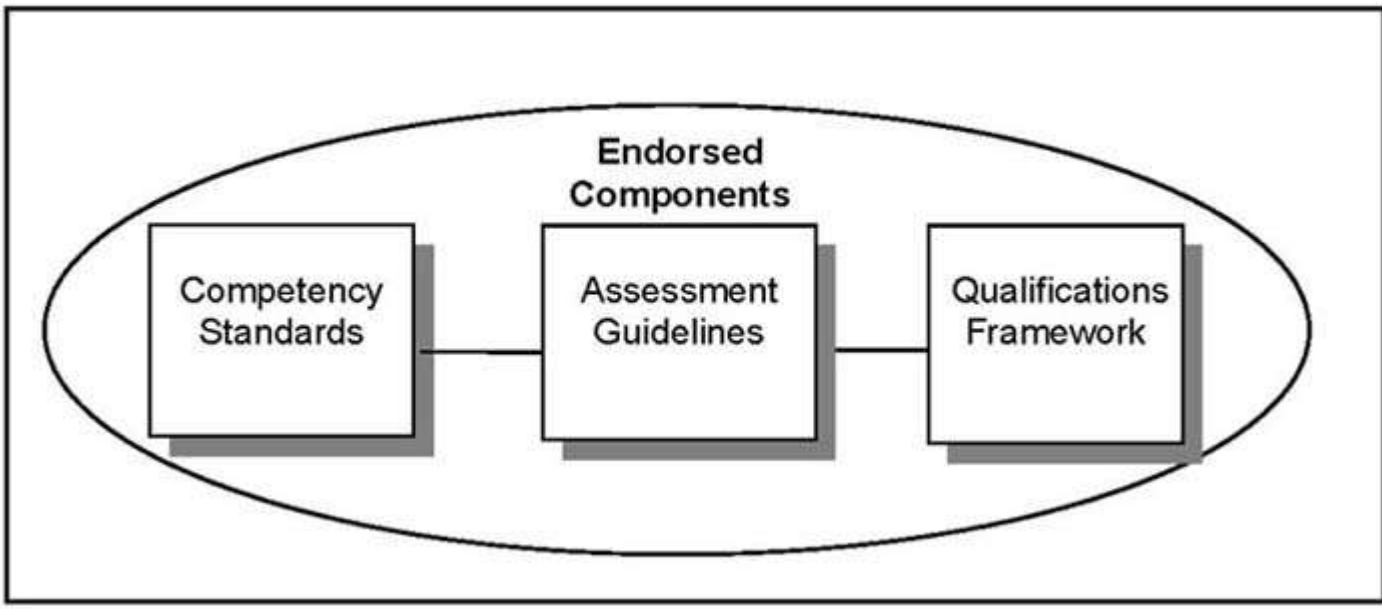
Training and assessment using Training Packages must be conducted by a Registered Training Organisation (RTO) that has the qualifications or specific units of competency on its scope of registration, or that works in partnership with another RTO, as specified in the AQTF 2007.

Training Package Components

Training Packages are made up of mandatory components endorsed by the NQC, and optional support materials.

Training Package Endorsed Components

The nationally endorsed components include the Competency Standards, Assessment Guidelines and Qualifications Framework. These form the basis of training and assessment in the Training Package and, as such, they must be used.



Competency Standards

Each unit of competency identifies a discrete workplace requirement and includes the knowledge and skills that underpin competency as well as language, literacy and numeracy; and occupational health and safety requirements. The units of competency must be adhered to in training and assessment to ensure consistency of outcomes.

Assessment Guidelines

The Assessment Guidelines provide an industry framework to ensure all assessments meet industry needs and nationally agreed standards as expressed in the Training Package and the AQTF 2007. The Assessment Guidelines must be followed to ensure the integrity of assessment leading to nationally recognised qualifications.

Qualifications Framework

Each Training Package provides details of those units of competency that must be achieved

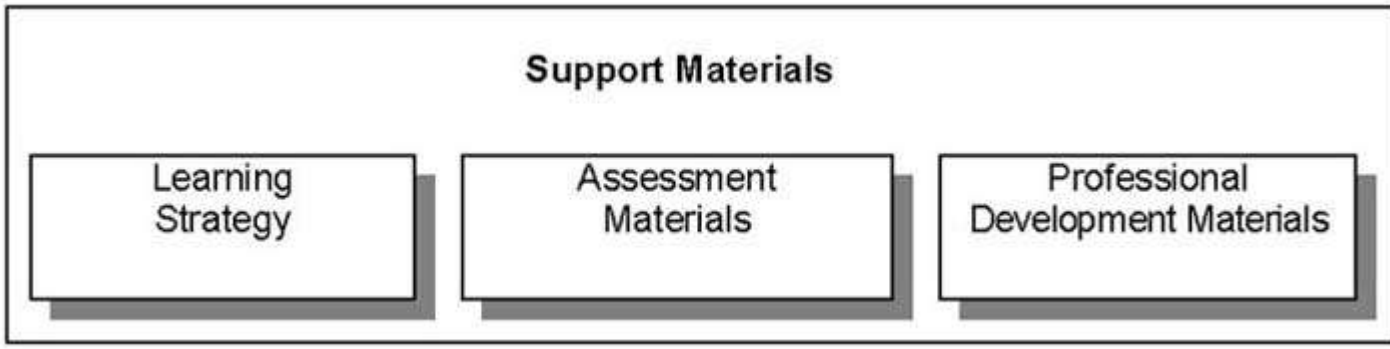
© Commonwealth of Australia, 2025 Service and Creative Skills Australia

to award AQF qualifications. The rules around which units of competency can be combined to make up a valid AQF qualification in the Training Package are referred to as the "packaging rules". The packaging rules must be followed to ensure the integrity of nationally recognised qualifications issued.

Training Package Support Materials

The endorsed components of Training Packages are complemented and supported by optional support materials that provide for choice in the design of training and assessment to meet the needs of industry and learners.

Training Package support materials can relate to single or multiple units of competency, an industry sector, a qualification or the whole Training Package. They tend to fall into one or more of the categories illustrated below.



Training Package support materials are produced by a range of stakeholders such as RTOs, individual trainers and assessors, private and commercial developers and Government agencies.

Where such materials have been quality assured through a process of "noting" by the NQC, they display the following official logo. Noted support materials are listed on the National Training Information Service (NTIS), together with a detailed description and information on the type of product and its availability < www.ntis.gov.au>

It is not compulsory to submit support materials for noting; any resources that meet the requirements of the Training Package can be used.

Training Package, Qualification and Unit of Competency Codes

There are agreed conventions for the national codes used for Training Packages and their components. Always use the correct codes, exactly as they appear in the Training Package, **and with the code always before the title**.

Training Package Codes

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

Each Training Package has a unique five-character national code assigned when the Training Package is endorsed, for example CUS09. The first three characters are letters identifying the Training Package industry coverage and the last two characters are numbers identifying the year of endorsement.

Qualification Codes

Within each Training Package, each qualification has a unique eight-character code, for example CUS20109. Qualification codes are developed as follows:

- the first three letters identify the Training Package;
- the first number identifies the qualification level (noting that, in the qualification titles themselves, arabic numbers are **not** used);
- the next two numbers identify the position in the sequence of the qualification at that level; and
- the last two numbers identify the year in which the qualification was endorsed. (Where qualifications are added after the initial Training Package endorsement, the last two numbers may differ from other Training Package qualifications as they identify the year in which those particular qualifications were endorsed.)

Unit of Competency Codes

Within each Training Package, each unit of competency has a unique code. Unit of competency codes are assigned when the Training Package is endorsed, or when new units of competency are added to an existing endorsed Training Package. Unit codes are developed as follows:

- a typical code is made up of 12 characters, normally a mixture of uppercase letters and numbers, as in CUSADM301A;
- the first three characters signify the Training Package - CUS09 - in the above example and up to eight characters, relating to an industry sector, function or skill area, follow;
- the last character is always a letter and identifies the unit of competency version. An "A" at the end of the code indicates that this is the original unit of competency. "B", or another incremented version identifier means that minor changes have been made. Typically this would mean that wording has changed in the range statement or evidence guide, providing clearer intent; and
- where changes are made that alter the outcome, a new code is assigned and the title is changed.

Training Package, Qualification and Unit of Competency Titles

There are agreed conventions for titling Training Packages and their components. Always use the correct titles, exactly as they appear in the Training Package, and with the code always placed before the title.

Training Package Titles

The title of each endorsed Training Package is unique and relates the Training Packages broad industry coverage.

Qualification Titles

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

The title of each endorsed Training Package qualification is unique. Qualification titles use the following sequence:

• first, the qualification is identified as either Certificate I, Certificate II, Certificate III, Certificate IV, Diploma, Advanced Diploma, Vocational Graduate Certificate, or Vocational Graduate Diploma;

• this is followed by the words "in" for Certificates I to IV, and "of" for Diploma, Advanced Diploma, Vocational Graduate Certificate and Vocational Graduate Diploma;

• then, the industry descriptor, for example Telecommunications; and

• then, if applicable, the occupational or functional stream in brackets, for example (Computer Systems).

For example:

• CUS20109 Certificate II in Music

Unit of Competency Titles

Each unit of competency title is unique. Unit of competency titles describe the competency outcome concisely, and are written in sentence case.

For example:

• CUSADM301A Administer operations for rehearsals and performances

Historical and General Information

The Music Training Package is one of a suite of Training Packages within the cultural industries. The cultural industries comprise the following sectors:

- community cultural development
- entertainment
- interactive digital media
- library and information services
- museums, galleries and cultural heritage sites
- screen and media
- visual arts, craft and design.

The Music Training Package was first developed and endorsed in 2001 under the original title of CUS01 Music Industry Training Package.

This revised CUS09 version is based on a comprehensive review of industry trends and feedback on CUS01 from both industry and training providers. It also takes into account Training Package development requirements as outlined in the *Training Package Development Handbook* which can be accessed online at www.tpdh.deewr.gov.au.

The review and redevelopment of the national music qualifications were undertaken within a context of consultation and feedback from industry and training providers. A number of principles, which reflect IBSA guiding design principles for qualifications,

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

underpin the revisions, including:

- maximising flexibility to ensure the qualifications can meet a range of different needs and contexts, including multi-skilling, specialisation and small or large business focus
- providing clear guidance on how to package units to meet specific job outcomes
- maximising opportunity to draw units from other Training Packages under IBSA coverage to increase flexibility, pathways and recognition
- importing units from Training Packages outside IBSA coverage, e.g. a range of units from the SIT07 Tourism, Hospitality and Events Training Package to address event management skill requirements
- developing qualifications that can be used within other Training Packages, e.g. technical production which is relevant to the CUE03 Entertainment Training Package, and sound production which is relevant to both the CUE03 Entertainment Training Package and the CUF07 Screen and Media Training Package.

The qualifications are not courses and the units of competency are not curriculum documents. Conceptually, units represent logical chunks of work and the combination of units in qualifications reflect a whole job role. Guided by the packaging rules, registered training organisations (RTOs) select units that cover the skills required in whatever job roles they wish to target in courses. The qualification structure allows them to decide what they will teach, when and how. It describes the outcomes of training but leaves the detailed decision making and implementation to RTOs.

Introduction to the Industry

Acting on behalf of the Australian government, and working within the scope of vocational education and training (VET), the Department of Education, Employment and Workplace Relations (DEEWR) works to ensure that Australian industries have access to the people and skills they need, both to maintain existing operations, and to achieve competitive and opportunity-led change.

In July 2004, the then Australian National Training Authority (ANTA) established the Innovation and Business Industry Skills Council (which trades as Innovation and Business Skills Australia, or IBSA) to assist industry and governments to identify and coordinate activities directed towards meeting the people and skill needs of six key industry sectors of the Australian economy. These industry sectors include:

- business services
- cultural industries
- education
- financial services
- information and communication technologies (ICT)
- printing.

The cultural industries comprise screen and media, music and entertainment, museum

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

and library/information services, and visual arts, craft and design. As with many other sectors, technological convergence is affecting the way people work in the creative industries. In a study for IBSA, the Centre for International Economics stated that 'convergence is redefining the boundaries between industries – many of the cultural and creative industries that were once separate now need similar skills'. (**Source**: *Cultural Industries Research Project* **report** prepared for IBSA by the Centre for International Economics, p. 23)

Advances in digital technology and the internet as a mass, global communication network have had a dramatic effect on the way music is performed, recorded, promoted and distributed. Significant shifts include:

- the proliferation of home studios equipped with digital audio workstations that enable musicians and bands to record and mix their own singles and albums
- a decline in sales of physical products such as CDs, countered by a dramatic rise in digital sales through outlets such as iTunes and mobile phone companies
- new business models which extend the range of services and products covered in contracts with performers
- new approaches to music distribution through the internet
- new forms of online marketing which tap into social networking sites that allow musicians to communicate directly with fans
- entry of new participants in the music industry, such as mobile phone companies.

Qualifications Framework

The Australian Qualifications Framework

What is the Australian Qualifications Framework?

A brief overview of the Australian Qualifications Framework (AQF) follows. For a full explanation of the AQF, see the *AQF Implementation Handbook*.
http://www.aqf.edu.au/Portals/0/Documents/Handbook/AQF_Handbook_07.pdf

The AQF provides a comprehensive, nationally consistent framework for all qualifications in post-compulsory education and training in Australia. In the vocational education and training (VET) sector it assists national consistency for all trainees, learners, employers and providers by enabling national recognition of qualifications and Statements of Attainment.

Training Package qualifications in the VET sector must comply with the titles and guidelines of the AQF. Endorsed Training Packages provide a unique title for each AQF qualification which must always be reproduced accurately.

Qualifications

Training Packages can incorporate the following eight AQF qualifications.

- Certificate I in ...
- Certificate II in ...
- Certificate III in ...
- Certificate IV in ...

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

- Diploma of ...
- Advanced Diploma of ...
- Vocational Graduate Certificate of ...
- Vocational Graduate Diploma of ...

On completion of the requirements defined in the Training Package, a Registered Training Organisation (RTO) may issue a nationally recognised AQF qualification. Issuance of AQF qualifications must comply with the advice provided in the *AQF Implementation Handbook* and the AQTF 2010 *Essential Standards for Initial and Continuing Registration*.

Statement of Attainment

A Statement of Attainment is issued by a Registered Training Organisation when an individual has completed one or more units of competency from nationally recognised qualification(s)/courses(s). Issuance of Statements of Attainment must comply with the advice provided in the current *AQF Implementation Handbook* and the AQTF 2010 *Essential Standards for Initial and Continuing Registration*.

Under the AQTF 2010, RTOs must recognise the achievement of competencies as recorded on a qualification or Statement of Attainment issued by other RTOs. Given this, recognised competencies can progressively build towards a full AQF qualification.

AQF Guidelines and Learning Outcomes

The *AQF Implementation Handbook* provides a comprehensive guideline for each AQF qualification. A summary of the learning outcome characteristics and their distinguishing features for each VET related AQF qualification is provided below.

Certificate I

Characteristics of Learning Outcomes

Breadth, depth and complexity of knowledge and skills would prepare a person to perform a defined range of activities most of which may be routine and predictable.

Applications may include a variety of employment related skills including preparatory access and participation skills, broad-based induction skills and/or specific workplace skills. They may also include participation in a team or work group.

Distinguishing Features of Learning Outcomes

Do the competencies enable an individual with this qualification to:

- demonstrate knowledge by recall in a narrow range of areas;
- demonstrate basic practical skills, such as the use of relevant tools;
- perform a sequence of routine tasks given clear direction

receive and pass on messages/information.

Certificate II

Characteristics of Learning Outcomes

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

Breadth, depth and complexity of knowledge and skills would prepare a person to perform in a range of varied activities or knowledge application where there is a clearly defined range of contexts in which the choice of actions required is usually clear and there is limited complexity in the range of operations to be applied.

Performance of a prescribed range of functions involving known routines and procedures and some accountability for the quality of outcomes.

Applications may include some complex or non-routine activities involving individual responsibility or autonomy and/or collaboration with others as part of a group or team.

Distinguishing Features of Learning Outcomes

Do the competencies enable an individual with this qualification to:

- demonstrate basic operational knowledge in a moderate range of areas;
- apply a defined range of skills;
- apply known solutions to a limited range of predictable problems;
- perform a range of tasks where choice between a limited range of options is required;
- assess and record information from varied sources;

take limited responsibility for own outputs in work and learning.

Certificate III

Characteristics of Learning Outcomes

Breadth, depth and complexity of knowledge and competencies would cover selecting, adapting and transferring skills and knowledge to new environments and providing technical advice and some leadership in resolution of specified problems. This would be applied across a range of roles in a variety of contexts with some complexity in the extent and choice of options available.

Performance of a defined range of skilled operations, usually within a range of broader related activities involving known routines, methods and procedures, where some discretion and judgement is required in the section of equipment, services or contingency measures and within known time constraints.

Applications may involve some responsibility for others. Participation in teams including group or team co-ordination may be involved.

Distinguishing Features of Learning Outcomes

Do the competencies enable an individual with this qualification to:

- demonstrate some relevant theoretical knowledge
- apply a range of well-developed skills
- apply known solutions to a variety of predictable problems
- perform processes that require a range of well-developed skills where some discretion and judgement is required
- interpret available information, using discretion and judgement
- take responsibility for own outputs in work and learning

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

take limited responsibility for the output of others.

Certificate IV

Characteristics of Learning Outcomes

Breadth, depth and complexity of knowledge and competencies would cover a broad range of varied activities or application in a wider variety of contexts most of which are complex and non-routine. Leadership and guidance are involved when organising activities of self and others as well as contributing to technical solutions of a non-routine or contingency nature.

Performance of a broad range of skilled applications including the requirement to evaluate and analyse current practices, develop new criteria and procedures for performing current practices and provision of some leadership and guidance to others in the application and planning of the skills. Applications involve responsibility for, and limited organisation of, others.

Distinguishing Features of Learning Outcomes

Do the competencies enable an individual with this qualification to:

- demonstrate understanding of a broad knowledge base incorporating some theoretical concepts
- apply solutions to a defined range of unpredictable problems
- identify and apply skill and knowledge areas to a wide variety of contexts, with depth in some areas
- identify, analyse and evaluate information from a variety of sources
- take responsibility for own outputs in relation to specified quality standards

take limited responsibility for the quantity and quality of the output of others.

Diploma

Characteristics of Learning Outcomes

Breadth, depth and complexity covering planning and initiation of alternative approaches to skills or knowledge applications across a broad range of technical and/or management requirements, evaluation and co-ordination.

The self directed application of knowledge and skills, with substantial depth in some areas where judgment is required in planning and selecting appropriate equipment, services and techniques for self and others.

Applications involve participation in development of strategic initiatives as well as personal responsibility and autonomy in performing complex technical operations or organising others. It may include participation in teams including teams concerned with planning and evaluation functions. Group or team co-ordination may be involved.

The degree of emphasis on breadth as against depth of knowledge and skills may vary between qualifications granted at this level.

Distinguishing Features of Learning Outcomes

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

Do the competencies or learning outcomes enable an individual with this qualification to:

- demonstrate understanding of a broad knowledge base incorporating theoretical concepts, with substantial depth in some areas
- analyse and plan approaches to technical problems or management requirements
- transfer and apply theoretical concepts and/or technical or creative skills to a range of situations
- evaluate information, using it to forecast for planning or research purposes
- take responsibility for own outputs in relation to broad quantity and quality parameters

take some responsibility for the achievement of group outcomes.

Advanced Diploma

Characteristics of Learning Outcomes

Breadth, depth and complexity involving analysis, design, planning, execution and evaluation across a range of technical and/or management functions including development of new criteria or applications or knowledge or procedures.

The application of a significant range of fundamental principles and complex techniques across a wide and often unpredictable variety of contexts in relation to either varied or highly specific functions. Contribution to the development of a broad plan, budget or strategy is involved and accountability and responsibility for self and others in achieving the outcomes is involved.

Applications involve significant judgement in planning, design, technical or leadership/guidance functions related to products, services, operations or procedures.

The degree of emphasis on breadth as against depth of knowledge and skills may vary between qualifications granted at this level.

Distinguishing Features of Learning Outcomes

Do the competencies or learning outcomes enable an individual with this qualification to:

- demonstrate understanding of specialised knowledge with depth in some areas
- analyse, diagnose, design and execute judgements across a broad range of technical or management functions
- generate ideas through the analysis of information and concepts at an abstract level
- demonstrate a command of wide-ranging, highly specialised technical, creative or conceptual skills
- demonstrate accountability for personal outputs within broad parameters

demonstrate accountability for personal and group outcomes within broad parameters.

Vocational Graduate Certificate

Characteristics of competencies or learning outcomes

- The self-directed development and achievement of broad and specialised areas of knowledge and skills, building on prior knowledge and skills.

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

- Substantial breadth and complexity involving the initiation, analysis, design, planning, execution and evaluation of technical and management functions in highly varied and highly specialised contexts.
- Applications involve making significant, high-level, independent judgements in major broad or planning, design, operational, technical and management functions in highly varied and specialised contexts. They may include responsibility and broad-ranging accountability for the structure, management and output of the work or functions of others.
- The degree of emphasis on breadth, as opposed to depth, of knowledge and skills may vary between qualifications granted at this level.

Distinguishing features of learning outcomes

- Demonstrate the self-directed development and achievement of broad and specialised areas of knowledge and skills, building on prior knowledge and skills.
- Initiate, analyse, design, plan, execute and evaluate major broad or technical and management functions in highly varied and highly specialised contexts.
- Generate and evaluate ideas through the analysis of information and concepts at an abstract level.
- Demonstrate a command of wide-ranging, highly specialised technical, creative or conceptual skills in complex contexts.
- Demonstrate responsibility and broad-ranging accountability for the structure, management and output of the work or functions of others.

Vocational Graduate Diploma

Characteristics of competencies or learning outcomes

- The self-directed development and achievement of broad and specialised areas of knowledge and skills, building on prior knowledge and skills.
- Substantial breadth, depth and complexity involving the initiation, analysis, design, planning, execution and evaluation of major functions, both broad and highly specialised, in highly varied and highly specialised contexts.
- Further specialisation within a systematic and coherent body of knowledge.
- Applications involve making high-level, fully independent, complex judgements in broad planning, design, operational, technical and management functions in highly varied and highly specialised contexts. They may include full responsibility and accountability for all aspects of work and functions of others, including planning, budgeting and strategy development.
- The degree of emphasis on breadth, as opposed to depth, of knowledge and skills may vary between qualifications granted at this level.

Distinguishing features of learning outcomes

- Demonstrate the self-directed development and achievement of broad and highly specialised areas of knowledge and skills, building on prior knowledge and skills.
- Initiate, analyse, design, plan, execute and evaluate major functions, both broad and within highly varied and highly specialised contexts.

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

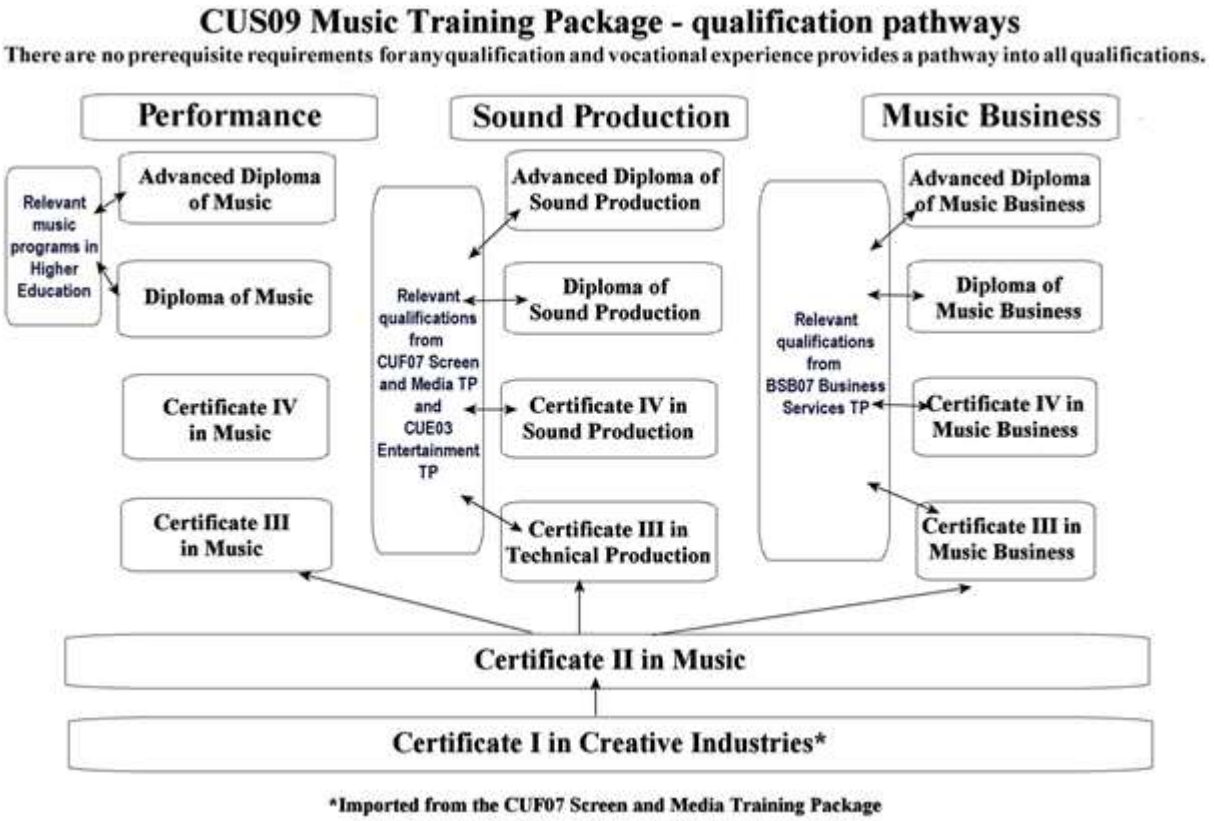
- Generate and evaluate complex ideas through the analysis of information and concepts at an abstract level.
- Demonstrate an expert command of wide-ranging, highly specialised, technical, creative or conceptual skills in complex and highly specialised or varied contexts.
- Demonstrate full responsibility and accountability for personal outputs.
- Demonstrate full responsibility and accountability for all aspects of the work or functions of others, including planning, budgeting and strategy.
-

Qualification Pathways

Qualification Pathways

CUS09 Music Training Package does not mandate particular pathways to the achievement of qualifications. It is the prerogative of RTOs to use the rules of the qualifications to provide the best learning programs and sequences to meet the needs of their students and customers.

The following pathways chart is provided to show the types of pathways into and from qualifications that are possible with this Training Package. For more information about qualifications and pathways contact Innovation and Business Skills Australia.



© Commonwealth of Australia, 2025 Service and Creative Skills Australia

Skill Sets in this Training Package

Definition

Skill sets are defined as single units of competency, or combinations of units of competency from an endorsed Training Package, which link to a licence or regulatory requirement, or defined industry need.

Wording on Statements of Attainment

Skill sets are a way of publicly identifying logical groupings of units of competency which meet an identified need or industry outcome. Skill sets are not qualifications.

Where skill sets are identified in a Training Package, the Statement of Attainment can set out the competencies a person has achieved in a way that is consistent and clear for employers and others. This is done by including the wording "these competencies meet [insert skill set title or identified industry area] need" on the Statement of Attainment. This wording applies only to skill sets that are formally identified as such in the endorsed Training Package. See the 2007 edition of the AQF Implementation Handbook for advice on wording on Statements of Attainmentthe updated version is expected to be available on the AQFAB website www.aqf.edu.au during September 2007 and in print in October 2007.

Skill Sets in this Training Package

In response to issues raised in the first phase of the CUS01 Music Training Package review in 2005, a music tutor skill set has been developed. This contains a cluster of units addressing the small business and teaching skills required by music teachers who offer private music tuition.

Music tutor skill set

The following pathways chart is provided to show the types of pathways into and from the music tutor skill set.

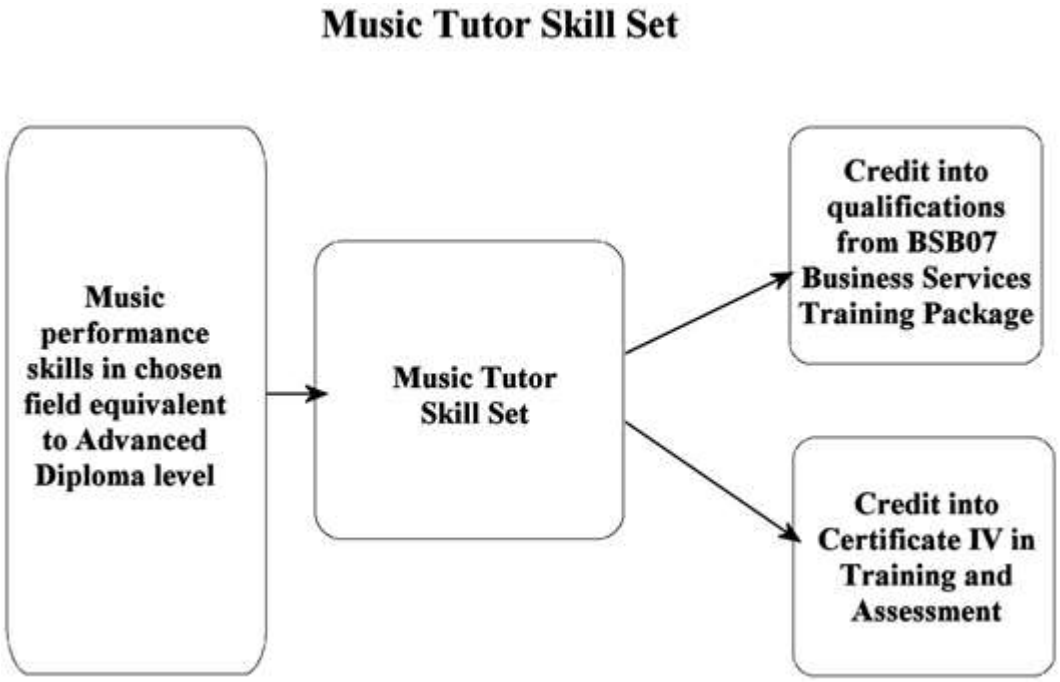
Skill Sets in this Training Package



Industry Requirements for Employability Skills

Employability Skills replacing Key Competency information from 2006

In May 2005, the approach to incorporate Employability Skills within Training Package qualifications and units of competency was endorsed. As a result, from 2006 Employability Skills will progressively replace Key Competency information in Training Packages.

Background to Employability Skills

Employability Skills are also sometimes referred to as generic skills, capabilities or Key Competencies. The Employability Skills discussed here build on the Mayer Committee's Key Competencies, which were developed in 1992 and attempted to describe generic competencies for effective participation in work.

The Business Council of Australia (BCA) and the Australian Chamber of Commerce and Industry (ACCI), produced the *Employability Skills for the Future* report in 2002 in consultation with other peak employer bodies and with funding provided by the Department of Education, Science and Training (DEST) and the Australian National Training Authority (ANTA). Officially released by Dr Nelson (Minister for Education, Science and Training) on 23 May 2002, copies of the report are available from the DEST website at: http://www.dest.gov.au/archive/ty/publications/employability_skills/index.htm.

The report indicated that business and industry now require a broader range of skills than the Mayer Key Competencies Framework and featured an Employability Skills Framework identifying eight Employability Skills*:

- communication

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

- teamwork
- problem solving
- initiative and enterprise
- planning and organising
- self-management
- learning
- technology.

The report demonstrated how Employability Skills can be further described for particular occupational and industry contexts by sets of facets. The facets listed in the report are the aspects of the Employability Skills that the sample of employers surveyed identified as being important work skills. These facets were seen by employers as being dependent both in their nature and priority on an enterprise's business activity.

*Personal attributes that contribute to employability were also identified in the report but are not part of the Employability Skills Framework.

Employability Skills Framework

The following table contains the Employability Skills facets identified in the report

Employability Skills for the Future.

Skill	**Facets** Aspects of the skill that employers identify as important. The nature and application of these facets will vary depending on industry and job type.
Communication that contributes to productive	• listening and understanding • speaking clearly and directly
and harmonious relations across employees and customers	• writing to the needs of the audience • negotiating responsively • reading independently • empathising • using numeracy effectively • understanding the needs of internal and external customers • persuading effectively • establishing and using networks

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

	• being assertive • sharing information • speaking and writing in languages other than English
Teamwork that contributes to productive working relationships and outcomes	• working across different ages irrespective of gender, race, religion or political persuasion • working as an individual and as a member of a team • knowing how to define a role as part of the team • applying teamwork to a range of situations e.g. futures planning and crisis problem solving • identifying the strengths of team members • coaching and mentoring skills, including giving feedback
Problem solving that contributes to productive outcomes	• developing creative, innovative and practical solutions • showing independence and initiative in identifying and solving problems • solving problems in teams • applying a range of strategies to problem solving • using mathematics, including budgeting and financial management to solve problems • applying problem-solving strategies across a range of areas • testing assumptions, taking into account the context of data and circumstances • resolving customer concerns in relation to complex project issues
Initiative and enterprise that contribute to innovative outcomes	• adapting to new situations • developing a strategic, creative and long-term vision • being creative • identifying opportunities not obvious to others • translating ideas into action

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

	• generating a range of options • initiating innovative solutions
Planning and organising that contribute to long and short-term strategic planning	• managing time and priorities - setting time lines, coordinating tasks for self and with others • being resourceful • taking initiative and making decisions • adapting resource allocations to cope with contingencies • establishing clear project goals and deliverables • allocating people and other resources to tasks • planning the use of resources, including time management • participating in continuous improvement and planning processes • developing a vision and a proactive plan to accompany it
	• predicting - weighing up risk, evaluating alternatives and applying evaluation criteria • collecting, analysing and organising information • understanding basic business systems and their relationships
Self-management that contributes to employee satisfaction and growth	• having a personal vision and goals • evaluating and monitoring own performance • having knowledge and confidence in own ideas and visions • articulating own ideas and visions • taking responsibility
Learning that contributes to ongoing improvement and expansion in employee and company operations and outcomes	• managing own learning • contributing to the learning community at the workplace • using a range of mediums to learn - mentoring, peer support and networking, IT and courses • applying learning to technical issues (e.g. learning about products) and people issues (e.g.

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

	interpersonal and cultural aspects of work) • having enthusiasm for ongoing learning • being willing to learn in any setting - on and off the job • being open to new ideas and techniques • being prepared to invest time and effort in learning new skills • acknowledging the need to learn in order to accommodate change
Technology that contributes to the effective carrying out of tasks	• having a range of basic IT skills • applying IT as a management tool • using IT to organise data • being willing to learn new IT skills • having the OHS knowledge to apply technology • having the appropriate physical capacity

Employability Skills Summary

An Employability Skills Summary exists for each qualification. Summaries provide a lens through which to view Employability Skills at the qualification level and capture the key aspects or facets of the Employability Skills that are important to the job roles covered by the qualification. Summaries are designed to assist trainers and assessors to identify and include important industry application of Employability Skills in learning and assessment strategies.

The following is important information for trainers and assessors about Employability Skills Summaries.

• Employability Skills Summaries provide examples of how each skill is applicable to the job roles covered by the qualification.

• Employability Skills Summaries contain general information about industry context which is further explained as measurable outcomes of performance in the units of competency in each qualification.

• The detail in each Employability Skills Summary will vary depending on the range of job roles covered by the qualification in question.

• Employability Skills Summaries are not exhaustive lists of qualification requirements or checklists of performance (which are separate assessment tools that should be designed by trainers and assessors after analysis at the unit level).

• Employability Skills Summaries contain information that may also assist in building learners' understanding of industry and workplace expectations.

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

Industry requirements for Employability Skills

CUS09 Music Training Package seeks to ensure that industry-endorsed employability skills are explicitly embedded in units of competency. The application of each skill and the level of detail included in each part of the unit will vary according to industry requirements and the nature of the unit of competency.

Employability skills are both explicit and embedded within units of competency. This means that employability skills are:

- embedded in units of competency as part of the other performance requirements that make up the competency as a whole
- explicitly described within units of competency to enable Training Package users to identify accurately the performance requirements of each unit with regards to employability skills.

CUS09 Music Training Package also seeks to ensure that employability skills are well-defined and written into units of competency so that they are apparent, clear and can be delivered and assessed as an essential component of unit work outcomes.

- embedded in units of competency as part of the other performance requirements that make up the competency as a whole
- explicitly described within units of competency to enable Training Package users to identify accurately the performance requirements of each unit with regards to employability skills.

CUS09 Music Training Package also seeks to ensure that employability skills are well-defined and written into units of competency so that they are apparent, clear and can be delivered and assessed as an essential component of unit work outcomes.

Whole of Industry Qualification Information

CUS09 at a glance

The revised units in CUS09 address key concerns raised during the Phase One review of CUS01 in 2005. Namely:

- Restricting the number of AQF levels at which units can be packaged. With a few exceptions, all units are now recommended for packaging at no more than two AQF levels.
- Eliminating duplication of content between units.
- Broadening the scope of units to include a range of industry contexts where appropriate.
- Using plain English and accepted industry terminology.
- Providing clear guidance on required skills and knowledge and the critical aspects of evidence.
- Embedding relevant employability skills in elements and performance criteria, as well as in the required skills and knowledge sections of all units.
- 'Future-proofing' units against technological change. This has been done by using terms such as 'source media', 'relevant format' and 'relevant equipment' in elements and performance criteria and providing current examples in range statements.

Units of competency that cover business skills specific to the music industry have been written to accommodate the digital age in which new approaches to music distribution and marketing continue to emerge. The expansion of the former music technology qualifications into qualifications that embrace the screen and media industries reflects the cross-sector nature of sound production.

Work outcome

All VET qualifications must lead to a work outcome. The flexibility of CUS09 Music Training Package qualifications allows RTOs to vary programs to meet:

- the specific needs of learners and industry clients
- the needs of a locality or a particular industry application of skills
- greater employability of a group of students or an individual.

Maximising employability

In all cases, when packaging qualifications in CUS09 Music Training Package, RTOs must follow the principle of providing groups and individuals with the broadest possible combination of skills and attributes.

When combining units, therefore, choices must be exercised so that duplication of work outcomes does not occur either within the Music Training Package or among other Training Packages.

Titles of qualifications

Guidelines on issuing qualifications and the protocol defining the form of qualifications are contained in the *Australian Qualifications Framework (AQF) Implementation Handbook* which can be accessed on the AQF website at

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

http://www.aqf.edu.au/implem.htm.

Qualifications in the CUS09 Music Training Package have industry descriptors only. There is no provision for nominating an occupational or functional stream in brackets after a title such as CUF40107 Certificate IV in Music. In the context of music performance, a functional stream could be seen as music styles or genres. However to specify such streams would narrow the focus of what students can achieve and would result in the addition of numerous qualifications to the Training Package without any actual change in their structure.

However, RTOs issuing qualifications may wish to describe the specialisation in which individuals achieve competence in performance or composition. For example, the transcript of units completed could be preceded by a short statement such as:

'The chosen musical style for this qualification was jazz and the primary instrument was saxophone.'

The main specialisations which apply, either individually or in combination, are:

- classical
- contemporary
- jazz
- world.

Any descriptive statement may nominate the individual instrument (e.g. violin, drums, piano, guitar, etc.) where competence has been achieved. Note that candidates may achieve competence in one or more instruments and that a specialisation may combine the style of music with the nominated instrument.

Descriptive statements on certificates should always be written with reference to the overall guidelines in the *AQF Implementation Handbook*.

Technical terms and abbreviations

A glossary of technical terms and abbreviations used in units of competency is provided as Appendix B.

Assessment Guidelines

Introduction

These Assessment Guidelines provide the endorsed framework for assessment of units of competency in this Training Package. They are designed to ensure that assessment is consistent with the AQTF 2007. Assessments against the units of competency in this Training Package must be carried out in accordance with these Assessment Guidelines.

Assessment System Overview

This section provides an overview of the requirements for assessment when using this Training Package, including a summary of the AQTF 2007 requirements; licensing/registration requirements; and assessment pathways.

Benchmarks for Assessment

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

Assessment within the National Skills Framework is the process of collecting evidence and making judgments about whether competency has been achieved to confirm whether an individual can perform to the standards expected in the workplace, as expressed in the relevant endorsed unit of competency.

In the areas of work covered by this Training Package, the endorsed units of competency are the benchmarks for assessment. As such, they provide the basis for nationally recognised Australian Qualifications Framework (AQF) qualifications and Statements of Attainment issued by Registered Training Organisations (RTOs).

Australian Quality Training Framework Assessment Requirements

Assessment leading to nationally recognised AQF qualifications and Statements of Attainment in the vocational education and training sector must meet the requirements of the AQTF as expressed in the AQTF 2007 *Essential Standards for Registration*.

The AQTF 2007 *Essential Standards for Registration* can be downloaded from <www.training.com.au/aqtf2007>. The following points summarise assessment requirements.

Registration of Training Organisations

Assessment must be conducted by, or on behalf of, an RTO formally registered by a State or Territory Registering/Course Accrediting Body in accordance with the AQTF 2007 *Essential Standards for Registration*. The RTO must have the specific units of competency and/or AQF qualifications on its scope of registration.

Quality Training and Assessment

Each RTO must provide quality training and assessment across all its operations. See the

AQTF 2007 *Essential Standards for Registration*, Standard 1.

Assessor Competency Requirements

Each person involved in training, assessment or client service must be competent for the functions they perform. See the AQTF 2007 *Essential Standards for Registration*, Standard 1, for assessor (and trainer) competency requirements.

Assessment Requirements

The RTOs assessments, including RPL, must meet the requirements of the relevant endorsed

Training Package. See the AQTF 2007 *Essential Standards for Registration*, Standard 1.

Assessment Strategies

Each RTO must have strategies for training and assessment that meet the requirements of the relevant Training Package or accredited course and are developed in consultation with industry stakeholders. See the AQTF 2007 *Essential Standards for Registration*, Standard 1.

National Recognition

Each RTO must recognise the AQF qualifications and Statements of Attainment issued by any other RTO. See the AQTF 2007 *Essential Standards for Registration*, Condition of Registration 7: Recognition of qualifications issued by other RTOs.

Access and Equity and Client Outcomes

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

Each RTO must adhere to the principles of access and equity and maximise outcomes for its clients. See the AQTF 2007 *Essential Standards for Registration*, Standard 2.

Monitoring Assessments

Training and/or assessment provided on behalf of the RTO must be monitored to ensure that it is in accordance with all aspects of the Essential Standards for Registration. See the AQTF 2007 *Essential Standards for Registration*, Standard 3.

Recording Assessment Outcomes

Each RTO must manage records to ensure their accuracy and integrity. See the AQTF 2007 *Essential Standards for Registration*, Standard 3.

Issuing AQF Qualifications and Statements of Attainment

Each RTO must issue AQF qualifications and Statements of Attainment that meet the requirements of the current AQF Implementation Handbook and the endorsed Training Packages within the scope of its registration. An AQF qualification is issued once the full requirements for a qualification, as specified in the nationally endorsed Training Package are met. A Statement of Attainment is issued when an individual has completed one or more units of competency from nationally recognised qualification(s)/courses(s). See the AQTF 2007 and the 2007 edition of the AQF Implementation Handbook-available on the AQFAB website < www.aqf.edu.au>.

This section provides information on licensing/registration requirements for CUS09 Music Training Package, with the following important disclaimer.

The developers of this Training Package, and DEEWR, consider that no licensing or registration requirements apply to registered training organisations (RTOs), assessors or candidates with respect to this Training Package. Contact the relevant state or territory department(s) to check if there are any licensing or registration requirements with which you must comply. For further information on this topic contact IBSA at www.ibsa.org.au .

The following guidance is provided in relation to regulatory requirements that may apply to people working in technical production areas of the entertainment industry.

National Standard for Licensing Persons Performing High Risk Work

The National Standard for Licensing Persons Performing High Risk Work applies to persons performing dogging and rigging work. Completion of the following units is required for certification at either basic, intermediate or advanced levels.

- CPCCLDG3001A Licence to perform dogging
- CPCCLRG3001A Licence to perform rigging basic level
- CPCCLRG3002A Licence to perform rigging intermediate level
- CPCCLRG4001A Licence to perform rigging advanced level

Information on occupational licensing and its intersection with vocational education and training can be found in *Licensing Line News* at www.licensinglinenews.com .

National Code of Practice for Induction for Construction Work

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

"This Code of Practice provides guidance to persons working in the general and residential construction sectors on the types of induction training that may be needed to provide construction workers with an awareness and understanding of common hazards on construction sites and how they should be managed." (Source: *Licensing Line News* at www.licensinglinenews.com).

Sets and staging for some performances or events may fall within the definition of construction work. If so, people entering the construction site are required to complete the general induction training program specified by the National Code of Practice for Induction Training for Construction Work (Australian Safety Compensation Council, May 2007).

Achievement of the unit ' CPCCOHS1001A Work safely in the construction industry' from the CPC08 Construction, Plumbing and Services Integrated Framework Training Package fulfils this requirement.

Contact state or territory OHS authorities for information on RTOs approved to deliver the general induction training program.

Requirements for RTOs

Training and assessment in remote and regional areas

Training and assessing candidates in remote and regional areas present a range of challenges. These include:

- lack of numbers preventing the establishment of traditional class sizes
- physical remoteness of some communities, where access to training facilities is limited
- scarcity of teachers with the required industry experience
- scarcity of physical training resources (e.g. current and emerging technology).

Some options for overcoming these challenges include:

- partnerships between RTOs to establish classes, i.e. programs delivered on a regional rather than local basis
- delivering certain units by distance mode
- partnerships between industry and RTOs to share resources and personnel
- partnerships between schools and RTOs
- use of technology (e.g. email, CDs and internet) and self-paced resources.

Training and assessment issues for schools

Implementation of CUS09 Music Training Package within the school sector, while encouraged, needs to ensure the following:

- currency of skills and knowledge of those charged with training and assessing students
- access to industry-current equipment, facilities and training resources so that students acquire a realistic view of the realities and conditions within the workplace
- comprehensive coverage of underpinning skills and knowledge as delineated within the competency standards

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

- appropriateness of learning and assessment experiences to ensure that these are current and realistic.

The competency standards provide more detailed guidance for training and assessment purposes, as well as examples relevant to each standard, and schools are encouraged to use these guidelines when planning training and assessment.

It is recommended that delivery of qualifications in schools should only include Certificates I and II. For more information on VET in Schools, please refer to Appendix A.

Assessment in a simulated environment

Units of competency in CUS09 Music Training Package may be assessed in the workplace or in a simulated environment.

Assessment within a simulated environment may be required because:

- suitable employment and/or work experience is not always available
- some workplaces or work situations do not use or allow the application of the competency required
- conducting assessment within the workplace may be unacceptably disruptive to work requirements of the business
- it is sometimes appropriate to practise skills in live settings prior to the acquisition of competency, particularly in potentially dangerous situations or where valuable equipment may be at risk.

Given that simulation may be used and is often indicated as an option for assessment within the CUS09 Music Training Package, the following advice is provided:

In order to be valid and reliable, the simulation must closely represent what actually occurs in the workplace, and should seek to replicate an actual work setting. It is critical that the designer of the simulation is thoroughly familiar with the application of the competency and is experienced in current and relevant workplace practices. In deciding whether a simulation or an assessment environment has been adequately designed, the following questions should be asked.

Are there opportunities to:

- test the full range of equipment?
- use up-to-date equipment and software?
- reflect time pressures and deadlines?
- show the complexity of dealing with multiple tasks?
- involve prioritising among competing tasks?
- deal with customers, including difficult ones?
- work with others in a team?
- communicate with diverse groups?
- find, discuss and test solutions to problems?
- explore health and safety issues?

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

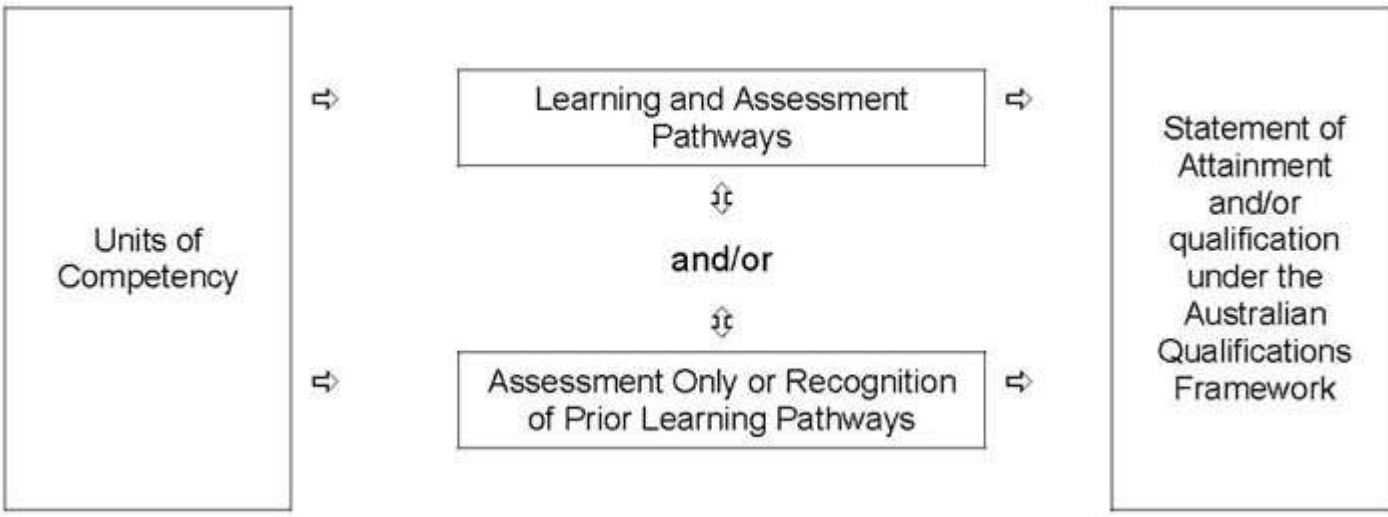
- answer practically-oriented, applied knowledge questions?
- show the level of verbal and written expression sufficient for, but not exceeding, the work requirements?

Pathways

The competencies in this Training Package may be attained in a number of ways including through:

- formal or informal education and training
- experiences in the workplace
- general life experience, and/or
- any combination of the above.

Assessment under this Training Package leading to an AQF qualification or Statement of Attainment may follow a learning and assessment pathway, an assessment-only or recognition pathway, or a combination of the two as illustrated in the following diagram.



Each of these assessment pathways leads to full recognition of competencies held - the critical issue is that the candidate is competent, not how the competency was acquired.

Assessment, by any pathway, must comply with the assessment requirements set out in the Assessment Guidelines of the Training Package and the AQTF 2007.

Learning and Assessment Pathways

Usually, learning and assessment are integrated, with assessment evidence being collected and feedback provided to the candidate at anytime throughout the learning and assessment process.

Learning and assessment pathways may include structured programs in a variety of contexts using a range of strategies to meet different learner needs. Structured learning and assessment programs could be: group-based, work-based, project-based, self-paced, action learning-based; conducted by distance or e-learning; and/or involve practice and experience in the workplace.

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

Learning and assessment pathways to suit Australian Apprenticeships have a mix of formal structured training and structured workplace experience with formative assessment activities through which candidates can acquire and demonstrate skills and knowledge from the relevant units of competency.

Assessment-Only or Recognition of Prior Learning Pathway

Competencies already held by individuals can be formally assessed against the units of competency in this Training Package, and should be recognised regardless of how, when or where they were achieved.

In an assessment-only or Recognition of Prior Learning (RPL) pathway, the candidate provides current, quality evidence of their competency against the relevant unit of competency. This process may be directed by the candidate and verified by the assessor, such as in the compilation of portfolios; or directed by the assessor, such as through observation of workplace performance and skills application, and oral and/or written assessment. Where the outcomes of this process indicate that the candidate is competent, structured training is not required. The RPL requirements of the AQTF 2007 must be met (Standard 1).

As with all assessment, the assessor must be confident that the evidence indicates that the candidate is currently competent against the endorsed unit of competency. This evidence may take a variety of forms and might include certification, references from past employers, testimonials from clients, and work samples. The onus is on candidates to provide sufficient evidence to satisfy assessors that they currently hold the relevant competencies. In judging evidence, the assessor must ensure that the evidence of prior learning is:

- authentic (the candidate"s own work)
- valid (directly related to the current version of the relevant endorsed unit of competency)
- reliable (shows that the candidate consistently meets the endorsed unit of competency)
- current (reflects the candidate"s current capacity to perform the aspect of the work covered by the endorsed unit of competency), and
- sufficient (covers the full range of elements in the relevant unit of competency and addresses the four dimensions of competency, namely task skills, task management skills, contingency management skills, and job/role environment skills).

The assessment only or recognition of prior learning pathway is likely to be most appropriate in the following scenarios:

- candidates enrolling in qualifications who want recognition for prior learning or current competencies
- existing workers
- individuals with overseas qualifications
- recent migrants with established work histories
- people returning to the workplace, and
- people with disabilities or injuries requiring a change in career.

Combination of Pathways

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

Where candidates for assessment have gained competencies through work and life experience and gaps in their competence are identified, or where they require training in new areas, a combination of pathways may be appropriate.

In such situations, the candidate may undertake an initial assessment to determine their current competency. Once current competency is identified, a structured learning and assessment program ensures that the candidate acquires the required additional competencies identified as gaps.

Assessor Requirements

This section identifies the mandatory competencies for assessors, and clarifies how others may contribute to the assessment process where one person alone does not hold all the required competencies.

Assessor Competencies

The AQTF 2007 specifies mandatory competency requirements for assessors. For information, Standard 1, Element 1.4 from the AQTF 2007 *Essential Standards for Registration* follows:

1.4		*Training and assessment is delivered by trainers and assessors who:*
	a)	*have the necessary training and assessment competencies as determined by the National Quality Council or its successors*
	b)	*have the relevant vocational competencies at least to the level being delivered or assessed*
	c)	*continue developing their vocational and training and assessment competencies to support continuous improvements in the delivery of the RTO"s services.*

Assessment for Indigenous organisations

Aboriginal and Torres Strait Islander people have expressed concern about the importance of developing appropriate assessment processes.

There are four main areas of concern:

- diversity
- cultural appropriateness
- community control
- accreditation.

Diversity

The term diversity is used to emphasise the wide range of opinions, aspirations, community circumstances, cultural practices, geographic locations, and social, economic and political conditions that exist throughout Australia and the need to guard against assumptions that all communities are the same.

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

One approach is to distinguish between remote, rural and urban settings. These settings suggest differences that may be relevant to Aboriginal and Torres Strait Islander organisations, including:

- culture
- language
- history
- social make-up
- geography
- social and economic infrastructure
- economy
- political structure.

These factors suggest that training and assessment, in order to be relevant to the needs of a particular Aboriginal and Torres Strait Islander organisation, should address each situation as unique.

Cultural appropriateness

The term culture is used in a broad sense, it refers to:

- values, social beliefs and customs, such as Aboriginal and Torres Strait Islander law, land, and family and kinship systems
- protocols of behaviour and interaction e.g. cultural authority, gender and kinship
- ways of thinking, including preferred learning styles
- language, both English and Aboriginal English
- lifestyles
- local history
- location, including region and place.

A particularly important aspect of cultural appropriateness is that of learning styles. There is evidence that Aboriginal and Torres Strait Islander people, both traditional and contemporary, approach learning differently from the Western intellectual tradition, which is relevant to effective training and assessment.

It is understood that Aboriginal and Torres Strait Islander people may:

- learn better in groups than individually
- learn better in the surroundings of their community than in an institutional environment
- prefer oral communications to written forms
- learn on the basis of trial and error in the presence of an experienced person in preference to concept building approaches
- have a highly-developed sense of spatial relations by which they learn; hence stories, maps and pictures would be preferable to oral explanations.

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

To be effective, it is necessary that training and assessment recognises, adopts and practises appropriate delivery and assessment approaches.

Trainers and assessors who are not Aboriginal or Torres Strait Islanders need information on aspects of Aboriginal and Torres Strait Islander culture. They need to work closely with Aboriginal and Torres Strait Islander people to adopt practices that reflect Aboriginal and Torres Strait Islander approaches. The community should be asked to identify experts to provide information and to assist with assessment of relevant protocols, for example, where required.

There are a number of ways an RTO can establish and maintain culturally appropriate training and assessment practices, including:

- ensuring a high proportion of Aboriginal and Torres Strait Islander participation in all aspects of planning, development, delivery and evaluation
- establishing and maintaining a collaborative relationship with local Aboriginal and Torres

Strait Islander communities

- as a mainstream (non-Indigenous) RTO, establishing auspice relationships with Aboriginal and Torres Strait Islander organisations and individuals, including direct and indirect involvement of persons identified as appropriate by the local community
- ensuring ongoing training of non-Aboriginal and Torres Strait Islander staff at all levels of the RTO, delivered by Aboriginal and Torres Strait Islander personnel.

Community control

The term community control is synonymous with such things as self-determination and

self-management, and underpins most community aspirations. It is of fundamental concern to people who see themselves as having been dispossessed by colonisation.

The essence of control is control of decision-making. In order to be able to do this, people need all relevant information, relevant competencies, and recognition of their own structures and processes.

Among other things, Aboriginal and Torres Strait Islander people seek control over their training. It is necessary, therefore, that they participate in meaningful ways in all stages of planning, development, delivery and evaluation. One way to achieve this is for communities to have control of the contract for training initiatives.

It is important that training providers and assessors respect and conform to the practice of community control which underpins this field within the CUS09 Music Training Package.

Accreditation

Aboriginal and Torres Strait Islander people have said for a long time that their involvement in training has not been formally recognised and that many of the skills they use in managing their organisations and delivering services to their communities have not been valued.

The first issue may have arisen because much of the training that has been delivered to communities has been customised to particular situations, has not been assessed on an individual basis if at all, and has been delivered by unregistered personnel. Secondly, until this time, recognition of current competencies (RCC) has been under-utilised.

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

Individuals may demonstrate competence in complete units of competency through formal training, informal training or the recognition of current competencies and skills, resulting in qualifications or statements of attainment being awarded.

In the community group setting, an important feature of likely relevance for assessment is that participants may vary with respect to previous education and training experience , which may result in diverse literacy and numeracy issues. However, literacy and numeracy skills are not

a barrier to sophisticated thought, and care must be taken not to use assessment strategies that rely on a person having numeracy and literacy skills that are not intrinsically required by the unit of competency being assessed.

A flexible approach to assessment will be required by RTOs in order to meet the requirements of Aboriginal and Torres Strait Islander organisations and individuals under this domain within the CUS09 Music Training Package.

Assessment in Aboriginal and Torres Strait Islander communities

The guiding principles that underpin assessment include:

- assessment should be transparent, i.e. clearly seen and understood by the candidate and others
- assessment should empower the candidate on the basis of consent, self-assessment and responsibility for the process
- members or prospective members of community management committees should have opportunities to demonstrate their competencies and skills
- activities undertaken by the candidate in a community management role may be used as the context for assessment where possible (known as on-the-job assessment or workplace assessment); there may also be opportunities to include evidence from other relevant situations
- assessment should involve designated community experts working in collaboration with RTO assessors in order to provide appropriate recognition of cultural and community skills and knowledge
- assessments must provide constructive feedback to candidates and support for further competency development
- assessments must provide a statement of attainment or qualification, listing the units of competency achieved
- records of candidate achievement maintained by the RTO must include the statement of attainment, listing the units of competency or qualifications achieved as required by the AQTF 2007
- a record of demonstrated competencies will assist in role clarification and performance appraisals in the workplace.

Given the importance of the assessment to the candidate and community management committees, the assessor must make every effort to ensure that assessment is conducted with the highest level of professionalism and integrity.

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

Units of competency with cultural content, including the following of local protocols, will require the assessor to have knowledge of these cultural matters. As these matters are often governed by local rules regarding access to such knowledge, only those people with the knowledge can genuinely assess these aspects of the competency or provide guidance on their assessment.

Discussion must take place with the community and agreement must be reached on how these matters are assessed. For non-Aboriginal and Torres Strait Islander RTOs, this will usually mean the use of auspice arrangements with appropriate people or knowledge experts, identified by the community.

It should be noted that for Aboriginal and Torres Strait Islander people being assessed in aspects of competency, they will almost invariably have been attained through life experience. This must also be taken into account in the assessment procedures relating to cultural matters.

Assessors may exercise limited discretion in response to organisational or individual requirements, but any changes must not alter the meaning of the unit of competency or the elements of competency.

Candidates must be informed of the right to access grievance procedures.

Designing Assessment Tools

This section provides an overview on the use and development of assessment tools.

Use of Assessment Tools

Assessment tools provide a means of collecting the evidence that assessors use in making judgments about whether candidates have achieved competency.

There is no set format or process for the design, production or development of assessment tools. Assessors may use prepared assessment tools, such as those specifically developed to support this Training Package, or they may develop their own.

Using Prepared Assessment Tools

If using prepared assessment tools, assessors should ensure these are benchmarked, or mapped, against the current version of the relevant unit of competency. This can be done by checking that the materials are listed on the National Training Information Service < www.ntis.gov.au>. Materials on the list have been noted by the National Quality Council as meeting their quality criteria for Training Package support materials.

Developing Assessment Tools

When developing assessment tools, assessors must ensure that they:

- are benchmarked against the relevant unit or units of competency
- are reviewed as part of the continuous improvement of assessment strategies as required under Standard 1 of the AQTF 2007
- meet the assessment requirements expressed in Standard 1 of the AQTF 2007.

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

A key reference for assessors developing assessment tools is TAA04 Training and Assessment Training Package and the unit of competency TAAASS403A *Develop assessment tools*. There is no set format or process for the design, production or development of assessment materials.

Conducting Assessment

This section details the mandatory assessment requirements and provides information on equity in assessment including reasonable adjustment.

Assessment Requirements

Assessments must meet the criteria set out in the AQTF 2007 Essential Standards for Registration.

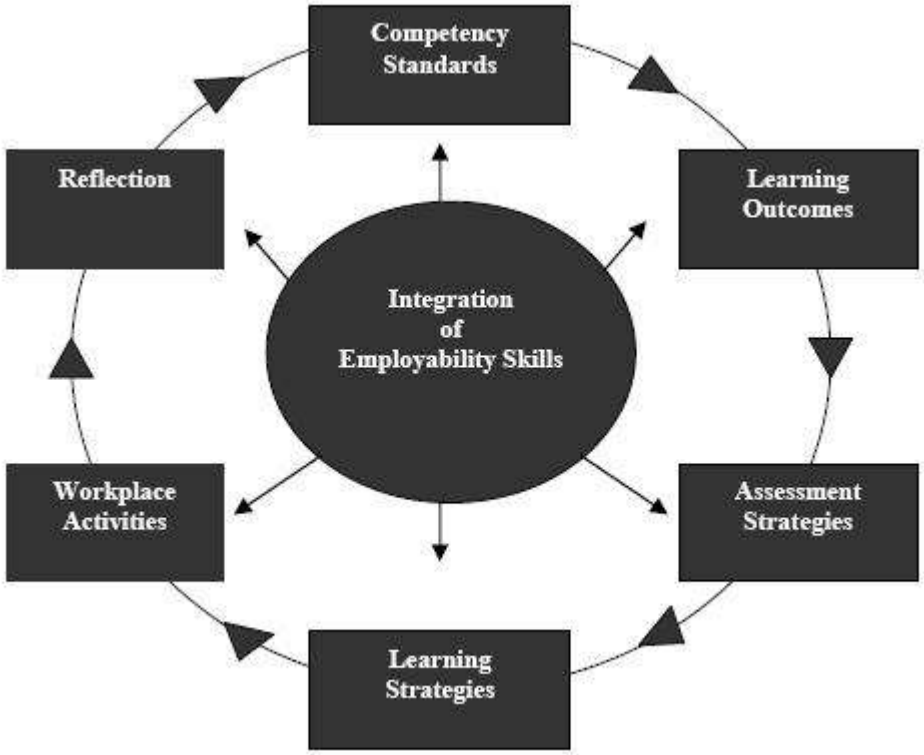
For information, the mandatory assessment requirements from Standard 1 from the AQTF 2007 *Essential Standards for Registration* are as follows:

1.5		*Assessment, including Recognition of Prior Learning:*
	a)	*meets the requirements of the relevant Training Package or accredited course,*
	b)	*is conducted in accordance with the principles of assessment and the rules of evidence, and*
	c)	*meets workplace and, where relevant, regulatory requirements.*

Assessment of Employability Skills

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

Employability Skills are integral to workplace competency. As such they must be considered in the design, customisation, delivery and assessment of vocational education and training programs in an integrated and holistic way, as represented diagrammatically below.



Employability Skills are embedded and explicit within each unit of competency. Training providers must use Employability Skills information in order to design valid and reliable training and assessment strategies. This analysis could include:

- reviewing units of competency to locate relevant Employability Skills and determine how they are applied within the unit
- analysing the Employability Skills Summary for the qualification in which the unit or units are packaged to help clarify relevant industry and workplace contexts and the

application of Employability Skills at that qualification outcome

- designing training and assessment to address Employability Skills requirements.

For more information on Employability Skills in Innovation and Business Industry Skills Council Training Packages go to the Innovation and Business Industry Skills Council website at http://www.ibsa.org.au.

Access and Equity

An individual"s access to the assessment process should not be adversely affected by restrictions placed on the location or context of assessment beyond the requirements specified in this Training Package: training and assessment must be bias-free.

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

Under the rules for their development, Training Packages must reflect and cater for the increasing diversity of Australia"s VET clients and Australia"s current and future workforce. The flexibilities offered by Training Packages should enhance opportunities and potential outcomes for all people so that we can all benefit from a wider national skills base and a shared contribution to Australia"s economic development and social and cultural life.

Reasonable adjustments

It is important that education providers take meaningful, transparent and reasonable steps to consult, consider and implement reasonable adjustments for students with disability.

Under the *Disability Standards for Education 2005*, education providers must make reasonable adjustments for people with disability to the maximum extent that those adjustments do not cause that provider unjustifiable hardship. While "reasonable adjustment" and "unjustifiable hardship" are different concepts and involve different considerations, they both seek to strike a balance between the interests of education providers and the interests of students with and without disability.

An adjustment is any measure or action that a student requires because of their disability, and which has the effect of assisting the student to access and participate in education and

training on the same basis as students without a disability. An adjustment is reasonable if it achieves this purpose while taking into account factors such as the nature of the student"s disability, the views of the student, the potential effect of the adjustment on the student and others who might be affected, and the costs and benefits of making the adjustment.

An education provider is also entitled to maintain the academic integrity of a course or program and to consider the requirements or components that are inherent or essential to its nature when assessing whether an adjustment is reasonable. There may be more than one adjustment that is reasonable in a given set of circumstances; education providers are required to make adjustments that are reasonable and that do not cause them unjustifiable hardship.

See Part 4, Chapter 2 of the *Training Package Development Handbook* (DEST, September 2007) for more information on reasonable adjustment, including examples of adjustments.

Training and assessment for people with specific needs

Disability Standards for Education were formed under the Disability Discrimination Act 1992 and were introduced in August 2005. They clarify the obligations of education and training providers to ensure that students who have a disability are able to access and participate in education without experiencing discrimination.

The Department of Education, Employment and Workplace Relations (DEEWR) provides further information in the *Disability Standards for Education 2005 Guidance Notes* , accessible via the DEEWR website (www.deewr.gov.au/Schooling/DisabilityStandardsforEducation/Documents/ Disability_Standards_Education_Guidance_Notes_pdf.pdf).

Good vocational training and assessment are often about making adjustments to what we do to meet the learning support needs of individuals. The information provided in this section is aimed at assisting teachers/trainers to meet the reasonable adjustment needs of people who have a disability.

According to the Australian Bureau of Statistics (ABS), 2003, *Survey of Disability, Ageing and Carers(SDAC)* in the section on education and employment:

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

'In 2003, one in four people (24%) aged 15-64 years with a profound or severe core-activity limitation, who were living in households, had completed Year 12. This compares to half (49%) of those without a disability. People with a profound or severe core-activity limitation were less likely to have completed a diploma or higher qualification (14%) than those without a disability (28%).'

Employment-related findings, for people aged 15-64 years living in households, from the ABS 2003 *SDAC* include:

- those with a profound level of core-activity limitation had a much lower labour force participation rate (15%) than people without a disability (81%)
- people with a disability who were employed were more likely to work part-time (37%)

than those who were employed and did not have a disability (29%)

- people employed in agriculture, forestry and fishing (16%) had a relatively high disability rate compared to the overall rate for those employed (11%).'

Clearly there is much work still to be done to ensure that people who have a disability are able to participate in employment and vocational education and training as fully as possible.

What is a disability?

A disability presents some impairment to everyday activity. Some people with a disability do not have any impairments resulting from their disability. For example, a person who has a hearing impairment which is compensated for by a hearing aid may function without any adjustments. While some people with a disability may have an impairment because of the environment, not the disability itself. For example, hearing loss can be accentuated in a room with loud, competing noise and poor acoustics.

A disability may affect or relate to a range of human functions, including mobility, stamina, lifting ability, memory, vision, hearing, speech, comprehension and mood swings. This may be due to accidents, illnesses or birth.

According to the ABS 2003 *SDAC* :

'One in five people in Australia (3,958,300 or 20.0%) had a reported disability. This rate was much the same for males (19.8%) and females (20.1%). Disability was defined as any limitation, restriction or impairment, which has lasted, or is likely to last, for at least six months and restricts everyday activities. Examples range from hearing loss which requires the use of a hearing aid, to difficulty dressing due to arthritis, to advanced dementia requiring constant help and supervision.'

The ABS 2003 *SDAC* information also tells us that:

'15.2% (600,300) of people with a disability reported that the cause of their main health condition was accident or injury, 14% (557 300) that it was disease, illness or heredity, and

11% (423,500) that it was "working conditions, work or over-work".'

Health conditions can also be acquired through sporting accidents, repetitive or over-use

(through regular or sporting activities), or the daily activities of life.

There are many resources available that provide information on how to adjust training and assessment for someone who has a disability; some of these are listed in the contacts section below.

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

Adjustments in training and assessment

An open mind, common sense and tailoring to individual circumstances will, as often as not, ensure individuals achieve the standards that employers and training providers expect. Reasonable adjustments need only be that - reasonable. It is about identifying what adjustments might reasonably be made and how they may be put into place.

Training and assessment can be made more appropriate and fairer for a person who has a disability through attitude, preparation and application.

Attitude

The attitude of others is often the greatest barrier for people who have a disability. While most people who have a disability will only ever require minor adjustments to ensure learning is positive, some will require additional support. There are many support agencies that can provide advice, however teachers/trainers may need to take additional time to ensure their teaching/training meets the learning support needs of the individual concerned.

Positive language creates an atmosphere of mutual respect, which is essential to learning. For example, using language that identifies learners as people rather than language that identifies them by one of their characteristics conveys that the person is more important than the characteristic, such as the difference between a 'person who has an intellectual disability' and an 'intellectually disabled person'. A person who has an intellectual disability could also be identified by a range of equally important characteristics - height, age, sporting interests, etc. However, the term 'intellectually disabled person' refers to the disability as the major, and often only, defining characteristic.

Preparation

It is important to identify any functional issues arising from the nature and extent of a person's disability. This can usually be done by discussing such issues with the individual. In most cases, this consultation will identify reasonable adjustment needs which can be put into place. There are many simple things that teachers/trainers can do to make reasonable adjustments to enable individuals who have a disability to succeed in training and assessment. In some cases, professional support may be required.

Application

Once reasonable adjustments have been implemented it is important to monitor and evaluate what has been done to ensure the best environment for continuous learning because:

- adjustments may only need to be temporary - i.e. mechanisms may only need to be in place during an induction period or due to a temporary disability, in which case evaluation will ensure appropriateness without the need for ongoing monitoring
- adjustments may need reinforcing - when adjustments need to be ongoing, monitoring may reinforce patterns of behaviour in order for them to become 'natural'
- adjustments may need improving - where adjustments are ongoing or substantial, a commitment to continuous improvement is recommended through monitoring.

In most cases an informal discussion with the person concerned may be all that is necessary. However, should adjustments be substantial, or a learner not be acquiring competence at a reasonable rate, a more formal process may be required. This may include:

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

- performance indicators - training providers, learners and employers should have agreed indicators of performance which can be measured and monitored
- independent support - a third party, independent of the training and/or assessment environment, may need to be involved
- experimentation - if existing adjustments are not proving satisfactory, creative solutions may be needed
- continuing review - formal monitoring is encouraged if adjustments are changed or if substantial adjustments are necessary.

For further information on training and assessment for people with specific needs, the DEEWR website has information about the National Disability Coordination Officer Programme, which 'provides information, co-ordination and referral services for people with a disability interested in or enrolled in post-school education and training' (www.deewr.gov.au).

Reasonable adjustment

Below are some of the practical things that can be done as part of providing reasonable adjustment to learners with specific support needs to enable them to undertake training and assessment. Clearly, each case will be different and will need to be discussed with the person and in some cases expert help will be needed, at least in the initial stages.

Type of disability	**Reasonable adjustment**
Acquired brain injury	• Memory aids (posters, notes, etc.) • Reflective listening skills • Stress minimisation • Time and patience
Hearing impairment	• Audio loops for people using hearing aids • Plain English documents • Fire and alarm systems with flashing lights • Sign language interpreters • Telephone typewriters
Intellectual disability	• Additional time • Assessment which is appropriate to the skill (i.e. avoiding written assessment for practical tasks) • Mentors • Plain English documents • Practical learning sessions • Repetition of learning exercises
Mobility	• Access to aids, such as for holding documents

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

impairment	• Adjustable tables • Lifting limits • Note-taking support • Verbal rather than written presentations • Personal computers • Wheelchair access
Psychiatric disability	• Identification and avoidance of stresses • Ongoing rather than formal assessments • Reflective listening skills • 'Time-out' breaks in assessment
Speech impairment	• Information summaries • Stress minimisation • Time and patience • Written rather than verbal opportunities
Vision impairment	• Additional writing time for assignments and tests • Audiotapes • Braille translations • Enlarged computer screen images • Enlarged text and images • Good lighting or reading lamps • Guide dog provision • Informing the person before moving furniture • Voice synthesisers on computers

Assessment resources

Training Package Assessment Guides - a range of resources to assist RTOs in developing Training Package assessment materials (originally developed by ANTA with funding from the Department of Education, Training and Youth Affairs) and made up of 10 separate titles, as described at the publications page of www.deewr.gov.au. Go to www.resourcegenerator.gov.au .

Printed and/or CD versions of the Guides can be purchased from Technical and Vocational

Education and Training (TVET) Australia Limited. The resource includes the following guides:

- Training Package Assessment Materials Kit
- Assessing Competencies in Higher Qualifications
- Recognition Resource
- Kit to Support Assessor Training
- Candidates Kit: Guide to Assessment in New Apprenticeships
- Assessment Approaches for Small Workplaces
- Assessment Using Partnership Arrangements
- Strategies for ensuring Consistency in Assessment
- Networking for Assessors
- Quality Assurance Guide for Assessment.

An additional guide 'Delivery and Assessment Strategies' has been developed to complement these resources.

Competency Standards

What is competency?

The broad concept of industry competency concerns the ability to perform particular tasks and duties to the standard of performance expected in the workplace. Competency requires the application of specified skills, knowledge and attitudes relevant to effective participation in an industry, industry sector or enterprise.

Competency covers all aspects of workplace performance and involves performing individual tasks; managing a range of different tasks; responding to contingencies or breakdowns; and, dealing with the responsibilities of the workplace, including working with others. Workplace competency requires the ability to apply relevant skills, knowledge and attitudes consistently over time and in the required workplace situations and environments. In line with this concept of competency Training Packages focus on what is expected of a competent individual in the workplace as an outcome of learning, rather than focussing on the learning process itself.

Competency standards in Training Packages are determined by industry to meet identified industry skill needs. Competency standards are made up of a number of units of competency each of which describes a key function or role in a particular job function or occupation. Each unit of competency within a Training Package is linked to one or more AQF qualifications.

Contextualisation of Units of Competency by RTOs

Registered Training Organisation (RTOs) may contextualise units of competency to reflect local outcomes required. Contextualisation could involve additions or amendments to the unit of competency to suit particular delivery methods, learner profiles, specific enterprise equipment requirements, or to otherwise meet local needs. However, the integrity of the overall intended outcome of the unit of competency must be maintained.

Any contextualisation of units of competency in this endorsed Training Package must be within the bounds of the following advice. In contextualising units of competency, RTOs:

- must not remove or add to the number and content of elements and performance criteria
- may add specific industry terminology to performance criteria where this does not distort or narrow the competency outcomes
- may make amendments and additions to the range statement as long as such changes do not diminish the breadth of application of the competency and reduce its portability, and/or

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

- may add detail to the evidence guide in areas such as the critical aspects of evidence or resources and infrastructure required where these expand the breadth of the competency but do not limit its use.

Components of Units of Competency

The components of units of competency are summarised below, in the order in which they appear in each unit of competency.

Unit Title

The unit title is a succinct statement of the outcome of the unit of competency. Each unit of competency title is unique, both within and across Training Packages.

Unit Descriptor

The unit descriptor broadly communicates the content of the unit of competency and the skill area it addresses. Where units of competency have been contextualised from units of competency from other endorsed Training Packages, summary information is provided. There may also be a brief second paragraph that describes its relationship with other units of competency, and any licensing requirements.

Employability Skills statement

A standard Employability Skills statement appears in each unit of competency. This statement directs trainers and assessors to consider the information contained in the Employability Skills Summary in which the unit of competency is packaged.

Prerequisite Units (optional)

If there are any units of competency that must be completed before the unit, these will be listed.

Application of the Unit

This sub-section fleshes out the unit of competency's scope, purpose and operation in different contexts, for example, by showing how it applies in the workplace.

Competency Field (Optional)

The competency field either reflects the way the units of competency are categorised in the Training Package or denotes the industry sector, specialisation or function. It is an optional component of the unit of competency.

Sector (optional)

The industry sector is a further categorisation of the competency field and identifies the next classification, for example an elective or supervision field.

Elements of Competency

The elements of competency are the basic building blocks of the unit of competency. They describe in terms of outcomes the significant functions and tasks that make up the competency.

Performance Criteria

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

The performance criteria specify the required performance in relevant tasks, roles, skills and in the applied knowledge that enables competent performance. They are usually written in passive voice. Critical terms or phrases may be written in bold italics and then defined in range statement, in the order of their appearance in the performance criteria.

Required Skills and Knowledge

The essential skills and knowledge are either identified separately or combined. Knowledge identifies what a person needs to know to perform the work in an informed and effective manner. Skills describe the application of knowledge to situations where understanding is converted into a workplace outcome.

Range Statement

The range statement provides a context for the unit of competency, describing essential operating conditions that may be present with training and assessment, depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts. As applicable, the meanings of key terms used in the performance criteria will also be explained in the range statement.

Evidence Guide

The evidence guide is critical in assessment as it provides information to the Registered Training Organisation (RTO) and assessor about how the described competency may be demonstrated. The evidence guide does this by providing a range of evidence for the assessor to make determinations, and by providing the assessment context. The evidence guide describes:

- conditions under which competency must be assessed including variables such as the assessment environment or necessary equipment
- relationships with the assessment of any other units of competency
- suitable methodologies for conducting assessment including the potential for workplace simulation
- resource implications, for example access to particular equipment, infrastructure or situations
- how consistency in performance can be assessed over time, various contexts and with a range of evidence, and expectations at the AQF qualification level involved

Employability Skills in units of competency

The detail and application of Employability Skills facets will vary according to the job-role requirements of each industry. In developing Training Packages, industry stakeholders are consulted to identify appropriate facets of Employability Skills which are incorporated into the relevant units of competency and qualifications.

Employability Skills are not a discrete requirement contained in units of competency (as was the case with Key Competencies). Employability Skills are specifically expressed in the context of the work outcomes described in units of competency and will appear in elements, performance criteria, range statements and evidence guides. As a result, users of Training Packages are required to review the entire unit of competency in order to accurately determine Employability Skills requirements.

How Employability Skills relate to the Key Competencies

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

The eight nationally agreed Employability Skills now replace the seven Key Competencies in Training Packages. Trainers and assessors who have used Training Packages prior to the introduction of Employability Skills may find the following comparison useful.

Employability Skills	**Mayer Key Competencies**
Communication	Communicating ideas and information
Teamwork	Working with others and in teams
Problem solving	Solving problems Using mathematical ideas and techniques
Initiative and enterprise	
Planning and organising	Collecting, analysing and organising information Planning and organising activities
Self-management	
Learning	
Technology	Using technology

When analysing the above table it is important to consider the relationship and natural overlap of Employability Skills. For example, using technology may involve communication skills and combine the understanding of mathematical concepts.

Explicitly embedding Employability Skills in units of competency

This Training Package seeks to ensure that industry-endorsed Employability Skills are explicitly embedded in units of competency. The application of each skill and the level of detail included in each part of the unit will vary according to industry requirements and the nature of the unit of competency.

Employability Skills must be both explicit and embedded within units of competency. This means that Employability Skills will be:

- embedded in units of competency as part of the other performance requirements that make up the competency as a whole
- explicitly described within units of competency to enable Training Packages users to identify accurately the performance requirements of each unit with regards to Employability Skills.

This Training Package also seeks to ensure that Employability Skills are well-defined and written into units of competency so that they are apparent, clear and can be delivered and assessed as an essential component of unit work outcomes.

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

The following table contains examples of embedded Employability Skills for each component of a unit of competency. Please note that in the examples below the bracketed skills are provided only for clarification and will not be present in units of competency within this Training Package.

Example Employability Skills unit

Unit component	**Example of embedded Employability Skill**
Unit Title	Rehearse music for group performance (Learning)
Unit Descriptor	This unit describes the performance outcomes, skills and knowledge required to rehearse for a group performance. (Learning, teamwork)
Element	Participate in rehearsals (Learning, teamwork)
Performance Criteria	Discuss and resolve technical or other problems in a positive and appropriate manner (Communication, problem solving, teamwork)
Range Statement	***Listening skills*** may include: • tuning instrument • aural imagination to explore interpretation options • pattern and sequence recognition and memory in selected area of specialisation • reproducing sequences from memory • recognising music systems and practices in selected area of specialisation • chords and keys in tonal or other musical systems in selected area of
	specialisation • listening to own and others' performance in an ensemble to guide and adjust own work • effective musical interaction with other members of the ensemble. (Technology, communication, initiative and enterprise, teamwork, problem solving)
Required Skills and Knowledge	• interpret music appropriately for rehearsals and performances (Communication) • collaborate effectively with other artists during rehearsals

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

	according to agreed schedule (Teamwork) • tune instrument to achieve intonation (Problem solving, technology) • experiment with a variety of musical interpretations (Initiative and enterprise) • plan practice time prior to rehearsals (Planning and organising) • arrive punctually at rehearsals (Self-management) • improve music performance skills and expression through rehearsal and performance (Learning)
Evidence Guide	Evidence of the ability to: • perform proficiently on chosen instrument in at least three rehearsals (Technology) • listen effectively for and adjust intonation and nuance in performance (Communication, initiative and enterprise) • apply interpretation and expression skills (Initiative and enterprise) • communicate effectively with other performers to achieve the required standard of performance (Communication, teamwork)

Competency Standards - Industry Contextualisation

As indicated elsewhere in this volume of the Training Package, RTOs may contextualise units of competency imported from other Training Packages to reflect outcomes relevant to the music industry. Many units from the BSB07 Business Services Training Package have been imported into the music business qualifications to support those units which address specific aspects of doing business in the music industry, such as managing artists, distributing royalty income and managing the distribution of music.

Using 'BSBPUR402B Negotiate contracts' as an example, RTOs could add music-industry specific examples of what contracts with artists might cover, e.g. all rights under one deal, passive rights deal, and so on. The list of 'relevant personnel' could be extended to include people such as artist managers, artists, publicists and promoters.

If 'BSBEBU501A Investigate and design ebusiness solutions' were imported, examples of

'ebusiness models' in the context of the music industry could be added . Similarly, the term

'business to consumer' could be expanded to embrace music industry terminology and concepts.

Appendices

Appendix A: VET in Schools

What is VET in Schools?

VET in Schools provides for nationally recognised vocational education and training (VET) based on industry standards undertaken as part of a senior secondary certificate.

Successful completion of a VET in Schools program enables a student to gain a nationally-recognised AQF qualification, usually at the same time as the school-based qualification.

How are VET in Schools programs structured?

VET in Schools programs are packaged and delivered in a variety of ways across Australia. There are three main types of delivery arrangements for VET in Schools programs:

- schools can be a registered training organisation (RTO) in their own right
- school sectoral bodies (such as Boards of Studies or regional offices) can hold RTO status on behalf of a group of schools
- schools can work together in a partnership with an RTO.

States and territories across Australia package VET in Schools programs differently, according to their senior secondary certificate requirements. Generally schools may offer VET in Schools programs as:

- stand-alone
- embedded
- combination of stand-alone and embedded
- school-based Australian Apprenticeship.

Stand-alone refers to the delivery of a VET course or qualification outside of a school subject framework.

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

Embedding refers to an arrangement whereby VET units of competency are delivered within a general education course, producing both vocational and general education outcomes. This aims to minimise the assessment workload of students by avoiding unnecessary duplication.

In some states and territories, embedding is necessary to provide recognition of VET within the senior secondary certificate. In others, stand-alone VET components contribute towards the senior secondary certificate.

Given the considerable variation in the manner in which qualifications and units of competency are used across Australia, the relevant authority in each state and territory will provide advice and guidance as to the specific VET in Schools programs that can be undertaken.

Appropriate qualifications for VET in Schools

IBSA acknowledges links between schools, businesses and the community, and strongly supports young people combining schooling with VET and workplace learning.

It is essential that all VET qualifications gained through a VET in Schools program are consistent with the outcomes detailed in the Training Package.

The AQTF 2007 Standards for Registered Training Organisations set out minimum competency standards for staff responsible for the delivery of training and the conducting of assessments; and they ensure that VET specialists have skills and competencies consistent with Training Package requirements. All schools using their own teachers for VET delivery must also be aware of the AQTF 2007 requirement for assessors to hold relevant vocational competencies, at least equal to that being delivered and assessed, in addition to teaching and assessment competence.

Schools that are RTOs generally deliver Certificate I and II qualifications. Some schools, in most states and territories, may also offer part or all of Certificate III and IV qualifications. However, the delivery of these higher qualifications often requires a partnership arrangement and presents some significant challenges as detailed below.

Schools are encouraged to establish partnerships with industry and effective work placement arrangements to maximise the quality of outcomes for students and industry alike. Recognition of competence gained through voluntary, part-time or vacation work not directly related to the industry focus of the qualification should also be considered.

Certificates I and II

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

Certificate I and Certificate II qualifications are the most suitable for use in VET in Schools programs. These qualifications are often preparatory in nature or include skills that can be readily trained and assessed in a school setting. For example, many of the units in Certificate I and II Information Technology or Business qualifications describe skills that are considered foundation skills for any employment situation. However, even at this level, schools must ensure adequate attention is paid to the effective assessment of competencies dealing with work environment or employability skills.

Certificate III

The AQF descriptor for Certificate III qualifications includes performance expectations such as skills transference to new environments and the prospect of potential responsibility for others. A Certificate III qualification is premised on the understanding that it provides a vocational outcome in its own right and stretches beyond 'preparation for work'. It may even reflect a

trade outcome. Some Certificate III qualifications, or the units of competency packaged to make up the qualification, also require or assume prerequisite or required knowledge and skills

For these reasons, effective learning and assessment in a completely institutional environment are extremely difficult to achieve. While some 'technical' skills may be effectively learnt and assessed in an appropriately structured, simulated environment, work

environment-related competencies pose significant challenges. In these cases, statements of attainment for individual units are usually more appropriate than the award of full qualifications.

Certificate IV

At this AQF level, individuals need to demonstrate competence characterised by a degree of unpredictability, varying contexts, critical appraisal and management of diverse and perhaps questionable information and the assumption of responsibility for the quality and quantity of one's own work and often the work of others. Some Training Packages consider their CertificateIV graduates to be 'associate professionals and supervisors'.

It is highly unlikely that a full Certificate IV qualification could be achieved in a school environment, other than through a schools-based New Apprenticeship.

Work placement

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

Work placement usually involves students spending an extended period of time in a workplace gaining experience and skills, and undergoing an assessment process related to the attainment of a qualification in a specific occupational field.

An essential feature of school-industry programs is that they involve students spending some time learning in a workplace. In recent years an increasing number of effective structured workplace learning programs have made significant progress towards greater workplace integrity for those industry training programs that are delivered predominantly off-the-job. The implementation of Training Packages means that structured workplace learning must be a consideration for all RTOs, not only schools, in the delivery of training programs.

Principles for quality workplace learning

The Ministerial Council on Education, Employment, Training and Youth Affairs (MCEETYA) endorsed the Principles for Quality Workplace Learning for school students engaged in VET programs throughout Australia. All states and territories apply the principles to their work placement programs, although the nature and extent of work placement programs vary across states and territories.

The broad MCEETYA principles are documented below.

Quality workplace learning is integrated into a program

- It operates within a framework which provides the opportunity for all students to access it, though not all students may choose to do so; and
- It operates within the context of vocational courses, which are recognised by industry, are responsive to industry needs and forms part of a student's exit credential.

Quality workplace learning is structured

- It has a clearly articulated and documented purpose;
- There are clearly identified and documented learning outcomes for students within accredited programs, which are linked to post-school qualifications;
- They are of sufficient duration and depth to enable students to acquire a reasonable understanding of the enterprise/industry to demonstrate competence according to industry standards of at least level 1 of the AQF;
- There is a matching between the students' skills and interests and the work placements;

and

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

- Students, teachers and employers are thoroughly prepared beforehand so that the expectations and outcomes of the work placement are clearly understood by all parties.

Quality workplace learning is monitored

- The learning is coordinated by personnel with appropriate expertise and adequate resources; and
- Support should be made available to students and employers throughout the course of the work placement.

Quality workplace learning is regulated

There are clearly stated procedures designed to ensure that:

- Students are protected from moral and physical danger;
- Students work in a non-discriminatory and harassment-free environment;
- Students receive appropriate training and instruction in occupational health and safety;
- Students are not exploited by being continuously engaged in a production or service capacity or used to substitute for the employment of employees and payment of appropriate wages; and
- Students are required to understand the roles and responsibilities of employees in the workplace and are expected to follow the directions of the workplace supervisors and other employees.

Quality workplace learning is assessed

- The assessment, according to industry standards, is of students' competencies achieved in the workplace which contributes to the overall assessment of the program; and
- There are mechanisms for the recording and reporting of students' competencies.

There is a strong correlation between these MCEETYA quality principles and the OECD characteristics of high quality learning programs detailed below.

The major 14-country study entitled *From Initial Education to Working Life: Making Transitions Work* by the OECD identified 10 characteristics of high quality workplace learning programs. These are:

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

1. Work placements that are long enough for real learning to take place.

2. Systematic analysis of the training capacity of the workplace, to see what it can realistically supply.

3. A formal training plan, setting out what has to be taught and learned, and clarifying the work-based and school-based parts of a student's program.

4. Employer involvement in student selection for work placements.

5. The presence of a trained program coordinator, able to liaise between the school and the firm and troubleshoot when problems occur.

6. The use of qualified, highly competent workers as workplace trainers or mentors.

7. Regular face-to-face contact between the coordinators and employers and in-firm supervisors.

8. Monitoring of the students on the job by the program coordinator.

9. The evaluation of student performance against the training plan at the end of the placement, with the evaluation carried out by the job supervisor and coordinator jointly.

10. Deliberate efforts by schools to relate what has been learned at work to students'

schoo-based learning. (source: OECD, 2000, *From Initial Education to Working Life: Making Transitions Work* . Organisation for Economic Cooperation and Development, Paris.)
Effective work placement is characterised by:

- activities that complement off-the-job learning programs
- clearly articulated and documented purpose
- development of appropriate attitudes towards work
- development of competence in designated industry skills and employability skills
- facility for on-the-job practice of skills acquired in a classroom
- flexibility
- learning in a range of behaviours appropriate to the relevant industry
- opportunities for work-based assessment
- regular and frequent use of current technology and equipment

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

- relevance to the VET qualification being undertaken
- recognition of student readiness
- support of industry partners.

Beyond the above, a number of other provisions are necessary for a successful work placement program. The credibility of work placements and any resultant recognition of competence requires a degree of 'seriousness' if the outcomes are to be valued by individuals and industry clients of the VET system.

It is suggested that stakeholders involved in the planning and management of work placements carefully consider and implement the following general principles.

1 That the RTO assume responsibility for finding placements and validating the arrangements.

2 That the workplace has the appropriate resources, tools and staff to conduct the placement, with compliance with any legislative requirements.

3 That there be regular validation by the RTO that the student and assessor, where relevant, are operating according to RTO AQTF 2007 standards.

4 That a student on work placement must be covered by injury insurance.

5 That there is a formal contract setting out each party's responsibilities and obligations.

6 That, where possible, the workplace has on site a qualified workplace trainer and assessor in 'direct line' control of the student (to avoid training and assessment by

'proxy').

7 That if the placement is for assessment only then there must be clearly documented assessment tasks specifically related to the unit being assessed and evidence retained to support achievement of competence (for both best practice recording purposes and audit/appeal).

8 That if the placement also includes training, then any 'academic pass' cannot be bestowed prior to the placement as clearly all of the learning components have not been undertaken nor can they be assessed in advance if they have not been learned.

9 That the training be directly related to achievement of competence while recognising the likely acquisition of other skills and knowledge.

10 That where assessment occurs it be clearly related to a unit of competency relevant to the work placement.

11 That where more than one performance criterion (possibly over more than one unit) is being assessed there must be a clearly linked and documented relationship between the assessment and the performance criterion.

12 That the qualifications level be appropriate in context, i.e. if it is advanced programming there must be an advanced programming task observed and assessed.

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

13 That the actual variables of the performance criterion be documented for audit purposes and for verification of appropriateness of the range of activities in the work placement.

In some state and territory school systems, part-time student work in an appropriate

workplace may be used to fulfil work placement requirements and virtual or simulated work placements may also be legitimate.

Appendix B: Glossary of terms

AAC	advanced audio coding
A&R	artist and repertoire
ACC	Australian Copyright Council
ADR	additional dialogue recording
AIFF	audio interchange file format
APRA	Australasian Performing Rights Association
AMCOS	Australasian Mechanical Copyright Owners Society
AMPAL	Australasian Music Publishers Association
APRA	Australasian Performing Rights Association
ARIA	Australian Recording Industry Association

Appendix C: Creativity, innovation and design in IBSA Training Packages

What do we mean by creativity, innovation and design?

The terms 'creativity', 'innovation' and 'design' tend to be used very differently by different people and often without shared understanding around the meaning and application of each term. How these terms are used and applied in relation to workplace skills development or within the VET system adds additional layers of complexity.

A key finding of IBSA's research was, that while **definitions** of creativity, innovation and design were somewhat vague, there were a number of key elements that united the works of a number of educationalists and theorists, and more recently reports from business and governments, on these concepts:

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

- Creativity, innovation and design as skills-based concepts, behaviours and knowledge areas are concerned with a multiplicity of skills and environmental factors.
- The skill/behaviours are complex and work **together** , iteratively and organically with such things as visual thinking, collaboration, risk-taking, problem-solving, communication, reflection and meta-cognition. In many instances cross or interdisciplinary educational and business approaches are required for these skills to develop and be used.
- Creativity, innovation and design skills and knowledge involve **individuals** and their relationship with technologies, materials, work practices and processes, and other people, in collaborative and supportive environments.
- The value of creativity, innovation and design outputs are context-bound or

context-specific. This does not mean that designers and individuals cannot work across contexts; it means that creativity, innovation and design relate in their value and usefulness to a particular set of circumstances, materials, technologies and work practices or systems, within or across a specific time period.

Below are a number of definitions and key descriptors to facilitate common understanding of creativity, innovation and design. IBSA has taken the ideas and spirit of these descriptors as a starting point for developing units of competency.

Creativity is?

Creativity involves the use of the imagination or original ideas in order to create something

(source:Compact Oxford English Dictionary)

Key descriptors: Creativity involves toying with ideas/and or materials, originating concepts, experimenting, conceptualising, exploring, crossing boundaries (usually done individually but often enhanced collectively) and then communicating these.

On a daily basis, our lives are enhanced and enriched by both our individual creativity and that of others. In an example close to home, we note that the very first Victa prototype, the Peach-tin, made in 1952 by Mervyn Victor Richardson, the founder of the Victa lawnmower company, was developed in his backyard in the Sydney suburb of Concord. It was aptly named the Peach-tin after its petrol tank, which was made from an empty can of peaches. Creativity is also the way an artist or designer experiments with new ways of doing and representing the world, such as the work done by Picasso, or Australia's own Indigenous artists whose unique representation of Country and Dreaming now generate huge interest both nationally and internationally.

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

Creativity is enhanced when the free movement of ideas across and between different fields of knowledge is encouraged, or when individuals have their self-confidence, curiosity, flexibility and willingness to take risks facilitated. It is also likely to flourish where individuals work together in multidisciplinary teams and are taught to observe, perceive and imagine more in their thinking (Hoffert). (Source: Imagine Australia: The Role of Creativity in the Innovation Economy. Hoffert, PMSEIC, 2005)

Innovation is? (source: Ithaca Group report on innovation, Rod McDonald, 2005)

Coming up with new ideas*which embrace invention and everything that would emerge from R&D activities.*

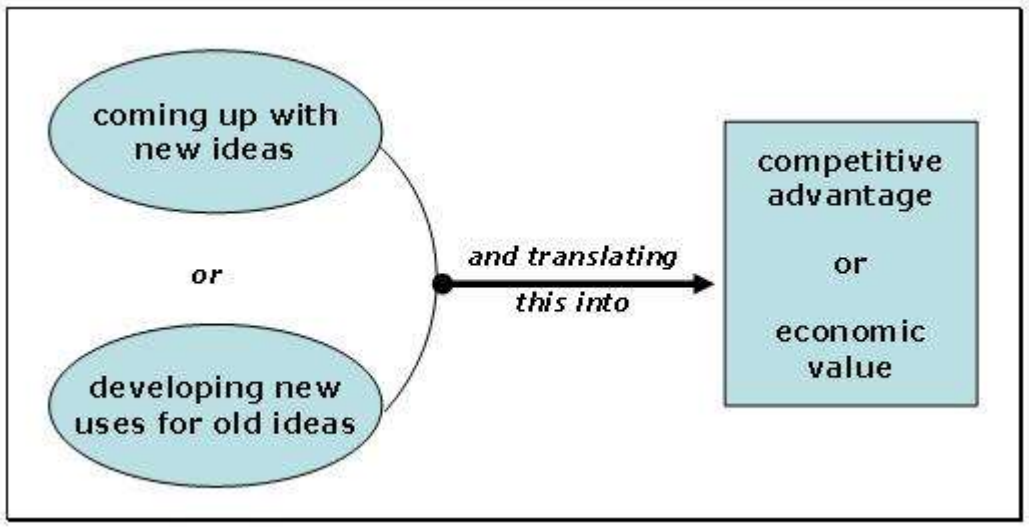
Developing new uses for old ideas *, which embraces notions of improvement, further development of existing ideas, and identifying existing resources and, through applying knowledge, elevating these ideas to a new level of utility and value to the customer. The changes can be either incremental (e.g. any improvement made to an existing production process) or radical (e.g. the adaptation of new technology to new ways of doing business).*

Translating this into competitive advantage or economic growth,*which means more than invention or R&D or simply having a good idea: It's the translation of that idea into a useful reality. This encompasses:*

- *the commercialisation and internationalisation of new technologies (scientific, technological, organisational, financial and business)*
- *all industries, including high technology, traditional manufacturing and service sectors*
- *the anticipation and shaping of market needs and all activities that encourage and support any of the above.*

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

The diagram below shows how these concepts link to each other.



Key descriptors: the innovation process involves managing change, managing ideas, implementing new ideas, working together in communities and/or corporations, anticipating market needs with new products, being entrepreneurial with new ideas, systems, products and materials.

Design is?

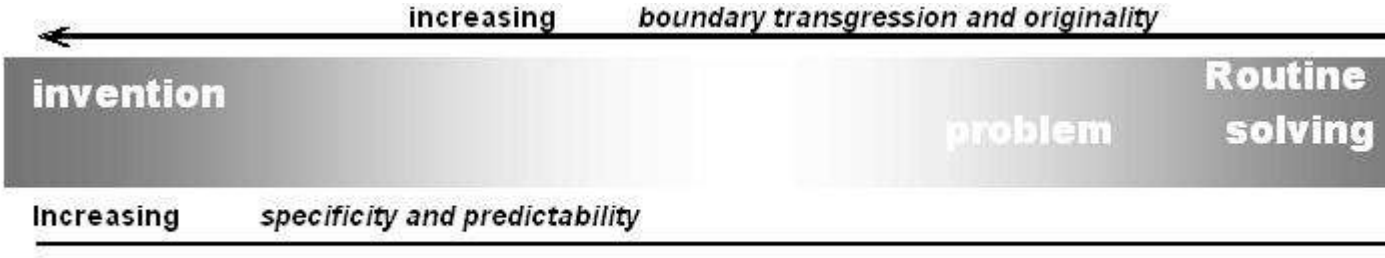
Design is the deliberate and considered creative process of devising and producing by independent investigation, experimentation and mental activity something that is useful.(Source: Ithaca Group report on innovation, Rod McDonald, 2005)

Key descriptors: the design process involves purposeful problem posing and solving with materials, technologies or systems - usually in response to briefs, researching options considering aesthetics, functions and performance, following through with ideas, sequential trialling, evaluating and reflecting, producing something useful.

The way design impacts on our lives is seen in innovations and products such as Apple computers with their unique approach to colour, shape and style; Alessi's items of everyday use; and medical interventions or inventions, such as the bionic ear.

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

Design is (most typically) a trained state of mind where individuals constantly examine the world around them to find improvements. In organisations, design thinking - which is really another word for innovation - can be fostered if workers are encouraged to contribute ideas in everything from product design to business processes, in a free-flowing atmosphere. Design solutions can be applied across routine as well as more inventive ways, as shown in Roantree's diagram below. (source: Enhancing Creativity and Innovation through Training. A think piece on the future Training Package development to address creativity and innovation, Barry Roantree, 2005)



Creativity spectrum

Using the creativity, innovation and design units of competency

Below is a list of the units which were endorsed as part of the BSB07 Business Services Training Package.

Creative thinking

BSBCRT101A Apply critical thinking techniques

BSBCRT301A Develop and extend critical and creative thinking techniques

BSBCRT401A Articulate, present and debate ideas BSBCRT402A Collaborate in a creative process BSBCRT501A Originate and develop concepts

BSBCRT601A Research and apply concepts and theories of creativity

Innovation

BSBINN201A Contribute to workplace innovation BSBINN301A Promote innovation in a team environment BSBINN501A Establish systems that support innovation BSBINN502A Build and sustain an innovative work environment BSBINN601A Manage organisational change

BSBINN801A Lead innovative thinking and practice

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

Design

BSBDES201A Follow a design process

BSBDES202A Evaluate the nature of design in a specific industry context

BSBDES301A Explore the use of colour

BSBDES302A Explore and apply the creative design process to 2D forms BSBDES303A Explore and apply the creative design process to 3D forms BSBDES304A Source and apply design industry knowledge

BSBDES305A Source and apply information on the history and theory of design

BSBDES401A Generate design solutions BSBDES402A Interpret and respond to a design brief BSBDES403A Develop and extend design skills and practice BSBDES501A Implement design solutions

BSBDES502A Establish, negotiate and refine a design brief

BSBDES601A Manage design realisation

BSBDES602A Research global design trends

BSBDES701A Research and apply design theory

The units are designed for use by different people in different ways and in different contexts. A key objective is that the units provide triggers for a greater focus on developing skills in creativity, innovation and design. How this is done will depend on the needs of different individuals and groups. In fact, effective implementation of the units relies on the creativity, innovation and design skills of those who choose to use them.

Individuals, workplaces or training organisations could:

- develop short courses or programs based on one or more of the units to nurture skills in creativity, innovation and design - either in the workplace or a training institution
- link the units to other workforce development activities
- combine the units with other industry or occupation-specific content to form a 'skill set' that meets a specific workplace need

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

- select the units as electives in national qualifications
- use the units to assist in identifying the nature of creativity, innovation and design skills needed by people working in different roles
- select small portions of the units as the basis for learning and development activities.

Users are encouraged to review the whole unit, and pay particular attention to information under 'Application of the unit' to assess relevance to particular individuals and groups.

CUS20109 Certificate II in Music

Modification History

Not applicable.

Description

Descriptor

This qualification reflects the role of individuals who perform a range of mainly routine tasks in the music industry, work under direct supervision, and use limited practical skills and fundamental operational knowledge in a defined context. It is a preparatory qualification that can be used as a pathway into specialist Certificate III qualifications within the music industry.

Job roles

This qualification allows learners to develop skills and knowledge to prepare for work, but there are no specific employment outcomes at this level.

Pathways Information

Qualification pathways

Pathways into the qualification

Candidates may enter the qualification with limited or no vocational experience and without a relevant lower level qualification.

Licensing/Regulatory Information

Licensing, legislative, regulatory or certification considerations

There is no direct link between this qualification and licensing, legislative and/or regulatory requirements. However, where required, a unit of competency will specify relevant licensing, legislative and/or regulatory requirements that impact on the unit.

Entry Requirements

Not applicable.

Employability Skills Summary

EMPLOYABILITY SKILLS QUALIFICATION SUMMARY	
The following table contains a summary of the employability skills required by the music industry for this qualification. The employability skills facets described here are broad industry requirements that may vary depending on qualification packaging options. This table is a summary of employability skills that are typical of this qualification and should not be interpreted as definitive.	
Employability Skill	**Industry/enterprise requirements for this qualification include**:
Communication	• interpreting and clarifying written or verbal instructions • providing standard information about services or operations to others
Teamwork	• seeking and responding to feedback on work in progress • working as a member of a team and interacting with members of the public in a specific job role
Problem-solving	• finding the most relevant source of information for a specific task • recognising operational problems of a routine nature and referring them to the appropriate person
Initiative and enterprise	• developing an attitude towards work and learning that involves asking questions • obtaining information in a culturally appropriate way
Planning and organising	• collecting and organising information in a way that allows for easy retrieval • planning work tasks in a logical sequence
Self-management	• following workplace procedures, particularly in relation to OHS • producing work within deadlines • seeking expert assistance when problems arise
Learning	• keeping up-to-date with industry developments and trends • improving techniques through practice
Technology	• sending emails • using the internet to source information

Packaging Rules

EMPLOYABILITY SKILLS QUALIFICATION SUMMARY

The following table contains a summary of the employability skills required by the music industry for this qualification. The employability skills facets described here are broad industry requirements that may vary depending on qualification packaging options. This table is a summary of employability skills that are typical of this qualification and should not be interpreted as definitive.

Employability Skill	**Industry/enterprise requirements for this qualification include**:
Communication	• reading and understanding relevant sources of information • participating in negotiations about work/contractual issues • using presentation and consultation skills to communicate issues arising in the workplace
Teamwork	• working constructively with creative and technical personnel • working collaboratively with others involved in rehearsals and performances • sharing industry information with colleagues and peers
Problem-solving	• identifying music notation and aural-recognition problems • assisting with troubleshooting technical and artistic problems • planning work tasks in a logical sequence • recognising and resolving workplace issues when implementing new technology
Initiative and enterprise	• using critical-listening skills to make informed judgements about music • interpreting music elements and structures • developing original and innovative approaches to composition • responding appropriately to the unexpected during performances
Planning and organising	• gathering information on musical styles, elements, forms and structures • matching repertoire to target audience and market requirements • prioritising work tasks and establishing deadlines
Self-management	• monitoring own work and introducing strategies to improve performance • practising and performing with due regard to personal health and safety considerations • prioritising work tasks and working within deadlines • demonstrating reliability in all agreed work commitments
Learning	• developing knowledge of musical styles and genres • improving skills through practice • continuously evaluating and adjusting own work via critical listening

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

EMPLOYABILITY SKILLS QUALIFICATION SUMMARY	
	• seeking feedback and integrating constructive advice into own work performance
Technology	• storing and retrieving relevant OHS documents • using appropriate/current software and hardware for composing, orchestrating, setting down and recording music • analysing scales, chord sequences and music systems, rhythms, time signatures and beat patterns of musical organisation relevant to area of specialisation

CUS30209 Certificate III in Technical Production

Modification History

Not applicable.

Description

Descriptor

This qualification reflects the role of skilled operators who apply a broad range of competencies in a varied work context, using some discretion and judgement and relevant theoretical knowledge. They may provide technical advice and support to a team.

Job roles

- assistant sound mixer
- audiovisual operator
- casual technician
- live sound assistant.
-

Pathways Information

Qualification pathways

Pathways into the qualification

- CUE20103 Certificate II in Live Production, Theatre and Events
- CUF20107 Certificate II in Creative Industries (Media)
- CUS20109 Certificate II in Music, or
- with limited or no vocational experience and without a relevant lower level qualification
-

Licensing/Regulatory Information

Licensing, legislative, regulatory or certification considerations

There is no direct link between this qualification and licensing, legislative and/or regulatory requirements. However, where required, a unit of competency will specify relevant licensing, legislative and/or regulatory requirements that impact on the unit.

National Standard for Licensing Persons Performing High Risk Work

The National Standard for Licensing Persons Performing High Risk Work applies to persons performing dogging and rigging work. Completion of the following units is required for certification at either basic, intermediate or advanced levels.

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

CPCCLDG3001A Licence to perform dogging

CPCCLRG3001A Licence to perform rigging basic level

CPCCLRG3002A Licence to perform rigging intermediate level

CPCCLRG4001A Licence to perform rigging advanced level.

National Code of Practice for Induction for Construction Work

Sets and staging for some performances or events may fall within the definition of construction work. If so, people entering the construction site are required to complete the general induction training program specified by the National Code of Practice for Induction Training for Construction Work (Australian Safety Compensation Council, May 2007).

Achievement of the unit 'CPCCOHS1001A Work safely in the construction industry' from the CPC08 Construction and Plumbing Services Integrated Framework Training Package fulfils this requirement.

Information on occupational licensing and its intersection with vocational education and training can be found in Licensing Line News at www.licensinglinenews.com.

Not applicable.

Employability Skills Summary

EMPLOYABILITY SKILLS QUALIFICATION SUMMARY	
The following table contains a summary of the employability skills required by the music industry for this qualification. The employability skills facets described here are broad industry requirements that may vary depending on qualification packaging options. This table is a summary of employability skills that are typical of this qualification and should not be interpreted as definitive.	
Employability Skill	**Industry/enterprise requirements for this qualification include**:
Communication	• establishing and maintaining work/contractual relationships through regular contact • conducting negotiations to identify realistic solutions to work/contractual issues • reading and understanding sound mixing documentation • interpreting and clarifying written or verbal instructions • making verbal fault reports to appropriate personnel • reading manufacturer specifications and installation manuals
Teamwork	• sharing industry information with colleagues and peers

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

EMPLOYABILITY SKILLS QUALIFICATION SUMMARY	
	• working effectively in a team environment
Problem-solving	• recognising and resolving workplace issues when implementing new technology • identifying faults that may occur in audio production environments and referring problems to relevant personnel
Initiative and enterprise	• applying critical listening and aural-discrimination skills when setting up audio equipment
Planning and organising	• prioritising work tasks and establishing deadlines • seeking expert assistance when problems arise
Self-management	• monitoring own work and introducing strategies to improve performance
Learning	• seeking feedback and integrating constructive advice into own work performance • maintaining knowledge of copyright issues
Technology	• using information-management skills to track, store and retrieve relevant documents • operating a variety of mixing consoles • using specialised equipment to remove white noise • setting up and disassembling audio equipment for playback • mixing and recording in line with manufacturer manuals and OHS specifications • running and patching cables neatly and safely • testing sound equipment in line with industry standards

Licensing/Regulatory Information

Licensing, legislative, regulatory or certification considerations

There is no direct link between this qualification and licensing, legislative and/or regulatory requirements. However, where required, a unit of competency will specify relevant licensing, legislative and/or regulatory requirements that impact on the unit.

National Standard for Licensing Persons Performing High Risk Work

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

The National Standard for Licensing Persons Performing High Risk Work applies to persons performing dogging and rigging work. Completion of the following units is required for certification at either basic, intermediate or advanced levels.

CPCCLDG3001A Licence to perform dogging

CPCCLRG3001A Licence to perform rigging basic level

CPCCLRG3002A Licence to perform rigging intermediate level

CPCCLRG4001A Licence to perform rigging advanced level.

National Code of Practice for Induction for Construction Work

Sets and staging for some performances or events may fall within the definition of construction work. If so, people entering the construction site are required to complete the general induction training program specified by the National Code of Practice for Induction Training for Construction Work (Australian Safety Compensation Council, May 2007).

Achievement of the unit 'CPCCOHS1001A Work safely in the construction industry' from the CPC08 Construction and Plumbing Services Integrated Framework Training Package fulfils this requirement.

Information on occupational licensing and its intersection with vocational education and training can be found in Licensing Line News at www.licensinglinenews.com.

Entry Requirements

EMPLOYABILITY SKILLS QUALIFICATION SUMMARY	
	instructions • drawing block diagrams of equipment and system setups • clearly explaining/offering options about sound systems for a range of productions
Teamwork	• working effectively in a team environment • sharing industry information with colleagues and peers • forging effective relationships with internal and/or external people, and developing and maintaining these networks • supervising the implementation of sound plans
Problem-solving	• calculating duration and capacity of recording media at various speeds and sample rates • identifying and interpreting synchronisation time codes • promptly and effectively rectifying sound defects, system failures and mechanical breakdowns • calculating duration and capacity of media at various speeds and sample rates • factoring in a range of costs when establishing fee structures
Initiative and enterprise	• planning for contingencies • responding effectively to equipment or system malfunction and other unexpected events during productions • being proactive in identifying and following through on work opportunities • developing a strategic approach to maximising return from freelance activity • balancing work and personal commitments
Planning and organising	• prioritising work tasks and establishing deadlines • locating and using relevant sources of information in the context of preparing sound plans • planning work to maximise cash flow • establishing and maintaining personal financial and work record-keeping systems • planning integration of new technologies into own professional work practices
Self-management	• identifying own obligations • completing work according to contract terms and conditions • making decisions within level of own responsibility • seeking expert assistance when problems arise • monitoring own work and introducing strategies to improve performance
Learning	• seeking feedback and integrating constructive advice into own work performance

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

EMPLOYABILITY SKILLS QUALIFICATION SUMMARY	
	• using coaching and mentoring skills to provide support to colleagues • keeping abreast of industry developments relevant to own area of work • participating in professional development activities
Technology	• setting up and disassembling audio equipment for playback, mixing and recording in line with manufacturer manuals and OHS specifications • working with a variety of sound-recording equipment • identifying and rectifying equipment faults • using the internet as a source of information • using standard word processing, spreadsheet and database applications • using information management skills to store and retrieve relevant documents

Selecting electives for different outcomes

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

Packaging Rules

The context for this qualification varies, and this must guide the selection of elective units. The following examples are designed to assist in the selection of appropriate electives for particular outcomes at this level, but they are in no way prescriptive:

Sound mixer/technician

Core units plus:

- BSBWOR401A Establish effective workplace relationships
- CUESOU03C Operate professional audio equipment
- CUESOU04C Mix live audio
- CUESOU09B Manage and compile audio replay material
- CUESOU10B Operate wireless audio equipment
- CUESOU11B Set up and operate stage monitor systems
- CUFIND401A Provide services on a freelance basis
- CUSIND401A Develop specialist expertise in the music industry
- CUSMLT301A Apply knowledge of genre to music making
- CUSSOU303A Set up and disassemble audio equipment
- CUSSOU402A Develop and implement sound plans

Sound recordist

Core units plus:

- BSBWOR402A Promote team effectiveness
- CUFIND401A Provide services on a freelance basis
- CUSIND401A Develop specialist expertise in the music industry
- CUESOU03C Operate professional audio equipment
- CUESOU08B Select and manage microphone and other audio input sources
- CUFPOS402A Manage media assets
- CUSSOU405A Mix recorded music
- CUSSOU401A Record sound
- CUSSOU402A Develop and implement sound plans
- CUSSOU403A Perform advanced sound editing

CUS40309 Certificate IV in Music Business

Modification History

Not applicable.

Description

Descriptor

This qualification reflects the role of individuals who use well-developed skills and a broad knowledge base in a wide variety of contexts. They apply solutions to a defined range of unpredictable problems, and analyse and evaluate information from a variety of sources. They may provide leadership and guidance to others with some limited responsibility for the output of others.

Job roles

- band/artist manager
- booking agent
- music marketing and promotions officer
- self-employed (independent) musician.
-

Pathways Information

Qualification pathways

Pathways into the qualification

- Certificate III qualification in marketing or business management (e.g. CUS30309 Certificate III in Music Business or BSB30107 Certificate III in Business)
- vocational experience in marketing or business management, but without formal marketing or business management qualifications
- with limited or no vocational experience and without a relevant lower level qualification.
-

Licensing/Regulatory Information

Licensing, legislative, regulatory or certification considerations

There is no direct link between this qualification and licensing, legislative and/or regulatory requirements. However, where required, a unit of competency will specify relevant licensing, legislative and/or regulatory requirements that impact on the unit.

Employability Skills Summary

EMPLOYABILITY SKILLS QUALIFICATION SUMMARY	
The following table contains a summary of the employability skills required by the music industry for this qualification. The employability skills facets described here are broad industry requirements that may vary depending on qualification packaging options. This table is a summary of employability skills that are typical of this qualification and should not be interpreted as definitive.	
Employability Skill	**Industry/enterprise requirements for this qualification include**:
Communication	• negotiating effectively with music industry personnel to confirm contractual obligations and expectations • interpreting legal requirements, contracts, company policies and procedures • reporting, recordkeeping and applying consultation skills to operate the business • reading a variety of texts, preparing general information and papers • writing formal and informal letters according to target audience • proofreading skills to check for accuracy and consistency of information by consulting additional resources • interpreting and evaluating the purposes and uses of various features of spreadsheets
Teamwork	• sharing industry information with colleagues and peers • working effectively in a team and acknowledging cultural protocols • working constructively with users of published works • working cooperatively with artists and performers
Problem-solving	• interpreting relevant technical data • managing performance information and controlling finances • analysing compliance information • addressing issues which may affect plans and their implementation • collating and presenting data, graphs and related references • balancing artistic and commercial deliverables of performing/recording deals • calculating royalties and performance fees and addressing discrepancies • apportioning publishing income to originators of published

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

EMPLOYABILITY SKILLS QUALIFICATION SUMMARY	
	works • analysing markets, assessing promotional opportunities for published works and monitoring developments in new media
Initiative and enterprise	• comparing and assessing the commercial potential of performing/recording contracts • identifying alternative approaches to monitoring the use of published works • identifying commercial potential of works listed in a publisher's copyright files • providing advocacy in the presentation of published works for exploitation
Planning and organising	• monitoring own work and introducing strategies to improve performance • prioritising work tasks and establishing deadlines • investigating legal structures, taxation and insurance requirements • developing implementation schedules • promoting artists and securing suitable performing/recording contracts • planning effective promotion strategies
Self-management	• prioritising tasks to meet key dates • using a variety of strategies for planning, prioritising and reviewing own work
Learning	• seeking feedback and integrating constructive advice into own work performance • obtaining and interpreting information to ensure currency of work practice • identifying opportunities to maintain and enhance industry knowledge • maintaining currency of music licensing knowledge
Technology	• using relevant industry software to access/download industry information, including contractual and legal information • using information-management skills to store and retrieve relevant documents • using relevant business equipment

Selecting electives for different outcomes

The context for this qualification varies, and this must guide the selection of elective units. The following examples are designed to assist in the selection of appropriate electives for particular outcomes at this level, but they are in no way prescriptive:

Assistant sound engineer

Core units plus:

- BSBPMG510A Manage projects
- BSBWOR502A Ensure team effectiveness
- CUESOU10B Operate wireless audio equipment
- CUESOU11B Set up and operate stage monitor systems
- CUESOU12B Set up and operate audio system control networks
- CUESOU13B Specify, install and operate audio for an outdoor event
- CUSSOU402A Develop and implement sound plans
- CUSSOU405A Mix recorded music
- CUSSOU501A Develop sound designs
- CUSSOU502A Produce sound recordings
- CUSSOU503A Implement sound designs
- CUSSOU504A Create a final sound balance
- SITXFIN007A Manage physical assets

Sound designer

Core units plus:

- CUSSOU501A Develop sound design
- CUSSOU503A Implement sound design
- CUESOU11B Set up and operate stage monitor systems
- CUESOU12B Set up and operate audio system control networks
- CUESOU13B Specify, install and operate audio for an outdoor event
- BSBCRT501A Originate and develop concepts
- CUSSOU504A Create a final sound balance
- CUFCMP501A Manage and exploit copyright arrangements
- BSBPMG510A Manage projects
- CUFIND401A Provide services on a freelance basis
- BSBFIM501A Manage budgets and financial plans
- SITXFIN007A Manage physical assets
- BSBWOR502A Ensure team effectiveness

CUS50309 Diploma of Music Business

Modification History

Not applicable.

Description

Descriptor

This qualification reflects the role of individuals who possess a sound theoretical knowledge base and use a range of specialised, technical or managerial competencies to plan, carry out and evaluate own work and/or that of a team.

Job roles

- licensing manager
- music merchandiser
- music promoter
- music publisher
- music/artist manager.
-

Pathways Information

Qualification pathways

Pathways into the qualification

- a Certificate IV qualification in marketing or business management, e.g. CUS40309 Certificate IV in Music Business, BSB40207 Certificate IV in Business and BSB41307 Certificate IV in Marketing
- extensive vocational experience in marketing or business management
- extensive vocational experience in music industry administration.
-

Licensing/Regulatory Information

Licensing, legislative, regulatory or certification considerations

There is no direct link between this qualification and licensing, legislative and/or regulatory requirements. However, where required, a unit of competency will specify relevant licensing, legislative and/or regulatory requirements that impact on the unit.

Employability Skills Summary

EMPLOYABILITY SKILLS QUALIFICATION SUMMARY	
The following table contains a summary of the employability skills required by the music industry for this qualification. The employability skills facets described here are broad industry requirements that may vary depending on qualification packaging options. This table is a summary of employability skills that are typical of this qualification and should not be interpreted as definitive.	
Employability Skill	**Industry/enterprise requirements for this qualification include**:
Communication	• consulting with staff and promoting a safe workplace • relating to people from diverse backgrounds and with diverse abilities • preparing complex reports • interpreting the needs and rights of relevant parties • advising artists on the commercial feasibility of their repertoire • maintaining comprehensive business networks to promote artists' careers • mentoring and counselling artists effectively, ethically, sensitively and tactfully • negotiating performance and publicity opportunities on behalf of artists • advocating and promoting ideas and new talent • negotiating and problem solving in relation to situations that arise during touring • preparing communications about risk management and encouraging stakeholder involvement • drafting, interpreting and finalising contracts • negotiating contractual terms and conditions • applying communication, reporting, recordkeeping and consultation skills to operate the business
Teamwork	• working effectively in a team and acknowledging cultural protocols • working with relevant parties when negotiating deals • working collaboratively with artists • working constructively with users of published works • working collaboratively on ideas and articulating the rationale for concepts in ways that promote constructive discussion with others

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

EMPLOYABILITY SKILLS QUALIFICATION SUMMARY	
	• managing a marketing team
Problem-solving	• analysing relevant workplace data in order to identify hazards, and to assess and control risks • dealing with complex and non-routine difficulties • solving problems arising from negotiating deals • interpreting relevant technical data • developing structured funding plans • evaluating business deals to determine alignment with own and artists' interests • identifying and resolving actual and potential conflicts of interest when representing artists • facilitating accurate royalty payments and records • reading, understanding and updating a budget • analysing marketing performance, revenue and cost • clarifying and resolving contractual discrepancies and variations • investigating legal structures, taxation and insurance requirements
Initiative and enterprise	• developing and nurturing talent in the interest of artists and the intended market • identifying the commercial potential of current and future music market trends • assessing the marketability of new and emerging talent • assessing promotional opportunities for published works and monitoring developments in new media • providing advocacy in the presentation of published works for exploitation • generating a range of innovative concepts and ideas, using lateral thinking and taking a visionary approach to developing concepts and ideas
Planning and organising	• maintaining financial records in compliance with legislative requirements • managing people and projects • planning promotions and promotional campaigns • undertaking business and financial planning • ensuring negotiated agreements are kept within budget • aligning and connecting artists and producers • planning and implementing risk management processes • preparing project proposals and promotional materials • developing strategies for achieving contractual outcomes • monitoring observance of contractual terms and conditions

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

EMPLOYABILITY SKILLS QUALIFICATION SUMMARY	
Self-management	• continuously assessing own leadership and teamwork skills against the professional and career development of managed artists • setting priorities to achieve realisable short and long-term goals • monitoring own work and introducing strategies to improve performance
Learning	• identifying opportunities to maintain and enhance industry knowledge • seeking feedback and integrating constructive advice into own professional practice • evaluating own business skills, identifying deficits and using opportunities to address deficits • improving own negotiation skills • obtaining and interpreting information to ensure currency of work practice
Technology	• using industry-current online copyright licensing, accounting, bookkeeping, financial and/or spreadsheet software • accessing music downloads, websites and blogs • downloading contractual and legal information

Employability Skills Summary

EMPLOYABILITY SKILLS QUALIFICATION SUMMARY	
The following table contains a summary of the employability skills required by the music industry for this qualification. The employability skills facets described here are broad industry requirements that may vary depending on qualification packaging options. This table is a summary of employability skills that are typical of this qualification and should not be interpreted as definitive.	
Employability Skill	**Industry/enterprise requirements for this qualification include**:
Communication	• consulting with staff and promoting a safe workplace • negotiating deals and achieving agreed outcomes • interpreting the needs and rights of relevant parties • obtaining and interpreting information to ensure currency of work practice • sharing industry information with colleagues and peers • writing quality reports • interacting effectively with people with diverse interests and needs • conducting effective negotiations with a wide range of production personnel, external suppliers and service providers • identifying and dealing positively and constructively with conflict to achieve best production outcomes • interpreting and clarifying written proposals and creative briefs • communicating the production vision and concept within the constraints of the production requirements • providing feedback to recording personnel on appropriate recording and production techniques
Teamwork	• working effectively in a team and acknowledging cultural protocols • working with relevant parties when negotiating deals • gaining confidence and trust from people working at all levels • working effectively with artists • working constructively with group dynamics • identifying and dealing effectively with conflict • working cooperatively with and providing leadership to personnel involved in creating the final sound balance
Problem-solving	• analysing relevant workplace data in order to identify hazards, and to assess and control risks • dealing with complex and non-routine difficulties • interpreting relevant legislation to complete copyright documentation • solving problems arising from negotiating deals

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

EMPLOYABILITY SKILLS QUALIFICATION SUMMARY	
	• interpreting relevant technical data • demonstrating lateral thinking skills to find new, improved or different ways of working or engineering the organisation • applying problem-solving skills to deal with project management issues • addressing and resolving problems and challenges in a timely and collaborative manner • interpreting, monitoring and adjusting budgets and cost estimates • promptly and effectively rectifying performance, performance environment and other technical issues that may affect the achievement of a simultaneous sound balance
Initiative and enterprise	• thinking laterally and developing creative means to enable people to accept change positively • developing new and better systems for managing complex situations • demonstrating initiative and flexibility when responding to unexpected changes in the production schedule or process • using innovative approaches in recording to enhance the interpretation and performance of music or to create new possibilities through artistic and technical effects • interpreting music appropriately to ensure a sympathetic and appropriate approach to sound production • using aural imagination to develop coherent and innovative artistic sound outcomes within the scope of productions • accurately identifying and enhancing the characteristics of sound sources • listening critically to the creative and technical work of others
Planning and organising	• sequencing activities to develop a logical structure • demonstrating high-level prioritising, planning and organising skills • coordinating all aspects of managing the production of sound designs, including working within budgets • applying well-developed project management skills covering both physical and human resources • planning work to maximise cash flow • establishing and maintaining personal financial and work recordkeeping systems • planning integration of new technologies into own professional work practices • working within budgets and timeframes • using time-management strategies to set priorities

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

EMPLOYABILITY SKILLS QUALIFICATION SUMMARY	
	• developing systems for required documentation
Self-management	• monitoring own work and introducing strategies to improve performance • working under pressure • providing appropriate and timely documentation • meeting deadlines • evaluating own performance
Learning	• identifying own knowledge and information needs • identifying opportunities to maintain and enhance industry knowledge • seeking feedback and integrating constructive advice into own professional practice
Technology	• storing and retrieving relevant workplace data • using documentation systems for preparing formal contracts and recording or storing copyright agreements • accessing/downloading industry information • using appropriate technology to improve efficiency in the recording process and artistic outcomes • applying knowledge of acoustics to instruments/voices in placements and settings for sound balance in recording • working with a variety of sound recording, production and playback equipment

CUS60309 Advanced Diploma of Music Business

Modification History

Not applicable.

Description

Descriptor

This qualification reflects the role of individuals who use wide-ranging analytical, technical, creative, conceptual and managerial skills in their chosen field in the music industry. Their knowledge base may be specialised or broad. These individuals are often accountable for group outcomes.

Job roles

- new media director
- label manager
- licensing manager
- music business manager
- venue manager.
-

Pathways Information

Qualification pathways

Pathways into the qualification

- a Diploma qualification in marketing or business management, e.g. CUS50309 Diploma of Music Business, BSB50207 Diploma of Business, or BSB51207 Diploma of Marketing
- extensive vocational experience in marketing or business management
- extensive vocational experience in music industry administration.
-

Licensing/Regulatory Information

Licensing, legislative, regulatory or certification considerations

There is no direct link between this qualification and licensing, legislative and/or regulatory requirements. However, where required, a unit of competency will specify relevant licensing, legislative and/or regulatory requirements that impact on the unit.

CUSADM301A Administer operations for rehearsals and performances

Modification History

Not applicable.

Unit Descriptor

Unit descriptor	This unit describes the performance outcomes, skills and knowledge required to provide administrative services for rehearsals and performances. No licensing, legislative, regulatory or certification requirements apply to this unit at the time of endorsement.

Application of the Unit

Application of the unit	This unit applies to individuals responsible for the administration of rehearsals and performances. These individuals provide administrative support to performers, booking agents and venue staff in the management of schedules and other appointment mechanisms. They are also responsible for keeping all relevant parties informed of accurate booking details.

Licensing/Regulatory Information

Not applicable.

Pre-Requisites

Employability Skills Information

Employability skills	This unit contains employability skills.

Elements and Performance Criteria Pre-Content

Elements describe the essential outcomes of a unit of competency.	Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the required skills and knowledge section and the range statement. Assessment of performance is to be consistent with the evidence guide.

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
Confirm and record booking details for rehearsals or performances	1. Gather required ***booking details*** and confirm with ***appropriate persons*** 2. Establish availability of appropriate persons and negotiate alternative arrangements if required 3. Contribute to risk analyses aimed at assessing viability and actuality of rehearsals and performances 4. Record contractual arrangements within designated timeframe 5. Document and store booking details in ***agreed format***
Distribute booking details	6. Distribute booking details to appropriate persons within designated timeframes via agreed ***communication processes*** 7. Respond promptly and accurately to booking queries via agreed communication processes 8. Refer difficulties in responding to booking queries to appropriate persons 9. Amend booking details to reflect changes arising from

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

ELEMENT	PERFORMANCE CRITERIA
	queries and re-distribute to appropriate persons via agreed communication processes

Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE
This section describes the skills and knowledge required for this unit.
Required skills

• literacy skills sufficient to establish, confirm and document booking details
• numeracy skills sufficient to calculate and negotiate performer fees
• communication skills sufficient to:
  • constructively negotiate and achieve agreed outcomes in day-to-day work activities
  • handle inquiries courteously and tactfully
  • disclose information discretely and politely
• planning and organisational skills sufficient to:
  • complete work tasks to timeframes and within budgets
  • use agreed processes to ensure operational effectiveness
• problem-solving skills sufficient to identify risks associated with rehearsals and performances
• self-management skills sufficient to set priorities and apply time-management strategies
• technology skills sufficient to use industry-current computer hardware and software

Required knowledge

• basic risk analysis principles
• compliance requirements of performance venues, including safety and security
• OHS principles of safe listening, including safeguards against hearing loss
• operational and technical requirements of performance venues, such as:
  • acoustic awareness
  • front-of-house and production responsibilities
  • revenue structures
• issues and challenges that arise in the context of attending to the administration of rehearsals and performances
• typical features and requirements of venue contracts

Evidence Guide

EVIDENCE GUIDE	
The Evidence Guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, range statement and the Assessment Guidelines for the Training Package.	
Overview of assessment	
Critical aspects for assessment and evidence required to demonstrate competency in this unit	Evidence of the ability to: • confirm, record and distribute booking details • work collaboratively with performers, agents, managers and venue personnel.
Context of and specific resources for assessment	Assessment must ensure: • access to an environment where rehearsals and performances can be actively and safely administered • access to appropriate technology to prepare and distribute booking confirmation sheets, performance schedules and/or venueworksheets • access to performers, venues and venue personnel • use of culturally appropriate processes and techniques appropriate to the language and literacy capacity of learners and the work being performed.
Method of assessment	The following assessment methods are appropriate for this unit: • case studies and scenarios as a basis for discussing the administration of schedules for performers • direct observation of candidate administering operations for rehearsals and performances • written or oral questioning to assess knowledge of compliance requirements of performance venues and typical features of venue contracts • problem-solving activities to assess ability to estimate and calculate performer's fees.
Guidance information for assessment	Holistic assessment with other units relevant to the industry sector, workplace and job role is recommended, for example: • BSBADM307B Organise schedules • BSBINM301AOrganise workplace information • BSBITU304AProduce spreadsheets • CUSEVT301A Book performance venues

EVIDENCE GUIDE	
	• CUSIND301A Work effectively in the music industry.

Range Statement

RANGE STATEMENT	
The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording, if used in the performance criteria, is detailed below. Essential operating conditions that may be present with training and assessment (depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts) may also be included.	

Booking details may include:	• contact details of performers, agents and venue personnel
	• contractual arrangements and negotiated agreements between performers, agents and venue personnel
	• dates, times and places of performance, including venue address and direction map
	• legal responsibilities of performers, agents and venue personnel
	• operational and technical specifications of venue, such as:
	  • sound equipment
	  • front-of-house equipment
	  • rehearsal times and volumes
	• performers' fees and method of payment
	• production responsibilities
	• venue access details for rehearsal or performance.

Appropriate persons may include:	• agent
	• manager:
	  • artist or band
	  • floor
	  • production
	  • stage
	  • venue
	• performer:

RANGE STATEMENT	

	• actor
	• artist or band
	• cast member
	• conference speaker
	• master of ceremony
	• musician
	• panel member
	• public speaker
	• singer
	• special guest
	• technical crew:
	  • camera
	  • front-of-house
	  • light
	  • sound
	  • stage.

Agreed format may include:	• booking confirmation sheet • performance schedule • venue worksheet.

Communication processes may include:	• distribution to all parties under regular or contingency circumstances via:
	  • email
	  • facsimile
	  • group briefing
	  • hand-delivery, e.g. courier or in person
	  • postal
	  • short message service (SMS)
	  • telephone, including landline and mobile.

Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This section describes the skills and knowledge required for this unit.

Required skills

- research skills sufficient to position a venue within an identified market
- critical-thinking skills sufficient to evaluate and match performances to venues
- literacy skills sufficient to interpret marketing information from venues
- numeracy skills sufficient to estimate and negotiate performance and venue costs
- communication skills sufficient to negotiate with performers and venue personnel
- planning and organisational skills sufficient to source venues and book performances
- problem-solving skills sufficient to identify risks associated with staging performances
- technical skills sufficient to access and download venue information from the internet

Required knowledge

- availability and suitability of performers and venues within a given locality
- basic risk analysis principles
- common terminology used in venue-specific marketing material
- compliance requirements of performance venues, including safety and security
- OHS principles of safe listening, including safeguards against hearing loss
- operational requirements of performance venues
- popular performing styles and genres
- popular venue trends and settings
- technical requirements of performance venues, such as:
  - acoustic awareness
  - front-of-house operations
  - production responsibilities
  - revenue structures
- issues and challenges that typically arise in the context of booking performance venues
- typical features and requirements of venue contracts

RANGE STATEMENT	
Venues may include:	• casinos • churches • clubs • community centres • concert halls • corporate foyers • entertainment centres • nature environments • pubs • restaurants • shopping centres or malls • sporting arenas and stadiums • taverns • theatres, including ballet, college, opera, school and university • town halls.

Sources may include:	• discussions with performers and venue operators
	• electronic and print media
	• industrial relations publications, such as:
	  • bulletins
	  • letters
	  • magazines
	  • newsletters
	• industry publications, such as:
	  • directories
	  • information sheets
	  • reference books
	  • technical publications
	• internet
	• libraries and archives
	• local, regional and state organisations
	• suppliers of products and services
	• venue publications and directories.

Risk analyses may involve:	• balancing expectations and preferences of audience to style and genre of performance • balancing expected performance revenue against venue costs • balancing market appeal of performance to anticipated audience numbers

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT	
	• ensuring safety and security of audience, performers and venue staff • identifying whether competing and simultaneous performances may increase or diminish intended audience • mitigating non-attendance of audience, performers and venue staff.
Special arrangements may include:	• acoustic modifications • air conditioning • catering • cleaning • door deals • heating • lighting • regulatory compliance • size of performance • staging requirements • venue facilities.
Parties may include:	• agents • artists • audience • contractors and suppliers • emergency services • government agencies • host organisations • legal counsel • management • performers • directors • producers • regulatory authorities • sponsors • technicians • venue operators/personnel.
Booking details may include:	• hiring and other fees • OHS and security arrangements • rehearsal and performance schedules • responsibility for staging and front-of-house operations • special benefits for venue operators

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT	
	• special requirements for performers • technical requirements • use of venue facilities.

CUSFIM501A Secure funding for projects

Modification History

Not applicable.

Unit Descriptor

Unit descriptor	This unit describes the performance outcomes, skills and knowledge required to raise money for a creative or artistic project and to participate in negotiations with all parties. No licensing, legislative, regulatory or certification requirements apply to this unit at the time of endorsement.

Application of the Unit

Application of the unit	People responsible for securing funding for creative arts projects apply the skills and knowledge outlined in this unit. In this role they are responsible for determining the amount of funding required, locating likely funding sources, developing funding proposals and maximising their chances of ongoing funding opportunities. This role would typically be undertaken by an artist, artist manager, promoter or senior administrator.

Licensing/Regulatory Information

Not applicable.

Pre-Requisites

Prerequisite units		

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

Prerequisite units		

Employability Skills Information

Employability skills	This unit contains employability skills.

Elements and Performance Criteria Pre-Content

Elements describe the essential outcomes of a unit of competency.	Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the required skills and knowledge section and the range statement. Assessment of performance is to be consistent with the evidence guide.

Elements and Performance Criteria

ELEMENT	**PERFORMANCE CRITERIA**
Identify financial scope of and potential funding sources for project	1. Identify and determine the scope and funding needs of ***project*** 2. Identify optimum funding arrangements and possible ***funding sources*** for project 3. Gather information on funding sources, including organisational vision, prior funding initiatives and expected benefits from participation
Develop a project proposal	4. Plan and critique a ***project proposal*** that will attract funding from identified funding sources 5. Determine optimum method of presenting project proposal to identified funding sources 6. Clearly define structure of funding plan and interest of various parties and ensure proposal is supported by research from appropriate ***sources*** 7. Seek legal, taxation and regulatory advice where necessary and ensure proposal is checked by ***appropriate persons*** to ensure it meets compliance requirements

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

ELEMENT	PERFORMANCE CRITERIA
Present proposal and negotiate with funding sources	8. Present project proposal to funding sources using appropriate presentation techniques 9. Evaluate presentation to identify strengths and weaknesses to inform subsequent presentations 10. Negotiate with funding source representatives to clarify terms and conditions of ***funding agreement*** 11. Discuss funding agreement with all parties in a professional manner
Finalise funding agreement	12. Document funding agreement and circulate to all parties in a timely and effective manner 13. Establish processes to monitor compliance and report progress against funding agreement 14. Ensure funding agreement is checked and confirmed by ***appropriate persons*** 15. Identify opportunities for ongoing funding arrangements with funding sources

Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This section describes the skills and knowledge required for this unit.

Required skills

- research techniques sufficient to access information from reliable sources to support project proposals
- literacy skills sufficient to prepare project proposals and funding agreements
- numeracy skills sufficient to:
  - analysefunding incentivesand tax concession schemes
  - develop structuredfunding plans
  - estimate and calculatethe resource requirements of a project proposal
- communication skills sufficient to:
  - conduct negotiations to clarify terms and conditions of funding agreements
  - establish and maintain relationships with prospective investors
  - present funding proposals to prospective investors
- learning skills sufficient to evaluate and improve own presentation techniques
- planning and organisational skills sufficient to envisage project milestones and monitor project compliance
- problem-solving skills sufficient to identify and plan for factors

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

REQUIRED SKILLS AND KNOWLEDGE
affectingcompletion of projecttasks within deadlines • self-management skills sufficient to work within specified timelines • technology skills sufficient to use industry-current financial and spreadsheet software
Required knowledge
• approaches used to successfully identify and attract funding opportunities in the creative arts industry • broad knowledge of key creative arts industry terminology • compliance requirements of funding agreements in the creative arts industry • copyright, moral rights, intellectual property and legislation, and their impact on the creative arts industry • professional behaviour and ethics as they apply to the creative arts industry • OHS requirements relevant to project work in the creative arts industry • range of potential funding sources and channels through which funding opportunities are publicised in the creative arts industry • sources of information on the creative arts industry and ways of maintaining current industry knowledge • issues and challenges that typically arise in the context of securing funding for projects

Evidence Guide

EVIDENCE GUIDE	
The Evidence Guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, range statement and the Assessment Guidelines for the Training Package.	
Overview of assessment	
Critical aspects for assessment and evidence required to demonstrate competency in this unit	Evidence of the ability to: • develop viable funding proposals • maintain effective networks with prospective investors • negotiate agreed terms, conditions and interests with all parties to a funding agreement.
Context of and specific resources for assessment	Assessment must ensure: • access to an appropriate environment to develop and present funding proposals

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

EVIDENCE GUIDE	
	• access to appropriate sources of information to prepare and support funding proposals • access to appropriate technology to research funding sources and use industry-current software • access to relevant creative arts industry networks • use of culturally appropriate processes, and techniques appropriate to the language and literacy capacity of learners and the work being performed.
Method of assessment	The following assessment methods are appropriate for this unit: • case studies to assess ability to research funding sourcesand apply information to persuasive project proposals • direct observation of candidate preparing a project proposal and negotiating a funding agreement • authenticated copies of funding proposals prepared by the candidate • written or oral questioning to assess knowledge of potential funding sources and channels through which funding opportunities are publicised • problem-solving activities to assess ability to estimate and calculate project costs.
Guidance information for assessment	Holistic assessment with other units relevant to the industry sector, workplace and job role is recommended.

Range Statement

RANGE STATEMENT	
The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording, if used in the performance criteria, is detailed below. Essential operating conditions that may be present with training and assessment (depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts) may also be included.	
Projects may include:	• commercial • print advertisement • corporate video • feature film or video

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT	
	• filmed event or performance • interactive media product, e.g. CD, DVD and podcast • internet production, e.g. website sound • music recording or video • promotional trailer • radio broadcast • short film or video • television program, e.g. documentary • training film or video.
Funding sources may include:	• commissioning bodies • community organisations • corporate contributors • early adopters • enterprises • financial institutions • government departments • individuals • professional organisations • prospective investors • special public funding programs • sponsors • suppliers.
Project proposal may include:	• analysis of benefits and profile of opportunities • compliance requirements, including legal, regulatory, reporting and taxation • cost estimates • creative and managerial experience of proponents • creative possibilities of project • demonstrable outcomes • funding plan • level of risk • likely chances of success • operational and marketing plan • overview and objectives • project timelines and milestones • projected financial performance • promotional and profiling opportunities • proposed interest of various parties:

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT	
	• acknowledgments • percentage of profits • product placement • share of copyright • purpose and amount of required finance.
Sources may include:	• discussions with current industry practitioners • discussions with industry associations • electronic and print media providing: • articles • journals • magazines • news • reviews • subscriptions • government funding programs and publications • industrial relations publications, such as: • bulletins • letters • magazines • newsletters • industry publications, such as: • directories • information sheets • reference books • technical publications • internet • libraries and archives • suppliers of products and services • tender search organisations • training programs, seminars, workshops, master classes and professional development opportunities.
Appropriate persons may include:	• business and financial managers • community representatives • copyright representatives • employee association and union representatives • financial advisers • industry association representatives • industry managers

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT	
	• legal advisers • mentors • professionals from allied areas.
Funding agreement may include:	• compliance monitoring arrangements • reporting and review requirements • rights and responsibilities of all parties • terms and conditions of agreement.

CUSIND301B Work effectively in the music industry

Modification History

Not applicable.

Unit Descriptor

Unit descriptor	This unit describes the performance outcomes, skills and knowledge required to work effectively in the music industry. These include relationship building, negotiation techniques, work prioritisation and personal development. No licensing, legislative, regulatory or certification requirements apply to this unit at the time of endorsement.

Application of the Unit

Application of the unit	People working in any area of the music industry apply the skills and knowledge described in this unit. They could be musicians, composers, administrators, sound mixers, editors or recordists. In an industry where advances in technology are leading to new business models, production techniques and distribution channels, it is vital that everyone keeps up to date with industry trends and emergent technologies. More complex application of these skills are covered in: • CUSIND401A Develop specialist expertise in the music industry.

Licensing/Regulatory Information

Not applicable.

Pre-Requisites

Prerequisite units		

Employability Skills Information

Employability skills	This unit contains employability skills.

Elements and Performance Criteria Pre-Content

Elements describe the essential outcomes of a unit of competency.	Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the required skills and knowledge section and the range statement. Assessment of performance is to be consistent with the evidence guide.

Elements and Performance Criteria

ELEMENT	**PERFORMANCE CRITERIA**
Maintain currency of own industry knowledge	1. Identify ***trends and emergent technologies*** in the music industry using appropriate ***sources of information*** 2. Identify likely effects of industry trends on own work practices 3. In consultation with ***appropriate persons***, identify ***learning opportunities*** to upgrade own skills so that full advantage can be taken of trends and emergent technologies 4. Undertake identified learning opportunities to improve own work practices
Establish effective work/contractual relationships	5. Share information and ideas with others in ways that engender goodwill, trust and respect 6. Use effective ***negotiation techniques*** to identify realistic solutions to ***work***/***contractual issues***

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

ELEMENT	PERFORMANCE CRITERIA
	7. Discuss, confirm and formally document ***agreements and contracts*** with appropriate persons 8. Maintain work/contractual relationships through regular contact and effective communication
Complete work tasks effectively	9. Prioritise work tasks and establish deadlines to accommodate daily workload variations 10. Negotiate and agree on prioritised work tasks and established deadlines with appropriate persons 11. Identify and plan for ***factors*** that may affect the completion of work tasks within deadlines 12. Complete work tasks within deadlines and in accordance with ***legislative/regulatory requirements*** 13. Observe copyright and intellectual property obligations when using information or music downloaded from the internet 14. Seek feedback on own work performance from appropriate persons and adjust in order to improve work practices

Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This section describes the skills and knowledge required for this unit.

Required skills

- communication skills sufficient to:
  - conduct negotiations to identify realistic solutions to work/contractual issues
  - establish and maintain work/contractual relationships through regular contact
  - share industry information with colleagues and peers
- learning skills sufficient to:
  - identify opportunities to maintain and enhance work performance
  - seek feedback and integrate constructive advice into own work performance
- literacy skills sufficient to read and understand industry information
- numeracy skills sufficient to establish agreements and contracts
- self-management and learning skills sufficient to:
  - prioritise work tasks
  - work within deadlines
  - monitor own work and introduce strategies to improve performance

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

REQUIRED SKILLS AND KNOWLEDGE

• problem-solving skills sufficient to:
  • identify and plan for factors affectingcompletion of work tasks within deadlines
  • recognise and resolve workplace issues when implementing new technology

Required knowledge

• copyright issues, such as:
  • who owns copyright and how it can be protected
  • why material is protected by copyright
  • how copyright can be enforced
  • organisations that deal with copyright
  • consequences of infringing copyright
• music industry piracy issues and their impact on the music industry
• nature, role and functions of unions and employer associations, including rights and responsibilities of employers and employees
• sources of information on the music industry and ways of maintaining current industry knowledge
• music industry terminology
• understanding of the following areas and how they apply to day-to-day work activities:
  • awards and conditions of employment
  • current funding and production environment
  • legal issues that affect negotiations and contracts
  • major industry production and marketing issues
• OHS requirements relevant to particular work contexts
• Sustainable work practices for individuals and organisations in the music industry

Evidence Guide

EVIDENCE GUIDE	
The Evidence Guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, range statement and the Assessment Guidelines for the Training Package.	
Overview of assessment	
Critical aspects for assessment and evidence required to demonstrate competency in this unit	Evidence of the ability to: • apply information about industry trends to own work practices

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

	• establish and maintain work and contractual relationships • comply with requirements of relevant legislation and regulations • prioritise work tasks • work collaboratively with others.

Context of and specific resources for assessment	Assessment must ensure:
	• access to environments where:
	  • negotiation techniques can be applied to resolve work and contractual issues
	  • work performance can be monitored and learning opportunities accessed
	  • work tasks can be prioritised and completed within deadlines
	  • work and contractual relationships can be established and maintained
	• use of culturally appropriate processes, and techniques appropriate to the language and literacy capacity of the candidate and the work being performed.

Method of assessment	The following assessment methods are appropriate for this unit: • case studies to assess candidate's ability to prioritise work tasks, monitor work performance and identify learning opportunities • direct observation of candidate establishing and participating in work and contractual relationships • written or oral questioning to assess knowledge of new technology that affects work practices • problem-solving activities to assess candidate's negotiating skills.
Guidance information for assessment	Holistic assessment with other units relevant to the industry sector, workplace and job role is recommended, for example: • CUSIND302A Plan a career in the creative arts industry.

Range Statement

RANGE STATEMENT	
The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording, if used in the performance criteria, is detailed below. Essential operating conditions that may be present with training and assessment (depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts) may also be included.	

Trends and emergent technologies may include:	• music business trends:
	  • 360 degree music business model
	  • all rights under one deal
	  • passive rights deal
	  • distributed patronage
	  • new and emerging distribution systems
	  • new forms of marketing, branding and product placement
	  • alliances with allied technologies and businesses
	• opportunities for increased airplay of music through:
	  • digital radio
	  • digital television
	  • mobile phones
	  • internet
	• advances in software applications for sound recording and editing
	• new terminology
	• new equipment
	• social, political and environmental developments
	• changing nature of work/industry structures, including:
	  • occupations that are disappearing and how they are being replaced
	  • changes to the mix of skills and knowledge required in different areas of the industry.

Sources of information may include:	• copyright information from:
	  • Australian Copyright Council
	  • copyright collection societies
	  • music industry piracy investigations

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT	

	(MIPI)
	• discussions with innovative industry practitioners
	• electronic and print media
	• employer and employee associations
	• union representatives and other sources of industrial relations information
	• events, including:
	  • industry functions
	  • conferences
	  • trade fairs
	  • community activities
	  • exhibitions
	  • festivals
	  • social events
	• government bodies and associated publications
	• induction kits
	• industry associations
	• internet
	• libraries and archives
	• personal observations and experience
	• policy and procedures manuals
	• reference books, industry information sheets, magazines and journals
	• retail and wholesale suppliers of products and services
	• technical publications.

Appropriate persons may include:	• artist • artist and repertoire (A&R) representative • artist manager • booking agent • business and financial manager • client, employer and subcontractor • colleague/peer • copyright and royalties manager • designer • head of department • label manager • legal adviser

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT	
	• licensing manager • technical crew • marketing and promotions officer • mentor/supervisor • merchandiser • presenter • director • producer • production manager • promoter • publisher • sound mixer/technician • special effects editor • sponsor • supplier • union and industry association representative • venue manager • writer.

Learning opportunities may include:	• attending industry events, including:
	  • conferences
	  • conventions
	  • exhibitions
	  • festivals
	  • functions
	  • performances
	  • professional competitions and awards
	  • trade fairs
	• reading electronic and print media industry publications, such as:
	  • information sheets
	  • technical and reference manuals
	• undertaking professional development activities, such as:
	  • career planning and development
	  • coaching, mentoring and supervision
	  • formal and informal learning programs
	  • internal and external training programs
	  • master classes
	  • performance appraisals

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT	
	• personal study • seminars • symposiums • work experience and/or work exchange • workshops.

Negotiation techniques may include:	• adopting collaborative negotiating style
	• assessing strengths and weaknesses of opposing positions and determining viable alternatives
	• clarifying purpose, content and desired outcomes
	• communicating results to all parties within appropriate timeframes
	• conducting negotiations in a professional manner
	• ensuring final position is agreed and understood by all parties
	• identifying consequences of non-agreement
	• maintaining contact with all parties
	• managing conflict or disagreement between parties
	• taking into account input from all parties
	• treating all parties courteously and in ways that acknowledge their contribution
	• using effective questioning techniques:
	  • closed questions, allowing yes/no answers
	  • open questions, allowing range of responses
	  • reflective questions, provoking clarification.

Work*/*contractual issues may include:	• budget share • copyright • insurance • OHS • performance fees and rate negotiations • recording and distribution rights • remuneration • rights to and use of material • royalties • specifications for equipment and materials • taxation

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT	
	• terms and conditions of contracts • terms and conditions of employment • work roles and responsibilities.
Agreements and contracts may include:	• agency agreements • individual performance agreements • industrial awards • marketing and distribution agreements • service, supply and location contracts • workplace relations agreements.
Factors may include:	• budget constraints • competing work demands • environmental factors, e.g. weather • availability of resources and materials • unforeseen incidents, including technology and equipment breakdowns • workplace hazards, risks and controls.
Legislative/regulatory requirements may relate to:	• anti-discrimination • business compliance • consumer protection • contempt of court and parliament • copyright, moral rights, intellectual property, licensing and royalty • defamation • duty of care • environmental issues • equal employment opportunity • insurance • libel • obscenity • OHS • plagiarism • privacy and confidentiality • quality assurance • racial vilification • slander • taxation • workplace and industrial relations laws and awards.

ELEMENT	PERFORMANCE CRITERIA
	career goals and discuss with relevant personnel 10. Document and store a ***career plan*** and discuss with relevant personnel
Develop a skills portfolio	11. In consultation with relevant personnel, plan a portfolio of evidence to meet a range of ***purposes*** 12. Identify appropriate ***presentation methodologies*** for a portfolio and confirm with relevant personnel 13. Develop a résumé or résumés that promote own ability to meet specific job requirements 14. Maintain portfolio in a format appropriate to creative arts industry work contexts

Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This section describes the skills and knowledge required for this unit.

Required skills

- communication skills sufficient to:
  - discuss industry issues and trends with colleagues and practitioners
  - establish and maintain industry networks
  - present self and skills portfolio to potential employers
  - use appropriate cultural protocols and industry terminology
- learning skills sufficient to:
  - align own career aspirations with realistic career goals
  - identify learning opportunities to maximise career goals
  - seek feedback and integrate constructive advice into career planning
- literacy skills sufficient to:
  - read and understand industry information
  - write a personal résumé
- planning and organisational skills sufficient to prepare a skills portfolio and personal résumé in a logical and clear way
- self-management skills sufficient to monitor career aspirations and introduce strategies to improve career potential
- problem-solving skills sufficient to plan for factorsaffectingcareer outcomes
- technology skills sufficient to access/download career information and resources

Required knowledge

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

REQUIRED SKILLS AND KNOWLEDGE

• copyright, moral rights, intellectual property and legislation and their impact on the creative arts industry
• nature, role and functions of practitioners and industry organisations
• OHS requirements relevant to particular work contexts
• sources of information on the creative arts industry and ways of maintaining current industry knowledge
• understanding of creative arts industry terminology
• typical formats for personal résumés
• understanding of the following areas and how they apply to day-to-day work activities (in relation to the particular creative arts industry sector in which knowledge is being assessed):
  • cultural nuances appropriate to selected work contexts
  • employment opportunities and career pathways into and within the industry
  • legal issues that affect industry practitioners, negotiations and contracts
  • occupations, work tasks and levels of remuneration

CUSIND401A Develop specialist expertise in the music industry

Modification History

Not applicable.

Unit Descriptor

Unit descriptor	This unit describes the performance outcomes, skills and knowledge required to develop specialist expertise in one or more fields of the music industry. No licensing, legislative, regulatory or certification requirements apply to this unit at the time of endorsement.

Application of the Unit

Application of the unit	This unit applies to people working in a wide range of areas in the music industry, including music performance, composition, private music teaching, music business and sound production. It is particularly applicable in contexts where people need to incorporate new business models and emergent trends and technologies into their work practice. This level of specialist work is usually undertaken with limited guidance and specialists could also be responsible for mentoring others on the job.

Licensing/Regulatory Information

Not applicable.

Pre-Requisites

Prerequisite units		

Employability Skills Information

Employability skills	This unit contains employability skills.

Elements and Performance Criteria Pre-Content

Elements describe the essential outcomes of a unit of competency.	Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the required skills and knowledge section and the range statement. Assessment of performance is to be consistent with the evidence guide.

Elements and Performance Criteria

ELEMENT	**PERFORMANCE CRITERIA**
Research and apply industry trends and emergent technologies	1. Identify ***trends and emergent technologies*** in the music industry using appropriate ***sources of information*** 2. Examine and clarify implications and consequences of trends and emergent technologies 3. Critique and review trends and emergent technologies with ***appropriate personnel*** to explore, develop and express conceptual ideas 4. Explore and use new ideas and emergent technologies to expand own ***skills and knowledge*** 5. Maintain currency of knowledge of legislative requirements and apply in area of specialist expertise as required
Apply skills and knowledge in a specialist	6. Use ***critical thinking techniques*** to identify opportunities to enhance skills and knowledge

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

ELEMENT	PERFORMANCE CRITERIA
context	7. Plan ***strategies*** to develop and enhance skills and knowledge in a specialist music industry context 8. Identify and use feedback, discussion and evaluation techniques to continuously improve skills and knowledge 9. Explore capability of materials, tools and equipment as a means to continuously improve technical skills as required
Evaluate own professional development in specialist context	10. Seek and apply constructive criticism from others to improve own skills and knowledge 11. Continuously evaluate own skills and knowledge against planned strategies and career goals 12. Compare and contrast own skills and knowledge to those of other specialists in order to extend and enhance own professional work practices 13. Adjust own professional work practices to improve and refine skills and knowledge

Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE This section describes the skills and knowledge required for this unit.
Required skills

• research skills sufficient to access information relating to trends, emergent technologies, work opportunities and career planning in the music industry
• literacy skills sufficient to interrogate and interpret a broad range of information on new trends and technologies in the music industry
• communication skills sufficient to:
  • critique and discuss new trends and technologies
  • discern and listen to advice from relevant personnel
  • use industry and community networks as sources of information
• critical-thinking skills sufficient to identify opportunities to enhance own skills and knowledge
• learning skills sufficient to seek expert advice when implementing new trends and technologies
• planning and organisational skills sufficient to plan integration of new technologies into own professional work practices
• problem-solving skills sufficient to recognise and resolve workplace issues when

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

REQUIRED SKILLS AND KNOWLEDGE
implementing new technology into own professional work practices
Required knowledge
• commonly used research methodologies • copyright, moral and intellectual property issues associated with area of specialisation • current trends and emergent technologies in area of specialisation in the music industry • OHS requirements relating to area of specialisation in the music industry • implications for self and/or organisation of adopting trends and emergent technologies • physical capabilities of materials, tools and equipment and their applications in area of specialisation • theoretical and historical contexts relevant to area of specialisation

Evidence Guide

EVIDENCE GUIDE	
The Evidence Guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, range statement and the Assessment Guidelines for the Training Package.	
Overview of assessment	
Critical aspects for assessment and evidence required to demonstrate competency in this unit	Evidence of the ability to: • evaluate own skills and knowledge against planned strategies and career goals • apply planned strategies to develop and enhance own skills and knowledge • research trends and emergent technologies within area of specialisation in the music industry.

Context of and specific resources for assessment	Assessment must ensure:
	• access toan environment where:
	  • conceptual ideas can be critiqued and reviewed with relevant personnel
	  • skills and knowledge can be developed and enhanced
	• access to appropriate technology and sources of information to research trends and emergent

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

EVIDENCE GUIDE	
	technologies within the music industry • access to appropriate learning and assessment support when required • use of culturally appropriate processes, and techniques appropriate to the language and literacy capacity of the candidate and the work being performed.
Method of assessment	The following assessment methods are appropriate for this unit: • direct observation of the candidate developing and enhancing technical and conceptual skills • written or oral questioning to test knowledge as listed in the required knowledge section of this unit • case studies to assess candidate's ability to research trends and emergent technologies • problem-solving activities to assess candidate's critical-thinking skills.
Guidance information for assessment	Holistic assessment with other units relevant to the industry sector, workplace and job role is recommended.

Range Statement

RANGE STATEMENT	
The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording, if used in the performance criteria, is detailed below. Essential operating conditions that may be present with training and assessment (depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts) may also be included.	
Trends and emergent technologies may include:	• music business trends: • 360 degree music business model • all rights under one deal • passive rights deal • distributed patronage • new and emerging distribution systems • new forms of marketing, branding and product placement • alliances with allied technologies and

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT	

	businesses
	• opportunities for increased airplay of music through:
	  • digital radio
	  • digital television
	  • mobile phones
	  • internet
	• advances in software applications for sound recording and editing
	• new terminology
	• developments in techniques for teaching music performance and composition skills
	• social, political and environmental developments
	• changing nature of work, including:
	  • occupations that are disappearing and how they are being replaced
	  • changes to the mix of skills and knowledge required in different areas of the industry.

Sources of information may include:	• copyright and legal representatives
	• discussions with innovative industry practitioners
	• electronic and print media
	• employer and employee associations
	• union representatives and other sources of industrial relations information
	• events, including:
	  • industry functions
	  • conferences
	  • trade fairs
	  • community activities
	  • exhibitions
	  • festivals
	  • social events
	• government bodies and associated publications
	• induction kits
	• industry associations
	• internet
	• libraries and archives
	• personal observations and experience

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT	
	• policy and procedures manuals • reference books, industry information sheets, magazines and journals • retail and wholesale suppliers of products and services • technical publications.

Appropriate personnel may include:	• performer
	• composer
	• ensemble member
	• presenter
	• musical director
	• stage director
	• stage manager
	• production manager
	• production supervisor
	• technical crew
	• broadcaster
	• floor manager
	• graphics personnel
	• writer and editor
	• designer:
	  • sound
	  • lighting
	  • costume
	  • make-up and hair
	  • special effects
	• client
	• marketing and promotions personnel
	• artist's agent
	• legal adviser
	• conductor
	• manager
	• supervisor
	• tutor
	• mentor.

Skills and knowledge may include:	• business:
	  • marketing and promotion
	  • public relations
	  • distribution

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT	
	• financial management • strategic and business planning • artists' management • performing: • instrumental techniques • vocal techniques • improvisation • stagecraft • in an ensemble • solo performances • sound production: • recording • editing • sound reinforcement • sound design • sound for film and media productions • sound for interactive digital media products, such as games • sound for online products.
Critical thinking techniques may include:	• analysing and evaluating actions and policies • clarifying issues, values and standards • comparing similar situations • comparing and contrasting ideals with practice • comparing and evaluating beliefs, interpretations and theories • developing criteria for evaluation • distinguishing relevant from irrelevant facts • examining and evaluating assumptions • exploring implications and consequences • generating and assessing solutions • making interdisciplinary connections • making plausible inferences and predictions • noting significant similarities and differences • reading and listening critically • recognising contradictions • transferring insights to new contexts • using critical vocabulary.
Strategies may include professional development	• awards • competitions

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT	
opportunities, such as:	• conferences • exhibitions • master classes • seminars • symposiums • training programs • workshops.

CUSIND501A Apply music knowledge and artistic judgement

Modification History

Not applicable.

Unit Descriptor

Unit descriptor	This unit describes the performance outcomes, skills and knowledge required to apply in-depth knowledge of the music industry to a range of work situations. No licensing, legislative, regulatory or certification requirements apply to this unit at the time of endorsement.

Application of the Unit

Application of the unit	The skills and knowledge described in this unit can be applied in a wide range of contexts in the music industry - from performance, composition and music teaching, to business and technical production. People will be applying an advanced level of music industry knowledge in their chosen field. This could include research and analysis of information relevant to work roles within the music industry, such as industry structures and operations, employment issues, industry trends, networking, emerging technologies and industry laws and regulations.

Licensing/Regulatory Information

Not applicable.

ELEMENT	PERFORMANCE CRITERIA
	and inform currency of music industry knowledge and artistic judgement
Enhance professional practice	8. Apply music industry knowledge and artistic judgement as required to predict music trends 9. Apply ***specialist music knowledge*** as required to achieve targeted ***artistic and commercial outcomes*** 10. Apply current music industry knowledge to inform own professional practice
Evaluate music industry knowledge	11. Assess and evaluate music information and knowledge against professional practice requirements 12. Seek input and information to identify and address deficits in music knowledge to help maintain work performance 13. Evaluate the quality and success of artistic judgement in achieving planned work or other outcomes

Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This section describes the skills and knowledge required for this unit.

Required skills

- communication and teamwork skills sufficient to:
  - obtain and interpret information to ensure currency of work practice
  - share industry information with colleagues and peers
  - acknowledge cultural protocols
  - seek feedback and integrate constructive advice into own professional practice
  - read and understand industry information
- learning skills sufficient to identify:
  - opportunities to maintain and enhance industry knowledge
  - own knowledge and information needs
- numeracy skills sufficient to interpret relevant technical data
- planning and organisational skills sufficient to monitor own work and introduce strategies to improve performance
- initiative and enterprise skills in the context of:
  - applying artistic judgement to music products
  - applying critical-listening skills to make informed judgements about music

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

REQUIRED SKILLS AND KNOWLEDGE
Required knowledge

• well-developed understanding of the music industry in area of specialisation:
  • industry structure and operation
  • employment obligations and opportunities
  • trends and emerging technologies
  • music styles and elements of musical organisation
  • music terminology
  • copyright, moral rights, intellectual property and other legislation relevant to the music industry
  • professional behaviour, ethics and cultural protocols as they apply to the music industry
  • sources of information about the music industry
  • strategies for maintaining current industry knowledge
  • performance contexts and artists' needs
• OHS requirements relevant to particular work contexts

Evidence Guide

EVIDENCE GUIDE	
The Evidence Guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, range statement and the Assessment Guidelines for the Training Package.	
Overview of assessment	
Critical aspects for assessment and evidence required to demonstrate competency in this unit	Evidence of the ability to: • apply critical artistic judgement to achieve artistic or strategic work outcomes • research, analyse, critique and apply industry information • maintain effective industry networks • enhance own professional practice.
Context of and specific resources for assessment	Assessment must ensure: • access to a range of relevant and current music industry information • access to an appropriate environment to enhance professional practice

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

EVIDENCE GUIDE	
	• access to appropriate technology to research and apply music industry information • access to relevant music industry networks, including opportunity for collaboration • access to appropriate learning and assessment support as required • use of culturally appropriate processes, and techniques appropriate to the language and literacy capacity of learners and the work being performed.
Method of assessment	The following assessment methods are appropriate for this unit: • case studies or interviews to assess candidate's ability to research industry information and apply knowledge to different contexts and situations • direct observation of candidate analysing, critiquing and sharing industry information • problem-solving activities to assess candidate's critical-thinking skills • written or oral questioning to assess knowledge of technical and context issues that affect professional practice in a given industry context • authenticated samples of relevant work examples and products • portfolios or other documentation that demonstrate the processes used in realising creative music examples and products.
Guidance information for assessment	Holistic assessment with other units relevant to the industry sector, workplace and job role is recommended, for example: • CUSMGT502A Manage artists and their careers • CUSMGT503A Develop artists and repertoire • CUSMKG501A Manage the promotion of creative acts • CUSMLT601A Analyse music • CUSWRT501A Write about music.

Range Statement

RANGE STATEMENT

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT	
The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording, if used in the performance criteria, is detailed below. Essential operating conditions that may be present with training and assessment (depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts) may also be included.	
Appropriate personnel may include:	• composers • producers • editors of publications • music critics • managers • marketing and public relations personnel • sound-production and recording personnel • record companies • teachers • mentors • musicians • photographers • bandleaders • music conductors • choir leaders.

Areas of music research may include:	• music performance
	• music industry trends and fashions
	• existing and emerging artists, repertoire and events
	• artist training and repertoire development
	• artists
	• products
	• existing and emerging music technologies related to:
	  • performance
	  • production
	  • distribution
	  • marketing
	• music industry opportunities
	• artistic policy development
	• music commentary and criticism
	• media broadcasting
	• programming
	• music business operations.

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT	

Sources of information may include:	• music industry events, such as:
	  • performances
	  • community activities
	  • conferences
	  • conventions
	  • festivals
	  • functions
	  • trade fairs
	  • competitions and awards
	• electronic and print media, such as:
	  • articles
	  • journals
	  • magazines
	  • news
	  • reviews
	  • industrial relations publications
	  • industry publications
	  • lifestyle and contemporary issues magazines
	• government publications, such as:
	  • legislation
	  • policy and procedures manuals
	• internet
	• libraries and archives, including text, film, video, sound and graphic
	• peak copyright organisations
	• personal observations and experience.

Music areas may include:	• popular/commercial music • classical/concert music • world music • jazz • folk • solo • small ensemble • large ensemble • acoustic • electronic • music theatre.
Professional development	• conferences

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT	
activities may include:	• master classes • seminars • symposiums • training programs • workshops.
Network strategies may include:	• association membership • conference participation • distributing materials • individual marketing • maintaining regular contact • seminar attendance • society membership.
Industry networks may include:	• advisory committees • chambers of commerce • community organisations • government agencies • industry sector committees • lobby groups • local councils • professional industry associations • project-specific consultative or reference groups • specific interest or support groups • suppliers • unions • work teams.

Specialist music knowledge may include and inform:	• repertoire
	• knowledge of artists
	• critical-listening skills
	• artistic judgement
	• music history
	• performance practice in a range of styles and customs
	• music technology
	• music texts
	• aural recognition and comprehension of musical devices and systems, including:
	  • melody
	  • harmony
	  • timbre

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT	
	• attack • pitch • tempi • dynamics • expression • physics of music and sound production • technical requirements of instruments in a range of musical styles and performance contexts • aural imagination or music innovation.
Artistic and commercial outcomes may include:	• talking or writing about music • composing and performing music • preparing for and producing audio and video recordings • music teaching • using music software to produce music or music effects • sound design • programming • marketing and promoting music products • direct and indirect selling of music products and services • artistic worth in music products or events • commercial potential and feasibility of artists, repertoire and music products • potential to develop new products and markets.

CUSLED501A Provide instrumental or vocal tuition

Modification History

Not applicable.

Unit Descriptor

Unit descriptor	This unit describes the performance outcomes, skills and knowledge required to provide instrumental or vocal tuition as a private teacher. No licensing, legislative, regulatory or certification requirements apply to this unit at the time of endorsement.

Application of the Unit

Application of the unit	Instrumental or vocal musicians, who teach privately to individuals of any age or groups of less than five, apply the skills and knowledge described in this unit. They could offer tuition in a private home studio, or a studio attached to a larger organisation. This unit does not apply to teaching in a classroom situation or conducting ensembles. Teachers need a thorough grounding in the techniques of their area of specialisation, as well as an ability to impart skills and knowledge to others.

Licensing/Regulatory Information

Not applicable.

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

Pre-Requisites

Prerequisite units		

Employability Skills Information

Employability skills	This unit contains employability skills.

Elements and Performance Criteria Pre-Content

Elements describe the essential outcomes of a unit of competency.	Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the required skills and knowledge section and the range statement. Assessment of performance is to be consistent with the evidence guide.

Elements and Performance Criteria

ELEMENT	**PERFORMANCE CRITERIA**
Plan and implement individual and small group tuition programs	1. Develop learning programs that incorporate sound ***educational principles*** 2. Assist learners to develop ***music knowledge*** appropriate to their level of musical development and requirements in area of specialisation 3. Facilitate the development of learners' memory and ***aural skills*** 4. ***Assist*** learners to develop ***technical skills*** in performance 5. Demonstrate and rehearse techniques with learners for the care and maintenance of ***equipment***, ***instruments and accessories***
Teach performance skills	6. Apply a range of ***techniques to develop expressive skills*** 7. Where possible, allow time for learners to evaluate and

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

ELEMENT	PERFORMANCE CRITERIA
	perform music of their own choice in learning programs 8. Encourage students to experiment with technology where appropriate to enhance performance outcomes 9. Apply a range of ***techniques to develop performance presentation skills*** 10. ***Facilitate knowledge*** of and a positive attitude to OHS 11. Rehearse safe warming up strategies and other ***OHS techniques*** specific to the instruments/voice with learners
Provide effective career advice	12. Apply current knowledge of the industry and skill requirements in career counselling for learners 13. Apply current knowledge of courses suiting the specific needs of learners when advising on future artistic directions 14. Advise learners on how to prepare and present an appropriate and effective audition program 15. Advise learners how to prepare audition tapes as required 16. Plan and use strategies to assist learners to become self-directed, lifelong learners
Evaluate own and learners' performance	17. Plan and use evaluation indicators that are appropriate to the teaching practice and context to continuously evaluate outcomes 18. Allow learners input into the evaluation plan in ways appropriate to their age and performance contexts 19. Use appropriate, fair and consistent criteria to evaluate individual learners 20. Involve individual learners in self-assessment and where appropriate in peer assessment

Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE
This section describes the skills and knowledge required for this unit.
Required skills
• communication and teaching skills in the context of: • communicating effectively with learners to achieve planned learning outcomes

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

REQUIRED SKILLS AND KNOWLEDGE

- providing feedback on performance in a constructive and sensitive manner
- demonstrating and communicating safe performance practice
- assisting learners to understand and observe cultural protocols appropriate to the genre or area of specialisation
- encouraging learners to use appropriate posture, dress and other performance protocols
- assisting learners to match repertoire with performance context and expectations
- listening critically to, and assisting learners to adjust, creative work in performance to achieve the required sound
- working creatively with individual differences
- working constructively with group dynamics
- identifying and dealing constructively with conflict

- self-management and learning skills sufficient to:
  - improve own technical facility in performance so that best practice techniques can be demonstrated to learners
  - evaluate, adjust and develop own teaching practice in line with planned career directions
  - use advice from colleagues and experts to adjust work in line with career direction
  - demonstrate punctuality in all work commitments
  - observe OHS requirements
- initiative, enterprise and creativity in the context of:
  - demonstrating originality and innovative approaches to teaching performance, interpretation and/or improvisation of music
  - extending musical boundaries for self and learners in areas of music specialisation taught
  - facilitating learners to phrase and shape music appropriately and creatively
  - facilitating learners to understand and express appropriate musical nuance
  - assisting learners to perform appropriately for the context of venues, sound forces and perceived audience taste
  - assisting learners to engage the audience in the work
- technical skills sufficient to:
  - assist learners to use appropriate equipment and/or instruments effectively
  - assist learners to use appropriate technology to improve efficiency and musical outcomes
  - investigate technology to assist learners to enhance artistic or commercial outcomes
  - use new technology in tuition practice where possible and relevant
- well-developed skills in areas in which tuition is provided, including:

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

REQUIRED SKILLS AND KNOWLEDGE

• performing in relevant genre or style of music
• playing instrument or singing
• planning and organisational skills sufficient to:
  • plan effective tuition programs that reflect understanding of learners' ages, stage of musical development and learning needs
  • maintain an appropriate standard of presentation in all promotional materials
  • use all available opportunities to showcase learners' work
  • plan performance opportunities for learners
  • use time-management strategies to set priorities

Required knowledge

• teaching practice, including:
  • learning principles appropriate to age of students
  • methods to affect skill development
  • strategies to stimulate an interest in learning
  • relationship between skill levels and learning strategies
• sources of career advice
• music knowledge in area of specialisation, including:
  • interpreting music in performance
  • improvisation conventions
  • sight reading from charts or musical notation
  • appropriate repertoire
  • musical terminology
  • musical genres and styles
  • solo and group performance protocols
  • composition process
• issues and challenges that typically arise in the context of providing instrumental or vocal tuition
• techniques for moving the body and breathing to enhance musical performance of self and others
• OHS requirements and procedures in relation to performing

Evidence Guide

EVIDENCE GUIDE
The Evidence Guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, range statement and the Assessment

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

EVIDENCE GUIDE	
Guidelines for the Training Package.	
Overview of assessment	
Critical aspects for assessment and evidence required to demonstrate competency in this unit	Evidence of the ability to: • demonstrate a high level of performance skills and knowledge in area of specialisation in which tuition is provided • develop talent in others • plan and offer learning programs appropriate to the needs of learners and their level of musical development • convey relevant music literacy and repertoire knowledge.
Context of and specific resources for assessment	Assessment must ensure: • access to relevant instruments and equipment • access tolearners • access to appropriate teaching facilities • use of culturally appropriate processes, and techniques appropriate to the language and literacy capacity of the candidate and the work being performed.
Method of assessment	The following assessment methods are appropriate for this unit: • evaluation of learning programs, lesson plans and resources prepared by the candidate • observation or video recordings of tuition sessions conducted by the candidate • written or oral questioning to test knowledge as listed in the required knowledge section of this unit • case studies and scenarios as a basis for discussion about issues and challenges that arise in the context ofproviding instrumental or vocal tuition.
Guidance information for assessment	Holistic assessment with other units relevant to the industry sector, workplace and job role is recommended, for example: • BSBMGT617A Develop and implement a business plan • CUSIND401A Develop specialist expertise in the music industry • CUSLED502A Provide tuition for composition

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

EVIDENCE GUIDE	
	• CUSMPF603A Refine performance techniques and expand repertoire • CUSMPF605A Develop advanced vocal techniques.

Range Statement

RANGE STATEMENT	
The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording, if used in the performance criteria, is detailed below. Essential operating conditions that may be present with training and assessment (depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts) may also be included.	
Educational principles may include:	• cognitive development • motivation and learning psychology • provision of routine opportunities for learners to perform solo, in ensembles and for an audience • ensuring that content and structure of learning programs are appropriate to age, musical aspirations and skill levels of learners • constructive feedback to learners on an ongoing basis throughout learning programs.

Music knowledge may include:	• repertoire
	• music history
	• instrument knowledge
	• music analyses and research
	• musical forms, systems, practices and customs
	• using written music notation to read and write music, such as:
	  • acoustic and electronic scores
	  • sheet music
	  • chord charts
	• interpretation and/or writing of directions for:
	  • instrumentation
	  • voicing
	  • expression
	  • timbre

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT	
	• attack • pitch • tempi • dynamics • music writing, copying, arranging or editing • sight reading • improvisation.
Aural skills may include:	• instrument tuning • listening to adjust the sound in solo or group performance • aural imagination to identify and develop the musical materials • pattern and sequence recognition and memory • recognising music systems and practices • chords and keys in tonal or other musical systems • reproducing sequences from memory.
Assisting learners may involve:	• communicating constructively with learners to maintain their interest and enthusiasm • providing specific exercises, and/or other appropriate learning materials to facilitate progress in controlling instrument/voice • demonstrating and rehearsing techniques for: • developing control and perception of pitch and timbre • developing accurate and fluent performance • providing supportive critical advice to develop confidence in performance and to foster self-esteem • instruction in the conventions and performance customs relevant to the area of music specialisation • facilitating critical self-listening to foster independent learning and improvement in technical skills.
Technical skills may include:	• proficiency in instrumental/vocal performance • understanding of musical elements • scales and other routine exercises • facility with techniques to control and enhance music making • virtuosity to produce appropriate

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT	
	instrumental/vocal performance style and standard • compositional techniques appropriate to style of music making • technical requirements of specific instruments/voices for accurate and appropriate music making.

Equipment*, *instruments and accessories may include:	• voice and other acoustic and electronic musical instruments
	• baton
	• scores
	• strings
	• reeds
	• mouth pieces
	• mallets/beaters
	• tuners, tuning forks and electronic tuners
	• electronic equipment
	• audio and video recordings
	• sound reinforcement equipment, such as:
	  • microphones
	  • amplifiers
	  • mixers
	  • cabling
	• lighting and lighting equipment
	• special effects devices.

Techniques to develop expressive skills may include:	• discussing expressive options appropriate to learners' work • encouraging learners to consider interpretation in performance • discussing the forms of pieces with learners, appropriate to their age and stage of musical development as a way of exploring expressive possibilities and options • encouraging learners to experiment with phrasing and shaping pieces to broaden expressive style • encouraging learners to use dynamics, attack and appropriate tempi to shape the work • encouraging learners to listen critically and develop sensitivity to and appreciation of appropriate style and nuance in performance • teaching repertoire and contexts of

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT	
	interpretation • encouraging learners to listen to, read about, and critically discuss a range of music for their instrument/voice appropriate to their age and stage of musical development • encouraging learners to listen critically to and discuss a range of performance interpretations.
Techniques to develop performance presentation skills may include:	• encouraging learners to attend, view or listen to performances as a way of critically appraising performance skills • ensuring that any repertoire intended for performance is always within the technical ability of learners • providing opportunities for learners to plan a performance program appropriate to their age and stage of musical development • including performance presentation outcomes in individual learning programs • creating opportunities for learners to prepare simulated auditions and to discuss each others' work • advising learners on protocols and customs for dress and presentation to enhance performance for an audience • discussing techniques for communicating with audiences to express musical ideas.
Facilitating knowledge of OHS issues may relate to:	• demonstrating and consistently reinforcing safe performance practice, posture and use of appropriate sound levels, seating and lighting • advising learners of all specific safety issues relating to their instrument/voice • advising learners of specific safety issues relating to their performance and potential performance venues • advising learners on reasonable duration for practice sessions and rehearsal in the context of instrument played or voice • advising learners on safe and healthy conditions for practice, rehearsals and performances.
OHS techniques may relate to:	• healthy posture • specific use of physique in relation to performance

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT	

	• specific instrumental performance, such as:
	  • voice
	  • percussion
	  • brass
	  • strings, including violin and guitar families
	  • reeds and woodwind
	  • keyboards
	  • electronic
	• parts of the body, such as:
	  • ears
	  • trunk
	  • shoulders
	  • neck
	  • arms
	  • lips
	  • tongue and larynx
	  • eyes.

CUSLED502A Provide tuition for composition

Modification History

Not applicable.

Unit Descriptor

Unit descriptor	This unit describes the performance outcomes, skills and knowledge required to provide tuition in composition as a private teacher. No licensing, legislative, regulatory or certification requirements apply to this unit at the time of endorsement.

Application of the Unit

Application of the unit	Musicians skilled in music composition who teach privately to individuals of any age, or groups of less than five, apply the skills and knowledge described in this unit. They could offer tuition in a private home studio, or a studio attached to a larger organisation. This unit does not apply to teaching in a classroom situation. Teachers need a thorough grounding in the techniques of their area of specialisation, as well as an ability to impart skills and knowledge to others.

Licensing/Regulatory Information

Not applicable.

Prerequisite units		

Employability Skills Information

Employability skills	This unit contains employability skills.

Elements and Performance Criteria Pre-Content

Elements describe the essential outcomes of a unit of competency.	Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the required skills and knowledge section and the range statement. Assessment of performance is to be consistent with the evidence guide.

Elements and Performance Criteria

ELEMENT	**PERFORMANCE CRITERIA**
Plan and implement individual and small group tuition programs	1. Develop learning programs that incorporate sound ***educational principles*** 2. ***Facilitate*** the development of learners' ***listening skills*** 3. Use a range of ***techniques*** to develop skills in the craft of music composition 4. Assist learners to develop confidence in applying their ***music knowledge*** to the process of composition 5. Use a range of ***techniques to develop learners' creative potential***
Assist learners to explore electronic methods of composition	6. Maintain and impart knowledge of current hardware and software applications that are useful to learners as compositional tools 7. Organise access to electronic media and studios for learners to use when composing 8. Encourage learners to read about and participate in

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

ELEMENT	PERFORMANCE CRITERIA
	broad media and technology forums/organisations 9. Where possible, provide learners with mentoring opportunities to develop their skills in composing using electronic media
Facilitate learners' professional development	10. Discuss and plan with learners options for recording and presenting creative ideas through performance 11. Devise and use strategies to develop critical self-reflection in learners to encourage realistic career development planning 12. Assist learners to understand the function and context in which work is being created 13. Devise and use opportunities for learners to consider audience needs and tastes 14. Facilitate learners' understanding of ***business skills*** required as a freelance composer

Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This section describes the skills and knowledge required for this unit.

Required skills

- communication and teaching skills in the context of:
  - communicating effectively with learners to achieve planned learning outcomes
  - providing feedback on learners' development in a constructive and sensitive manner
  - listening critically to, and assisting learners to adjust, compositions to achieve the required effect
  - working creatively with individual differences
  - working constructively with group dynamics
  - identifying and dealing constructively with conflict
- self-management and learning skills sufficient to:
  - improve own technical facility in composition so that best practice techniques can be demonstrated to learners
  - evaluate, adjust and develop own teaching practice in line with planned career directions
  - use advice from colleagues and experts to adjust work in line with career direction

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

REQUIRED SKILLS AND KNOWLEDGE

- demonstrate punctuality in all work commitments
- observe OHS requirements

- initiative, enterprise and creativity in the context of:
  - demonstrating originality and innovative approaches to teaching music composition
  - extending musical boundaries for self and learners
  - facilitating learners to phrase and shape music appropriately and creatively
  - facilitating learners to understand and express appropriate musical nuance
- technical skills sufficient to:
  - assist learners to use appropriate equipment and/or instruments effectively
  - assist learners to use appropriate technology to improve efficiency and musical outcomes
  - investigate technology to assist learners to enhance artistic or commercial outcomes
  - use new technology in tuition practice where possible and relevant
- well-developed skills in music composition
- planning and organisational skills sufficient to:
  - plan effective tuition programs that reflect understanding of learners' ages, stage of musical development and learning needs
  - maintain an appropriate standard of presentation in all promotional materials
  - use all available opportunities to showcase learners' work
  - use time-management strategies to set priorities

Required knowledge

- teaching practice, including:
  - learning principles appropriate to age of students
  - methods to affect skill development
  - strategies to stimulate an interest in learning
  - relationship between skill levels and learning strategies
- sources of career advice
- music knowledge, including:
  - interpreting music in performance
  - improvisation conventions
  - sight reading from charts or musical notation
  - appropriate repertoire
  - musical terminology
  - musical genres and styles
  - solo and group performance protocols
  - composition process

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

REQUIRED SKILLS AND KNOWLEDGE
• issues and challenges that typically arise in the context of providing tuition in music composition • OHS requirements and procedures in relation to working for periods of time on computers

Evidence Guide

EVIDENCE GUIDE	
The Evidence Guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, range statement and the Assessment Guidelines for the Training Package.	
Overview of assessment	
Critical aspects for assessment and evidence required to demonstrate competency in this unit	Evidence of the ability to: • demonstrate high-level music composition skills and knowledge • develop music composition skills in others • plan and offer learning programs appropriate to the needs of learners and their level of musical development • develop music literacy and aural skills relevant to music composition.
Context of and specific resources for assessment	Assessment must ensure: • access to relevant equipment • access tolearners • access to appropriate teaching facilities • use of culturally appropriate processes, and techniques appropriate to the language and literacy capacity of the candidate and the work being performed.
Method of assessment	The following assessment methods are appropriate for this unit: • evaluation of learning programs, lesson plans and resources prepared by the candidate • observation or video recordings of tuition sessions conducted by the candidate • written or oral questioning to test knowledge as listed in the required knowledge section of this unit

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

EVIDENCE GUIDE	
	• case studies and scenarios as a basis for discussion about issues and challenges that arise in the context ofproviding tuition in music composition.
Guidance information for assessment	Holistic assessment with other units relevant to the industry sector, workplace and job role is recommended, for example: • BSBMGT617A Develop and implement a business plan • CUSIND401A Develop specialist expertise in the music industry • CUSLED501A Provide instrumental or vocal tuition • CUSMCP601A Extend techniques for composing music • CUSMCP503A Prepare compositions for publishing • CUSMLT602A Analyse harmony.

Range Statement

RANGE STATEMENT	
The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording, if used in the performance criteria, is detailed below. Essential operating conditions that may be present with training and assessment (depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts) may also be included.	
Educational principles may include:	• cognitive development • motivation and learning psychology • provision of routine opportunities for learners to have their compositions performed for an audience • ensuring that content and structure of learning programs are appropriate to age, musical aspirations and skill levels of learners • constructive feedback to learners on an ongoing basis throughout learning programs.
Facilitating the development of listening skills may involve:	• exercises to develop learners' ability to work with musical materials • encouraging learners to listen critically to their own and others' compositions to stimulate

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT	
	creative possibilities • assisting learners to understand and use appropriate terminology • integrating the learning of relevant musical symbols and concepts into learners' creative work • motivating learners to use compositional techniques from a range of musical contexts and conventions • encouraging learners to discuss the balance of unity and contrast in their own and others' creative work • using experiential learning methods to impart theoretical aspects of composition.
Listening skills may include:	• instrument tuning • listening to adjust the sound in solo or group performance • aural imagination to develop musical materials and to assist learners to develop musical ideas • understanding music systems and practices relevant to area of specialisation • chords and keys in tonal or other musical systems relevant to area of specialisation.
Techniques may include:	• facilitating an understanding of the technical resources of acoustic and electronic sound sources • developing skills in music notation/recording to allow creative development and communication of ideas • assisting learners to use vocabulary appropriate to their needs, aspirations and contexts.

Music knowledge may include:	• repertoire
	• music history
	• instrument knowledge
	• music analyses and research
	• musical forms, systems, practices and customs
	• using written music notation to read and write music, such as:
	  • acoustic and electronic scores
	  • sheet music
	  • chord charts
	• interpretation and/or writing of directions for:

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT	
	• instrumentation • voicing • expression • timbre • attack • pitch • tempi • dynamics • music writing, copying, arranging or editing • sight reading • improvisation • setting down musical compositions for performance.
Techniques to develop learners' creative potential may include:	• using technology and practical performance to stimulate aural imagination • experimentation • assisting learners to develop the habit of constant critical listening to their own work to assess their own creative development • exploring ideas in a range of cultures and arts as a way of inspiring creative imagination • participating in networks to discuss creative ideas with other composers and performers.
Business skills may include:	• typical requirements of a compositional brief • responding to a brief • liaising with clients • developing realistic timelines • costings and budgeting • technical production contingencies.

CUSMCP301A Compose simple songs or musical pieces

Modification History

Not applicable.

Unit Descriptor

Unit descriptor	This unit describes the performance outcomes, skills and knowledge required to compose simple songs or musical pieces. No licensing, legislative, regulatory or certification requirements apply to this unit at the time of endorsement.

Application of the Unit

Application of the unit	Songwriters and musicians apply the skills and knowledge described in this unit. The process of composition involves an understanding of musical styles and conventions and how and when to apply these. Alternatively, composers may wish to experiment with adapting styles to create a more original-sounding song or musical piece. Skills associated with developing and applying an understanding of musical styles and genres are covered in: • CUSMLT202A Apply knowledge of music culture to music making • CUSMLT301A Apply knowledge of genre to music making. Skills associated with using computer technology as the primary tool for composing musical pieces appropriate to this level are covered in: • CUSMCP303A Develop simple musical pieces using electronic media.

Pre-Requisites

Prerequisite units		

Employability Skills Information

Employability skills	This unit contains employability skills.

Elements and Performance Criteria Pre-Content

Elements describe the essential outcomes of a unit of competency.	Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the required skills and knowledge section and the range statement. Assessment of performance is to be consistent with the evidence guide.

Elements and Performance Criteria

ELEMENT	**PERFORMANCE CRITERIA**
Clarify composition requirements	1. In consultation with ***relevant personnel***, identify ***purpose*** of composing songs or musical pieces 2. Identify ***musical styles***, ***elements*** and ***forms***/***structures*** that might suit the purpose of the composition 3. Discuss with relevant personnel how approaches that break away from conventional approaches might be applied

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

ELEMENT	PERFORMANCE CRITERIA
	4. Identify the range of instruments and playing techniques to suit the purpose of compositions 5. Agree on ***format*** for final presentation of songs or musical pieces
Compose melodies	6. Apply ***standard melody conventions*** to compositions as required 7. Identify climax points, harmonies and intervals to be used in the songs or musical pieces 8. Align lyrics with the starting points, climaxes and cadence points of a song's melody as required 9. Use appropriate harmonic/chord progressions or sequences in the melody to suit the style/mood of the song or musical piece 10. Ensure melody is rhythmically coherent and rhythm patterns are appropriate to the style/mood of the song or musical piece 11. Match the level of difficulty and register of the melody with available performers and characteristics of the musical style used in the song or musical piece
Finalise compositions	12. Seek feedback on work in progress from relevant personnel and refine compositions accordingly 13. Apply ***copyright notice*** to the composition 14. Present compositions in agreed format

Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This section describes the skills and knowledge required for this unit.

Required skills

- communication and teamwork skills sufficient to:
  - discuss compositional requirements in a collaborative manner
  - respond positively to constructive feedback on own compositions
- numeracy skills sufficient to determine duration of songs or musical pieces
- listening skills in the context of:
  - using aural imagination when manipulating musical elements
  - applying aural-perception skills to improve compositional outcomes
- initiative and enterprise skills in the context of experimenting with musical styles

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

REQUIRED SKILLS AND KNOWLEDGE

and elements
• planning and organisational skills sufficient to:
  • gather information on musicalstyles, elementsandforms/structures
  • match repertoire to purpose of composition
• learning skills sufficient to:
  • identify and use techniques to develop aural memory and imagination
  • continuously evaluate and adjust own work via critical listening
• musical skills sufficient to:
  • use compositional techniques relevant to selected musical styles
  • use instruments and musical elements relevant to selected musical styles

Required knowledge

• music knowledge sufficient to:
  • recognise chords and keys in tonal and/or other musical systems
  • understand and apply instrument tuning
  • understand scope and capacity of instruments for which compositions are developed
• issues and challenges that typically arise in the context of composing songs or musical pieces

Evidence Guide

EVIDENCE GUIDE	
The Evidence Guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, range statement and the Assessment Guidelines for the Training Package.	
Overview of assessment	
Critical aspects for assessment and evidence required to demonstrate competency in this unit	Evidence of the ability to: • compose simple songs or musical pieces for a specific purpose • apply music, repertoire and instrument knowledge • use musical elements and melody conventions.
Context of and specific resources for assessment	Assessment must ensure: • access to an environment where song-writing skills can be applied • access to appropriate range of instruments

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

EVIDENCE GUIDE	
	• use of culturally appropriate processes, and techniques appropriate to the language and literacy capacity of the candidate and the work being performed.
Method of assessment	The following assessment methods are appropriate for this unit: • case studies to assess ability to use musical elements and melody conventions • direct observation of the candidate composing songs or musical pieces • authenticated samples of song-writing work with candidate's self-evaluation • written or oral questioning or interview to test knowledge of song-writing techniques • case studies and scenarios as a basis for discussion of issues and challenges that typically arise in the context of composing songs or musical pieces.
Guidance information for assessment	Holistic assessment with other units relevant to the industry sector, workplace and job role is recommended.

Range Statement

RANGE STATEMENT	
The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording, if used in the performance criteria, is detailed below. Essential operating conditions that may be present with training and assessment (depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts) may also be included.	
Relevant personnel may include:	• performer • client • marketing and promotions personnel • artist's agent • tutor • mentor.
Purpose of composition may be for:	• specific artist • ensemble • music theatre

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT	
	• own personal development • corporate purposes • cultural purposes • marketing and promotion • educational purposes • special communities • special occasions • public and/or religious ceremonies • audio or video recordings for online products or interactive games.

Musical styles may include:	• classical
	• contemporary:
	  • blues
	  • folk
	  • gospel
	  • country
	  • electronic
	  • heavy metal
	  • hip hop
	  • industrial
	  • pop
	  • punk
	  • rap
	  • reggae
	  • rock
	  • R&B
	  • soul funk
	  • emo
	• jazz:
	  • contemporary
	  • cool school
	  • easy listening
	  • fusion
	  • swing
	  • tin-pan alley
	  • traditional.

Musical elements may include:	• acoustics • aesthetic qualities

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT	
	• articulation • attack • beat • cultural context • duration • dynamics • expression • form • harmony/chords • instrumentation • interpretation • intonation • melody • notation • nuance • orchestration • ornamentation • phrasing • pitch • relationship to song lyrics • rhythm • scales • shape • sound production • suspensions • tempo • texture • timbre/tone colour • time signatures • tonality • transposition • unity and contrast • voicing • volume.
Musical forms*/*structures may include:	• air • binary • free/through-composed • mobile • rondo • sonata

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT	
	• strophic • ternary • variation • verse-chorus, i.e. combinations of verse, chorus, bridge and/or other contrasting sections, such as ABA, AABA, etc.
Format may be:	• notated • computer-based • recorded.
Standard melody conventions may include:	• diatonic • embellishments • harmonic rhythm • imitation • leap • melisma • phrase • pitch • repeated notes • sequence • step • turnaround • unison.
Copyright notice may include:	• copyright symbol, followed by the name of the copyright owner and the year of first publication • for sound recordings, the letter P (for phonogram) in a circle or in brackets is used.

CUSMCP302A Write song lyrics

Modification History

Not applicable.

Unit Descriptor

Unit descriptor	This unit describes the performance outcomes, skills and knowledge required to write song lyrics. An understanding of musical styles and song structures is essential, along with knowledge of how copyright and royalties apply to songwriters. No licensing, legislative, regulatory or certification requirements apply to this unit at the time of endorsement.

Application of the Unit

Application of the unit	Songwriters apply the skills and knowledge outlined in this unit. They could be writing lyrics for music which has already been composed or writing lyrics as the basis for music compositions. Often songwriters write both music and lyrics, either alone or in collaboration with other musicians. Skills associated with composing songs are covered in: • CUSMCP301A Compose simple songs or musical pieces.

Licensing/Regulatory Information

Not applicable.

Pre-Requisites

Prerequisite units		

Employability Skills Information

Employability skills	This unit contains employability skills.

Elements and Performance Criteria Pre-Content

Elements describe the essential outcomes of a unit of competency.	Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the required skills and knowledge section and the range statement. Assessment of performance is to be consistent with the evidence guide.

Elements and Performance Criteria

ELEMENT	**PERFORMANCE CRITERIA**
Clarify lyric-writing requirements	1. In consultation with ***relevant personnel***, identify ***purpose*** of lyrics to be written 2. Identify appropriate cultural and stylistic contexts to suit the purpose of songs 3. Agree on nature of collaborative arrangements with composers or performers as required 4. Agree on ***format*** for final presentation of lyrics
Develop lyrical elements	5. Use own imagination and ***lyric-writing resources*** to generate a range of ideas that suit the purpose and ***musical style*** of songs 6. Use a range of ***writing techniques*** and ***rhyme patterns*** to develop the message of songs 7. Use writing techniques to convey appropriate meaning,

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

ELEMENT	PERFORMANCE CRITERIA
	mood or effect 8. Apply knowledge of song ***structures*** and ***song formats*** to enhance the effect of songs 9. Align lyrics with starting points, climaxes and cadence points of a song's melody 10. Review work in progress with relevant personnel and make adjustments as required 11. Present lyrics in agreed format 12. Review process for writing lyrics and note areas for future improvement
Develop networks to promote own work	13. Apply knowledge of ***copyright*** to maximise income from song writing 14. Develop ***networks*** to maximise exposure of own songs

Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This section describes the skills and knowledge required for this unit.

Required skills

- communication and teamwork skills sufficient to:
  - discuss song-writing requirements in a collaborative manner
  - respond positively to constructive feedback on own work
- literacy skills sufficient to:
  - read and interpretlyric-writing resources
  - write lyrics
- initiative and enterprise skills in the context of:
  - applying original and creative approaches to lyric writing
  - experimenting with writing techniques to produce lyrics that meet specific purposes
- planning and self-management skills sufficient to:
  - meet deadlines
  - develop and maintain a network of professional contacts
- learning skills sufficient to:
  - acquire and use information appropriate to writing song lyrics
  - continuously evaluate and adjust own written work

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

REQUIRED SKILLS AND KNOWLEDGE
Required knowledge

• music literacy:
  • musical styles
  • song structures
  • standard melody conventions
  • basic composition processes and notation
• lyric-writing techniques:
  • meter
  • rhyme
  • story telling
• process for collaborating with performers and recording personnel to make music demos
• cultural protocols appropriate to the purpose of songs
• issues and challenges that typically arise in the context of writing song lyrics

Evidence Guide

EVIDENCE GUIDE	
The Evidence Guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, range statement and the Assessment Guidelines for the Training Package.	
Overview of assessment	
Critical aspects for assessment and evidence required to demonstrate competency in this unit	Evidence of the ability to: • write lyrics for at least four songs in two different musical styles • apply knowledge of song structures to the writing of lyrics • apply knowledge of copyright to song-writing activities.
Context of and specific resources for assessment	Assessment must ensure: • access to an environment where lyric-writing skills can be applied • access to range of appropriate lyric-writing resources • use of culturally appropriate processes, and techniques appropriate to the language and literacy

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

EVIDENCE GUIDE	
	capacity of the candidate and the work being performed.
Method of assessment	The following assessment methods are appropriate for this unit: • case studies to assess ability to use writing techniques and rhyme patterns to convey meaning and create mood • direct observation of the candidate writing song lyrics • direct questioning combined with review of portfolios of evidence and third-party workplace reports of on-the-job performance by candidate, including authenticated samples of song lyrics with candidate's self-evaluation • written or oral questioning or interview to test knowledge of lyric-writing techniques.
Guidance information for assessment	Holistic assessment with other units relevant to the industry sector, workplace and job role is recommended, for example: • CUFCMP301A Implement copyright arrangements • CUSMCP301A Compose simple songs or musical pieces • CUSMLT301A Apply knowledge of genre to music making • CUSMLT303A Notate music for performance • CUSMLT403AAnalyse functional harmony.

Range Statement

RANGE STATEMENT	
The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording, if used in the performance criteria, is detailed below. Essential operating conditions that may be present with training and assessment (depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts) may also be included.	
Relevant personnel may include:	• composer • band member

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT	
	• performer • client • producer • marketing and promotions personnel • artist's agent • tutor • mentor.
Purpose of lyrics may be for:	• specific piece of music • specific artist • band • ensemble • music theatre • own personal development • corporate purposes • cultural purposes • marketing and promotion • educational purposes • special communities • special occasions • public and/or religious ceremonies • audio or video recordings for online products or interactive games.
Format may be:	• paper-based • computer-based • recorded.
Lyric-writing resources may include:	• documented events and facts • existing texts • literary, poetic and creative writing material • media • rhyming dictionaries • thesauruses.

Musical styles may include:	• classical
	• contemporary:
	  • blues
	  • folk
	  • gospel
	  • country
	  • electronic
	  • heavy metal

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT	
	• hip hop • industrial • pop • punk • rap • reggae • rock • R&B • soul funk • emo • jazz: • contemporary • cool school • easy listening • fusion • swing • tin-pan alley • traditional.
Writing techniques may include:	• meter • contrast • word associations • allegory • analogy and association • form • hyperbole • irony • metaphor • motif • onomatopoeia • oxymoron • paradox • personification • repetition • simile • symbolism.
Rhyme patterns may include:	• masculine • feminine • dactylic • syllabic

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT	
	• imperfect • semirhyme • oblique • assonance • consonance • half rhyme • alliteration • sight or eye rhyme • tail • internal.
Song ***structures*** may include:	• introduction • verses • pre-chorus • chorus • bridge • collision • vocal runs • instrumental solo • outro • ad lib • catchy melodic phrase or rhythm • hook, e.g. a lyric line • relationship/contrast between chorus and verse.
Song formats may include:	• ballads • list songs • patter songs • answer songs • hymns • choral.

Knowledge of ***copyright*** must include:	• royalty entitlements, such as from:
	  • sale of recordings
	  • broadcasting, including radio, internet or television
	  • use of songs in movies, e.g. royalties from the sale of the soundtrack album
	• role of Australasian Performing Rights Association (APRA)
	• sharing song royalties, e.g. with other band members
	• correct format for copyright notices:

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT	
	• copyright symbol, followed by the name of the copyright owner and the year of first publication • for sound recordings, the letter P (for phonogram) in a circle or in brackets is used.

Networks may include:	• performers
	• composers
	• media outlets:
	  • radio
	  • television
	  • internet
	• dance clubs and other music venues
	• DJs
	• music publishers
	• aggregators.

CUSMCP303A Develop simple musical pieces using electronic media

Modification History

Not applicable.

Unit Descriptor

Unit descriptor	This unit describes the performance outcomes, skills and knowledge required to use electronic media to develop simple musical pieces. No licensing, legislative, regulatory or certification requirements apply to this unit at the time of endorsement.

Application of the Unit

Application of the unit	Musicians involved in the development of musical pieces apply the skills and knowledge outlined in this unit, which deals with the process of using computer-based technology as the primary development tool. They could be working alone or with other musicians in one or more musical styles. Skills associated with more complex music composition projects in this field are covered in: • CUSMCP501A Compose music using electronic media.

Licensing/Regulatory Information

Not applicable.

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

Pre-Requisites

Prerequisite units		

Employability Skills Information

Employability skills	This unit contains employability skills.

Elements and Performance Criteria Pre-Content

Elements describe the essential outcomes of a unit of competency.	Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the required skills and knowledge section and the range statement. Assessment of performance is to be consistent with the evidence guide.

Elements and Performance Criteria

ELEMENT	**PERFORMANCE CRITERIA**
Prepare to develop music using electronic media	1. Discuss with ***appropriate personnel*** the ways in which digital equipment can be used to develop music 2. Use practice sessions to explore the ***features*** of ***software*** applications and computer-based technology used to develop music 3. Confirm ***purpose*** of musical pieces to be developed with appropriate personnel 4. Identify appropriate musical ***styles***, ***elements*** and ***forms***/***structures*** to suit the purpose of the musical pieces 5. Identify the range of instruments and playing techniques to suit the style/mood of the musical pieces 6. Identify ***standard melody conventions*** to be used in the musical pieces

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

ELEMENT	PERFORMANCE CRITERIA
Develop simple musical pieces	7. Use electronic media to organise musical elements into working versions of musical pieces 8. Ensure that musical input maintains style of music being created 9. Listen to work in progress with appropriate personnel and seek feedback on how well the musical pieces meet creative and technical requirements 10. Incorporate ideas and suggestions into final pieces 11. Use notation features of software to set down musical pieces as required 12. Apply ***copyright notice*** to the song/musical piece with the name of the songwriter and year of first publication 13. Present all musical pieces in required ***file format*** by agreed deadline
Evaluate own musical works	14. Compare work against previous musical pieces to assess development of techniques and ideas 15. Discuss strengths and weaknesses of musical works with appropriate personnel and identify strategies for improving own skills in developing music using electronic media

Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE
This section describes the skills and knowledge required for this unit.
Required skills

• communication and teamwork skills sufficient to:
  • discuss musical requirements in a collaborative manner
  • respond positively to constructive feedback on own work
  • work collaboratively with others involved in the music development process
• numeracy skills sufficient to determine duration of musical pieces
• listening skills in the context of:
  • using aural imagination when manipulating musical elements
  • applying aural-perception skills to improve musical outcomes
• initiative and enterprise skills sufficient to:
  • develop original and innovative approaches to developing music with electronic media

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

REQUIRED SKILLS AND KNOWLEDGE

• experiment with musical styles and elements to develop own style
• planning, organising and self-management skills sufficient to:
  • gather information on musicalstyles, elementsandforms/structures
  • seek expert assistance when problems arise
  • prioritise work tasks
  • meet deadlines
  • demonstrate reliability in all agreed work commitments
• learning skills sufficient to:
  • identify and use techniques to develop aural memory and imagination
  • continuously evaluate and adjust own work via critical listening
• technology skills sufficient to:
  • use appropriate and current software and hardware for developing music
  • resolve operational problems with equipment or software and seek advice as required

Required knowledge

• features of standard hardware and software tools/packages for developing and notating music
• issues and challenges that typically arise in the context of developing music using electronic media
• OHS principles of:
  • safe listening, including safeguards against hearing loss
  • using a computer and keyboard for periods of time

Evidence Guide

EVIDENCE GUIDE	
The Evidence Guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, range statement and the Assessment Guidelines for the Training Package.	
Overview of assessment	
Critical aspects for assessment and evidence required to demonstrate competency in this unit	Evidence of the ability to: • develop a selection of simple musical works using electronic media • respond positively to constructive feedback on own musical works.

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

EVIDENCE GUIDE	
Context of and specific resources for assessment	Assessment must ensure: • access to an environment where music development skills can be applied • access to industry-current electronic media used to develop musical works • use of culturally appropriate processes, and techniques appropriate to the language and literacy capacity of the candidate and the work being performed.
Method of assessment	The following assessment methods are appropriate for this unit: • case studies to assess ability to use musical elements and standard melody conventions • direct observation of the candidate developing musical pieces using electronic media • written or oral questioning to test knowledge as listed in the required knowledge section of this unit • case studies and scenarios as a basis for discussion of issues and challenges that typically arise in the context of developing simple musical pieces using electronic media.
Guidance information for assessment	Holistic assessment with other units relevant to the industry sector, workplace and job role is recommended.

Range Statement

RANGE STATEMENT	
The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording, if used in the performance criteria, is detailed below. Essential operating conditions that may be present with training and assessment (depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts) may also be included.	
Appropriate personnel may include:	• performer • composer • sound engineer • client • marketing and promotions personnel

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT	
	• artist's agent • tutor • mentor.

Features may include:	• virtual instruments
	• music notation
	• tracks:
	  • drum
	  • other instruments
	  • harmonic progression
	  • bass line
	  • melodies
	  • harmonies
	• recording and adding parts to tracks:
	  • in real time
	  • in step time
	  • by importation from other sources
	• channels
	• file output formats
	• audio capture
	• MIDI support
	• loops
	• mixing:
	  • delaying harmonies
	  • adding or changing harmonies
	  • introducing instrumental effects and distortion
	  • adjusting balance, tone and intonation
	  • adding sound elements and effects
	• note editing:
	  • note on or off
	  • note or pitch bend
	  • control change
	  • program change
	  • keyboard after touch
	  • modulation
	  • pitch wheel
	• sequencing
	• changing velocity and volume
	• mastering

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT	
	• samples • specialist plug-ins.
Software applications may include:	• Pro Tools • Logic • Cubase • Ableton Live • Reason • Nuendo • Garage Band • Digital Performer • Soundscape • Sonic Studio.
Purpose of musical pieces may be for:	• computer game • screen production • music demo • specific performer or band • mood music as background to an event or function • own personal development.

Styles may include:	• acoustic:
	  • blues
	  • folk
	  • gospel
	• classical
	• contemporary:
	  • country
	  • electronic
	  • heavy metal
	  • hip hop
	  • industrial
	  • pop
	  • punk
	  • rap
	  • reggae
	  • rock
	• jazz
	• dance.

Elements may include:	• acoustics • aesthetic qualities

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT	
	• articulation • attack • beat • cultural context • duration • dynamics • expression • form • harmony/chords • instrumentation • interpretation • intonation • melody • notation • nuance • orchestration • ornamentation • phrasing • pitch • relationship to song lyrics • rhythm • scales • shape • sound production • suspensions • tempo • texture • timbre/tone colour • time signatures • tonality • transposition • unity and contrast • voicing • volume.
Forms*/*structures may include:	• air • binary • free/through-composed • mobile • rondo • sonata

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT	
	• strophic • ternary • variation • verse-chorus, i.e. combinations of verse, chorus, bridge and/or other contrasting sections, such as ABA, AABA, etc.
Standard melody conventions may include:	• diatonic • embellishments • harmonic rhythm • imitation • leap • melisma • phrase • pitch • repeated notes • sequence • step • turnaround • unison.
Copyright notice may include:	• copyright symbol, followed by the name of the copyright owner and the year of first publication • for sound recordings, the letter P (for phonogram) in a circle or in brackets is used.
File formats may include:	• AIFF • AC3 • WAV • WMA • MIDI • Real Audio • QuickTime • MP3.

CUSMCP401A Develop techniques for arranging music

Modification History

Not applicable.

Unit Descriptor

Unit descriptor	This unit describes the performance outcomes, skills and knowledge required to rework an existing composition into a different instrumental or vocal grouping. No licensing, legislative, regulatory or certification requirements apply to this unit at the time of endorsement.

Application of the Unit

Application of the unit	Arrangers in all genres apply the skills and knowledge outlined in this unit. They could be helping songwriters structure their compositions, writing versions of songs for performance or publication, or reworking existing compositions for recording artists by providing charts for rhythm sections. Arranging is closely allied to composing, so aural imagination and well-developed aural-perception skills are critical, along with sound understanding of the theory and practice of harmony and counterpoint. Even though they are reworking existing compositions, arrangers aim to produce a musically distinctive sound, sometimes adding original music to final arrangements.

Licensing/Regulatory Information

Not applicable.

Pre-Requisites

Prerequisite units		

Employability Skills Information

Employability skills	This unit contains employability skills.

Elements and Performance Criteria Pre-Content

Elements describe the essential outcomes of a unit of competency.	Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the required skills and knowledge section and the range statement. Assessment of performance is to be consistent with the evidence guide.

Elements and Performance Criteria

ELEMENT	**PERFORMANCE CRITERIA**
Develop an understanding of music arrangement	1. In consultation with ***appropriate personnel***, identify ***factors*** that may have an impact on how to approach the arranging of music 2. Consider the range of ways ***musical elements*** could be reworked for different types of compositions
Generate ideas for musical arrangements	3. Clarify ***scope*** of music arrangement brief with appropriate personnel 4. Prepare a ***plan*** for completing work in line with the requirements of the brief and negotiate a ***contract*** as required 5. ***Brief*** other people involved in the music arrangement project as required 6. Research arranging conventions of musical style as required

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

ELEMENT	PERFORMANCE CRITERIA
	7. Generate a range of musical ideas or starting points and experiment with options for realising them 8. Discuss options with appropriate personnel and refine ideas as required
Arrange music	9. Develop and apply a range of ***techniques*** to adapt and organise musical elements into working versions of arrangements 10. Obtain copyright clearances and address issues regarding intellectual property rights as required 11. Listen to work in progress with appropriate personnel and seek feedback on how well arrangements meet creative and technical requirements 12. Incorporate ideas and suggestions into final arrangements 13. As required, attend rehearsals or performance workshops where arrangements are being played and make any necessary adjustments 14. Present all arrangements in required ***format*** by agreed deadline
Evaluate own music arrangements	15. Identify criteria to provide an effective measure of the success of own arrangements 16. Compare work against previous arrangements to assess development of techniques and ideas 17. Discuss strengths and weaknesses of arrangements with appropriate personnel and identify strategies for improving own arranging techniques

Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This section describes the skills and knowledge required for this unit.

Required skills

- communication and teamwork skills sufficient to:
  - discuss requirements for arranging music in a collaborative manner
  - document plans for music arrangement projects
  - respond positively to constructive feedback on own arrangements
- listening skills in the context of:

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

REQUIRED SKILLS AND KNOWLEDGE

- using aural imagination when manipulating musical elements
- analysing music instrumentation
- applying aural-perception skills to enhance the sound of original compositions

- initiative and enterprise skills in the context of:
  - phrasing and shaping music appropriately
  - giving the finished work a stylistically convincing sound
  - demonstrating originality and innovative approaches in the use and organisation of musical elements
  - incorporating melodic and harmonic components to give arrangements a musically distinctive sound
  - arranging music appropriately for the context of venues and perceived audience taste
- learning skills in the context of continuously improving music-arranging techniques through practice and refinement based on critical feedback
- planning, self-management and organisational skills sufficient to:
  - prioritise work tasks
  - meet deadlines
  - plan the arrangement of music in a logical sequence
  - work within established budgets and timeframes
  - demonstrate reliability in all agreed work commitments
- technology skills in the context of using music composition and arranging software at a working level of proficiency

Required knowledge

- well-developed understanding of musicianship issues, including:
  - repertoire and music history relevant to area of specialisation
  - harmony and counterpoint
  - instrumentation and orchestration
  - musical protocols and customs for setting down music
  - genres and styles, and their musical forms and conventions in written notation
  - interpretation of chords, scales, melodies, forms, textures or other conventions found within music notation
  - options for using computer applications to notate music
  - copyright issues in relation to arranging compositions
- reading and writing music using written music notation, such as acoustic and electronic scores, sheet music and chord charts
- techniques for writing directions for:
  - instrumentation
  - voicing

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

REQUIRED SKILLS AND KNOWLEDGE
• expression • timbre • attack • pitch • tempi • dynamics • issues and challenges that typically arise in the context of arranging music

Evidence Guide

EVIDENCE GUIDE	
The Evidence Guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, range statement and the Assessment Guidelines for the Training Package.	
Overview of assessment	
Critical aspects for assessment and evidence required to demonstrate competency in this unit	Evidence of the ability to: • arrange a selection of compositions in response to at least two briefs • apply well-developed aural skills to the music arranging process • work collaboratively with others involved in creating or performing the music arrangements.
Context of and specific resources for assessment	Assessment must ensure: • access to an environment where music arranging skills can be applied • access to industry-current software, hardware and audio equipment for composing, orchestrating and setting down music • access to scores relevant to the candidate's selected musical styles • use of culturally appropriate processes, and techniques appropriate to the language and literacy capacity of the candidate and the work being performed.
Method of assessment	The following assessment methods are appropriate for this unit:

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

EVIDENCE GUIDE	
	• evaluation of work plans prepared by the candidate • direct observation of the candidate arranging musical pieces • written or oral questioning to assess candidate's understanding of musical elements and techniques for arranging compositions • written or oral questioning to test knowledge as listed in the required knowledge section of this unit • case studies and scenarios as a basis for discussion of issues and challenges that typically arise in the context of arranging music in response to a brief.
Guidance information for assessment	Holistic assessment with other units relevant to the industry sector, workplace and job role is recommended, for example: • CUFCMP301A Implement copyright arrangements • CUSMCP402A Develop techniques for composing music • CUSMCP501A Compose music using electronic media • CUSMLT401A Notate music for performance • CUSMLT403A Analyse functional harmony • CUSMLT501A Refine aural-perception skills.

Range Statement

RANGE STATEMENT	
The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording, if used in the performance criteria, is detailed below. Essential operating conditions that may be present with training and assessment (depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts) may also be included.	
Appropriate personnel may include:	• composer • songwriter • music publisher • performer • ensemble member • big band member • presenter

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT	

	• designer:
	  • sound
	  • lighting
	  • costume
	  • make-up and hair
	  • special effects
	• client
	• marketing and promotions personnel
	• artist's agent
	• conductor
	• tutor
	• mentor.

Factors may include:	• purpose of arrangement, such as to:
	  • enhance the work of recording artists
	  • write charts for performing artists who work with house bands
	  • help songwriters structure their compositions
	  • write versions of existing popular songs for ensembles or for publication
	  • transcribe existing arrangements
	  • modify existing screen music
	  • remix existing popular music recordings for specialised markets, such as dance, radio and internet
	• contractual arrangements
	• available resources
	• amount of time allocated to rehearsal
	• available budget
	• client's expectations
	• intellectual property
	• copyright
	• online distribution considerations:
	  • file compression for streaming and downloading
	  • file formats
	  • promotional samples to accompany each piece
	• timelines.

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT	
Musical elements may include:	• acoustics • aesthetic qualities • articulation • attack • beat • cultural context • duration • dynamics • expression • form • harmony/chords • instrumentation • interpretation • intonation • melody • notation • nuance • orchestration • ornamentation • phrasing • pitch • relationship to song lyrics • rhythm • scales • shape • sound production • suspensions • tempo • texture • timbre/tone colour • time signatures • tonality • transposition • unity and contrast • voicing • volume.
Scope of music arrangement brief may include:	• purpose • number of musical pieces required • duration of pieces • musical genre

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT	
	• extent of instrumentation/orchestration required • budget • required resources • evaluation and review requirements • timeline • final format for arrangements.
Aspects to be covered in the work ***plan*** may include:	• duration, general vision for and scope of the compositions being arranged • text and any associated collaboration required • timelines • budget • resources required for the work • copyright clearances required • timetable that allows for unexpected developments and contingencies • communication plan that ensures ongoing discussion and confirmation of the direction being taken with arrangements • plan of music components and any text components • map that clearly indicates duration requirements for sections of the work.
Aspects to be covered in a ***contract*** may include:	• milestones and payment schedule • materials and facilities provided by both parties • responsibilities of both parties • role of any subcontracted personnel • process for negotiating variations to the contract.
Briefing others may involve:	• allocating work in line with project requirements • providing specifications • agreeing on standards of work and monitoring procedures • providing technical and financial information • agreeing on payment schedules • discussing reporting mechanisms and arrangements for dealing with contingencies • negotiating process for providing feedback on work in progress.
Techniques may include:	• transforming songs from their basic form into authentic-sounding performances or recordings

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT	
	• designing melodic development • sweetening rhythm tracks by writing parts for different instruments • generating harmony vocals • creative use of countermelodic devices specific to different styles of music • writing material that fits comfortably with the standard technique of a particular instrument or voice • adding original music • simplifying music for specific target markets • rounding off rhythms and pitches • applying guide tones • using counterpoint • composing heads as starting points for jazz improvisation • instrumentation • writing note combinations that sound good to the ear • contrary motion • writing parts • creating introductions and endings • using countermelodies • re-harmonising chord progressions • developing musical themes or motifs.
Format may be:	• computer-based • paper-based.

Discuss strengths and weaknesses of compositions with appropriate personnel and identify strategies for improving own skills in composing music using electronic media

Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE
This section describes the skills and knowledge required for this unit.

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

REQUIRED SKILLS AND KNOWLEDGE

Required skills

- communication and teamwork skills sufficient to:
  - undertake research into development of computer technologies relevant to music composition
  - discuss compositional requirements in a collaborative manner
  - document plans for compositional projects
  - respond positively to constructive feedback on own performance
- literacy skills sufficient to read and understand software user manuals
- listening skills in the context of:
  - using aural imagination when manipulating musical elements
  - analysing music instrumentation
  - applying aural-perception skills to improve compositional outcomes
- initiative and enterprise skills in the context of:
  - using technology as a creative tool to compose music
  - phrasing and shaping music appropriately
  - expressing appropriate musical nuance
  - demonstrating originality and innovative approaches in the use and organisation of musical elements
  - extending musical boundaries for self and audience
  - experimenting with the synthesis of musical ideas and materials from a range of sources
- learning skills sufficient to keep up to date with new versions of software applications relevant to composing music
- planning, self-management and organisational skills sufficient to:
  - prioritise work tasks
  - meet deadlines
  - plan the composition of musical pieces in a logical sequence
  - work within established budgets and timeframes
  - demonstrate reliability in all agreed work commitments
- problem-solving skills sufficient to plan for contingencies
- technology skills sufficient to use industry-standard software applications and computer hardware relevant to composing music

Required knowledge

- industry knowledge including:
  - musical terminology, systems, elements and genres
  - group and solo performance protocols and customs
  - instrumentation and orchestration

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

REQUIRED SKILLS AND KNOWLEDGE
• musical protocols and customs for setting down music • features of a range of hardware and software tools/packages for composing music and generating music scores • fusion of music technology and music composition • copyright issues associated with composing music • issues and challenges that typically arise in the context of composing music using electronic media • OHS principles of: • safe listening, including safeguards against hearing loss • using a computer and keyboard for periods of time

Evidence Guide

EVIDENCE GUIDE	
The Evidence Guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, range statement and the Assessment Guidelines for the Training Package.	
Overview of assessment	
Critical aspects for assessment and evidence required to demonstrate competency in this unit	Evidence of the ability to: • compose a selection of musical pieces using electronic media in response to at least two briefs • apply well-developed aural skills to the composition process • work collaboratively with others involved in creating or performing the compositions.
Context of and specific resources for assessment	Assessment must ensure: • access to an environment where music compositional skills can be applied • access to industry-current software, hardware and audio equipment for composing, orchestrating and setting down music • use of culturally appropriate processes, and techniques appropriate to the language and literacy capacity of the candidate and the work being performed.
Method of assessment	The following assessment methods are appropriate for

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

EVIDENCE GUIDE	
	this unit: • evaluation of work plans prepared by the candidate • direct observation of the candidate composing musical pieces using electronic media • written or oral questioning to assess candidate's understanding of musical elements and compositional techniques using electronic media • written or oral questioning to test knowledge as listed in the required knowledge section of this unit • case studies and scenarios as a basis for discussion of issues and challenges that typically arise in the context of composing music using electronic media.
Guidance information for assessment	Holistic assessment with other units relevant to the industry sector, workplace and job role is recommended.

Range Statement

RANGE STATEMENT	
The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording, if used in the performance criteria, is detailed below. Essential operating conditions that may be present with training and assessment (depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts) may also be included.	

Undertaking research may involve:	• keeping abreast of industry trends through:
	  • searching the internet
	  • reading industry publications
	• attending trade shows
	• participating in conferences and master classes
	• participating in online discussion forums.

Software applications may include:	• Pro Tools • Logic • Cubase • Ableton Live • Reason • Nuendo • Garage Band • Digital Performer

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT	
	• Soundscape • Sonic Studio.

Appropriate personnel may include:	• client
	• software developer and programmer
	• performer
	• ensemble member
	• presenter
	• musical director
	• production manager
	• sound engineer
	• designer:
	  • sound
	  • lighting
	  • special effects
	  • computer games
	• artist's agent
	• tutor
	• mentor.

Factors may include:	• client's expectations
	• purpose of composition, such as music being composed for:
	  • live performances
	  • film/TV productions
	  • online products
	  • interactive games
	• availability of appropriate technological/software resources
	• own level of expertise in using relevant computer software and hardware
	• available budget
	• intellectual property
	• technical parameters, including:
	  • technology constraints
	  • console
	  • platform
	  • bandwidth
	  • memory/RAM
	• timelines.

Scope of composition brief may	• purpose

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT	

include:	• number of musical pieces required
	• duration of pieces
	• musical genre
	• range of virtual instruments to be included in composition
	• any specialists required
	• collaboration required with other creative and operational personnel, such as:
	  • film/TV directors and producers
	  • sound editors and other post-production personnel
	  • sound recordists
	  • game designers
	• budget
	• preferred software application to be used
	• evaluation and review requirements
	• timeline
	• final format for compositions.

Aspects to be covered in the work ***plan*** may include:	• duration, general vision for and scope of the composition material • text and any associated collaboration required • timelines • budget • technological resources required for the work • timetable that allows for unexpected developments and contingencies • communication plan that ensures ongoing discussion and confirmation of the music being composed • plan of music components and any text components • map that clearly indicates duration requirements for sections of the work.
Aspects to be covered in a ***contract*** may include:	• milestones and payment schedule • materials and facilities provided by both parties • responsibilities of both parties • role of any subcontracted personnel • process for negotiating variations to the contract.

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT	
Briefing others may involve:	• allocating work in line with project requirements • providing specifications • agreeing on standards of work and monitoring procedures • providing technical and financial information • agreeing on payment schedules • discussing reporting mechanisms and arrangements for dealing with contingencies • negotiating process for providing feedback on work in progress.
Compositional techniques may include:	• applying the theory and practice of harmony and counterpoint • composing heads as starting points for jazz improvisation • instrumentation • generating workable rhythm section parts • writing note combinations that sound good to the ear • contrary motion • writing parts • creating introductions and endings • using countermelodies • re-harmonising chord progressions • developing musical themes or motifs.
Musical elements may include:	• acoustics • aesthetic qualities • articulation • attack • beat • cultural context • duration • dynamics • expression • form • harmony/chords • instrumentation • interpretation • intonation • melody • notation

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT	
	• nuance • orchestration • ornamentation • phrasing • pitch • relationship to song lyrics • rhythm • scales • shape • sound production • suspensions • tempo • texture • timbre/tone colour • time signatures • tonality • transposition • unity and contrast • voicing • volume.
File formats may include:	• DAT • AIFF • AC3 • WAV • broadcast WAV format (BWF) • WMA • MIDI • OGG • advanced audio coding (AAC) • Apple Lossless • Real Audio • QuickTime • MP3.

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

CUSMCP502A Compose music for screen

Modification History

Not applicable.

Unit Descriptor

Unit descriptor	This unit describes the performance outcomes, skills and knowledge required to compose music for screen productions. No licensing, legislative, regulatory or certification requirements apply to this unit at the time of endorsement.

Application of the Unit

Application of the unit	Screen composers write music to synchronise with film and video sequences. Music is used in a range of ways, for example, to create mood, a sense of location, an historical period or film genre. It is also used to link scenes and complement action sequences, such as car chases. Because music for film is usually written and recorded very late in the process, screen composers work to extremely tight deadlines. In addition to music compositional skills, they need thorough understanding of the screen production process since they work closely with producers, directors, sound recordists and post-production personnel.

Licensing/Regulatory Information

Not applicable.

Pre-Requisites

Prerequisite units		

Employability Skills Information

Employability skills	This unit contains employability skills.

Elements and Performance Criteria Pre-Content

Elements describe the essential outcomes of a unit of competency.	Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the required skills and knowledge section and the range statement. Assessment of performance is to be consistent with the evidence guide.

Elements and Performance Criteria

ELEMENT	**PERFORMANCE CRITERIA**
Participate in pre-production phase of screen productions	1. In consultation with ***appropriate personnel***, clarify all ***aspects*** of screen music composition briefs, including ***production values*** 2. As required, undertake research into the style and other aspects of music appropriate to the content or storyline of the screen production 3. Use a shot list to map musical events and durations to film shots 4. Determine which moving image sequences require theme and incidental music 5. Establish a routine with the director and film editor for viewing material which has been shot to keep track of any implications for the composition of music 6. Organise ***resources*** required for composing music in line

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

ELEMENT	PERFORMANCE CRITERIA
	with ***production*** requirements
Generate ideas for screen music	7. Prepare a ***plan*** for completing work in line with the requirements of the brief and negotiate a ***contract*** as required 8. ***Brief*** other people involved in the composition project as required 9. Generate a range of musical ideas or starting points and experiment with options for realising them 10. Investigate the potential of basic structural elements for achieving desired effects 11. Discuss options with appropriate personnel and refine ideas as required
Create and orchestrate theme and incidental music	12. Apply a range of ***compositional techniques*** to organise ***musical elements*** into working versions of theme and incidental music 13. Orchestrate sound and themes appropriately for the context of each sequence and to ensure musical continuity through the whole soundtrack 14. Where live music is to be used, ensure that all parts are available to appropriate personnel in a timely manner 15. Listen to work in progress with appropriate personnel and seek feedback on how well compositions meet creative and technical requirements 16. Incorporate ideas and suggestions into final compositions 17. Collaborate with appropriate personnel on the compilation of the final music soundtrack
Evaluate work	18. In consultation with appropriate personnel identify aspects of the composition and soundtrack compilation process that worked well and those that could be improved 19. Evaluate the quality and success of the music soundtrack in meeting production requirements and planned outcomes 20. Evaluate own role in operations and note areas for improvement 21. Provide feedback to team members on their performance as required 22. Use results of evaluation to improve own work practices

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This section describes the skills and knowledge required for this unit.

Required skills

- communication and teamwork skills sufficient to:
  - discuss compositional requirements in a collaborative manner
  - read and interpret screen music briefs and film shot lists
  - document plans for screen composition projects
  - respond positively to constructive feedback on own work
  - provide constructive feedback to others involved in the screen music composition and soundtrack compilation process
- listening skills in the context of:
  - using aural imagination when manipulating musical elements
  - analysing music instrumentation
  - applying aural-perception skills to improve compositional outcomes
- initiative and enterprise skills in the context of:
  - relating sounds to images and concepts in a creative way
  - phrasing and shaping music appropriately
  - expressing appropriate musical nuance
  - demonstrating originality and innovative approaches in the use and organisation of musical elements
  - experimenting with the synthesis of musical ideas and materials from a range of sources
- learning skills sufficient to keep up to date with new versions of software applications relevant to composing music
- planning, self-management and organisational skills sufficient to:
  - prioritise work tasks
  - meet deadlines
  - plan the composition of musical pieces in a logical sequence
  - work within established budgets and timeframes
  - demonstrate reliability in all agreed work commitments
- problem-solving skills sufficient to plan for contingencies
- technology skills sufficient to use industry-standard software applications and computer hardware relevant to composing music

Required knowledge

- well-developed understanding of:
  - principles and techniques involved in composing and compiling music for screen productions

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

REQUIRED SKILLS AND KNOWLEDGE
• computer technologies relevant to composing music • film-making aesthetics, processes, personnel and technologies • issues and challenges that typically arise in the context of composing music for screen productions • music knowledge, including: • musical styles • musical concepts and ideas in the context of composing music for screen productions • typical formats for music composition plans • instrumentation and orchestration • musical protocols and customs for setting down music • features of a range of hardware and software tools/packages for composing music • musical terminology, systems, elements and genres • copyright law and permissions • OHS principles of: • safe listening, including safeguards against hearing loss • using a computer and keyboard for periods of time

Evidence Guide

EVIDENCE GUIDE	
The Evidence Guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, range statement and the Assessment Guidelines for the Training Package.	
Overview of assessment	
Critical aspects for assessment and evidence required to demonstrate competency in this unit	Evidence of the ability to: • prepare an appropriate response to at least two screen music composition briefs • compose music for at least two screen productions • apply well-developed aural skills to the composition process • work creatively, collaboratively and constructively in a team environment.
Context of and specific resources for assessment	Assessment must ensure: • access to screen productions that require the

RANGE STATEMENT	
regional contexts) may also be included.	
Appropriate personnel may include:	• musician • performer • composer • musical assistant • music mixer • music supervisor • effects editor • effects mixer • sound recordist • re-recording mixer • audio operator and dubbing machine operator • audio and sound engineer • broadcaster, e.g. remote broadcast engineer • director • producer • post-production editor • program manager • sound designer • lighting designer • film/video crew.

Aspects of the brief may include:	• nature of music required
	• relationship between the composer, producer, director and technical staff
	• responsibility for and access to necessary equipment and assistance
	• remuneration, including:
	  • payment and payment details for the composer
	  • contingency details
	  • consideration of own and possible on-costs in generating the music
	  • copyright, royalty and licensing issues
	• levels of responsibility
	• timelines
	• budgets
	• materials and facilities
	• production schedule.

Production values may include:	• artistic style and quality • overall sound quality aligned with production

CUSMCP503A Prepare compositions for publishing

Modification History

Not applicable.

Unit Descriptor

Unit descriptor	This unit describes the performance outcomes, skills and knowledge required to prepare compositions for electronic or print publishing. No licensing, legislative, regulatory or certification requirements apply to this unit at the time of endorsement.

Application of the Unit

Application of the unit	Music copyists apply the skills and knowledge outlined in this unit. They may be required to take the hand-written score of a composer and enter the notation into a computer program, such as Finale or Sibelius. Alternatively, the score could be print-based and they work closely with editing personnel at the publishing house. With the advent of music notation software applications, many composers and arrangers prepare their own music for publication.

Licensing/Regulatory Information

Not applicable.

Pre-Requisites

Prerequisite units

ELEMENT	PERFORMANCE CRITERIA
	incorporate feedback as required 11. Complete and present work in the required ***format*** by agreed deadline
Review work	12. Seek feedback from appropriate personnel on the process used to prepare music for publishing 13. Identify personal strengths and weaknesses as a means of improving own work 14. Undertake ***professional development activities*** as required

Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This section describes the skills and knowledge required for this unit.

Required skills

- communication and teamwork skills sufficient to:
  - interpret and respond to music publishing briefs
  - set down music in a required format
  - work collaboratively with music publishers and composers
  - respond positively to constructive feedback on own work
- initiative and enterprise skills in the context of:
  - anticipating and resolving issues associated with preparing compositions for publishing
  - facilitating improved performance through accurate and thoughtful preparation of music for publishing
- planning, self-management and organisational skills sufficient to:
  - prioritise work tasks
  - meet deadlines
  - plan the preparation of compositions for publishing in a logical sequence
  - work within established budgets and timeframes
  - demonstrate reliability in all agreed work commitments
- problem-solving skills sufficient to:
  - plan for contingencies
  - transpose music accurately
- technology skills sufficient to:
  - use industry-standard software applications relevant to notating music

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

REQUIRED SKILLS AND KNOWLEDGE
• transcribe music from audio sources • learning skills sufficient to keep up to date with new versions of software applications relevant to notating music
Required knowledge

• well-developed understanding of musicianship issues, including:
  • repertoire relevant to chosen musical specialisation
  • publishers' requirements in relation to notation of music
  • musical protocols and customs for notating and editing notation of music
  • song-writing techniques
  • genres and styles, and their musical forms and conventions in written notation
  • interpretation of chords, scales, melodies, forms, textures or other conventions found within music notation
• copyright issues and intellectual property rights in the context of preparing compositions for publishing
• issues and challenges that typically arise in the context of preparing compositions for publishing

Evidence Guide

EVIDENCE GUIDE	
The Evidence Guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, range statement and the Assessment Guidelines for the Training Package.	
Overview of assessment	
Critical aspects for assessment and evidence required to demonstrate competency in this unit	Evidence of the ability to: • prepare at least three compositions for publishing, at least one of which must have parts • notate music accurately • demonstrate understanding of copyright and intellectual property rights in the context of publishing music • work cooperatively with music publishers, composers and others involved in the process of preparing compositions for publishing.
Context of and specific resources for assessment	Assessment must ensure: • opportunities for preparing compositions for

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

EVIDENCE GUIDE	
	publishing • access to printed scores or recorded performances • use of culturally appropriate processes, and techniques appropriate to the language and literacy capacity of the candidate and the work being performed.
Method of assessment	The following assessment methods are appropriate for this unit: • direct observation or video recording of the candidate preparing compositions for publishing • authenticated samples of music prepared for publication by the candidate with candidate's self-evaluation • written or oral questioning or interview to test knowledge as listed in the required knowledge section of this unit • case studies as a basis for discussion of issues and challenges that arise in the context of preparing compositions for publishing.
Guidance information for assessment	Holistic assessment with other units relevant to the industry sector, workplace and job role is recommended, for example: • CUFCMP501A Manage and exploit copyright arrangements • CUSMCP401A Develop techniques for arranging music • CUSMCP402A Develop techniques for composing music • CUSMCP501A Compose music using electronic media • CUSMLT401A Notate music for performance • CUSIND501A Apply music knowledge and artistic judgement.

Range Statement

RANGE STATEMENT
The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised

RANGE STATEMENT	
wording, if used in the performance criteria, is detailed below. Essential operating conditions that may be present with training and assessment (depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts) may also be included.	
Appropriate personnel may include:	• composer • representative of music publishing company • music editor • musical director • producer • performer • mentor • teacher • coach • tutor • conductor • agent.

Aspects of briefs may include:	• musical editions to be used
	• instrumental/vocal forces required for the publication
	• types and number of scores or other music resources required
	• format for presentation of material:
	  • computer-generated
	  • paper-based
	• how publications are to be distributed:
	  • hard copy
	  • online
	• remuneration
	• levels of responsibility
	• timelines
	• budgets
	• copyright issues
	• intellectual property rights.

Aspects to be covered in a ***contract*** may include:	• milestones and payment schedule • materials and facilities provided by both parties • responsibilities of both parties • role of any subcontracted personnel • process for negotiating variations to the contract.

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT	

Resources may include:	• scores
	• printed music
	• recordings
	• software applications:
	  • Finale
	  • Sibelius
	• subcontractors.

Notation may include:	• correct transposition • spacing of rests • correct adjustment of repeats in line with the full score • accurate conversion of expression marks from the full score • accurate and consistent interpretation of full score markings in individual parts • consistent bow markings through all parts.
Sources of ***specialist*** advice may include:	• journals • online resources • industry/professional associations • legislation, e.g. Copyright Act and amendments • conductors • directors • composers • principal performers • music publishers • musicologists • music scholars.
Format may be:	• computer-generated • paper-based.
Professional development activities may include:	• courses or master classes • working with practitioners who are experienced in score preparation/print music publishing • attending industry events.

CUSMCP601A Extend techniques for composing music

Modification History

Not applicable.

Unit Descriptor

Unit descriptor	This unit describes the performance outcomes, skills and knowledge required to develop high-level music composition skills. No licensing, legislative, regulatory or certification requirements apply to this unit at the time of endorsement.

Application of the Unit

Application of the unit	This unit builds on CUSMCP402A Develop techniques for composing music, and can apply to refining techniques for composing music in any music genre, as well as in all performance and recording contexts. A higher level of competence in areas such as aural imagination, melodic development, instrumentation and orchestration is required of composers as they seek to establish a reputation for themselves in the industry. They are expected to show a real commitment to improving their techniques in ways that enable them to extend the range of compositional briefs to which they can confidently respond. A willingness to act on feedback from colleagues and mentors is also essential.

Licensing/Regulatory Information

Not applicable.

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

Pre-Requisites

Prerequisite units		

Employability Skills Information

Employability skills	This unit contains employability skills.

Elements and Performance Criteria Pre-Content

Elements describe the essential outcomes of a unit of competency.	Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the required skills and knowledge section and the range statement. Assessment of performance is to be consistent with the evidence guide.

Elements and Performance Criteria

ELEMENT	**PERFORMANCE CRITERIA**
Set professional development goals	1. In consultation with ***appropriate personnel***, listen to recordings of own compositions in the context of setting professional development goals 2. Discuss ***factors*** that contribute to excellence in music composition and incorporate them into professional development goals as appropriate 3. Listen to the work of master composers and consider ***techniques*** that could be applied to own practice 4. Establish ***criteria*** for monitoring and evaluating the success of own skill development 5. Develop a practice plan that incorporates realistic goals as a basis for refining composition techniques 6. Implement ***networking strategies*** to develop relationships that will assist in the process of enhancing

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

ELEMENT	PERFORMANCE CRITERIA
	own professional practice
Use personal practice time to refine techniques	7. Seek feedback on and critically review a sample of own compositions in terms of how well they fulfilled their respective briefs 8. Experiment with ways of enhancing those compositions to produce better outcomes 9. Use opportunities to discuss revised compositions with peers and/or mentors and incorporate their critical feedback into continuous improvement strategies
Compose music	10. Seek music compositional work that extends the range of own practice and helps to build confidence in own ability to respond to creative challenges 11. In response to briefs, generate a range of musical ideas or starting points and experiment with options for realising them 12. Discuss options with appropriate personnel and refine ideas as required 13. Apply a full range of compositional techniques to organise ***musical elements*** into working versions of musical pieces 14. Listen to work in progress with appropriate personnel and seek feedback on how well compositions meet creative and technical requirements 15. Incorporate ideas and suggestions into final compositions 16. As required, attend rehearsals or performance workshops where compositions are being played and make any necessary adjustments to compositions 17. Present all compositions in required ***format*** by agreed deadline
Evaluate own skill development	18. Compare work against previous compositions to assess development of techniques and ideas 19. Evaluate level of improvement in own compositional techniques against agreed criteria 20. Seek feedback on compositions from appropriate personnel and incorporate their suggestions and ideas into own continuous improvement strategies

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This section describes the skills and knowledge required for this unit.

Required skills

- communication and teamwork skills sufficient to:
  - discuss compositional requirements in a collaborative manner
  - respond positively to constructive feedback on own compositions
  - actively participate in industry and community networks as a way of extending own professional practice
- listening skills in the context of:
  - using aural imagination when manipulating musical elements
  - analysing music instrumentation
  - applying aural-perception skills to improve compositional outcomes
- initiative and enterprise skills in the context of:
  - phrasing and shaping music appropriately
  - expressing appropriate musical nuance
  - demonstrating originality and innovative approaches in the use and organisation of musical elements
  - extending musical boundaries for self and audience
  - experimenting with the synthesis of musical ideas and materials from a range of sources
  - composing appropriately for the context of venues, sound forces and perceived audience taste
- self-management and learning skills in the context of:
  - setting professional development goals
  - monitoring and evaluating effectiveness of own compositions
  - improving music composition techniques through experimentation and practice
- planning and organisational skills sufficient to:
  - prioritise work tasks
  - meet deadlines
  - plan the composition of musical pieces in a logical sequence
  - work within established budgets and timeframes
  - demonstrate reliability in all agreed work commitments
- technology skills in the context of using music composition software at a working level of proficiency

Required knowledge

- well-developed understanding of musicianship issues, including:

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

REQUIRED SKILLS AND KNOWLEDGE
• repertoire and music history relevant to area of specialisation • instrumentation and orchestration • musical protocols and customs for setting down music • genres and styles, and their musical forms and conventions in written notation • interpretation of chords, scales, melodies, forms, textures or other conventions found within music notation • options for using computer applications to notate music • copyright law and permissions • reading and writing music using written music notation, such as acoustic and electronic scores, sheet music and chord charts • techniques for writing directions for: • instrumentation • voicing • expression • timbre • attack • pitch • tempi • dynamics • issues and challenges that typically arise in the context of extending techniques for composing music

Evidence Guide

EVIDENCE GUIDE	
The Evidence Guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, range statement and the Assessment Guidelines for the Training Package.	
Overview of assessment	
Critical aspects for assessment and evidence required to demonstrate competency in this unit	Evidence of the ability to: • plan and monitor progress in own skill development • compose, in response to at least two briefs, a selection of musical pieces that demonstrate an advanced understanding of compositional techniques • apply well-developed aural skills to the composition process

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

EVIDENCE GUIDE	
	• work collaboratively with others involved in creating or performing the compositions • respond positively to constructive feedback on own compositions.
Context of and specific resources for assessment	Assessment must ensure: • access to an environment where music compositional skills can be applied • access to appropriate range of instruments relevant to the candidate's selected musical styles • access to industry-current software, hardware and audio equipment for composing, orchestrating and setting down music • access to scores relevant to the candidate's selected musical styles • use of culturally appropriate processes, and techniques appropriate to the language and literacy capacity of the candidate and the work being performed.
Method of assessment	The following assessment methods are appropriate for this unit: • direct observation of the candidate composing musical pieces • process diary detailing practice planning, goals and strategies • written or oral questioning on professional development strategies, planning and career goals • relevant samples of artistic work with candidate's evaluation • authenticated details of relevant artistic and/or commercial achievements • written or oral questioning to assess candidate's understanding of musical elements and compositional techniques • case studies and scenarios as a basis for discussing issues about refining techniques for composing music.
Guidance information for assessment	Holistic assessment with other units relevant to the industry sector, workplace and job role is recommended.

Range Statement

RANGE STATEMENT	
The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording, if used in the performance criteria, is detailed below. Essential operating conditions that may be present with training and assessment (depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts) may also be included.	
Appropriate personnel may include:	• mentor • coach • peer • performer • client.

Factors may include:	• aural imagination
	• aural-perception skills
	• specialising in a particular style of music and establishing a niche for oneself
	• specialising in composing music for particular performance contexts, such as:
	  • classical music ensemble
	  • jazz ensemble
	  • opera
	  • defence force band
	  • electronic dance music
	• ability to write lyrics
	• level of expertise in composing music using electronic media
	• ability to compose in a range of styles to suit different purposes, such as:
	  • screen music
	  • community music
	  • dance theatre
	  • musical theatre
	  • interactive multimedia
	  • advertising music
	  • library music.

Techniques may include:	• applying the theory and practice of harmony and counterpoint • composing heads as starting points for jazz improvisation

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT	
	• constructing phrasing techniques appropriate to the musical genre • evaluating the appropriate use of dynamics for various instruments • instrumentation • orchestration • generating workable rhythm section parts • contrary motion • writing parts • writing for different instruments • creating introductions and endings • using countermelodies • advanced melodic development • developing musical themes or motifs.
Criteria may include:	• application of advanced harmonic, melodic and rhythmic concepts • increased level of expertise in composing music using electronic media • increased range of compositional techniques used • increased level of confidence in composing music for different purposes • audience response • increased positive feedback from clients, mentors and peers.
Networking strategies may include:	• membership of industry and/or professional associations • participating in conferences or seminars • distributing personal marketing material to potential clients • maintaining regular contact with other composers • participating in online discussion groups.
Musical elements may include:	• acoustics • aesthetic qualities • articulation • attack • beat • cultural context • duration • dynamics

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT	
	• expression • form • harmony/chords • instrumentation • interpretation • intonation • melody • notation • nuance • orchestration • ornamentation • phrasing • pitch • relationship to song lyrics • rhythm • scales • shape • sound production • suspensions • tempo • texture • timbre/tone colour • time signatures • tonality • transposition • unity and contrast • voicing • volume.
Format may be:	• computer-based • paper-based.

CUSMCP602A Extend techniques for arranging music

Modification History

Not applicable.

Unit Descriptor

Unit descriptor	This unit describes the performance outcomes, skills and knowledge required to develop high-level skills in arranging music. No licensing, legislative, regulatory or certification requirements apply to this unit at the time of endorsement.

Application of the Unit

Application of the unit	This unit builds on CUSMCP401A Develop techniques for arranging music, and can apply to refining techniques for arranging music in any music genre, as well as in all performance and recording contexts. A higher level of competence in areas such as aural imagination, melodic development, instrumentation and orchestration is required of arrangers as they seek to establish a reputation for themselves in the industry. They are expected to show a real commitment to improving their techniques in ways that enable them to extend the range of music-arranging briefs to which they can confidently respond. A willingness to act on feedback from colleagues and mentors is also essential.

Licensing/Regulatory Information

Not applicable.

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

Pre-Requisites

Prerequisite units		

Employability Skills Information

Employability skills	This unit contains employability skills.

Elements and Performance Criteria Pre-Content

Elements describe the essential outcomes of a unit of competency.	Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the required skills and knowledge section and the range statement. Assessment of performance is to be consistent with the evidence guide.

Elements and Performance Criteria

ELEMENT	**PERFORMANCE CRITERIA**
Set professional development goals	1. In consultation with ***appropriate personnel***, listen to recordings of own music arrangements in the context of setting professional development goals 2. Discuss ***factors*** that contribute to excellence in arranging music and incorporate them into professional development goals as appropriate 3. Listen to the work of master composers and arrangers and consider ***techniques*** that could be applied to own practice 4. Establish ***criteria*** for monitoring and evaluating the success of own skill development 5. Develop a practice plan that incorporates realistic goals as a basis for refining music-arranging techniques 6. Implement ***networking strategies*** to develop

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

ELEMENT	PERFORMANCE CRITERIA
	relationships that will assist in the process of enhancing own professional practice
Use personal practice time to refine techniques	7. Seek feedback on and critically review a sample of own arrangements in terms of how well they fulfilled their respective briefs 8. Experiment with ways of enhancing those arrangements to produce better outcomes 9. Use opportunities to discuss revised arrangements with peers and/or mentors and incorporate their critical feedback into continuous improvement strategies
Arrange music	10. Seek music arranging work that extends the range of own practice and helps to build confidence in own ability to respond to creative challenges 11. In response to briefs, generate a range of musical ideas or starting points and experiment with options for realising them 12. Discuss options with appropriate personnel and refine ideas as required 13. Apply a full range of techniques to organise ***musical elements*** into working versions of musical pieces 14. Obtain copyright clearances and address issues regarding intellectual property rights as required 15. Listen to work in progress with appropriate personnel and seek feedback on how well arrangements meet creative and technical requirements 16. Incorporate ideas and suggestions into final arrangements 17. As required, attend rehearsals or performance workshops where arrangements are being played and make any necessary adjustments 18. Present all arrangements in required ***format*** by agreed deadline
Evaluate own skill development	19. Compare work against previous arrangements to assess development of techniques and ideas 20. Evaluate level of improvement in own music-arranging techniques against agreed criteria 21. Seek feedback on arrangements from appropriate personnel and incorporate their suggestions and ideas into own continuous improvement strategies

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This section describes the skills and knowledge required for this unit.

Required skills

- communication and teamwork skills sufficient to:
  - discuss music arranging requirements in a collaborative manner
  - respond positively to constructive feedback on own arrangements
  - actively participate in industry and community networks as a way of extending own professional practice
- listening skills in the context of:
  - using aural imagination when manipulating musical elements
  - analysing music instrumentation
  - applying aural-perception skills to enhance the sound of original compositions
- initiative and enterprise skills in the context of:
  - phrasing and shaping music appropriately
  - giving the finished work a stylistically convincing sound
  - demonstrating originality and innovative approaches in the use and organisation of musical elements
  - incorporating melodic and harmonic components to give arrangements a musically distinctive sound
  - arranging music appropriately for the context of venues and perceived audience taste
- self-management and learning skills in the context of:
  - setting professional development goals
  - monitoring and evaluating effectiveness of own arrangements
  - improving music-arranging techniques through experimentation and practice
- planning and organisational skills sufficient to:
  - prioritise work tasks
  - meet deadlines
  - plan the arrangement of musical pieces in a logical sequence
  - work within established budgets and timeframes
  - demonstrate reliability in all agreed work commitments
- technology skills in the context of using music composition and arranging software at a working level of proficiency

Required knowledge

- well-developed understanding of musicianship issues, including:
  - repertoire and music history relevant to area of specialisation

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

REQUIRED SKILLS AND KNOWLEDGE
• instrumentation and orchestration • musical protocols and customs for setting down music • genres and styles, and their musical forms and conventions in written notation • interpretation of chords, scales, melodies, forms, textures or other conventions found within music notation • options for using computer applications to notate music • copyright law and permissions • reading and writing music using written music notation, such as acoustic and electronic scores, sheet music and chord charts • techniques for writing directions for: • instrumentation • voicing • expression • timbre • attack • pitch • tempi • dynamics • issues and challenges that typically arise in the context of extending techniques for arranging music

Evidence Guide

EVIDENCE GUIDE	
The Evidence Guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, range statement and the Assessment Guidelines for the Training Package.	
Overview of assessment	
Critical aspects for assessment and evidence required to demonstrate competency in this unit	Evidence of the ability to: • plan and monitor progress in own skill development • arrange, in response to at least two briefs, a selection of musical pieces that demonstrate an advanced understanding of music-arranging techniques • apply well-developed aural skills to the music arrangement process • work collaboratively with others involved in creating or performing the music arrangements

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

EVIDENCE GUIDE	
	• respond positively to constructive feedback on own arrangements.
Context of and specific resources for assessment	Assessment must ensure: • access to an environment where music arranging skills can be applied • access to industry-current software, hardware and audio equipment for composing, arranging, orchestrating and setting down music • access to scores relevant to the candidate's selected musical styles • use of culturally appropriate processes, and techniques appropriate to the language and literacy capacity of the candidate and the work being performed.
Method of assessment	The following assessment methods are appropriate for this unit: • direct observation of the candidate arrangingmusical pieces • process diary detailing practice planning, goals and strategies • written or oral questioning on professional development strategies, planning and career goals • relevant samples of artistic work with candidate's evaluation • authenticated details of relevant artistic and/or commercial achievements • written or oral questioning to assess candidate's understanding of musical elements and music-arranging techniques • case studies and scenarios as a basis for discussing issues about refining techniques for arranging music.
Guidance information for assessment	Holistic assessment with other units relevant to the industry sector, workplace and job role is recommended.

Range Statement

RANGE STATEMENT

CUSMGT401A Manage distribution of music and associated products

Modification History

Not applicable.

Unit Descriptor

Unit descriptor	This unit describes the performance outcomes, skills and knowledge required to manage the distribution of music in both physical and digital formats, as well as products associated with the music. No licensing, legislative, regulatory or certification requirements apply to this unit at the time of endorsement.

Application of the Unit

Application of the unit	Those responsible for managing the process of distributing the music and merchandise associated with an artist or act apply the skills and knowledge outlined in this unit. The unit may apply to artists, musical publishers, digital distributors/aggregators in association with independent labels, as well as those who work in record companies. The market for physical products, such as CDs, is contracting as consumers turn to online stores to purchase music in more flexible ways. Therefore digital distribution of music is becoming the dominant distribution mode.

Licensing/Regulatory Information

Not applicable.

Pre-Requisites

Prerequisite units		

Employability Skills Information

Employability skills	This unit contains employability skills.

Elements and Performance Criteria Pre-Content

Elements describe the essential outcomes of a unit of competency.	Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the required skills and knowledge section and the range statement. Assessment of performance is to be consistent with the evidence guide.

Elements and Performance Criteria

ELEMENT	**PERFORMANCE CRITERIA**
Distribute physical products	1. In consultation with ***relevant personnel*** determine the range of ***physical products*** to be promoted and distributed 2. Ensure that contracts clearly state the ***rights*** and ***obligations*** of all parties with regard to distribution of music and associated products 3. Manage the distribution of physical products to retail outlets as required 4. Ensure that accurate ***records*** are kept of products distributed 5. Ensure that income from sales of products is distributed in line with contractual agreements
Manage digital	6. Ensure that artists, songwriters and composers understand different ***business models*** for digital

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

ELEMENT	PERFORMANCE CRITERIA
distribution of music	distribution of their music 7. Ensure that artists, songwriters and composers understand their rights under a digital distribution deal 8. Supply music for digital distribution in the ***required format*** 9. ***Contribute*** to the promotion of music and associated products through ***media outlets*** as required 10. Ensure that accurate records are kept of music distributed 11. Ensure that income from sales of music is distributed in line with contractual agreements
Evaluate distribution strategies	12. Assess the impact and effectiveness of distribution strategies 13. Analyse costs and timelines to evaluate benefits arising from distribution strategies 14. In consultation with relevant personnel, revise distribution strategies as required

Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE
This section describes the skills and knowledge required for this unit.
Required skills

• research and literacy skills sufficient to access reliable information on business models for the distribution of music and associated products
• communication and teamwork skills sufficient to:
  • liaise effectively with a range artists and personnel involved in the distribution of music and associated products
  • work cooperatively in a team environment
• initiative and enterprise skills sufficient to establish and manage viable distribution arrangements
• planning and organisational skills sufficient to plan and implement viable distribution arrangements
• problem-solving skills sufficient to manage contingencies in distribution activities
• self-management skills sufficient to:
  • set priorities and apply time-management strategies
  • work within established budgets and timeframes

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

REQUIRED SKILLS AND KNOWLEDGE

• technical skills sufficient to:
  • use the internet to access information
  • use software applications to track sales of music distributed digitally

Required knowledge

• new and emerging business trends and models in the music industry
• planning processes for organising the distribution of music and associated products
• types of royalty income due to artists, composers and songwriters
• relevant legislation, regulations and codes of practice, including:
  • copyright and intellectual property
  • ethical standards, privacy and confidentiality
  • OHS
• role and functions of:
  • industry personnel
  • music retail outlets
  • music publishing companies
  • record companies
  • digital distributors/aggregators
  • national and international music industry associations
• issues and challenges that typically arise in the context of managing the distribution of music and associated products

Evidence Guide

EVIDENCE GUIDE	
The Evidence Guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, range statement and the Assessment Guidelines for the Training Package.	
Overview of assessment	
Critical aspects for assessment and evidence required to demonstrate competency in this unit	Evidence of the ability to: • develop viable strategies to distribute music and associated products • manage the digital distribution of music • work cooperatively with others involved in the distribution of music and associated products.

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

EVIDENCE GUIDE	
Context of and specific resources for assessment	Assessment must ensure: • access to an environment where distribution of music and associated products is required • access to artists and digital distributors/aggregators • use of culturally appropriate processes, and techniques appropriate to the language and literacy capacity of the candidate and the work being performed.
Method of assessment	The following assessment methods are appropriate for this unit: • case studies to assess candidate's ability to communicate effectively in a range of situations dealing with the distribution of music and associated products • written or oral questioning to assess knowledge as listed in the required knowledge section of this unit • problem-solving activities to assess ability to manage contingencies in the process of distributing music and associated products.
Guidance information for assessment	Holistic assessment with other units relevant to the industry sector, workplace and job role is recommended.

Range Statement

RANGE STATEMENT	
The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording, if used in the performance criteria, is detailed below. Essential operating conditions that may be present with training and assessment (depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts) may also be included.	
Relevant personnel may include:	• artists and performers • composers • songwriters • artist managers • publishers • record companies • digital distributors/aggregators

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT	

	• advertising agencies
	• public relations companies
	• media personnel, such as:
	  • broadcasters
	  • critics
	  • journalists.

Physical products may include:	• CDs
	• DVDs
	• merchandise, such as:
	  • T-shirts
	  • posters
	  • stickers
	  • mugs
	  • gimmicky objects.

Rights may include the right to:	• assign or retain all rights in the music • distribute through multiple agencies • vary the product range • opt out of a contract or agreement • set prices.
Obligations may include the party responsible for:	• covering the cost of making products • distributing products to retail outlets • tracking sales and returns • keeping records • distributing income from sales.
Records may include:	• type of physical or digital product • number of products • retail outlets • date when products were supplied to retail outlets • contact details at retail outlets • number of sales • number of returns • items out of stock • estimated date for new stock • back orders for stock • damage to stock • delivery method • contact details at delivery companies.

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT	

Business models may include:	• artist's music publishing company dealing through a collection agency with online outlets, such as iTunes and Amazon MP3 on their behalf
	• artists using a digital distributor to deal with online outlets using business models, such as:
	  • fee for service
	  • subscription
	  • upload fee and royalty percentage.

Required format may include:	• single tracks • albums • audio files in format nominated by distribution agency • cover artwork in format nominated by distribution agency • barcode (universal product code [UPC]) • international standard recording code (ISRC).
Contributing to promotional activities may include:	• writing media releases • assisting artists to compile rÃ©sumÃ©s • distributing artists' rÃ©sumÃ©s • organising media interviews for artists.

Media outlets may include:	• print
	• television
	• radio
	• internet, including:
	  • artists' websites
	  • broadcast email lists
	  • YouTube
	  • Facebook
	  • MySpace
	  • blogs
	• digital communication devices, e.g. mobile phones.

CUSMGT402A Administer music publishing income

Modification History

Not applicable.

Unit Descriptor

Unit descriptor	This unit describes the performance outcomes, skills and knowledge required to calculate, collect and distribute publishing income. No licensing, legislative, regulatory or certification requirements apply to this unit at the time of endorsement.

Application of the Unit

Application of the unit	Music publishers, employees of collection societies and artist managers apply the skills and knowledge outlined in this unit. Collection societies, such as the Australasian Performing Rights Association (APRA) collect licence fees for the use of music by broadcasters and other entities, and distribute them as royalties to music copyright holders. These could be songwriters, composers or music publishing companies. Skills associated with negotiating and administering artists' royalty income derived from recordings of performances are covered in: • CUSMGT404A Administer artists' royalty income.

Licensing/Regulatory Information

Not applicable.

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

Pre-Requisites

Prerequisite units		

Employability Skills Information

Employability skills	This unit contains employability skills.

Elements and Performance Criteria Pre-Content

Elements describe the essential outcomes of a unit of competency.	Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the required skills and knowledge section and the range statement. Assessment of performance is to be consistent with the evidence guide.

Elements and Performance Criteria

ELEMENT	**PERFORMANCE CRITERIA**
Establish publishing agreements	1. Calculate ***publishing income*** in line with publishing agreements, copyright legislation and ***industry association agreements*** 2. Negotiate and confirm ***royalties*** arising from the use of published ***works*** on behalf of ***originators*** 3. Ensure royalty negotiations accurately and fairly reflect the commercial stature of originator 4. Discuss, confirm and document ***publishing agreement*** with originator 5. Ensure ***terms and conditions*** are agreed and incorporated into publishing agreement 6. Ensure commercial interests of originator and publisher are balanced and clearly articulated

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

ELEMENT	PERFORMANCE CRITERIA
Collect and disperse publishing income	7. Notify relevant ***agencies*** of publishing agreement 8. Use standard administration procedures of relevant agencies to accurately and promptly report the use of published works 9. Use relevant software to calculate royalties and apportion income in line with publishing agreement 10. Distribute royalties to originators in line with publishing agreement
Monitor use of published works	11. Plan and implement strategies to monitor and report on the use of published works 12. Monitor and build on ***attributes*** of published works 13. Contact and negotiate with relevant agencies to protect use of published works internationally
Maintain accounts for published works	14. Update files systematically to ensure currency and accuracy of records and reporting 15. File new published works and notify relevant agencies promptly

Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This section describes the skills and knowledge required for this unit.

Required skills

- research skills sufficient to trace and monitor the use and users of published works
- literacy skills sufficient to interpret publishing contracts and agreements
- numeracy skills sufficient to calculateroyalty paymentsand apportion publishing income to originators of published works
- communication skills sufficient to negotiate publishing agreements with originators of published works and negotiate rates for the use of published works
- critical-thinking skills sufficient to analyse the use and users of published works
- initiative and enterprise skills sufficient to identify alternative approaches to monitoring the use of published works
- learning skills sufficient to maintain currency of music licensing knowledge
- planning and organisational skills sufficient to report on the use of published works
- problem-solving skills sufficient to address discrepancies in royalty calculations
- self-management skills sufficient to assess and prioritise own workload
- teamwork skills sufficient to build and maintain networks and relationships with

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

REQUIRED SKILLS AND KNOWLEDGE
originators and users of published works • technical skills sufficient to use licensing and/or accounting software
Required knowledge

• copyright legislation as it relates to licensing, publishing, rights and royalties:
  • Copyright Act 1968
  • Copyright Amendment (Digital Agenda) Act 2000
• revenue structures in the music industry
• types of royalty income due to composers and songwriters
• methods for calculating and distributing publishing income
• rights and obligations of publishers and originators of published works
• role and functions of:
  • industry personnel
  • music retail outlets
  • music publishing companies
  • record companies
  • digital distributors/aggregators
  • national and international music industry associations
• routine bookkeeping and accounting procedures
• typical features, requirements and terminology used inpublishing contracts and agreements
• issues and challenges that typically arise in the context of administering publishing income

Evidence Guide

EVIDENCE GUIDE	
The Evidence Guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, range statement and the Assessment Guidelines for the Training Package.	
Overview of assessment	
Critical aspects for assessment and evidence required to demonstrate competency in this unit	Evidence of the ability to: • analyse and assess licensing potential of relevant published works • calculate, collect and distribute royalties • negotiatepublishing agreements.

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

EVIDENCE GUIDE	
Context of and specific resources for assessment	Assessment must ensure: • access to copyright and licensing legislation, including the Copyright Act 1968 and Copyright Amendment (Digital Agenda) Act 2000 • access to copyright licensing and accounting software • access to industry association agreements • access to publishers, originators and users of published works • use of culturally appropriate processes, and techniques appropriate to the language and literacy capacity of the candidate and the work being performed.
Method of assessment	The following assessment methods are appropriate for this unit: • case studies to assess candidate's ability to negotiate publishing agreements • direct observation of candidate calculating, collecting and distributing publishing income • written or oral questioning to assess knowledge of the process involved in collecting and distributing income from published works • problem-solving activities to assess ability to calculate returns and apportion their distribution.
Guidance information for assessment	Holistic assessment with other units relevant to the industry sector, workplace and job role is recommended, for example: • BSBPUR402B Negotiate contracts • CUFCMP301A Implement copyright arrangements • CUSIND401A Develop specialist expertise in the music industry • CUSMGT401A Manage distribution of music and associated products • CUSMGT403A Managelicensing of music • CUSMGT404A Administer artists' royalty income.

Range Statement

RANGE STATEMENT

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT	
The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording, if used in the performance criteria, is detailed below. Essential operating conditions that may be present with training and assessment (depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts) may also be included.	

Publishing income may include:	• mechanical income derived from audio-only recordings, such as:
	  • retail sales
	  • demo/audition recordings
	  • educational recordings
	  • premiums
	  • ringtones
	  • downloads
	• print income derived from printed works, e.g. sheet music sales
	• public performance income derived from publicly performed works, such as:
	  • internet downloads
	  • live performances
	  • mobile phone ringtones
	  • radio
	  • television
	• licensing/synchronisation income derived from audiovisual works, such as:
	  • DVD
	  • film
	  • television
	  • video.

Industry association agreements may include:	• Physical Product Licence Scheme: Australasian Mechanical Copyright Owners Society (AMCOS) • Joint Licence Scheme: Australasian Performing Rights Association (APRA) and Australasian Mechanical Copyright Owners Society (AMCOS).

Royalties may include:	• mechanical
	• public performance, such as:
	  • advertising
	  • aerobic and fitness classes

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT	
	• background/in-store music • churches • cinemas/film screenings • dance clubs, including mobile discos • dance schools • jukebox and videos • live music venues, e.g. clubs and hotels • radio stations, including commercial, community and narrowcast • ringtone providers • schools • sporting arenas and stadiums • television stations, including public, commercial, community, narrowcast and subscription • webcasters • sheet music • synchronisation: • production music • original soundtrack material • prerecorded and released material • third-party goods and services.
Works may include:	• songs • jingles • soundtracks • compositions.
Originators may include:	• songwriters • composers • arrangers • lyric writers.
Publishing agreement may include:	• term publishing • administration deal • single-song assignment • sub-publishing • work for hire.
Terms and conditions may include:	• advances • royalty payment schedule: • general • public performance/communication

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT	
	• sheet music • synchronisation and covers • assignment of copyright • creative control • duration, e.g. term and retention • enforcement of rights • goods and services tax (GST) • independent advice • jurisdiction • notices • obligation to exploit • overseas income • productivity commitment • promises and warranties • recoupment • reversion of copyright • termination • territory.
Agencies may include:	• Australasian Performing Rights Association (APRA) • Australasian Mechanical Copyright Owners Society (AMCOS) and in certain circumstances: • American Society of Composers, Authors and Publishers (ASCAP) • Copyright Agency Limited (CAL) • Harry Fox Agency • Mechanical Copyright Protection Society (MCPS) • Performing Rights Society (PRS) • Phonographic Performance Company of Australia (PPCA) • SociÃ©tÃ© des Auteurs, Compositeurs et Ã‰diteurs de Musique (SACEM).
Attributes may include:	• nature of promotional usage • intended audiences and audience size • rights granted to licensees • nature of products associated with published work • reputation of originator

CUSMGT403A Manage licensing of music

Modification History

Not applicable.

Unit Descriptor

Unit descriptor	This unit covers the performance outcomes, skills and knowledge required to manage, promote and negotiate licensing of musical works. No licensing, legislative, regulatory or certification requirements apply to this unit at the time of endorsement.

Application of the Unit

Application of the unit	Employees of music publishing companies apply the skills and knowledge described in this unit. They are responsible for promoting the use of material in a publisher's catalogue to prospective clients. They then negotiate licensing agreements with clients who want to use this material for their own purposes, such as in screen productions, broadcasts and mobile phone ringtones, and as mood music in public buildings. At times an artist manager may perform this role on behalf of artists.

Licensing/Regulatory Information

Not applicable.

Pre-Requisites

Prerequisite units

Prerequisite units		

Employability Skills Information

Employability skills	This unit contains employability skills.

Elements and Performance Criteria Pre-Content

Elements describe the essential outcomes of a unit of competency.	Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the required skills and knowledge section and the range statement. Assessment of performance is to be consistent with the evidence guide.

Elements and Performance Criteria

ELEMENT	**PERFORMANCE CRITERIA**
Promote works to clients	1. Plan ***strategies*** to promote listed ***works*** and ***originators of works*** 2. Research and assess marketing opportunities for listed works using appropriate ***sources*** 3. Identify and research ***users of publicly performed music*** to compile a list of potential clients 4. Pitch material to potential clients 5. Respond to requests for information on listed works from prospective clients
Negotiate contracts	6. Confirm that licensing of rights in works has been agreed by originator 7. Discuss and confirm ***terms and conditions*** of ***licensing contract*** with originator 8. Ensure licensing contract with client is free of conflicting claims or licences already granted or pending 9. Support all parties during licensing negotiations, and

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

ELEMENT	PERFORMANCE CRITERIA
	resolve disputes as required 10. Confirm licensing contract is accurate, understood by all parties and delivered within agreed timeframe 11. Organise the ***assignment of rights*** in works as required
Administer licensing policy and contracts	12. Ensure all licensing contracts comply with licensing policy and royalty obligations 13. Ensure ***licensing documentation*** is securely stored and readily available for retrieval to facilitate accurate royalty receipts and payments 14. Ensure licensing documentation is regularly monitored and updated

Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This section describes the skills and knowledge required for this unit.

Required skills

- research skills sufficient to:
  - analyse markets
  - assess promotional opportunities for listed works
  - monitor industry developments affecting the licensing of music
- literacy skills sufficient to interpret licensing contracts
- numeracy skills sufficient to facilitate accurate royalty payments and records
- communication skills sufficient to negotiate licensing contracts and resolve disputes relating to licensing of listed works
- initiative and enterprise skills in the context of:
  - identifying commercial potential of listed works
  - pitching material to prospective clients
- learning skills sufficient to maintain currency of music licensing knowledge
- planning and organisational skills sufficient toplan effective promotional strategies
- self-management skills sufficient to set priorities to achieve planned outcomes
- teamwork skills sufficient to work constructively with users of listed works and originators of works
- technical skills sufficient to use online copyright licensing software

Required knowledge

- copyright legislation as it relates to licensing, publishing, rights and royalties:

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

REQUIRED SKILLS AND KNOWLEDGE

• Copyright Act 1968
• Copyright Amendment (Digital Agenda) Act 2000
• differences between:
  • assignment and licensing of copyright
  • copyright for composition, sound recordings and published editions
  • mechanical, performing and synchronisation rights
• revenue structures in the music industry
• rights and obligations of publishers and originators of works
• role and functions of national and international music industry associations, such as:
  • copyright
  • collection
  • performing/mechanical rights
  • publishing
• routine recordkeeping procedures
• typical features of and terminology used inlicensing contracts

Evidence Guide

EVIDENCE GUIDE	
The Evidence Guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, range statement and the Assessment Guidelines for the Training Package.	
Overview of assessment	
Critical aspects for assessment and evidence required to demonstrate competency in this unit	Evidence of the ability to: • administer and negotiate licensing contracts • administer and negotiate assignment of rights contracts • promote listed works to potential clients.
Context of and specific resources for assessment	Assessment must ensure: • access to copyright and licensing legislation, including the Copyright Act 1968 and Copyright Amendment (Digital Agenda) Act 2000 • access to copyright licensing software • access to industry association agreements • access to a list of works that could be licensed

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

EVIDENCE GUIDE	
	• use of culturally appropriate processes, and techniques appropriate to the language and literacy capacity of the candidate and the work being performed.
Method of assessment	The following assessment methods are appropriate for this unit: • case studies to assess ability to negotiate licensing contracts • direct observation of candidate managing, promoting and negotiating licensing of works • written or oral questioning to assess knowledge of the legal and economic aspects of promoting the used of listed works.
Guidance information for assessment	Holistic assessment with other units relevant to the industry sector, workplace and job role is recommended.

Range Statement

RANGE STATEMENT	
The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording, if used in the performance criteria, is detailed below. Essential operating conditions that may be present with training and assessment (depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts) may also be included.	
Strategies may include:	• persuading artists and record companies to record listed works • persuading film and television production companies to commission new works from listed originators or use listed works • promoting listed works to advertising agencies for use in commercials • promoting reputation of listed originators.

Works may include:	• recorded music:
	  • background music
	  • demonstration and audition recordings
	  • digital downloads and mobile phone ringtones

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT	
	• educational recordings • original soundtrack material • premiums • prerecorded and released • production music (library music) • sound samples and sequences • sheet music.
Originators of works may include:	• arrangers • composers • group collaborators • lyricists • performers • writers.
Sources may include:	• industry associations: • Australasian Music Publishers Association (AMPAL) • Australasian Performing Rights Association (APRA) • Australasian Mechanical Copyright Owners Society (AMCOS) • Australian Recording Industry Association (ARIA) • advertising agencies • film and television production companies • record companies • electronic and print media providing: • articles • journals • magazines • news • reviews • subscriptions • industrial relations publications, such as: • bulletins • letters • magazines • newsletters • industry publications, such as: • directories

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT	
	• information sheets • reference books • technical publications • internet • libraries and archives • retail outlets selling recorded music, including audiotapes, CDs, digital downloads, ringtones and vinyl • retail outlets selling sheet music • suppliers of products and services.

Users of publicly performed music may include:	• screen production companies
	• advertising agencies
	• aerobic and fitness classes
	• background music users
	• churches
	• cinemas and film screenings
	• dance clubs, e.g. mobile discos
	• dance schools
	• digital service providers
	• electrical appliance shops
	• function centres and halls
	• jukebox and video jukebox operators
	• live music venues, e.g. clubs and hotels
	• public transport operators
	• radio stations, including:
	  • commercial
	  • community
	  • narrowcast
	• ringtone providers
	• schools
	• shopping centres and malls
	• sporting arenas and stadiums
	• television stations, including:
	  • public
	  • commercial
	  • community
	  • narrowcast
	  • subscription
	• webcasters.

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT	

Terms and conditions may include:	• accounting
	• advances
	• creative control
	• credits
	• duration, e.g. term and retention
	• enforcement of rights
	• exclusive and non-exclusive rights
	• goods and services tax (GST)
	• independent advice
	• jurisdiction
	• notices
	• obligation to exploit
	• overseas income
	• productivity commitment
	• promises and warranties
	• recoupment
	• royalty splits:
	  • public performance/communication
	  • sheet music
	  • synchronisation and covers
	• schedule
	• special negotiations:
	  • distribution of fees for collaborative projects
	  • fees for translators
	  • payment policies for producers, additional writers or accidental co-writers
	  • proportion of fees for music arrangements shared between originator and arranger
	  • whether payment should be a split with the originator on royalty payment as opposed to one-off fee for service
	• termination
	• territory.

Licensing contract may include:	• mechanical • public performance or broadcast • sheet music • sundry • synchronisation • a combination of the above.

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT	
Assignment of rights involves:	• copyright owner or authorised person signing an agreement that transfers or sells one or more rights in the copyright owner's work to another entity • specifying the terms under which the rights are assigned.
Licensing documentation may include:	• broadcast reports • collection agency reporting and return forms • copyright records • distribution files • prescribed notices • sales records and reports.

CUSMGT404A Administer artists' royalty income

Modification History

Not applicable.

Unit Descriptor

Unit descriptor	This unit describes the performance outcomes, skills and knowledge required to negotiate and distribute royalty and other income due to artists. No licensing, legislative, regulatory or certification requirements apply to this unit at the time of endorsement.

Application of the Unit

Application of the unit	Employees of record companies, artist managers and, at times, artists apply the skills and knowledge outlined in this unit. They are responsible for negotiating financial agreements with artists about recording their performances for distribution through a range of physical and digital outlets. These agreements may also include subsidiary products, such as merchandise or the right of third parties to associate their brands with artists. Skills associated with administering royalty income to songwriters and composers for the use of their music are covered in: • CUSMGT402A Administer music publishing income.

Licensing/Regulatory Information

Not applicable.

Pre-Requisites

Prerequisite units		

Employability Skills Information

Employability skills	This unit contains employability skills.

Elements and Performance Criteria Pre-Content

Elements describe the essential outcomes of a unit of competency.	Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the required skills and knowledge section and the range statement. Assessment of performance is to be consistent with the evidence guide.

Elements and Performance Criteria

ELEMENT	**PERFORMANCE CRITERIA**
Clarify terms and conditions of agreements with artists	1. Identify ***products*** and ***rights*** to be covered in agreements with ***artists*** 2. Calculate ***income*** in line with contractual arrangements 3. Negotiate and confirm royalties arising from the reproduction of artists' ***recordings*** 4. Ensure royalty negotiations accurately and fairly reflect the commercial stature of artists 5. Discuss, confirm and document ***terms and conditions*** to be included in ***agreements*** with artists 6. Ensure commercial interests of artists and any third parties are balanced and clearly articulated 7. Liaise with personnel responsible for drawing up contracts with artists to ensure that contracts reflect agreed terms and conditions

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

ELEMENT	PERFORMANCE CRITERIA
Disperse income and maintain financial records	8. Use relevant software to calculate royalties and income in line with agreements 9. Distribute income to artists in line with agreements 10. Update files systematically to ensure currency and accuracy of records and reporting 11. Ensure that discrepancies in payments or queries are identified, resolved or referred to ***relevant personnel***

Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This section describes the skills and knowledge required for this unit.

Required skills

- literacy skills sufficient to interpret contracts and agreements
- numeracy skills sufficient to calculateroyalty paymentsand apportion income to artists
- communication skills sufficient to negotiate terms and conditions of agreements with artists
- initiative and enterprise skills in the context of negotiating deals that maximise income for all parties to agreements
- learning skills sufficient to maintain currency of knowledge in relation to recording and other deals open to artists
- planning and organisational skills sufficient to:
  - assemble information relevant to artists' agreements
  - keep accurate records of agreements with artists
- problem-solving skills sufficient to address discrepancies in royalty calculations
- self-management skills sufficient to assess and prioritise own workload
- teamwork skills sufficient to build and maintain networks and relationships with artists and clients
- technical skills sufficient to use standard word-processing and accounting software

Required knowledge

- copyright legislation as it relates to licensing, publishing, rights and royalties:
  - Copyright Act 1968
  - Copyright Amendment (Digital Agenda) Act 2000
- revenue structures in the music industry
- types of royalty income due to artists, composers and songwriters

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

REQUIRED SKILLS AND KNOWLEDGE

• methods for calculating and distributing income to artists
• rights and obligations of artists, recording companies and third parties in agreements
• role and functions of:
  • industry personnel
  • music retail outlets
  • music publishing companies
  • record companies
  • digital distributors/aggregators
  • national and international music industry associations
• routine bookkeeping and accounting procedures
• typical features, requirements and terminology used incontracts and agreements with artists
• issues and challenges that typically arise in the context of administering artists' income

Evidence Guide

EVIDENCE GUIDE	
The Evidence Guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, range statement and the Assessment Guidelines for the Training Package.	
Overview of assessment	
Critical aspects for assessment and evidence required to demonstrate competency in this unit	Evidence of the ability to: • negotiate terms and conditions of financial agreements with artists • calculate, collect and distribute income to artists in line with agreements.

EVIDENCE GUIDE	
	• use of culturally appropriate processes, and techniques appropriate to the language and literacy capacity of the candidate and the work being performed.
Method of assessment	The following assessment methods are appropriate for this unit: • case studies to assess the candidate's ability to negotiate terms and conditions of financial agreements with artists • direct observation of candidate calculating, collecting and distributing income to artists • written or oral questioning to test knowledge as listed in the required knowledge section of this unit • problem-solving activities to assess ability to calculateincome and apportion their distribution.
Guidance information for assessment	Holistic assessment with other units relevant to the industry sector, workplace and job role is recommended, for example: • BSBPUR402B Negotiate contracts • CUSIND401A Develop specialist expertise in the music industry • CUSMGT401A Manage distribution of music and associated products • CUSMGT402A Administer music publishing income • CUSMGT403A Managelicensing of music • CUSPUR501A Establish and manage recording contracts.

Range Statement

RANGE STATEMENT	
The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording, if used in the performance criteria, is detailed below. Essential operating conditions that may be present with training and assessment (depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts) may also be included.	
Products may include:	• audio recordings:

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT	
	• physical products, e.g. CDs • digitally distributed • video recordings: • physical products, e.g. DVDs • digitally distributed • merchandise, such as: • T-shirts • posters • stickers • mugs • gimmicky objects.
Rights may include:	• brand association granted to a third party • ownership of copyright in the recording • other.
Artists may include:	• solo performers, such as: • singers • instrumentalists • dancers • circus performers • bands • ensembles.
Income may include:	• royalties derived from audio-only recordings, such as: • physical product sales • digital downloads • background/in-store music • educational recordings • premiums • ringtones • royalties derived from synchronisation rights from the use of sound recordings in audiovisual productions • income from: • public performance of recordings • sale of merchandise • rights licensed or assigned to third parties.
Recordings may include:	• recorded studio performances • recorded live performances

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT	

Terms and conditions may include:	• advances
	• royalty payment schedule
	• royalty splits:
	  • general
	  • synchronisation
	  • public performance
	  • other
	• assignment of copyright
	• creative control
	• duration, e.g. term and retention
	• enforcement of rights
	• goods and services tax (GST)
	• independent advice
	• jurisdiction
	• notices
	• obligation to exploit
	• overseas income
	• productivity commitment
	• promises and warranties
	• recoupment
	• reversion of copyright
	• termination
	• territory.

Agreements may cover:	• recording deals • brand association arrangements • other.
Relevant personnel may include:	• manager • accountant • auditor • artist • artist manager.

CUSMGT502A Manage artists and their careers

Modification History

Not applicable.

Unit Descriptor

Unit descriptor	This unit describes the performance outcomes, skills and knowledge required to manage the professional and career development of artists. No licensing, legislative, regulatory or certification requirements apply to this unit at the time of endorsement.

Application of the Unit

Application of the unit	This unit covers the skills and knowledge associated with managing artists' careers. This involves the promotion of artists' learning needs as well as their artistic and career interests. This role would typically be undertaken by an artist manager, but may at times be undertaken by self-employed artists on behalf of a collaborative group. A background in accountancy, marketing or administration is useful since artist managers are responsible for managing budgets, contracts, financial plans and the financial aspects of advertising. Skills associated with marketing and promoting artists are covered in: • CUSMKG501A Manage the promotion of creative acts.

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

Licensing/Regulatory Information

Not applicable.

Pre-Requisites

Prerequisite units		

Employability Skills Information

Employability skills	This unit contains employability skills.

Elements and Performance Criteria Pre-Content

Elements describe the essential outcomes of a unit of competency.	Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the required skills and knowledge section and the range statement. Assessment of performance is to be consistent with the evidence guide.

Elements and Performance Criteria

ELEMENT	**PERFORMANCE CRITERIA**
Establish business relationships	1. Discuss, confirm and document ***contractual relationship*** with artists 2. Use effective networking strategies with industry contacts to exploit business opportunities for artists 3. Establish supportive business relationships with artists to ensure sustainable career outcomes 4. Explore new and realistic opportunities with artists to maximise and exploit commercial advantage
Manage career development	5. Discuss and document realistic ***career plans*** with artists, ensuring career aspirations/potential are in line with realistic career goals

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

ELEMENT	PERFORMANCE CRITERIA
	6. Ensure that artists' repertoires are commercially viable and in line with realistic opportunities 7. Ensure interests of artists are consistently aligned with agreed artistic and career goals when negotiating commercial opportunities 8. Implement an impartiality clause when representing more than one artist, and ensure each artist is aware of their position within hierarchy of managed artists 9. Assist artists to realise their full artistic potential, and provide objective assessments of artistic success in a manner and timeframe agreed by all parties 10. Ensure negotiated obligations with artists are clearly communicated to all business partners
Manage business relationships	11. Plan and agree on ***communication processes*** to be used in business relationships with artists 12. Provide ongoing, accurate and objective ***copyright advice*** to artists 13. Negotiate, confirm and record a ***financial plan*** with artists, and implement an appropriate system to record and monitor finances 14. Report finances within legislative guidelines and make/accept payments within agreed timeframes
Develop market position of artists	15. Assess style, genre, repertoire and performance standard of artists to clarify market fit and potential 16. Monitor and assess ***attractiveness of artists*** in local, regional, national and/or international markets 17. Collaboratively develop self-image of artists in line with realistic promotional opportunities 18. Negotiate performance opportunities and organise tours within context of ***financial risk analysis parameters*** and artists' commitment timeframes

Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE
This section describes the skills and knowledge required for this unit.
Required skills
• research skills sufficient to identify market opportunities for artists

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

REQUIRED SKILLS AND KNOWLEDGE

- literacy skills sufficient to prepare project proposals and promotional materials
- numeracy skills sufficient to develop structuredfunding plans
- communication skills sufficient to:
  - advise artists on industrial relations, OHS and financial issues
  - advise artists on the commercial feasibility oftheir repertoire
  - maintain comprehensive business networks to promoteartists' careers
  - mentor and counsel artistseffectively, ethically, sensitively and tactfully
  - negotiateperformance and publicity opportunities on behalf of artists
- critical-thinking skills sufficient to:
  - evaluatebusiness deals to determine alignment with own and artists' interests
  - maintain compliance with contractualarrangements
- initiative and enterprise skills sufficient to develop and nurture talent in the interest of artists and the intended market
- learning skills sufficient to evaluate own business skills, identify deficits and use opportunities to address deficits
- planning and organisational skills sufficient to:
  - maintain financial records in compliance with legislative requirements
  - manage people and projects
  - plan promotions and promotional campaigns
  - undertake business and financial planning
- problem-solving skills sufficient to identify and plan for factors affectingcompletion of projecttasks within deadlines
- self-management skills sufficient to:
  - continuously assess own leadership and teamwork skills against the professional and career development of managed artists
  - set priorities to achieve realisable short and long-term goals
- teamwork skills sufficient to work collaboratively with artists
- technical skills sufficient to use industry-current accounting, bookkeeping, financial and/or spreadsheet software

Required knowledge

- accounting, bookkeeping and recordkeeping as they apply to artist management
- career and professional development issuesfacing creative artists
- legislation relevant to performers and artist managers, such as:
  - Copyright Act 1968 as it relates to licensing, publishing, rights and royalties
  - Copyright Amendment (Digital Agenda) Act 2000
  - state-specific legislation where applicable, e.g. NSW Entertainment Industry Act
- markets and revenue structures in the industry
- rights and obligations of creative artists

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

REQUIRED SKILLS AND KNOWLEDGE
• role and functions of national and international industry associations, including copyright, licensing and collection agencies • issues and challenges that typically arise in the context of managing artists and their careers • typical features, requirements and terminology used incontractual arrangements

Evidence Guide

EVIDENCE GUIDE	
The Evidence Guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, range statement and the Assessment Guidelines for the Training Package.	
Overview of assessment	
Critical aspects for assessment and evidence required to demonstrate competency in this unit	Evidence of the ability to: • effectively mentor artists • manage artists and their careers • negotiate effectively for and with clients • promote artists in current music markets.
Context of and specific resources for assessment	Assessment must ensure: • access to appropriate accounting, bookkeeping, financial and/or spreadsheet software • access to appropriate technology to design and develop promotional materials • access to appropriate technology to research the market position of artists • access to artists and their markets • use of culturally appropriate processes, and techniques appropriate to the language and literacy capacity of learners and the work being performed.
Method of assessment	The following assessment methods are appropriate for this unit: • case studies to assess ability to manage artists and their careers • direct observation of candidate promoting artists to target markets and negotiating for and with clients • written or oral questioning to assess knowledge of artist management and mentoring

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

EVIDENCE GUIDE	
	• problem-solving activities to assess ability to develop business plans and strategies.
Guidance information for assessment	Holistic assessment with other units relevant to the industry sector, workplace and job role is recommended.

Range Statement

RANGE STATEMENT	
The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording, if used in the performance criteria, is detailed below. Essential operating conditions that may be present with training and assessment (depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts) may also be included.	

Contractual relationship may include:	• confidentiality, impartiality and personal limits
	• exclusivity or co-management, and relative status expected in commercial opportunities
	• powers and limitations
	• proportional ownership/allocation of copyright
	• remuneration:
	  • equal share of net profits, e.g. manager as group member (performing/non-performing), business partner or shareholder
	  • commissioned or contracted on non-salaried contingency basis, e.g. management agency
	• individual/collective rights and responsibilities
	• scope:
	  • advertising, promotion and publicity
	  • business management, including:
	  • accounting and banking arrangements
	  • bookkeeping
	  • consultative advice, including:
	  • career
	  • copyright
	  • financial
	  • industrial

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT	
	• OHS • remuneration • procuring and administering contracts, e.g.Â publishing, recording and sponsorship • procuring and administering engagements, e.g.Â bookings, merchandising, performances and tours • term and territory.
Career plans may include:	• current and comprehensive industry contact list • journal of achievements and skill development • creative/artistic inventory • business inventory for the artist • local and regional support networks • proposed artistic and business development goals • proposed career goals, outcomes and pathways • self-assessment of current and required skills, knowledge and personal attributes • self-assessment of life and work values • timeline and action plan for achieving career goals • timeline and action plan for developing necessary skills and industry networks.
Communication processes may include:	• distribution of information to all parties (for confirmation or revision) under regular or contingency circumstances via: • email • facsimile • group briefing/meeting • hand-delivery, e.g. courier or in person • postal • short message service (SMS) • telephone, including landline and mobile.
Copyright advice may include:	• assignment and licensing of copyright • copyright for compositions, sound recordings and published editions • functions of industry associations, including: • Australasian Music Publishers Association (AMPAL) • Australasian Performing Rights Association

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT	
	(APRA) • Australian Copyright Council (ACC) • Australasian Mechanical Copyright Owners Society (AMCOS) • Australian Recording Industry Association (ARIA) • performing, mechanical and synchronisation rights • procedures that need to be undertaken to show proof of ownership of composed work • royalty and intellectual property rights.
Financial plan may include:	• financial administration responsibilities, including: • calculation and payment of commissions • creditors and debtors • insurance • investments • maintenance of bank accounts • payment of expenses, including provision of receipts for all reimbursable expenses • petty cash • superannuation • taxation • wages and other remunerations • maintenance of asset register, e.g. equipment owned by artists.
Attractiveness of artists may include:	• artists' musical culture, image and stage names • characteristics of artists' live and recorded sound • current and predicted popularity, professionalism, status and standard of artists • past, current and predicted collaborations with other artists • popularity of artists' style, genre and repertoire with intended audience demographic • projected personality of artists, e.g. media or stage • recent successes of artists, e.g. broadcast, media, performing or recording.
Financial risk analysis	• balancing expectations and preferences of audience to style and genre of artist

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT	
parameters may include:	• balancing expected revenue against estimated costs • balancing market appeal of artist to intended audience demographic • bases for assumptions regarding sources and amounts of income • strategies for changed income conditions • strategies for managing artist when income expectations are exceeded • strategies for managing artist when income expectations are not met.

CUSMGT503A Develop artists and repertoire

Modification History

Not applicable.

Unit Descriptor

Unit descriptor	This unit describes the performance outcomes, skills and knowledge required to find and develop artists and their repertoire. No licensing, legislative, regulatory or certification requirements apply to this unit at the time of endorsement.

Application of the Unit

Application of the unit	This unit applies to the development of artists and their repertoire, which involves finding new talent (artists) and administering the recording of their work (repertoire). This role would typically be undertaken by an artist and repertoire (A&R) manager, representative or scout, in line with company policy for live performance and/or recording projects. Successful A&R managers are able to foresee and capitalise on the commercial potential of new and emerging artists, trends, styles and genres of music.

Licensing/Regulatory Information

Pre-Requisites

Prerequisite units		

Employability Skills Information

Employability skills	This unit contains employability skills.

Elements and Performance Criteria Pre-Content

Elements describe the essential outcomes of a unit of competency.	Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the required skills and knowledge section and the range statement. Assessment of performance is to be consistent with the evidence guide.

Elements and Performance Criteria

ELEMENT	**PERFORMANCE CRITERIA**
Monitor new and emerging musical trends	1. Listen critically to a broad range of music to assess commercial potential of new and emerging trends 2. Monitor and assess commercial potential of new and emerging trends via ***information sources*** 3. Develop and maintain strategic relationships with a broad range of known and new ***industry contacts*** 4. Exploit information sources to predict and influence current and future ***music market trends*** and make judgements as to the marketability of new ***artists***
Find and develop new musical talent	5. Analyse, plan and balance artistic and commercial risk in the selection of new artists 6. Assess current audience response to new artists and calculate potential audience response in a variety of performance situations

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

ELEMENT	PERFORMANCE CRITERIA
	7. Discuss potential music market trends and product development with artists and artists' managers 8. Assign artists to appropriate producers and ensure recording approach complements artists' repertoire 9. Mentor artists in a supportive manner to optimise their ***artistic and commercial development***
Facilitate agreements with artists	10. Provide ***company*** with realistic view of artists' potential and proposed approach to artistic and commercial development 11. Advise artists about obtaining legal advice with regard to negotiating contracts 12. Monitor the process of drafting agreements between artists and company and facilitate process as required 13. Document agreements, distribute to all parties and ensure negotiations are kept within budget
Monitor progress of artists' agreements	14. Monitor level of income generated from sales of artists' recordings 15. Provide reports to management on commercial viability of artists as required 16. Anticipate any agreements that are likely to lead to a loss for the company and recommend appropriate action

Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This section describes the skills and knowledge required for this unit.

Required skills

- research skills sufficient to identify the commercial potential of current and future music market trends
- literacy skills sufficient to read and interpret a wide variety of music media
- numeracy skills sufficient to ensure negotiated agreements are kept within budget
- communication skills sufficient to:
  - advocate and promoteideas and new talent
  - develop comprehensive industry networks
  - listen critically to and suggest appropriate repertoire for artists
  - mentor and counsel artistseffectively, ethically, patiently and sensitively
- critical-thinking skills sufficient to applyconfidence, insight and foresight in the

REQUIRED SKILLS AND KNOWLEDGE
evaluation of new and emerging talent • initiative and enterprise skills sufficient to assess the marketability of new and emerging talent • learning skills sufficient to evaluate and improve own negotiation skills • planning and organisational skills sufficient to align and connect artists and producers • problem-solving skills sufficient to identify and resolve issues arising from agreements between artists and the record company • self-management skills sufficient to set priorities and use time-management strategies • teamwork skills sufficient to work collaboratively with artists • technical skills sufficient to access music downloads, websites and blogs
Required knowledge

• appreciation of artists and record producers and their work
• music knowledge, including:
  • genres
  • styles
  • repertoires
  • song structures
• approaches to critical listening
• typical formats and content of agreements between artists and record companies
• copyright legislation as it relates to licensing, publishing, rights and royalties:
  • Copyright Act 1968
  • Copyright Amendment (Digital Agenda) Act 2000
• local, regional, national and international music scenes and trends
• markets and revenue structures in the music industry
• role and functions of national and international music industry associations
• talent development from a management and artistic perspective
• issues and challenges that typically arise in the context of developing artists and repertoire

Evidence Guide

EVIDENCE GUIDE
The Evidence Guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, range statement and the Assessment Guidelines for the Training Package.

Range Statement

RANGE STATEMENT	
The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording, if used in the performance criteria, is detailed below. Essential operating conditions that may be present with training and assessment (depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts) may also be included.	

Information sources may include:	• current industry personnel and practitioners
	• music charts, including:
	  • internet
	  • radio
	  • television
	• music downloads, websites and blogs
	• music industry associations
	• music media, including:
	  • articles
	  • bulletins
	  • directories
	  • information sheets
	  • journals
	  • magazines
	  • newsletters
	  • reviews
	  • subscriptions
	  • trade papers
	• music productions and events, including:
	  • awards
	  • competitions
	  • conferences
	  • conventions
	  • exhibitions
	  • festivals
	  • functions
	  • performances
	  • trade fairs
	• solicited and unsolicited recordings
	• suppliers of products and services.

RANGE STATEMENT	

Industry contacts may include:	• artists
	• artists' agencies, including:
	  • booking agents
	  • managers
	  • promoters
	  • tour managers
	• education and training organisations
	• entrepreneurs
	• freelance producers
	• legal counsel and accountants
	• music distributors
	• music industry associations
	• music industry media and journalists
	• music manufacturers
	• music merchandisers
	• music producers
	• music publishers
	• music wholesalers and retailers
	• radio presenters
	• record producers
	• recording engineers
	• studio/venue managers
	• technical crew, including:
	  • front-of-house
	  • lighting
	  • sound
	  • staging
	  • vision systems.

Music market trends may involve:	• growth areas of audience interest and commitment • local, national and overseas trends • specialist niche markets • specific genre or product styles • targeted markets.
Artists may include:	• arrangers • composers • group collaborators • lyricists • performers

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT	
	• songwriters • writers.

Artistic and commercial development may include:	• balancing personal and artistic integrity with commercial reality and reward
	• capacity and willingness to develop, evaluate and continuously update:
	  • artistic talent
	  • collaboration options with other artists
	  • marketable image
	  • performance standards
	  • repertoire
	  • style and genre
	  • technical ability
	• determination and will to succeed.

Company may include:	• promotional • record • touring • digital distribution.

ELEMENT	PERFORMANCE CRITERIA
	revisions to promotional strategies as required 12. Respond appropriately to constructive feedback on own work performance from relevant personnel

Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE
This section describes the skills and knowledge required for this unit.
Required skills

• communication and teamwork skills sufficient to:
  • interpret and clarify written and verbal instructions
  • work collaboratively in a team environment - both independently on assignment and under direction
  • respond positively to constructive feedback
• organisational skills sufficient to:
  • collect and review information on a given topic
  • maintain filing and information retrieval systems
• literacy skills sufficient to:
  • interpret written background information
  • write notes on information gathered verbally
• self-management and planning skills sufficient to:
  • prioritise work tasks
  • source information and reference material in a timely fashion
  • work under pressure and meet deadlines
  • seek expert assistance when problems arise
• technical skills sufficient to:
  • use the internet to access information
  • use standard word-processing and database applications

Required knowledge

• industry knowledge, including:
  • roles and responsibilities of industry personneland agencies
  • industry terminology
  • issues and challenges that arise in the context of assisting with the promotion of creative acts
• copyright clearance procedures

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

REQUIRED SKILLS AND KNOWLEDGE
• OHS as it relates to working for periods of time on computers

Evidence Guide

EVIDENCE GUIDE	
The Evidence Guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, range statement and the Assessment Guidelines for the Training Package.	
Overview of assessment	
Critical aspects for assessment and evidence required to demonstrate competency in this unit	Evidence of the ability to: • assist with promotional activities for an artist or creative act • maintain a database of industry contacts • work cooperatively in a team environment.
Context of and specific resources for assessment	Assessment must ensure: • access to an environment where promotional activities are undertaken • access to artists and music industry personnel • use of culturally appropriate processes, and techniques appropriate to the language and literacy capacity of the candidate and the work being performed.
Method of assessment	The following assessment methods are appropriate for this unit: • written or oral questioning to test knowledge as listed in the required knowledge section of this unit • case studies to assess candidate's ability to address issues and challenges that arise in the context of assisting with the promotion of creative acts • direct observation of candidate maintaining a database of industry contacts.
Guidance information for assessment	Holistic assessment with other units relevant to the industry sector, workplace and job role is recommended.

Employability Skills Information

Employability skills	This unit contains employability skills.

Elements and Performance Criteria Pre-Content

Elements describe the essential outcomes of a unit of competency.	Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the required skills and knowledge section and the range statement. Assessment of performance is to be consistent with the evidence guide.

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
Develop promotional strategies	1. In collaboration with ***relevant personnel***, match ***aspects*** of ***artists*** and creative acts with potential target markets 2. Undertake appropriate ***risk analysis*** in relation to the promotional viability of artists 3. Identify ***activities*** that could be included in promotional ***strategies*** 4. Investigate the potential of all ***media outlets*** for promoting artists and creative acts 5. Document, discuss and revise promotional strategies as required
Promote creative acts	6. Facilitate the development and distribution of ***promotional material*** to advance profile of artists 7. Ensure promotional materials are developed in line with ***design principles*** that reflect artists' image and meet target market needs 8. Use testing and sampling strategies to determine the response of target markets to promotional materials 9. Create publicity opportunities for artists and ***capture*** them for future use
Develop promotional	10. Continually monitor ***sources*** of information to develop

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

ELEMENT	PERFORMANCE CRITERIA
networks	and maintain ***industry knowledge*** 11. Develop and maintain strategic relationships with a broad range of ***industry contacts*** 12. ***Deal*** effectively with the media
Review promotional strategies	13. Assess the impact and effectiveness of promotional activities 14. Analyse costs and timelines to evaluate benefits arising from promotional activities 15. In consultation with relevant personnel revise promotional strategies as required

Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This section describes the skills and knowledge required for this unit.

Required skills

- research skills sufficient to access reliable information on the promotional viability of artists and artistic works
- literacy skills sufficient to read and interpret promotional materials
- numeracy skills sufficient to balance expenditure of promotional services and materials against allocated budgets
- communication skills sufficient to:
  - gather and exploit strategic advice from industry contacts
  - apply active listening, questioning and non-verbal communication techniques in day-to-day dealings with people
- critical-thinking skills sufficient to:
  - test and compare different media options for promotional activities
  - undertake a risk analysis into the promotional viability of artists
- initiative and enterprise skills sufficient to adjust artistic image in line with feedback
- planning and organisational skills sufficient to create, use and exploit media opportunities to promote artists
- problem-solving skills sufficient to manage contingencies in promotional activities
- self-management skills sufficient to:
  - set priorities and apply time-management strategies
  - work within established budgets and timeframes
- teamwork skills sufficient to work constructively with others

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

REQUIRED SKILLS AND KNOWLEDGE
• technical skills sufficient to use the internet to access information
Required knowledge

• new and emerging trends in relevant industry sector
• planning processes for organising promotional activities
• relevant legislation, regulations and codes of practice, including:
  • advertising, sales and promotion
  • accuracyand clarity of information
  • anti-discrimination, equal employment opportunity and affirmative action
  • copyright and intellectual property
  • ethical standards, privacy and confidentiality
  • OHS
• role and functions of:
  • industry personnel
  • agencies servicing the industry
  • national and international industry associations
• issues and challenges that typically arise in the context of managing the promotion of creative acts

Evidence Guide

EVIDENCE GUIDE	
The Evidence Guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, range statement and the Assessment Guidelines for the Training Package.	
Overview of assessment	
Critical aspects for assessment and evidence required to demonstrate competency in this unit	Evidence of the ability to: • develop viable promotional strategies for an artist or creative act • promote the artist or creative act in line with promotional strategies • develop and maintain a network of contacts for promotional purposes.
Context of and specific resources for assessment	Assessment must ensure: • access to an environment where promotional activities can be actively and safely facilitated

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

EVIDENCE GUIDE	
	• access to artists and industry contacts • use of culturally appropriate processes, and techniques appropriate to the language and literacy capacity of the candidate and the work being performed.
Method of assessment	The following assessment methods are appropriate for this unit: • case studies to assess candidate's ability to communicate effectively within a range of promotional situations • direct observation of candidate promoting creative acts • written or oral questioning to assess knowledge of testing and sampling strategies • problem-solving activities to assess ability to manage contingencies in promotional activities.
Guidance information for assessment	Holistic assessment with other units relevant to the industry sector, workplace and job role is recommended.

Range Statement

RANGE STATEMENT	
The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording, if used in the performance criteria, is detailed below. Essential operating conditions that may be present with training and assessment (depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts) may also be included.	

Relevant personnel may include:	• artists and performers
	• artist managers
	• publishers
	• advertising agencies
	• public relations companies
	• media personnel, such as:
	  • broadcasters
	  • critics
	  • journalists
	• digital distributors/aggregators.

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT	

Aspects of creative acts may include:	• artists' culture, image and stage name
	• artwork associated with performances and recordings
	• characteristics of artists' live and recorded sound
	• current and predicted popularity, professionalism, status and standard of artists
	• past, current and predicted collaborations with other artists
	• popularity of artists' style, genre and repertoire with intended audience demographic, including:
	  • age
	  • artistic preferences
	  • competing interests
	  • cultural affiliations
	  • disposable income
	  • loyalty
	  • predicted spending patterns
	• projected personality of artists, e.g. media or stage
	• recent successes of artists, including:
	  • radio
	  • television
	  • online
	  • live performances
	  • recordings.

Artists may include:	• arrangers
	• composers
	• songwriters
	• performers:
	  • musicians
	  • singers
	  • dancers
	  • actors
	  • circus performers
	• writers
	• visual artists
	• craftspeople
	• designers.

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT	
Risk analysis may involve:	• balancing artistic returns with promotional costs • balancing average bar tab per head of audience from recent performances with anticipated audience numbers for future performances • balancing expectations and preferences of audience to style, genre and repertoire of artist • balancing market appeal of artist with anticipated audience loyalty • balancing ticket prices with predicted spending patterns of intended audience demographic • mitigating non-attendance of audience, artists and/or promotional staff.

Activities may include:	• advertisements
	• attention-seeking gimmicks
	• competitions
	• industry functions
	• internet broadcasts
	• live performances:
	  • auditions
	  • festival appearances
	  • headline acts
	  • supporting acts
	• media announcements and interviews
	• podcasts
	• product launches, e.g. artist websites
	• radio broadcasts
	• television appearances.

Strategies may be for:	• live events
	• print media
	• online:
	  • artists' own websites
	  • social networking sites
	  • digital distribution agents
	• radio
	• television.

Media outlets may include:	• print • television • radio • internet:

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT	
	• artists' websites • broadcast email lists • YouTube • Facebook • MySpace • blogs • digital communication devices, e.g. mobile phones.
Promotional materials may include:	• artist profiles, e.g. biographical and professional • artist websites • print, such as: • banners • brochures • business cards • flyers • handbills • pamphlets • posters • stickers • demonstration recordings: • digital downloads • filmed performances • interactive media products, e.g. podcast • music recording and/or videos, e.g. CD and DVD • media kits • novelty giveaways • photographs • portfolios • presentations • press releases • prototypes • publicity shots • reviews • scores • T-shirts.
Design principles may include:	• accuracy • brevity

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT	

	• conciseness
	• amusing
	• attractive and well presented
	• clearly reflective of genre and musical culture of artist
	• convincing
	• creative
	• easy to read
	• media readiness, such as:
	  • clarity of photographs
	  • quality of recordings
	  • resolution of digital images
	• visually interesting.

Capturing publicity opportunities may include:	• filming • audio recording • photographing.

Sources may include:	• discussions with industry personnel and promotional consultants
	• music charts, including:
	  • internet
	  • radio
	  • television
	  • print
	• music downloads, websites and blogs
	• industry associations
	• media, including:
	  • articles
	  • bulletins
	  • directories
	  • information sheets
	  • journals
	  • magazines
	  • newsletters
	  • reviews
	  • subscriptions
	  • trade papers
	• industry productions and events, including:
	  • awards
	  • competitions

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT	
	• conferences • conventions • exhibitions • festivals • functions • performances • trade fairs • suppliers of products and services.
Industry knowledge may relate to:	• business trends: • 360 degree business model • all rights under one deal • passive rights deal • distributed patronage • new and emerging distribution systems • new forms of marketing, branding and product placement • alliances with allied technologies and businesses • revenue structures • opportunities for increased airplay of music through: • digital radio • digital television • mobile phones • internet • advances in software applications • new terminology • social, political and environmental developments • changing nature of work, including: • occupations that are disappearing and how they are being replaced • changes to the mix of skills and knowledge required in different areas of the industry.
Industry contacts may include:	• artist and repertoire (A&R) managers • artist managers • artists • booking agents • education and training organisations

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT	

	• entrepreneurs
	• legal counsel and accountants
	• digital distributors/aggregators
	• industry associations
	• journalists
	• producers
	• promoters
	• publishers
	• wholesalers and retailers
	• radio presenters
	• record producers
	• recording engineers
	• studio/venue managers
	• production personnel, such as:
	  • front-of-house
	  • lighting
	  • sound
	  • staging
	  • vision systems
	• tour managers.

Dealing effectively with the media may involve:	• ensuring that the message conveyed in media interviews promotes the artists' image
	• maximising media opportunities for artists
	• techniques for responding to and prompting different types of questions, such as:
	  • clarifying
	  • basic questions of the 'what', 'who', 'where', 'why' and 'how' variety
	  • closed or open-ended
	  • hypothetical
	  • leading.

Employability skills	This unit contains employability skills.

Elements and Performance Criteria Pre-Content

Elements describe the essential outcomes of a unit of competency.	Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the required skills and knowledge section and the range statement. Assessment of performance is to be consistent with the evidence guide.

Elements and Performance Criteria

ELEMENT	**PERFORMANCE CRITERIA**
Identify and differentiate a range of musical styles	1. Actively listen to a range of recorded and live music performances in selected ***musical styles*** and discuss with ***appropriate people*** 2. Compare a range of musical styles using appropriate listening skills, musical terminology and ***information sources*** 3. Identify the repertoire of a range of musical styles using appropriate information sources and discuss with appropriate people
Develop musical ideas	4. Listen to and identify musical ideas in a range of musical styles 5. Seek information on the ***context*** of musical ideas in one or more musical styles using appropriate information sources 6. Identify and develop own musical ideas and discuss with appropriate people 7. Apply musical ideas to own developing area of music

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

ELEMENT	PERFORMANCE CRITERIA
	practice and share with appropriate people
Update and maintain music knowledge	8. Identify and use a range of opportunities to develop ***music knowledge***, ideas and listening skills 9. Maintain currency of own music knowledge using appropriate information sources 10. Check the credibility and reliability of information sources with appropriate people 11. Apply music knowledge to day-to-day activities to enhance quality of work performance

Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This section describes the skills and knowledge required for this unit.

Required skills

- communication skills sufficient to share information with colleagues and peers
- research skills sufficient to locate and use relevant sources of information
- literacy skills sufficient to read and understand relevant sources of information
- planning and organisational skills sufficient to update, maintain and store information
- technology skills sufficient to access/download information

Required knowledge

- basic understanding of:
  - analytical and critical-listening skills
  - instruments used within selected musical styles
  - music history and terminology in selected musical styles
  - musical ideas expressed in selected musical styles
  - music structures, styles and forms
  - relationships between composers, performers, producers, recording engineers, critics and audiences in selected musical styles
  - technology used to produce and enhance music
  - work/background of successful composers, performers and producers in selected musical styles

EVIDENCE GUIDE	
The Evidence Guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, range statement and the Assessment Guidelines for the Training Package.	
Overview of assessment	
Critical aspects for assessment and evidence required to demonstrate competency in this unit	Evidence of the ability to: • apply information on, and ideas about, musical styles to day-to-day work activities • check credibility and reliability of information • maintain currency of information • source information on musical styles.
Context of and specific resources for assessment	Assessment must ensure: • access to a range of relevant and current information sources, including recorded music in a range of styles and genres • access to an environment where live music in a range of styles and genres can be actively and safely experienced • access to an environment where musical ideas can be safely expressed • access to appropriate technology to collect, download and store information • use of culturally appropriate processes, and techniques appropriate to the language and literacy capacity of the candidate and the work being performed.
Method of assessment	The following assessment methods are appropriate for this unit: • case studies to assess ability to apply collected information to day-to-day work activities • direct observation of the candidate expressing own musical ideas • direct observation of the candidate listening to and distinguishing selected musical styles and ideas • written or oral questioning to assess knowledge of selected musical styles.
Guidance information for assessment	Holistic assessment with other units relevant to the industry sector, workplace and job role is recommended.

Range Statement

RANGE STATEMENT	
The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording, if used in the performance criteria, is detailed below. Essential operating conditions that may be present with training and assessment (depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts) may also be included.	
Musical styles may include:	• classical/concert • contemporary/art • ethnic/traditional • folk • indigenous • jazz • music theatre • popular/commercial • rock • world.
Appropriate people may include:	• agents and artist managers • artists, composers, musicians and performers • colleagues and peers • copyright and legal representatives • current industry practitioners • employee association and union representatives • industry and industry association representatives • information professionals • legal representatives • mentors • musical directors • professionals from allied areas • record producers • sound technicians.

Information sources may include:	• attending music events, such as:
	  • conferences
	  • conventions
	  • festivals
	  • functions

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT	
	• performances • trade fairs • chord charts, play lists and sheet music • discussions with current industry practitioners • educational activities, such as: • master classes • seminars • symposiums • training programs • workshops • electronic and print media, such as: • articles • journals • magazines • news • reviews • subscriptions • government departments and publications • industry associations and organisations • industry publications, such as: • information sheets • reference books • technical publications • manuals • internet • libraries and archives, including text, film, video, sound, graphic and media • musical competitions and awards • peak copyright organisations • personal observations and experience.
Context may include:	• biographical information, such as: • composers • musicians • performers • record producers • sound technicians • cultural • economic • historical

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT	
	• political • social • theoretical.
Music knowledge may include:	• acoustic and electronic protocols • chord patterns and keys • chord and melodic formulae • dynamics and volume • instrumental and/or vocal styles • instruments and tuning • music conventions • music history • music marketability, e.g. commercial feasibility • musical notation • music structures, styles and forms • musical terminology • performance styles and customs • repertoire and instrument knowledge • scales, melody and themes • simple music analyses • solo and ensemble protocols • texture and tone colours.

CUSMLT202A Apply knowledge of music culture to music making

Modification History

Not applicable.

Unit Descriptor

Unit descriptor	This unit describes the performance outcomes, skills and knowledge required to explore aspects of music culture in Australian society and apply the information obtained to own music making. No licensing, legislative, regulatory or certification requirements apply to this unit at the time of endorsement.

Application of the Unit

Application of the unit	This unit applies to people entering the music industry who need to collect, apply and update general information relevant to a selected musical style in Australian society. The skills and knowledge outlined in this unit can be applied in any music-making context since they relate to identifying positive values in a selected musical style, as well as the repertoire, challenges and technology relevant to that style. This work is undertaken under close supervision and guidance.

Licensing/Regulatory Information

Not applicable.

Elements and Performance Criteria Pre-Content

Elements describe the essential outcomes of a unit of competency.	Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the required skills and knowledge section and the range statement. Assessment of performance is to be consistent with the evidence guide.

Elements and Performance Criteria

ELEMENT	**PERFORMANCE CRITERIA**
Apply information on the contexts of musical styles	1. Seek information on the ***context*** of one or more ***musical styles*** using appropriate ***information sources*** 2. Identify positive ***values*** in one or more musical styles using appropriate information sources 3. Check the credibility and reliability of information sources with ***appropriate people*** 4. Comply with copyright and cultural requirements when accessing information 5. Apply information on musical styles to own music making
Maintain currency of own knowledge of music culture in Australian	6. Identify the repertoire of one or more musical styles in Australian society 7. Seek information on the use of ***technology*** in one or

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

ELEMENT	PERFORMANCE CRITERIA
society	more musical styles in Australian society 8. Identify the ***challenges*** faced by musicians working in one or more musical styles in Australian society 9. Seek information on the way in which one or more musical styles is/are portrayed in the media 10. Seek information on further training and educational opportunities in one or more musical styles in Australian society
Update and maintain information sources	11. Update information sources on a regular basis 12. Monitor changes in the use of technology 13. Store information in an easily accessible format 14. Share information with colleagues and peers 15. Apply information on music culture to own music making

Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This section describes the skills and knowledge required for this unit.

Required skills

- communication skills sufficient to share information with colleagues and peers
- research skills sufficient to locate and use relevant sources of information
- literacy skills sufficient to read and understand relevant sources of information
- planning and organisational skills sufficient to update, maintain and store information
- technology skills sufficient to access and download information from the internet

Required knowledge

- basic understanding of:
  - relationships between composers, performers, producers, recording artists, songwriters, recording engineers, critics and audiences
  - social, cultural, historical and economic significance of a selected musical style in Australian society
  - technology used for producing and enhancing music in a selected musical style in Australian society
  - ways in which music is part of the culture of Australian society

RANGE STATEMENT	
wording, if used in the performance criteria, is detailed below. Essential operating conditions that may be present with training and assessment (depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts) may also be included.	
Context may include:	• cultural significance • economic significance • historical significance • social significance.
Musical styles may include:	• classical/concert • contemporary/art • ethnic/traditional • folk • indigenous • jazz • popular/commercial • rock • world.
Information sources may include:	• archives • community organisations • discussions with current industry practitioners • government departments • industry associations and organisations • industry journals • internet • libraries • media archives • print and electronic media • museums and galleries • organisational policies and procedures • personal observations and experience • professional organisations • reference books • technical publications and manuals.
Values may include:	• communicating cultural heritage and social change • encouraging and engaging creative thought and action • enhancing physical and mental states • enhancing relaxation and leisure time • improving concentration

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT	
	• arousing patriotism and nostalgia.
Appropriate people may include:	• agents, artists' managers and industry managers • content experts • copyright representatives • current industry practitioners • employee association and union representatives • industry and industry association representatives • information professionals, e.g. libraries and museums • legal representatives.

Technology may include:	• camera and projection equipment
	• computer technology
	• music production software and hardware
	• musical equipment and instruments
	• sound-editing software and hardware
	• sound-recording software and hardware
	• sound reinforcement equipment, such as:
	  • microphones
	  • amplifiers
	  • speakers
	  • mixers
	  • consoles
	  • cabling
	• sound transmission and the internet
	• video editing software and hardware.

Challenges may include:	• audience perceptions and expectations
	• changing nature of the marketplace, including marketing and production of products and services
	• communicating with industry practitioners
	• feasibility and success in commercial markets
	• impact of the media:
	  • perceptions and expectations of music journalists
	  • positive and negative bias in media reports
	  • shaping and reflecting contemporary culture
	  • treatment of cultural values in media reports.

Elements and Performance Criteria Pre-Content

Elements describe the essential outcomes of a unit of competency.	Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the required skills and knowledge section and the range statement. Assessment of performance is to be consistent with the evidence guide.

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
Maintain and develop music knowledge	1. Monitor relevant ***sources of industry information*** based on areas of interest, work and learning 2. In consultation with ***appropriate personnel***, develop strategies to review and maintain knowledge of selected musical styles, artists and repertoire 3. Analyse music for its artistic and commercial qualities and features 4. Develop the capacity to analyse music artists, repertoire and trends through discussion of music performances
Use listening skills to analyse music	5. In consultation with appropriate personnel, determine relevant ***music areas*** for development of ***critical-listening*** skills 6. Apply critical-listening skills to live and recorded music within identified music industry contexts 7. Listen critically to identified artists and repertoire and measure actual performance against artistic and/or commercial standards and potential 8. Listen to, analyse and evaluate the contribution of technical and sound production to the success of live and recorded music products
Maintain understanding of relevant musical genres and styles	9. Identify and use sources of information relating to selected musical genres and styles 10. Research contemporary and/or historical artists and repertoire to inform own work and learning 11. Use knowledge of styles, artists and repertoire to contribute to own musical development 12. Apply ***music knowledge*** to own music practice

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This section describes the skills and knowledge required for this unit.

Required skills

- communication and teamwork skills sufficient to:
  - read and understand relevant sources of information
  - communicate effectively with artists, technicians and others in the music industry
  - match repertoire with target, potential or existing audiences
- listening skills in the context of:
  - recognising conventions of intonation, dynamics, phrasing, rhythm and expression in identified musical styles
  - listening critically to music
- planning and organisational skills sufficient to:
  - set work goals
  - gather information onmusicalstyles and genres
- self-management skills sufficient to:
  - work to personal goals
  - seek expert assistance when problems arise
- learning skills in the context of developing knowledge of musical styles and genres
- initiative and enterprise skills in the context of using critical-listening skills to make informed judgements about music

Required knowledge

- industry knowledge, including:
  - processes of music production and presentation
  - appropriate musical terminology
  - work of successful musicians, musical directors and/or record producers in identified musical styles or genres
  - music history in identified areas of practice, styles or genres
  - cultural protocols appropriate to identified musical styles and genres
- music craft:
  - genres and their conventions in performance
  - basic awareness of chords and scales, forms, textures or other elements of musical organisation relevant to identified styles

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

Evidence Guide

EVIDENCE GUIDE	
The Evidence Guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, range statement and the Assessment Guidelines for the Training Package.	
Overview of assessment	
Critical aspects for assessment and evidence required to demonstrate competency in this unit	Evidence of the ability to: • maintain and apply current music knowledge to own work and learning • develop analytical, reflective and communication skills • differentiate music styles and genres • apply critical-listening skills.
Context of and specific resources for assessment	Assessment must ensure: • access to a range of current music industry information • access to a range of music for the development and application of critical-listening skills • use of culturally appropriate processes, and techniques appropriate to the language and literacy capacity of learners and the work being performed.
Method of assessment	The following assessment methods are appropriate for this unit: • written or oral questioning on plans for developing music knowledge • oral/aural test in the nominated area of specialisation • authenticated samples of relevant work achievements • authenticated details of achievement in relevant courses or training sessions • case studies and scenarios as a basis for discussion of the application of music analysis and knowledge to a variety of work contexts • written or oral questioning or interview to test knowledge as listed in the required knowledge section of this unit.
Guidance information for assessment	Holistic assessment with other units relevant to the industry sector, workplace and job role is recommended, for example: • CUSMLT302A Develop and apply aural-perception

EVIDENCE GUIDE	
	skills • CUSMPF301A Develop technical skills in performance.

Range Statement

RANGE STATEMENT	
The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording, if used in the performance criteria, is detailed below. Essential operating conditions that may be present with training and assessment (depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts) may also be included.	

Sources of industry information may include:	• music performances and recordings
	• music collectives
	• funding bodies
	• music performance venues
	• community organisations
	• friends, family, work colleagues and peers
	• industry practitioners
	• online databases
	• media archives
	• printed references and texts, e.g. books and journals
	• other media sources, such as:
	  • radio
	  • television
	  • DVDs
	  • videos
	  • educational institutions
	  • libraries.

Appropriate personnel may be:	• teachers • mentors • arrangers • composers • music editors • musicians • bandleaders

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT	
	• music conductors • choir leaders.
Music areas may include:	• any contemporary popular musical style or genre • European classical music forms • jazz • world music • country music • folk music forms.
Critical listening may be applied to:	• instruments and their combinations • keys, scales and chords in tonal or other relevant music systems • instrument tuning • aural imagination or music innovation • music systems and practices • excellence in music products or events • commercial potential and feasibility of artists, repertoire and music products • impact of music technologies for live and recorded sound production.
Music knowledge may involve knowledge of:	• artists • styles and genres • repertoire • instruments • music history • performance styles and customs • musical forms, systems, practices and customs • music conventions in identified styles • basic chord and melodic formulae • sound production and other music technologies.

CUSMLT302A Develop and apply aural-perception skills

Modification History

Not applicable.

Unit Descriptor

Unit descriptor	This unit describes the performance outcomes, skills and knowledge required to aurally recognise simple structures and components of music and to discuss these with peers and other industry personnel. No licensing, legislative, regulatory or certification requirements apply to this unit at the time of endorsement.

Application of the Unit

Application of the unit	People preparing to enter the music industry as musicians, songwriters, composers or arrangers, apply the skills and knowledge outlined in this unit. Basic musicianship skills can be applied in a range of contexts, for example, transcribing live or recorded music and assisting with the preparation of charts and other forms of notated music. The application of more complex aural-perception skills is covered in: • CUSMLT501A Refine aural-perception skills.

Licensing/Regulatory Information

Pre-Requisites

Prerequisite units	

Employability Skills Information

Employability skills	This unit contains employability skills.

Elements and Performance Criteria Pre-Content

Elements describe the essential outcomes of a unit of competency.	Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the required skills and knowledge section and the range statement. Assessment of performance is to be consistent with the evidence guide.

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
Identify areas for aural skill development	1. In consultation with ***appropriate personnel***, plan development of aural-perception skills 2. Investigate the ***uses*** of aural-perception and recognition skills 3. Establish the rhythmic, melodic and harmonic ***music structures*** for recognition 4. Nominate ***music genres and styles*** within which the structures are located
Develop methods for the aural recognition of music	5. Examine ***conventions of language and terminology*** connected to relevant music structures 6. Investigate ways of hearing music as well as listening for and naming relevant music structures 7. Investigate ***music-writing conventions*** connected with aural skill development 8. Explore rhythmic, melodic and harmonic structures connected with aural skill development

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

ELEMENT	PERFORMANCE CRITERIA
Practise aural recognition of music	9. Identify aural-recognition requirements through discussion with appropriate personnel 10. Practise and develop the aural recognition of music structures 11. Adhere to conventions of language and terminology
Evaluate progress with the development of aural skills	12. Seek feedback on skill development from appropriate personnel 13. Identify personal strengths and weaknesses as a means of improving own work 14. Evaluate overall effectiveness of learning methods in the development of aural-perception skills.

Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This section describes the skills and knowledge required for this unit.

Required skills

- listening skills in the context of recognising how intervals, chords, scales and chord progressions are used in music to achieve unity and variety
- communication skills sufficient to:
  - read and understand relevant sources of information
  - discuss music in adherence to music conventions
  - seek and respond to feedback on own skill development
- initiative and enterprise skills in the context of recognising music structures and interpreting musical elements
- problem-solving skills sufficient to:
  - troubleshoot difficulties connected with the aural recognition of music
  - plan work tasks in a logical sequence
- planning and organisational skills sufficient to:
  - work to set goals
  - gather information onmusicalstyles,elementsandforms/structures
- self-management skills sufficient to:
  - work to personal goals
  - seek expert assistance when problems arise
- learning skills sufficient to aurally recognise music structures accurately
- technical skills sufficient to accurately analyse:

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

REQUIRED SKILLS AND KNOWLEDGE
• scales • chord sequences and music systems • rhythms • time signatures • beat patterns of musical organisation relevant to specialisation
Required knowledge

• musicianship, including:
  • repertoire relevant to chosen musical specialisation
  • musical protocols and customs for listening to music relevant to chosen music specialisation
  • awareness of genres and styles, and their musical forms and conventions
  • aural recognition and interpretation of chords, scales, melodies, forms, textures or other conventions in music

Evidence Guide

EVIDENCE GUIDE	
The Evidence Guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, range statement and the Assessment Guidelines for the Training Package.	
Overview of assessment	
Critical aspects for assessment and evidence required to demonstrate competency in this unit	Evidence of the ability to: • hear and recognise simple music structures accurately • adhere to the conventions of music language and terminology within selected styles.
Context of and specific resources for assessment	Assessment must ensure: • access to a selection of recorded or performed music for investigation and skill development • use of culturally appropriate processes, and techniques appropriate to the language and literacy capacity of learners and the work being performed.
Method of assessment	The following assessment methods are appropriate for this unit: • direct observation or video recording of the candidate's ability to aurally recognise simple music

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

EVIDENCE GUIDE	
	structures • written or oral questioning or interview to test knowledge as listed in the required knowledge section of this unit and to assess the development of aural-perception skills.
Guidance information for assessment	Holistic assessment with other units relevant to the industry sector, workplace and job role is recommended, for example: • CUSMCP301ACompose simple songs or musical pieces • CUSMCP401A Develop techniques for arranging music • CUSMCP402A Develop techniques for composing music • CUSMLT303A Notate music • CUSMPF410A Perform music from written notation.

Range Statement

RANGE STATEMENT	
The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording, if used in the performance criteria, is detailed below. Essential operating conditions that may be present with training and assessment (depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts) may also be included.	
Appropriate personnel may include:	• teachers • mentors • arrangers • composers • music editors • musicians • bandleaders • music conductors • choir leaders.
Uses of aural-recognition and perception skills may include:	• ability to identify and discuss music components with peers and other industry personnel

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT	
	• capacity to transcribe live or recorded music • appreciation of music subtleties and complexities • development of overall musicianship • assisting in the preparation of charts and other forms of notated music • access to new forms of music.
Music structures may include:	• key signatures • harmonic and melodic structures • grouping of simple rhythmic structures • time signatures, including 2/4, 3/4, 4/4, 5/4, 7/4 3/8, 5/8, 6/8, 7/8, 9/8, 2/2 and 3/2 • note pitch • note duration • accidentals • chords and chord progressions.
Music genres and styles may include:	• classical • jazz • popular music • church • folk • world.
Conventions of language and terminology may relate to:	• key signatures • harmonic and melodic structures • grouping of simple rhythmic structures • time signatures, including 2/4, 3/4, 4/4, 5/4, 7/4 3/8, 5/8, 6/8, 7/8, 9/8, 2/2 and 3/2 • note pitch • note duration • accidentals • chords and chord progressions • bar lines • repeats • sign • coda • ties • rests • phrases • ornaments • popular music forms

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT	
	• jazz forms • classical forms.
Music-writing conventions may include:	• manuscript layout • methods of notation • rehearsal figures • bar lines • ownership and copyright information.

CUSMLT303A Notate music

Modification History

Not applicable.

Unit Descriptor

Unit descriptor	This unit describes the performance outcomes, skills and knowledge required to set down music in a notated form. No licensing, legislative, regulatory or certification requirements apply to this unit at the time of endorsement.

Application of the Unit

Application of the unit	Emerging composers, copyists, arrangers, conductors, performers, musicians, music producers, music editors and publishers apply the skills and knowledge described in this unit. Traditionally notation was done by hand, but now a range of computer-based music notation applications can be used for the task. More complex skills in this area are covered in: • CUSMLT401A Notate music for performance • CUSMPF410A Perform music from written notation.

Licensing/Regulatory Information

Not applicable.

Pre-Requisites

Prerequisite units

Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This section describes the skills and knowledge required for this unit.

Required skills

- communication and teamwork skills sufficient to:
  - read and understand relevant sources of information
  - set down music in a required format
  - seek and respond positively to constructive feedback on work in progress
- initiative and enterprise skills in the context of interpreting music structures
- problem-solving skills sufficient to:
  - troubleshoot music notation problems
  - plan work tasks in a logical sequence
- planning and organisational skills sufficient to:
  - set work goals
  - gather information onmusicalstyles,elementsandforms/structures
  - work to deadlines
- self-management skills sufficient to:
  - work to personal goals
  - seek expert assistance when problems arise
- learning skills sufficient to notate music accurately
- technical skills sufficient to:
  - apply knowledge of musical forms in the selected specialisation to written music
  - interpret musical elements to provide appropriate musical outcomes in performance
  - accurately analyse scales, chord sequences and music systems, rhythms, time signatures, and beat patterns of musical organisation relevant to specialisation

Required knowledge

- sound understanding of musicianship issues, including:
  - repertoire relevant to chosen musical specialisation
  - musical protocols and customs for notating music relevant to chosen music specialisation
  - song-writing techniques
  - genres and styles, and their musical forms and conventions in written notation
  - interpretation of chords, scales, melodies, forms, textures or other conventions

CUSMLT401A Notate music for performance

Modification History

Not applicable.

Unit Descriptor

Unit descriptor	This unit describes the performance outcomes, skills and knowledge required to analyse and refine notated music for performance. No licensing, legislative, regulatory or certification requirements apply to this unit at the time of endorsement.

Application of the Unit

Application of the unit	Music copyists, composers, arrangers, conductors, performers, producers, editors and publishers apply the skills and knowledge described in this unit. Music copyists in particular are responsible for notating and editing music to the standard required by musicians and vocalists during performances. A thorough grounding in the conventions and techniques of music notation is required, along with the ability to liaise on a professional level with performers. This unit builds on the skills covered in: • CUSMLT303A Notate music.

Licensing/Regulatory Information

Not applicable.

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

Pre-Requisites

Prerequisite units	

Employability Skills Information

Employability skills	This unit contains employability skills.

Elements and Performance Criteria Pre-Content

Elements describe the essential outcomes of a unit of competency.	Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the required skills and knowledge section and the range statement. Assessment of performance is to be consistent with the evidence guide.

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
Analyse music notation	1. In consultation with ***appropriate personnel***, confirm ***music style*** that needs to be analysed and notated 2. Analyse examples of notated music in the selected music style 3. Confirm purpose, structure and instrumentation of musical pieces 4. Identify appropriate ***musical elements and forms/structures*** to suit the purpose of the songs or musical pieces 5. Anticipate problems that might arise during the process of notating music, and plan accordingly
Develop music notation	6. Write ***rhythmic***, ***melodic and harmonic structures*** 7. Ensure appropriate use of form and music structures 8. Apply the use of ***dynamics and expression marks*** 9. Notate music within the required stylistic conventions
Present written music for	10. Prepare final manuscript in a suitable ***format*** for

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

ELEMENT	PERFORMANCE CRITERIA
performance	performers 11. Provide performers with music for reading purposes 12. Seek feedback on notation from performers and adjust as required 13. Complete all work within agreed timeframes
Review effectiveness of music writing	14. Seek feedback from appropriate personnel on the process used to analyse and notate music 15. Identify personal strengths and weaknesses as a means of improving own work 16. Evaluate overall effectiveness of notated music and its use in performance

Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This section describes the skills and knowledge required for this unit.

Required skills

- communication and teamwork skills sufficient to:
  - read and understand relevant sources of information
  - set down music in a required format
  - work collaboratively with performers and other personnel
  - negotiate changes to notation and final manuscripts in a cooperative fashion
- initiative and enterprise skills in the context of interpreting music structures and elements to enhance musical outcomes in performance
- problem-solving skills sufficient to:
  - troubleshoot music notation problems
  - plan work tasks in a logical sequence
- planning and organisational skills sufficient to:
  - set work goals
  - gather information onmusicalstyles,elementsandforms/structures
  - produce final notated music by agreed deadlines
- self-management skills sufficient to:
  - work to personal goals
  - seek expert assistance when problems arise
- learning skills sufficient to notate music accurately
- technical skills sufficient to:

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

REQUIRED SKILLS AND KNOWLEDGE
• apply knowledge of musical forms in the selected specialisation to written music • accurately analyse scales, chord sequences and music systems, rhythms, time signatures, and beat patterns of musical organisation • use music notation software applications
Required knowledge

• well-developed understanding of musicianship issues, including:
  • repertoire relevant to chosen musical specialisation
  • performers' requirements in relation to notation of music
  • musical protocols and customs for notating and editing notation of music relevant to chosen music specialisation
  • song-writing techniques
  • genres and styles, and their musical forms and conventions in written notation
  • interpretation of chords, scales, melodies, forms, textures or other conventions found within music notation
  • options for using computer applications to notate music
• issues and challenges that typically arise in the context of notating music for performance

Evidence Guide

EVIDENCE GUIDE	
The Evidence Guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, range statement and the Assessment Guidelines for the Training Package.	
Overview of assessment	
Critical aspects for assessment and evidence required to demonstrate competency in this unit	Evidence of the ability to: • notate music accurately • adhere to the conventions of music notation within the selected style • produce notated music that meets performance requirements • work cooperatively with performers.
Context of and specific resources for assessment	Assessment must ensure: • access to a selection of notated music for analysis

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

EVIDENCE GUIDE	
	• access to performers • access to industry-current software and hardware for setting down music relevant to thecandidate's selectedmusical styles • use of culturally appropriate processes, and techniques appropriate to the language and literacy capacity of the candidate and the work being performed.
Method of assessment	The following assessment methods are appropriate for this unit: • direct observation or video recording of the candidate notating music • authenticated samples of notated music with candidate's self-evaluation • written or oral questioning or interview to test knowledge as listed in the required knowledge section of this unit • case studies as a basis for discussion of issues and challenges that arise in the context of notating music for performance.
Guidance information for assessment	Holistic assessment with other units relevant to the industry sector, workplace and job role is recommended, for example: • CUSMCP301ACompose simple songs or musical pieces • CUSMCP401A Develop techniques for arranging music • CUSMCP402A Develop techniques for composing music • CUSMPF410A Perform music from written notation.

Range Statement

RANGE STATEMENT
The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording, if used in the performance criteria, is detailed below. Essential operating conditions that may be present with training and assessment (depending on the work situation, needs of the candidate, accessibility of the item, and local industry and

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT	
regional contexts) may also be included.	
Appropriate personnel may be:	• teachers • mentors • arrangers • composers • music editors • musicians • bandleaders • music conductors • choir leaders.
Music styles may be:	• classical • jazz • popular music • church • folk • world.
Musical elements and forms/structures may be:	• bar lines • repeats • signs • coda • ties • rests • phrases • ornaments • popular music forms • jazz forms • classical forms.
Rhythmic, melodic and harmonic structures may be:	• key signatures • harmonic and melodic structures • grouping of simple rhythmic structures • time signatures, including 2/4, 3/4, 4/4, 5/4, 7/4 3/8, 5/8, 6/8, 7/8, 9/8, 2/2 and 3/2 • note pitch • note duration • accidentals • chords, where appropriate.
Dynamics and expression marks may be:	• tempo • volume • accents

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT	
	• phrasing • articulation • special effects.
Format may be:	• computer-based • paper-based.

CUSMLT402A Articulate ideas about music

Modification History

Not applicable.

Unit Descriptor

Unit descriptor	This unit describes the performance outcomes, skills and knowledge required to explore the aesthetic, technical and expressive characteristics of music. No licensing, legislative, regulatory or certification requirements apply to this unit at the time of endorsement.

Application of the Unit

Application of the unit	Working musicians, music writers, music performance curators, and festival and concert programmers apply the skills and knowledge outlined in this unit. At this level they require a sound awareness of aesthetics in music as they continue to develop an artistic sensibility in their professional practice. A deep appreciation of music is essential, along with skills in aural discrimination and artistic judgement. More advanced music-appreciation skills are covered in: • CUSMLT601A Analyse music.

Licensing/Regulatory Information

Not applicable.

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

Pre-Requisites

Prerequisite units		

Employability Skills Information

Employability skills	This unit contains employability skills.

Elements and Performance Criteria Pre-Content

Elements describe the essential outcomes of a unit of competency.	Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the required skills and knowledge section and the range statement. Assessment of performance is to be consistent with the evidence guide.

Elements and Performance Criteria

ELEMENT	**PERFORMANCE CRITERIA**
Clarify scope of music exploration	1. Discuss with ***appropriate personnel*** the ***purpose and scope*** of the music study 2. Identify appropriate ***methodologies*** for exploring and understanding the aesthetic, technical and expressive aspects of music 3. Identify musical styles, genres or pieces to be examined 4. Clarify timelines for completion of study and factors that may impact on it
Identify aesthetic and expressive elements of music	5. Assess ***musical examples*** to determine the overall style and character of the music 6. Investigate ***musical elements*** for their expressive, aesthetic and technical qualities 7. Identify a sufficient range of musical elements to ensure

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

ELEMENT	PERFORMANCE CRITERIA
	that the analysis is accurate and comprehensive 8. Discuss aspects of work with peers and incorporate different perspectives or ideas about music as appropriate
Convey ideas about music	9. Apply knowledge of the aesthetic, technical and expressive characteristics of music and related ***music vocabulary*** in an appropriate way 10. Ensure that the aspects of musical examples are described to the required style and standard 11. Compile and clearly articulate ideas about music in the required format within agreed timelines and in a manner suited to the ***target audience*** 12. Seek feedback on developed music perspectives from appropriate personnel and adjust conclusions as required 13. Evaluate the processes followed for exploring and understanding ideas about music and note areas for future improvement

Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This section describes the skills and knowledge required for this unit.

Required skills

- communication and literacy skills sufficient to:
  - interpret and clarify written and verbal instructions
  - discuss music and musical ideas with peers
  - respond positively to constructive feedback
  - articulate ideas about music accurately and appropriately using appropriate conventions of music writing and nomenclature
  - read music
  - use language appropriate to the intended audience
- analytical skills sufficient to:
  - retrieve and use appropriate resources to develop analysis
  - focus study on appropriate musical elements within compositions and performances
- initiative and enterprise skills in the context of empathising with the creative work of composers and performers

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

REQUIRED SKILLS AND KNOWLEDGE

• self-management and planning skills sufficient to:
  • prioritise work tasks
  • source information and reference material in a timely fashion
  • meet deadlines
  • seek expert assistance when problems arise

Required knowledge

• well-developed understanding of music-related issues, including:
  • styles and genres, and musical forms and conventions relevant to music exploration
  • music notation
  • techniques for discriminating music aurally to analyse music
  • repertoire relevant to chosen musical styles and genres
  • musical and cultural protocols
  • musical form and performance conventions
  • cultural circumstances of music performance and consumption
  • elements of musical organisation in relation to content of written work
  • technical processes and demands of composition and/or music performances
• issues and challenges that arise when developing an understanding of music
• written, aural-presentation and communication techniques for the relevant medium

Evidence Guide

EVIDENCE GUIDE	
The Evidence Guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, range statement and the Assessment Guidelines for the Training Package.	
Overview of assessment	
Critical aspects for assessment and evidence required to demonstrate competency in this unit	Evidence of the ability to: • demonstrate sound understanding of the aesthetic, technical and expressive characteristics of music • apply analytical, reflective, critical-listening and communication skills in the context of exploring and articulating ideas about music • present the findings of a study of musical examples in an appropriate way.

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

EVIDENCE GUIDE	
Context of and specific resources for assessment	Assessment must ensure: • access to printed scores or recorded performances as required by the specialisation to be assessed • use of culturally appropriate processes, and techniques appropriate to the language and literacy capacity of the candidate and the work being performed.
Method of assessment	The following assessment methods are appropriate for this unit: • evaluation of musical studies completed by the candidate • written or oral questioning to test knowledge as listed in the required knowledge section of this unit • case studies and scenarios as a basis for discussion of issues and challenges that arise in the context of exploring and understanding music for a range of purposes • authenticated details of relevant commercial or other examples of musical analysis.
Guidance information for assessment	Holistic assessment with other units relevant to the industry sector, workplace and job role is recommended, for example: • CUSMLT403A Analyse functional harmony • CUSIND501A Apply music knowledge and artistic judgement • CUSMLT502A Apply concepts about the impact of music to professional practice • CUSWRT501A Write about music.

Range Statement

RANGE STATEMENT
The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording, if used in the performance criteria, is detailed below. Essential operating conditions that may be present with training and assessment (depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts) may also be included.

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT	
Appropriate personnel may include:	• authors • composers • artists and performers • broadcasters • editors • writers • graphic designers • program or event managers • sound-production or recording personnel • record companies • directors • producers • programmers • academic supervisors • production managers • music promoters, agents and marketers.

Purpose and scope may include:	• analysis to determine the music's:
	  • aesthetic qualities
	  • technical qualities
	  • expressive qualities
	  • capacity for aesthetic and/or literal communication
	  • creative and innovative qualities
	  • expression of new ideas
	  • capacity to reflect value systems
	  • capacity for the aural transmission of knowledge and wisdom
	• research for:
	  • performance
	  • improvisation
	  • academic purposes
	  • written articles, program notes, criticism or marketing
	  • educational purposes and materials
	• performance commentary
	• written or electronic media programs, presentations or live events.

Methodologies may include:	• reflective listening • studying music notation examples, including

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT	
	specific scores and texts • performance analysis • studying the representation of music as symbols • transcribing and analysing musical examples • investigating the use of conventions of notation and music nomenclature • debating ideas • reviewing and incorporating ideas from relevant literature and methodologies • cross-referencing compositional and performance examples.

Musical examples may include:	• music pieces
	• scores or charts
	• compositions and improvisations
	• recordings
	• other written examples and/or performances
	• styles and genres, such as:
	  • folk and traditional music forms, including European classical or traditional music of any other cultures
	  • all contemporary popular musical styles
	  • jazz
	  • world
	  • country.

Musical elements may include:	• acoustics • aesthetic qualities • articulation • beat • cultural context • dynamics • expression • form/structure • genre • harmony/chords • instrumentation • interpretation • melody • notation • nuance

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT	
	• ornamentation • phrasing • pitch • relationship to text • rhythm • scales • sound production • style • tempo • texture • timbre/tone colour • time signatures • tonality.

Music vocabulary may relate to elements, such as:	• specialised knowledge of repertoire
	• specialised knowledge of artists
	• critical-listening skills
	• artistic judgement
	• music history
	• performance practice in a range of styles and customs
	• music technology
	• music texts
	• aural recognition and comprehension of musical devices and systems, including:
	  • melody
	  • harmony
	  • timbre
	  • attack
	  • pitch
	  • tempi
	  • dynamics
	  • expression
	• physics of music and sound production
	• technical requirements for a range of instruments in a range of musical styles and performance contexts
	• aural imagination and innovation
	• musical styles and genres.

Target audiences may include:	• peers and colleagues • authors

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT	
	• composers • artists and performers • editors • program or event managers • sound-production or recording personnel • record companies • directors • producers • media programmers • academic supervisors • production managers • tutors and teachers • mentors • presenters • general public.

CUSMLT403A Analyse functional harmony

Modification History

Not applicable.

Unit Descriptor

Unit descriptor	This unit describes the performance outcomes, skills and knowledge required to understand and use functional harmony. No licensing, legislative, regulatory or certification requirements apply to this unit at the time of endorsement.

Application of the Unit

Application of the unit	Working musicians and songwriters apply the skills and knowledge outlined in this unit. At this level they are developing and applying a working knowledge of functional harmony and the related theoretical language of music to their own practice. Some guidance and support from mentors or teachers would usually be required. More advanced harmonic-analysis skills are covered in: • CUSMLT602A Analyse harmony.

Licensing/Regulatory Information

Not applicable.

Pre-Requisites

Prerequisite units	

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

Prerequisite units		

Employability Skills Information

Employability skills	This unit contains employability skills.

Elements and Performance Criteria Pre-Content

Elements describe the essential outcomes of a unit of competency.	Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the required skills and knowledge section and the range statement. Assessment of performance is to be consistent with the evidence guide.

Elements and Performance Criteria

ELEMENT	**PERFORMANCE CRITERIA**
Clarify analysis requirements	1. Discuss with ***appropriate personnel*** the ***purpose and scope*** of the harmonic analysis 2. Agree on own role in or contribution to the harmonic analysis 3. Identify appropriate ***methodologies*** for analysing harmony in the context of the required task 4. Identify the musical styles, genres or pieces to be analysed 5. Clarify factors that may impact on the analysis, and plan accordingly
Identify theoretical elements of music	6. Identify key signatures, accidentals and other harmonic indicators 7. Identify chords and chord progressions 8. Assess music pieces, recordings, compositions, written examples and/or performances to identify ***elements of***

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

ELEMENT	PERFORMANCE CRITERIA
	functional harmony 9. Identify a sufficient range of relevant harmonic and melodic elements to ensure that the analysis is comprehensive and to the required standard
Analyse how functional harmony contributes to performance and compositional outcomes	10. With assistance as required, identify the way in which the harmony functions within ***musical examples*** 11. Investigate musical examples for the way harmonic elements are combined, manipulated and interpreted for aesthetic, technical and/or expressive outcomes 12. Discuss aspects of work in progress with appropriate personnel and incorporate different angles or ideas into the analysis as required
Complete analysis	13. Apply knowledge of harmony and related ***theoretical vocabulary*** to the analysis in an appropriate way 14. Ensure that all aspects of musical examples are analysed or described to the required standard of analysis 15. Assist with the compilation of conclusions based on the harmonic analysis as required 16. Seek feedback on own contribution to the analysis from appropriate personnel and note areas for future improvement

Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE
This section describes the skills and knowledge required for this unit.
Required skills

• communication and literacy skills sufficient to:
  • interpret and clarify written and verbal instructions
  • respond positively to constructive feedback
  • articulate music analysis accurately and appropriately using appropriate conventions of music writing and nomenclature
  • use language appropriate to the intended audience
• analytical skills sufficient to:
  • apply appropriate analytical methods of interpretation relevant to area of specialisation
  • retrieve and use appropriate resources to develop analysis

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

REQUIRED SKILLS AND KNOWLEDGE
• focus analysis on appropriate harmonic elements within compositions and/or performances • accurately identify a variety of scales, chord sequences and music systems, including rhythms, time signatures, beat patterns or other elements of musical organisation • initiative and enterprise skills in the context of empathising with the creative work of composers and performers • self-management and planning skills sufficient to: • prioritise work tasks • source information and reference material in a timely fashion • meet deadlines • seek expert assistance when problems arise
Required knowledge
• well-developed understanding of music-related issues, including: • styles and genres, and musical forms and conventions relevant to analysis • music notation • techniques for discriminating music aurally to analyse music • repertoire relevant to chosen musical styles and genres • musical and cultural protocols • musical form and performance conventions • cultural circumstances of music performance and consumption • elements of musical organisation in relation to content of written work • technical processes and demands of composition and/or music performances • issues and challenges that arise in the context of analysing functional harmony

Evidence Guide

EVIDENCE GUIDE	
The Evidence Guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, range statement and the Assessment Guidelines for the Training Package.	
Overview of assessment	
Critical aspects for assessment and evidence required to demonstrate competency in this unit	Evidence of the ability to: • complete at least three harmonic analyses that demonstratesound understanding of functional

RANGE STATEMENT	
regional contexts) may also be included.	
Appropriate personnel may include:	• composers • artists and performers • editors • writers • graphic designers • program or event managers • sound-production or recording personnel • producers • programmers • academic supervisors • teachers • mentors.

Purpose and scope may include:	• deconstruction of musical examples into theoretical component parts, including:
	  • melodic, harmonic and rhythmic structures in music
	  • technical components of music
	  • expressive components of music
	  • representation of new musical ideas
	• performance
	• composition
	• arrangements and arranging principles
	• research for:
	  • performance
	  • improvisation
	  • academic purposes
	  • written articles, program notes, criticism or marketing
	  • educational purposes and materials
	• performance critiques.

Methodologies may include:	• investigating the use conventions of notation and music nomenclature • investigating and using relevant theoretical principles • reflective listening • studying music notation examples, including specific scores and texts • performance analysis • studying the representation of music as

CUSMLT501A Refine aural-perception skills

Modification History

Not applicable.

Unit Descriptor

Unit descriptor	This unit describes the performance outcomes, skills and knowledge required to improve aural-perception skills. No licensing, legislative, regulatory or certification requirements apply to this unit at the time of endorsement.

Application of the Unit

Application of the unit	Musicians, songwriters, composers, arrangers, conductors and musical directors apply the skills and knowledge described in this unit. Well-developed aural-perception skills are essential for success in the music industry and can be applied in a range of contexts, for example, transcribing live or recorded music and preparing charts and other forms of notated music. An ability to discuss sophisticated music structures and components with peers and other industry personnel is required, along with a willingness to work consistently on improving one's own aural-perception skills.

Licensing/Regulatory Information

Not applicable.

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

Pre-Requisites

Prerequisite units	

Employability Skills Information

Employability skills	This unit contains employability skills.

Elements and Performance Criteria Pre-Content

Elements describe the essential outcomes of a unit of competency.	Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the required skills and knowledge section and the range statement. Assessment of performance is to be consistent with the evidence guide.

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
Set personal goals for extending own aural-perception skills	1. In consultation with ***appropriate personnel***, identify the ***applications*** of aural-perception skills most relevant to own music practice 2. Determine how own mastery of rhythmic, melodic and harmonic ***music structures*** can be improved 3. Identify the ***genres and styles*** in own music practice that need attention in the context of refining aural-perception skills 4. Prepare a plan for own skill development, including a timeline and criteria for measuring improvements 5. Discuss plan with appropriate personnel and incorporate feedback as required
Expand methods for the aural recognition of music	6. Analyse ***conventions of language and terminology*** in the context of improving own aural-perception skills 7. Expand ways of hearing music, as well as listening for and naming relevant music structures 8. Expand knowledge of ***music-writing conventions***

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

ELEMENT	PERFORMANCE CRITERIA
	connected with aural skill development 9. Explore more advanced rhythmic, melodic and harmonic structures connected with aural skill development
Apply improved aural-perception skills to own music practice	10. Focus on applying improved aural-perception skills in rehearsals or other practice activities 11. Adhere to conventions of language and terminology 12. Discuss application of aural-perception skills with peers and incorporate new ideas and techniques into own music practice
Evaluate own skill development	13. Monitor own progress against personal goals and skill-development plan 14. Discuss progress of skill development with appropriate personnel and act on feedback as required 15. Identify personal strengths and weaknesses as a means of improving own work 16. Evaluate overall effectiveness of learning methods in the expansion of aural-perception skills

Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This section describes the skills and knowledge required for this unit.

Required skills

- listening skills in the context of recognising how more advanced intervals, chords, scales and chord progressions are used in music
- communication skills sufficient to:
  - read and understand relevant sources of information
  - discuss with peers ideas and techniques associated with aural-perception skills
  - seek and respond to feedback on own skill development
- initiative and enterprise skills in the context of analysing and recognising music structures and elements
- problem-solving skills sufficient to:
  - troubleshoot difficulties connected with the aural recognition of music
  - plan work tasks in a logical sequence
- planning and organisational skills sufficient to:
  - set goals and plan own skill development

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

REQUIRED SKILLS AND KNOWLEDGE

• research information onmusicalstyles,elementsandforms/structures
• self-management skills sufficient to:
  • work to personal goals
  • seek expert assistance when problems arise
• learning skills sufficient to aurally recognise music structures accurately
• technical skills sufficient to accurately analyse:
  • scales
  • chord sequences and music systems
  • rhythms
  • time signatures
  • beat patterns of musical organisation relevant to specialisation

Required knowledge

• musicianship, including:
  • well-developed understanding of repertoire relevant to chosen musical specialisation
  • well-developed understanding of musical protocols and customs for listening to music relevant to the music specialisation
  • deep awareness of genres and styles, and their musical forms and conventions
  • sophisticated aural recognition and interpretation of chords, scales, melodies, forms, textures or other conventions in music
  • well-developed understanding of musical form in the selected specialisation
• issues and challenges that arise in the context of improving aural-perception skills

Evidence Guide

EVIDENCE GUIDE	
The Evidence Guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, range statement and the Assessment Guidelines for the Training Package.	
Overview of assessment	
Critical aspects for assessment and evidence required to demonstrate competency in this unit	Evidence of the ability to: • hear and recognise complex music structures accurately • adhere to the conventions of music language and terminology within selected styles

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

EVIDENCE GUIDE	
	• apply aural-perception skills to own music practice • plan and monitor progress in refining own aural-perception skills.
Context of and specific resources for assessment	Assessment must ensure: • access to a selection of recorded or performed music for investigation and skill development • use of culturally appropriate processes, and techniques appropriate to the language and literacy capacity of learners and the work being performed • opportunities to demonstrate improvement in aural-perception skills.
Method of assessment	The following assessment methods are appropriate for this unit: • direct observation or video recording of the candidate's ability to aurally recognise complex music structures • evaluation of candidate's plan for improving own aural-perception skills, including evidence of monitoring progress against goals • discussion and/or case studies to determine candidate's ability to deal with challenges that arise in the context of improving aural-perception skills • written or oral questioning or interview to test knowledge as listed in the required knowledge section of this unit and to assess the refinement of aural-perception skills.
Guidance information for assessment	Holistic assessment with other units relevant to the industry sector, workplace and job role is recommended, for example: • CUSMCP401A Develop techniques for arranging music • CUSMCP402A Develop techniques for composing music • CUSMCP501A Compose music using electronic media • CUSMCP502A Compose music for screen • CUSMPF506A Develop technical skills and expand repertoire.

Range Statement

RANGE STATEMENT	
The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording, if used in the performance criteria, is detailed below. Essential operating conditions that may be present with training and assessment (depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts) may also be included.	
Appropriate personnel may include:	• teachers • mentors • arrangers • composers • music editors • musicians • bandleaders • music conductors • choir leaders.
Applications of aural-perception skills may include:	• ability to identify and discuss sophisticated music components with peers and other industry personnel • capacity to transcribe complex live or recorded music • developed appreciation of music subtleties and complexities • developed overall musicianship • preparation of scores, charts and other forms of notated music • access to new forms of music.
Music structures may include:	• key signatures • developed harmonic and melodic structures • grouping of complex rhythmic structures • time signatures, including compound and odd time signatures • note pitch • note duration • scales and associated modes • accidentals • chords and chord progressions, including chord substitutions.
Genres and styles may include:	• classical • jazz

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT	
	• popular music • church • folk • world.

Conventions of language and terminology may relate to:	• music structures
	• music notation, including:
	  • bar lines
	  • repeats
	  • sign
	  • coda
	  • ties
	  • rests
	  • phrases
	  • ornaments
	• music forms, including:
	  • popular
	  • jazz
	  • classical.

Music-writing conventions may include:	• manuscript layout • more sophisticated methods of notation • rehearsal figures • bar lines • ownership and copyright information.

CUSMLT502A Apply concepts about the impact of music to professional practice

Modification History

Not applicable.

Unit Descriptor

Unit descriptor	This unit describes the performance outcomes, skills and knowledge required to analyse and apply concepts about the social significance of music to one's own professional practice. No licensing, legislative, regulatory or certification requirements apply to this unit at the time of endorsement.

Application of the Unit

Application of the unit	Performing musicians and composers, as well as music promoters, marketers and managers, require in-depth understanding of the function of music in society, particularly in relation to the cultural significance of music in the lives of individuals and groups. This knowledge could be applied in the context of measuring the cultural and commercial value of music as a precursor to placing music products in the market place.

Licensing/Regulatory Information

Not applicable.

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

Pre-Requisites

Prerequisite units	

Employability Skills Information

Employability skills	This unit contains employability skills.

Elements and Performance Criteria Pre-Content

Elements describe the essential outcomes of a unit of competency.	Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the required skills and knowledge section and the range statement. Assessment of performance is to be consistent with the evidence guide.

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
Investigate the history of music	1. Identify relevant ***sources of information*** on the history and social significance of music 2. Investigate and review different definitions of music and how these relate in historical and cultural contexts 3. Explore the relationships and synergies between music and culture over time
Assess the social significance of music	4. Compare and assess the different ways individuals and groups have performed, composed and presented music over time 5. Explore ***ways*** in which music impacts on people's social and working lives 6. Investigate and evaluate the different social and cultural functions of music 7. Investigate and evaluate the role played by music in other ***fields*** of human endeavour
Apply historical and sociological knowledge	8. Extract key information and ideas about the history and social significance of music

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

ELEMENT	PERFORMANCE CRITERIA
of music to own professional practice	9. Compare and evaluate alternative perspectives and views on music 10. Discuss and present ideas about music fully and constructively with ***relevant personnel*** 11. Reflect on how information and ideas might be integrated into own life and work, and set personal goals for doing so 12. Identify and access ***opportunities*** to enhance own professional practice in light of knowledge gained

Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This section describes the skills and knowledge required for this unit.

Required skills

- well-developed written and oral communication skills in the context of discussing, exploring, interpreting and presenting ideas about music with and for others
- analytical skills in the context of interpreting information dealing with potentially complex ideas relating to the cultural manifestations of music
- research and data-gathering skills sufficient to source, collect, collate and organise relevant information
- learning skills in the context of:
  - reflective learning for self
  - contributing to the learning of others through discussion
  - applying knowledge to enhance own professional practice

Required knowledge

- awareness of the social significance of music at different points in history and in different cultural scenarios
- awareness of broader contemporary contexts and perspectives relating to music making and music consumption in society
- sources of information relating to the history and social significance of music

Evidence Guide

EVIDENCE GUIDE

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

EVIDENCE GUIDE	
The Evidence Guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, range statement and the Assessment Guidelines for the Training Package.	
Overview of assessment	
Critical aspects for assessment and evidence required to demonstrate competency in this unit	Evidence of the ability to: • demonstrate well-developed analytical, reflective and communication skills • understand the historical contexts, social functions and circumstances of music making and consumption in society • apply the above knowledge to own professional practice.
Context of and specific resources for assessment	Assessment must ensure: • access to sources of information on the history, social significance and function of music • use of culturally appropriate processes, and techniques appropriate to the language and literacy capacity of the candidate and the work being performed.
Method of assessment	The following assessment methods are appropriate for this unit: • evaluation of candidate's exploration of music and its social significance, demonstrated through discussion and written or oral presentation • written or oral questioning to assess knowledge of music in historical and contemporary contexts.
Guidance information for assessment	Holistic assessment with other units relevant to the industry sector, workplace and job role is recommended, for example: • CUSIND501A Apply music knowledge and artistic judgement • CUSWRT501A Write about music.

Range Statement

RANGE STATEMENT

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT	
The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording, if used in the performance criteria, is detailed below. Essential operating conditions that may be present with training and assessment (depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts) may also be included.	

Sources of information may include:	• music performances and recordings
	• music collectives
	• funding bodies
	• music performance venues
	• community organisations
	• friends, family, work colleagues and peers
	• industry practitioners
	• online databases
	• media archives
	• printed references and texts, e.g. books and journals
	• other media sources, such as:
	  • radio
	  • television
	  • DVDs
	  • videos
	• educational institutions
	• libraries.

Ways in which music impacts on people's social and working lives may include:	• developing a sense of identity and community • facilitating social contact • improving quality of life • therapeutic and/or healing properties • enriched inner or spiritual life • intellectual stimulation • relaxation and recreation • expressive qualities and capacities • aesthetic and/or literal communication • music's capacity to reflect cultural value systems • aural transmission of knowledge and wisdom • representation of innovation and new ideas.
Fields may include:	• visual/fine arts • other performing arts • anthropology

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT	
	• ethnomusicology • social sciences • humanities • product marketing.
Relevant personnel may include:	• composers • artists and performers • broadcasters • writers and journalists • program or event managers • sound-production or recording personnel • record companies • directors • producers • programmers • academic supervisors • production managers • music promoters, agents and marketers • advertising agencies.
Opportunities may include:	• attending seminars • participating in creative activities • reviewing and adapting own communication skills • using new approaches to work • working in creative communities • developing marketing plans for new music products.

CUSMLT601A Analyse music

Modification History

Not applicable.

Unit Descriptor

Unit descriptor	This unit describes the performance outcomes, skills and knowledge required to analyse the aesthetic, technical and expressive characteristics of music. No licensing, legislative, regulatory or certification requirements apply to this unit at the time of endorsement.

Application of the Unit

Application of the unit	Performing musicians, music writers, music performance curators, and festival and concert programmers apply the skills and knowledge outlined in this unit. At this level they are applying an advanced level of aesthetic and artistic sensibility to their professional practice. A well-developed appreciation of music is essential, along with high-level aural discrimination skills and sound artistic judgement.

Licensing/Regulatory Information

Not applicable.

Pre-Requisites

Employability Skills Information

Employability skills	This unit contains employability skills.

Elements and Performance Criteria Pre-Content

Elements describe the essential outcomes of a unit of competency.	Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the required skills and knowledge section and the range statement. Assessment of performance is to be consistent with the evidence guide.

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
Clarify analysis requirements	1. Discuss with ***appropriate personnel*** the ***purpose and scope*** of the music analysis 2. Identify appropriate ***methodologies*** for analysing music in the context of the required task 3. Identify the musical styles, genres or pieces to be analysed 4. Clarify timelines for completion of analysis and factors that may impact on the analysis
Identify aesthetic and expressive elements of music	5. Assess ***musical examples*** to determine the overall style and character of the music 6. Analyse ***musical elements*** for their expressive, aesthetic and technical qualities 7. Identify a sufficient range of functional musical elements to ensure that the analysis is accurate and comprehensive 8. Discuss aspects of work in progress with peers and incorporate different angles or ideas into the analysis as appropriate
Convey the musical analysis	9. Apply knowledge of music and related ***music vocabulary*** to the analysis in an appropriate way 10. Ensure that all aspects of the musical examples are analysed or described to provide the required style and

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

ELEMENT	PERFORMANCE CRITERIA
	standard of analysis 11. Compile or synthesise conclusions of the musical analysis in the required format within agreed timelines and in a manner suited to the ***target audience*** 12. Seek feedback on analysis from appropriate personnel and adjust conclusions as required 13. Evaluate analysis process and note areas for future improvement

Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This section describes the skills and knowledge required for this unit.

Required skills

- communication and literacy skills sufficient to:
  - interpret and clarify written and verbal instructions
  - discuss music and musical ideas with peers
  - respond positively to constructive feedback
  - articulate music analysis accurately and appropriately using appropriate conventions of music writing and nomenclature
  - read music
  - use language appropriate to the intended audience
- analytical skills sufficient to:
  - apply appropriate analytical methods of interpretation relevant to area of specialisation
  - retrieve and use appropriate resources to develop analysis
  - focus analysis on appropriate musical elements within compositions and/or performances
  - accurately analyse a variety of scales, chord sequences and music systems, including rhythms, time signatures, beat patterns or other elements of musical organisation
- initiative and enterprise skills in the context of empathising with the creative work of composers and performers

Required knowledge

- well-developed understanding of music-related issues, including:
  - styles and genres, and musical forms and conventions relevant to analysis

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

REQUIRED SKILLS AND KNOWLEDGE
• music notation • techniques for discriminating music aurally to analyse music • repertoire relevant to chosen musical styles and genres • musical and cultural protocols • musical form and performance conventions • cultural circumstances of music performance and consumption • elements of musical organisation in relation to content of written work • technical processes and demands of composition and/or music performances • issues and challenges that arise when writing and talkingabout music • writing and communication principles for the relevant medium • written and aural-presentation techniques for the relevant medium

Evidence Guide

EVIDENCE GUIDE	
The Evidence Guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, range statement and the Assessment Guidelines for the Training Package.	
Overview of assessment	
Critical aspects for assessment and evidence required to demonstrate competency in this unit	Evidence of the ability to: • complete at least three musical analyses that demonstratewell-developed understanding of the systems and musical elements being analysed • apply musical analysis to own professional practice • apply well-developed analytical, reflective, critical-listening and communication skills in the context of analysing music.
Context of and specific resources for assessment	Assessment must ensure: • access to printed scores or recorded performances as required by the specialisation to be assessed • opportunities to apply the analysis of harmony in a practical context • use of culturally appropriate processes, and techniques appropriate to the language and literacy capacity of the candidate and the work being performed.

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

EVIDENCE GUIDE	
Method of assessment	The following assessment methods are appropriate for this unit: • evaluation of musical analyses completed by the candidate • written or oral questioning to test knowledge as listed in the required knowledge section of this unit • case studies and scenarios as a basis for discussion of issues and challenges that arise in the context of analysing music for a range of purposes • authenticated details of relevant commercial or other examples of musical analyses.
Guidance information for assessment	Holistic assessment with other units relevant to the industry sector, workplace and job role is recommended, for example: • CUSIND501A Apply music knowledge and artistic judgement • CUSMCP601A Extend techniques for composing music • CUSMCP602A Extend techniques for arranging music • CUSMLT502A Apply concepts about the impact of music to professional practice • CUSMLT602A Analyse harmony • CUSWRT501A Write about music.

Range Statement

RANGE STATEMENT	
The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording, if used in the performance criteria, is detailed below. Essential operating conditions that may be present with training and assessment (depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts) may also be included.	
Appropriate personnel may include:	• authors • composers • artists and performers • broadcasters

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT	
	• editors • writers • graphic designers • program or event managers • sound-production or recording personnel • record companies • directors • producers • programmers • academic supervisors • production managers • music promoters, agents and marketers.

Purpose and scope may include:	• analysis to determine the music's:
	  • aesthetic qualities
	  • technical qualities
	  • expressive qualities
	  • capacity for aesthetic and/or literal communication
	  • creative and innovative qualities
	  • expression of new ideas
	  • capacity to reflect value systems
	  • capacity for the aural transmission of knowledge and wisdom
	• research for:
	  • performance
	  • improvisation
	  • academic purposes
	  • written articles, program notes, criticism or marketing
	  • educational purposes and materials
	• performance commentary
	• written or electronic media programs, presentations or live events.

Methodologies for analysis may include:	• reflective listening • study of music notation examples, including specific scores and texts • performance analysis • studying the representation of music as symbols • transcribing and analysing musical examples

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT	
	• investigating the use of conventions of notation and music nomenclature • debating ideas • reviewing and incorporating ideas from relevant literature and methodologies • cross-referencing compositional and performance examples.

Musical examples may include:	• music pieces
	• scores or charts
	• compositions and improvisations
	• recordings
	• other written examples and/or performances
	• styles and genres may include:
	  • folk and traditional music forms, including European classical or traditional music of any other culture
	  • all contemporary popular musical styles
	  • jazz
	  • world
	  • country.

Musical elements may include:	• acoustics • aesthetic qualities • articulation • beat • cultural context • dynamics • expression • form/structure • genre • harmony/chords • instrumentation • interpretation • melody • notation • nuance • ornamentation • phrasing • pitch • relationship to text • rhythm

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT	
	• scales • sound production • style • tempo • texture • timbre/tone colour • time signatures • tonality.

Music vocabulary may relate to elements, such as:	• specialised knowledge of repertoire
	• specialised knowledge of artists
	• critical-listening skills
	• artistic judgement
	• music history
	• performance practice in a range of styles and customs
	• music technology
	• music texts
	• aural recognition and comprehension of musical devices and systems, including:
	  • melody
	  • harmony
	  • timbre
	  • attack
	  • pitch
	  • tempi
	  • dynamics
	  • expression
	• physics of music and sound production
	• technical requirements for a range of instruments in a range of musical styles and performance contexts
	• aural imagination and innovation
	• musical styles and genres.

Target audiences may include:	• peers and colleagues • authors • composers • artists and performers • editors • program or event managers • sound-production or recording personnel

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT	
	• record companies • directors • producers • media programmers • academic supervisors • production managers • tutors and teachers • mentors • presenters • general public.

CUSMLT602A Analyse harmony

Modification History

Not applicable.

Unit Descriptor

Unit descriptor	This unit describes the performance outcomes, skills and knowledge required to analyse and deconstruct harmony for its component parts. No licensing, legislative, regulatory or certification requirements apply to this unit at the time of endorsement.

Application of the Unit

Application of the unit	Performing musicians, composers and arrangers apply the skills and knowledge outlined in this unit. At this level they need to apply an advanced knowledge of harmony and the related theoretical language of music as they discuss music or musical ideas with their peers. The ability to analyse harmony is essential for people who write about music at an advanced level.

Licensing/Regulatory Information

Not applicable.

Pre-Requisites

Prerequisite units

Employability Skills Information

Employability skills	This unit contains employability skills.

Elements and Performance Criteria Pre-Content

Elements describe the essential outcomes of a unit of competency.	Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the required skills and knowledge section and the range statement. Assessment of performance is to be consistent with the evidence guide.

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
Clarify analysis requirements	1. Discuss with ***appropriate personnel*** the ***purpose and scope*** of the harmonic analysis 2. Identify appropriate ***methodologies*** for analysing harmony in the context of the required task 3. Identify the musical styles, genres or pieces to be analysed 4. Clarify timelines for completion of analysis and factors that may impact on it
Identify musical elements	5. Analyse ***music examples*** to identify elements of harmony 6. Identify a sufficient range of harmonic and melodic elements to ensure that the analysis is comprehensive and to the required standard
Analyse how functional harmony contributes to performance and compositional outcomes	7. Identify the way in which the harmony functions within the musical examples to inform the distinctive character of compositions, performances or arrangements 8. Analyse music with respect to the way ***harmonic elements*** are combined, manipulated and interpreted for aesthetic, technical and/or expressive outcomes 9. Discuss aspects of work in progress with peers and incorporate different angles or ideas into the analysis as

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

ELEMENT	PERFORMANCE CRITERIA
	appropriate
Present or apply analysis	10. Apply knowledge of harmony and related ***theoretical vocabulary*** to the analysis in an appropriate way 11. Ensure that all aspects of musical examples are analysed or described to the required standard of analysis and depth of understanding 12. Apply broader knowledge of music to the harmonic analysis 13. Compile or synthesise conclusions of the harmonic analysis in required format within agreed timelines 14. Seek feedback on analysis from appropriate personnel and adjust conclusions as required 15. Evaluate analysis process and note areas for future improvement

Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This section describes the skills and knowledge required for this unit.

Required skills

- communication and literacy skills sufficient to:
  - interpret and clarify written and verbal instructions
  - discuss music and musical ideas with peers
  - respond positively to constructive feedback
  - articulate music analysis accurately and appropriately using appropriate conventions of music writing and nomenclature
  - read music
  - use language appropriate to the intended audience
- analytical skills sufficient to:
  - apply appropriate analytical methods of interpretation relevant to area of specialisation
  - retrieve and use appropriate resources to develop analysis
  - focus analysis on appropriate harmonic elements within compositions and/or performances
  - accurately analyse a variety of scales, chord sequences and music systems, including rhythms, time signatures, beat patterns or other elements of musical organisation

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

REQUIRED SKILLS AND KNOWLEDGE

• initiative and enterprise skills in the context of empathising with the creative work of composers and performers
• self-management and planning skills sufficient to:
  • prioritise work tasks
  • source information and reference material in a timely fashion
  • meet deadlines
  • seek expert assistance when problems arise

Required knowledge

• well-developed understanding of music-related issues, including:
  • styles and genres, and musical forms and conventions relevant to analysis
  • music notation
  • techniques for discriminating music aurally to analyse music
  • repertoire relevant to chosen musical styles and genres
  • musical and cultural protocols
  • musical form and performance conventions
  • cultural circumstances of music performance and consumption
  • elements of musical organisation in relation to content of written work
  • technical processes and demands of composition and/or music performances
• issues and challenges that arise when writing and talkingabout music
• writing and communication principles for the relevant medium
• written and aural-presentation techniques for the relevant medium

Evidence Guide

EVIDENCE GUIDE	
The Evidence Guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, range statement and the Assessment Guidelines for the Training Package.	
Overview of assessment	
Critical aspects for assessment and evidence required to demonstrate competency in this unit	Evidence of the ability to: • complete at least three harmonic analyses that demonstratewell-developed understanding of harmonic theories and principles • apply harmonic analysis to own professional practice • apply well-developed analytical, reflective,

RANGE STATEMENT	
wording, if used in the performance criteria, is detailed below. Essential operating conditions that may be present with training and assessment (depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts) may also be included.	
Appropriate personnel may include:	• authors • composers • artists and performers • broadcasters • editors • writers • graphic designers • program or event managers • sound-production or recording personnel • record companies • directors • producers • programmers • academic supervisors • production managers • music promoters, agents and marketers.

Purpose and scope may include:	• deconstruction of musical examples into theoretical component parts, including;
	  • melodic, harmonic and rhythmic structures in music
	  • technical components of music
	  • expressive components of music
	  • representation of new musical ideas
	• performance
	• composition
	• arranging
	• musical accompaniment
	• research for:
	  • performance
	  • improvisation
	  • academic purposes
	  • written articles, program notes, criticism or marketing
	  • educational purposes and materials
	• performance commentary.

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT	
Methodologies may include:	• reflective listening • study of music notation examples, including specific scores and texts • performance analysis • studying the representation of music as symbols • transcribing and analysing musical examples • investigating the use of conventions of notation and music nomenclature • debating ideas • reviewing and incorporating ideas from relevant literature and methodologies • cross-referencing compositional and performance examples • investigating and using relevant theoretical principles • practical application of principles of harmony.

Musical examples may include:	• music pieces
	• scores or charts
	• compositions and improvisations
	• recordings
	• other written examples and/or performances
	• styles and genres may include:
	  • folk and traditional music forms, including European classical or traditional music of any other culture
	  • all contemporary popular musical styles
	  • jazz
	  • world
	  • country.

Harmonic elements may include:	• key signatures • melody • harmony/chords • tonality • scales • accidentals • ornamentation • suspensions • passing notes • form/structure

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT	
	• transposition • texture • style • genre • cultural context • relationship to text.

Theoretical vocabulary may include musical devices and systems that relate to:	• pitch
	• melody
	• harmony, chords and progressions
	• scales
	• time signatures
	• tonality
	• chord/scale relationships
	• ornamentation
	• form/structure
	• rhythm
	• beat
	• tempo
	• timbre/tone colour
	• interpretation
	• expression
	• nuance
	• phrasing
	• articulation
	• dynamics
	• musical symbols:
	  • staves and leger lines
	  • clefs
	  • key signatures
	  • accidentals
	  • symbols and terms indicating notes, chords and repeats
	  • phrasing.

CUSMPF101A Develop skills to play or sing music

Modification History

Not applicable.

Unit Descriptor

Unit descriptor	This unit describes the performance outcomes, skills and knowledge required to develop elementary skills in tuning, playing and caring for an instrument. This is the first in a series of units dealing with developing technical skills. No licensing, legislative, regulatory or certification requirements apply to this unit at the time of endorsement.

Application of the Unit

Application of the unit	People with little or no musical experience apply the skills and knowledge outlined in this unit. Typically they are embarking on a career in singing or playing a specific musical instrument and need close guidance and supervision.

Licensing/Regulatory Information

Not applicable.

Pre-Requisites

Prerequisite units		

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

Employability Skills Information

Employability skills	This unit contains employability skills.

Elements and Performance Criteria Pre-Content

Elements describe the essential outcomes of a unit of competency.	Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the required skills and knowledge section and the range statement. Assessment of performance is to be consistent with the evidence guide.

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
Become familiar with chosen instrument	1. Develop an understanding of how the physical characteristics of ***instruments*** and the voice affect the sound they produce in performance 2. Explore the ***range***, ***capability*** and sound characteristics of chosen instrument or voice 3. Discuss with colleagues or teachers how the physical relationship between instrument and performer produces the required sound 4. Listen to live or recorded music featuring the chosen instrument or voice and discuss with colleagues and/or teacher how sounds and effects are achieved 5. Use appropriate methods and cleaning products to care for, move and store instrument and ***accessories*** 6. Develop listening skills to enable recognition of simple ***musical elements*** 7. Set goals for own skill development in consultation with ***relevant people***
Prepare to play instrument	8. Set up instrument or warm up voice as required 9. As required, seek assistance from relevant people to ***tune*** instrument to the required pitch 10. Apply listening skills in the process of producing a range of notes, rhythms and/or chords

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

ELEMENT	PERFORMANCE CRITERIA
	11. Use correct posture to extend technique and to develop healthy performance habits in line with ***OHS principles***
Play simple pieces in selected style	12. In consultation with relevant people, select simple pieces and exercises suitable for practice in playing selected repertoire 13. Apply the elements of pitch, rhythm, ***sound colour*** and/or volume during practice sessions 14. Experiment with different ***techniques*** to develop proficiency in producing the required sound 15. Seek feedback on own skill development from relevant people and evaluate progress against personal goals

Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This section describes the skills and knowledge required for this unit.

Required skills

- communication, teamwork and organisational skills sufficient to:
  - interpret music at a basic level for performance practice
  - respond appropriately to constructive feedback on own performance
  - plan own practice time and setskill-development goals
- listening skills sufficient to:
  - monitor and adjust intonation as required
  - use appropriate sound and tone production for instrument or voice
  - reproduce basic musical patterns
- learning skills in the context of:
  - using printed or audio tutoring resources
  - improving skills through practice
- technical and problem-solving skills sufficient to:
  - use a basic range of techniques on chosen instrument
  - tune instrument to achieve intonation
  - discriminate pitch and/or rhythm

Required knowledge

- basic understanding of:
  - industry, repertoire and musical terminology

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

REQUIRED SKILLS AND KNOWLEDGE
• acoustic principles relevant to selected instrument • instrument parts, applications, range, capabilities, care and maintenance • OHS practices, procedures and standards as they apply to performance practice

Evidence Guide

EVIDENCE GUIDE	
The Evidence Guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, range statement and the Assessment Guidelines for the Training Package.	
Overview of assessment	
Critical aspects for assessment and evidence required to demonstrate competency in this unit	Evidence of the ability to: • demonstrate basic physical capacity and coordination required to play or sing simple melodies, chords and rhythm patterns • respond appropriately to constructive feedback on own performance.
Context of and specific resources for assessment	Assessment must ensure: • access to relevant instruments and equipment • suitable physical and acoustic environment • use of culturally appropriate processes, and techniques appropriate to the language and literacy capacity of learners and the work being performed.
Method of assessment	The following assessment methods are appropriate for this unit: • direct observation of candidate in practice sessions or performances • testimonial from individual tutors • video or audio recordings of candidate's performance or practice sessions • written or oral questioning to assess knowledge of chosen instrument.
Guidance information for assessment	Holistic assessment with other units relevant to the industry sector, workplace and job role is recommended, for example: • CUSMPF102A Develop ensemble skills to perform

EVIDENCE GUIDE	
	simple musical parts.

Range Statement

RANGE STATEMENT	
The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording, if used in the performance criteria, is detailed below. Essential operating conditions that may be present with training and assessment (depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts) may also be included.	
Instruments may include:	• acoustic or electronic • brass • stringed • keyboards • wind • percussion • plucked • voice.
Range of an instrument may include:	• tone colour • dynamics and volume • sound production • pitch, register and tessitura • specific effects available using a range of attacks • other acoustic or electronic effects.
Capability of an instrument may include:	• application to a range of music-making activities and outcomes • scope and potential for solo or group performance • adaptability • size of instrument.
Accessories may include:	• reeds • strings • bows • plectrums • mouth pieces • mutes

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT	
	• sticks, mallets, brushes and beaters • stands • pedals • microphones • amplifiers • samplers • mixers • enhancers, such as pitch and tone modulators.
Musical elements include:	• simple melodies • simple rhythms • simple musical forms.
Relevant people may include:	• mentor • teacher • coach • tutor • family member.

Tuning an instrument may involve:	• adjusting:
	  • pitch
	  • tone colour
	  • oral tract, including lip pressure and intensity of breath
	  • position of the diaphragm and larynx
	  • sound production
	  • diameter or other instrumental dimensions, such as:
	  • length of strings
	  • tautness of skins
	  • length of tubing or pipes
	  • embouchure
	  • settings of the instrument and relevant accessories
	• using:
	  • appropriate tuning options
	  • tuning keys or other tuning implements, such as tuning forks and electronic tuners
	  • pitch pipes
	  • electronic pitch or frequency controls
	  • other musicians.

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT	
OHS principles may include:	• industry practice and legislation • posture • appropriate hearing and volume levels for self and others • electrical hazards • length of performance and practice sessions • preventative practice against overuse injury.
Sound colour may involve:	• physical elements of an instrument • instrumental attack and articulation • range of accessories • interaction between player and instrument • performer's physique • voice production • sound production • different instrumental combinations.

Techniques may include:	• physical coordination in one or more of:
	  • bowing
	  • tonguing
	  • embouchure
	  • plucking
	  • beating
	  • fingering
	  • strumming
	  • pedalling
	• attack
	• dynamics
	• tempi
	• intonation
	• vocal and instrumental sound production
	• rhythms and rhythm patterns
	• chords and chord patterns
	• melodic patterns
	• playing or singing notes, short tunes and basic scales
	• playing, tapping or clapping rhythms and rhythm patterns
	• playing chords and simple chord patterns.

Competency field

Competency field	Performing arts - music performance

Co-requisite units

Co-requisite units		

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

CUSMPF102A Develop ensemble skills to perform simple musical parts

Modification History

Not applicable.

Unit Descriptor

Unit descriptor	This unit describes the performance outcomes, skills and knowledge required to follow a musical director and musical instructions to perform simple musical parts in an ensemble situation. No licensing, legislative, regulatory or certification requirements apply to this unit at the time of endorsement.

Application of the Unit

Application of the unit	People with little or no musical experience apply the skills and knowledge outlined in this unit. Typically they would be performing in community workshops, one-off or short programmes of musical instruction, and in remote communities.

Licensing/Regulatory Information

Not applicable.

Pre-Requisites

Prerequisite units		

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

Employability Skills Information

Employability skills	This unit contains employability skills.

Elements and Performance Criteria Pre-Content

Elements describe the essential outcomes of a unit of competency.	Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the required skills and knowledge section and the range statement. Assessment of performance is to be consistent with the evidence guide.

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
Prepare to perform simple musical parts	1. Set up ***equipment***, tune instrument and confirm requirements with ***relevant personnel*** 2. Set instrument to appropriate volume as directed 3. Sit or stand and ***warm up*** for performance as directed
Perform simple musical parts	4. Perform notated or memorised musical part at appropriate volume 5. Take ***cues*** from relevant personnel to start and end musical part 6. Take cues as required for entry and exit points of musical part
Improve own performance	7. Seek feedback on own performance from relevant personnel 8. Consider and note aspects of own performance that could be improved 9. Respond positively to constructive feedback from others on own performance and take action to improve as required

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE
This section describes the skills and knowledge required for this unit.
Required skills

• communication, teamwork and organisational skills sufficient to:
  • interpret music at a basic level for performance practice
  • respond appropriately to constructive feedback on own performance
  • plan own practice time
• self-management and learning skills sufficient to:
  • follow ensemble protocol and musical instruction
  • improve performance skills through practice and rehearsal
• technical skills sufficient to:
  • perform simple pieces on chosen instrument as part of an ensemble
  • tune instrument to achieve intonation

Required knowledge
• basic understanding of music structures, styles and forms • basic understanding of OHS procedures in relation to performing in a range of environments

Evidence Guide

EVIDENCE GUIDE	
The Evidence Guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, range statement and the Assessment Guidelines for the Training Package.	
Overview of assessment	
Critical aspects for assessment and evidence required to demonstrate competency in this unit	Evidence of the ability to: • follow ensemble protocol • follow musical instruction.
Context of and specific resources for assessment	Assessment must ensure: • access to appropriate repertoire, instrumentation and sheet/recorded music • access to an appropriate performance space • use of culturally appropriate processes, and

EVIDENCE GUIDE	
	techniques appropriate to the language and literacy capacity of learners and the work being performed.
Method of assessment	The following assessment methods are appropriate for this unit: • direct observation of the candidate performing simple musical parts in an ensemble situation • video or audio recordings of candidate's performance or practice sessions • written or oral questioning to assess knowledge of ensemble protocol.
Guidance information for assessment	Holistic assessment with other units relevant to the industry sector, workplace and job role is recommended, for example: • CUSMPF101A Develop skills to play or sing music.

Range Statement

RANGE STATEMENT	
The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording, if used in the performance criteria, is detailed below. Essential operating conditions that may be present with training and assessment (depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts) may also be included.	
Equipment may include:	• chairs • electronic tuners • music stands • PA system and microphones • percussion instruments • stringed instruments • wind instruments.
Relevant personnel may include:	• musical director • performer • mentor • teacher • coach • tutor

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT	
	• conductor • sound engineer.
Warm up may include:	• chords • physical stretching • scales • vocal scales.
Cues may include:	• notation in music score • body movement • musical • verbal or written.

CUSMPF201A Play or sing simple musical pieces

Modification History

Not applicable.

Unit Descriptor

Unit descriptor	This unit describes the performance outcomes, skills and knowledge required to prepare for and perform a simple musical sequence or piece. No licensing, legislative, regulatory or certification requirements apply to this unit at the time of endorsement.

Application of the Unit

Application of the unit	People with some musical experience apply the skills and knowledge outlined in this unit. They are performing in situations that allow them to extend elementary skills in singing or playing a specific musical instrument.

Licensing/Regulatory Information

Not applicable.

Pre-Requisites

Prerequisite units		

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

Employability Skills Information

Employability skills	This unit contains employability skills.

Elements and Performance Criteria Pre-Content

Elements describe the essential outcomes of a unit of competency.	Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the required skills and knowledge section and the range statement. Assessment of performance is to be consistent with the evidence guide.

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
Explore the range and capability of chosen instrument or voice	1. Explore the physical characteristics of ***instrument*** or voice in music making 2. Explore the ***scope***, ***capability*** and sound characteristics of instrument or voice in music making 3. Explore a range of ways in which sound can be produced in line with selected musical style and ***repertoire***
Maintain and care for instrument	4. Use appropriate methods and cleaning products to care for, move, use and store instrument and ***accessories*** 5. Set up and/or warm up instrument or voice in preparation for practice and performance 6. ***Tune*** instrument appropriately and seek feedback from ***relevant personnel*** to confirm accuracy of tuning
Use personal practice time to develop skills	7. Listen to own work carefully to develop intonation, harmonies and/or rhythm, and seek feedback from relevant personnel to guide practice 8. Use personal practice to develop physical ***facility*** and confidence with instrument or voice 9. Use good posture and appropriate finger, hand and/or body positions to develop technical facility and maintain healthy performance habits 10. Develop listening skills to recognise and identify pitch, rhythm, instrumentation and musical style

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

ELEMENT	PERFORMANCE CRITERIA
Perform short pieces	11. Guided by a teacher or mentor, plan activities and physical ***exercises*** to expand capacity to perform a range of short, simple pieces and a range of notes, rhythms and/or chord patterns 12. Listen to the work of professional musicians to identify own goals and evaluate own work against those goals 13. Play or sing short, simple pieces and/or accompaniments using rhythmic control and tuning 14. Perform all work following agreed tempi 15. Apply listening skills in playing or singing short, simple pieces or accompaniments 16. Comply with ***OHS principles*** in practice sessions and performances

Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This section describes the skills and knowledge required for this unit.

Required skills

- communication, teamwork and organisational skills sufficient to:
  - interpret music at a basic level for performance practice
  - respond appropriately to constructive feedback on own performance
  - plan own practice time and setskill-development goals
- listening skills sufficient to:
  - monitor and adjust intonation as required
  - use appropriate sound and tone production for instrument or voice
  - reproduce basic musical patterns
- learning skills in the context of:
  - using printed or audio tutoring resources
  - improving skills through practice
- technical and problem-solving skills sufficient to:
  - use a basic range of techniques on chosen instrument
  - tune instrument to achieve intonation
  - discriminate pitch and produce the required sound
  - discriminate rhythm
  - reproduce musical patterns

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

REQUIRED SKILLS AND KNOWLEDGE
Required knowledge

• basic understanding of:
  • repertoire relevant to selected instrument or voice
  • musical terminology
  • acoustic principles relevant to selected instrument or voice
  • instrument parts, applications, range, capabilities, care and maintenance
  • performance and instrumental protocol and customs in selected musical style and repertoire
• OHS practices, procedures and standards as they apply to performance practice

Evidence Guide

EVIDENCE GUIDE	
The Evidence Guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, range statement and the Assessment Guidelines for the Training Package.	
Overview of assessment	
Critical aspects for assessment and evidence required to demonstrate competency in this unit	Evidence of the ability to: • demonstrate the physical capacity and coordination required to play or sing simple pieces • respond appropriately to constructive feedback on own performance.
Context of and specific resources for assessment	Assessment must ensure: • access to relevant instruments and equipment • suitable physical and acoustic environment • use of culturally appropriate processes, and techniques appropriate to the language and literacy capacity of learners and the work being performed.
Method of assessment	The following assessment methods are appropriate for this unit: • direct observation of candidate in practice sessions or performances • testimonial from individual tutors • video or audio recordings of candidate's performance or practice sessions

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

EVIDENCE GUIDE	
	• written or oral questioning to assess knowledge as listed in the required knowledge section of this unit.
Guidance information for assessment	Holistic assessment with other units relevant to the industry sector, workplace and job role is recommended, for example: • CUSMLT201A Develop and apply musical ideas and listening skills • CUSMPF202A Incorporate music technology into performance • CUSMPF203A Develop ensemble skills for playing or singing music • CUSMPF204A Play music from simple written notation.

Range Statement

RANGE STATEMENT	
The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording, if used in the performance criteria, is detailed below. Essential operating conditions that may be present with training and assessment (depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts) may also be included.	
Instruments may include:	• acoustic or electronic • voice • stringed • keyboards • wind • percussion • brass • plucked.

Scope of an instrument may include:	• tone colour:
	  • instrumental attack
	  • range of accessories
	  • interaction between player and instrument
	  • performer's physique
	  • voice production
	  • sound production

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT	
	• effects • dynamics and volume • pitch, register and tessitura • specific effects available using a range of attacks.
Capability of an instrument may include its:	• application to a range of music-making activities and outcomes • scope and potential for solo or group performance • adaptability • size.

Repertoire may include:	• short, simple pieces appropriate to the selected instrument
	• song forms and their relevant components, such as:
	  • riffs
	  • sequences
	  • rhythm patterns
	  • pieces composed for or by the performer.

Accessories may include:	• reeds • strings • plectrums • mouth pieces • sticks, mallets, brushes and beaters • stands • pedals • microphones • amplifiers • samplers • mixers • enhancers, such as pitch and tone modulators.

Tuning an instrument may involve:	• adjusting:
	  • pitch
	  • tone colour
	  • oral tract, including lip pressure and intensity of breath
	  • position of the diaphragm and larynx
	  • sound production
	  • diameter or other instrumental dimensions, such as:

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT	
	• length of strings • tautness of skins • length of tubing or pipes • embouchure • settings of the instrument and relevant accessories • using: • appropriate tuning options • tuning keys or other tuning implements, such as tuning forks and electronic tuners • pitch pipes • electronic pitch or frequency controls • other musicians.
Relevant personnel may include:	• musical director • performer • colleague • mentor • teacher • coach • tutor • family member.
Facility with instrument or voice may include:	• physical coordination in one or more of: • tonguing • fingering • plucking • beating • pedalling • vocal technique • attack • dynamics • tempi • intonation • sound production • rhythms and rhythm patterns • chords and chord patterns • melodic patterns.
Exercises may include:	• exercises to develop physical coordination in performing music in simple scales, arpeggios, chords or rhythms

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT	
	• exercises to improve breath control • bowing techniques to help coordinate finger action and bowing movements • exercises to develop embouchure • systematic fingering patterns • systematic hand and foot patterns • systematic plucking and picking patterns and exercises • drumming exercises • pedalling exercises • vocal exercises for pitch and articulation.
OHS principles include:	• relevant practice or legislation • hearing and noise reduction strategies • length of performance and practice sessions • correct posture.

CUSMPF202A Incorporate music technology into performance

Modification History

Not applicable.

Unit Descriptor

Unit descriptor	This unit describes the performance outcomes, skills and knowledge required to perform and record music using technology-based equipment. No licensing, legislative, regulatory or certification requirements apply to this unit at the time of endorsement.

Application of the Unit

Application of the unit	Musicians and artists, such as DJs and other electronic music artists, use technology as an integral part of their performance. They need to develop techniques for using technology to enhance performance and maintain and update knowledge of advances in technology. Some musical experience is required to undertake this unit.

Licensing/Regulatory Information

Not applicable.

Pre-Requisites

Prerequisite units		

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

Employability Skills Information

Employability skills	This unit contains employability skills.

Elements and Performance Criteria Pre-Content

Elements describe the essential outcomes of a unit of competency.	Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the required skills and knowledge section and the range statement. Assessment of performance is to be consistent with the evidence guide.

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
Explore the potential of technology-based equipment	1. Discuss with ***appropriate personnel*** ways in which digital equipment can be used to enhance musical performance 2. Use practice sessions to explore the full range of features in standard technology-based equipment 3. Test a range of ways in which ***sound*** can be produced to achieve performance goals consistently and reliably 4. Seek feedback from appropriate personnel on own skill development and set improvement goals
Maintain and care for equipment	5. Use appropriate methods to care for, move, use and store equipment securely and safely 6. Identify maintenance problems with equipment and refer to appropriate personnel for action 7. Use accessories, fittings, maintenance and cleaning products to keep equipment in good condition
Use music technology to enhance performance	8. Use electronic devices or software to record or play music, consistent with the style of the instruments or voices in the act 9. Use electronic devices to reproduce instrumental sounds or sequences 10. Use electronic devices or software to program music 11. Use electronic devices or software to drive ***outboard equipment*** accurately and consistently

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

ELEMENT	PERFORMANCE CRITERIA
	12. Use electronic devices or software to incorporate sound into a music, video, light or multimedia product, as appropriate to the act or individual performance 13. Monitor own proficiency in using electronic devices and note areas for improvement in consultation with appropriate personnel

Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This section describes the skills and knowledge required for this unit.

Required skills

- communication, teamwork and organisational skills sufficient to:
  - follow written and verbal instructions
  - understand information in equipment user guides
  - respond appropriately to constructive feedback on own performance
  - plan own practice time and setskill-development goals
- learning skills in the context of improving skills through practice
- initiative and enterprise skills in the context of using technology-based equipment to produce sounds in a variety of ways
- technical skills in the context of using music technology to perform and record music at a basic level

Required knowledge

- industry knowledge, including:
  - ways in which technology can be used to perform and record music
  - features of standard technology-based equipment and related software
  - musical terminology
- OHS practices, procedures and standards as they apply to using music technology

Evidence Guide

EVIDENCE GUIDE

The Evidence Guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, range statement and the Assessment

EVIDENCE GUIDE	
Guidelines for the Training Package.	
Overview of assessment	
Critical aspects for assessment and evidence required to demonstrate competency in this unit	Evidence of the ability to: • record, reproduce and perform music competently using technology-based equipment • respond positively to constructive feedback on own skill development in relation to incorporating music technology into performance.
Context of and specific resources for assessment	Assessment must ensure: • access to technology-based equipment and related software • access to at least one form of outboard equipment linked to a computer or other technology-based equipment • use of culturally appropriate processes, and techniques appropriate to the language and literacy capacity of learners and the work being performed.
Method of assessment	The following assessment methods are appropriate for this unit: • direct observation or video recordings of candidate using technology-based equipment in practice sessions or performances • testimonial from individual tutors • written or oral questioning to assess knowledge as listed in the required knowledge section of this unit.
Guidance information for assessment	Holistic assessment with other units relevant to the industry sector, workplace and job role is recommended, for example: • CUSMCP303A Develop simple musical pieces using electronic media • CUSMLT201A Develop and apply musical ideas and listening skills • CUSMPF201A Play or sing simple musical pieces.

Range Statement

RANGE STATEMENT

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT	
The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording, if used in the performance criteria, is detailed below. Essential operating conditions that may be present with training and assessment (depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts) may also be included.	
Appropriate personnel may include:	• musical director • performer • mentor • teacher • coach • tutor • sound technician.
Sounds to be reproduced may include:	• individual instruments • groups of instruments • instrumental sounds or sequences from MIDI devices, software programs or other devices.

Outboard equipment may include:	• lights
	• effects, such as:
	  • delay
	  • reverbs
	  • harmoniser
	• personal computer (e.g. PowerPoint files)
	• audiovisual
	• video.

CUSMPF203A Develop ensemble skills for playing or singing music

Modification History

Not applicable.

Unit Descriptor

Unit descriptor	This unit describes the performance outcomes, skills and knowledge required to extend elementary skill development in singing or playing a musical instrument and to perform simple repertoire as part of an ensemble. No licensing, legislative, regulatory or certification requirements apply to this unit at the time of endorsement.

Application of the Unit

Application of the unit	People with some musical experience who perform in an ensemble apply the skills and knowledge outlined in this unit. In this performance context an understanding of group dynamics is essential since members of the group need to develop a rapport with each other as they practise and play together. More complex skills associated with ensemble performance are covered in: • CUSMPF404A Perform music as part of a group.

Licensing/Regulatory Information

Not applicable.

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

Pre-Requisites

Prerequisite units		

Employability Skills Information

Employability skills	This unit contains employability skills.

Elements and Performance Criteria Pre-Content

Elements describe the essential outcomes of a unit of competency.	Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the required skills and knowledge section and the range statement. Assessment of performance is to be consistent with the evidence guide.

Elements and Performance Criteria

ELEMENT	**PERFORMANCE CRITERIA**
Develop an understanding of ensemble playing	1. In a learning environment, develop an understanding of the different ***types*** of ensembles and ***instrument*** combinations 2. With ***appropriate personnel***, discuss ***issues and challenges*** that arise in the context of playing in an ensemble 3. Confirm own role in ensemble
Use group practice time to develop performance skills	4. Guided by a teacher or mentor, select repertoire suited to the performance skills of ensemble members 5. Practise performing pieces together as a group 6. In collaboration with other members of the group identify areas that need to be improved and incorporate into practice sessions as required

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

ELEMENT	PERFORMANCE CRITERIA
Perform short, simple pieces as part of an ensemble	7. Perform warm-up routines as required 8. Contribute to a cohesive performance by taking and giving cues reliably, promptly, accurately and sensitively 9. Synchronise own playing or singing with that of other performers 10. Maintain accuracy in own musical entries and exits throughout the performance 11. Apply ***listening*** skills and adjust own playing or singing as necessary to achieve required sound 12. Comply with ***OHS principles*** in practice sessions and performances 13. After performances, collaboratively and constructively assess how well the group played together and agree on ways to improve performances

Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This section describes the skills and knowledge required for this unit.

Required skills

- communication, teamwork and organisational skills sufficient to:
  - contribute to discussions about suitable repertoire for the ensemble
  - collaborate effectively with other members of the group during performances
  - respond appropriately to constructive feedback on own performance
- contribute constructive planning skills sufficient to:
  - arrive punctually at group practice sessions
  - allow sufficient time for warm-up prior to performances
- listening skills sufficient to:
  - monitor and adjust intonation as required
  - recognise intervals, chords, scales and chord progressions in selected area of specialisation
  - use appropriate sound and tone production for instrument or voice
  - adjust own playing or singing in line with requirements of ensemble performance
- initiative and enterprise skills in the context of:
  - producing sounds in a range of ways appropriate to the ensemble repertoire

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

REQUIRED SKILLS AND KNOWLEDGE

• responding appropriately to the unexpected during performances
• learning skills in the context of improving music performance skills and expression through practice
• technical and problem-solving skills sufficient to:
  • use a range of instrumental techniques on either a first or second instrument
  • use a variety of rhythms and rhythmic styles relevant to specialisation

Required knowledge

• broad understanding of:
  • industry, repertoire and musical terminology
  • acoustic principles relevant to selected instrument and area of specialisation
  • instrument parts, applications, range, capabilities, care and maintenance
  • group and solo performance protocols and customs
• issues and challenges that arise in the context of performing in an ensemble
• OHS practices, procedures and standards as they apply to performing in a range of environments

Evidence Guide

EVIDENCE GUIDE	
The Evidence Guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, range statement and the Assessment Guidelines for the Training Package.	
Overview of assessment	
Critical aspects for assessment and evidence required to demonstrate competency in this unit	Evidence of the ability to: • perform proficiently as a member of a group before an audience on at least two occasions • collaborate effectively with other members of the group during performances • participate constructively in evaluations of group performances.
Context of and specific resources for assessment	Assessment must ensure: • access to relevant instruments and equipment • opportunities for musical collaboration in performances before an audience • appropriate venue with adequate space and acoustic

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

EVIDENCE GUIDE	
	qualities • use of culturally appropriate processes, and techniques appropriate to the language and literacy capacity of the candidate and the work being performed.
Method of assessment	The following assessment methods are appropriate for this unit: • observation or video recordings of performances in which the candidate is a member of an ensemble • written or oral questioning to test knowledge as listed in the required knowledge section of this unit • case studies and scenarios as a basis for discussing issues and challenges that arise in the context of performing in an ensemble.
Guidance information for assessment	Holistic assessment with other units relevant to the industry sector, workplace and job role is recommended, for example: • CUSMLT201A Develop and apply musical ideas and listening skills • CUSMPF201A Play or sing simple musical pieces • CUSMPF202A Incorporate music technology into performance • CUSMPF204A Play music from simple written notation.

Range Statement

RANGE STATEMENT	
The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording, if used in the performance criteria, is detailed below. Essential operating conditions that may be present with training and assessment (depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts) may also be included.	

Types of ensembles may include:	• jazz:
	  • duo
	  • trio
	  • quartet

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT	

	• larger
	• rock and pop line-ups:
	  • lead vocals, bass guitar, drums and percussion
	  • lead vocals, bass guitar, lead guitar, keyboards, backing vocals, drums and percussion
	  • lead vocals, lead guitar, rhythm guitar, backing vocals, bass guitar, DJ, synthesiser, drums and percussion
	• classical chamber music:
	  • duet
	  • trio
	  • quartet
	  • quintet
	  • sextet
	  • septet
	  • octet
	  • nonet.

Instruments may be:	• acoustic or electronic • voice • stringed • keyboards • wind • percussion • brass • plucked.
Appropriate personnel may include:	• musical director • performer • mentor • teacher • coach • tutor.

Issues and challenges may include:	• interaction with other ensemble members:
	  • showing respect for the skills of others
	  • synchronising playing
	  • offering constructive feedback on group performance
	  • responding positively to constructive

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT	
	feedback on own performance • contributing to a cohesive performance • listening critically to own and others' performance • adjusting own playing to achieve the required sound.
Listening may include:	• tuning instrument • recognising music systems and practices • chords and keys in tonal or other musical systems • reproducing sequences from memory • adapting own performance to the overall performance of the group • listening critically to own performance • responding to other players in performance.
OHS principles may include:	• industry practice and legislation • posture • appropriate hearing and volume levels for self and others • electrical hazards • length of performance and practice sessions • preventative practice against overuse injury.

CUSMPF204A Play music from simple written notation

Modification History

Not applicable.

Unit Descriptor

Unit descriptor	This unit describes the performance outcomes, skills and knowledge required to develop basic analytical skills to identify music notational conventions and to play music from simple written music notation. No licensing, legislative, regulatory or certification requirements apply to this unit at the time of endorsement.

Application of the Unit

Application of the unit	Instrumentalists and vocalists apply the skills and knowledge outlined in this unit, which covers the different ways that music-reading skills are used in a performance context. More complex skills associated with reading and notating music are covered in: • CUSMLT303A Notate music • CUSMPF410A Perform music from written notation.

Licensing/Regulatory Information

Not applicable.

Prerequisite units		

Employability Skills Information

Employability skills	This unit contains employability skills.

Elements and Performance Criteria Pre-Content

Elements describe the essential outcomes of a unit of competency.	Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the required skills and knowledge section and the range statement. Assessment of performance is to be consistent with the evidence guide.

Elements and Performance Criteria

ELEMENT	**PERFORMANCE CRITERIA**
Explore conventions of music notation	1. Identify simple ***rhythmic***, ***melodic and harmonic structures*** 2. Examine conventions of ***form and music structures*** 3. Recognise ***dynamics and expression marks***
Perform notated music on an instrument	4. Develop reading skills through private practice 5. Interpret simple melodic and rhythmic structures as required 6. Interpret harmonic structures as required 7. Follow form and music structures as indicated 8. Interpret dynamics and expression marks appropriately
Identify opportunities for further development of music-reading skills	9. Seek feedback from ***appropriate personnel*** to identify individual strengths and weaknesses and develop ***strategies*** to strengthen skills 10. In collaboration with appropriate personnel identify suitable ***repertoire*** for practising music-reading skills 11. Establish a plan for further development of

ELEMENT	PERFORMANCE CRITERIA
	music-reading skills

Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE
This section describes the skills and knowledge required for this unit.

Required skills

- problem-solving skills sufficient to:
  - troubleshoot music-reading problems
  - plan work tasks in a logical sequence
- planning and organisational skills sufficient to:
  - implement a private music practice strategy
  - work to set goals
- initiative and enterprise skills in the context of interpreting expressive style appropriately from written music
- self-management skills sufficient to:
  - work to personal goals
  - seek expert assistance when problems arise
  - manage private music practice
- learning skills sufficient to:
  - improve techniques through practice
  - seek and respond positively to constructive feedback on own performance
- literacy skills sufficient to read and understand relevant sources of information
- technical skills sufficient to:
  - understand simple musical form in the selected specialisation
  - follow musical elements from written music
  - accurately analyse simple scales, chord sequences and music systems, rhythms, time signatures, and beat patterns of musical organisation relevant to specialisation from written music

Required knowledge

- musicianship, including:
  - basic understanding of repertoire relevant to chosen musical specialisation
  - musical protocols and customs for reading written music
  - basic awareness of genres and styles, and their musical forms and conventions in written notation

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

Evidence Guide

EVIDENCE GUIDE	
The Evidence Guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, range statement and the Assessment Guidelines for the Training Package.	
Overview of assessment	
Critical aspects for assessment and evidence required to demonstrate competency in this unit	Evidence of the ability to: • recognise basic music structures • play music from basic written notation • adhere to the conventions of the selected music.
Context of and specific resources for assessment	Assessment must ensure: • access to a selection of notated music for exploration and performance • use of a musical instrument • use of culturally appropriate processes, and techniques appropriate to the language and literacy capacity of the candidate and the work being performed.
Method of assessment	The following assessment methods are appropriate for this unit: • direct observation or video recording of the candidate playing music from written notation • authenticated audio recording of the candidate playing music from written notation • written or oral questioning to test knowledge of basic music conventions • third-party reports from formal practical music examinations.
Guidance information for assessment	Holistic assessment with other units relevant to the industry sector, workplace and job role is recommended, for example: • CUSMPF201APlay or sing simple musical pieces • CUSMLT201A Develop and apply musical ideas and listening skills.

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

Range Statement

RANGE STATEMENT	
The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording, if used in the performance criteria, is detailed below. Essential operating conditions that may be present with training and assessment (depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts) may also be included.	
Rhythmic**, **melodic and harmonic structures may include:	• key signatures • basic harmonic and melodic structures • grouping of simple rhythmic structures • time signatures, including 2/4, 3/4, 4/4, 6/8 and 9/8 • note pitch • note duration • accidentals • chords.
Form and music structures may include:	• bar lines • repeats • sign • coda • ties • rests • phrases • ornaments • popular music forms • jazz forms • classical forms.
Dynamics and expression marks may include:	• tempo • volume • accents • phrasing • articulation • special effects.
Appropriate personnel may include:	• teachers • mentors • musicians • bandleaders • music conductors • choir leaders.

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT	
Strategies may include:	• music examinations • practice schedules • critical self-analysis • documenting weaknesses • formal written strategy.
Repertoire may include:	• classical • jazz • popular music • church.

CUSMPF301A Develop technical skills in performance

Modification History

Not applicable.

Unit Descriptor

Unit descriptor	This unit describes the performance outcomes, skills and knowledge required to build on basic technical skills in a chosen area of music specialisation and to perform simple repertoire. No licensing, legislative, regulatory or certification requirements apply to this unit at the time of endorsement.

Application of the Unit

Application of the unit	Instrumentalists and vocalists apply the skills and knowledge outlined in this unit. In the lead-up to performances they need to develop a regular practice routine which involves tuning and caring for instruments, as well as practising pieces to be performed. At this level, they could be developing skills on either a first or second instrument. More complex skills associated with the development of technical and specialist skills in performance are covered in: • CUSMPF405A Develop performance techniques • CUSMPF406A Perform music as a soloist.

Licensing/Regulatory Information

Not applicable.

Pre-Requisites

Prerequisite units		

Employability Skills Information

Employability skills	This unit contains employability skills.

Elements and Performance Criteria Pre-Content

Elements describe the essential outcomes of a unit of competency.	Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the required skills and knowledge section and the range statement. Assessment of performance is to be consistent with the evidence guide.

Elements and Performance Criteria

ELEMENT	**PERFORMANCE CRITERIA**
Explore the range of instrument or voice	1. Develop control of the physical characteristics of ***instrument*** or voice and apply to performance 2. Extend control over the ***range and scope*** of instrument or voice during performance 3. Explore ***capability*** of instrument and voice in line with ***repertoire*** requirements
Maintain and care for instrument	4. Use appropriate methods and cleaning products to care for, move and store instruments and ***accessories*** 5. Set up and/or warm up the instrument or voice as required 6. ***Tune*** the instrument appropriately to the required standard and in line with tuning conventions
Use personal practice	7. Listen to own work carefully to ensure accurate

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

ELEMENT	PERFORMANCE CRITERIA
time to extend technical skills	intonation, harmonies, ***sound colour*** and rhythm 8. Plan and use personal practice time to achieve performance goals 9. Plan exercises and use practice sessions to ***develop technical skills*** and ***facility*** with instrument or voice during performance 10. Perform and practise activities in line with ***OHS principles*** 11. Plan activities and physical exercises to extend own capacity to produce an extensive range of notes, rhythms and chord patterns 12. Seek and act on feedback from ***relevant personnel*** to guide practice
Perform pieces	13. Play or sing pieces and/or accompaniments from a range of repertoire 14. Perform all work following agreed tempi and musical markings where relevant 15. Use appropriate techniques to improve sound control and intonation, and to achieve variation in sound and tone
Evaluate own performance	16. Listen to the work of professional musicians to set performance goals and evaluate own performance against those goals 17. Act on constructive feedback from relevant personnel on own performance and level of skill development

Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This section describes the skills and knowledge required for this unit.

Required skills

- communication, teamwork and organisational skills sufficient to:
  - interpret music appropriately for performance practice
  - respond appropriately to constructive feedback on own performance
- self-management and planning skills sufficient to plan own practice time and set development goals
- listening skills sufficient to:

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

REQUIRED SKILLS AND KNOWLEDGE
• monitor and adjust intonation as required • recognise intervals, chords, scales and chord progressions in selected area of specialisation • use appropriate sound and tone production for instrument or voice • produce a controlled sound with variations in tone as required • initiative and enterprise skills in the context of: • producing sounds in a range of ways appropriate to selected musical style and repertoire • responding appropriately to the unexpected during performances • learning skills in the context of improving music performance skills and expression through rehearsal • technical and problem-solving skills sufficient to: • use a range of instrumental techniques on either a first or second instrument • tune instrument to achieve intonation • use a variety of rhythms and rhythmic styles relevant to specialisation
Required knowledge
• broad understanding of: • industry, repertoire and musical terminology • acoustic principles relevant to selected instrument and area of specialisation • instrument parts, applications, range, capabilities, care and maintenance • OHS practices, procedures and standards as they apply to performance practice

Evidence Guide

EVIDENCE GUIDE	
The Evidence Guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, range statement and the Assessment Guidelines for the Training Package.	
Overview of assessment	
Critical aspects for assessment and evidence required to demonstrate competency in this unit	Evidence of the ability to: • perform at least three pieces in selected area of specialisation • achieve the required sound • learn and practise to improve own performance • respond positively to constructive feedback on own

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

EVIDENCE GUIDE	
	performance.
Context of and specific resources for assessment	Assessment must ensure: • access to relevant instruments • access to suitable acoustic space • use of culturally appropriate processes, and techniques appropriate to the language and literacy capacity of the candidate and the work being performed.
Method of assessment	The following assessment methods are appropriate for this unit: • observation of practice or performance • written or oral questioning on technical development strategies, planning and goals • video and/or audio recordings of performances or practice sessions • self-evaluation sheets • samples of work plans for private practice sessions • simulation of a performance practice session • case studies and scenarios as a basis to discuss technical issues and strategies to deal with them in performance.
Guidance information for assessment	Holistic assessment with other units relevant to the industry sector, workplace and job role is recommended, for example: • CUSMLT301A Apply knowledge of genre to music making • CUSMPF303A Contribute to backup accompaniment • CUSMPF305A Develop improvisation skills • CUSMPF401A Rehearse music for group performances.

Range Statement

RANGE STATEMENT
The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording, if used in the performance criteria, is detailed below. Essential operating conditions that may be present with training and assessment (depending on the work

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT	
situation, needs of the candidate, accessibility of the item, and local industry and regional contexts) may also be included.	
Instruments may be first or second instruments and may include:	• acoustic or electronic • brass • stringed • keyboards • wind • percussion • plucked • voice.
Range and scope of instruments may include:	• tone colour • articulation • physical attributes and components • control and contrast • sound production • dynamics and volume • pitch, register and tessitura • specific effects available using a range of attacks • other acoustic or electronic effects.
Capability of an instrument may include:	• application to a range of music-making activities and outcomes in selected area of specialisation • scope and potential for solo or group performance in selected area of specialisation • adaptability • size of instrument • history in performance and customs of established performance tradition.
Repertoire may include:	• movements and/or pieces appropriate to selected instrument • improvisation on specific/harmonic structures in selected area of specialisation • songs and tunes in selected area of specialisation • own original pieces • traditional patterns in selected area of music specialisation.
Accessories may include:	• reeds • strings

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT	
	• bows • plectrums • mouth pieces • mutes • sticks, mallets, brushes and beaters • stands • pedals • microphones • amplifiers • samplers • mixers • enhancers, such as pitch and tone modulators.

Tuning an instrument may involve:	• adjusting:
	  • pitch
	  • tone colour
	  • oral tract, including lip pressure and intensity of breath
	  • position of the diaphragm and larynx
	  • sound production
	  • diameter or other instrumental dimensions, such as:
	  • length of strings
	  • tautness of skins
	  • length of tubing or pipes
	  • embouchure
	  • settings of the instrument and relevant accessories
	• using:
	  • appropriate tuning options
	  • tuning keys or other tuning implements, such as tuning forks and electronic tuners
	  • pitch pipes
	  • electronic pitch or frequency controls
	  • other musicians.

Sound colour may involve:	• physical elements of an instrument • instrumental attack and articulation • range of accessories • interaction between player and instrument • performer's physique

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT	
	• voice production • sound production • different instrumental combinations.

Developing technical skills may involve:	• reproducing pieces from written notation, chord charts or aural memory and imitation
	• developing physical coordination
	• playing and/or singing pieces or excerpts
	• playing and/or singing rhythms and rhythm patterns
	• playing chords and chord patterns
	• playing and/or singing melodies
	• systematic fingering patterns
	• bowing techniques to achieve good finger action, bowing movements and smooth bow changes
	• systematic hand and foot patterns
	• systematic plucking, picking and strumming patterns
	• vocal and breath exercises to achieve consistent pitch, articulation and breath control
	• drumming exercises for hands, sticks, mallets, brushes and beaters
	• working effectively with an instrumental or vocal tutor
	• personal practice
	• coaching others
	• performing with other artists
	• observing and listening to the performance of others
	• exercises, such as:
	  • simple major and harmonic scales and arpeggios
	  • pentatonic scales
	  • common modes
	  • simple major and minor triads/chords
	  • rhythm patterns
	  • improvisation within established musical parameters
	• breath control.

Facility with instrument or voice	• intonation • breathing

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT	
may involve:	• embouchure • pedalling • bowing/strokes • fingering • tonguing • tone and articulation • vibrato • phrasing • microphone technique • diction • posture • plucking.
OHS principles may include:	• industry practice and legislation • posture • appropriate hearing and volume levels for self and others • electrical hazards • length of performance and practice sessions • preventative practice against overuse injury.
Relevant personnel may include:	• musical director • performer • mentor • teacher • coach • tutor • conductor • sound engineer.

CUSMPF302A Prepare for performances

Modification History

Not applicable.

Unit Descriptor

Unit descriptor	This unit describes the performance outcomes, skills and knowledge required to use practice time to prepare for performances. No licensing, legislative, regulatory or certification requirements apply to this unit at the time of endorsement.

Application of the Unit

Application of the unit	Musicians and vocalists apply the skills and knowledge outlined in this unit. Effective preparation involves not only practising the pieces to be performed, but applying strategies to overcome performance anxiety and ensuring due regard for personal health and safety considerations.

Licensing/Regulatory Information

Not applicable.

Pre-Requisites

Prerequisite units		

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

Employability Skills Information

Employability skills	This unit contains employability skills.

Elements and Performance Criteria Pre-Content

Elements describe the essential outcomes of a unit of competency.	Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the required skills and knowledge section and the range statement. Assessment of performance is to be consistent with the evidence guide.

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
Clarify performance requirements	1. Discuss ***performance requirements*** with ***appropriate personnel*** 2. Confirm own role and level of responsibility in relation to performances 3. Obtain required ***resources*** in a timely fashion and in line with level of responsibility
Practise instrument and/or act	4. Maintain personal practice to achieve the required standard for rehearsals and performance 5. Develop technical facility and address performance issues and weaknesses during private practice sessions 6. In consultation with appropriate personnel, develop interpretation of music to be performed 7. Participate in rehearsals as required and adjust performance techniques in response to feedback from others 8. Listen critically to own performance and the performance of others to inform own work 9. Respond to other players and adjust own performance in ensemble as required
Observe OHS principles in private practice	10. Establish practice routines to ensure correct posture and movement to minimise strain on the body 11. Ensure that practice sessions are of a suitable length to avoid fatigue and mental or physical stress

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

ELEMENT	PERFORMANCE CRITERIA
	12. Perform warm-up exercises as part of practice routines 13. Apply principles of OHS in physical stance and posture during practice sessions and performance 14. Plan and take reasonable breaks for refreshment and relaxation
Use body effectively and safely	15. Assess and monitor body to realise its own potential and limitations and to maximise performance 16. Avoid danger of injury both to self and others through controlled use of body to maximise performance 17. Note possible stresses and strains of activity on specific parts of the body and take suitable preventative measures to minimise them 18. Where damage is done or suspected, seek advice promptly from appropriate sources and take recommended remedial action
Implement strategies to overcome the effects of performance anxiety	19. In consultation with appropriate personnel, identify the symptoms and likely causes of performance anxiety 20. Identify and implement a range of ***strategies*** to overcome performance anxiety to suit own needs and circumstances 21. Evaluate the effectiveness of strategies used to overcome performance anxiety and modify those strategies as required

Required Skills and Knowledge

Required knowledge

• broad understanding of:
  • repertoire relevant to the selected instrument
  • musical terminology
  • acoustic principles relevant to selected instrument or voice
  • instrument parts, applications, range, capabilities, care and maintenance
  • performance and instrumental protocol and customs in selected musical style and repertoire
  • impact of different performance environments on musical outcomes
  • chosen genres and their musical forms and conventions in performance
  • chord and melodic formulae in area of specialisation
• issues and challenges that arise in the context of preparing for performances

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

Required knowledge
• OHS practices, procedures and standards as they apply to using musical instruments and performing in a range of environments

Evidence Guide

EVIDENCE GUIDE	
The Evidence Guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, range statement and the Assessment Guidelines for the Training Package.	
Overview of assessment	
Critical aspects for assessment and evidence required to demonstrate competency in this unit	Evidence of the ability to: • use personal practice time to reach the standard required for performances • respond positively to constructive feedback on own performance • take account of personal health and safety considerations during practice sessions • communicate effectively with others involved in practice sessions or rehearsals.
Context of and specific resources for assessment	Assessment must ensure: • access to relevant instruments and equipment • use of culturally appropriate processes, and techniques appropriate to the language and literacy capacity of the candidate and the work being performed.
Method of assessment	The following assessment methods are appropriate for this unit: • direct observation of candidate in practice sessions or rehearsals • testimonial from individual tutors • video or audio recordings of candidate in practice sessions or rehearsals • written or oral questioning to assess knowledge as listed in the required knowledge section of this unit • case studies and scenarios as a basis for discussion of issues associated with preparing for performances, including personal health and safety considerations.

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

EVIDENCE GUIDE	
Guidance information for assessment	Holistic assessment with other units relevant to the industry sector, workplace and job role is recommended, for example: • CUSMPF301A Develop technical skills in performance • CUSMPF303A Contribute to backup accompaniment • CUSMPF304A Make a music demo • CUSMPF401A Rehearse music for group performances • CUSMPF404A Perform music as part of a group • CUSMPF406A Perform music as a soloist.

Range Statement

RANGE STATEMENT	
The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording, if used in the performance criteria, is detailed below. Essential operating conditions that may be present with training and assessment (depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts) may also be included.	
Performance requirements may include:	• time • venue • length of performance • rehearsals • private practice time • content • ensemble pieces • solos • dress standards.
Appropriate personnel may include:	• client • musical director • producer • performer • mentor • teacher • coach • tutor

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT	
	• conductor • agent • medical personnel • psychologist.

Resources may include:	• instruments
	• instrumental accessories:
	  • reeds
	  • strings
	  • plectrums
	  • mouth pieces
	  • sticks, mallets, brushes and beaters
	  • stands
	  • pedals
	  • microphones
	  • amplifiers
	  • samplers
	  • mixers
	  • enhancers
	• sheet music
	• music scores
	• music stands.

Strategies to overcome performance anxiety may include:	• focussing on a single element or action at a time
	• relaxation techniques, such as:
	  • meditation
	  • imagery/conscious visualisation
	  • affirmations
	  • stretching
	  • deep breathing
	  • light aerobic exercises
	• focussing on patterns rather than individual notes
	• warm-up routines.

CUSMPF303A Contribute to backup accompaniment

Modification History

Not applicable.

Unit Descriptor

Unit descriptor	This unit describes the performance outcomes, skills and knowledge required to perform for an audience as part of a backup group. In this performance context well-developed interpersonal communication skills are essential to ensure effective collaboration. No licensing, legislative, regulatory or certification requirements apply to this unit at the time of endorsement.

Application of the Unit

Application of the unit	Members of backup groups apply the skills and knowledge outlined in this unit. In addition to proficiency in their chosen instrument, they need to think on their feet during performances to ensure that their contribution to backup accompaniment complements the performance of soloists and blends with that of other group members. Higher level skills associated with developing repertoire are covered in: • CUSMPF403A Develop repertoire as part of a backup group.

Licensing/Regulatory Information

Not applicable.

Pre-Requisites

Prerequisite units		

Employability Skills Information

Employability skills	This unit contains employability skills.

Elements and Performance Criteria Pre-Content

Elements describe the essential outcomes of a unit of competency.	Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the required skills and knowledge section and the range statement. Assessment of performance is to be consistent with the evidence guide.

Elements and Performance Criteria

ELEMENT	**PERFORMANCE CRITERIA**
Prepare to perform backup accompaniment	1. Confirm expected performance outcomes with ***relevant personnel*** 2. Confirm own contribution, ensuring that the part is within own technical and artistic level of performance 3. Use personal practice time before combined rehearsal period begins to achieve the required performance standard 4. Take ***direction*** from and give support to performers during rehearsals 5. Seek feedback on own performance from relevant personnel and adjust performance techniques
Perform backup accompaniment	6. Perform own part in line with agreed performance outcomes 7. Ensure that own contribution enhances the performance

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

ELEMENT	PERFORMANCE CRITERIA
	and complements the inherent qualities of performers 8. Maintain energy levels, concentration and focus throughout the performance 9. ***Listen*** critically to own and others' performance and adjust playing to achieve the required sound 10. Ensure that own conduct and appearance are appropriate to the performance context 11. Adjust volume of playing consistently to the needs of performers and context of performance 12. Take and give cues reliably, promptly, accurately and sensitively 13. Contribute to maintaining a consistent balance between performers and backing
Evaluate performance	14. Contribute to evaluation of the performance of performers in a sensitive, constructive and unbiased way 15. Evaluate own performance as a backup accompanist and note areas for future improvement 16. Seek feedback on own performance from relevant personnel and incorporate suggestions into overall ***strategies*** for improving own backup accompaniment skills

Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE
This section describes the skills and knowledge required for this unit.
Required skills

• communication and teamwork skills sufficient to:
  • interpret music appropriately for performance
  • use appropriate chords and scales, forms, textures or other elements of musical organisation in performance
  • work collaboratively with others to achieve required musical outcomes
• listening skills sufficient to:
  • monitor and adjust intonation as required
  • recognise intervals, chords, scales and chord progressions in selected area of specialisation
  • demonstrate appropriate intonation, dynamics, phrasing, rhythm and expression

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

REQUIRED SKILLS AND KNOWLEDGE

to produce the required sound
• initiative and enterprise skills in the context of collaborating with other backup artists to recover faults in live performances with minimum disruption to the audience's listening experience
• learning skills in the context of improving music performance skills and expression through rehearsal
• self-management and planning skills sufficient to:
  • plan practice time prior to performance to improve technical facility
  • allow sufficient time for warm-up prior to performances
  • maintain an appropriate standard of personal presentation
• technical and problem-solving skills sufficient to:
  • use a range of instrumental techniques in selected area of specialisation
  • use a variety of rhythms, time signatures, beat patterns and rhythmic styles relevant to specialisation
  • perform appropriately for the context of venues, available sound forces and the act

Required knowledge

• broad understandingof:
  • solo or group performance protocols and customs
  • industry, repertoire and musical terminology
  • impact of different performance environments on musical outcomes
  • chosen genres and their musical forms and conventions in performance
  • chord and melodic formulae in selected area of specialisation
• issues and challenges that arise in the context of performing backup accompaniment
• OHS practices, procedures and standards as they apply to using musical instruments and performing in a range of environments

Evidence Guide

EVIDENCE GUIDE	
The Evidence Guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, range statement and the Assessment Guidelines for the Training Package.	
Overview of assessment	
Critical aspects for assessment and	Evidence of the ability to:

CUSMPF304A Make a music demo

Modification History

Not applicable.

Unit Descriptor

Unit descriptor	This unit describes the performance outcomes, skills and knowledge required to plan and produce a music demo. No licensing, legislative, regulatory or certification requirements apply to this unit at the time of endorsement.

Application of the Unit

Application of the unit	The production of music demos in audio or video formats is a common way for musicians and songwriters to promote their work to the public, record companies and media outlets. Individual musicians or band members apply the skills and knowledge outlined in this unit. In this role they organise the recording of music demos, which is a highly collaborative process involving both creative and technical personnel. An understanding of potential avenues for distribution of the final product is essential. Skills associated with the technical side of recording a demo are covered in: • CUSSOU302A Record and mix a basic music demo.

Licensing/Regulatory Information

Employability skills	This unit contains employability skills.

Elements and Performance Criteria Pre-Content

Elements describe the essential outcomes of a unit of competency.	Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the required skills and knowledge section and the range statement. Assessment of performance is to be consistent with the evidence guide.

Elements and Performance Criteria

ELEMENT	**PERFORMANCE CRITERIA**
Plan a music demo recording	1. Identify the ***purpose*** of the music demo 2. Discuss with ***appropriate personnel*** the image and style of the performance to be recorded and select the most appropriate music 3. Agree on repertoire balance, including original material and covers to be performed 4. Discuss and confirm all details of any creative collaboration with other performers 5. Agree on ***method*** and ***format*** for final recording 6. Allocate ***roles and responsibilities*** in the demo production process 7. Develop a recording plan that takes into account a range of ***factors*** as required
Work collaboratively with recording personnel	8. Collaborate with technical personnel to ensure that instruments and ***equipment*** are set up to avoid undue

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

ELEMENT	PERFORMANCE CRITERIA
	interruption during the recording process 9. Communicate positively with session personnel and show awareness of recording protocols and ***conventions***, as well as respect for the skills of others 10. Maintain a constructive working relationship with all involved in the recording to achieve agreed outcomes
Finalise demo recording	11. Listen to and review rough mixes 12. Contribute to the mixing and mastering of the recording as required 13. Review the final mix and discuss and negotiate refinements as required 14. Ensure that the final recording is in the required format for distribution 15. Evaluate the process of producing the demo recording and note areas for future improvement

Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This section describes the skills and knowledge required for this unit.

Required skills

- communication and teamwork skills sufficient to:
  - clearly articulate ideas about the music demo to those involved in the recording process
  - negotiate changes and refinements to the recording in a collaborative manner
  - work constructively with creative and technical personnel involved in the recording
- initiative and enterprise skills in the context of devising the most appropriate repertoire for the music demo
- planning and organisational skills sufficient to develop and implement a plan for producing a music demo
- self-management skills sufficient to:
  - achieve personal goals in relation to the music demo
  - seek expert assistance when problems arise
  - arrive on time to recording sessions
- problem-solving skills sufficient to:
  - assist with troubleshooting technical and artistic problems associated with the

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

REQUIRED SKILLS AND KNOWLEDGE
music demo project • improve recording techniques
Required knowledge

• sound understanding of music-related issues, including:
  • styles, genres, musical forms and conventions relevant to the music demo
  • musical and cultural protocols
  • musical performance conventions
  • elements of musical organisation in relation to content of the demo recording
  • recording procedures
  • characteristics and potential of different file formats for editing, production and distribution of the music demo
• issues and challenges that arise when making a music demo
• OHS issues as they relate to recording sessions

Evidence Guide

EVIDENCE GUIDE	
The Evidence Guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, range statement and the Assessment Guidelines for the Training Package.	
Overview of assessment	
Critical aspects for assessment and evidence required to demonstrate competency in this unit	Evidence of the ability to: • plan the production of at least two music demos • contribute to decision-making about the final sound of the music demo • work collaboratively on the production of a music demo.
Context of and specific resources for assessment	Assessment must ensure: • access to recording equipment and post-production computers and software • use of culturally appropriate processes, and techniques appropriate to the language and literacy capacity of the candidate and the work being performed.
Method of assessment	The following assessment methods are appropriate for

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

EVIDENCE GUIDE	
	this unit: • direct observation or video recording of the candidate in recording sessions • evaluation of demo recording plans developed by the candidate • evaluation of authenticated demo recordings made by the candidate • written or oral questioning to test knowledge as listed in the required knowledge section of this unit • case studies and scenarios as a basis for discussion of issues associated with producing music demos.
Guidance information for assessment	Holistic assessment with other units relevant to the industry sector, workplace and job role is recommended, for example: • CUSMPF302A Prepare for performances • CUSMPF401A Rehearse music for group performances • CUSIND301A Work effectively in the music industry • CUSIND302A Plan a career in the creative arts industry.

Range Statement

RANGE STATEMENT	
The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording, if used in the performance criteria, is detailed below. Essential operating conditions that may be present with training and assessment (depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts) may also be included.	
Purpose may include:	• pitching a product at record labels • pursuing work at live music venues • getting work via live music or advertising agencies • getting air play on media outlets • accompanying a funding application • uploading onto music and/or social networking websites

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT	
	• developing media for band or solo artist websites • supporting applications for study and/or remote auditions • expanding a music portfolio • documenting a music project or other creative body of work.
Appropriate personnel may include:	• artists, musicians and performers • audio and sound engineers • broadcasters • producers • post-production personnel • program managers • camera operators.
Method may include:	• live to two-track stereo • live multi-tracking • multi-tracking with click • combination live recording and prerecorded samples • recording to analogue tape • recording to hard disk or digital tape • remixing existing music • video • using music production software for mixing and mastering.

Format may include:	• compact disc (CD)
	• audio file formats for upload and distribution within virtual environments and/or onto relevant media players, such as:
	  • MP3
	  • WAV
	  • AIFF
	• audiotape
	• video:
	  • digital (high resolution)
	  • digital (compressed for online environment)
	  • analogue.

Roles and responsibilities may include:	• recording engineer • mixing engineer

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT	
	• mastering engineer • musician • composer and/or songwriter • music software production specialist • producer • project manager • artist manager • venue owner or manager • studio owner or manager • promoter.

Factors may include:	• budget
	• timelines
	• availability of personnel, including:
	  • musicians
	  • sound recordists
	  • sound mixers
	  • post-production personnel
	• promotional materials
	• distribution strategies
	• recording location, including:
	  • live music venue
	  • recording studio
	  • private residence
	• rehearsal requirements
	• number of recording sessions required
	• equipment requirements
	• hire of equipment or venue
	• instruments
	• props
	• costumes
	• make-up.

Equipment may include:	• condenser and/or dynamic microphones • computer and recording software • audio interface - DI converters • tape machines • microphone stands and clips • mixing and mastering software • microphone and other leads • power supplies

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT	
	• hard disk recorder and/or external disk drive.

Conventions may include:	• lead-in procedures
	• verbal cues
	• visual cues
	• for video recordings:
	  • avoiding mannerisms that detract from the performance
	  • using appropriate spontaneous or rehearsed stage movements
	  • maintaining appropriate eye contact with cameras
	  • acknowledging other performers.

CUSMPF305A Develop improvisation skills

Modification History

Not applicable.

Unit Descriptor

Unit descriptor	This unit describes the performance outcomes, skills and knowledge required to perform simple musical improvisation in a chosen area. No licensing, legislative, regulatory or certification requirements apply to this unit at the time of endorsement.

Application of the Unit

Application of the unit	Musicians who perform improvisation in a range of musical genres and traditions apply the skills and knowledge outlined in this unit. They could be playing simple improvisations as they perform in jazz, blues, classical, folk or rock groups. More complex skills associated with performing before an audience are covered in: • CUSMPF505A Perform improvisation for audiences.

Licensing/Regulatory Information

Not applicable.

Prerequisite units		

Employability Skills Information

Employability skills	This unit contains employability skills.

Elements and Performance Criteria Pre-Content

Elements describe the essential outcomes of a unit of competency.	Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the required skills and knowledge section and the range statement. Assessment of performance is to be consistent with the evidence guide.

Elements and Performance Criteria

ELEMENT	**PERFORMANCE CRITERIA**
Apply music knowledge to improvisation	1. In a ***learning environment*** develop an understanding of ***musical elements*** that lend themselves to embellishment in the context of improvisation 2. Develop aural-recognition skills sufficient to practise simple improvisation in chosen ***area*** 3. Seek feedback on own skill development from ***relevant personnel*** 4. Listen critically to live and recorded improvised music as a way of exploring different improvisation techniques
Practise improvisation	5. Develop improvisation ***techniques*** in chosen area 6. Improvise around musical elements suited to chosen area 7. Memorise repertoire as required 8. Seek feedback on own skill development from relevant personnel and refine techniques
Perform simple solo	9. Rehearse aspects of ensemble performance as required

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

ELEMENT	PERFORMANCE CRITERIA
improvisation	10. Respond accurately to starting ***cues*** 11. Sustain musical impetus in the solo improvisation through dynamic use of musical elements 12. Listen carefully to other performers, respond aurally to their work and adjust own performance appropriately 13. Observe ensemble customs and protocols during performance 14. Provide a clear cue to the ensemble to finish the solo section 15. Seek feedback on own performance from relevant personnel and refine improvisation techniques

Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This section describes the skills and knowledge required for this unit.

Required skills

- communication and teamwork skills sufficient to:
  - respond appropriately to aural cues
  - interpret music appropriately for improvisation
  - work collaboratively with others to develop own improvisation skills
  - respond positively to constructive advice from teachers and peers
- self-management and planning skills sufficient to:
  - plan own practice time
  - set realistic personal goals
  - memorise repertoire as required
- initiative and enterprise skills in the context of developing a creative approach to improvisation
- learning skills in the context of improving improvisation skills through practice
- technical skills sufficient to perform simple improvisation on chosen instrument

Required knowledge

- broad understanding of:
  - chosen genres and their musical forms and conventions for improvisation
  - instrumental combinations in selected area of specialisation
  - phrasing and shaping music appropriately

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

REQUIRED SKILLS AND KNOWLEDGE
• techniques for expressing appropriate musical nuance • musical elements listed in the range statement • musical vocabulary • issues and challenges that typically arise in the context of developing improvisation skills • OHS practices, procedures and standards as they apply to using musical instruments and performing in a range of environments

Evidence Guide

EVIDENCE GUIDE	
The Evidence Guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, range statement and the Assessment Guidelines for the Training Package.	
Overview of assessment	
Critical aspects for assessment and evidence required to demonstrate competency in this unit	Evidence of the ability to: • perform simple solo improvisation in chosen area on a number of occasions • work collaboratively with members of an ensemble when developing improvisation skills.
Context of and specific resources for assessment	Assessment must ensure: • access to relevant instruments • opportunities to perform improvisation as part of an ensemble • use of culturally appropriate processes, and techniques appropriate to the language and literacy capacity of the candidate and the work being performed.
Method of assessment	The following assessment methods are appropriate for this unit: • observation of practice and/or performance • written or oral questioning on the music structures of improvisation • video and/or audio recordings of performances or practice sessions • written or oral questioning to test knowledge as listed

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

EVIDENCE GUIDE	
	in the required knowledge section of this unit • case studies and scenarios as a basis for discussing issues in performance of improvisation • portfolios or other documentation that demonstrate the processes used in improvisation.
Guidance information for assessment	Holistic assessment with other units relevant to the industry sector, workplace and job role is recommended, for example: • CUSMLT301A Apply knowledge of genre to music making • CUSMLT302ADevelop and apply aural-perception skills • CUSMPF301A Develop technical skills in performance • CUSMPF303A Contribute to backup accompaniment.

Range Statement

RANGE STATEMENT	
The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording, if used in the performance criteria, is detailed below. Essential operating conditions that may be present with training and assessment (depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts) may also be included.	
Learning environment may include:	• school • college • private tuition • rehearsal.
Musical elements may include:	• melody • chords and chord progressions • intervals • harmony • rhythm • notes • chord-scale relationships • expression

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT	
	• motifs • tone.

Areas may include:	• genre, such as:
	  • blues
	  • folk
	  • rock
	  • jazz
	  • classical
	• any musical instrument
	• voice.

Relevant personnel may include:	• ensemble member • mentor • teacher • coach • tutor • musical director.
Techniques may include:	• variation of previous elements • two-chord progressions • 32-bar standards • arpeggios on chord sequences • note placement • intermediate chord substitution • theme and variation • forward motion • harmonic riffs • forming coherent melodic lines • creating contrasting motif lines • mixing chord tones and scales • single chromatic approaches • double chromatic approaches.
Cues may include:	• verbal • physical gestures • musical.

CUSMPF401A Rehearse music for group performances

Modification History

Not applicable.

Unit Descriptor

Unit descriptor	This unit describes the performance outcomes, skills and knowledge required to rehearse for a group performance. No licensing, legislative, regulatory or certification requirements apply to this unit at the time of endorsement.

Application of the Unit

Application of the unit	Musicians and vocalists in all genres need to rehearse prior to performances. In addition to knowing their repertoire and being able to perform to the required standard, they must also be disciplined enough to arrive at rehearsals on time and participate in a collaborative way with other members of the group. They are also expected to hone their skills in private practice time outside rehearsals.

Licensing/Regulatory Information

Not applicable.

Pre-Requisites

Prerequisite units

Employability Skills Information

Employability skills	This unit contains employability skills.

Elements and Performance Criteria Pre-Content

Elements describe the essential outcomes of a unit of competency.	Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the required skills and knowledge section and the range statement. Assessment of performance is to be consistent with the evidence guide.

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
Prepare for rehearsals	1. Confirm ***rehearsal requirements*** with ***relevant personnel*** 2. Confirm ***repertoire*** for performance and ***materials and equipment*** required at rehearsals 3. Confirm that rehearsals are of reasonable length and include appropriate breaks to allow for the physical needs of performers 4. Confirm that facilities and equipment provide an environment that is safe and conducive to learning and performance 5. Discuss and negotiate changes to rehearsal arrangements with relevant personnel as required
Prepare own performance for rehearsal in private practice	6. Identify and implement ***strategies for developing rehearsal skills*** 7. Allocate sufficient private practice time to prepare individual performance to the required standard 8. Where required, ensure that sight reading will be performed accurately and to the required standard 9. Develop instrumental or vocal technique to the standard required by the repertoire 10. Identify and remedy areas of deficiency in the

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

ELEMENT	PERFORMANCE CRITERIA
	performance repertoire
Participate in rehearsals	11. Attend rehearsals punctually with required materials to hand 12. Respond promptly and accurately to directions as required 13. Take and give cues reliably, promptly, accurately and sensitively 14. Communicate problems or issues that are relevant to the group in a constructive and timely manner, reflecting an understanding of the group and the achievement of rehearsal outcomes 15. Maintain effective eye contact with the director and/or other ensemble players where appropriate to ensure a cohesive performance 16. Discuss stylistic and interpretive questions at appropriate times and in an appropriate manner so as to maintain the flow of the rehearsal and quality of performance 17. Discuss and resolve technical or other problems in a positive and appropriate manner 18. Incorporate relevant advice about own playing as required to advance quality in performance
Perform to the required professional standard in rehearsal	19. Identify, interpret and prepare musical line within the overall work to the standard required for performance 20. Integrate own part within overall presentation to advance best performance outcomes 21. Contribute to a shared response to work and adjust playing to the performing group style 22. Adapt contribution to the performing group and the particular context as required 23. Recognise and support the contribution of other artists appropriately 24. Respect the working methods, personalities and special needs of other performers 25. Harness and pace energy during the process to enable sustained input and consistent performance quality 26. Apply ***listening skills*** to continuously evaluate and adjust own work 27. Apply ***music knowledge*** to enhance own performance
Contribute to a rehearsal culture	28. Prepare own instrument, music and/or equipment in time to meet the demands of the rehearsal schedule 29. Establish and maintain empathy and rapport in

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

ELEMENT	PERFORMANCE CRITERIA
	performance with all members of the group to advance performance outcomes 30. Refine own interpretation through appropriate interaction with other performance participants 31. Support all performers to encourage artistic commitment

Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This section describes the skills and knowledge required for this unit.

Required skills

- communication and teamwork skills sufficient to:
  - interpret music appropriately for rehearsals and performances
  - recognise and support the contribution of other artists appropriately
  - collaborate effectively with other artists during rehearsals according to agreed schedule
- listening skills in the context of:
  - listening critically to the performance of others
  - listening critically to and adjusting own performance to achieve the required sound
  - recognising intervals, chords, scales and chord progressions in selected area of specialisation
  - responding to other players and adjusting own performance accordingly
- self-management and planning skills sufficient to:
  - plan practice time prior to rehearsals
  - arrive punctually at rehearsals
- initiative and enterprise skills in the context of:
  - experimenting with a variety of musical interpretations
  - understanding and expressing appropriate musical nuance
- learning skills in the context of improving music performance skills and expression through rehearsal and performance
- technical and problem-solving skills sufficient to:
  - use a range of instrumental techniques in selected area of specialisation
  - tune instrument to achieve intonation
  - use a variety of rhythms and rhythmic styles relevant to specialisation
  - use appropriate chords and scales, forms, textures or other elements of musical

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

REQUIRED SKILLS AND KNOWLEDGE
organisation in performance for selected area of specialisation
Required knowledge

• sound knowledge of:
  • range of genres and their musical forms and conventions in performance
  • solo or group performance protocols and customs in selected area of specialisation
  • technical requirements of relevant instruments for accurate and appropriate performance in selected area of specialisation
• issues and challenges that typically arise in the context of rehearsals
• OHS practices, procedures and standards as they apply to using musical instruments and performing in a range of environments

Evidence Guide

EVIDENCE GUIDE	
The Evidence Guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, range statement and the Assessment Guidelines for the Training Package.	
Overview of assessment	
Critical aspects for assessment and evidence required to demonstrate competency in this unit	Evidence of the ability to: • perform proficiently on chosen instrument in at least three rehearsals • listen effectively for and adjust intonation and nuance in performance • apply interpretation and expression skills • communicate effectively with other performers to achieve the required standard of performance.
Context of and specific resources for assessment	Assessment must ensure: • access to appropriate instruments, equipment and rehearsal space • opportunities to rehearse • use of culturally appropriate processes, and techniques appropriate to the language and literacy capacity of the candidate and the work being performed.

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

EVIDENCE GUIDE	
Method of assessment	The following assessment methods are appropriate for this unit: • observation or video recording of candidate during rehearsals • written or oral questioning to test knowledge as listed in the required knowledge section of this unit • evaluation of documented discussion of time-management strategies with the candidate • relevant samples of artistic work with candidate's evaluation of rehearsal planning • samples of work plans for rehearsal • case studies as a basis for discussion of issues, methods and strategies in rehearsing music for performance.
Guidance information for assessment	Holistic assessment with other units relevant to the industry sector, workplace and job role is recommended, for example: • CUSMPF302APrepare for performances • CUSMPF402ADevelop and maintain stagecraft skills • CUSMPF403A Develop repertoire as part of a backup group • CUSMPF404A Perform music as part of a group.

Range Statement

RANGE STATEMENT	
The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording, if used in the performance criteria, is detailed below. Essential operating conditions that may be present with training and assessment (depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts) may also be included.	
Rehearsal requirements may include:	• duration • frequency • schedule • procedures • pre-rehearsal preparation • venues

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT	
	• musical context • artistic and commercial objectives • other people involved in rehearsals.
Relevant personnel may include:	• performers • ensemble members • presenters • artists • musical directors • conductors • tutors • mentors • sound engineers.
Repertoire may include:	• movements and/or pieces appropriate to the selected instrument • improvisation on specific/harmonic structures • songs and tunes • own original pieces • traditional patterns.
Materials and equipment may include:	• instruments and accessories • scores, charts, tapes and CDs • pencils to make notes or mark music scores • electrical equipment • sound enhancement • music and/or microphone stands • electronic hardware and software for performance relevant to selected area of specialisation • music-recording equipment • special-effects devices.
Strategies for developing rehearsal skills may include:	• listening to and learning from a musical director and performance peers • participating in a range of rehearsals in selected area of specialisation • participating in professional development and other learning opportunities in selected area of specialisation • attending performances in selected area of specialisation • being involved in a range of music-making activities • studying performance techniques in a range of

CUSMPF402A Develop and maintain stagecraft skills

Modification History

Not applicable.

Unit Descriptor

Unit descriptor	This unit describes the performance outcomes, skills and knowledge required to apply a well-developed range of stagecraft skills during performances. No licensing, legislative, regulatory or certification requirements apply to this unit at the time of endorsement.

Application of the Unit

Application of the unit	Musicians and performers in all genres apply the skills and knowledge described in this unit. Applying an appropriate range of stagecraft skills can lead to audiences having a more enjoyable and entertaining experience. An essential feature of stagecraft skills is the ability to engage with audiences - whether through dialogue, movement or gestures. A performer's image and reputation are often linked to the way they approach performances, not just with their ability to play an instrument or sing. More complex skills associated with leading a group in the area of stagecraft are covered in: • CUSMPF602A Manage stagecraft aspects of performances.

Licensing/Regulatory Information

Not applicable.

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

Pre-Requisites

Prerequisite units		

Employability Skills Information

Employability skills	This unit contains employability skills.

Elements and Performance Criteria Pre-Content

Elements describe the essential outcomes of a unit of competency.	Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the required skills and knowledge section and the range statement. Assessment of performance is to be consistent with the evidence guide.

Elements and Performance Criteria

ELEMENT	**PERFORMANCE CRITERIA**
Develop stagecraft skills	1. In consultation with ***relevant personnel***, identify appropriate ***learning*** and stage experience opportunities to develop ***stagecraft skills*** relevant to area of music performance 2. Identify own strengths and weaknesses and determine ***strategies*** to develop stagecraft skills in line with personal goals 3. Plan stage image, including use of ***technology***, to present a coherent and appropriate image that enhances performances 4. Use rehearsal, stage opportunities and private practice to develop stagecraft skills
Apply stagecraft skills	5. Present performance confidently and unselfconsciously 6. Avoid mannerisms and facial expressions that distract

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

ELEMENT	PERFORMANCE CRITERIA
	attention from the performance and the image being projected 7. Maintain appropriate eye contact with audience and use gesture appropriately 8. Maintain performance energy and flexibility using appropriate spontaneous or rehearsed stage movements 9. Pace performance to allow adequate energy output for the duration of performance 10. Respond flexibly to the unexpected on stage or front of house, to maintain the flow and integrity of performances 11. Interact cooperatively with other performers on stage and acknowledge their work appropriately 12. Communicate effectively with audiences before, between and after performances 13. Acknowledge applause in a manner that is appropriate to the context and sensitive to other performers
Maintain stagecraft skills	14. Evaluate own stagecraft to improve performance and to broaden and enhance skills in line with personal goals and career aspirations 15. Seek and use feedback from peers and leaders to improve performance and broaden and refine stagecraft skills 16. Seek and use relevant publications, work and/or study opportunities in specific aspects of stagecraft 17. Discuss perceived problems in developing stagecraft skills with relevant personnel to add value to performance and stage communication
Maintain stage fitness	18. Use appropriate strategies to maintain stage fitness and to counter possible damage from practice, rehearsal and performance, and/or lifting and carrying 19. Plan adequate rest breaks to maintain work performance and to counter stress and anxiety
Avoid occupational hazards	20. Identify and use appropriate mental and physical warm-up and warm-down exercises for all practice sessions, rehearsals and performances 21. Verify safe sound levels and use strategies for controlling the length of exposure to protect hearing 22. Perform in smoke-free environments wherever possible 23. Identify the physical risks of carrying equipment and use safe lifting practices to avoid injury

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

ELEMENT	PERFORMANCE CRITERIA
	24. Apply healthy posture habits in practice, rehearsal and performance to maintain muscular and skeletal strength, avoid overuse injury, and prolong performing career 25. Report injuries or symptoms according to designated procedures, or seek medical advice promptly

Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This section describes the skills and knowledge required for this unit.

Required skills

- communication and teamwork skills sufficient to:
  - seek and use feedback from peers and leaders to improve stagecraft skills and performance
  - appropriately recognise and support the contribution of other artists
  - working creatively with individual differences
  - interact and collaborate with other artists to achieve required performance outcomes
- listening skills sufficient to:
  - listen critically to the performance of others and respond appropriately
  - listen critically to and adjust own performance to achieve required outcomes
- initiative and enterprise skills in the context of:
  - using original and innovative approaches in stage performances
  - understanding and expressing appropriate dramatic nuance
  - taking venue and style of show into account when performing
  - engaging with audiences in ways that entertain and enhance people's overall experience
- learning skills in the context of accessing opportunities to improve stagecraft skills
- self-management skills sufficient to:
  - observe protocols appropriate to the genre, style and context of performance
  - maintain an appropriate standard of stage presentation relevant to the area of specialisation
- technical and problem-solving skills sufficient to use:
  - body appropriately in movement and breathing to enhance stage performance
  - instrument and performing spaces, dress, make-up and props in ways that enhance the overall performance

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

REQUIRED SKILLS AND KNOWLEDGE
• stage equipment and technology to enhance stage performance • techniques to control and enhance stage movement
Required knowledge

• sound knowledge of:
  • range of genres and their musical forms and conventions in performance in selected area of specialisation
  • solo or group performance protocols and customs in selected area of specialisation
  • technical requirements of relevant instruments for accurate and appropriate performance in selected area of specialisation
• issues and challenges that arise in the context of applying stagecraft skills to performances
• OHS practices, procedures and standards as they apply to using musical instruments and performing in a range of environments

Evidence Guide

EVIDENCE GUIDE	
The Evidence Guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, range statement and the Assessment Guidelines for the Training Package.	
Overview of assessment	
Critical aspects for assessment and evidence required to demonstrate competency in this unit	Evidence of the ability to: • develop and apply a range of stagecraft skills appropriate to the style of performance on at least three occasions • communicate effectively with audiences.
Context of and specific resources for assessment	Assessment must ensure: • access to relevant instruments and equipment • opportunities to perform before an audience • use of culturally appropriate processes, and techniques appropriate to the language and literacy capacity of learners and the work being performed.
Method of assessment	The following assessment methods are appropriate for this unit:

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

EVIDENCE GUIDE	
	• observation or video recording of candidate during performances • written or oral questioning to test knowledge as listed in the required knowledge section of this unit • evaluation of documented or recorded discussion with candidate about personal career goals and the role stagecraft skills play in those • case studies as a basis for discussion of issues, methods and strategies associated with developing and maintaining stagecraft skills.
Guidance information for assessment	Holistic assessment with other units relevant to the industry sector, workplace and job role is recommended, for example: • CUSMPF401A Rehearse music for group performances • CUSMPF404A Perform music as part of a group • CUSMPF406A Perform music as a soloist • CUSMPF505A Perform improvisation for audiences.

Range Statement

RANGE STATEMENT	
The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording, if used in the performance criteria, is detailed below. Essential operating conditions that may be present with training and assessment (depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts) may also be included.	
Relevant personnel may include:	• performers • ensemble members • presenters • musical directors • stage directors • peers • conductors • tutors • mentors • technical crew.

RANGE STATEMENT	
Learning may take place through:	• tutoring • mentoring • coaching • work experience • shadowing • structured or formal training • evaluating the work of others • continuing evaluation of own work • peer and audience feedback.
Stagecraft skills may include:	• interaction with audiences • make-up and hair • posture • dress • movement • interaction with other performers • facial expressions • way of holding instruments or equipment, such as microphones • effective use of performance space and props.
Strategies for developing stagecraft skills may include:	• working with a class or individual tutor • participating in professional development and other learning opportunities • participating in relevant groups or associations • studying the performance of others • communicating with peers • participating in professional forums • contributing to, and participating in, paid or amateur stage movement opportunities • being involved in a range of stagecraft activities.
Technology may include:	• special-effects devices • lighting and lighting equipment • sound equipment • staging equipment • props.

CUSMPF403A Develop repertoire as part of a backup group

Modification History

Not applicable.

Unit Descriptor

Unit descriptor	This unit describes the performance outcomes, skills and knowledge required to select and rehearse repertoire as part of a backup group. No licensing, legislative, regulatory or certification requirements apply to this unit at the time of endorsement.

Application of the Unit

Application of the unit	Musicians and vocalists who perform in backup groups apply the skills and knowledge outlined in this unit. Typically they are supporting solo artists and could be performing in any genre. In addition to contributing to the selection of repertoire and being able to perform to the required standard, they must also be disciplined enough to arrive at rehearsals on time and participate in a collaborative way with other members of the group. They are also expected to hone their skills in private practice time outside rehearsals.

Licensing/Regulatory Information

Not applicable.

Pre-Requisites

Prerequisite units

Prerequisite units		

Employability Skills Information

Employability skills	This unit contains employability skills.

Elements and Performance Criteria Pre-Content

Elements describe the essential outcomes of a unit of competency.	Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the required skills and knowledge section and the range statement. Assessment of performance is to be consistent with the evidence guide.

Elements and Performance Criteria

ELEMENT	**PERFORMANCE CRITERIA**
Clarify backup requirements	1. Confirm overall performance ***requirements*** in consultation with ***appropriate personnel*** 2. As required, become familiar with work of solo artist for whom backup is being provided 3. Confirm number and type of ***performers*** required in the backup group 4. Participate in organising members of backup group as required 5. Confirm nature and extent of own contribution to the backup group 6. Confirm timetable leading up to performance so that sufficient notice is given to colleagues and adequate private practice and rehearsal time is allocated
Select repertoire	7. Collaborate with appropriate personnel to select a range of items suited to the ***purpose*** of the performance and

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

ELEMENT	PERFORMANCE CRITERIA
	solo artist's style 8. Discuss ***pros and cons*** of items and agree on a program that provides balance and variety in line with performance requirements 9. Obtain final sign-off on program as required
Rehearse repertoire	10. Use personal practice time to develop own instrumental or vocal technique to the standard required by the repertoire 11. Attend rehearsals punctually with required materials to hand 12. Perform repertoire pieces together as a group with solo artist as required 13. Discuss stylistic and interpretive questions at appropriate times and in an appropriate manner so as to maintain the flow of rehearsals and quality of performance 14. Discuss and resolve technical or stagecraft issues in a positive and appropriate manner 15. Incorporate relevant advice about own performance as required to advance quality in performance 16. In collaboration with other members of the group identify areas that need to be improved and incorporate into personal practice sessions and rehearsals as required

Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE
This section describes the skills and knowledge required for this unit.
Required skills

• communication and teamwork skills sufficient to:
  • discuss repertoire requirements in a collaborative manner
  • collaborate effectively with other musicians and performers during rehearsals
  • provide constructive feedback on group performances to other members of the group
  • respond positively to constructive feedback on own performance in the group
• listening skills in the context of:
  • listening critically to the performance of others
  • listening critically to and adjusting own performance to achieve the required

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

REQUIRED SKILLS AND KNOWLEDGE
sound • responding to other players and/or vocalists and adjusting own performance accordingly • self-management and planning skills sufficient to: • plan practice time prior to rehearsals • arrive punctually at rehearsals • initiative and enterprise skills in the context of contributing to the development of repertoire that best meets the requirements of performances • learning skills in the context of: • improving music performance skills and expression through rehearsal • extending repertoire knowledge • technical skills sufficient touse a range of techniques on chosen instruments
Required knowledge
• sound knowledge of: • range of genres and their musical forms and conventions in performance • solo or group performance protocols and customs in area of specialisation • technical requirements of relevant instruments for accurate and appropriate performance in selected area of specialisation • issues and challenges that arise in the context of developing repertoire as part of a backup group • OHS practices, procedures and standards as they apply to using musical instruments and performing in a range of environments

Evidence Guide

EVIDENCE GUIDE	
The Evidence Guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, range statement and the Assessment Guidelines for the Training Package.	
Overview of assessment	
Critical aspects for assessment and evidence required to demonstrate competency in this unit	Evidence of the ability to: • contribute to the selection of repertoire for at least three performances where the candidate is a member of a backup group • work cooperatively with members of a backup group to prepare for performances

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

EVIDENCE GUIDE	
	• communicate effectively with other performers to achieve the required standard of performance.
Context of and specific resources for assessment	Assessment must ensure: • access to appropriate instruments, equipment and rehearsal space • opportunities to rehearse • use of culturally appropriate processes, and techniques appropriate to the language and literacy capacity of the candidate and the work being performed.
Method of assessment	The following assessment methods are appropriate for this unit: • observation or video recording of rehearsals where the candidate is a member of a backup group • written or oral questioning to test knowledge as listed in the required knowledge section of this unit • samples of work plans for rehearsals • case studies as a basis for discussion of issues and challenges that arise in the context of developing repertoire as part of a backup group.
Guidance information for assessment	Holistic assessment with other units relevant to the industry sector, workplace and job role is recommended, for example: • CUSMPF302APrepare for performances • CUSMPF401A Rehearse music for group performances • CUSMPF402ADevelop and maintain stagecraft skills • CUSMPF404A Perform music as part of a group.

Range Statement

RANGE STATEMENT
The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording, if used in the performance criteria, is detailed below. Essential operating conditions that may be present with training and assessment (depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts) may also be included.

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT	

Requirements may include:	• time
	• venue
	• length of performance
	• content
	• ensemble size
	• improvisation
	• stagecraft aspects, including:
	  • movement and actions
	  • dress
	  • make-up and hair styling
	  • special effects
	  • audience interaction
	• resources, including:
	  • instruments
	  • instrumental accessories
	  • sound equipment
	  • microphones
	  • sheet music
	  • music scores
	  • music stands.

Appropriate personnel may include:	• solo artist • musical director • producer • performer • technical crew • mentor • teacher • coach • tutor • conductor • agent.
Performers may include:	• instrumentalists • vocalists • electronic music performers.
Purpose of the performance may be for:	• general public • entertainment • concert • dance • corporate purposes

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT	
	• cultural purposes • marketing and promotion • a specific age group • educational purposes • schools or other institutions • special communities • special occasions • public and/or religious ceremonies • auditions • audio or video recordings.
Pros and cons of items may include:	• technical facility required to perform items • ability of group members to perform pieces • length of item • potential for showcasing solo artist • potential for providing a varied program • potential for audience participation.

CUSMPF404A Perform music as part of a group

Modification History

Not applicable.

Unit Descriptor

Unit descriptor	This unit describes the performance outcomes, skills and knowledge required to perform music for an audience as part of a group. Performing in a group is a highly collaborative undertaking, so group members need well-developed interpersonal communication skills in addition to their technical and musicianship skills. They must support each other during performances and be willing to work together on improving the overall performance of the group. No licensing, legislative, regulatory or certification requirements apply to this unit at the time of endorsement.

Application of the Unit

Application of the unit	Instrumentalists and vocalists who perform as members of a group in all musical genres apply the skills and knowledge described in this unit.

Licensing/Regulatory Information

Not applicable.

Pre-Requisites

Prerequisite units		

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

Prerequisite units		

Employability Skills Information

Employability skills	This unit contains employability skills.

Elements and Performance Criteria Pre-Content

Elements describe the essential outcomes of a unit of competency.	Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the required skills and knowledge section and the range statement. Assessment of performance is to be consistent with the evidence guide.

Elements and Performance Criteria

ELEMENT	**PERFORMANCE CRITERIA**
Perform warm-up routine	1. Check instrument and other materials required for the performance to ensure their reliability in performance 2. Tune instrument to ensure required pitch throughout the performance and minimal interruption for further tuning 3. Warm up for the performance to ensure that sound production is secure before beginning the performance 4. Use ***relaxation techniques*** to overcome performance anxiety as required
Perform work	5. Maintain concentration and focus throughout the performance 6. Meet the technical and interpretive requirements of the music and the staging requirements of the performance 7. Apply ***music knowledge*** to enhance performance outcomes 8. Monitor instrument tuning and adjust appropriately during the course of the performance with minimal interruption to the flow of the work

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

ELEMENT	PERFORMANCE CRITERIA
	9. Use a performing style that is appropriate to the context of the music and the performance 10. Respond flexibly and effectively to contingencies to maintain the integrity of the performance 11. Interact considerately and constructively with stage management and other artistic, venue, studio and organisational staff as required
Perform in a group	12. Respond promptly and effectively to musical, stage or studio direction 13. Sustain the musical line and/or harmony in ensemble as required by the style and context of the performance 14. Demonstrate balance in dynamics and style with other players 15. Respond effectively and with empathy to other performers and to the music-making process throughout the performance 16. Perform music entries and exits consistent with the style of music and as agreed with other players
Interact with other performers	17. Contribute to a cohesive performance by taking and giving cues reliably, promptly, accurately and sensitively 18. Synchronise own playing with that of other performers 19. Demonstrate respect for other performers' work using positive and constructive communication in verbal and body language 20. Contribute constructively to the dynamics of the group to ensure best performance outcome 21. ***Listen*** critically to own and others' performance and adjust playing as necessary to achieve the required sound
Evaluate performance	22. With other members of the group, measure the performance against previous work to assess technical and artistic development 23. Discuss weaknesses and errors in the performance and collaboratively identify remedies for improvement in the ensemble 24. Evaluate repertoire choice and programming to determine suitability for the group's technical standard and style as well as the overall musical balance in the program 25. Collaboratively and constructively assess the role of individual performers for ensemble balance and for

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

ELEMENT	PERFORMANCE CRITERIA
	future performance possibilities 26. Constructively evaluate the group's stage presentation, posture, dress and movement individually and collectively and determine possible improvements 27. Analyse audience reaction to determine ways in which communication with the audience can be improved or special audience needs can be met more effectively 28. Collaboratively and constructively plan ***strategies*** for refining group performance and ***technical skills*** based on outcome of evaluations

Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This section describes the skills and knowledge required for this unit.

Required skills

- communication and teamwork skills sufficient to:
  - interpret music appropriately for performances
  - collaborate effectively with other artists and technical personnel involved in performances
  - provide constructive feedback on group performances to other members of the group
  - respond positively to constructive feedback on own performance in the group
- listening skills in the context of:
  - listening critically to and adjusting own performance to achieve the required sound
  - recognising intervals, chords, scales and chord progressions in selected area of specialisation
  - demonstrating appropriate intonation, dynamics, phrasing, rhythm and expression to produce the required sound
  - responding to other players and adjusting own performance accordingly
- technical and problem-solving skills sufficient to:
  - use a range of instrumental techniques in selected area of specialisation
  - tune instrument to achieve intonation
  - use a variety of rhythms, time signatures, beat patterns and rhythmic styles relevant to specialisation
  - use a variety of scales, chord sequences and music systems in selected area of

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

REQUIRED SKILLS AND KNOWLEDGE

specialisation
• learning skills in the context of using feedback to identify strengths and weaknesses in technique to improve own technical facility
• self-management and planning skills sufficient to allow sufficient time for warm-up prior to performances
• initiative, enterprise and creativity in the context of:
  • demonstrating originality and innovative approaches in interpretation within the requirements of the group
  • extending musical boundaries in performance for self and audience within the performance context
  • phrasing and shaping music appropriately
  • understanding and expressing appropriate musical nuance
  • achieving own individual style of musical expression
  • performing appropriately for the context of venues, sound forces and perceived audience taste
  • performing in a variety of instrumental combinations

Required knowledge

• music knowledge:
  • repertoire knowledge in selected area of specialisation
  • musical terminology, systems, elements and genres
  • musical styles in selected area of specialisation
  • group and solo performance protocols and customs
• issues and challenges that arise in the context of performing music as part of a group
• OHS principles as they apply to performing:
  • relevant legislation
  • policies and best practice relevant to particular performance contexts
  • preventative practice against overuse injury and hearing damage
  • correct posture

Evidence Guide

EVIDENCE GUIDE
The Evidence Guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, range statement and the Assessment Guidelines for the Training Package.

EVIDENCE GUIDE	
Overview of assessment	
Critical aspects for assessment and evidence required to demonstrate competency in this unit	Evidence of the ability to: • perform proficiently as a member of a group before an audience on at least three occasions • listen effectively to adjust intonation and nuance in performance • apply interpretation and expression skills • collaborate effectively with other members of the group during performances • participate constructively in evaluations of group performances.
Context of and specific resources for assessment	Assessment must ensure: • access to relevant instruments and equipment • opportunities for musical collaboration in performances before an audience • appropriate venue with adequate space and acoustic qualities for solo performances • use of culturally appropriate processes, and techniques appropriate to the language and literacy capacity of the candidate and the work being performed.
Method of assessment	The following assessment methods are appropriate for this unit: • observation or video recordings of performances in which the candidate is a member of a performing group • written or oral questioning on performance strategies • discussion of planning for group performances • authenticated details of relevant courses or training sessions • authenticated details of relevant artistic and/or commercial achievements • written or oral questioning to test knowledge as listed in the required knowledge section of this unit • case studies and scenarios as a basis for discussion of methods, strategies and other issues in group performances.
Guidance information for assessment	Holistic assessment with other units relevant to the industry sector, workplace and job role is recommended,

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

EVIDENCE GUIDE	
	for example: • CUSMPF302A Prepare for performances • CUSMPF401A Rehearse music for group performances • CUSMPF402A Develop and maintain stagecraft skills • CUSMPF403A Develop repertoire as part of a backup group • CUSMPF405A Develop instrumental techniques.

Range Statement

RANGE STATEMENT	
The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording, if used in the performance criteria, is detailed below. Essential operating conditions that may be present with training and assessment (depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts) may also be included.	

Relaxation techniques may include:	• mind to muscle:
	  • meditation
	  • imagery/conscious visualisation
	  • affirmations
	• stretching
	• deep breathing
	• light aerobic exercises.

Music knowledge may include:	• repertoire
	• instruments
	• music analyses and research in selected area of specialisation
	• musical forms, systems, practices and customs
	• reading and writing music using written music, sheet music and chord charts
	• interpretation of directions for:
	  • instrumentation
	  • voicing
	  • expression
	  • timbre

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT	
	• attack • pitch • tempi • dynamics • solo and ensemble protocols for rehearsals and performances • improvisation in performance using aural cues only • chord and melodic formulae.
Listening may include:	• tuning instrument • using aural imagination to develop interpretation • pattern and sequence recognition and memory • recognising music systems and practices • chords and keys in tonal or other musical systems • reproducing sequences from memory • adapting own performance to the overall performance of the group • listening critically to own performance • responding to other players in performance.
Strategies for developing skills may include:	• seeking and using opportunities to perform in ensembles or groups • participating in groups or associations • participating in professional development and other learning opportunities • attending master classes • attending performances • contributing to and participating in festivals, conferences or other group performance activities • being involved in a range of music-making activities • studying performance techniques in a range of styles.
Technical skills may include:	• applying understanding of instruments and specifications • musical elements in selected area of specialisation • range of techniques to control and enhance group performance skills

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT	
	• technical requirements for ensemble partners in rehearsals and performances.

CUSMPF405A Develop instrumental techniques

Modification History

Not applicable.

Unit Descriptor

Unit descriptor	This unit describes the performance outcomes, skills and knowledge required to develop instrumental technique across a range of performance repertoire. A commitment to well-planned and regular practice is essential, along with a willingness to act on feedback from colleagues and mentors. No licensing, legislative, regulatory or certification requirements apply to this unit at the time of endorsement.

Application of the Unit

Application of the unit	This unit builds on CUSMPF301A Develop technical skills in performance. A higher level of competence in areas such as performance preparation, craft skills and musicianship is required of musicians as they prepare to perform in public.

Licensing/Regulatory Information

Not applicable.

Pre-Requisites

Prerequisite units		

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

Prerequisite units		

Employability Skills Information

Employability skills	This unit contains employability skills.

Elements and Performance Criteria Pre-Content

Elements describe the essential outcomes of a unit of competency.	Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the required skills and knowledge section and the range statement. Assessment of performance is to be consistent with the evidence guide.

Elements and Performance Criteria

ELEMENT	**PERFORMANCE CRITERIA**
Develop control over instrument	1. Extend control over the physical characteristics and ***range*** of chosen ***instrument*** 2. Produce sound reliably and consistently in line with selected musical style and ***repertoire*** 3. Use control over chosen instrument to perform music proficiently in a range of repertoire in selected musical style
Maintain and care for instrument	4. Use appropriate methods to care for, move, use and store the instrument securely 5. Set up and/or warm up the instrument in preparation for practice and performance 6. Use instrumental ***accessories***, fittings, maintenance and cleaning products to care for the instrument and enhance performance outcomes 7. ***Tune*** the instrument appropriately to the required standard and tuning conventions

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

ELEMENT	PERFORMANCE CRITERIA
Use practice time to develop technique	8. In consultation with ***appropriate personnel***, plan practice sessions and ***strategies*** aimed at developing ***techniques*** and overcoming technical challenges 9. Exploit the physical relationship between instrument and player to perform a range of techniques and to develop musical expression 10. Systemically practise pieces using ***exercises*** that develop technical fluency in identified areas of weakness 11. Plan repertoire to advance performance skills 12. Use good posture and appropriate finger, hand and/or body positions to maintain technical facility and healthy performance habits 13. Seek feedback on own skill development from appropriate personnel and adjust focus of practice sessions as required
Perform pieces from a range of repertoire	14. Use activities and physical exercises to perform pieces from a range of repertoire in the selected style of music 15. Listen to the work of professional musicians to determine goals and evaluate own performance against those goals 16. Seek and use advice on skill development in own performance 17. Play pieces and/or accompaniments with rhythmic precision, attention to dynamic range, and variations in technique as required 18. Perform all work following agreed tempi and musical markings where relevant 19. Use technical facility to achieve sound control, accurate intonation, and variations in sound and tone as appropriate

Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE
This section describes the skills and knowledge required for this unit.
Required skills
• communication, teamwork and organisational skills sufficient to: • interpret music appropriately for performance practice

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

REQUIRED SKILLS AND KNOWLEDGE

- analyse and discuss with colleagues musical elements, form and style in selected area of specialisation
- respond appropriately to constructive feedback on own performance
- self-management and planning skills sufficient to:
  - plan own practice time
  - set development goals
  - identify areas of weakness and plan practice accordingly
- listening skills sufficient to:
  - monitor and adjust intonation as required
  - recognise intervals, chords, scales and chord progressions in selected area of specialisation
  - use appropriate sound and tone production for instrument or voice
  - produce a controlled sound with variations in tone as required
- initiative and enterprise skills in the context of:
  - producing sounds in a range of ways appropriate to selected musical style and repertoire
  - developing an increased awareness of the subtleties and variations of tone colour available on chosen instrument and their use in performance
- learning skills in the context of improving music performance skills and expression through practice
- technical and problem-solving skills sufficient to:
  - use a range of instrumental techniques on either a first or second instrument
  - tune instrument to achieve intonation
  - play an extensive range of scales, rhythms or chord patterns in selected area of specialisation
  - produce planned sound consistently
  - discriminate and adjust pitch to produce the required sound

Required knowledge

- acoustic principles relevant to selected instrument and area of specialisation
- instrument parts, applications, range, capabilities, care and maintenance
- repertoire relevant to the selected instrument and area of specialisation
- issues and challenges that arise in the context of extending performance technique
- OHS principles as they apply to performing:
  - relevant legislation
  - policies and best practice relevant to particular performance contexts
  - preventative practice against overuse injury and hearing damage
  - correct posture

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

Evidence Guide

EVIDENCE GUIDE	
The Evidence Guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, range statement and the Assessment Guidelines for the Training Package.	
Overview of assessment	
Critical aspects for assessment and evidence required to demonstrate competency in this unit	Evidence of the ability to: • use aural discrimination to monitor and adjust own performance to achieve the required sound • demonstrate fluent performance on the selected instrument/voice in selected area of specialisation • learn and practise to improve own performance • respond positively to constructive feedback on own performance.
Context of and specific resources for assessment	Assessment must ensure: • access to relevant instruments and equipment • access to suitable acoustic space • use of culturally appropriate processes, and techniques appropriate to the language and literacy capacity of learners and the work being performed • opportunities to demonstrate improvement in instrumental techniques.
Method of assessment	The following assessment methods are appropriate for this unit: • observation of practice or performance • written or oral questioning on technical development strategies, planning and goals • video and/or audio recordings of performances or practice sessions • self-evaluation sheets • samples of work plans for private practice sessions • simulation of a performance practice session • case studies and scenarios as a basis to discuss technical issues, and strategies to deal with them, in performance.
Guidance information for assessment	Holistic assessment with other units relevant to the industry sector, workplace and job role is recommended, for example: • CUSMPF302A Prepare for performances

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

EVIDENCE GUIDE	
	• CUSMPF303A Contribute to backup accompaniment • CUSMPF305A Develop improvisation skills • CUSMPF401A Rehearse music for group performances • CUSMPF402A Develop and maintain stagecraft skills • CUSMPF404A Perform music as part of a group.

Range Statement

RANGE STATEMENT	
The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording, if used in the performance criteria, is detailed below. Essential operating conditions that may be present with training and assessment (depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts) may also be included.	
Range of an instrument may involve:	• tone colour • articulation • physical attributes and components • dynamics, and volume control and contrast • pitch and register • specific effects available using a range of attacks.
Instruments may refer to first or second instruments and may include:	• acoustic or electronic instruments • voice • stringed • keyboards • wind • percussion • brass • plucked.
Repertoire may include:	• pieces appropriate to the selected instrument • improvisations on rhythmic, harmonic or melodic structures • songs and tunes • traditional patterns • own original work.

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT	
Accessories may include:	• reeds • strings • plectrums • mouth pieces • sticks, mallets, brushes and beaters • stands • pedals • microphones • amplifiers • samplers • mixers • enhancers.

Tuning an instrument may involve:	• adjusting:
	  • pitch
	  • tone colour
	  • oral tract, including lip pressure and intensity of breath
	  • position of the diaphragm and larynx
	  • sound production
	  • diameter or other instrumental dimensions, such as:
	  • length of strings
	  • tautness of skins
	  • length of tubing or pipes
	  • embouchure
	  • settings of the instrument and relevant accessories
	• using:
	  • appropriate tuning options
	  • tuning keys or other tuning implements, such as tuning forks and electronic tuners
	  • pitch pipes
	  • electronic pitch or frequency controls
	  • other musicians.

Appropriate personnel may include:	• musical director • performer • mentor • teacher • coach

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT	
	• tutor • conductor • sound engineer.
Strategies may include:	• working effectively with an appropriate tutor • practising as a performer • participating in relevant groups or associations • participating in professional development and other learning opportunities • attending master classes • attending performances • listening critically to a wide range of live and recorded music.
Techniques may involve developing:	• vocal and instrumental sound production • physical coordination • ability to play rhythms and rhythm patterns • ability to play chords and chord patterns • ability to reproduce pieces from written notation, chord charts and/or aural memory and imitation.
Exercises may include:	• scales • arpeggios • range of triads, chords or rhythms • breathing exercises to achieve good breath control and tone colour • bowing techniques to increase fluency, variety and coordination • embouchure to achieve correct tone production and a well-centred sound • fingering patterns with appropriate phrasing, articulation and dynamics • hand and foot patterns • plucking and picking patterns and exercises • drumming exercises with hands, mallets and beaters • pedalling • vocal exercises to produce clear and even tone, agility and flexibility.

CUSMPF406A Perform music as a soloist

Modification History

Not applicable.

Unit Descriptor

Unit descriptor	This unit describes the performance outcomes, skills and knowledge required to perform for audiences as a soloist. In addition to technical and musicianship skills, soloists need the confidence and self-assurance to perform live before an audience for short or long intervals. Well-developed stagecraft skills and an ability to engage audiences play a key role in successful solo performances. No licensing, legislative, regulatory or certification requirements apply to this unit at the time of endorsement.

Application of the Unit

Application of the unit	Instrumentalists and vocalists who perform as soloists in all musical genres apply the skills and knowledge described in this unit.

Licensing/Regulatory Information

Not applicable.

Pre-Requisites

Prerequisite units		

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

Employability Skills Information

Employability skills	This unit contains employability skills.

Elements and Performance Criteria Pre-Content

Elements describe the essential outcomes of a unit of competency.	Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the required skills and knowledge section and the range statement. Assessment of performance is to be consistent with the evidence guide.

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
Perform warm-up routine	1. Ensure that music is fully rehearsed to the required performance standard 2. Check instrument and other materials required for the performance to ensure their reliability in performance 3. Ensure accurate tuning of instrument where relevant 4. Warm up for the performance to ensure that sound production is secure from the beginning of the performance 5. Use ***relaxation techniques*** to overcome performance anxiety as required
Execute solo elements of performance	6. Apply ***music knowledge*** to enhance performance outcomes 7. Demonstrate imagination and innovation in the musical interpretation to maintain audience focus and attention 8. Use appropriate ***techniques*** to effectively realise performance style 9. Focus expressive skills effectively to engage self, accompanist and audience in the performance 10. Respond promptly and effectively to musical and stage studio direction as required 11. ***Listen critically*** to own and others' performance and continuously adjust own performance to produce the required sound

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

ELEMENT	PERFORMANCE CRITERIA
	12. Demonstrate appropriate intonation dynamics, phrasing, rhythm and expression to produce the required sound 13. Sustain the musical line and/or harmony as required in the style and context of performance 14. Where relevant, maintain artistic and technical communication at all times with musical director
Evaluate performance	15. Assess the performance for its success in achieving its potential and incorporate evaluation into future performances 16. Measure performance against previous work to assess own technical and artistic development 17. Identify and note weaknesses and errors in the performance to improve future performances 18. Assess feedback and use for possible adjustment to future work 19. Plan ***strategies*** for refining solo performance and technical skills based on outcome of evaluations

Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This section describes the skills and knowledge required for this unit.

Required skills

- communication and teamwork skills sufficient to:
  - interpret music appropriately for performances
  - collaborate effectively with other artists and technical personnel involved in performances
  - work with accompanists to achieve best performance outcomes
- listening skills in the context of:
  - listening critically to and adjusting own performance to achieve the required sound
  - recognising intervals, chords, scales and chord progressions in selected area of specialisation
  - responding to other players and adjusting own performance accordingly
- technical and problem-solving skills sufficient to:
  - use a range of instrumental techniques in selected area of specialisation
  - tune instrument to achieve intonation

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

REQUIRED SKILLS AND KNOWLEDGE
• use a variety of rhythms, time signatures, beat patterns and rhythmic styles relevant to specialisation • use a variety of scales, chord sequences and music systems in selected area of specialisation • learning skills in the context of: • practising strategically to overcome specific technical, expressive or sound-production problems • using feedback to identify strengths and weaknesses in technique to improve own technical facility • self-management and planning skills sufficient to: • plan practice time prior to performances • allow sufficient time for warm-up prior to performances • initiative, enterprise and creativity in the context of: • extending musical boundaries in performance for self and audience within the performance context • phrasing and shaping music appropriately • understanding and expressing appropriate musical nuance • achieving own individual style of musical expression • performing appropriately for the context of venues, sound forces and perceived audience taste
Required knowledge
• music knowledge: • repertoire knowledge in selected area of specialisation • musical terminology, systems, elements and genres • musical styles in selected area of specialisation • group and solo performance protocols and customs • issues and challenges that arise in the context of performing as a soloist • OHS principles as they apply to performing: • relevant legislation • policies and best practice relevant to particular performance contexts • preventative practice against overuse injury and hearing damage • correct posture

Evidence Guide

EVIDENCE GUIDE

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

EVIDENCE GUIDE	
The Evidence Guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, range statement and the Assessment Guidelines for the Training Package.	
Overview of assessment	
Critical aspects for assessment and evidence required to demonstrate competency in this unit	Evidence of the ability to: • perform proficiently as a soloist before an audience on at least three occasions • listen effectively to adjust intonation and nuance in performance • apply interpretation and expression skills • communicate effectively with others involved in performances.
Context of and specific resources for assessment	Assessment must ensure: • access to relevant instruments and equipment • opportunities for solo performances before an audience • access to appropriate venue with adequate space and acoustic qualities for solo performances • use of culturally appropriate processes, and techniques appropriate to the language and literacy capacity of the candidate and the work being performed.
Method of assessment	The following assessment methods are appropriate for this unit: • observation or video recordings of solo performances by the candidate • written or oral questioning on performance strategies • discussion of planning for a solo performance • relevant samples of artistic work with candidate's evaluation • authenticated details of relevant courses or training sessions • authenticated details of relevant artistic and/or commercial achievements • written or oral questioning to test knowledge as listed in the required knowledge section of this unit • case studies and scenarios as a basis for discussion of methods, strategies and other issues in solo performance.

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

EVIDENCE GUIDE	
Guidance information for assessment	Holistic assessment with other units relevant to the industry sector, workplace and job role is recommended.

Range Statement

RANGE STATEMENT	
The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording, if used in the performance criteria, is detailed below. Essential operating conditions that may be present with training and assessment (depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts) may also be included.	

Relaxation techniques may include:	• mind to muscle:
	  • meditation
	  • imagery/conscious visualisation
	  • affirmations
	• stretching
	• deep breathing
	• light aerobic exercises.

Music knowledge may include:	• repertoire
	• instruments
	• music analyses and research in selected area of specialisation
	• musical forms, systems, practices and customs
	• reading and writing music using written music, sheet music and chord charts
	• interpretation of directions for:
	  • instrumentation
	  • voicing
	  • expression
	  • timbre
	  • attack
	  • pitch
	  • tempi
	  • dynamics
	• solo and ensemble protocols for rehearsals and performances

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT	
	• improvisation in performance using aural cues only • chord and melodic formulae.
Techniques may include:	• improvisation • ornamentation • specific methods of instrumental attack • performance customs relevant to the style and context of the music in selected area of specialisation • preparing instruments during performance.
Listening critically may apply to:	• tuning instrument • using aural imagination to develop interpretation • pattern and sequence recognition and memory • recognising music systems and practices • chords and keys in tonal or other musical systems • reproducing sequences from memory • adapting own performance to the overall performance of the group.
Strategies may include:	• working effectively with an appropriate tutor • practising as a solo performer • participating in relevant groups or associations • participating in professional development and other learning opportunities • attending master classes • attending performances • contributing to and participating in festivals and conferences • being involved in a range of music-making activities as a soloist • studying performance techniques of a range of styles in selected area of specialisation • listening critically to a wide range of live and recorded music.

CUSMPF407A Develop vocal techniques

Modification History

Not applicable.

Unit Descriptor

Unit descriptor	This unit describes the performance outcomes, skills and knowledge required to develop vocal techniques. It covers developing control of the range of scope of own voice, techniques to enhance vocal quality and health, as well as strategies for developing the technical skills required to perform a range of repertoire with confidence. No licensing, legislative, regulatory or certification requirements apply to this unit at the time of endorsement.

Application of the Unit

Application of the unit	Vocalists apply the skills and knowledge outlined in this unit. They could be singing in a range of contexts, such as soloists, backup singers or in a choir. More complex skills associated with vocal techniques are covered in: • CUSMPF605A Develop advanced vocal techniques.

Licensing/Regulatory Information

Not applicable.

Pre-Requisites

Prerequisite units

Prerequisite units		

Employability Skills Information

Employability skills	This unit contains employability skills.

Elements and Performance Criteria Pre-Content

Elements describe the essential outcomes of a unit of competency.	Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the required skills and knowledge section and the range statement. Assessment of performance is to be consistent with the evidence guide.

Elements and Performance Criteria

ELEMENT	**PERFORMANCE CRITERIA**
Explore the range of own voice	1. In consultation with ***appropriate personnel***, develop an understanding of the ***human voice*** 2. Develop control of the ***range and scope*** of voice and apply to performance 3. Explore ***repertoire*** options that best fit own voice and vocal style
Care for own voice	4. Develop an understanding of ***physical problems*** that can afflict the voice 5. In consultation with appropriate personnel, discuss ***ways*** to avoid physical problems and strategies for addressing problems if they arise 6. Develop regular voice warm-up routines to do prior to practice sessions and performances
Use practice time to	7. In consultation with appropriate personnel, plan practice sessions and ***strategies*** aimed at developing vocal

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

ELEMENT	PERFORMANCE CRITERIA
develop vocal techniques	***techniques***, overcoming technical challenges and developing the confidence to perform before an audience 8. Apply ***music knowledge*** to facilitate development of vocal techniques 9. Systemically practise pieces using ***exercises*** that develop technical fluency in identified areas of weakness 10. ***Memorise*** repertoire to advance performance skills 11. Use good posture and appropriate body positions to maintain technical facility and healthy performance habits 12. Seek feedback on own skill development from appropriate personnel and adjust focus of practice sessions as required
Perform pieces	13. Use activities and physical exercises to sing pieces from a range of repertoire 14. Accurately and confidently perform all work following agreed tempi and musical markings where relevant 15. Use vocal articulation and tone colours to enhance the performance and emotional content of songs
Evaluate own performance	16. Listen to the work of other musicians to set performance goals and evaluate own performance against those goals 17. Act on constructive feedback from relevant personnel on own performance and level of skill development 18. Identify ***ancillary skills*** that would enhance own performance as a singer and plan skill development accordingly

Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE
This section describes the skills and knowledge required for this unit.
Required skills

• communication, teamwork and organisational skills sufficient to:
  • interpret music appropriately for performance practice
  • respond appropriately to constructive feedback on own performance
• self-management and planning skills sufficient to:
  • plan own practice time

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

REQUIRED SKILLS AND KNOWLEDGE
• setskill-development goals • identify areas of weakness and plan practice accordingly • listening skills sufficient to: • monitor and adjust intonation as required • develop a sense of relative pitch • use appropriate sound and tone production • produce a controlled sound with variations in tone as required • initiative and enterprise skills in the context of producing sounds in a range of ways appropriate to selected musical style and repertoire • learning skills in the context of: • improving vocal techniques and expression through practice • using knowledge of relative pitch to analyse and memorise repertoire • technical skills sufficient touse a range of vocal techniques
Required knowledge
• sound understanding of: • industry and musical terminology • human anatomy and physiology as they relate to the physical process of singing • qualities of vocal production belonging to each register • techniques for caring for the voice • repertoire relevant to area of specialisation • issues and challenges that arise in the context of developing vocal techniques • OHS principles as they apply to singing: • relevant legislation • preventative practice against damage to the voice • correct posture

Evidence Guide

EVIDENCE GUIDE	
The Evidence Guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, range statement and the Assessment Guidelines for the Training Package.	
Overview of assessment	
Critical aspects for assessment and evidence required to demonstrate	Evidence of the ability to: • confidently perform at least three songsthat

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

EVIDENCE GUIDE	
competency in this unit	demonstrate an ability to achieve the required sound • do vocal warm-ups and warm-downs • perform a 10-second *messa di voce* • learn and practise to improve own performance • respond positively to constructive feedback on own performance.
Context of and specific resources for assessment	Assessment must ensure: • access to suitable acoustic space • use of culturally appropriate processes, and techniques appropriate to the language and literacy capacity of learners and the work being performed.
Method of assessment	The following assessment methods are appropriate for this unit: • observation of practice or performance sessions where the candidate is singing • written or oral questioning on technical development strategies, planning and goals with respect to developing vocal techniques • video and/or audio recordings of performances or practice sessions where the candidate is singing • self-evaluation sheets • samples of work plans for private practice sessions • case studies and scenarios as a basis to discuss issues and challenges that arise in the context of developing vocal techniques.
Guidance information for assessment	Holistic assessment with other units relevant to the industry sector, workplace and job role is recommended, for example: • CUSMPF302A Prepare for performances • CUSMPF401A Rehearse music for group performances • CUSMPF402A Develop and maintain stagecraft skills • CUSMPF403A Develop repertoire as part of a backup group • CUSMPF404A Perform music as part of a group.

Range Statement

RANGE STATEMENT	
The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording, if used in the performance criteria, is detailed below. Essential operating conditions that may be present with training and assessment (depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts) may also be included.	
Appropriate personnel may include:	• musical director • performer • mentor • teacher • coach • tutor.

Aspects of the ***human voice*** to consider may include:	• vocal sound production
	• articulation
	• waveforms
	• harmonic content
	• vocal formats
	• pitch
	• singing formats
	• spoken and sung sounds
	• timbre
	• vocal range:
	  • soprano
	  • mezzosoprano
	  • alto
	  • contralto
	  • tenor
	  • baritone
	  • bass
	• register:
	  • flageolet
	  • falsetto
	  • modal.

Range and scope may include:	• vocal weight • vocal tessitura • vocal transition points • tone colour • articulation

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT	
	• control and contrast • dynamics and volume • pitch and register • potential for solo or group performance • potential for singing in different musical styles.
Repertoire may include:	• songs and tunes for solo performance • choral pieces • acapella pieces • improvisations on rhythmic, harmonic or melodic structures • own original work.

Physical problems may include:	• vocal fold problems, such as:
	  • bowed vocal folds
	  • cysts
	  • atrophy
	  • granuloma
	  • paralysis
	  • paradoxical vocal fold motion
	• chronic cough
	• chronic hoarseness
	• laryngeal papilloma
	• muscle function dysphoria
	• reflux
	• vocal nodules
	• vocal papilloma
	• vocal polyps
	• voice misuse.

Ways to avoid physical problems may include:	• conducting vocal warm-ups and warm-downs • not performing when sick • knowing own role well • resting before and after performances • knowing when to stop talking or singing • avoiding the use of performance-enhancing medication • getting help sooner than later if problems start to appear.
Strategies may include:	• working effectively with an appropriate tutor • practising as a performer • participating in relevant groups or associations • participating in professional development and

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT	
	other learning opportunities • attending master classes • attending performances • listening critically to a wide range of live and recorded music.

Techniques may include:	• breathing
	• *messa di voce*
	• articulation, including:
	  • tremolo
	  • vibrato
	  • legato
	  • staccato
	  • accents
	  • gliss
	  • fall-off
	  • ghost note
	  • bend
	• control of dynamics
	• rapid figurations
	• posture
	• projection.

Music knowledge may include:	• repertoire
	• music analyses and research in selected area of specialisation
	• musical forms, systems, practices and customs
	• reading and writing music using written music, sheet music and chord charts
	• interpretation of directions for:
	  • instrumentation
	  • voicing
	  • expression
	  • timbre
	  • attack
	  • pitch
	  • tempi
	  • dynamics
	• solo and ensemble protocols for rehearsals and performances
	• improvisation in performance using aural cues

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT	
	only • chord and melodic formulae.

Exercises may include:	• scales
	• arpeggios
	• breathing exercises to achieve good breath control and tone colour
	• exercises for developing techniques, such as:
	  • negotiating one's way through register breaks
	  • modifying vowels at higher pitches
	  • making informed choices about using glottal stops and diphthongs
	  • embellishing a melody
	  • improvising, e.g. scat singing
	  • producing a constant tone on all vowels
	  • comfortably singing wide intervals
	  • correcting vocal faults.

Memorising repertoire may involve:	• melody • lyrics • keys • guide tones • arpeggios.
Ancillary skills may include:	• dancing • acting • applying make-up • hair styling • song writing • playing an instrument • accurately pronouncing a foreign language.

CUSMPF408A Develop performance techniques on a second instrument

Modification History

Not applicable.

Unit Descriptor

Unit descriptor	This unit describes the performance outcomes, skills and knowledge required to develop performance techniques on an instrument other than the primary instrument. While techniques for playing instruments may be completely different, the underpinning music knowledge that needs to be applied in performance remains the same. No licensing, legislative, regulatory or certification requirements apply to this unit at the time of endorsement.

Application of the Unit

Application of the unit	Proficiency in a second instrument provides musicians with the flexibility to play in different combinations and allows a band or ensemble to extend the range of its repertoire.

Licensing/Regulatory Information

Not applicable.

Pre-Requisites

Prerequisite units		

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

Prerequisite units		

Employability Skills Information

Employability skills	This unit contains employability skills.

Elements and Performance Criteria Pre-Content

Elements describe the essential outcomes of a unit of competency.	Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the required skills and knowledge section and the range statement. Assessment of performance is to be consistent with the evidence guide.

Elements and Performance Criteria

ELEMENT	**PERFORMANCE CRITERIA**
Explore the range of the second instrument	1. In consultation with ***appropriate personnel***, compare features and characteristics of second ***instrument*** with those of primary instrument 2. Plan development of performance technique in a way that builds on existing ***techniques*** and skills that can be applied to mastering the second instrument 3. Develop control of the ***range and scope*** of instrument and apply to performance 4. Explore ***capability*** of instrument in line with ***repertoire*** requirements
Maintain and care for the instrument	5. Use appropriate methods to care for, move, use and store the instrument securely 6. Set up and/or warm up the instrument in preparation for practice and performance 7. Use instrumental ***accessories***, fittings, maintenance and cleaning products to care for the instrument and enhance performance outcomes

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

ELEMENT	PERFORMANCE CRITERIA
	8. ***Tune*** the instrument appropriately to the required standard and tuning conventions
Use practice time to develop performance technique	9. In consultation with appropriate personnel, plan practice sessions aimed at developing techniques and overcoming technical challenges 10. Apply ***music knowledge*** to facilitate development of performance technique 11. Systemically practise pieces using ***exercises*** that develop technical fluency in identified areas of weakness 12. Plan repertoire to advance performance skills 13. Use good posture and appropriate finger, hand and/or body positions to maintain technical facility and healthy performance habits 14. Seek feedback on own skill development from appropriate personnel and adjust focus of practice sessions as required
Perform pieces	15. Use activities and physical exercises to play pieces from a range of repertoire 16. Perform all work following agreed tempi and musical markings where relevant 17. Use appropriate techniques to achieve sound control, accurate intonation, and variations in sound and tone as required
Evaluate own performance	18. Listen to the work of other musicians to set performance goals and evaluate own performance against those goals 19. Act on constructive feedback from relevant personnel on own performance and level of skill development

Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE
This section describes the skills and knowledge required for this unit.
Required skills

• communication, teamwork and organisational skills sufficient to:
  • interpret music appropriately for performance practice
  • respond appropriately to constructive feedback on own performance
  • discuss characteristics of different instruments in the context of developing

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

REQUIRED SKILLS AND KNOWLEDGE

performance technique on a second instrument
• self-management and planning skills sufficient to:
  • plan own practice time
  • setskill-development goals
  • identify areas of weakness and plan practice accordingly
• listening skills sufficient to:
  • monitor and adjust intonation as required
  • recognise intervals, chords, scales and chord progressions in selected area of specialisation
  • use appropriate sound and tone production for instrument
  • produce a controlled sound with variations in tone as required
• initiative and enterprise skills in the context of producing sounds in a range of ways appropriate to selected musical style and repertoire
• learning skills in the context of:
  • improving music performance skills and expression through practice
  • applying relevant existing skills and knowledge to the task of developing performance technique on a second instrument
• technical and problem-solving skills sufficient to:
  • use a range of instrumental techniques
  • tune instrument to achieve intonation
  • use a variety of rhythms and rhythmic styles relevant to specialisation

Required knowledge

• sound understanding of:
  • industry, repertoire and musical terminology
  • acoustic principles relevant to selected instrument and area of specialisation
  • instrument parts, applications, range, capabilities, care and maintenance
  • issues and challenges that arise in the context of developing performance technique on a second instrument
• OHS principles as they apply to performing:
  • relevant legislation
  • policies and best practice relevant to particular performance contexts
  • preventative practice against overuse injury and hearing damage
  • correct posture

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

Evidence Guide

EVIDENCE GUIDE	
The Evidence Guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, range statement and the Assessment Guidelines for the Training Package.	
Overview of assessment	
Critical aspects for assessment and evidence required to demonstrate competency in this unit	Evidence of the ability to: • perform at least three pieces that demonstrate an ability to achieve the required sound on an instrument other than the primary one • use aural discrimination to monitor and adjust own performance to achieve the required sound • learn and practise to improve own performance • respond positively to constructive feedback on own performance.
Context of and specific resources for assessment	Assessment must ensure: • access to relevant instrument and equipment • access to suitable acoustic space • use of culturally appropriate processes, and techniques appropriate to the language and literacy capacity of learners and the work being performed.
Method of assessment	The following assessment methods are appropriate for this unit: • observation of practice or performance sessions where the candidate is playing an instrument other than the primary one • written or oral questioning on technical development strategies, planning and goals with respect to developing performance technique on a second instrument • video and/or audio recordings of performances or practice sessions where the candidate is playing an instrument other than the primary one • self-evaluation sheets • samples of work plans for private practice sessions • case studies and scenarios as a basis to discuss issues and challenges that arise in the context of developing performance technique on a second instrument.
Guidance information for	Holistic assessment with other units relevant to the industry sector, workplace and job role is recommended,

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

EVIDENCE GUIDE	
assessment	for example: • CUSMPF302A Prepare for performances • CUSMPF401A Rehearse music for group performances • CUSMPF402A Develop and maintain stagecraft skills • CUSMPF403A Develop repertoire as part of a backup group • CUSMPF404A Perform music as part of a group.

Range Statement

RANGE STATEMENT	
The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording, if used in the performance criteria, is detailed below. Essential operating conditions that may be present with training and assessment (depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts) may also be included.	
Appropriate personnel may include:	• musical director • performer • mentor • teacher • coach • tutor • conductor • sound engineer.
Instruments may include:	• acoustic or electronic instruments • voice • stringed • keyboards • wind • percussion • brass • plucked.
Techniques may include:	• bowing • embouchure • plucking and picking

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT	
	• fingering • pedalling • drumming • physical coordination • ability to play rhythms and rhythm patterns • ability to play chords and chord patterns • ability to reproduce pieces from written notation, chord charts and/or aural memory and imitation.
Range and scope of instruments may include:	• tone colour • articulation • physical attributes and components • control and contrast • sound production • dynamics and volume • pitch, register and tessitura • specific effects available using a range of attacks • other acoustic or electronic effects.
Capability of an instrument may include:	• application to a range of music-making activities and outcomes in selected area of specialisation • scope and potential for solo or group performance in selected area of specialisation • adaptability • size of instrument • history in performance and customs of established performance tradition.
Repertoire may include:	• pieces appropriate to the selected instrument • improvisations on rhythmic, harmonic or melodic structures • songs and tunes • traditional patterns • own original work.
Accessories may include:	• reeds • strings • plectrums • mouth pieces • sticks, mallets, brushes and beaters • stands • pedals

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT	
	• microphones • amplifiers • samplers • mixers • enhancers.

Tuning an instrument may involve:	• adjusting:
	  • pitch
	  • tone colour
	  • oral tract, including lip pressure and intensity of breath
	  • position of the diaphragm and larynx
	  • sound production
	  • diameter or other instrumental dimensions, such as:
	  • length of strings
	  • tautness of skins
	  • length of tubing or pipes
	  • embouchure
	  • settings of the instrument and relevant accessories
	• using:
	  • appropriate tuning options
	  • tuning keys or other tuning implements, such as tuning forks and electronic tuners
	  • pitch pipes
	  • electronic pitch or frequency controls
	  • other musicians.

Music knowledge may include:	• repertoire
	• instruments
	• music analyses and research in selected area of specialisation
	• musical forms, systems, practices and customs
	• reading and writing music using written music, sheet music and chord charts
	• interpretation of directions for:
	  • instrumentation
	  • voicing
	  • expression
	  • timbre

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT	
	• attack • pitch • tempi • dynamics • solo and ensemble protocols for rehearsals and performances • improvisation in performance using aural cues only • chord and melodic formulae.
Exercises may include:	• scales • arpeggios • range of triads, chords or rhythms • breathing exercises to achieve good breath control and tone colour • bowing techniques to increase fluency, variety and coordination • embouchure to achieve correct tone production and a well-centred sound • fingering patterns with appropriate phrasing, articulation and dynamics • hand and foot patterns • plucking and picking patterns and exercises • drumming exercises with hands, mallets and beaters • pedalling.

CUSMPF409A Perform music using digital media

Modification History

Not applicable.

Unit Descriptor

Unit descriptor	This unit describes the performance outcomes, skills and knowledge required to perform a range of musical pieces using digital media as the vehicle for performance. No licensing, legislative, regulatory or certification requirements apply to this unit at the time of endorsement.

Application of the Unit

Application of the unit	This unit builds on CUSMPF202A Incorporate music technology into performance. A higher level of competence in skills, such as exploring the potential of the technology and applying the technology, and a higher level of musical aptitude are required of musicians as they prepare their performance with digital media. Musical experience is required to undertake this unit.

Licensing/Regulatory Information

Not applicable.

Pre-Requisites

Prerequisite units		

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

Employability Skills Information

Employability skills	This unit contains employability skills.

Elements and Performance Criteria Pre-Content

Elements describe the essential outcomes of a unit of competency.	Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the required skills and knowledge section and the range statement. Assessment of performance is to be consistent with the evidence guide.

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
Generate ideas for performance	1. Plan the scope of improvised and composed musical work for performance 2. Discuss and evaluate the musical effectiveness of work in progress with appropriate personnel 3. Incorporate feedback into preparation of digital media performance
Develop facility with digital media	4. Perform a range of ***techniques*** in musical ways 5. Identify a range of ***sounds*** for incorporation into improvised and self-composed performances 6. Extend control over the technology to build creative ways to use ***digital media*** as the performance instrument 7. Listen to or view recordings of performances that use digital media as the performance instrument 8. In consultation with ***appropriate personnel***, identify ***factors*** that may affect how digital media is used in performance 9. In consultation with appropriate personnel, plan practice sessions aimed at developing technical facility suited to using digital media in performance
Develop appropriate notation	10. Undertake research to identify the range of ways in which music is notated for performance using digital media 11. Incorporate notation into performance using digital

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

ELEMENT	PERFORMANCE CRITERIA
	media
Perform a range of pieces	12. Listen to the work of professional musicians to determine goals and evaluate own performance against those goals 13. Seek and use advice on skill development in own performance 14. Play pieces and/or accompaniments with appropriate attention to rhythmic detail and dynamic range, and variations in technique as required 15. Perform all work following notated instructions where relevant 16. Use technical facility to achieve variations in sound and tone as appropriate 17. Display musical aptitude in performance using digital media

Required Skills and Knowledge

Required skills

• musical skills sufficient to:
  • recognise intervals and rhythmic patterns
  • produce a controlled sound with variations in tone as required
  • distinguish pitch and digitally adjust intonation where required
• listening skills sufficient to select and adjust sound and tone as required
• communication, teamwork and organisational skills sufficient to:
  • undertake research into the ways digital media can be used in performance
  • follow written and verbal instructions
  • understand information in equipment and software user guides
  • respond appropriately to constructive feedback on own performance
  • plan own practice time and setskill-development goals
• literacy skills sufficient to:
  • read and understand user manuals
  • read and understand appropriate notation
• learning skills sufficient to:
  • improve skills through practice
  • remain up to date with new versions and applications of digital media
• initiative and enterprise skills in the context of:

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

Required skills
• using digital media to produce sounds in a variety of ways • developing increased awareness of subtleties and variations of sound possible through the use of digital media • technical skills sufficient to explore the full range of features of digital media applications in the context of performing music • problem-solving skills sufficient to: • use a range of techniques in performance • produce planned sound consistently • discriminate and adjust sound
Required knowledge
• music knowledge, including musical notation and terminology • industry knowledge, including: • ways in which digital media can be used to perform music • features of standard digital media equipment and related software • repertoire relevant to digital media in performance • challenges that typically arise in the context of performing music using digital media • OHS practices, procedures and standards as they apply to using music technology

Evidence Guide

EVIDENCE GUIDE	
The Evidence Guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, range statement and the Assessment Guidelines for the Training Package.	
Overview of assessment	
Critical aspects for assessment and evidence required to demonstrate competency in this unit	Evidence of the ability to: • perform music competently using digital media • respond positively to constructive feedback on own skill development in relation to using digital media in performance.
Context of and specific resources for assessment	Assessment must ensure: • access to digital media, including related software • access to suitable acoustic space • use of culturally appropriate processes, and

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

EVIDENCE GUIDE	
	techniques appropriate to the language and literacy capacity of learners and the work being performed • opportunities to demonstrate improvement in application of digital media through performance.
Method of assessment	The following assessment methods are appropriate for this unit: • direct observation or video recordings of candidate using digital media in practice sessions or performances • testimonial from individual tutors • written or oral questioning to assess knowledge as listed in the required knowledge section of this unit • self-evaluation sheets • samples of work plans for practice sessions • case studies and scenarios as a basis for discussing technical issues and strategies to deal with them in performance.
Guidance information for assessment	Holistic assessment with other units relevant to the industry sector, workplace and job role is recommended.

Range Statement

RANGE STATEMENT	
The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording, if used in the performance criteria, is detailed below. Essential operating conditions that may be present with training and assessment (depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts) may also be included.	
Techniques may include:	• digitally-generated sounds • digital manipulation of acoustic sound • musical articulation • musical phrasing • musical shading • improvisation of rhythmic and melodic material • physical coordination.

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT	
Sounds may include:	• any form of sound produced by digital media • instrumental sounds or sequences from MIDI devices, software programs or other devices.
Digital media may include:	• digital audio workstation (DAW) with a range of appropriate software • electronic instruments.
Appropriate personnel may include:	• musical director • performer • mentor • teacher • coach • tutor • sound technician.

Factors may include:	• purpose of performance:
	  • entertainment for the general public
	  • concert
	  • dance
	  • corporate purposes
	  • cultural purposes
	  • marketing and promotion
	  • educational purposes
	  • schools or other institutions
	  • special communities
	  • special occasions
	  • public and/or religious ceremonies
	  • auditions
	  • audio or video recordings for online products or interactive games
	• available personnel
	• available resources
	• available budget
	• client's expectations
	• intellectual property
	• venue and facilities
	• technical parameters, including:
	  • technology constraints
	  • console
	  • platform
	  • bandwidth

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT	
	• memory/RAM • timelines • target audience.

CUSMPF410A Perform music from written notation

Modification History

Not applicable.

Unit Descriptor

Unit descriptor	This unit describes the performance outcomes, skills and knowledge required to perform music from written notation. No licensing, legislative, regulatory or certification requirements apply to this unit at the time of endorsement.

Application of the Unit

Application of the unit	Instrumentalists and vocalists who are extending their ability to perform notated music apply the skills and knowledge described in this unit. Through practice and performance they develop expertise in interpreting notated music conventions and using music-reading skills in ways that suit different performance contexts. This unit builds on the skills covered in: • CUSMPF204A Play music from simple written notation.

Licensing/Regulatory Information

Not applicable.

Pre-Requisites

Prerequisite units	

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

Employability Skills Information

Employability skills	This unit contains employability skills.

Elements and Performance Criteria Pre-Content

Elements describe the essential outcomes of a unit of competency.	Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the required skills and knowledge section and the range statement. Assessment of performance is to be consistent with the evidence guide.

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
Practise notated music	1. Discuss with ***appropriate personnel*** the selection of suitable ***repertoire*** for practice and performance 2. Practise music with accurate interpretation of ***rhythmic***, ***melodic and harmonic structures*** 3. Adhere to the required conventions of ***form and music structures*** 4. Consider interpretation of ***dynamics and expression marks*** 5. Practise accuracy of intonation 6. Seek guidance from appropriate personnel and adjust techniques as required
Present performances of notated music	7. Perform melodic and rhythmic structures of music accurately 8. Perform harmonic structures where required 9. Demonstrate appropriate ***stylistic conventions*** 10. Apply suitable tuning for selected music 11. Adjust and adapt own performance in the context of a group performance as required 12. Recover errors in performance as quickly and effectively as possible

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

ELEMENT	PERFORMANCE CRITERIA
Enhance music-reading skills	13. Identify personal strengths and weaknesses as a means of recognising practice goals 14. Explore suitable repertoire for further development 15. In collaboration with appropriate personnel agree on a suitable repertoire for further development of music-reading skills

Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This section describes the skills and knowledge required for this unit.

Required skills

- communication and literacy skills sufficient to:
  - read notated music
  - work cooperatively with other performers and music personnel
- initiative, enterprise and creativity in the context of:
  - interpreting music structures and elements to enhance musical outcomes in performance
  - interpreting creative work from written notation
  - appropriately interpreting expression and stylistic conventions from written music
  - recovering errors with minimal disruption to performance
- problem-solving skills sufficient to:
  - troubleshoot music-reading problems
  - plan work tasks in a logical sequence
- planning and organisational skills sufficient to:
  - implement a private music practice strategy
  - set work and practice goals
- self-management skills sufficient to:
  - prepare self for performance
  - work to personal goals
  - seek expert assistance when problems arise
  - manage private music practice sessions
- learning skills sufficient to improve music-reading skills through practice
- technical skills sufficient to:
  - perform music accurately from written notation in chosen area of specialisation

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

REQUIRED SKILLS AND KNOWLEDGE
• interpret chords, scales, melodies, forms, textures or other conventions found within music notation • analyse scales, chord sequences and music systems, rhythms, time signatures and beat patterns of musical organisation relevant to specialisation • apply knowledge of musical forms in area of specialisation to written music
Required knowledge

• sound knowledge of:
  • range of genres and styles and their musical forms and conventions in written notation
  • musical protocols and customs for reading written music in selected area of specialisation
  • repertoire relevant to chosen musical specialisation
  • technical requirements of relevant instruments for accurate and appropriate performance in selected area of specialisation
• issues and challenges that arise in the context of performing music from written notation
• OHS practices, procedures and standards as they apply to using musical instruments and performing in a range of environments

Evidence Guide

EVIDENCE GUIDE	
The Evidence Guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, range statement and the Assessment Guidelines for the Training Package.	
Overview of assessment	
Critical aspects for assessment and evidence required to demonstrate competency in this unit	Evidence of the ability to: • perform from written notation on at least three occasions • adhere to the conventions of the selected music • practise music-reading skills on a regular basis.
Context of and specific resources for assessment	Assessment must ensure: • access to a selection of notated music for investigation and performance • access to appropriate instruments, equipment and performance space

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

EVIDENCE GUIDE	
	• use of culturally appropriate processes, and techniques appropriate to the language and literacy capacity of the candidate and the work being performed.
Method of assessment	The following assessment methods are appropriate for this unit: • direct observation or video recording of the candidate performing music from written notation • authenticated audio recordings of the candidate playing music from written notation • third-party reports from formal practical music examinations • written or oral questioning to test knowledge as listed in the required knowledge section of this unit • case studies as a basis for discussion of issues and challenges that arise in the context of performing music from written notation.
Guidance information for assessment	Holistic assessment with other units relevant to the industry sector, workplace and job role is recommended, for example: • CUSMPF302APrepare for performances • CUSMPF401ARehearse music for group performances • CUSMPF404APerform music as part of a group • CUSMPF406APerform music as a soloist.

Range Statement

RANGE STATEMENT	
The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording, if used in the performance criteria, is detailed below. Essential operating conditions that may be present with training and assessment (depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts) may also be included.	
Appropriate personnel may be:	• teachers • mentors • musicians

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT	
	• bandleaders • music conductors • choir leaders.
Repertoire may be:	• classical • jazz • popular music • church • folk • world.
Rhythmic, ***melodic and harmonic structures*** may be:	• key signatures • basic harmonic and melodic structures • grouping of simple rhythmic structures • time signatures, including 2/4, 3/4, 4/4, 5/4, 7/4 3/8, 5/8, 6/8, 7/8, 9/8, 2/2 and 3/2 • note pitch • note duration • accidentals • chords, where appropriate.
Form and music structures may be:	• bar lines • repeats • sign • coda • ties • rests • phrases • ornaments • popular music forms • jazz forms • classical forms.
Dynamics and expression marks may be:	• tempo • volume • accents • phrasing • articulation • special effects.
Stylistic conventions may be:	• tuning systems • interpretation of music devices • approaches to performance conventions within the selected style.

CUSMPF501A Prepare a program for performance

Modification History

Not applicable.

Unit Descriptor

Unit descriptor	This unit describes the performance outcomes, skills and knowledge required to plan and prepare a program for performance. Extensive repertoire knowledge is required, as well as organisational skills to ensure that all arrangements are in place for performances and sufficient time is allocated to practice and rehearsals. No licensing, legislative, regulatory or certification requirements apply to this unit at the time of endorsement.

Application of the Unit

Application of the unit	Instrumentalists and vocalists apply the skills and knowledge outlined in this unit. They could be responding to a brief from a client for a particular style of performance at an event or they may have responsibility within a company or ensemble for preparing programs.

Licensing/Regulatory Information

Not applicable.

Pre-Requisites

Prerequisite units		

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

Prerequisite units		

Employability Skills Information

Employability skills	This unit contains employability skills.

Elements and Performance Criteria Pre-Content

Elements describe the essential outcomes of a unit of competency.	Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the required skills and knowledge section and the range statement. Assessment of performance is to be consistent with the evidence guide.

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
Plan performance program	1. Confirm performance ***requirements*** in consultation with ***appropriate personnel*** 2. Apply comprehensive repertoire knowledge to select items that provide a balanced program suited to the ***purpose*** of the performance 3. Select items that are appropriate to performers' level of artistic and technical ability and personal style 4. Confirm timetable leading up to performance so that sufficient notice is given to colleagues and adequate private practice and rehearsal time is allocated 5. Discuss draft program with appropriate personnel, incorporate feedback as required and obtain final sign-off on program for performance
Prepare for performances	6. Confirm nature and extent of own contribution to the performance 7. Obtain required resources in line with allocated budget 8. Maintain contact with the venue to ensure mutual

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

ELEMENT	PERFORMANCE CRITERIA
	understanding of each other's requirements 9. Ensure that where required, promotional material communicates the desired impression, and is accurate, current and well-presented 10. Make all arrangements in good time and as efficiently as constraints allow 11. Isolate technically difficult sections of the music and practise systematically, both privately and in rehearsal, to obtain the required standard prior to performance 12. Acquire the required level of familiarity with material prior to performance
Develop interpretation	13. Analyse the music to understand its scope, possibilities and underlying intention 14. Explore a variety of possible interpretations and develop the one most suited to the music and performance context 15. Refine and develop interpretation in ensemble, where required, through affinity in rehearsal with other performers 16. ***Listen*** critically to own and others' performance and adjust playing to achieve the required sound 17. Develop interpretation that is capable of expression within the constraints of own technical ability 18. Demonstrate awareness of the performing space and the audience in interpreting and performing the music 19. Practise techniques for sustaining expressive communication with an audience 20. Seek feedback on own performance from appropriate personnel and adjust practice sessions accordingly

Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE
This section describes the skills and knowledge required for this unit.
Required skills

• communication and teamwork skills sufficient to:
  • interpret music appropriately for performances
  • collaborate effectively with other artists and technical personnel involved in

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

REQUIRED SKILLS AND KNOWLEDGE
rehearsals and performances • discuss program requirements in a collaborative manner • listening skills in the context of: • listening critically to and adjusting own performance to achieve the required sound • recognising intervals, chords, scales and chord progressions in selected area of specialisation • responding to other players and adjusting own performance accordingly • technical and problem-solving skills sufficient to: • use a range of instrumental techniques in selected area of specialisation • tune instrument to achieve intonation • use a variety of rhythms, time signatures, beat patterns and rhythmic styles relevant to specialisation • use a variety of scales, chord sequences and music systems in selected area of specialisation • learning skills in the context of: • practising strategically to overcome specific technical, expressive or sound-production problems • using feedback to identify strengths and weaknesses in technique to improve own technical facility • extending repertoire knowledge • self-management and planning skills sufficient to: • plan performance program and practice time prior to performances • allow sufficient time for warm-up prior to performances • demonstrate reliability in all agreed work commitments • initiative, enterprise and creativity in the context of: • phrasing and shaping music appropriately • understanding and expressing appropriate musical nuance • achieving own individual style of musical expression • performing appropriately for the context of venues, sound forces and perceived audience taste
Required knowledge
• acoustic principles relevant to selected instrument and area of specialisation • music vocabulary and terminology • instrument parts, applications, range, capabilities, care and maintenance • repertoire relevant to the selected instrument and area of specialisation • rehearsal and performance protocols • issues and challenges that arise in the context of preparing a program for performance

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

REQUIRED SKILLS AND KNOWLEDGE

• OHS principles relevant to particular performance contexts, such as:
  • legislation
  • policies and best practice
  • hearing protection
  • protection of body against overuse injury
  • safe lifting practices
  • performance anxiety

Evidence Guide

EVIDENCE GUIDE	
The Evidence Guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, range statement and the Assessment Guidelines for the Training Package.	
Overview of assessment	
Critical aspects for assessment and evidence required to demonstrate competency in this unit	Evidence of the ability to: • prepare a program for performance in response to specific requirements • achieve the required level of performance skills prior to performance • collaborate effectively with others involved in the performance.
Context of and specific resources for assessment	Assessment must ensure: • access to relevant instruments and equipment • appropriate venue with adequate space and acoustic qualities for solo performances • use of culturally appropriate processes, and techniques appropriate to the language and literacy capacity of the candidate and the work being performed.
Method of assessment	The following assessment methods are appropriate for this unit: • discussion of planning a program for performance • evaluation of draft and final programs prepared by the candidate • written or oral questioning to test knowledge as listed

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

EVIDENCE GUIDE	
	in the required knowledge section of this unit • case studies and scenarios as a basis for discussion of methods, strategies and other issues involved in planning and preparing a program for performance.
Guidance information for assessment	Holistic assessment with other units relevant to the industry sector, workplace and job role is recommended, for example: • CUSMPF401A Rehearse music for group performances • CUSMPF502A Incorporate interactive technology into performance • CUSMPF506A Develop technical skills and expand repertoire • CUSMPF507A Present live audition programs.

Range Statement

RANGE STATEMENT	
The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording, if used in the performance criteria, is detailed below. Essential operating conditions that may be present with training and assessment (depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts) may also be included.	

Requirements may include:	• time
	• venue
	• length of performance
	• content:
	  • repertoire
	  • contrasts within the program material
	  • particular stylistic requirements
	  • performance breaks
	  • duration requirements for each piece presented
	  • number of pieces to be prepared
	• ensemble size
	• resources:
	  • instruments

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT	
	• instrumental accessories • sound equipment • microphones • sheet music • music scores • music stands • accompaniment • movement and dress standards.
Appropriate personnel may include:	• musical director • producer • performer • mentor • teacher • coach • tutor • conductor • agent.
Purpose of the performance may be for:	• general public • entertainment • concert • dance • corporate purposes • cultural purposes • marketing and promotion • a specific age group • educational purposes • schools or other institutions • special communities • special occasions • public and/or religious ceremonies • auditions • audio or video recordings.
Listening may include:	• responding creatively and sensitively to other performers in ensemble performance • tuning instrument • pattern and sequence recognition and memory • reproducing sequences from memory • distinguishing stylistic features • instrumental and vocal sound production • aural imagination to develop repertoire and

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT	
	musical material • recognising music systems and practices.

CUSMPF502A Incorporate interactive technology into performance

Modification History

Not applicable.

Unit Descriptor

Unit descriptor	This unit describes the performance outcomes, skills and knowledge required to incorporate music technology into music performance as a creative tool designed to enhance performance outcomes. Musicians and artists working in this field need a sophisticated understanding of the fusion of music technology and music performance so that they can develop creative and innovative ways to exploit the potential of technology to enhance performances. No licensing, legislative, regulatory or certification requirements apply to this unit at the time of endorsement.

Application of the Unit

Application of the unit	Technological interactivity in music performances focuses on the increasing use of audio software applications and sensor/gesture-based electronic instruments, which allow performers to manipulate a performance while it is happening. Interactive technology can be applied in all musical genres and styles, from electronic dance music DJs, to solo or ensemble performances, to experimental sound sculptures and installations.

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

Licensing/Regulatory Information

Not applicable.

Pre-Requisites

Prerequisite units		

Employability Skills Information

Employability skills	This unit contains employability skills.

Elements and Performance Criteria Pre-Content

Elements describe the essential outcomes of a unit of competency.	Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the required skills and knowledge section and the range statement. Assessment of performance is to be consistent with the evidence guide.

Elements and Performance Criteria

ELEMENT	**PERFORMANCE CRITERIA**
Generate ideas for enhancing performances through the use of interactive technology	1. ***Undertake research*** to identify the range of creative ***ways*** in which interactive technologies can be applied to music performances 2. Listen to or view recordings of performances where interactive technologies have been used, as a way of generating ideas in relation to own music practice 3. Collaborate as required with ***appropriate personnel*** to ensure that a range of creative ideas are generated for incorporating interactive technology into planned performances

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

ELEMENT	PERFORMANCE CRITERIA
	4. Identify ***factors*** that may affect how interactive technology can be incorporated into planned performances and adjust ideas accordingly
Prepare interactive elements	5. Use features of relevant ***software*** and/or electronic devices to generate a sample of interactive elements required for performances 6. Discuss and evaluate the effectiveness of work in progress with appropriate personnel 7. Incorporate feedback and new ideas into the preparation of interactive elements as required 8. Review and test interactive elements and make necessary adjustments to ensure that performances proceed as planned
Integrate interactive elements into performances	9. Incorporate interactive technology elements into own performance in line with agreed plan 10. Respond flexibly and effectively to contingencies to maintain the integrity of the performance 11. Interact considerately and constructively with stage management and other artistic, venue, studio and organisational staff as required 12. Respond promptly and effectively to musical, stage or studio direction 13. Contribute to a cohesive performance by taking and giving cues reliably, promptly, accurately and sensitively
Review performances	14. Assess own contribution to interactive technology aspects of performances in terms of success in achieving the required effect 15. Discuss strengths and weaknesses of performances with appropriate personnel and identify strategies for improving interactive technology aspects of future performances

Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE
This section describes the skills and knowledge required for this unit.
Required skills

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

REQUIRED SKILLS AND KNOWLEDGE

- communication and teamwork skills sufficient to:
  - collaborate effectively with other artists and technical personnel involved in performances
  - provide constructive feedback on performances to others involved in performances
  - respond positively to constructive feedback on own performance
- literacy skills sufficient to read and understand software user manuals
- initiative and enterprise skills in the context of:
  - undertaking research into the ways in which interactive technologies can be used in music performances
  - using technology as a creative music tool
- learning skills sufficient to keep up to date with new versions of software applications relevant to incorporating interactive technology into music-based performances
- planning and organisational skills sufficient to:
  - prioritise work tasks
  - meet deadlines
  - plan the creation of interactive elements in a logical sequence
- problem-solving skills sufficient to promptly and effectively rectify sound defects, system failures and mechanical breakdowns
- technology skills sufficient to use industry-standard software applications relevant to incorporating interactive technology into music-based performances

Required knowledge

- industry knowledge, including:
  - musical terminology, systems, elements and genres
  - group and solo performance protocols and customs
  - features of a range of hardware and software tools/packages for automated music production
  - fusion of music technology and music performance
- principles and techniques of incorporating interactive technology into music-based performances, including:
  - manipulating sound to achieve technical and creative outcomes
  - using effects to achieve a range of functional sound requirements
  - automating events, e.g. lighting, sequence playback, sample playback and control of effects
  - compatibility of different digital standards
  - formats and technical standards
- issues and challenges that typically arise in the context of incorporating interactive technology into music-based performances

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

REQUIRED SKILLS AND KNOWLEDGE

• OHS principles of:
  • safe listening, including safeguards against hearing loss
  • using a computer and keyboard for periods of time

Evidence Guide

EVIDENCE GUIDE	
The Evidence Guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, range statement and the Assessment Guidelines for the Training Package.	
Overview of assessment	
Critical aspects for assessment and evidence required to demonstrate competency in this unit	Evidence of the ability to: • demonstrate sound understanding of the fusion of music technology and music performance • develop and present at least two technology-based interactive music performances • collaborate effectively with others involved in the performances.
Context of and specific resources for assessment	Assessment must ensure: • access to relevant instruments and computer workstations, including sound playback facility • use of culturally appropriate processes, and techniques appropriate to the language and literacy capacity of the candidate and the work being performed.
Method of assessment	The following assessment methods are appropriate for this unit: • observation or video recordings of performances in which the candidate has been responsible for developing and implementing aspects of interactive technology • written or oral questioning on performance strategies • discussion of principles and techniques of incorporating interactive technology into music-based performances • authenticated details of relevant courses or training sessions

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

EVIDENCE GUIDE	
	• authenticated details of relevant artistic and/or commercial achievements • written or oral questioning to test knowledge as listed in the required knowledge section of this unit • case studies and scenarios as a basis for discussion of issues and challenges that typically arise in the context of incorporating interactive technology into music-based performances.
Guidance information for assessment	Holistic assessment with other units relevant to the industry sector, workplace and job role is recommended, for example: • CUSMCP501A Compose music using electronic media • CUSMPF404A Perform music as part of a group • CUSMPF501A Prepare a program for performance • CUSMPF602A Manage stagecraft aspects of performances • CUSSOU403A Perform advanced sound editing.

Range Statement

RANGE STATEMENT	
The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording, if used in the performance criteria, is detailed below. Essential operating conditions that may be present with training and assessment (depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts) may also be included.	

Undertaking research may involve:	• keeping abreast of industry trends through:
	  • searching the internet
	  • reading industry publications
	• keeping up to date with latest developments in:
	  • software applications
	  • sensor or gesture-based electronic musical instruments
	  • emerging technologies
	• attending trade shows
	• participating in conferences and master classes

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT	
	• participating in online discussion forums.

Ways to apply interactive technologies may include:	• creating music with virtual instruments
	• adjusting sounds generated by real instruments
	• adding effects to sounds generated by real instruments
	• using computer interfaces with sensor/gesture based-electronic musical instruments
	• automating events in a music-based performance, including integrating and sequencing:
	  • music
	  • sound effects
	  • voice-overs
	  • visual effects
	  • videos
	  • digital images
	• undertaking virtual sound checks.

Appropriate personnel may include:	• performer
	• ensemble member
	• composer
	• presenter
	• musical director
	• stage director
	• stage manager
	• production manager
	• production supervisor
	• sound engineer
	• technical crew
	• designer:
	  • sound
	  • lighting
	  • costume
	  • make-up and hair
	  • special effects
	• client
	• marketing and promotions personnel
	• artist's agent
	• conductor
	• tutor
	• mentor.

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT	

Factors may include:	• purpose of performance:
	  • entertainment for the general public
	  • concert
	  • dance
	  • corporate purposes
	  • cultural purposes
	  • marketing and promotion
	  • educational purposes
	  • schools or other institutions
	  • special communities
	  • special occasions
	  • public and/or religious ceremonies
	  • auditions
	  • audio or video recordings for online products or interactive games
	• available personnel
	• available resources
	• available budget
	• client's expectations
	• intellectual property
	• technical parameters, including:
	  • technology constraints
	  • console
	  • platform
	  • bandwidth
	  • memory/RAM
	• timelines
	• target audience.

Software applications may include:	• Logic Audio • MAX • Pro Tools • Sibelius • Reason • Ableton Live.

CUSMPF503A Perform accompaniment

Modification History

Not applicable.

Unit Descriptor

Unit descriptor	This unit describes the performance outcomes, skills and knowledge required to perform for audiences as an accompanist. High-level technical skills are required to ensure that the accompaniment matches and complements the performance of solo performers or groups, such as choirs. The ability to collaborate with and support performers during performances is essential. No licensing, legislative, regulatory or certification requirements apply to this unit at the time of endorsement.

Application of the Unit

Application of the unit	Solo accompanists apply the skills and knowledge outlined in this unit. Piano is the primary instrument for accompaniment, but other instruments can be used depending on the nature of a performance.

Licensing/Regulatory Information

Not applicable.

Pre-Requisites

Prerequisite units		

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

Prerequisite units		

Employability Skills Information

Employability skills	This unit contains employability skills.

Elements and Performance Criteria Pre-Content

Elements describe the essential outcomes of a unit of competency.	Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the required skills and knowledge section and the range statement. Assessment of performance is to be consistent with the evidence guide.

Elements and Performance Criteria

ELEMENT	**PERFORMANCE CRITERIA**
Prepare to perform accompaniment	1. Discuss and confirm artistic vision and expected performance outcomes with ***appropriate personnel*** 2. Confirm own status and contribution within the overall concept, ensuring that own artistic and professional integrity are maintained 3. Ensure that accompaniment is within own technical and artistic level of ability 4. Undertake adequate personal practice to achieve the required standard before combined rehearsal period begins 5. Take direction from and maintain support for the principal artists in rehearsals 6. Develop and use ***strategies to overcome the effects of performance anxiety***
Provide accompaniment for performers	7. Ensure that musical content is appropriate to the instrument, context and standard of performers 8. In collaboration with appropriate personnel, apply

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

ELEMENT	PERFORMANCE CRITERIA
	music knowledge to adapt music for the content and context of the performance 9. Ensure that accompaniment underpins and enhances the performance 10. Emphasise elements of the music appropriately for the performance 11. Maintain energy levels, concentration and focus throughout the performance 12. Ensure that practice and performance sessions allow for reasonable rest breaks appropriate to the performance context 13. Ensure that rehearsal and performance conditions are safe and ergonomically adequate for correct posture
Provide stimulus and support for performers	14. Continuously monitor and adjust to the needs of the performers' own performance 15. Ensure that accompaniment complements the inherent qualities of performers and follows the overall performance 16. Respond in a sensitive and informed way to the ***technical demands*** of the performance 17. Ensure that accompaniment gives clear and accurate guidance to performers as required and is capable of being reproduced exactly 18. ***Listen*** and adjust volume of playing to the needs of performers and context of activity throughout the performance 19. Maintain balance consistently between performers and accompaniment
Interact with performers	20. Respond sensitively to performers' emotional state 21. Respond sensitively to performers' artistic requirements to ensure planned performance outcomes are achieved 22. Adapt accompaniment to particular methods and styles of performers as required to achieve agreed performance outcomes 23. Ensure that conduct and appearance are appropriate to the performance context 24. Take and give cues reliably, promptly, accurately and sensitively
Evaluate performance	25. Contribute to evaluation of the performance of performers in a sensitive, constructive and unbiased way 26. Evaluate own performance as accompanist and note

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

ELEMENT	PERFORMANCE CRITERIA
	areas for future improvement 27. Seek feedback on own performance from appropriate personnel and incorporate suggestions into overall ***strategies for improving own accompaniment skills***

Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This section describes the skills and knowledge required for this unit.

Required skills

- communication and teamwork skills sufficient to:
  - interpret music appropriately for performances
  - collaborate effectively with other artists and technical personnel to achieve planned outcomes
  - work with performers to achieve best performance outcomes
- listening skills in the context of:
  - demonstrating empathy with performers
  - listening critically to and adjusting own performance to achieve the required sound and to support performers
  - responding to other players and adjusting own performance in ensemble
- technical and problem-solving skills sufficient to:
  - use a range of instrumental techniques in selected area of specialisation
  - tune instrument to achieve intonation
  - use a variety of rhythms, time signatures, beat patterns and rhythmic styles relevant to specialisation
  - use a variety of scales, chord sequences and music systems in selected area of specialisation
- learning skills in the context of:
  - using feedback to identify strengths and weaknesses in technique to improve own technical facility
  - extending repertoire knowledge
- self-management and planning skills sufficient to:
  - plan practice time prior to performance to improve technical facility
  - allow sufficient time for warm-up prior to performances
  - maintain an appropriate standard of personal presentation
- initiative, enterprise and creativity in the context of:

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

REQUIRED SKILLS AND KNOWLEDGE
• supporting performers to deal with contingencies during performances • phrasing and shaping music appropriately • understanding and expressing appropriate musical nuance
Required knowledge

• music knowledge:
  • repertoire knowledge in selected area of specialisation
  • musical terminology, systems, elements and genres
  • musical styles in selected area of specialisation
  • group and solo performance protocols and customs
• issues and challenges that arise in the context of performing as an accompanist
• OHS principles as they apply to performing:
  • relevant legislation
  • policies and best practice relevant to particular performance contexts
  • preventative practice against overuse injury and hearing damage
  • correct posture

Evidence Guide

EVIDENCE GUIDE	
The Evidence Guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, range statement and the Assessment Guidelines for the Training Package.	
Overview of assessment	
Critical aspects for assessment and evidence required to demonstrate competency in this unit	Evidence of the ability to: • perform proficiently as an accompanist before an audience on at least three occasions • listen effectively to adjust intonation and nuance in performance • apply interpretation and expression skills • communicate effectively with others involved in performances.
Context of and specific resources for assessment	Assessment must ensure: • access to relevant instruments and equipment • opportunities to accompany performers before an audience

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

EVIDENCE GUIDE	
	• appropriate venue with adequate space and acoustic qualities for solo performances • use of culturally appropriate processes, and techniques appropriate to the language and literacy capacity of the candidate and the work being performed.
Method of assessment	The following assessment methods are appropriate for this unit: • observation or video recordings of the candidate performing accompaniments • written or oral questioning on performance strategies as an accompanist • discussion of planning for performances • relevant samples of artistic work with candidate's evaluation • authenticated details of relevant courses or training sessions • authenticated details of relevant artistic and/or commercial achievements • written or oral questioning to test knowledge as listed in the required knowledge section of this unit • case studies and scenarios as a basis for discussion of methods, strategies and other issues involved in being an accompanist.
Guidance information for assessment	Holistic assessment with other units relevant to the industry sector, workplace and job role is recommended, for example: • CUSIND501A Apply music knowledge and artistic judgement • CUSMPF401A Rehearse music for group performances • CUSMPF410A Perform music from written notation • CUSMPF501A Prepare a program for performance • CUSMPF506A Develop technical skills and expand repertoire.

Range Statement

RANGE STATEMENT

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT	
The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording, if used in the performance criteria, is detailed below. Essential operating conditions that may be present with training and assessment (depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts) may also be included.	
Appropriate personnel may include:	• artists and performers • directors • composers • conductors • bandleaders • producers • promoters • mentors.

Strategies to overcome the effects of performance anxiety may include:	• focussing on a single element or action at a time
	• relaxation techniques, such as:
	  • meditation
	  • deep breathing
	• focussing on patterns rather than individual notes
	• warm-up routines.

Music knowledge may include:	• repertoire
	• instrument knowledge
	• findings from music analyses and research
	• musical forms, systems, practices and customs
	• music notation
	• interpretation of directions for:
	  • instrumentation
	  • voicing
	  • expression
	  • timbre
	  • attack
	  • pitch
	  • tempi
	  • dynamics
	• accompaniment protocols
	• rehearsal and performance protocols
	• chord and melodic formulae.

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT	
Technical demands may involve:	• techniques to control and enhance performance • musical elements and techniques appropriate to style of music making • technical requirements for ensemble partners • technical requirements of relevant instruments.
Listening may include:	• tuning instrument • accurate intonation and stylistic nuance in performance • performance collaboration • needs of performers for support • pattern and sequence recognition and memory • recognising music systems and practices • chords and keys in tonal or other musical systems • reproducing sequences from memory.
Strategies for improving own accompaniment skills may include:	• working with an appropriate tutor and/or coach • private practice • using opportunities to practise as an accompanist with principle performers in selected area of specialisation • participating in relevant groups or associations in selected area of specialisation • participating in professional development and other learning opportunities • attending master classes • attending performances • contributing to and participating in festivals and conferences relevant to area of specialisation • being involved in a range of music accompaniment activities in selected area of specialisation • studying performance techniques in a range of styles in selected area of specialisation • listening critically to a wide range of live and recorded music.

CUSMPF505A Perform improvisation for audiences

Modification History

Not applicable.

Unit Descriptor

Unit descriptor	This unit describes the performance outcomes, skills and knowledge required to perform improvisation for an audience as part of an ensemble. Critical to the success of performances that involve improvisation is the ability of all members of the group to work collaboratively and creatively together to embellish musical elements of chosen pieces. No licensing, legislative, regulatory or certification requirements apply to this unit at the time of endorsement.

Application of the Unit

Application of the unit	Improvisation skills are required by musicians in a range of musical genres and traditions, for example, jazz, blues, classical, folk and rock. Aural awareness and a thorough grounding in the practice of the chosen genre or musical tradition are required so that musicians are in a position to respond intuitively to musical elements as they seek to vary them spontaneously during performances. More complex skills associated with improvisation are covered in: • CUSMPF604A Extend improvisation techniques.

Licensing/Regulatory Information

Not applicable.

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

Pre-Requisites

Prerequisite units		

Employability Skills Information

Employability skills	This unit contains employability skills.

Elements and Performance Criteria Pre-Content

Elements describe the essential outcomes of a unit of competency.	Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the required skills and knowledge section and the range statement. Assessment of performance is to be consistent with the evidence guide.

Elements and Performance Criteria

ELEMENT	**PERFORMANCE CRITERIA**
Prepare for ensemble improvisation	1. Confirm ***improvisation requirements*** in consultation with ***relevant personnel*** 2. Agree on strategies for clear communication within the group during the improvisation to allow the music to flow 3. Rehearse aspects of the performance as required
Contribute to the work of ensemble	4. Ensure that own contribution extends and enhances the overall piece 5. Support and enhance the contribution of others to achieve best performance outcomes 6. Make improvisation sensitive to the needs of other performers to stimulate the whole ensemble
Contribute solo	7. Respond accurately to starting ***cues***

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

ELEMENT	PERFORMANCE CRITERIA
improvisation	8. Sustain musical impetus in the solo improvisation through dynamic use of ***musical elements*** 9. Maintain stylistic cohesion in the realisation of harmony, melody, and/or rhythm and musical expression 10. Listen carefully to other performers, respond aurally to their work and adjust own performance appropriately 11. Provide a clear cue to the ensemble to finish the solo section 12. Ensure that the duration of the solo section accords with the custom and practice of the group and/or musical style 13. Acknowledge applause according to the custom and practice of the group and/or musical style
Evaluate improvisation	14. Establish measures and methods that contribute to objective assessment for evaluating the success of the work in its context 15. Assess and confirm with appropriate people the extent to which the improvisation has explored fully its potential in terms of content, style and structure 16. Record performances where possible for evaluation purposes 17. Measure performance against previous performances to assess development of self and ensemble 18. Seek and use feedback to adjust performance 19. Analyse performance for its potential contribution to further work 20. Consider strengths and weaknesses to inform future performance

Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE
This section describes the skills and knowledge required for this unit.
Required skills

• communication, listening and teamwork skills in the context of:
  • responding appropriately to aural and written cues
  • using aural imagination to develop and embellish themes in performance

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

REQUIRED SKILLS AND KNOWLEDGE
• working collaboratively with other members of the ensemble • giving and receiving constructive feedback on own performance and that of the group • technical skills in the context of: • demonstrating technical facility with the performance medium • using a range of improvisation techniques and styles in area of specialisation • using a variety of rhythms, time signatures, beat patterns and rhythmic styles in area of specialisation • initiative and creativity in the context of: • demonstrating originality and innovative approaches in improvisation • developing musical themes • listening critically to continuously evaluate and adjust the musical work • phrasing and shaping music appropriately • understanding and expressing appropriate musical nuance • applying appropriate styles or interpretation • working creatively with individual differences • responding appropriately to the unexpected in a live performance situation • self-management and learning skills in the context of: • monitoring and evaluating own improvisations • improving performance through experimentation and practice • responding appropriately to the pressures of performing live
Required knowledge
• music knowledge, including: • well-developed understanding of chosen styles and genres and their musical forms and conventions for improvisation • chord schemes, rhythmic patterns and rhythmic conventions as they apply to improvisation • musical and performance protocols • issues and challenges that arise in the context of performing improvisations • OHS issues as they relate to performing live in a range of venues

Evidence Guide

EVIDENCE GUIDE
The Evidence Guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, range statement and the Assessment

EVIDENCE GUIDE	
Guidelines for the Training Package.	
Overview of assessment	
Critical aspects for assessment and evidence required to demonstrate competency in this unit	Evidence of the ability to: • perform improvisations on at least three occasions using a range of improvisation styles in area of specialisation • respond creatively to cues • use aural imagination to develop musical materials • collaborate effectively with other members of a performance ensemble.
Context of and specific resources for assessment	Assessment must ensure: • access to relevant instruments and equipment • performance opportunities as part of an ensemble • appropriate venue with adequate space and acoustic qualities • an audience • use of culturally appropriate processes, and techniques appropriate to the language and literacy capacity of the candidate and the work being performed.
Method of assessment	The following assessment methods are appropriate for this unit: • observation of performance where the candidate is performing an improvisation • written or oral questioning on the music structures of improvisation • written or oral questioning to test knowledge as listed in the required knowledge section of this unit • relevant samples of artistic work with candidate's evaluation • authenticated details of relevant artistic and/or commercial achievements • video or audio recordings of performance or practice sessions where the candidate is performing an improvisation • case studies and scenarios as a basis for discussing issues about performing improvisations.
Guidance information for assessment	Holistic assessment with other units relevant to the industry sector, workplace and job role is recommended,

CUSMPF506A Develop technical skills and expand repertoire

Modification History

Not applicable.

Unit Descriptor

Unit descriptor	This unit describes the performance outcomes, skills and knowledge required to refine instrumental techniques and expand the range of practical performance repertoire. No licensing, legislative, regulatory or certification requirements apply to this unit at the time of endorsement.

Application of the Unit

Application of the unit	This unit builds on CUSMPF405A Develop instrumental techniques, and can apply to a first or second instrument. A higher level of competence in areas such as performance preparation, craft skills and musicianship is required of musicians as they seek more performance opportunities. They can be expected to show a real commitment to improving their skills and to expanding their repertoire in ways that allow them to demonstrate higher levels of technical and expressive skills. A willingness to act on feedback from colleagues and mentors is also essential.

Licensing/Regulatory Information

Not applicable.

Pre-Requisites

Prerequisite units		

Employability Skills Information

Employability skills	This unit contains employability skills.

Elements and Performance Criteria Pre-Content

Elements describe the essential outcomes of a unit of competency.	Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the required skills and knowledge section and the range statement. Assessment of performance is to be consistent with the evidence guide.

Elements and Performance Criteria

ELEMENT	**PERFORMANCE CRITERIA**
Use technical control in performing music	1. Use control of the physical characteristics of chosen ***instrument*** to perform music skilfully 2. Use technical control to exploit the expressive qualities of chosen instrument in performance 3. Control sound production to achieve consistency and reliability in performance across a wide range of repertoire in selected musical style
Maintain and care for the instrument	4. Use appropriate methods to care for, move, use and store the instrument securely 5. Set up and/or warm up the instrument in preparation for practice or performance 6. Use instrumental ***accessories***, fittings, maintenance and cleaning products to care for the instrument and enhance performance outcomes

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

ELEMENT	PERFORMANCE CRITERIA
	7. ***Tune*** the instrument appropriately to the required standard and tuning conventions
Use practice time to develop techniques and expand repertoire	8. In consultation with ***appropriate personnel***, plan practice sessions, ***strategies*** and ***exercises*** aimed at extending ***techniques*** and expanding ***repertoire*** 9. Use repertoire or specific technical exercises to address specific ***needs*** 10. Apply developing experience of the physical relationship with the instrument to achieve individual style and extend musical expression 11. Listen to own work critically to produce accurate intonation and tone colour across a wide dynamic range 12. Use good posture and appropriate finger, hand and/or body positions to perfect technical facility and ensure healthy performance habits 13. Monitor progress in skill development against personal goals and adjust practice sessions accordingly
Apply refined skills to perform a wider range of pieces	14. Interpret music appropriately to play a range of repertoire for solo and ensemble performance using appropriate rhythm, expression and tuning 15. Use a variety of instrumental techniques to perform a range of repertoire appropriate to the selected area of music specialisation 16. Control intonation, rhythm, tempo, expression, phrasing and nuance appropriate to the repertoire and musical style 17. Evaluate own performances and note areas for future improvement 18. Seek feedback on own performance from appropriate personnel and incorporate their ideas and suggestions into strategies for continuously improving own skills and knowledge

Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE
This section describes the skills and knowledge required for this unit.
Required skills

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

REQUIRED SKILLS AND KNOWLEDGE

- communication, teamwork and organisational skills sufficient to:
  - interpret music appropriately for performance practice
  - respond appropriately to constructive feedback on own performance
- self-management and planning skills sufficient to:
  - plan own practice time
  - set development goals
  - identify areas of weakness and plan practice accordingly
- listening skills sufficient to:
  - monitor and adjust intonation as required
  - recognise intervals, chords, scales and chord progressions in selected area of specialisation
  - use appropriate sound and tone production for instrument or voice
  - produce a controlled sound with variations in tone as required
  - apply acoustic principles to own playing
- initiative and enterprise skills in the context of:
  - producing sounds in a range of ways appropriate to selected musical style and repertoire
  - developing an increased awareness of the subtleties and variations of tone colour available on chosen instrument and their use in performance
- learning skills in the context of:
  - improving music performance skills and expression through practice
  - expanding repertoire
- technical and problem-solving skills sufficient to:
  - use a range of instrumental techniques on a first or second instrument
  - tune instrument to achieve intonation
  - play an extensive range of scales, rhythms or chord patterns in selected area of specialisation
  - produce planned sound consistently across a wide dynamic range
  - discriminate and adjust pitch to produce the required sound

Required knowledge

- acoustic principles relevant to selected instrument and area of specialisation
- instrument parts, applications, range, capabilities, care and maintenance
- repertoire relevant to the selected instrument and area of specialisation
- issues and challenges that arise in the context of refining technical skills and expanding repertoire
- OHS principles relevant to particular performance contexts, such as:
  - legislation
  - policies and best practice

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

REQUIRED SKILLS AND KNOWLEDGE
• hearing protection • protection of body against overuse injury • safe lifting practices • performance anxiety

Evidence Guide

EVIDENCE GUIDE	
The Evidence Guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, range statement and the Assessment Guidelines for the Training Package.	
Overview of assessment	
Critical aspects for assessment and evidence required to demonstrate competency in this unit	Evidence of the ability to: • use aural discrimination to monitor and adjust own performance to achieve the required sound • demonstrate fluent performance on the selected instrument in area of specialisation • monitor progress in own skill development • expand repertoire in area of specialisation • respond positively to constructive feedback on own performance.
Context of and specific resources for assessment	Assessment must ensure: • access to relevant instrument and equipment • access to suitable acoustic space • use of culturally appropriate processes, and techniques appropriate to the language and literacy capacity of learners and the work being performed • opportunities to demonstrate improvement in technical skills and expansion of repertoire.
Method of assessment	The following assessment methods are appropriate for this unit: • observation of practice or performance • written or oral questioning on technical development strategies, planning and goals • video and/or audio recordings of performances or practice sessions

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

EVIDENCE GUIDE	
	• self-evaluation sheets • samples of work plans for private practice sessions, including monitoring of progress against goals • case studies and scenarios as a basis to discuss issues associated with technical skill development and expansion of repertoire.
Guidance information for assessment	Holistic assessment with other units relevant to the industry sector, workplace and job role is recommended, for example: • CUSIND401A Develop specialist expertise in the music industry • CUSMLT501A Refine aural-perception skills • CUSMPF401A Rehearse music for group performances • CUSMPF505A Perform improvisation for audiences.

Range Statement

RANGE STATEMENT	
The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording, if used in the performance criteria, is detailed below. Essential operating conditions that may be present with training and assessment (depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts) may also be included.	
Instruments may be first or second instruments and may include:	• acoustic or electronic • voice • stringed • keyboards • wind • tuned and untuned percussion • brass • plucked.
Accessories may include:	• reeds • strings • plectrums • mouth pieces • sticks, mallets, brushes and beaters

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT	
	• stands • pedals • microphones • amplifiers • samplers • mixers • enhancers.

Tuning an instrument may involve:	• adjusting:
	  • pitch
	  • tone colour
	  • oral tract, including lip pressure and intensity of breath
	  • position of the diaphragm and larynx
	  • sound production
	  • diameter or other instrumental dimensions, such as:
	  • length of strings
	  • tautness of skins
	  • length of tubing or pipes
	  • embouchure
	  • settings of the instrument and relevant accessories
	• using:
	  • appropriate tuning options
	  • tuning keys or other tuning implements, such as tuning forks and electronic tuners
	  • pitch pipes
	  • electronic pitch or frequency controls
	  • other musicians.

Appropriate personnel may include:	• musical director • performer • mentor • teacher • coach • tutor • conductor • sound engineer.
Strategies may include:	• working effectively with an appropriate tutor • practising as a performer

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT	
	• participating in relevant groups or associations • participating in professional development and other learning opportunities • attending master classes • attending performances • listening critically to a wide range of live and recorded music.
Exercises may be aimed at developing:	• ability to play a wide range of scales, triads, arpeggios, chords or rhythms • varied tone colour • bowing techniques to achieve good phrasing and a range of articulation options • embouchure to achieve good tone production across the range and special techniques • fingering patterns to achieve required phrasing, articulation and dynamics • posture appropriate to good sound production and OHS principles • hand and/or foot patterns • plucking and picking patterns • drumming expertise with mallets and beaters • pedalling techniques • microphone techniques.

Techniques may involve:	• instrumental/vocal sound production
	• physical coordination
	• improvisation
	• sight reading
	• playing a range of pieces in different styles in area of specialisation
	• playing a wide range of rhythms, time signatures and rhythm patterns in area of specialisation
	• playing a wide range of chords and chord patterns in area of specialisation
	• using a range of keys, scales and chord sequences
	• adjusting tone colour through:
	  • instrumental attack
	  • techniques for sound production
	  • a range of accessories
	  • electronic sound enhancers

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT	
	• interaction between the player and the instrument • use of performer's physique • improving aural memory.
Repertoire may include:	• solo pieces • ensemble pieces • improvised pieces.
Needs may include:	• working on identified technical weaknesses • extending rhythmic accuracy • performing a wide range of techniques appropriate to the style of music • refining physical facility • ensuring skilful control of the instrument across an extensive range of repertoire.

CUSMPF507A Present live audition programs

Modification History

Not applicable.

Unit Descriptor

Unit descriptor	This unit describes the performance outcomes, skills and knowledge required to prepare for and perform at an audition. No licensing, legislative, regulatory or certification requirements apply to this unit at the time of endorsement.

Application of the Unit

Application of the unit	Instrumentalists and vocalists apply the skills and knowledge outlined in this unit. In a highly competitive market place it is essential that musicians know how to prepare for live auditions so that they can showcase their performance skills to prospective employers.

Licensing/Regulatory Information

Not applicable.

Pre-Requisites

Prerequisite units		

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

Employability Skills Information

Employability skills	This unit contains employability skills.

Elements and Performance Criteria Pre-Content

Elements describe the essential outcomes of a unit of competency.	Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the required skills and knowledge section and the range statement. Assessment of performance is to be consistent with the evidence guide.

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
Plan audition program	1. Confirm audition ***requirements*** in consultation with ***appropriate personnel*** 2. Undertake background research into the needs and business of auditioning body to strategically plan the program 3. Plan program to suit auditioning body's requirements 4. Prepare a varied program that demonstrates own strengths in performance and that is well within the technical and stylistic ability of any other performers required for the audition 5. Observe all protocols, either specifically prescribed by auditioning body or otherwise appropriate to context 6. Confirm arrangements with accompanist or ensemble to allow maximum rehearsal time 7. Where possible test the audition venue and facilities in advance or inspect to assess warm-up possibilities 8. Organise ***portfolio*** to present to auditioning body as required
Prepare for audition	9. Purchase or hire scores, tapes or other materials necessary for the program 10. Comply with ***statutory requirements*** for music to be performed at audition 11. Check the condition of instruments and/or accessories to

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

ELEMENT	PERFORMANCE CRITERIA
	be used in the audition to ensure optimum working order and repair or adjust as necessary to ensure best performance conditions 12. Where appropriate check the tuning of instruments in advance and take measures to ensure ease and accuracy of tuning both in preparation for, and during, the audition 13. Ensure that all equipment is appropriate to the audition venue and context 14. Inspect and try out instruments and/or equipment where possible in advance of the audition when they are to be supplied by the auditioning body at the venue
Present audition	15. Arrive at the venue punctually to allow for warm-up time and registration procedures 16. Use ***relaxation techniques*** to overcome performance anxiety as required 17. Ensure that dress and manner are appropriate to the audition and musical context 18. Ensure that required ***resources*** are on hand and available in a manner that allows the audition to proceed without undue interruption 19. Present portfolio as required 20. Apply ***music knowledge*** and appropriate ***techniques*** to perform pieces to best of one's ability 21. Listen carefully and respond to instructions given during the audition, including cutting off the performance if and when instructed 22. Maintain a positive and courteous manner with auditioner and fellow performers
Follow up audition	23. At the completion of the audition confirm an expected time for hearing the audition outcome 24. Where result is successful, obtain details of contract interview and follow up accordingly 25. Where result is unsuccessful, follow up with a courteous request for appraisal and further advice 26. Evaluate and assess the audition performance and feedback to influence future audition preparation and performance 27. Send follow-up correspondence for each audition whether successful or not to communicate appreciation for the opportunity and to allow for further opportunities

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This section describes the skills and knowledge required for this unit.

Required skills

- communication, teamwork and organisational skills sufficient to:
  - respond appropriately to constructive feedback on own performance
  - respond appropriately to directions during auditions
  - present confidently in an audition situation
- self-management and planning skills sufficient to:
  - plan audition program and practice time
  - identify areas of weakness and plan practice accordingly
  - maintain an appropriate standard of personal presentation in an audition context
- listening skills sufficient to:
  - monitor and adjust intonation as required
  - recognise intervals, chords, scales and chord progressions in selected area of specialisation
  - use appropriate sound and tone production for instrument or voice
  - produce a controlled sound with variations in tone as required
  - apply acoustic principles to own playing
- initiative and enterprise skills in the context of:
  - producing sounds in a range of ways appropriate to selected musical style and repertoire
  - responding appropriately to the unexpected in an audition situation
- learning skills in the context of improving music performance skills and expression through practice
- technical and problem-solving skills sufficient to:
  - use a range of instrumental techniques in selected area of specialisation
  - tune instrument to achieve intonation
  - play an extensive range of scales, rhythms or chord patterns in selected area of specialisation
  - produce planned sound consistently across a wide dynamic range
  - discriminate and adjust pitch to produce the required sound

Required knowledge

- acoustic principles relevant to selected instrument and area of specialisation
- music vocabulary and terminology

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

REQUIRED SKILLS AND KNOWLEDGE

• instrument parts, applications, range, capabilities, care and maintenance
• repertoire relevant to the selected instrument and area of specialisation
• performance and audition protocols
• issues and challenges that arise in the context of presenting a live audition program
• OHS principles relevant to particular performance contexts, such as:
  • legislation
  • policies and best practice
  • hearing protection
  • protection of body against overuse injury
  • safe lifting practices
  • performance anxiety

Evidence Guide

EVIDENCE GUIDE	
The Evidence Guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, range statement and the Assessment Guidelines for the Training Package.	
Overview of assessment	
Critical aspects for assessment and evidence required to demonstrate competency in this unit	Evidence of the ability to: • prepare an audition program that meets the requirements of an auditioning body • perform proficiently for an audition on at least two occasions (either real or simulated) • listen effectively to adjust intonation and nuance in performance • apply interpretation and expression skills • communicate effectively with others involved in the audition.
Context of and specific resources for assessment	Assessment must ensure: • access to relevant instruments and equipment • opportunities for auditions in either a real or simulated situation • appropriate venue with adequate space and acoustic qualities for solo performances • use of culturally appropriate processes, and

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

EVIDENCE GUIDE	
	techniques appropriate to the language and literacy capacity of the candidate and the work being performed.
Method of assessment	The following assessment methods are appropriate for this unit: • observation or video recordings of candidate presenting a live audition program • written or oral questioning on performance strategies • discussion of planning for an audition • written or oral questioning to test knowledge as listed in the required knowledge section of this unit • case studies and scenarios as a basis for discussion of methods, strategies and other issues involved in preparing for and presenting a live audition program.
Guidance information for assessment	Holistic assessment with other units relevant to the industry sector, workplace and job role is recommended, for example: • CUSMPF401A Rehearse music for group performances • CUSMPF406A Perform music as a soloist • CUSMPF501A Prepare a program for performance • CUSMPF506A Develop technical skills and expand repertoire.

Range Statement

RANGE STATEMENT	
The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording, if used in the performance criteria, is detailed below. Essential operating conditions that may be present with training and assessment (depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts) may also be included.	
Requirements may include:	• purpose • time • venue • length of the audition • content:

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT	
	• repertoire • contrasts within the program material • particular stylistic requirements • performance breaks • duration requirements for each piece presented • number of pieces to be prepared • whether auditioners will choose from a presented list, or hear all pieces or parts of pieces • ensemble size • accompaniment • movement and dress standards.
Appropriate personnel may include:	• representative of the auditioning body • musical director • performer • mentor • teacher • coach • tutor • conductor • agent.

Portfolio may include:	• biographies
	• photographic materials
	• scores
	• music demos:
	  • audio
	  • video
	• multimedia
	• kits.

Statutory requirements may relate to:	• copyright • duty of care.

Relaxation techniques may include:	• mind to muscle:
	  • meditation
	  • imagery/conscious visualisation
	  • affirmations
	• stretching
	• deep breathing
	• light aerobic exercises.

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT	
Resources may include:	• instruments • instrumental accessories • sound equipment • microphones • sheet music • music scores • music stands.

Music knowledge may include:	• repertoire
	• instrument knowledge
	• findings from music analyses and research
	• musical forms, systems, practices and customs
	• music notation
	• interpretation of directions for:
	  • instrumentation
	  • voicing
	  • expression
	  • timbre
	  • attack
	  • pitch
	  • tempi
	  • dynamics
	• accompaniment protocols
	• rehearsal and performance protocols
	• chord and melodic formulae
	• aural imagination to develop musical material and/or interpretation
	• pattern and sequence recognition and memory
	• solo and ensemble protocols.

Techniques may involve:	• instrumental/vocal sound production • physical coordination • improvisation • sight reading • playing a range of pieces in different styles in area of specialisation • playing a wide range of rhythms, time signatures and rhythm patterns in area of specialisation • playing a wide range of chords and chord patterns in area of specialisation • using a range of keys, scales and chord

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT	

	sequences
	• adjusting tone colour through:
	  • instrumental attack
	  • techniques for sound production
	  • a range of accessories
	  • electronic sound enhancers
	  • interaction between the player and the instrument
	  • use of performer's physique.

CUSMPF508A Provide musical leadership in performance

Modification History

Not applicable.

Unit Descriptor

Unit descriptor	This unit describes the performance outcomes, skills and knowledge required to lead a group in ensemble or other musical performance. This leadership role includes being responsible for motivating others to give their best in performance. This involves applying a range of musicianship skills, such as stagecraft; understanding the performance capabilities of instruments; and providing solutions to performance problems that arise during rehearsals and performances. No licensing, legislative, regulatory or certification requirements apply to this unit at the time of endorsement.

Application of the Unit

Application of the unit	Performers and musical directors apply the skills and knowledge described in this unit. Typically they are responsible for leading a group in ensemble or other musical performance. More complex skills associated with conducting are covered in: • CUSMPF606A Conduct musical performances.

Licensing/Regulatory Information

Not applicable.

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

Pre-Requisites

Prerequisite units		

Employability Skills Information

Employability skills	This unit contains employability skills.

Elements and Performance Criteria Pre-Content

Elements describe the essential outcomes of a unit of competency.	Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the required skills and knowledge section and the range statement. Assessment of performance is to be consistent with the evidence guide.

Elements and Performance Criteria

ELEMENT	**PERFORMANCE CRITERIA**
Extend music techniques	1. Adapt acquired techniques and ***technical skills*** to the context of the chosen style or playing environment to achieve best outcomes for self and others 2. Establish and undertake regular practice regimes to ensure that technique and skills are maintained and further developed to meet ***leadership requirements*** 3. Develop and extend skills and techniques as required in a range of different working contexts and their ***requirements*** 4. Develop intellectual and emotional response to, and understanding of, music through exposure to a wide range of stimuli 5. Focus ***listening*** skills in all musical experiences to enable analysis of content and musical intent to enhance

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

ELEMENT	PERFORMANCE CRITERIA
	musical outcomes for self and others 6. Develop aural memory and exercise consistently in all musical experiences 7. Analyse a diverse range of works to develop broad and specialised ***repertoire*** knowledge for self and others
Facilitate the expression of ideas and concepts in performance	8. Adapt, combine and integrate techniques, disciplines and skills flexibly to enable the appropriate physical expression of concepts 9. Focus and clearly project interpretive response to relevant performers 10. Demonstrate spatial awareness in a range of playing areas and give directions creatively and effectively to achieve best performance outcomes for self and others 11. Develop ***stagecraft skills*** by evaluating and using the physical components of performance effectively for self and others
Evaluate performances	12. Participate in debriefing sessions with ***relevant personnel*** to identify strengths and weaknesses of performances 13. Document the outcome of debriefing sessions according to enterprise procedures 14. Reflect on own performance and note areas for improvement 15. Respond appropriately to audience and peer feedback on performances
Enhance professional practice	16. In consultation with relevant personnel, identify ***professional development opportunities*** 17. Participate in professional development activities to improve work performance and ensure currency of industry knowledge 18. Use industry affiliations and strategic alliances to support and maintain professional practice 19. Seek and apply constructive criticism from others to improve own technical and conceptual skills

Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

REQUIRED SKILLS AND KNOWLEDGE

This section describes the skills and knowledge required for this unit.

Required skills

- communication and teamwork skills sufficient to:
  - provide musical leadership to performers and instrumentalists during rehearsals and performances
  - work creatively with individual differences
  - work constructively with group dynamics
  - identify and deal positively and constructively with conflict
- initiative, enterprise and creativity in the context of:
  - matching repertoire to target audience
  - demonstrating originality and innovative approaches to the performance and interpretation of music for self and others in area of specialisation
  - extending musical boundaries for self and audience in area of specialisation
  - phrasing and shaping music appropriately in area of specialisation
  - understanding and expressing appropriate musical nuance in area of specialisation
  - leading musical performances appropriately for the context of venues, sound forces and perceived audience taste in area of specialisation
  - engaging audiences through appropriate use of stagecraft skills
- listening skills sufficient to:
  - recognise intervals, chords, scales and chord progressions in area of specialisation
  - understand appropriate intonation, dynamics, phrasing, rhythm and expression to produce the required sound for self and others in area of specialisation
  - listen critically to the creative work of others to inform own work and the work of others in area of specialisation
  - listen critically to and adjust own creative work to achieve the required sound for self and others in area of specialisation
- planning and organisational skills sufficient to:
  - clarify roles
  - work within established timeframes to achieve planned outcomes
  - match work commitments to best career outcomes
  - plan practice to improve own technical facility in performance, and directing music in area of specialisation
  - demonstrate punctuality in all work commitments
  - use time-management strategies to set priorities
- learning and self-management skills sufficient to:
  - locate and use resources to advance own artistic and career development in area

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

REQUIRED SKILLS AND KNOWLEDGE
of specialisation • evaluate and adjust career directions and plans realistically to advance in area of specialisation • evaluate, adjust and develop own work in line with planned career directions • discern and listen to the advice of colleagues, experts and audience groups to adjust work in line with career direction • observe cultural protocols appropriate to the genre or area of specialisation • use appropriate posture, dress and other performance protocols in area of specialisation • apply OHS principles wherever relevant to work practice • technical skills sufficient to: • use equipment and instruments in area of specialisation • use technology to improve efficiency and musical outcomes for self and others in area of specialisation • investigate technology to enhance artistic or commercial outcomes in area of specialisation
Required knowledge
• music knowledge in area of specialisation, including: • setting down music for performance or interpreting music in performance • improvisation conventions • sight reading from charts or musical notation • appropriate repertoire • musical terminology • musical genres and styles • solo and group performance protocols • composition process • issues and challenges that typically arise in the context of providing musical leadership in performance • techniques for moving the body and breathing to enhance musical performance of self and others • OHS requirements and procedures in relation to performing

Evidence Guide

EVIDENCE GUIDE
The Evidence Guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, range statement and the Assessment

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

EVIDENCE GUIDE	
Guidelines for the Training Package.	
Overview of assessment	
Critical aspects for assessment and evidence required to demonstrate competency in this unit	Evidence of the ability to: • provide musical leadership in rehearsal and performance on at least three occasions • apply high levels of music literacy and repertoire knowledge • continuously improve performances through ongoing evaluation • motivate others involved in performances to achieve their best.
Context of and specific resources for assessment	Assessment must ensure: • access to relevant instruments and equipment • access to scores, charts or other written music resources • access to participants, such as performers and technical crew • access to appropriate performance venues with adequate space and acoustic qualities • use of culturally appropriate processes, and techniques appropriate to the language and literacy capacity of the candidate and the work being performed.
Method of assessment	The following assessment methods are appropriate for this unit: • observation of musical performances led by the candidate • written or oral questioning to test knowledge as listed in the required knowledge section of this unit • authenticated musical recordings where the candidate provided musical leadership • case studies and scenarios as a basis for discussion about issues and challenges that arise in the context of providing musical leadership in performances.
Guidance information for assessment	Holistic assessment with other units relevant to the industry sector, workplace and job role is recommended, for example: • CUSIND501A Apply music knowledge and artistic judgement

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

EVIDENCE GUIDE	
	• CUSMLT501A Refine aural-perception skills • CUSMPF402A Develop and maintain stagecraft skills • CUSMPF410A Perform music from written notation • CUSMPF501A Prepare a program for performance.

Range Statement

RANGE STATEMENT	
The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording, if used in the performance criteria, is detailed below. Essential operating conditions that may be present with training and assessment (depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts) may also be included.	
Technical skills in area of specialisation may include:	• physical mastery of instruments and musical materials • facility with techniques to control and enhance music making • proficiency to produce appropriate instrumental/vocal performance style and standard • musical elements and compositional techniques appropriate to style of music making • taking into account technical requirements of specific instruments.
Leadership requirements may include:	• practising performance, composition and musical directing and conducting • communicating with peers using physical and electronic means • contributing to and participating in festivals and conferences relevant to area of specialisation • participating in groups or associations relevant to area of specialisation • being involved in a range of music-making activities relevant to area of specialisation • listening critically to a wide range of live and recorded music.

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT	
Requirements may include:	• goals, values, objectives, processes and appropriate practices • ethical standards of industry, employer, agent, client or audience • current Copyright Act and amendments • licensing laws • time management • contingency planning • problem solving.
Listening may include:	• listening to adjust the sound in solo or group performance • aural imagination to identify and develop interpretive options • pattern and sequence recognition and memory • recognising music systems and practices relevant to area of specialisation • chords and keys in tonal or other musical systems in area of specialisation • reproducing sequences from memory in area of specialisation • instrument tuning in area of specialisation.
Repertoire may include:	• pieces appropriate to the selected instrument in area of specialisation • solo pieces in area of specialisation • ensemble pieces in area of specialisation • improvised pieces in area of specialisation.
Stagecraft skills may include:	• interaction with audiences and performers • grooming • observing stage etiquette • stage make-up • energy • movement • acting • maintaining fitness • observing OHS requirements • facial expressions • way of holding instruments or equipment, such as microphones • effective use of performance space and props.
Relevant personnel may include:	• producer • sound engineer

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT	
	• performer • stage manager • music critic • mentor • composer • musical director • sound designer • production manager • manager • client.
Professional development opportunities may include:	• mentoring • coaching • structured or formal training • listening to and evaluating the work of others • conferences.

CUSMPF601A Present a music performance

Modification History

Not applicable.

Unit Descriptor

Unit descriptor	This unit describes the performance outcomes, skills and knowledge required to present music performances in all musical genres. The unit also describes the well-developed stagecraft skills and high-level technical and musicianship skills required to engage audiences, which will involve a wide range of repertoire in the area of specialisation. No licensing, legislative, regulatory or certification requirements apply to this unit at the time of endorsement.

Application of the Unit

Application of the unit	Instrumentalists and vocalists in all musical genres apply the skills and knowledge described in this unit. At this level, they are usually performing as soloists and need the confidence and self-assurance to perform live before an audience for short or long intervals.

Licensing/Regulatory Information

Not applicable.

Pre-Requisites

Prerequisite units

Prerequisite units		

Employability Skills Information

Employability skills	This unit contains employability skills.

Elements and Performance Criteria Pre-Content

Elements describe the essential outcomes of a unit of competency.	Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the required skills and knowledge section and the range statement. Assessment of performance is to be consistent with the evidence guide.

Elements and Performance Criteria

ELEMENT	**PERFORMANCE CRITERIA**
Plan music performance program	1. In consultation with ***appropriate personnel***, clarify ***expectations*** with regard to the music performance 2. Assess own ***repertoire*** to identify appropriate components that may contribute to the music performance program and research new repertoire possibilities 3. Sequence components of the music performance program to maximise audience engagement and to meet own physical requirements in presenting the performance 4. Assess each component of the music performance program against own strengths and weaknesses in performance, taking advice from others as required 5. Assess and obtain ***resources*** that may be required to present the piece 6. Finalise the music performance program in consultation with appropriate personnel as required

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

ELEMENT	PERFORMANCE CRITERIA
Prepare for the music performance	7. Engage in coaching, private practice and/or rehearsal sessions to ensure that the required performance standard is achieved 8. Where accompanists or other artists are involved in the performance, ensure that close rapport and musical empathy are developed through rehearsals in time to achieve the required performance standard 9. Seek and incorporate advice during performance preparation to ensure the best possible performance
Develop interpretation	10. Analyse the repertoire to interpret its scope, possibilities and underlying intention 11. Exploit a variety of interpretations in preparing the performance to develop musical expression and to identify the most appropriate interpretations within the constraints of own technical ability 12. Demonstrate awareness of the performing space and the intended audience in preparing the musical interpretation
Warm up for the music performance	13. Secure an appropriate warm-up space to tune instruments and check all other resources 14. Warm up physically to ensure that sound production is secure from the beginning of the performance 15. Centre thoughts to focus positively on the performance and relax effectively using techniques for overcoming performance anxiety
Perform before an audience	16. Maintain communication with the audience, other artists and stage personnel using appropriate eye contact and other body language as required to ensure a cohesive performance 17. Adjust own performance as required to ensure that instrumental/vocal tuning, sound production and technical performance standard are maintained throughout the performance 18. Sustain interpretation and expressive communication with the audience coherently and consistently, and maintain energy and focus throughout the performance 19. Recover errors in performance with minimum disruption to performance and audience experience 20. Respond to the audience as required by the custom or tradition of the performance context in entering and leaving the stage, accepting applause, acknowledging other artists or relevant personnel and providing encores 21. Present the performance with due regard to ***OHS***

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

ELEMENT	PERFORMANCE CRITERIA
	considerations
Evaluate the music performance	22. Use objective measures to evaluate the success of the music performance 23. Measure own performance against previous work to assess technical and artistic development 24. Identify and note weaknesses and errors in the performance for analysis and remediation 25. Assess feedback and use for possible adjustment in future work

Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This section describes the skills and knowledge required for this unit.

Required skills

- communication, teamwork and organisational skills sufficient to:
  - interpret music appropriately for performance
  - work collaboratively with others involved in music performances
  - respond positively to constructive feedback on own performance
  - respond appropriately to audiences
- self-management and planning skills sufficient to:
  - plan a music performance program
  - use practice time effectively to prepare for performances
  - identify areas of weakness and plan practice accordingly
- listening skills sufficient to:
  - monitor and adjust intonation as required
  - use appropriate sound and tone production for instrument or voice
  - apply acoustic principles to own playing
- initiative and enterprise skills in the context of:
  - producing sounds in a range of ways appropriate to selected musical style and repertoire
  - developing an increased awareness of the subtleties and variations of tone colour available on chosen instrument and their use in performance
  - adapting repertoire to own performance in area of specialisation
  - responding appropriately to the unexpected during performances
- learning skills in the context of:

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

REQUIRED SKILLS AND KNOWLEDGE
• improving music performance skills and expression through practice • using appropriate repertoire for technical development • critically evaluating own performance • technical and problem-solving skills sufficient to: • use a range of instrumental techniques in selected area of specialisation • tune instrument to achieve intonation • apply sound-production techniques • produce planned sound consistently across a wide dynamic range • discriminate and adjust pitch to produce the required sound
Required knowledge
• acoustic principles relevant to selected instrument and area of specialisation • instrument parts, applications, range, capabilities, care and maintenance • repertoire relevant to the selected instrument and area of specialisation • issues and challenges that arise in the context of presenting a music performance • OHS principles relevant to particular performance contexts, such as: • legislation • policies and best practice • hearing protection • protection of body against overuse injury • safe lifting practices • performance anxiety

Evidence Guide

EVIDENCE GUIDE	
The Evidence Guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, range statement and the Assessment Guidelines for the Training Package.	
Overview of assessment	
Critical aspects for assessment and evidence required to demonstrate competency in this unit	Evidence of the ability to: • plan at least two music performances • confidently present at least two music performances on the selected instrument in area of specialisation • use aural discrimination to monitor and adjust own performance to achieve the required sound

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

EVIDENCE GUIDE	
	• respond positively to constructive feedback on own performance.
Context of and specific resources for assessment	Assessment must ensure: • access to relevant instrument and equipment • opportunities to present music performances before an audience • access to suitable acoustic space • use of culturally appropriate processes, and techniques appropriate to the language and literacy capacity of learners and the work being performed.
Method of assessment	The following assessment methods are appropriate for this unit: • observation of candidate presenting a music performance • video and/or audio recordings of candidate presenting a music performance • self-evaluation sheets • case studies and scenarios to discuss the identification of technical methods, strategies and issues in music performance and how to deal with them in performance.
Guidance information for assessment	Holistic assessment with other units relevant to the industry sector, workplace and job role is recommended, for example: • CUSMPF602A Manage stagecraft aspects of performance • CUSMPF603A Refine performance techniques and expand repertoire • CUSMPF605A Develop advanced vocal techniques.

Range Statement

RANGE STATEMENT
The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording, if used in the performance criteria, is detailed below. Essential operating conditions that may be present with training and assessment (depending on the work situation, needs of the candidate, accessibility of the item, and local industry and

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT	
regional contexts) may also be included.	
Appropriate personnel may include:	• musical director • performer • mentor • teacher • coach • tutor • conductor • producer • agent • client • sound engineer.
Expectations may include:	• duration • purpose • scope • venue • style of music • number of performers • rehearsals • whether music is to be recorded • publicity and promotion • target audience.
Repertoire may include:	• pieces appropriate to the selected instrument • solo and ensemble pieces • improvised pieces • works from a range of genres and styles.

Resources may include:	• sheet music or scores for own use and that of other performers
	• instruments:
	  • acoustic or electronic
	  • voice
	  • stringed
	  • keyboards
	  • wind
	  • tuned and untuned percussion
	• instrumental accessories:
	  • reeds
	  • strings
	  • plectrums

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT	
	• mouth pieces • sticks, mallets, brushes and beaters • stands • pedals • microphones • amplifiers • samplers • mixers • enhancers • practice, rehearsal, coaching and music venues • rÃ©pÃ©titeurs, accompanists and other performers • electronic or electrical sound equipment • microphones • leads and racks • packing cases • music stands • lighting • props and stage decorations, including floral arrangements • gifts required for presentations at the conclusion of the music • costumes and personal accessories • trolleys or other lifting and carrying equipment • transport • stage personnel.
OHS considerations may include:	• correct posture to support facility and longevity in practice • ensuring that practice sessions are of reasonable duration to avoid fatigue • hearing protection • protection of body against overuse injury • safe lifting techniques • strategies to overcome performance anxiety, such as: • focussing on a single element or action at a time • relaxation techniques, such as meditation and deep breathing • focussing on patterns rather than individual

CUSMPF602A Manage stagecraft aspects of performances

Modification History

Not applicable.

Unit Descriptor

Unit descriptor	This unit describes the performance outcomes, skills and knowledge required to plan and manage stagecraft aspects of performances. At this level, performers need to demonstrate leadership qualities before, during and after performances. Typically they are responsible for contributing ideas to the design of the overall look, feel and sound of performances in collaboration with other creative and production personnel, such as designers, directors, stage managers and musical directors. They are also responsible for ensuring that all aspects of stagecraft go according to plan during performances. No licensing, legislative, regulatory or certification requirements apply to this unit at the time of endorsement.

Application of the Unit

Application of the unit	Experienced musicians and performers in all genres apply the skills and knowledge outlined in this unit. Applying an appropriate range of stagecraft skills can lead to audiences having a more enjoyable and entertaining experience. An essential feature of stagecraft skills is the ability to engage with audiences - whether through dialogue, movement or gestures.

Licensing/Regulatory Information

Not applicable.

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

Pre-Requisites

Prerequisite units		

Employability Skills Information

Employability skills	This unit contains employability skills.

Elements and Performance Criteria Pre-Content

Elements describe the essential outcomes of a unit of competency.	Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the required skills and knowledge section and the range statement. Assessment of performance is to be consistent with the evidence guide.

Elements and Performance Criteria

ELEMENT	**PERFORMANCE CRITERIA**
Plan stagecraft aspects of performances	1. Collaborate with ***appropriate personnel*** on the design of performances and order of ***repertoire*** 2. Generate a range of preliminary ideas about aspects of ***stagecraft*** that could be used to enhance performances from an audience perspective 3. Discuss and refine ideas with appropriate personnel until an agreed approach emerges 4. Agree on how each person involved in performances will contribute to stagecraft aspects of performances 5. Ensure that equipment being used during performances supports stagecraft aspects of performances 6. Anticipate problems that may arise and plan accordingly 7. If possible, organise performances to be recorded for later evaluation

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

ELEMENT	PERFORMANCE CRITERIA
Lead a group during performances	8. Collaborate with appropriate personnel during performance set-up to ensure that stagecraft aspects of performances will run as planned 9. Run through planned stagecraft aspects of performances in rehearsals as required 10. Conduct a pre-performance check with group members to ensure that they are ready to perform as planned 11. Organise any last-minute changes to stagecraft aspects of the performance in a way that causes least disruption to the performance 12. Perform own role confidently, including introductions, segues and concluding remarks as required 13. Respond flexibly to the unexpected on stage or front of house, to maintain the flow and integrity of performances 14. Interact cooperatively with other performers on stage and ensure that their work is appropriately acknowledged 15. Communicate effectively with audiences before, between and after performances
Evaluate stagecraft aspects of performances	16. View or listen to recordings of performances to assess strengths and weaknesses in relation to stagecraft 17. Seek feedback from appropriate personnel and incorporate their feedback into continuous improvement strategies

Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE
This section describes the skills and knowledge required for this unit.
Required skills

• communication and teamwork skills sufficient to:
  • provide leadership to performers in relation to stagecraft aspects of performances
  • work creatively with individual differences
  • work constructively with group dynamics
  • identify and deal positively and constructively with conflict

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

REQUIRED SKILLS AND KNOWLEDGE

• initiative, enterprise and creativity in the context of:
  • contributing innovative and creative ideas to the design of stagecraft aspects of performances
  • responding effectively to the unexpected during live performances
  • taking venue and style of show into account when performing
  • engaging with audiences in ways that entertain and enhance people's overall experience
• planning and organisational skills sufficient to:
  • plan stagecraft aspects of performances
  • plan for contingencies
  • ensure that all stagecraft requirements are in place in a timely fashion
• self-management skills in the context of:
  • observing protocols appropriate to the genre, style and context of performance
  • maintaining an appropriate standard of stage presentation relevant to the area of specialisation
  • applying relevant OHS principles to work practice

Required knowledge

• sound knowledge of:
  • range of genres and their musical forms and conventions in performance
  • solo or group performance protocols and customs
  • how aspects of stagecraft can be used to enhance performances
  • roles and responsibilities of creative and technical personnel involved in stage performances
  • capabilities of sound, lighting and staging equipment in relation to stagecraft aspects of performances
• principles of team leadership
• issues and challenges that arise in the context of providing leadership in relation to stagecraft aspects of performances
• OHS practices, procedures and standards as they apply to performing in a range of environments

Evidence Guide

EVIDENCE GUIDE
The Evidence Guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, range statement and the Assessment Guidelines for the Training Package.

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

EVIDENCE GUIDE	
Overview of assessment	
Critical aspects for assessment and evidence required to demonstrate competency in this unit	Evidence of the ability to: • work collaboratively on the planning of stagecraft aspects of performances • confidently perform own role in relation to stagecraft aspects of performances • implement stagecraft aspects of performances as planned • communicate effectively with audiences.
Context of and specific resources for assessment	Assessment must ensure: • access to relevant instruments and equipment • opportunities to perform before an audience • use of culturally appropriate processes, and techniques appropriate to the language and literacy capacity of learners and the work being performed.
Method of assessment	The following assessment methods are appropriate for this unit: • observation of rehearsals or performances where the candidate is responsible for stagecraft aspects • video and/or audio recordings of performances or practice sessions where the candidate is responsible for stagecraft aspects • self-evaluation sheets • written or oral questioning to test knowledge as listed in the required knowledge section of this unit • samples of plans prepared by the candidate to document stagecraft aspects of performances • case studies, scenarios and interviews as a basis to discuss issues and challenges that arise in the context of planning stagecraft aspects of performances and providing leadership to others in relation to stagecraft.
Guidance information for assessment	Holistic assessment with other units relevant to the industry sector, workplace and job role is recommended, for example: • CUSMPF501A Prepare a program for performance • CUSMPF502A Incorporate interactive technology into performance • CUSMPF601A Present a music performance.

Range Statement

RANGE STATEMENT	
The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording, if used in the performance criteria, is detailed below. Essential operating conditions that may be present with training and assessment (depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts) may also be included.	

Appropriate personnel may include:	• performer
	• ensemble member
	• presenter
	• musical director
	• stage director
	• stage manager
	• production manager
	• production supervisor
	• sound engineer
	• technical crew
	• designer:
	  • sound
	  • lighting
	  • costume
	  • make-up and hair
	  • special effects
	• client
	• marketing and promotions personnel
	• artist's agent
	• conductor
	• tutor
	• mentor.

Repertoire may include:	• musical works from a range of genres and styles, including:
	  • cover songs
	  • original compositions
	  • electronic dance music
	  • solo and ensemble pieces
	  • improvised pieces

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT	

	• commentary by:
	  • performer
	  • master of ceremonies (MC)
	  • media presenter.

Aspects of ***stagecraft*** may include:	• interaction with audiences • positioning of performers on stage • make-up and hair • posture • dress • movement • interaction with other performers • interaction with presenters • facial expressions • acting • dancing • way of holding instruments or equipment, such as microphones • effective use of performance space and props • lighting • sound • special effects.

CUSMPF603A Refine performance techniques and expand repertoire

Modification History

Not applicable.

Unit Descriptor

Unit descriptor	This unit describes the performance outcomes, skills and knowledge required to expand repertoire and present an extended professional performance. No licensing, legislative, regulatory or certification requirements apply to this unit at the time of endorsement.

Application of the Unit

Application of the unit	This unit builds on CUSMPF506A Develop technical skills and expand repertoire, and can apply to refining skills on either a first or second instrument. A higher level of competence in areas such as performance preparation, craft skills and musicianship is required of musicians as they seek regular professional performance opportunities, either on a contract basis or as employees of orchestras. They are expected to show a real commitment to improving their skills and to expanding their repertoire in ways that allow them to demonstrate higher levels of technical and expressive skills. A willingness to act on feedback from colleagues and mentors is also essential.

Licensing/Regulatory Information

Not applicable.

ELEMENT	PERFORMANCE CRITERIA
	7. Listen critically to own performance to assess technical strengths and weaknesses and adjust practice regime accordingly 8. Ensure that practice is undertaken with due consideration to personal ***health and safety***
Plan repertoire to meet performance goals	9. Research new repertoire to identify pieces or works that advance performance scope and skills 10. Use opportunities to trial new work for peers and/or mentors and incorporate their critical feedback into private practice 11. Practise a range of pieces or works that focus on identified areas of technical development 12. Include new pieces from a range of repertoire for listening and private practice to identify options for repertoire development
Use technical skills to convey interpretive and expressive qualities in performance	13. Use control of the chosen instrument to interpret music convincingly and realise the expressive qualities of the instrument in performance 14. Consistently and reliably demonstrate control of sound production across the range of repertoire for the selected musical style 15. Continually extend physical coordination and control over the instrument to produce a highly accomplished standard of performance 16. Listen to own work critically to produce accurate intonation and tone colour across the dynamic range of the instrument
Present a professional performance program to an audience	17. Undertake appropriate psychological and physical warm-up and warm-down activities to enhance short and long-term performance outcomes 18. Interpret music from memory, improvisation or reading from charts or musical notation as required 19. Perform a range of instrumental techniques in a fluent and confident manner to a professional performance standard 20. Control intonation, rhythm, tempi, expression, phrasing and nuance to a professional performance standard appropriate to the repertoire and musical style 21. Perform in a variety of instrumental and/or vocal combinations, including works in solo and group performances 22. Maintain stage fitness to ensure a professional technical

ELEMENT	PERFORMANCE CRITERIA
	standard in performance
Evaluate technical skills in performance	23. View or listen to recordings of own performance to analyse technical and expressive aspects of own performance 24. Note areas for improvement and take action accordingly 25. Seek feedback on performances from appropriate personnel and incorporate their feedback into own continuous improvement strategies

Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This section describes the skills and knowledge required for this unit.

Required skills

- communication, teamwork and organisational skills sufficient to:
  - interpret music appropriately for performance
  - respond appropriately to constructive feedback on own performance
- self-management and planning skills sufficient to:
  - plan own practice time
  - setprofessional development goals
  - identify areas of weakness and plan practice accordingly
  - investigate repertoire to contribute to the scope of programming and to continuously develop excellence in performance
- listening skills sufficient to:
  - monitor and adjust intonation as required
  - recognise intervals, chords, scales and chord progressions in selected area of specialisation
  - use appropriate sound and tone production for instrument or voice
  - produce a controlled sound with variations in tone as required
  - apply acoustic principles to own performance
- initiative and enterprise skills in the context of:
  - producing sounds in a range of ways appropriate to selected musical style and repertoire
  - developing an increased awareness of the subtleties and variations of tone colour available on chosen instrument and their use in performance
  - adapting repertoire to own performance in area of specialisation

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

REQUIRED SKILLS AND KNOWLEDGE

• learning skills in the context of:
  • improving music performance skills and expression through practice
  • expanding repertoire
  • using appropriate repertoire for technical development
• technical and problem-solving skills sufficient to:
  • use a range of instrumental techniques on a first or second instrument
  • tune instrument to achieve intonation
  • play an extensive range of scales, rhythms or chord patterns in selected area of specialisation
  • produce planned sound consistently across a wide dynamic range
  • discriminate and adjust pitch to produce the required sound

Required knowledge

• acoustic principles relevant to selected area of specialisation
• instrument parts, applications, range, capabilities, care and maintenance
• repertoire relevant to the selected area of specialisation
• issues and challenges that arise in the context of refining performance technique and expanding repertoire
• OHS principles relevant to particular performance contexts, such as:
  • legislation
  • policies and best practice
  • hearing protection
  • protection of body against overuse injury
  • safe lifting practices
  • performance anxiety

Evidence Guide

EVIDENCE GUIDE	
The Evidence Guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, range statement and the Assessment Guidelines for the Training Package.	
Overview of assessment	
Critical aspects for assessment and evidence required to demonstrate competency in this unit	Evidence of the ability to: • confidently present at least two performance programs of a professional standard on the selected

EVIDENCE GUIDE	
	instrument in area of specialisation • use aural discrimination to monitor and adjust own performance to achieve the required sound • plan and monitor progress in own skill development • expand repertoire in area of specialisation • respond positively to constructive feedback on own performance.
Context of and specific resources for assessment	Assessment must ensure: • access to relevant instrument and equipment • opportunities to present performance programs before an audience • access to suitable acoustic space • use of culturally appropriate processes, and techniques appropriate to the language and literacy capacity of learners and the work being performed • opportunities to demonstrate improvement in technical skills and expansion of repertoire.
Method of assessment	The following assessment methods are appropriate for this unit: • observation of practice or performances • process diary detailing practice planning, goals and strategies • written or oral questioning on technical development strategies, planning and career goals • written or oral questioning to test knowledge as listed in the required knowledge section of this unit • video and/or audio recordings of performances or practice sessions • self-evaluation sheets • samples of work plans for private practice sessions, including monitoring progress against goals • case studies and scenarios as a basis to discuss issues associated with refining performance technique and expanding repertoire.
Guidance information for assessment	Holistic assessment with other units relevant to the industry sector, workplace and job role is recommended, for example: • CUSMPF501A Prepare a program for performance • CUSMPF503A Perform accompaniment • CUSMPF508A Provide musical leadership in

EVIDENCE GUIDE	
	performance • CUSMPF601A Present a music performance • CUSMPF602A Manage stagecraft aspects of performances • CUSMPF604A Extend improvisation techniques.

Range Statement

RANGE STATEMENT	
The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording, if used in the performance criteria, is detailed below. Essential operating conditions that may be present with training and assessment (depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts) may also be included.	
Appropriate personnel may include:	• musical director • performer • mentor • teacher • coach • tutor • conductor • producer • agent • sound engineer.
Strategies may include:	• working effectively with an appropriate tutor • practising as a performer • participating in relevant groups or associations • participating in professional development and other learning opportunities • attending master classes • attending performances • listening critically to a wide range of live and recorded music.
Technique may include:	• vocal and instrumental sound production • physical dexterity and coordination • improvising • playing an extensive range of pieces that

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT	
	require work on different areas of technical development in area of specialisation • playing an extensive range of rhythms and rhythm patterns • playing an extensive range of chords and chord patterns • controlling rhythms, including syncopation, rhythmic contrast and simultaneous cross rhythms • controlling tone colour across a wide dynamic range • phrasing and shaping performance in style and nuance • controlling dynamics • controlling performance at the required speed • integrating a range of elements in performance.
Repertoire may include:	• complex pieces composed for the selected instrument • complex pieces or works specially arranged for the instrument in area of specialisation • diverse range of solo and ensemble pieces of varying levels of complexity and difficulty • improvised pieces • a full performance program • works from a range of genres and styles.
Resources may include:	• performance space • instruments and equipment • time.
Instruments may be first or second instruments and may include:	• acoustic or electronic • voice • stringed • keyboards • wind • tuned and untuned percussion • brass • plucked.
Exercises may be aimed at developing:	• ability to play a wide range of scales, triads, arpeggios, chords or rhythms • varied tone colour • bowing techniques to achieve good phrasing

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT	
	and a range of articulation options • embouchure to achieve good tone production across the range and special techniques • fingering patterns to achieve required phrasing, articulation and dynamics • posture appropriate to good sound production and OHS principles • hand and/or foot patterns • plucking and picking patterns • drumming expertise with mallets and beaters • pedalling techniques • microphone techniques.
Technical accuracy may relate to:	• rhythms • tone colour • pitch and register • dynamics • phrasing.

Health and safety considerations may include:	• correct posture to support facility and longevity in practice
	• ensuring that practice sessions are of reasonable duration to avoid fatigue
	• hearing protection
	• protection of body against overuse injury
	• safe lifting techniques
	• strategies to overcome performance anxiety, such as:
	  • focussing on a single element or action at a time
	  • relaxation techniques, such as meditation and deep breathing
	  • focussing on patterns rather than individual notes
	  • warm-up routines.

CUSMPF604A Extend improvisation techniques

Modification History

Not applicable.

Unit Descriptor

Unit descriptor	This unit describes the performance outcomes, skills and knowledge required to develop high-level improvisation skills. No licensing, legislative, regulatory or certification requirements apply to this unit at the time of endorsement.

Application of the Unit

Application of the unit	Superior improvisation skills are required by musicians in a range of musical genres and traditions, for example, jazz, blues, classical, folk and rock. Aural awareness and a thorough grounding in the practice of the chosen genre or musical tradition are required so that musicians are in a position to respond intuitively to musical elements as they seek to vary them spontaneously during performances. The key to successful improvisation is the confidence to make musical decisions on the fly, to understand that improvisation is about spontaneous composition or variation, about performing music that is composed or varied 'in the moment' in response to musical stimuli.

Pre-Requisites

Prerequisite units		

Employability Skills Information

Employability skills	This unit contains employability skills.

Elements and Performance Criteria Pre-Content

Elements describe the essential outcomes of a unit of competency.	Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the required skills and knowledge section and the range statement. Assessment of performance is to be consistent with the evidence guide.

Elements and Performance Criteria

ELEMENT	**PERFORMANCE CRITERIA**
Set professional development goals	1. In consultation with ***appropriate personnel***, listen to recordings of own improvisations in the context of setting professional development goals 2. Discuss ***factors*** that contribute to excellence in improvisation and incorporate them into professional development goals as appropriate 3. Listen to the work of master improvisers and consider ***techniques*** that could be applied to own practice 4. Establish ***criteria*** for monitoring and evaluating the success of own skill development 5. Develop a practice plan that incorporates realistic goals as a basis for refining improvisation techniques 6. Identify ***repertoire*** that will help achieve technical and expressive development goals and incorporate them into

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

ELEMENT	PERFORMANCE CRITERIA
	practice plan
Use personal practice time to refine techniques	7. Experiment with and exploit repertoire to continuously refine improvisation techniques in both solo and group contexts 8. Develop confidence in own ability to create 'in the moment' responses to musical stimuli 9. Listen critically to own performance to assess strengths and weaknesses and adjust practice regime accordingly 10. Ensure that practice is undertaken with due consideration to personal ***health and safety***
Perform improvisation before an audience	11. Support and enhance the contribution of others to achieve best performance outcomes 12. Make improvisation sensitive to the needs of other performers to stimulate the whole ensemble 13. Respond accurately to starting ***cues*** when performing solo improvisation 14. Sustain musical impetus in improvisation through dynamic use of ***musical elements*** 15. Maintain stylistic cohesion in the realisation of harmony, melody, and/or rhythm and musical expression 16. Listen carefully to other performers, respond aurally to their work and adjust own performance appropriately 17. Provide a clear cue to the ensemble to finish the solo section as required 18. Ensure that the duration of solo improvisations accord with the custom and practice of the group and/or musical style 19. Acknowledge applause according to the custom and practice of the group and/or musical style
Evaluate own skill development	20. View or listen to recordings of own performance to analyse technical and expressive aspects of own performance 21. Evaluate level of improvement in own improvisation techniques against agreed criteria 22. Seek feedback on performances from appropriate personnel and incorporate their feedback into own continuous improvement strategies

Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This section describes the skills and knowledge required for this unit.

Required skills

- communication, listening and teamwork skills in the context of:
  - responding appropriately to aural and written cues
  - using aural imagination to develop and embellish themes in performance
  - working collaboratively with other members of an ensemble
  - responding appropriately to constructive feedback on own performance
- technical skills in the context of:
  - rhythmically developing solos
  - using a range of improvisation techniques and styles in area of specialisation
  - playing improvised solos that contain advanced harmonic, structural, melodic and rhythmic concepts
  - applying techniques to create forward motion
- initiative and creativity in the context of:
  - demonstrating originality and innovative approaches in improvisation
  - developing musical themes and melodic motifs
  - listening critically to continuously evaluate and adjust the musical work
  - phrasing and shaping music appropriately
  - understanding and expressing appropriate musical nuance
  - applying appropriate styles or interpretation
  - working creatively with individual differences
  - responding appropriately to the unexpected in a live performance situation
- self-management and learning skills in the context of:
  - setting professional development goals
  - monitoring and evaluating own improvisations
  - improving performance through experimentation and practice
  - responding appropriately to the pressures of performing live

Required knowledge

- music knowledge, including:
  - well-developed understanding of chosen styles and genres and their musical forms and conventions for improvisation
  - historical conventions in relation to improvisation
  - chord schemes, rhythmic patterns and rhythmic conventions as they apply to improvisation
  - musical and performance protocols

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

REQUIRED SKILLS AND KNOWLEDGE

• issues and challenges that arise in the context of performing improvisations
• OHS principles relevant to particular performance contexts, such as:
  • legislation
  • policies and best practice
  • hearing protection
  • protection of body against overuse injury
  • safe lifting practices
  • performance anxiety

Evidence Guide

EVIDENCE GUIDE	
The Evidence Guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, range statement and the Assessment Guidelines for the Training Package.	
Overview of assessment	
Critical aspects for assessment and evidence required to demonstrate competency in this unit	Evidence of the ability to: • confidently perform improvisations using a range of advanced techniques • plan and monitor progress in own skill development • demonstrate an advanced level of musical decision making in an improvised context • respond positively to constructive feedback on own performance • collaborate effectively with other members of a performance ensemble.
Context of and specific resources for assessment	Assessment must ensure: • access to relevant instruments and equipment • performance opportunities as part of an ensemble • appropriate venue with adequate space and acoustic qualities • an audience • use of culturally appropriate processes, and techniques appropriate to the language and literacy capacity of the candidate and the work being performed.

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

EVIDENCE GUIDE	
Method of assessment	The following assessment methods are appropriate for this unit: • observation of performance where the candidate is performing an improvisation • written or oral questioning to test knowledge as listed in the required knowledge section of this unit • process diary detailing practice planning, goals and strategies • written or oral questioning on technical development strategies, planning and career goals • relevant samples of artistic work with candidate's evaluation • authenticated details of relevant artistic and/or commercial achievements • video or audio recordings of performance or practice sessions where the candidate is performing an improvisation • case studies and scenarios as a basis for discussing issues about refining improvisation techniques.
Guidance information for assessment	Holistic assessment with other units relevant to the industry sector, workplace and job role is recommended, for example: • CUSMLT601A Analyse music • CUSMLT602A Analyse harmony • CUSMPF602A Manage stagecraft aspects of performances • CUSMPF603A Refine performance techniques and expand repertoire.

Range Statement

RANGE STATEMENT
The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording, if used in the performance criteria, is detailed below. Essential operating conditions that may be present with training and assessment (depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts) may also be included.

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT	
Appropriate personnel may include:	• mentor • coach • peer • ensemble member • musical director • conductor.
Factors may include:	• concept that improvisation is spontaneous composition or variation, a creative discovery • ability to react to stimuli immediately to changes needed to the music • ability to focus in the moment • confidence level • audience response • whether improvisation is a solo or group performance • musical style.
Techniques may include:	• applying advanced harmonic knowledge to improvised solos • playing arpeggios on chord sequences containing extended chord structures • using appropriate note placement for the harmonic structure of advanced chord sequences • applying advanced chord substitution in an improvised solo • creating forward motion • targeting upper extensions in an improvised solo • vocal and instrumental sound production • physical dexterity and coordination • playing an extensive range of rhythms and rhythm patterns • controlling rhythms, including syncopation, rhythmic contrast and simultaneous cross rhythms • controlling tone colour across a wide dynamic range • phrasing and shaping performance in style and nuance • controlling dynamics • controlling performance at the required speed • integrating a range of elements in

RANGE STATEMENT	
	performance.
Criteria may include:	• development of advanced harmonic, melodic and rhythmic concepts • increased range of improvisation techniques used • increased level of confidence in performing improvisation • audience response • increased positive feedback from mentors and ensemble members.
Repertoire may include:	• complex pieces composed for the selected instrument • complex pieces or works specially arranged for the instrument in area of specialisation • diverse range of solo and ensemble pieces of varying levels of complexity and difficulty • works from a range of genres and styles.

Health and safety considerations may include:	• correct posture to support facility and longevity in practice
	• ensuring that practice sessions are of reasonable duration to avoid fatigue
	• hearing protection
	• protection of body against overuse injury
	• safe lifting techniques
	• strategies to overcome performance anxiety, such as:
	  • focussing on a single element or action at a time
	  • relaxation techniques, such as meditation and deep breathing
	  • focussing on patterns rather than individual notes
	  • warm-up routines.

Cues may include:	• verbal • physical gestures • musical.
Musical elements may include:	• melody • chords and chord progressions • intervals • harmony • rhythm

CUSMPF605A Develop advanced vocal techniques

Modification History

Not applicable.

Unit Descriptor

Unit descriptor	This unit describes the performance outcomes, skills and knowledge required to perform as a vocalist at an advanced level. Vocalists at this level are expected to show a real commitment to improving their skills and expanding their repertoire in ways that allow them to demonstrate higher levels of technical and expressive skills. A willingness to act on feedback from colleagues and mentors is also essential. No licensing, legislative, regulatory or certification requirements apply to this unit at the time of endorsement.

Application of the Unit

Application of the unit	This unit builds on CUSMPF407A Develop vocal techniques. A higher level of competence in areas such as performance preparation and vocal techniques is required of singers as they seek regular professional performance opportunities.

Licensing/Regulatory Information

Not applicable.

Pre-Requisites

ELEMENT	PERFORMANCE CRITERIA
	strengths and weaknesses and adjust practice regime accordingly 8. Ensure that practice is undertaken with due consideration to personal ***health and safety***
Plan repertoire to meet performance goals	9. Research new repertoire to identify pieces or works that advance performance scope and skills 10. Use opportunities to trial new work for peers and/or mentors and incorporate their critical feedback into private practice 11. Practise a range of pieces or works that focus on identified areas of technical development 12. Include new pieces from a range of repertoire for listening and private practice to identify options for repertoire development
Use technical skills to convey interpretive and expressive qualities in performance	13. Enhance the performance and emotional content of songs through creative use of vocal articulation and tone colours 14. Consistently and reliably demonstrate control of sound production across the range of repertoire for the selected musical style 15. Continually extend physical coordination and control over the voice to produce a highly accomplished standard of performance 16. Listen to own work critically to produce accurate intonation and tone colour across the dynamic range of the instrument
Present a professional performance program to an audience	17. Write a ***program*** for the performance 18. Undertake appropriate ***psychological*** and vocal warm-up and warm-down activities to enhance short and long-term performance outcomes 19. Interpret songs from memory, improvisation or reading from charts or musical notation as required 20. Count in a band as required 21. Perform a range of songs in a fluent and confident manner to a professional performance standard 22. Use vibrato for a variety of musical effects as required 23. Control intonation, rhythm, tempi, expression, phrasing and nuance to a professional performance standard appropriate to the repertoire and musical style 24. Recover errors in performance with minimum disruption to performance and audience experience

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

ELEMENT	PERFORMANCE CRITERIA
	25. Maintain stage fitness to ensure a professional technical standard in performance
Evaluate technical skills in performance	26. View or listen to recordings of own performance to analyse technical and expressive aspects of own performance 27. Note areas for improvement and take action accordingly 28. Seek feedback on performances from appropriate personnel and incorporate their feedback into own continuous improvement strategies

Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This section describes the skills and knowledge required for this unit.

Required skills

- communication, teamwork and organisational skills sufficient to:
  - interpret music appropriately for performance
  - respond appropriately to constructive feedback on own performance
- self-management and planning skills sufficient to:
  - plan own practice time
  - setprofessional development goals
  - identify areas of weakness and plan practice accordingly
  - investigate repertoire to contribute to the scope of programming and to continuously develop excellence in performance
- listening skills sufficient to:
  - monitor and adjust intonation as required
  - develop a strong level of relative pitch
  - use appropriate sound and tone production
  - produce a controlled sound with variations in tone as required
- initiative and enterprise skills in the context of:
  - producing sounds in a range of ways appropriate to selected musical style and repertoire
  - developing an increased awareness of the subtleties and variations of tone colour and their use in performance
  - adapting repertoire to own performance in area of specialisation
  - responding appropriately to the unexpected during performances

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

REQUIRED SKILLS AND KNOWLEDGE

• learning skills in the context of:
  • improving vocal techniques and expression through practice
  • expanding repertoire
  • using appropriate repertoire for technical development
• technical skills sufficient to:
  • use a range of vocal techniques
  • produce planned sound consistently across a wide dynamic range
  • discriminate and adjust pitch to produce the required sound

Required knowledge

• well-developed understanding of:
  • industry and musical terminology
  • human anatomy and physiology as they relate to the physical process of singing
  • qualities of vocal production belonging to each register (head, chest and falsetto)
  • techniques for caring for the voice
  • repertoire relevant to area of specialisation
• issues and challenges that arise in the context of refining vocal techniques and performing before an audience
• OHS principles as they apply to singing:
  • relevant legislation
  • preventative practice against damage to the voice
  • correct posture
  • performance anxiety

Evidence Guide

EVIDENCE GUIDE	
The Evidence Guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, range statement and the Assessment Guidelines for the Training Package.	
Overview of assessment	
Critical aspects for assessment and evidence required to demonstrate competency in this unit	Evidence of the ability to: • confidently present at least two performance programs of songs to a professional standard • do thorough vocal warm-ups and warm-downs

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

EVIDENCE GUIDE	
	• perform a 20-second *messa di voce* • plan and monitor progress in own skill development • respond positively to constructive feedback on own performance.
Context of and specific resources for assessment	Assessment must ensure: • opportunities to present performance programs before an audience • access to suitable acoustic space • use of culturally appropriate processes, and techniques appropriate to the language and literacy capacity of learners and the work being performed • opportunities to demonstrate improvement in vocal techniques.
Method of assessment	The following assessment methods are appropriate for this unit: • observation of practice or performance sessions where the candidate is singing • written or oral questioning on technical development strategies, planning and goals with respect to refinement of vocal techniques • video and/or audio recordings of performances or practice sessions where the candidate is singing • self-evaluation sheets • written or oral questioning to test knowledge as listed in the required knowledge section of this unit • samples of work plans for private practice sessions • case studies and scenarios as a basis to discuss issues and challenges that arise in the context of refining vocal techniques and performing before an audience.
Guidance information for assessment	Holistic assessment with other units relevant to the industry sector, workplace and job role is recommended, for example: • CUSMPF501A Prepare a program for performance • CUSMPF601A Present a music performance • CUSMPF602A Manage stagecraft aspects of performances • CUSMPF604A Extend improvisation techniques.

Range Statement

RANGE STATEMENT	
The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording, if used in the performance criteria, is detailed below. Essential operating conditions that may be present with training and assessment (depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts) may also be included.	
Appropriate personnel may include:	• musical director • performer • mentor • teacher • coach • tutor • conductor • producer • agent • sound engineer.
Strategies may include:	• working effectively with an appropriate tutor • practising as a performer • participating in relevant groups or associations • participating in professional development and other learning opportunities • attending master classes • attending performances • listening critically to a wide range of live and recorded music.

Techniques may include:	• breathing
	• *messa di voce*
	• articulation, including:
	  • tremolo
	  • vibrato
	  • legato
	  • staccato
	  • accents
	  • doit
	  • gliss
	  • fall-off
	  • plop
	  • ghost note

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT	
	• growl • rip • bend • control of dynamics • rapid figurations • posture • projection.
Repertoire may include:	• songs and tunes for solo performance • choral pieces • acapella pieces • improvisations on rhythmic, harmonic or melodic structures • own original work.
Resources may include:	• performance space • instruments and equipment • time.

Exercises may include:	• scales
	• arpeggios
	• breathing exercises to achieve good breath control and tone colour
	• exercises for developing techniques, such as:
	  • negotiating one's way inaudibly through register breaks
	  • modifying vowels at higher pitches
	  • making informed choices about using glottal stops and diphthongs
	  • embellishing a melody
	  • improvising, e.g. scat singing
	  • producing a constant tone on all vowels
	  • comfortably singing wide intervals
	• correcting vocal faults.

Technical accuracy may relate to:	• memorising repertoire, including:
	  • melody
	  • lyrics
	  • keys and harmonic features, including chord progressions
	  • guide tones
	  • arpeggios
	• singing with a constant pure tone on all vowels

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT	
	• fluent performance of a variety of scat syllables which are appropriate to the repertoire and reflect the singer's personality and style • consistent vocal techniques in all registers • performing appropriate vowel modification in relation to diphthongs • performing jazz articulation • rhythms • tone colour • pitch and register • dynamics • phrasing.

Health and safety considerations may include:	• correct posture to support facility and longevity in practice
	• ensuring that practice sessions are of reasonable duration to avoid fatigue
	• hearing protection
	• protection of body against overuse injury
	• safe lifting techniques
	• strategies to overcome performance anxiety, such as:
	  • focussing on a single element or action at a time
	  • relaxation techniques
	  • focussing on patterns rather than individual notes
	  • warm-up routines.

Factors to be considered when writing ***programs*** may include:	• keys
	• styles and tempos of songs
	• musical performance devices, such as:
	  • turnarounds
	  • vamps
	  • playoffs.

Psychological activities may include relaxation techniques, such as:	• mind to muscle:
	  • meditation
	  • imagery/conscious visualisation
	  • affirmations
	• stretching
	• deep breathing
	• light aerobic exercises.

CUSMPF606A Conduct musical performances

Modification History

Not applicable.

Unit Descriptor

Unit descriptor	This unit describes the performance outcomes, skills and knowledge required to conduct musical performances. In this unit high-level musical skills are required, along with a sound knowledge of the range and capability of instruments being used in performances. Strong interpersonal communication skills are essential, as is the ability to read and sometimes memorise orchestral and vocal scores. No licensing, legislative, regulatory or certification requirements apply to this unit at the time of endorsement.

Application of the Unit

Application of the unit	Orchestral, chamber ensemble and musical theatre conductors apply the skills and knowledge described in this unit. They are responsible for communicating the overall style and intent of works they conduct to performers and to audiences.

Licensing/Regulatory Information

Not applicable.

Pre-Requisites

Assessment of performance is to be consistent with the evidence guide.

Elements and Performance Criteria

ELEMENT	**PERFORMANCE CRITERIA**
Prepare for performances	1. Arrive punctually and check that ***equipment***, ***instruments and accessories*** are at hand 2. Foster group cohesion by communicating calmly and supportively with performers during warm-up 3. Communicate last minute contingency measures calmly where required and anticipate consequences 4. Ensure that warm-up is appropriately brief and balanced, with minimal revision, to assist self and performers to prepare for the performance psychologically, physically and artistically 5. Where possible ensure that the warm-up venue is conducive to a positive outcome 6. Apply ***listening skills*** to ensure that individual and collective tuning of instruments is accurate
Observe protocols during	7. Dress appropriately for the performance occasion

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

ELEMENT	PERFORMANCE CRITERIA
performances	8. Acknowledge the concertmaster according to stage protocol 9. On arrival at the podium acknowledge the audience with a bow 10. Observe performers to ascertain and expedite performance readiness 11. Observe audience for performance readiness and delay performance for a reasonable time as required 12. Acknowledge performers at the conclusion of performances or at other appropriate times 13. Acknowledge final applause with a bow or other appropriate response
Interact with performers	14. Make personal preparation and ***understanding of the score*** evident during performances 15. Communicate musical leadership clearly to performers through demeanour and body language 16. Maintain the engagement of all performers and direct energy to achieve performance excellence 17. Ensure that overall acoustic balance of instrumental and/or electronic forces is consistent and appropriate 18. Apply ***music knowledge*** and ***technical skills*** to bring out the best in performers and to achieve performance excellence 19. Monitor the body language of performers and ensemble members as a measure of their confidence in the conductor/director 20. Respond quickly and effectively to performance variations and minimise the consequent effect of any disruption 21. Maintain balance between the aspirations of different performers and their functions within the overall work
Interact with audiences	22. Establish effective contact with audiences in line with performance context 23. Control behaviour from the moment of entry to final exit in line with performance context 24. Direct verbal communication to audience audibly as required to contribute to their overall understanding of works 25. Achieve and sustain audience engagement throughout performances 26. Maintain responses to audiences in an alert, sensitive

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

ELEMENT	PERFORMANCE CRITERIA
	and courteous manner
Evaluate own performance	27. In consultation with ***relevant personnel***, evaluate performances against planned outcomes 28. Assess own performance for its success in achieving the potential of musical works and performers 29. Measure performance against previous performances to assess own development 30. Assess performances for potential contribution they may make to future work 31. Identify aspects of own performance that could be improved 32. Respond to feedback constructively and apply to future work as appropriate

Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This section describes the skills and knowledge required for this unit.

Required skills

- communication and teamwork skills sufficient to:
  - provide musical leadership and creative direction to performers and instrumentalists during live performances
  - work collaboratively with a wide range of people
  - work creatively with individual differences
  - work constructively with group dynamics
  - observe cultural protocols appropriate to the genre or area of specialisation
  - identify and deal positively and constructively with conflict
- initiative, enterprise and creativity in the context of:
  - demonstrating originality and innovative approaches to the performance andinterpretation of music for self and others
  - extending musical boundaries for self and audience
  - phrasing and shaping music appropriately
  - understanding and expressing appropriate musical nuance
  - leading musical performances appropriately for the context of venues, sound forces and perceived audience taste
- listening skills sufficient to:

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

REQUIRED SKILLS AND KNOWLEDGE

- recognise intervals, chords, scales and chord progressions
- understand appropriate intonation, dynamics, phrasing, rhythm and expression to produce the required sound for self and others
- listen critically to the creative workof others to inform own work and the work of others
- listen critically to and adjust own creative workto achieve the required sound for self and others
- listen critically to continuously evaluate and adjust the performance of musical works

- planning and organisational skills sufficient to:
  - work within timeframes to achieve planned outcomes
  - demonstrate punctuality in all work commitments
  - use time-management strategies to set priorities
- learning and self-management skills in the context of:
  - evaluating, adjusting and developing own work in line with planned career directions and artistic aspirations
  - discerning and listening to the advice of appropriate colleagues, experts and audience groups to adjust work in line with career direction
  - using appropriate posture, dress and other performance protocols
  - observing OHS requirements
- technical skills in the context of reading musical scores

Required knowledge

- music knowledge in area of specialisation, including:
  - interpreting music in performance
  - improvisation conventions
  - sight reading from charts or musical notation
  - appropriate repertoire
  - musical terminology
  - musical genres and styles
  - solo and group performance protocols
  - capability and features of a range of musical instruments
  - composition process
- issues and challenges that typically arise in the context of conducting musical performances
- techniques for moving the body and breathing to enhance musical performance of self and others
- OHS requirements and procedures in relation to performing

Evidence Guide

EVIDENCE GUIDE	
The Evidence Guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, range statement and the Assessment Guidelines for the Training Package.	
Overview of assessment	
Critical aspects for assessment and evidence required to demonstrate competency in this unit	Evidence of the ability to: • conduct at least three musical performances • provide musical leadership • express musical vision through a range of musical forces • motivate performers to achieve their best.
Context of and specific resources for assessment	Assessment must ensure: • access to relevant instruments and equipment • access to scores, charts or other written music resources • access toensemble performers • access to performance venuesand audiences • use of culturally appropriate processes, and techniques appropriate to the language and literacy capacity of the candidate and the work being performed.
Method of assessment	The following assessment methods are appropriate for this unit: • observation or video recordings of candidate conducting musical performances • written or oral questioning to test knowledge as listed in the required knowledge section of this unit • authenticated recordings of music performances where the candidate was the conductor • case studies and scenarios as a basis for discussion aboutissues and challenges that arise in the context ofconducting musical performances.
Guidance information for assessment	Holistic assessment with other units relevant to the industry sector, workplace and job role is recommended, for example: • CUSIND501A Apply music knowledge and artistic judgement • CUSMPF607A Lead music rehearsals.

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

Range Statement

RANGE STATEMENT	
The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording, if used in the performance criteria, is detailed below. Essential operating conditions that may be present with training and assessment (depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts) may also be included.	

Equipment*, *instruments and accessories may include:	• voice and other acoustic and electronic musical instruments
	• baton
	• scores
	• strings
	• reeds
	• mouth pieces
	• sticks, mallets, brushes and beaters
	• tuners, tuning forks and electronic tuners
	• electronic equipment
	• audio and video recordings
	• sound reinforcement equipment, such as:
	  • microphones
	  • amplifiers
	  • mixers
	  • cabling
	• lighting and lighting equipment
	• special effects devices.

Listening skills may include:	• tuning instrument • listening to adjust the sound in solo or group performance • aural imagination to identify and develop interpretive options • pattern and sequence recognition and memory • recognising music systems and practices • chords and keys in tonal or other musical systems • reproducing sequences from memory • listening for balance in the overall sound.
Understanding the score may	• cadence

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT	
include:	• colour • giving effective cues for entries • heat dynamics • phrasing • structure • tempo • tone.

Music knowledge may include:	• repertoire
	• instrument knowledge
	• music analyses and research
	• marking up music rooms
	• musical forms, systems, practices and customs
	• using written music notation to read and write music, such as:
	  • acoustic and electronic scores
	  • sheet music
	  • chord charts
	• interpretation and/or writing of directions for:
	  • instrumentation
	  • voicing
	  • expression
	  • timbre
	  • attack
	  • pitch
	  • tempi
	  • dynamics
	• sight reading
	• improvisation
	• shaping the performance of others.

Technical skills may include:	• characteristics of instruments • facility with techniques to control and enhance music making • taking into account technical requirements of specific instruments.
Relevant personnel may include:	• producer • sound engineer • performer • stage manager • music critic

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT	
	• mentor • composer • musical director • sound designer • production manager • manager • promoter • client.

CUSMPF607A Lead music rehearsals

Modification History

Not applicable.

Unit Descriptor

Unit descriptor	This unit describes the performance outcomes, skills and knowledge required to direct performers in rehearsals. This leadership role includes motivating others to give their best in performance. This involves applying a range of musicianship skills, such as understanding the performance capabilities of instruments and providing solutions to performance problems that arise during rehearsals and performances. No licensing, legislative, regulatory or certification requirements apply to this unit at the time of endorsement.

Application of the Unit

Application of the unit	Musical directors and resident conductors apply the skills and knowledge described in this unit. They are responsible for choosing repertoire, selecting musicians, overseeing the organisation of rehearsals and providing musical leadership during rehearsals.

Licensing/Regulatory Information

Not applicable.

Pre-Requisites

Prerequisite units		

Employability Skills Information

Employability skills	This unit contains employability skills.

Elements and Performance Criteria Pre-Content

Elements describe the essential outcomes of a unit of competency.	Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the required skills and knowledge section and the range statement. Assessment of performance is to be consistent with the evidence guide.

Elements and Performance Criteria

ELEMENT	**PERFORMANCE CRITERIA**
Develop musical direction skills	1. Critically research scores and performances with musical possibilities and outcomes in mind 2. Explore approaches in a range of art forms for their potential to assist with developing own ***musical direction skills*** 3. Participate in formal and informal ***learning*** experiences for own artistic and professional development 4. Explore cultural contexts and contemporary issues for their potential effect on own work 5. Plan work opportunities in line with career goals and artistic aspirations 6. Evaluate own work critically for overall achievement and use the opinions of others judiciously 7. Maintain a broad and current knowledge of the music industry through formal and informal means

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

ELEMENT	PERFORMANCE CRITERIA
Prepare performance programs	8. Discuss vision for programs and expected performance outcomes with ***relevant personnel*** 9. Discuss and confirm casting with producers to ensure appropriate repertoire decisions 10. Ensure that repertoire selected is appropriate to the skill level of performers and for the performance occasion 11. Where possible, ensure that selected repertoire provides specific development possibilities for performers 12. Ensure that advice and feedback are sought, evaluated and incorporated into selection of repertoire and overall program 13. Communicate final musical vision positively and clearly to promoters, producers and performers
Prepare to rehearse performance programs	14. Ensure that ***resources*** required for rehearsals are obtained and available in a timely fashion 15. Plan specific techniques to assist communication with performers and ensure optimum learning of the program 16. Assess musical and technical aspects of the repertoire to determine how they might affect rehearsals 17. Prepare repertoire to ensure that the performance shape and vision can be achieved with the performers within the allocated rehearsal time 18. Consider the possibilities of the musical style and the potential for drawing out the music's expressive qualities in own preparation for conducting 19. Plan strategies to meet potential technical and artistic challenges while ensuring efficient use of rehearsal time
Finalise rehearsal schedule	20. Clearly communicate details of rehearsal content and standard of musical preparation required to relevant personnel, allowing sufficient time for preparation 21. Clearly communicate details of responsibility for ***equipment***, ***instruments and accessories*** and venue for each rehearsal to relevant personnel, allowing time for compliance 22. Ensure that sufficient rehearsal time is allocated to the repertoire to achieve agreed outcomes 23. Anticipate problems that might arise in relation to rehearsal schedule and plan accordingly
Direct rehearsals	24. Apply ***listening skills*** to ensure that individual and collective tuning is accurate 25. Use body effectively to give clear directions for

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

ELEMENT	PERFORMANCE CRITERIA
	structure, beat, entry cues, dynamics, colour and expression 26. Recognise and work with the collective and individual skills of performers 27. Apply ***music knowledge*** and ***technical skills*** to bring out the best in performers and to achieve performance excellence 28. Communicate criticism of performers' work in a balanced and supportive manner
Evaluate rehearsals	29. Participate in debriefing sessions with relevant personnel to identify strengths and weaknesses of rehearsal processes 30. Document the outcome of debriefing sessions according to enterprise procedures 31. Reflect on own performance as rehearsal leader and note areas for improvement 32. Respond appropriately to peer feedback on quality of rehearsal performances and processes

Required Skills and Knowledge

Required skills

• communication and teamwork skills sufficient to:
  • provide musical leadership and creative direction to performers and instrumentalists during rehearsals
  • work collaboratively with a wide range of people
  • work creatively with individual differences
  • work constructively with group dynamics
  • observe cultural protocols appropriate to the genre or area of specialisation
  • identify and deal positively and constructively with conflict
• initiative, enterprise and creativity in the context of:
  • matching repertoire to target audience
  • demonstrating originality and innovative approaches to the performance andinterpretation of music for self and others
  • extending musical boundaries for self and audience
  • phrasing and shaping music appropriately
  • understanding and expressing appropriate musical nuance
  • leading musical performances appropriately for the context of venues, sound

Required skills

forces and perceived audience taste
• listening skills sufficient to:
  • recognise intervals, chords, scales and chord progressions
  • understand appropriate intonation, dynamics, phrasing, rhythm and expression to produce the required sound for self and others
  • listen critically to the creative workof others to inform own work and the work of others
  • listen critically to and adjust own creative workto achieve the required sound for self and others
  • listen critically to continuously evaluate and adjust the performance of musical works
• planning and organisational skills sufficient to:
  • clarify roles
  • plan events and performance opportunities
  • work within established budgets and timeframes to achieve planned outcomes
  • match work commitments to best career outcomes
  • plan practice to improve own technical facility in performance anddirecting music in area of specialisation
  • demonstrate punctuality in all work commitments
  • use time-management strategies to set priorities
• learning and self-management skills in the context of:
  • locating and using resources to advance performance outcomes
  • acquiring and using information appropriate to directing performances
  • evaluating, adjusting and developing own work in line with planned career directions and artistic aspirations
  • discerning and listening to the advice of appropriate colleagues, experts and audience groups to adjust work in line with career direction
  • using appropriate posture, dress and other performance protocols
  • observing OHS requirements
• technical skills sufficient to:
  • read musical scores
  • understand the capability of equipment and instruments in area of specialisation
  • investigate technology to enhance artistic or commercial outcomes in area of specialisation

Required knowledge

• music knowledge in area of specialisation, including:
  • interpreting music in performance
  • improvisation conventions

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

Required skills
• sight reading from charts or musical notation • appropriate repertoire • musical terminology • musical genres and styles • solo and group performance protocols • composition process • issues and challenges that typically arise in the context of preparing and leading music rehearsals • techniques for moving the body and breathing to enhance musical performance of self and others • OHS requirements and procedures in relation to performing

Evidence Guide

EVIDENCE GUIDE	
The Evidence Guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, range statement and the Assessment Guidelines for the Training Package.	
Overview of assessment	
Critical aspects for assessment and evidence required to demonstrate competency in this unit	Evidence of the ability to: • meet performance/production requirements when preparing for rehearsals • provide musical leadership in rehearsal on at least three occasions • apply high levels of music literacy and repertoire knowledge • continuously improve performances through ongoing evaluation • motivate others involved in performances to achieve their best.

Context of and specific resources for assessment	Assessment must ensure:
	• access to:
	  • relevant instruments and equipment
	  • scores, charts or other written music resources
	  • participants, such as performers and technical crew

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

EVIDENCE GUIDE	
	• appropriate performance venues with adequate space and acoustic qualities • use of culturally appropriate processes, and techniques appropriate to the language and literacy capacity of the candidate and the work being performed.
Method of assessment	The following assessment methods are appropriate for this unit: • evaluation of rehearsal schedules and plans prepared by the candidate • observation or video recordings of music rehearsals led by the candidate • written or oral questioning to test knowledge as listed in the required knowledge section of this unit • authenticated recordings of music rehearsals where the candidate provided musical leadership • case studies and scenarios as a basis for discussion about issues and challenges that arise in the context ofpreparing and leading music rehearsals.
Guidance information for assessment	Holistic assessment with other units relevant to the industry sector, workplace and job role is recommended, for example: • CUSIND501A Apply music knowledge and artistic judgement • CUSMLT601A Analyse music • CUSMPF606A Conduct musical performances.

Range Statement

RANGE STATEMENT	
The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording, if used in the performance criteria, is detailed below. Essential operating conditions that may be present with training and assessment (depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts) may also be included.	
Developing ***musical direction skills*** may involve:	• undertaking lessons with an appropriate tutor/mentor • participating in professional development and

CUSOHS301A Follow occupational health and safety procedures

Modification History

Not applicable.

Unit Descriptor

Unit descriptor	This unit describes the performance outcomes, skills and knowledge required to follow OHS policies and procedures in the entertainment and media industries. Sets and staging for some performances or events may fall within the definition of construction work. If so, people entering a construction site are required to complete the general induction training program specified by the National Code of Practice for Induction Training for Construction Work (Australian Safety Compensation Council, May 2007). Achievement of the unit CPCCOHS1001A Work safely in the construction industry fulfils this requirement. The application of skills and knowledge specified in CPCCOHS1001A is covered in this unit.

Application of the Unit

Application of the unit	All employees and contractors in the entertainment, events, and screen and media industries apply the skills and knowledge outlined in this unit. Compliance with OHS policies and procedures is essential in all work contexts, along with an understanding of the consequences of non-compliance.

Licensing/Regulatory Information

Not applicable.

Employability Skills Information

Employability skills	This unit contains employability skills.

Elements and Performance Criteria Pre-Content

Elements describe the essential outcomes of a unit of competency.	Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the required skills and knowledge section and the range statement. Assessment of performance is to be consistent with the evidence guide.

Elements and Performance Criteria

ELEMENT	**PERFORMANCE CRITERIA**
Follow safe work practices	1. Apply knowledge of ***safe work practices*** to complete work tasks in accordance with ***legislative requirements*** and ***codes of practice*** 2. Adhere to safety plans, safety implementation reports and other ***documentation*** as required 3. Use tools, equipment and materials according to enterprise ***procedures*** 4. Complete work tasks with due regard to safety ***signs and symbols*** 5. Comply with ***duty of care requirements*** 6. Participate in ***OHS communication and reporting processes***

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

ELEMENT	PERFORMANCE CRITERIA
Maintain personal safety standards	7. Use safety clothing and ***personal protective equipment*** (PPE) as required to ensure own safety and safety of others 8. Undertake ***measures*** to prevent injury or impairment related to workplace activities 9. Apply safe manual-handling techniques to avoid back strain and other injuries 10. Contribute to keeping the work environment free of ***hazards*** 11. Maintain currency of own knowledge of OHS workplace policies and procedures
Assess risks	12. Report hazards or ***OHS issues*** in the workplace to ***relevant personnel*** 13. Apply knowledge of ***principles of risk management*** when taking action to minimise risk in line with own level of responsibility 14. Follow workplace procedures for controlling risks 15. Contribute to workplace OHS, hazard, accident and incident reports as required 16. Report breaches of health, safety and security procedures promptly as required
Follow emergency procedures	17. Report ***emergency*** or ***incident*** promptly to relevant personnel or ***authorities*** in line with ***general procedures*** for responding to incidents and emergencies 18. Take action to deal with emergencies in line with own level of responsibility 19. Seek assistance from colleagues and relevant authorities as required 20. Practise and follow emergency and evacuation procedures as required.

Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE
This section describes the skills and knowledge required for this unit.
Required skills
• communication and teamwork skills sufficient to:

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

REQUIRED SKILLS AND KNOWLEDGE

- clarify OHS legislative requirements
- discuss OHS issues and information
- enable clear and direct communication, using questioning to identify and confirm requirements, share information, listen and understand
- relay information to others
- report hazards and risks
- use and interpret non-verbal communication, such as hand signals
- use language and concepts appropriate to cultural differences
- contribute effectively to formal and informal OHS meetings
- complete workplace documentation related to OHS procedures
- read and interpret material safety data sheets (MSDS)
- follow verbal and written instructions
- work collaboratively with others to keep the workplace safe and free of hazards

- comprehension skills to:
  - explain the basic OHS legislative requirements applicable to own work
  - explain the meaning of safety signs and symbols
  - identify common hazards in specified area of work
  - discuss the basic principles of risk management
- initiative and enterprise skills sufficient to:
  - respond appropriately to an emergency
  - use basic firefighting equipment
  - dispose of waste material in a responsible manner
- planning and organisational skills in the context of completing work tasks in a logical order and ensuring that PPE is used appropriately
- learning skills in the context of maintaining currency of own knowledge of OHS policies and procedures
- technical skills sufficient to access the internet to source information on OHS

Required knowledge

- applicable federal, state or territory OHS legislation, regulations, standards, codes of practice and industry standards/guidance notes relevant to own work, role and responsibilities
- basic principles of risk management
- role of state or territory workplace safety authorities
- sources of information on OHS issues for the specified area of work, including:
  - enterprise procedures manuals
  - MSDS
  - unions and employer associations
  - Australian Safety and Compensation Council

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

REQUIRED SKILLS AND KNOWLEDGE

- state or territory workplace safety authorities
- enterprise OHS policies and procedures and implications of breaching them, relating to:
  - emergency response and evacuation
  - first aid
  - incident reporting
  - responding to accidents
  - OHS hierarchy of controls
  - role of OHS committees and representatives
  - duty of care
  - workplace fire hazard minimisation
  - PPE
  - types of OHS information and documentation
- general workers' compensation and injury management requirements
- OHS responsibilities and rights of duty holders, including:
  - designers
  - employers
  - inspectors
  - manufacturers
  - persons in control of work/projects
  - self-employed persons
  - supervisors
  - suppliers
  - workers
- own responsibilities to comply with safe work practices relating to:
  - housekeeping
  - identifying hazards
  - preventing bullying or harassment
  - smoking
  - using amenities
  - using drugs and alcohol
  - using basic firefighting equipment
- basic first aid procedures
- industry terminology
- circumstances where a licence, ticket or certificate of competency is required
- common safety signage and symbols
- common hazards and major causes of workplace accidents in the specified area of work

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

Evidence Guide

EVIDENCE GUIDE	
The Evidence Guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, range statement and the Assessment Guidelines for the Training Package.	
Overview of assessment	This unit of competency could be assessed in the workplace or a close simulation of the workplace environment, provided that simulated or project-based assessment techniques fully replicate workplace conditions, materials, activities, responsibilities and procedures.
Critical aspects for assessment and evidence required to demonstrate competency in this unit	Evidence of the ability to: • comply with OHS regulations and federal, state or territory legislation requirements for workplace operations, including duty of care • comply with OHS communication processes, information and documentation procedures • demonstrate an understanding of the role of OHS committees and representatives, the meaning of common safety signs and symbols, and procedures for reporting hazards, incidents and injuries • communicate and work safely with others • follow general procedures for responding to incidents and emergencies, including evacuation, first aid, fire safety equipment and PPE • explain the consequences of non-compliance with OHS policies and procedures.
Context of and specific resources for assessment	This unit of competency is to be assessed using standard and authorised work practices, safety requirements and environmental constraints. Assessment of essential underpinning knowledge will usually be conducted in an off-site context. Assessment is to comply with relevant regulatory or Australian standards' requirements.

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

EVIDENCE GUIDE	
	Reasonable adjustments for people with disabilities must be made to assessment processes where required. This could include access to modified equipment and other physical resources, and the provision of appropriate assessment support. Resource implications for assessment include: • an induction procedure and requirement • realistic tasks or simulated tasks covering the mandatory task requirements • relevant specifications and work instructions • tools and equipment appropriate to applying safe work practices • support materials appropriate to activity • workplace instructions relating to safe work practices and addressing hazards and emergencies • MSDS • research resources, including industry-related systems information • use of culturally appropriate processes, and techniques appropriate to the language and literacy capacity of the candidate and the work being performed.
Method of assessment	The following assessment methods are appropriate for this unit: • direct observation of the candidate explaining workplace safety or emergency procedures to others • direct observation of the candidate demonstrating safe work practices for particular job roles • case studies and problem-solving exercises for emergency situations and particular safety issues • written or oral questioning to assess knowledge of industry safety guidelines and legislation.
Guidance information for assessment	Holistic assessment with other units relevant to the industry sector, workplace and job role is recommended, for example: • CUFIND301A Work effectively in the screen and media industries • CUSIND301A Work effectively in the music industry • CUSSOU303A Set up and disassemble audio

EVIDENCE GUIDE	
	equipment.

Range Statement

RANGE STATEMENT	
The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording, if used in the performance criteria, is detailed below. Essential operating conditions that may be present with training and assessment (depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts) may also be included.	
Safe work practices include:	• access to site amenities, such as drinking water and toilets • restrictions in relation to drugs and alcohol at work • general requirements for safe use of plant and equipment • general requirements for use of PPE and clothing • housekeeping to ensure a clean, tidy and safe work area • preventing bullying and harassment • smoking in designated areas • storage and removal of debris.
Legislative requirements may include:	• provisions of federal, state and territory OHS and welfare Acts and regulations • guidelines and procedures administered by statutory/regulatory authorities, e.g. state/territory OHS authorities responsible for issuing construction induction cards • Australian standards • construction industry OHS standards and guidelines • duty of care • health and safety representatives, committees and supervisors • licences, tickets or certificates of competency • national safety standards.
Codes of practice may include:	• safety guidelines for the entertainment industry

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT	
	• film industry recommended safety code • national code of practice for induction training for construction work • film and television safety guidelines • NSW child employment guidelines • code of practice for the welfare of film animals.
Documentation includes:	• accident and incident reports • Acts and regulations • Australian standards • codes of practice • construction documentation and plans • emergency information contact • evacuation plans • guidance notes • job safety analyses • labels • MSDS • proformas for reporting hazards, incidents and injuries • reports of near misses and dangerous occurrences • production/performance risk assessment • special performance condition notification • safe work method statements • safety meeting minutes • site safety inspection reports.

Procedures may include guidelines for:	• emergencies, such as fire and accidents
	• using fire safety equipment
	• accessing first aid treatment
	• hazard identification and control
	• using PPE and clothing
	• safe sitting, lifting and handling
	• security of documents, cash, equipment and people
	• safe use of:
	  • audio and communication equipment
	  • chemicals and toxic substances
	  • electrical equipment
	• hot works

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT	

	• smoke and particle isolation
	• use of MSDS
	• safe construction of rigging and supports
	• working at heights
	• working in reduced lighting conditions
	• working in confined spaces
	• dealing with difficult customers
	• access to:
	  • orchestra pit
	  • fly tower and grid.

Signs and symbols may include:	• emergency information signs (e.g. exits, equipment and first aid) • fire signs (e.g. location of fire alarms and firefighting equipment) • hazard signs (e.g. danger and warning) • regulatory signs (e.g. prohibition, mandatory and limitation or restriction) • safety tags and lockout (e.g. danger tags and out-of-service tags) • facility or location signs • site safety • directional • traffic and warning signs and symbols.

Duty of care requirements relate to:	• legal responsibility under duty of care to do everything reasonably practicable to protect others from harm
	• own responsibilities to comply with safe work practices, including activities that require licences, tickets or certificates of competency
	• relevant federal and state OHS requirements, including those relating to:
	  • construction workers and supervisors
	  • designers
	  • employers
	  • inspectors
	  • manufacturers and suppliers
	  • persons in control of the work site
	  • subcontractors and self-employed persons.

OHS communication and reporting processes include:	• discussions with OHS representatives • OHS meetings

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT	
	• OHS notices, newsletters, bulletins and correspondence • OHS participative arrangements • processes for raising OHS issues • toolbox talks • workplace consultation relating to OHS issues and changes.
Personal protective equipment may include:	• gloves • safety harnesses • hard hats • aprons • arm guards • eye protection • hearing protection • high visibility retro reflective vests • respiratory protection • safety footwear • protective clothing, including ultraviolet (UV) protective • sunscreen • well-fitting clothing.
Measures may relate to:	• correct posture when playing an instrument • ergonomic seating • taking adequate rest breaks • avoiding prolonged periods in front of a computer screen • using plant and equipment guards in line with manufacturer specifications • engineering control • wearing PPE • controlling noise/sound levels and length of exposure to high levels of noise • avoiding eye strain • stress management techniques • correct handling of chemical and dangerous substances or equipment • following the hierarchy of safety controls.
Hazards may include:	• noise • electrical safety • chemical spills • paint fumes and spills

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT	
	• gas • smoke machines • pyrotechnics • aerotechnics • animals on set • execution of special effects, stunts or action sequences • firearms and ammunition • moving machinery and equipment • manual handling • trip, e.g. objects left in passageways • protrusions • sharp equipment • overhanging beams • falling objects • unplanned collapse • adverse weather and lighting conditions • hot and cold work environments • working at heights • working in the dark • working in confined spaces • chemicals and toxic substances • fire • UV radiation • traffic and mobile plant • excavations, including trenches • infectious diseases, including HIV.
OHS issues may include:	• occupational overuse injury • performance anxiety • stress • bullying and harassment.
Relevant personnel may include:	• supervisor • safety officer • first aid officer • OHS committee member • OHS representative • stage manager • production manager • technical director • artist, musician and performer

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT	
	• audio and sound engineer • audio and sound technician/mixer • camera crew • lighting crew • broadcaster • broadcast technician and engineer • director • producer • conductor • program manager.
Principles of risk management include:	• assessing risks involved • consulting, reporting and ensuring the involvement of relevant workers • controlling hazards • identifying hazards • reviewing to identify change or improvement.

Emergencies may include:	• fire:
	  • electrical
	  • chemical
	  • gas
	  • mechanical
	  • paper
	  • wood
	• accident
	• chemical spill
	• injury to personnel
	• structural collapse
	• toxic and/or flammable vapour emission
	• vehicle/mobile plant accident
	• robbery
	• bomb threat
	• armed hold-up
	• natural disaster
	• equipment failure.

Incidents may include:	• accidents resulting in personal injury or damage to property • near misses or dangerous occurrences which do not cause injury but may pose an immediate and significant risk to persons or property, and need to be reported so that action can be taken

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT	
	to prevent recurrence, for example: • breathing apparatus malfunctioning to the extent that the user's health is in danger • collapse of the floor, wall or ceiling of a building being used as a workplace • collapse or failure of an excavation more than 1.5Â metres deep, including any shoring • collapse or partial collapse of a building or structure • collapse, overturning or failure of the load-bearing of scaffolding, lift, crane, hoist or mine-winding equipment • damage to or malfunction of other major plant • electric shock • electrical short circuit, malfunction or explosion • uncontrolled explosion, fire or escape of gas, hazardous substance or steam • other unintended or uncontrolled incident or event arising from operations carried on at a workplace.
Authorities may include:	• fire service • police • ambulance • hospitals and medical • community welfare • OHS regulatory authority.

General procedures for responding to incidents and emergencies include:	• basic emergency response
	• evacuating
	• notifying designated OHS personnel and authorities
	• notifying emergency services
	• referring to site emergency plans and documentation
	• using fire safety equipment, such as:
	  • breathing apparatus
	  • fire blankets
	  • firefighting equipment.

CUSPUR501A Establish and manage recording contracts

Modification History

Not applicable.

Unit Descriptor

Unit descriptor	This unit describes the performance outcomes, skills and knowledge required to negotiate and enter into recording contracts and to monitor compliance with contract conditions. No licensing, legislative, regulatory or certification requirements apply to this unit at the time of endorsement.

Application of the Unit

Application of the unit	Artist and repertoire (A&R) managers in record companies and artist managers typically apply the skills and knowledge described in this unit. They are responsible for negotiating the terms and conditions of contracts with artists to record their performances and for liaising with legal representatives to finalise contracts. A thorough understanding of the rights of all parties to recording contracts is essential.

Licensing/Regulatory Information

Not applicable.

Pre-Requisites

Prerequisite units		

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

Prerequisite units		

Employability Skills Information

Employability skills	This unit contains employability skills.

Elements and Performance Criteria Pre-Content

Elements describe the essential outcomes of a unit of competency.	Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the required skills and knowledge section and the range statement. Assessment of performance is to be consistent with the evidence guide.

Elements and Performance Criteria

ELEMENT	**PERFORMANCE CRITERIA**
Maintain currency of knowledge of rights of parties to recording contracts	1. Access reliable ***sources of information*** about the ***rights of performers*** in ***recording deals*** 2. Access reliable sources of information about the rights of ***parties*** entering into recording deals with performers 3. Identify and participate in ***professional development activities*** to consolidate music business knowledge 4. Participate in ***industry networks*** to maintain currency of music business knowledge
Establish contracts	5. Clarify ***terms and conditions*** of contract with all parties, ensuring all parties understand their contractual rights and obligations 6. Ensure contract complies with relevant ***legislative and regulatory requirements*** 7. Draft contract using specialist legal advice as required and distribute to all parties for comment 8. Use ***effective negotiation techniques*** to resolve any issues to the satisfaction of all parties

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

ELEMENT	PERFORMANCE CRITERIA
	9. Adjust contract in light of advice received and reconfirm variations with all parties 10. Seek agreement from all parties to sign contract
Finalise and monitor contracts	11. Conduct final check on terms and conditions of contract with all parties to ensure their observance 12. Ensure contract is signed, exchanged between all parties and appropriately stored and safeguarded 13. Monitor performance against/observance of contractual terms and conditions by all parties 14. Enforce compliance and provide recommendations for contractual variations as required 15. Ensure changes to contracts are negotiated with and agreed to by all parties

Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This section describes the skills and knowledge required for this unit.

Required skills

- research skills sufficient to access relevant contractual/legal information
- literacy skills sufficient to:
  - draft and finalise contracts
  - interpret contractual documentation
- numeracy skills sufficient to negotiate financial agreements
- communication skills sufficient to negotiate contractual terms and conditions
- planning and organisational skills sufficient to:
  - develop strategies for achieving contractual outcomes
  - monitor observance of contractual terms and conditions
- learning skills sufficient to maintain currency of knowledge of music business trends
- problem-solving skills sufficient to clarify and resolve contractual discrepancies and variations
- technical skills sufficient to:
  - download contractual and legal information
  - use standard word-processing software

Required knowledge

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

REQUIRED SKILLS AND KNOWLEDGE

• common terminology, features and requirements of contractual arrangements
• relevant federal and state/territory legislation as it applies to recording contracts, including:
  • accuracyand clarity of information
  • anti-discrimination, equal employment opportunity and affirmative action
  • copyright and intellectual property
  • industrial relations, including relevant awards and agreements
  • OHS
  • privacy and confidentiality
  • terms and conditions of employment
• revenue structure of the performing/recording industry
• typical features and requirements of recording contracts
• issues and challenges that typically arise in the context of establishing and managing recording contracts

Evidence Guide

EVIDENCE GUIDE	
The Evidence Guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, range statement and the Assessment Guidelines for the Training Package.	
Overview of assessment	
Critical aspects for assessment and evidence required to demonstrate competency in this unit	Evidence of the ability to: • establish and manage contracts • monitor contractual compliance with legislative and regulatory requirements • work cooperatively with all parties to contracts.

Context of and specific resources for assessment	Assessment must ensure:
	• access to:
	  • appropriate technology to obtain contractual and legal information
	  • clients and financiers
	  • relevant legislative and regulatory material regarding contractual arrangements
	• use of culturally appropriate processes, and techniques appropriate to the language and literacy

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

EVIDENCE GUIDE	
	capacity of the candidate and the work being performed.
Method of assessment	The following assessment methods are appropriate for this unit: • case studies to assess ability to interpret relevant federal, state and territory legislation • direct observation of candidate establishing and managing contracts • written or oral questioning to assess knowledge as listed in the required knowledge section of this unit • problem-solving activities to assess ability to resolve contractual discrepancies and variations.
Guidance information for assessment	Holistic assessment with other units relevant to the industry sector, workplace and job role is recommended, for example: • BSBPUR402B Negotiate contracts • CUFCMP501A Manage and exploit copyright arrangements • CUSMGT401A Manage distribution of music and associated products • CUSMGT404A Administer artists' royalty income • CUSMGT502A Manage artists and their careers • CUSMGT503A Develop artists and repertoire.

Range Statement

RANGE STATEMENT	
The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording, if used in the performance criteria, is detailed below. Essential operating conditions that may be present with training and assessment (depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts) may also be included.	
Sources of information may include:	• Arts Law Centre of Australia • Media Entertainment and Arts Alliance • Musicians Union of Australia • Australasian Performing Rights Association (APRA)

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT	
	• Australasian Mechanical Copyright Owners Society (AMCOS) • Australian Recording Industry Association (ARIA) • Copyright Agency Limited (CAL) • Australian Copyright Council • Live Performance Australia • Music Council of Australia.
Rights of performers may relate to:	• obtaining performers' permission to record • ownership of copyright in the recording, including joint ownership of copyright • moral rights • right of attribution • right against false attribution • right of integrity.

Recording deals may include:	• audio and audiovisual recordings:
	  • solo
	  • band or group
	• 360 degree deals, including for example:
	  • live performances
	  • tour earnings
	  • recordings
	  • merchandise
	  • brand placement.

Parties may include:	• record companies • concert promoters • tour companies.
Professional development activities may include:	• conferences • master classes • seminars • symposiums • training programs • workshops.
Industry networks may include:	• professional industry associations • legal advisers • advisory committees • government agencies • lobby groups • unions.

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT	

Terms and conditions may include:	• royalties
	• royalty splits
	• advances
	• overseas income
	• allowances
	• artistic control and restrictions, including:
	  • advertising
	  • approval of test pressing
	  • choice of producer and material to be recorded
	  • copyright ownership
	  • coupling and television compilations
	  • cover art
	  • packaging
	  • image and likeness
	  • editing, mixing, remixing and re-recording
	  • promotional goods and endorsements
	  • synchronisation uses
	• pay or play provisions, such as:
	  • recording obligations
	  • release commitment (domestic/foreign)
	  • liquidated damages
	  • termination rights
	• product commitment, such as:
	  • amount
	  • timetable for delivery
	  • suspension
	  • exclusivity
	  • injunctive relief
	• promotional commitment and tour support
	• terms and territory
	• warranties and indemnities
	• accounting
	• bookkeeping
	• recordkeeping
	• credits
	• enforcement of rights
	• insurance
	• jurisdiction

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT	

	• obligation to exploit
	• partnerships
	• performance requirements
	• sick leave
	• unspecified amendments:
	  • evolving styles and genres of artists
	  • new and evolving technology
	  • new levels of success for artists
	  • unforeseen changes to recordings and performances
	• superannuation.

Legislative and regulatory requirements may include:	• anti-discrimination • equal employment opportunity • affirmative action • industrial awards and agreements • copyright and intellectual property • OHS • terms and conditions of employment.

Effective negotiation techniques may include:	• adopting collaborative negotiating style
	• assessing strengths and weaknesses of opposing positions and determining viable alternatives
	• clarifying purpose, content and desired outcomes
	• communicating results to all parties within appropriate timeframes
	• conducting negotiation in a professional manner
	• ensuring final position is agreed and understood by all parties
	• identifying consequences of non-agreements
	• maintaining contact with all parties
	• managing conflict/disagreement between parties
	• treating all parties courteously and in ways that acknowledge their contribution
	• using effective questioning techniques:
	  • closed questions, allowing yes/no answers
	  • open questions, allowing range of responses
	  • reflective questions, provoking clarification.

CUSSOU201A Assist with sound recordings

Modification History

Not applicable.

Unit Descriptor

Unit descriptor	This unit describes the performance outcomes, skills and knowledge required to assist with sound recordings using a variety of recording equipment in a studio or live environment. No licensing, legislative, regulatory or certification requirements apply to this unit at the time of endorsement.

Application of the Unit

Application of the unit	Studio assistants, audio stagehands, boom operators and others who assist supervising sound technicians to record sound, apply the skills and knowledge described in this unit. They could be working in a variety of creative arts industry sectors, including stage productions, music recording studios, television, radio, film, video or online environments. Under close supervision and guidance, they are responsible for assisting with setting up recording equipment, doing sound checks, monitoring the quality of recorded sound, labelling/logging recordings, and solving routine problems that occur during the recording. The advanced application of sound recording is covered in: • CUSSOU401A Record sound • CUSSOU406A Record sound on location.

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

Licensing/Regulatory Information

Not applicable.

Pre-Requisites

Prerequisite units		

Employability Skills Information

Employability skills	This unit contains employability skills.

Elements and Performance Criteria Pre-Content

Elements describe the essential outcomes of a unit of competency.	Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the required skills and knowledge section and the range statement. Assessment of performance is to be consistent with the evidence guide.

Elements and Performance Criteria

ELEMENT	**PERFORMANCE CRITERIA**
Assist with prerecording checks	1. Clarify ***documentation*** and ***consumables*** for ***recording production*** with appropriate persons 2. Connect ***sound equipment and accessories*** according to safety, technical and ***production requirements*** 3. Refer faults and problems to ***appropriate persons***
Contribute to recording operations	4. Follow directions about the ***placement and movement*** of ***microphones*** and ***microphone accessories*** 5. Assist with ***sound check*** to ensure levels and ***characteristics of recorded sound*** meet required

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

ELEMENT	PERFORMANCE CRITERIA
	standards 6. Confirm ***signal-processing*** requirements with appropriate persons and make test recordings to ensure no audible defects are present 7. Listen to sound recording for audible defects and extraneous background sound and communicate problems to appropriate persons 8. Log recordings and ensure labelling is accurate, legible, current and within production requirements 9. Disconnect sound equipment and accessories according to safety, technical and production requirements 10. Communicate appropriately with other team members, performers or customers during the completion of tasks 11. Clean ***work environment*** after use and restore to pre-recording condition

Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE This section describes the skills and knowledge required for this unit.
Required skills

• literacy skills sufficient to:
  • log and label recorded material
  • note and report system faults and problems
  • read and understand recording documentation
• numeracy skills sufficient to calculate duration and capacity of recording media
• communication skills sufficient to:
  • liaise with sound production/recording personnel
  • understand and follow instructions
  • respond positively to constructive feedback on own performance
• learning skills sufficient to maintain currency of knowledgeof recording equipment upgrades
• planning and organisational skills sufficient to:
  • prioritise work tasks
  • meet deadlines
  • seek expert assistance when problems arise
• problem-solving skills sufficient to identify and refer system faults and problems to

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

REQUIRED SKILLS AND KNOWLEDGE
sound-production personnel • teamwork skills sufficient to work effectively with sound-production personnel • technology skills sufficient to work with a variety of sound-recording equipment
Required knowledge

• basic principles and techniques of sound recording, including:
  • audible defects in analogue and digital technologies
  • identification/logging requirements
  • operational principles of microphones, including microphone placement
  • operational/technical limitations of recording mediums
  • recording formats and technical standards
  • signal-to-noise ratio, signal phase and audio level/headroom control
• OHS principles of safe listening, including safeguards against hearing loss

Evidence Guide

EVIDENCE GUIDE	
The Evidence Guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, range statement and the Assessment Guidelines for the Training Package.	
Overview of assessment	
Critical aspects for assessment and evidence required to demonstrate competency in this unit	Evidence of the ability to: • apply OHS principles of safe listening to day-to-day work activities • use a range of industry-current sound equipment and accessories • work cooperatively in a production environment.
Context of and specific resources for assessment	Assessment must ensure: • access to a range of work environments and productions where sound is recorded • access to industry-current sound equipment and accessories • use of culturally appropriate processes, and techniques appropriate to the language and literacy capacity of learners and the work being performed.
Method of assessment	The following assessment methods are appropriate for

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

EVIDENCE GUIDE	
	this unit: • case studies to assess candidate's ability to apply OHS principles of safe listening to day-to-day work activities • evaluation of a range of live, acoustic and/or sequenced recordingsin which candidate assisted asound technician or engineer • observation of the candidate assisting with sound recordings • written or oral questioning to test knowledge of basic principles and techniques of sound recording.
Guidance information for assessment	Holistic assessment with other units relevant to the industry sector, workplace and job role is recommended, for example: • CUFIND201ADevelop and apply creative arts industry knowledge • CUFSOU204A Perform basic sound editing • CUSMLT201A Develop and apply musical ideas and listening skills • CUSSOU202A Mix sound in a broadcasting environment.

Range Statement

RANGE STATEMENT	
The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording, if used in the performance criteria, is detailed below. Essential operating conditions that may be present with training and assessment (depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts) may also be included.	
Documentation may include:	• cue sheets and track sheets • dubbing charts • equipment instructions • OHS requirements • organisational standards • performers' requirements • production schedule and set-up reports • shot lists

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT	
	• sound and audio reports • storyboards • technical manuals.
Consumables may include:	• audiotape • compact discs (CDs) • cue sheets and track sheets • digital versatile discs (DVDs) • masking tape, marker pens and labels • memory cards • mini discs (MDs).
Recording production may include:	• commercial • print advertisement • corporate video • feature film and/or video • filmed event and/or performance • interactive digital media product • internet production • music recording and/or video • promotional trailer • radio broadcast • short film and/or video • television program • training film and/or video • voice-over.
Sound equipment and accessories may include:	• amplifiers • analogue to digital converters • cables • computer technology and associated software • digital and analogue recording devices • digital audio players • headphones • microphones and accessories • mixing consoles and desks • monitors and speakers • signal processors and plug-ins.
Production requirements may include:	• attributions • audience • budget • confidentiality • content

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT	
	• contractual arrangements • copyright • deadlines • direct quotes • duration • intellectual property • interviews • location • purpose • schedule • style.
Appropriate persons may include:	• artists, musicians and performers • audio and sound engineers • audio and sound technicians • dubbing machine operators • broadcasters • directors, producers and photographers • post-production editors and mixers • program managers • sound designers and editors • sound effects personnel • video and sound recorders.

Placement and movement of equipment may involve:	• observing safety and technical requirements
	• avoiding extraneous and unwanted noise, e.g. from cables
	• with screen productions:
	  • avoiding shadows and reflections
	  • ensuring that equipment is not in frame
	  • aiming a boom microphone upwards or downwards depending on the shot
	  • placing microphones in more than one position to capture the required sound perspective.

Microphones may include:	• boundary (PZM) • capacitor/condenser • contact • digital • directional • dual-element • dynamic

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT	
	• headset • lapel • low and/or high impedance • microphone systems • noise cancelling • shotgun.
Microphone accessories may include:	• boom poles • cables • clips • connectors • housing • pop filters • shock mounts • stands • windscreens.
Sound check may include checking:	• levels • frequency response • phase relationships • signal-to-noise ratio.
Characteristics of recorded sound may include:	• frequency response • phase relationships • signal-to-noise ratio level • mono/stereo/5.1 surround sound • spatial position and image • balance • tonal quality • perspective • acoustic • dynamic range.
Signal processing may include:	• amplitude (dynamic) signal processing • noise processing • spectrum signal processing • time signal processing.
Work environment may include:	• dubbing theatre • on location • outside broadcast • post-production studio • recording studio • sound stage.

CUSSOU202A Mix sound in a broadcasting environment

Modification History

Not applicable.

Unit Descriptor

Unit descriptor	This unit describes the performance outcomes, skills and knowledge required to operate a broadcast studio panel. No licensing, legislative, regulatory or certification requirements apply to this unit at the time of endorsement.

Application of the Unit

Application of the unit	Panel operators at community broadcasting stations typically apply the skills and knowledge described in this unit. They are responsible for ensuring that all audio inputs are mixed smoothly in line with program requirements. They work closely with presenters and studio guests, providing them with cues prior to opening microphones. More complex skills associated with the dual tasks of presenting information on air and operating a studio panel are covered in: • CUFAIR301A Present radio programs.

Licensing/Regulatory Information

Not applicable.

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

Pre-Requisites

Prerequisite units		

Employability Skills Information

Employability skills	This unit contains employability skills.

Elements and Performance Criteria Pre-Content

Elements describe the essential outcomes of a unit of competency.	Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the required skills and knowledge section and the range statement. Assessment of performance is to be consistent with the evidence guide.

Elements and Performance Criteria

ELEMENT	**PERFORMANCE CRITERIA**
Prepare for broadcast	1. Check studio ***equipment*** is safe and operational and replace any non-functioning equipment in line with station procedures before broadcast commences 2. Rectify simple technical faults and problems, referring those beyond one's own technical capability on to ***relevant personnel*** 3. Confirm in advance that all prerecorded material is ready for broadcast 4. Confirm that external sources required by the program are available from point of origin to studio panel desk 5. Check that arrangements for recording and linking live sources meet ***production*** requirements 6. Conduct sound check, and implement and document adjustments in line with station and ***production***

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

ELEMENT	PERFORMANCE CRITERIA
	requirements
Mix audio inputs on air	7. Mix ***audio inputs*** through the studio panel to produce required sound level and tonal balances 8. Execute sound cues according to production requirements 9. Cue and play ***presentation material*** according to program schedule 10. Brief and cue studio guests as required 11. Deal with operational problems of equipment promptly and effectively throughout on-air sessions 12. Follow technical operational instructions from relevant personnel during live talkback sessions as required 13. Complete broadcast on time and hand over to next panel operator as required
Complete operations after broadcast	14. Save relevant material for archiving and future use in line with station procedures 15. Ensure surplus material is dealt with in line with station procedures 16. Complete ***documentation*** required by the broadcasting station 17. Check and clean equipment and work environment in line with station procedures 18. Notify relevant personnel of equipment faults in line with station procedures 19. Seek feedback from relevant personnel on own performance as a panel operator and note areas for improvement

Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE
This section describes the skills and knowledge required for this unit.
Required skills
• teamwork skills sufficient to work cooperatively with others in a broadcasting environment • problem-solving skills sufficient to respond effectively to technical problems that arise in a live-to-air studio situation

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

REQUIRED SKILLS AND KNOWLEDGE

• initiative and enterprise skills in the context of managing a range of audio inputs smoothly and efficiently in a live broadcast situation
• self-management and planning skills sufficient to:
  • wrap up technical aspects of a live broadcast or recording session within the allocated time
  • prioritise work tasks
  • meet deadlines
  • seek expert assistance when problems arise
• literacy skills sufficient to read and complete routine workplace documentation
• numeracy skills sufficient to time presentation material to fit within the allocated program time
• aural-discrimination skills sufficient to ensure that audio levels are consistent throughout the program
• technical skills sufficient to:
  • operate a basic broadcast studio panel
  • rectify simple technical faults that occur in a broadcast studio environment

Required knowledge

• industry knowledge, including:
  • roles and responsibilities of personnel involved in the production process
  • issues and challenges that arise in the context of operating a studio panel live-to-air
  • radio conventions and terminology
• characteristics of sound in a broadcast studio environment
• basic understanding of the audio signal path from studio to listener
• issues and challenges that typically arise in the context of operating a studio panel in a live-to-air situation
• OHS requirements as they relate to the operations of a radio station, including safe noise levels

Evidence Guide

EVIDENCE GUIDE	
The Evidence Guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, range statement and the Assessment Guidelines for the Training Package.	
Overview of assessment	

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

EVIDENCE GUIDE	
Critical aspects for assessment and evidence required to demonstrate competency in this unit	Evidence of the ability to: • operate a basic broadcast studio panel on at least three occasions • operate the full range of audio inputs at the correct level in line with production requirements • integrate a number of different tasks simultaneously • interact effectively with presenters and studio guests • work cooperatively in a broadcast production environment.
Context of and specific resources for assessment	Assessment must ensure: • access to a basic broadcast studio • use of culturally appropriate processes, and techniques appropriate to the language and literacy capacity of learners and the work being performed.
Method of assessment	The following assessment methods are appropriate for this unit: • observation or video recording of the candidate operating a studio panel • evaluation of authenticated audio recordingsof broadcasts where the candidate was the panel operator • written or oral questioning to test industry knowledge and characteristics of sound in a broadcast environment.
Guidance information for assessment	Holistic assessment with other units relevant to the industry sector, workplace and job role is recommended, for example: • CUFIND201A Develop and apply creative arts industry knowledge • CUFIND301A Work effectively in the screen and media industries • CUSSOU201A Assist with sound recordings • CUSSOU302A Record and mix a basic music demo.

Range Statement

RANGE STATEMENT

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT	
The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording, if used in the performance criteria, is detailed below. Essential operating conditions that may be present with training and assessment (depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts) may also be included.	

Equipment may include:	• audio playback equipment
	• CD players
	• computer technology and associated software
	• headphones
	• microphones:
	  • condenser
	  • dynamic
	  • radio
	  • lavalier
	• off-air monitors
	• manual and automated studio panels
	• turntables
	• digital and analogue recording devices
	• sequence samplers.

Relevant personnel may include:	• producers • presenters • announcers • program managers • broadcasters • station managers • volunteer coordinators • volunteers • clients • sales representatives • performers • studio guests • other technical staff • other specialist staff.
Productions may include:	• documentaries • drama programs • commercials • print advertisements • sporting broadcasts

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT	
	• news and current affairs • music programs • talkback programs • live events and performances.
Production requirements may include:	• duration • style • content • budget • deadlines • timelines • location • audience • purpose • contractual • confidentiality • intellectual property • copyright • schedule • direct quotes • attributions • interviews in studio, telephone or prerecorded • technical • creative • OHS.
Audio inputs may include:	• live voice in studio • music • prerecorded material • cross to live broadcasts • telephone talkback.

Presentation material may include:	• music
	• prerecorded material, such as:
	  • interviews
	  • announcements
	  • sound grabs
	  • intros and outros.

Documentation may include:	• production schedules • log sheets • technical fault report sheets • Australasian Performing Rights Association

CUSSOU301A Provide sound reinforcement

Modification History

Not applicable.

Unit Descriptor

Unit descriptor	This unit describes the performance outcomes, skills and knowledge required to operate sound reinforcement systems for live performances. The emphasis is on front-of-house speaker systems. No licensing, legislative, regulatory or certification requirements apply to this unit at the time of endorsement.

Application of the Unit

Application of the unit	Sound reinforcement is about making live or prerecorded sounds louder and distributing the sound mix through a loudspeaker system to an audience. This work is undertaken by sound technicians who could be providing sound reinforcement for a range of productions in the live entertainment, events and broadcasting industries. Sound reinforcement systems can be as simple as a single microphone and PA system in a room to the very complex system required for live outdoor concerts with audiences in the tens of thousands. The latter situation requires a team of audio engineers and technicians. The work often involves long or irregular hours. The ability to work cooperatively as part of a production team is essential. Skills associated with setting up and testing audio equipment in venues are covered in:

	• CUSSOU303A Set up and disassemble audio equipment.

Licensing/Regulatory Information

Not applicable.

Pre-Requisites

Prerequisite units		

Employability Skills Information

Employability skills	This unit contains employability skills.

Elements and Performance Criteria Pre-Content

Elements describe the essential outcomes of a unit of competency.	Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the required skills and knowledge section and the range statement. Assessment of performance is to be consistent with the evidence guide.

Elements and Performance Criteria

ELEMENT	**PERFORMANCE CRITERIA**
Prepare for sound reinforcement operations	1. In consultation with ***relevant personnel*** confirm front-of-house sound reinforcement requirements, referring to ***production documentation*** as required 2. ***Check*** that ***equipment*** has been correctly installed and tested

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

ELEMENT	PERFORMANCE CRITERIA
	3. ***Prepare*** for playback of prerecorded material as required 4. Ensure that equipment anticipates the need for standby facilities 5. Adjust the sound system to take account of venue acoustics and do final sound check
Monitor sound reinforcement operations	6. Ensure that sound quality and balance meet artistic and technical requirements 7. Monitor sound levels to ensure they do not exceed safe noise levels 8. Promptly identify and rectify malfunctions with minimum disruption to sound quality 9. Communicate appropriately with relevant personnel throughout the production
Complete work operations	10. Complete required documentation in line with enterprise procedures 11. Assist with the disassembly of audio equipment as required 12. Seek feedback from relevant personnel on own work performance and note areas for improvement

Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE
This section describes the skills and knowledge required for this unit.
Required skills

• communication, literacy and teamwork skills sufficient to:
  • interpret and clarify written and verbal instructions
  • make verbal fault reports to appropriate personnel
  • interpret block diagrams of equipment and system set-ups
  • read and interpret sound documentation
  • read manufacturing specifications and installation manuals
  • work effectively in a team environment
• critical-listening and aural-discrimination skills when operating sound reinforcement systems in a range of venues
• initiative and enterprise skills in the context of dealing effectively with equipment malfunction in a live performance environment

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

REQUIRED SKILLS AND KNOWLEDGE

- technical skills sufficient to:
  - operate sound reinforcement systems
  - test sound equipment in line with industry standards
- planning skills sufficient to:
  - prioritise work tasks
  - meet deadlines
  - seek expert assistance when problems arise
- problem-solving skills sufficient to identify typical faults that may occur in sound reinforcement systems

Required knowledge

- basicaudio principles and practices, including:
  - range of microphones and contexts in which they are used
  - microphone characteristics, e.g. frequency response, sensitivity and polar patterns
  - effect of microphone placement on quality of sound
  - characteristics of sound in a range of environments
  - signal-to-noise ratio, signal phase and audio level/headroom control
  - audible defects in analogue and digital technologies
  - features of mixers, amplifiers, speakers and effects racks
- basic principles of acoustics, including:
  - frequency
  - pitch
  - amplitude
  - loudness
  - velocity
  - wavelength
  - delay
  - sound absorption
  - timbre
  - sound envelope
- basic understanding of psychoacoustic principles, including:
  - spatial hearing
  - direct sound
  - early sound
  - reverberant sound
  - room design
- techniques for aligning and testing audio equipment, including:
  - understanding electrical power (voltage, distribution, phasing, load and circuit

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

REQUIRED SKILLS AND KNOWLEDGE
breaking) • knowledge of a range of sound equipment and associated operating principles (level, impedance, phase and frequency) • testing and tagging electrical fittings in accordance with safety regulations • issues and challenges that typically arise in the context of providing sound reinforcement • OHS requirements, including: • licensing requirements for persons performing high risk work • safe manual-handling techniques • working safely with electricity and hazardous substances • principles of safe listening, such as safeguards against hearing loss

Evidence Guide

EVIDENCE GUIDE	
The Evidence Guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, range statement and the Assessment Guidelines for the Training Package.	
Overview of assessment	
Critical aspects for assessment and evidence required to demonstrate competency in this unit	Evidence of the ability to: • provide a live sound mix for performances on at least three occasions that demonstrates an understanding of room acoustics and the principles of sound reinforcement • test equipment in line with production requirements • work cooperatively in a team environment • apply OHS procedures, particularly in relation to safe noise levels.
Context of and specific resources for assessment	Assessment must ensure: • access to a range of industry-current equipment as listed in the range statement • access to venues in which to install audio equipment • use of culturally appropriate processes, and techniques appropriate to the language and literacy capacity of learners and the work being performed.
Method of assessment	The following assessment methods are appropriate for

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

EVIDENCE GUIDE	
	this unit: • case studies and questioning to assess candidate's understanding of OHS requirements • observation and/or video recordings of the candidate testing and operating sound reinforcement systems • written or oral questioning to test knowledge as listed in the required knowledge section of this unit.
Guidance information for assessment	Holistic assessment with other units relevant to the industry sector, workplace and job role is recommended, for example: • CUESOU04C Mix live audio • CUESOU11B Set up and operate stage monitor systems • CUSOHS301A Follow occupational health and safety procedures • CUSSOU303A Set up and disassemble audio equipment.

Range Statement

RANGE STATEMENT	
The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording, if used in the performance criteria, is detailed below. Essential operating conditions that may be present with training and assessment (depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts) may also be included.	
Relevant personnel may include:	• artists, musicians and performers • sound engineers and technicians • broadcasters • clients • directors • producers • program managers • venue managers • stage managers • sound designers • video and sound recorders.

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT	
Productions may include:	• live music or theatre performance • commercial • print advertisement • corporate video • feature film and/or video • filmed event and/or performance • interactive media product • internet production • electronic game production • radio broadcast • television program.
Documentation may include:	• house plans • sound plans • line diagrams • installation schedules • artistic requirements • scripts • musical scores • dubbing sheets • technical/equipment manuals • enterprise operating procedures and standards • stage plans • sound plots • design, director's and sound specifications • production and venue requirements • production schedules • OHS requirements and instructions • manufacturer specifications • performers' requirements • fault report sheets.

Checking may involve ensuring that:	• amplification equipment has been connected in the correct order
	• loudspeakers are positioned to:
	  • produce optimum quality
	  • avoid feedback and other extraneous noise
	• cables are:
	  • routed and secured safely
	  • visually unobtrusive
	• leads and associated electricals are patched into the correct input and output sockets

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT	
	• adequate resources are available in the event of equipment breakdown.
Equipment may include:	• multi-range speaker systems • amplifiers • playback equipment • cables • headphones • microphones and accessories • mixing consoles and desks • monitors and speakers • signal processors and plug-ins • effects rack • turntables.
Preparation for playback of prerecorded material may involve:	• ensuring that playback machines are correctly referenced and synchronisation protocols are compatible • ensuring that technical and artistic requirements are met • checking sound levels with relevant personnel • ensuring that loudspeakers are close enough to relevant personnel to avoid coloration and time delay.

CUSSOU302A Record and mix a basic music demo

Modification History

Not applicable.

Unit Descriptor

Unit descriptor	This unit describes the performance outcomes, skills and knowledge required to undertake the technical side of making a basic music demo. There are two stages to the process - making a multi-track recording of the music performance and then mixing the recording down to a stereo format. An ability to work collaboratively with musicians is essential, together with an ability to troubleshoot equipment problems. No licensing, legislative, regulatory or certification requirements apply to this unit at the time of endorsement.

Application of the Unit

Application of the unit	The skills and knowledge described in this unit would typically be applied in a home-based studio equipped with a digital audio workstation (DAW). The unit complements CUSMPF304A Make a music demo, which covers the process of making a demo from the perspective of performers. More complex skills associated with mixing music are covered in: • CUSSOU405A Mix recorded music.

Licensing/Regulatory Information

Not applicable.

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

Pre-Requisites

Prerequisite units		

Employability Skills Information

Employability skills	This unit contains employability skills.

Elements and Performance Criteria Pre-Content

Elements describe the essential outcomes of a unit of competency.	Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the required skills and knowledge section and the range statement. Assessment of performance is to be consistent with the evidence guide.

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
Clarify music demo requirements	1. In consultation with ***relevant personnel*** confirm the ***purpose*** of the demo 2. Contribute to the development of a recording plan that takes into account a range of ***factors*** as required 3. Agree on ***method*** and ***format*** for final recording
Record performers	4. Position performers, musical instruments and equipment for optimum sound quality 5. Check that ***equipment*** is installed and aligned correctly 6. Ensure that microphones are operational at all times 7. Route test signals to the correct signal path and check that level of test signal is correct 8. Create a headphone mix for musicians 9. Capture sound sources according to the agreed method
Mix sound sources	10. Use appropriate panel controls to mix and balance sound

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

ELEMENT	PERFORMANCE CRITERIA
	sources to achieve required artistic effects 11. Produce transitions between sounds that are technically accurate and produce the required effect 12. Apply ***sonic effects*** and ***signal processing*** as required 13. Ensure that monitoring levels meet current safety standards 14. Ensure that the level of the composite signal is within technical limits and desired dynamic range
Finalise music demo	15. Assess the mix on speakers appropriate to the particular end use 16. Assess each track for correctness and quality and evaluate the mix in terms of meeting demo requirements 17. Listen to final mix with relevant personnel and agree on changes required to improve the quality of the mix 18. Incorporate final adjustments to the sound mix as required 19. Produce a master in the agreed format and make a backup 20. Keep ***documentation*** as required 21. Clean ***work environment*** after use and restore to pre-use condition

Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This section describes the skills and knowledge required for this unit.

Required skills

- critical-listening and aural-discrimination skills
- literacy skills sufficient to:
  - log and label tracks
  - note and report faults and problems
  - read and understand mixing documentation
- numeracy skills sufficient to calculate duration of tracks
- communication and teamwork skills sufficient to:
  - liaise with sound-production personnel and performers
  - understand and follow instructions
- planning and organisational skills sufficient to:

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

REQUIRED SKILLS AND KNOWLEDGE

- prioritise work tasks
- meet deadlines
- seek expert assistance when problems arise
- problem-solving skills sufficient to identify faults that may occur in audio-production environments and refer problems to relevant personnel
- learning skills in the context of acting on constructive feedback about own work performance
- technology skills sufficient to operate:
  - a variety of mixing consoles
  - signal-processing and effects devices

Required knowledge

- basicaudio principles and practice, including:
  - range of microphones and contexts in which they are used
  - microphone characteristics, e.g. frequency response, sensitivity and polar patterns
  - effect of microphone placement on quality of sound
  - characteristics of sound in a range of environments
  - signal-to-noise ratio, signal phase and audio level/headroom control
  - audible defects in analogue and digital technologies
  - features of mixers, amplifiers, speakers and effects racks
  - signal distortion
- basic principles of acoustics, including:
  - frequency
  - pitch
  - amplitude
  - loudness
  - velocity
  - wavelength
  - acoustical phase
  - timbre
  - sound envelope
- basic understanding of psychoacoustic principles, including:
  - spatial hearing
  - direct sound
  - early sound
  - reverberant sound
  - room design
- characteristics of musical instruments in the context of recording and mixing

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

REQUIRED SKILLS AND KNOWLEDGE

• techniques for manipulating input signals and gaining structure through use of:
  • equalisers
  • filters
  • compressors/expanders
  • faders and auxiliaries
  • effects devices
• issues and challenges that typically arise in the context of recording and mixing a basic music demo
• OHS requirements, including:
  • safe manual-handling techniques
  • working safely with electricity and hazardous substances
  • principles of safe listening, such as safeguards against hearing loss

Evidence Guide

EVIDENCE GUIDE	
The Evidence Guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, range statement and the Assessment Guidelines for the Training Package.	
Overview of assessment	
Critical aspects for assessment and evidence required to demonstrate competency in this unit	Evidence of the ability to: • record and mix at least two basic music demos • work cooperatively with performers to achieve the required effect.
Context of and specific resources for assessment	Assessment must ensure: • access to performers requiring a basic music demo • access to industry-current sound mixing equipment • use of culturally appropriate processes, and techniques appropriate to the language and literacy capacity of learners and the work being performed.
Method of assessment	The following assessment methods are appropriate for this unit: • observation or video recording of the candidate during recording and mixing sessions • evaluation of authenticated audio recordings where the candidate was responsible for recording and

EVIDENCE GUIDE	
	mixing music • written or oral questioning to test industry knowledge as listed in the required knowledge section of this unit.
Guidance information for assessment	Holistic assessment with other units relevant to the industry sector, workplace and job role is recommended, for example: • CUFSOU204A Perform basic sound editing • CUSSOU201A Assist with sound recordings • CUSSOU303A Set up and disassemble audio equipment.

Range Statement

RANGE STATEMENT	
The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording, if used in the performance criteria, is detailed below. Essential operating conditions that may be present with training and assessment (depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts) may also be included.	
Relevant personnel may include:	• artists, musicians and performers • audio and sound engineers • broadcasters • producers • post-production personnel • program managers • camera operators.
Purpose may include:	• pitching a product at record labels • pursuing work at live music venues • getting work via live music or advertising agencies • getting air play on media outlets • accompanying a funding application • uploading onto music and/or social networking websites • developing media for band or solo artist websites

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT	
	• supporting applications for study and/or remote auditions • expanding a music portfolio • documenting a music project or other creative body of work.

Factors may include:	• musical style
	• contractual arrangements
	• copyright
	• budget
	• timelines
	• availability of personnel, including:
	  • musicians
	  • sound recordists
	  • sound mixers
	  • post-production personnel
	• promotional materials
	• distribution strategies
	• recording location, including:
	  • live music venue
	  • recording studio
	  • private residence
	• rehearsal requirements
	• number of recording sessions required
	• equipment requirements
	• hire of equipment or venue
	• instruments
	• props
	• costumes
	• make-up.

Method may include:	• live to two-track stereo • live multi-tracking • multi-tracking with click • combination live recording and prerecorded samples • recording to analogue tape • recording to hard disk or digital tape • remixing existing music • video • using music production software for mixing and mastering.

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT	

Format may include:	• compact disc (CD)
	• audio file formats for upload and distribution within virtual environments and/or onto relevant media players, such as:
	  • MP3
	  • WAV
	  • AIFF
	• audiotape
	• video:
	  • digital (high resolution)
	  • digital (compressed for online environment)
	  • analogue.

Equipment may include:	• digital audio workstation (DAW) with software, such as:
	  • Pro Tools
	  • Logic
	  • Cubase
	  • Ableton Live
	  • Reason
	  • Nuendo
	  • Garage Band
	  • Digital Performer
	  • Soundscape
	  • Sonic Studio
	• hard disk recorders
	• multi-track recorder
	• stereo recorders
	• microphones, such as:
	  • dynamic
	  • condenser
	  • lavalier
	  • shotgun
	  • directional
	  • radio
	• microphone stands
	• microphone accessories
	• microphone windscreens
	• headphones

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT	

	• amplifiers
	• speakers
	• mixing console/desk, including:
	  • analogue
	  • digital
	  • digitally controlled analogue (hybrid)
	• effects rack
	• sequence sampler
	• cables and connectors.

Sonic effects may include:	• change in pitch • change in speed • echo • pan • fade in and fade out • filter • invert • normalise • repeat • reverb • modulation • wahwah.
Signal processing may include:	• amplification • compression • noise processing • spectrum signal processing • equalisation • time signal processing.
Documentation may include:	• pre-mix scripts • mixing sheets • track sheets • cue sheets • dubbing sheets • queries • notes • manuals.
Work environment may include:	• dubbing theatre • outside broadcast • post-production studio • recording studio

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT	
	• sound stage • home studio.

CUSSOU303A Set up and disassemble audio equipment

Modification History

Not applicable.

Unit Descriptor

Unit descriptor	This unit describes the performance outcomes, skills and knowledge required to install and disassemble sound equipment in a range of facilities. The National Standard for Licensing Persons Performing High Risk Work applies to persons performing dogging and rigging work. Completion of the following units is required for certification at either basic, intermediate or advanced levels. CPCCLDG3001A Licence to perform dogging CPCCLRG3001A Licence to perform rigging basic level CPCCLRG3002A Licence to perform rigging intermediate level CPCCLRG4001A Licence to perform rigging advanced level. Sets and staging for some performances or events may fall within the definition of construction work. If so, people entering a construction site are required to complete the general induction training program specified by the National Code of Practice for Induction Training for Construction Work (Australian Safety Compensation Council, May 2007). Achievement of the unit CPCCOHS1001A Work safely in the construction industry fulfils this requirement.

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

Application of the Unit

Application of the unit	People working as audio stagehands and sound technicians apply the skills and knowledge described in this unit. They are responsible for setting up, testing and disassembling audio equipment, such as microphones, sound systems and mixing consoles for a range of productions in the live entertainment, events and broadcasting industries. The work often involves long or irregular hours and can be physically demanding. The ability to work cooperatively as part of a production team is essential. Skills associated with operating audio equipment are covered in: • CUSSOU302A Record and mix a basic music demo.

Licensing/Regulatory Information

Not applicable.

Pre-Requisites

Prerequisite units	

Employability Skills Information

Employability skills	This unit contains employability skills.

Elements and Performance Criteria Pre-Content

Elements describe the essential outcomes of a unit of competency.	Performance criteria describe the performance needed to demonstrate achievement of the element. 	with the evidence guide.

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
Prepare for installation of audio equipment	1. In consultation with ***relevant personnel*** confirm ***sound equipment*** requirements, referring to ***production documentation*** as required 2. Together with relevant personnel, assess the acoustic properties of ***installation area*** to ensure that equipment and accessories are appropriate 3. Calculate power requirements and identify power locations and patching requirements 4. Communicate special requirements to relevant personnel so that they can be organised in a timely fashion
Install audio equipment	5. Safely and neatly secure and label cabling so that it is clear of moving elements 6. Set up power distribution 7. ***Position microphones***, mountings, ***microphone accessories*** and cabling 8. As required, ensure that lapel microphones fitted to personnel meet ***technical performance standards*** 9. Provide phantom power at microphone inputs as required 10. Perform all installation work with due regard to ***mechanical*** and ***electrical safety considerations*** 11. Connect effects rack to mixer as required
Align audio equipment	12. Match interfaces between source and destination according to level, impedance, phase and frequency 13. Route test signals to the correct signal path 14. Check that the level of test signal is correct for ***production requirements*** 15. Check systems for potential feedback frequency problems and make adjustments as required
Test audio equipment	16. Check all microphone lines for continuity and patching 17. Test microphones to ensure that they are functioning correctly to produce the required sound 18. Fit microphones to relevant personnel to perform ***sound cues*** as required 19. Patch, test and tune sound system to suit facility

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

ELEMENT	PERFORMANCE CRITERIA
	20. Conduct sound check and document adjustments according to organisational procedures 21. Inform relevant personnel of problems that arise during testing so that they can be rectified in a timely fashion
Disassemble audio equipment	22. Disassemble equipment safely, giving due consideration to other production requirements 23. Ensure that all equipment and accessories are packed and stored according to safety regulations and production requirements 24. Check hired equipment against inventory before packing and report lost or damaged equipment to the appropriate personnel 25. ***Pack*** sound equipment for transit as required 26. Clean ***work environment*** after use and restore environment to previous condition 27. Seek feedback from relevant personnel on own work performance and note areas for improvement

Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This section describes the skills and knowledge required for this unit.

Required skills

- communication, literacy and teamwork skills sufficient to:
  - interpret and clarify written and verbal instructions
  - make verbal fault reports to appropriate personnel
  - interpret block diagrams of equipment and system set-ups
  - read and interpret sound documentation
  - read manufacturing specifications and installation manuals
  - work effectively in a team environment
- initiative and enterprise skills in the context of applying critical-listening and aural-discrimination skills when setting up audio equipment
- numeracy skills sufficient to calculate duration and capacity of recording media
- technical skills sufficient to:
  - set up and disassemble audio equipment for playback, mixing and recording in line with manufacturer's manuals and OHS specifications
  - run and patch cables neatly and safely

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

REQUIRED SKILLS AND KNOWLEDGE

- test sound equipment in line with industry standards
- planning and self-management skills sufficient to:
  - prioritise work tasks
  - meet deadlines
  - seek expert assistance when problems arise
- problem-solving skills sufficient to identify typical faults that may occur in audio-production environments

Required knowledge

- basicaudio principles and practice, including:
  - range of microphones and contexts in which they are used
  - microphone characteristics, e.g. frequency response, sensitivity and polar patterns
  - effect of microphone placement on quality of sound
  - characteristics of sound in a range of environments
  - signal-to-noise ratio, signal phase and audio level/headroom control
  - audible defects in analogue and digital technologies
  - features of mixers, amplifiers, speakers and effects racks
- basic principles of acoustics, including:
  - frequency
  - pitch
  - amplitude
  - loudness
  - velocity
  - wavelength
  - acoustical phase
  - timbre
  - sound envelope
- basic understanding of psychoacoustic principles, including:
  - spatial hearing
  - direct sound
  - early sound
  - reverberant sound
  - room design
- techniques for installing, aligning and testing audio equipment, including:
  - understanding electrical power (e.g. voltage, distribution, phasing, load and circuit breaking)
  - knowledge of a range of sound equipment and associated operating principles (e.g. level, impedance, phase and frequency)

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

REQUIRED SKILLS AND KNOWLEDGE

• testing and tagging all electrical fittings in accordance with safety regulations
• issues and challenges that typically arise in the context of setting up and disassembling audio equipment
• OHS requirements, including:
  • licensing requirements for persons performing high risk work and entering building sites
  • safe manual-handling techniques
  • working safely with electricity and hazardous substances
  • principles of safe listening, such as safeguards against hearing loss

Evidence Guide

RANGE STATEMENT	
	• corporate video • feature film and/or video • filmed event and/or performance • interactive media product • internet production • electronic game production • music recording and/or video • promotional trailer • radio broadcast • television program • voice-over.
Documentation may include:	• house plans • sound plans • line diagrams • installation schedules • artistic requirements • scripts • musical scores • dubbing sheets • technical/equipment manuals • enterprise operating procedures and standards • stage plans • sound plots • design, director's and sound specifications • production and venue requirements • production schedules • OHS requirements and instructions • manufacturer specifications • performers' requirements • fault report sheets.
Installation area may include:	• stage • venues • auditorium • hotels • clubs • front of house.
Positioning microphones includes taking account of factors, such as:	• ensuring that safety procedures are followed • organisational requirements • production requirements • ensuring optimum sound quality

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT	
	• ensuring that cabling is mechanically sound and does not transmit vibration to microphones.

Microphones may include:	• boundary (PZM)
	• capacitor/condenser, such as:
	  • electret
	  • lavalier
	  • mini microphone
	  • transistor
	  • tube
	• contact
	• digital
	• directional, such as:
	  • single entry port
	  • multiple entry port
	  • multi/poly-directional
	• dual-element
	• dynamic, such as:
	  • moving coil
	  • ribbon
	• headset
	• lapel
	• low and/or high impedance
	• microphone systems, such as:
	  • adaptive array
	  • binaural
	  • high definition
	  • parabolic
	  • surround sound
	  • wireless
	  • cordless
	  • FM
	  • radio transmitter
	• noise cancelling
	• shotgun.

Microphone accessories may include:	• boom poles, including:
	  • aluminium
	  • carbon fibre

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT	
	• fisher • hand-held • perambulator • remote panner • tripod • cables, including: • balanced • unbalanced • clips • connectors, including: • female • male • XLR • housing • pop filters • shock mounts • stands, including: • desk • floor • gooseneck • windscreens.
Technical performance standards for lapel microphones may include:	• ensuring that safety procedures are followed • positioning and connecting aerial optimised pick-up • choosing a transmitter frequency that minimises interference with nearby channels in the frequency band • ensuring that transmitters have appropriate sensitivity • rigging microphone within relevant constraints • ensuring that connection of aerial and related cabling is secure • ensuring that transmitter-receiver location is unobtrusive and comfortable for relevant personnel • ensuring that transmitter-receiver location produces optimum output • ensuring that interaction with relevant personnel is discreet, tactful and causes minimum disruption

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT	
	• ensuring that items that may negatively affect transmission are not present on relevant personnel.
Mechanical safety considerations may include:	• observing OHS requirements when installing and checking equipment • checking that the position of microphones, mountings and other recording equipment is safe • using safety chains • laying cabling to avoid potential mechanical danger and to ensure safety.
Electrical safety considerations must include:	• following OHS procedures when setting up and checking electrical equipment • checking that mains or generator supply is sufficient for maximum load requirements • ensuring that cables used are correctly rated, including three-phase cable to dimmers • laying cabling so that it does not obstruct the free movement of other equipment or endanger personnel • ensuring that maintenance of cabling and connectors meets OHS requirements • ensuring that all components of sound equipment are connected to the correct voltage supply • ensuring that distribution of electrical loading is within working limits • ensuring that all electrical fittings are tested and tagged in accordance with safety regulations.
Production requirements may include:	• purpose and style of production • sound specifications • venue or location requirements • production schedule • organisational policies and procedures • legislative and/or organisational OHS requirements • manufacturer specifications • performers' requirements • resource constraints • length of the run of the production • attributions

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT	
	• audience • budget • confidentiality • content • contractual arrangements • copyright • deadlines • direct quotes • intellectual property • interviews.
Sound cues may be required for:	• audience PA • effects • foldback to stage.
Packing sound equipment may involve:	• ensuring that containers are suitable for the storage and carriage of the equipment in a safe and secure manner • ensuring that packing of hazardous items complies with current regulations • labelling containers accurately and clearly • checking containers for durability • ensuring documentation for packed equipment is accurate and legible • adhering to strict forward production timelines.
Work environment may include:	• dubbing suite • on location, including interior and exterior • outside broadcast • post-production studio • recording studio • sound stage.

CUSSOU304A Restore audio tracks

Modification History

Not applicable.

Unit Descriptor

Unit descriptor	This unit describes the performance outcomes, skills and knowledge required to perform restoration work on recorded audio and soundtracks. No licensing, legislative, regulatory or certification requirements apply to this unit at the time of endorsement.

Application of the Unit

Application of the unit	Sound technicians in the film, television, radio and audio post-production and archival industries apply the skills and knowledge described in this unit. They are responsible for restoring audio tracks to as close to the original recording as possible, taking into account the final application and client requirements. They are usually working with analogue recordings, but the restoration process can also be applied to early digital formats, such as digital audiotapes and compact discs. This work is undertaken with some supervision and guidance.

Licensing/Regulatory Information

Not applicable.

Pre-Requisites

Prerequisite units		

Employability Skills Information

Employability skills	This unit contains employability skills.

Elements and Performance Criteria Pre-Content

Elements describe the essential outcomes of a unit of competency.	Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the required skills and knowledge section and the range statement. Assessment of performance is to be consistent with the evidence guide.

Elements and Performance Criteria

ELEMENT	**PERFORMANCE CRITERIA**
Clarify scope of restoration project	1. In consultation with ***relevant personnel*** confirm restoration ***requirements*** 2. Ensure that ***documentation*** relevant to the project is available 3. Where ***source materials*** are not supplied, liaise with relevant personnel to locate the most original, best quality recording to be restored 4. Evaluate all recordings to be restored for auditioning purposes and technical selection as required
Prepare source material for digital transfer	5. If required, physically ***repair and clean*** source material in preparation for playback, taking great care not to damage the source material 6. Select the most appropriate playback machine, taking into account the fragility of source material and the

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

ELEMENT	PERFORMANCE CRITERIA
	ability of the playback machine to provide the most authentic playback 7. Set up playback paths and recording settings to ensure a flat, transparent, and where possible uncompressed file 8. Set audio levels in line with technical parameters
Make digital recording of source material	9. Record source material to defined quality standards 10. Monitor the recording, and document or mark sections that display recorded ***artefacts*** or damage 11. As required, ***record from more than one source***
Apply restoration techniques to audio tracks	12. Select the most appropriate restoration ***equipment and tools*** for the job 13. Commence restoration by applying ***manual restoration techniques*** to the most audible artefacts first, then moving onto less noticeable faults 14. Following manual restoration, apply ***automated restoration processes*** as required 15. Seek feedback on work in progress from relevant personnel and make adjustments
Make a copy of restored audio tracks	16. Apply ***appropriate processes*** to play-out and take into account the end use when creating required delivery ***format*** 17. Deliver master in the required format to relevant personnel in line with project requirements 18. Complete required documentation in line with enterprise procedures

Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE
This section describes the skills and knowledge required for this unit.
Required skills

• communication, teamwork and literacy skills sufficient to:
  • interpret and clarify written and verbal instructions
  • complete workplace documentation
  • read and interpret technical manuals
  • respond positively to constructive feedback on own performance
• critical-listening and aural-discrimination skills in the context of restoring audio

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

REQUIRED SKILLS AND KNOWLEDGE

tracks
• technical skills sufficient to:
  • use specialised equipment to perform audio restoration work
  • operate other studio equipment for playback and recording
• planning and self-management skills sufficient to:
  • prioritise work tasks
  • meet deadlines
  • seek expert assistance when problems arise
• problem-solving skills sufficient to identify typical faults that may occur in audio-production environments

Required knowledge

• acoustic principles related to noise and distortion on audio tracks
• aesthetics of sound production
• operation of current and obsolete audiovisual equipment
• appropriate handling and storage of fragile and archival material
• preservation methods for preparation of source materials
• restoration principles, tools and technique to apply to different artefacts
• techniques and principles for removing or masking audio artefacts, including:
  • features and operating characteristics of restoration tools
  • compatibility with mono, stereo or multi-channel systems
  • use of timecode equipment
  • format encoders and decoders
• principles of media archiving
• issues and challenges that arise in the context of working with soundtracks
• OHS principles of safe listening, including safeguards against hearing loss

Evidence Guide

EVIDENCE GUIDE	
The Evidence Guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, range statement and the Assessment Guidelines for the Training Package.	
Overview of assessment	
Critical aspects for assessment and evidence required to demonstrate	Evidence of the ability to: • distinguish between the original sound and unwanted

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

EVIDENCE GUIDE	
competency in this unit	artefacts • use appropriate equipment to restore soundtracks to as close to the original recording within guidelines and available resources • apply correct post-production processes prescribed for the designated outcome when making a copy of the restored soundtrack • meet production deadlines.
Context of and specific resources for assessment	Assessment must ensure: • access to a range of current and obsolete industry equipment • use of culturally appropriate processes, and techniques appropriate to the language and literacy capacity of learners and the work being performed.
Method of assessment	The following assessment methods are appropriate for this unit: • case studies, and written or oral questioning to assess candidate's understanding of white noise and the process of de-noising soundtracks • recordings of original soundtracks and authenticated de-noised versions done by the candidate.
Guidance information for assessment	Holistic assessment with other units relevant to the industry sector, workplace and job role is recommended, for example: • CUFIND301A Work effectively in the screen and media industries • CUFSOU301A Prepare audio assets • CUSSOU305A Analyse soundtracks.

Range Statement

RANGE STATEMENT
The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording, if used in the performance criteria, is detailed below. Essential operating conditions that may be present with training and assessment (depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts) may also be included.

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT	
Relevant personnel may include:	• client • production designer • post-production manager • production manager • preservation supervisor • supervisor • head of department • director of photography • artist • director • producer • technical director • other technical staff • other specialist staff • designer • animation production personnel • sound recordist • sound editor • sound-editing personnel.
Requirements may include:	• artistic • technical, e.g. final format for master • budget • production schedules • organisational policies and procedures • resources • OHS requirements • audience • confidentiality • content • contractual arrangements • copyright • duration • intellectual property • purpose • style.
Documentation may include:	• pre-mix scripts • mixing sheets • track sheets • de-noising documents • cue sheets

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT	
	• edit decision lists (EDL) • dubbing sheets • queries • notes • manuals • databases • fault reports.

Source materials may include:	• film and television soundtracks, including:
	  • music
	  • dialogue
	  • sound effects
	• oral histories
	• location recordings
	• optical soundtracks
	• analogue audio recordings in different formats, such as:
	  • tape, e.g. open reel and cassette
	  • wire recording
	  • cylinder
	  • vinyl disc
	  • lacquer disc
	  • film mag
	• digital recordings in different formats, such as:
	  • digital audiotape
	  • CD.

Repairing and cleaning source material may involve:	• replacing dry or sticky film splices • attaching leader to film • removing adhesive left behind by sticky splices • repairing broken or damaged perforations on film • sonic cleaning film • manually cleaning film • baking magnetic oxide tape • using hot-pen on audiotape • scraping to remove oxide or other matter from oxide tape • manually cleaning oxide tape • removing mould by vacuum or alcohol swab

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT	
	• re-housing tapes if cassette damaged • cleaning discs • cleaning vinyl discs • cleaning and repairing cylinders • affixing lacquer fragments that are loose or separated from backing disc to lacquer discs • correcting warp in vinyl discs • detangling wire recordings • joining broken wire recordings.
Artefacts may include:	• white noise • hiss • clicks • pops • crackle • sibilance • hum.
Recording from more than one source may be required if:	• sections are missing from the original version • sections are heavily damaged • corresponding sections are available from another source and can be edited during the restoration process.
Equipment and tools may include:	• noise reduction systems • mono, stereo or multi-channel systems • timecode equipment • format encoders and decoders • audio editing systems • sound mixing desks • multi-track equipment • software packages • hard drives • analogue and digital playback equipment • restoration tools.
Manual restoration techniques may include:	• editing out artefacts • editing in missing sections from another source • waveform restoration.
Automated restoration processes may include:	• high and low pass filters • de-noise • de-click • de-scratch

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT	
	• de-crackle • de-hiss • repair filter • pitch correction • noise reduction.
Appropriate processes may include:	• expander • limiter • compressor • compander • playback curve.

Formats may include:	• digital file:
	  • AIF (AIFF)
	  • WAV
	  • broadcast WAV format (BWF)
	  • WMA
	  • OGG
	  • advanced audio coding (AAC)
	  • Real Audio
	  • QuickTime
	  • MP3
	• digital storage:
	  • CD
	  • DVD
	  • USB
	  • hard drive
	  • linear tape-open (LTO)
	• analogue:
	  • film.

CUSSOU305A Analyse soundtracks

Modification History

Not applicable.

Unit Descriptor

Unit descriptor	This unit describes the performance outcomes, skills and knowledge required to analyse music and voice soundtracks. No licensing, legislative, regulatory or certification requirements apply to this unit at the time of endorsement.

Application of the Unit

Application of the unit	Film sound technicians apply the skills and knowledge described in this unit. They are responsible for synchronising soundtracks to pictures, auditioning material and selecting tracks that best meet technical and creative requirements. They work with sound recorded both digitally and in analogue formats. Their analysis of soundtracks is used by film editors as they edit or animate films. People responsible for dubbing films into different languages and those working in film and sound archives also apply these skills on a regular basis. This work is undertaken with some supervision and guidance.

Licensing/Regulatory Information

Not applicable.

Pre-Requisites

Prerequisite units		

Employability Skills Information

Employability skills	This unit contains employability skills.

Elements and Performance Criteria Pre-Content

Elements describe the essential outcomes of a unit of competency.	Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the required skills and knowledge section and the range statement. Assessment of performance is to be consistent with the evidence guide.

Elements and Performance Criteria

ELEMENT	**PERFORMANCE CRITERIA**
Complete analysis of soundtrack elements	1. Select appropriate ***equipment*** to perform break-down of approved soundtracks 2. Break down soundtracks ensuring that ***analysis*** of required elements is accurate 3. ***Store*** break-down safely and securely and ensure that it can be accessed as required 4. Report problems with soundtracks to ***relevant personnel***
Document and complete soundtrack analysis	5. Document soundtrack break-down clearly and legibly in the required ***format*** 6. Ensure that all information from relevant ***sources*** is included in documentation 7. Supply break-down to relevant personnel in line with agreed deadlines and ***production*** requirements

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

ELEMENT	PERFORMANCE CRITERIA
	8. Seek feedback on quality of own work and note areas for improvement

Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE
This section describes the skills and knowledge required for this unit.
Required skills

• communication, literacy and teamwork skills sufficient to:
  • interpret scripts, specifications and instructions
  • record and report issues with the quality of soundtracks
  • document soundtrack break-downs
  • work cooperatively in a team environment
  • respond positively to constructive feedback on quality of own work
• technical skills sufficient to:
  • listen to speech and break it down into phonetic sounds
  • listen to music and break it down into beats
  • use a synchroniser and/or digital equipment to breakdown soundtracks
• planning skills sufficient to:
  • prioritise work tasks
  • meet deadlines
  • seek expert assistance when problems arise

Required knowledge

• principles and techniques associated with breaking down soundtracks, including:
  • understanding how soundtracks fit intocreative concepts
  • basic understanding of film, television and animation production processes
• issues and challenges that arise in the context of working with soundtracks
• OHS procedures and practices in the context of working with audio equipment

Evidence Guide

EVIDENCE GUIDE
The Evidence Guide provides advice on assessment and must be read in conjunction with the

EVIDENCE GUIDE	
performance criteria, required skills and knowledge, range statement and the Assessment Guidelines for the Training Package.	
Overview of assessment	
Critical aspects for assessment and evidence required to demonstrate competency in this unit	Evidence of the ability to: • analyse music and voice soundtracks in line with production requirements on at least three occasions • document soundtrack break-downs in the required format • work cooperatively in a production environment.
Context of and specific resources for assessment	Assessment must ensure: • access to a range of industry-current equipment as listed in the range statement • use of culturally appropriate processes, and techniques appropriate to the language and literacy capacity of learners and the work being performed.
Method of assessment	The following assessment methods are appropriate for this unit: • case studies, and written or oral questioning to assess candidate's understanding of the process of analysing and documenting soundtracks for film and television productions • authenticated examples of soundtrack documentation prepared by the candidate • observation of the candidate breaking down and analysing soundtracks.
Guidance information for assessment	Holistic assessment with other units relevant to the industry sector, workplace and job role is recommended, for example: • CUFIND301A Work effectively in the screen and media industries • CUFSOU204A Perform basic sound editing • CUFSOU301A Prepare audio assets • CUSSOU304A Restore audio tracks.

Range Statement

RANGE STATEMENT

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT	
The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording, if used in the performance criteria, is detailed below. Essential operating conditions that may be present with training and assessment (depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts) may also be included.	
Equipment may include:	• synchroniser • analogue or digital playback equipment.
Analysis may be for:	• music tracks • phonetic analysis of voice or dialogue tracks.
Storing may involve:	• digital backups • ensuring that physical tape is kept clean and stored appropriately.
Relevant personnel may include:	• production designer • post-production manager • production manager • preservation supervisor • supervisor • head of department • director of photography • artist • director • producer • technical director • other technical staff • other specialist staff • designer • animation production personnel • sound recordist • sound editor • sound-editing personnel.

Formats may include:	• computer-generated or manual, such as:
	  • dope sheets
	  • bar sheets
	  • file notes
	• phonetic code.

Sources may include:	• storyboards • layout drawings • director's instructions

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT	
	• camera sheets • scripts • scores • technical notes • clapper boards • tape identifications • database • metadata.
Productions may include:	• feature films • short films • animation • commercials • music videos • television productions • web-based content.

CUSSOU401A Record sound

Modification History

Not applicable.

Unit Descriptor

Unit descriptor	This unit describes the performance outcomes, skills and knowledge required to record sound, including the supervision of sound-recording operations. No licensing, legislative, regulatory or certification requirements apply to this unit at the time of endorsement.

Application of the Unit

Application of the unit	Supervising sound technicians apply the skills and knowledge described in this unit. They could be working in a variety of creative arts industry sectors, including live performances, music recording studios, online environments, radio outside broadcasts, and film and sound archives. Typically they are responsible for ensuring that required equipment is available and in working order, troubleshooting recording problems, recording sound, and supervising assistants engaged for recording sessions. They are expected to work closely with other production team members, e.g. producers, directors, broadcast engineers and lighting crew. This work is undertaken with limited or no supervision or guidance. Skills associated with recording sound for screen productions are covered in: • CUSSOU406A Record sound on location.

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

Licensing/Regulatory Information

Not applicable.

Pre-Requisites

Prerequisite units		

Employability Skills Information

Employability skills	This unit contains employability skills.

Elements and Performance Criteria Pre-Content

Elements describe the essential outcomes of a unit of competency.	Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the required skills and knowledge section and the range statement. Assessment of performance is to be consistent with the evidence guide.

Elements and Performance Criteria

ELEMENT	**PERFORMANCE CRITERIA**
Prepare for sound recording	1. Clarify recording requirements with reference to ***production documentation*** and in consultation with ***relevant personnel*** 2. Prepare a team work plan as required and brief personnel accordingly 3. Check that ***sound equipment and accessories*** are in working order for recording sessions 4. Ensure that sound equipment and accessories are set up, connected and aligned according to safety, technical and ***production requirements***

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

ELEMENT	PERFORMANCE CRITERIA
	5. Ensure that the selection of sound equipment and accessories meets required standards 6. Ensure that recording devices have sufficient capacity for expected duration of recordings 7. Anticipate problems that may arise during the recording process and plan accordingly 8. Ensure adequate supply of ***consumables*** is available for duration of sound recordings
Place microphones and test record line-up	9. Select, power and position ***microphones*** and ***microphone accessories*** according to safety, technical and production requirements 10. Apply ***principles of microphone operation*** when placing and moving microphones 11. Ensure placement of microphones and microphone accessories is safe, unobtrusive and avoids extraneous and unwanted noise 12. Conduct a sound check to ensure quality of recording will meet required standards 13. Test signal flow of connected sound equipment and accessories
Make sound recordings	14. Ensure run-up time is sufficient to allow stable sound recording 15. Apply appropriate ***signal processing*** for optimal sound quality and make test recordings to ensure no audible defects are present 16. Continuously monitor sound recording for quality, audible defects and extraneous background sound 17. Critically listen to recording and provide feedback on ***appropriate recording techniques*** to record line-up 18. Ensure recorded sound supports and enhances production requirements 19. Complete recording sessions in line with production timelines
Finalise sound-recording operations	20. Ensure that recordings are saved in the appropriate format and logged/filed in line with organisational procedures 21. Make safety copies or backups as required 22. Prepare accurate ***production set-up reports*** 23. Ensure that sound equipment and accessories are de-rigged, checked and cleaned appropriately 24. Ensure that ***work environments*** are cleaned after use and

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

ELEMENT	PERFORMANCE CRITERIA
	restored to their pre-recording condition 25. Provide feedback to other team members as required 26. Evaluate own performance against technical and creative criteria and note areas for improvement

Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE
This section describes the skills and knowledge required for this unit.
Required skills

• research skills sufficient to locate and use relevant sources of information
• literacy skills sufficient to:
  • prepare production set-up reports
  • read and interpret recording documentation
• numeracy skills sufficient to calculate duration and capacity of recording media at various speed/sample rates
• communication skills sufficient to:
  • liaise with sound-production and recording personnel, including in a supervisory capacity
  • provide feedback to recording personnel on appropriate recording techniques
  • clearly explain and offer suitable alternatives to record line-up when recording difficulties cannot be resolved within operational constraints
• initiative and enterprise skills in the context of critically analysing sound recordings
• learning skills sufficient to maintain currency of knowledgeof recording equipment upgrades
• planning and organisational skills sufficient to prioritise work tasks and meet deadlines
• problem-solving skills sufficient to promptly and effectively rectify sound defects, system failures and mechanical breakdowns
• technology skills sufficient to work with a variety of sound-recording equipment

Required knowledge

• principles of psychophysics, such as:
  • frequency
  • pitch
  • amplitude

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

REQUIRED SKILLS AND KNOWLEDGE
• loudness • velocity • wavelength • acoustical phase • timbre • sound envelope • principles of psychoacoustics, such as: • spatial hearing • direct sound • early sound • reverberant sound • studio and control room design • ergonomics • operational knowledge of sound-recording equipment • principles and techniques of sound recording, including: • audible defects in analogue and digital technologies • compatibility of different digital standards • identification/logging requirements • operational principles of microphones, including microphone placement • operational/technical limitations of recording media • recording formats and technical standards • signal-to-noise ratio, signal phase and audio level/headroom control • logarithmic units and the use of different metering systems • timecode levels and standards in analogue and digital applications • principles of synchronisation and referencesystems • issues and challenges that typically arise in the context of recording sound • OHS principles of safe listening, including safeguards against hearing loss

Evidence Guide

EVIDENCE GUIDE	
The Evidence Guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, range statement and the Assessment Guidelines for the Training Package.	
Overview of assessment	

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

EVIDENCE GUIDE	

Critical aspects for assessment and evidence required to demonstrate competency in this unit	Evidence of the ability to:
	• make sound recordings that meet production requirements and demonstrate a thorough understanding of:
	  • prerecording checks
	  • microphone positioning
	  • testing record line-ups
	  • OHS principles in relation to safe sound levels
	• use a range of industry-current sound equipment and accessories
	• work collaboratively with team members.

Context of and specific resources for assessment	Assessment must ensure: • access to a range of work environments and productions where sound is recorded • access to industry-current sound equipment and accessories, including recording devices, microphones, signal processors and consumables • use of culturally appropriate processes, and techniques appropriate to the language and literacy capacity of learners and the work being performed.
Method of assessment	The following assessment methods are appropriate for this unit: • case studies to assess candidate's ability to apply OHS principles of safe listening to day-to-day work activities • evaluation of a range of live, acoustic and/or sequenced recordingsmade by candidate • observation of candidate making sound recordings • written or oral questioning to test knowledge of principles of psychophysics and psychoacoustics.
Guidance information for assessment	Holistic assessment with other units relevant to the industry sector, workplace and job role is recommended, for example: • CUSSOU405A Mix recorded music • CUSSOU406A Record sound on location • CUSSOU407A Coordinate location sound recording.

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

Range Statement

RANGE STATEMENT	
The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording, if used in the performance criteria, is detailed below. Essential operating conditions that may be present with training and assessment (depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts) may also be included.	

Productions may include:	• music recording
	• interactive media product, such as:
	  • CD
	  • DVD
	  • podcast
	• internet production, e.g. website audio
	• radio broadcast
	• voice-over.

Documentation may include:	• production schedules • set-up reports • cue sheets • track sheets • dubbing charts • equipment instructions • OHS requirements • organisational standards • performers' requirements • sound and audio reports • technical manuals.
Relevant personnel may include:	• artists, musicians and performers • audio and sound engineers • audio and sound technicians/mixers • broadcasters • technical producers • broadcast technicians and engineers • directors • producers • conductors • program managers • curators • post-production managers • supervisors

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT	
	• sound designers.

Sound equipment and accessories may include:	• amplifiers
	• analogue to digital converters
	• cables
	• compact disc (CD) and digital versatile disc (DVD) players and burners
	• computer technology and associated software
	• digital and analogue recording devices:
	  • hard disk recorder, e.g. digital audio workstation (DAW)
	  • digital audiotape recorder, e.g. S-DAT and R-DAT
	  • digital videotape recorder (DVTR)
	  • mini disc recorder (MD)
	  • modular digital multi-track recorder (MDM)
	  • open-reel analogue audiotape recorder
	• digital audio players, such as:
	  • iPod
	  • MP3
	• headphones
	• microphones and accessories
	• mixing consoles and desks
	• monitors and speakers
	• signal processors and plug-ins.

Production requirements may include:	• attributions • audience • budget • confidentiality • content • contractual arrangements • copyright • deadlines • direct quotes • duration • intellectual property • interviews • location • purpose • schedule

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT	
	• style.
Consumables may include:	• audiotape, e.g. digital and open-reel analogue • compact discs, e.g. CD-R and CD-RW • cue sheets and track sheets • digital versatile discs, e.g. DVD-/+R and DVD-/+RW • masking tape, marker pens and labels • mini discs (MDs) • memory cards, e.g. flash memory cards.

Microphones may include:	• boundary (PZM)
	• capacitor/condenser, such as:
	  • electret
	  • lavalier
	  • mini microphone
	  • transistor
	  • tube
	• contact
	• digital
	• directional, such as:
	  • single entry port
	  • multiple entry port
	  • multi/poly-directional
	• dual-element
	• dynamic, such as:
	  • moving coil
	  • ribbon
	• headset
	• low and/or high impedance
	• microphone systems, such as:
	  • adaptive array
	  • binaural
	  • high definition
	  • parabolic
	  • surround sound
	  • wireless
	  • cordless
	  • FM
	  • radio transmitter
	• noise cancelling

RANGE STATEMENT	
	• shotgun.

Microphone accessories may include:	• boom poles, including:
	  • aluminium
	  • carbon fibre
	  • fisher
	  • hand-held
	  • perambulator
	  • remote panner
	  • tripod
	• cables, including:
	  • balanced
	  • unbalanced
	• clips
	• connectors, including:
	  • female
	  • male
	  • XLR
	• housing
	• pop filters
	• shock mounts
	• stands, including:
	  • desk
	  • floor
	  • gooseneck
	• windscreens.

Principles of microphone operation may include:	• balanced and unbalanced audio transmission
	• diaphragm diameter and frequency response
	• diaphragm mass and transient response
	• differential input and single-ended input
	• directional characteristics, including:
	  • omnidirectional (non-directional)
	  • unidirectional, e.g. sub-cardioid, wide angle cardioid, cardioid, super-cardioid, hyper-cardioid and ultra-cardioid
	  • bi-directional
	• ground loops and ground lift
	• magnetic induction
	• matching high/low impedance (passive/active DI interface)

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT	

	• phase cancellation and acoustic comb filtering
	• pickup pattern (polar response pattern)
	• polarity
	• sound response, such as:
	  • frequency response
	  • hum
	  • maximum sound pressure level
	  • overload limit
	  • proximity effect
	  • self-noise
	  • sensitivity
	  • signal-to-noise ratio
	• transduction
	• variable capacitance.

Signal processing may include:	• amplitude (dynamic) signal processing:
	  • compressors, e.g. broadband, split-band, de-esser
	  • limiters
	  • expanders
	  • noise gates
	  • pitch shifters
	• noise processing, such as:
	  • Dolby
	  • dbx
	  • DSP
	• spectrum signal processing:
	  • equalisers, e.g. fixed frequency, graphic, parametric and paragraphic
	  • filters, e.g. high/low pass, band pass and notch
	  • psychoacoustic processors
	• time signal processing:
	  • reverberation, e.g. digital, plate and acoustic chamber
	  • delay, e.g. doubling, chorus, slap back and prereverb
	  • flanging, e.g. positive and negative
	  • phasing
	• morphing.

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT	
Appropriate recording techniques may include:	• articulation and voicing • breathing • microphone use • pitch • playing, singing and performing style • timing • tone • tuning • volume.
Production set-up report may include:	• console settings • effects settings • microphone choices • patch bay wiring • processor settings • track sheets.
Work environment may include:	• dubbing theatre • outside broadcast • recording studio • sound stage.

CUSSOU402A Develop and implement sound plans

Modification History

Not applicable.

Unit Descriptor

Unit descriptor	This unit describes the performance outcomes, skills and knowledge required to develop and implement sound plans for productions. This involves researching the most appropriate sound systems to use, identifying everything needed to meet creative and technical requirements, and supervising the implementation of sound plans. No licensing, legislative, regulatory or certification requirements apply to this unit at the time of endorsement.

Application of the Unit

Application of the unit	Sound technicians and supervisors apply the skills and knowledge described in this unit. They are responsible for developing and implementing sound plans to meet production requirements. Industry sectors in which they work include music (live and recorded), television, radio, film, video, stage productions and corporate events. Depending on the type of production, they could be developing a sound plan in response to specifications from a sound designer.

Licensing/Regulatory Information

Not applicable.

Pre-Requisites

Prerequisite units		

Employability Skills Information

Employability skills	This unit contains employability skills.

Elements and Performance Criteria Pre-Content

Elements describe the essential outcomes of a unit of competency.	Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the required skills and knowledge section and the range statement. Assessment of performance is to be consistent with the evidence guide.

Elements and Performance Criteria

ELEMENT	**PERFORMANCE CRITERIA**
Establish brief for sound system	1. Liaise with the ***relevant personnel*** to determine the project requirements 2. Undertake research to determine the best options for meeting ***production requirements*** 3. Consider available budget and other resources when determining the scope of the ***production*** 4. Source additional expertise as required
Produce sound plan	5. Develop a draft ***sound plan*** to meet production requirements 6. Ensure that microphone plots, ***sound sources***, block diagrams and layout are drawn and notated as required 7. Anticipate problems that might arise and plan accordingly

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

ELEMENT	PERFORMANCE CRITERIA
	8. Seek feedback on draft sound plan from relevant personnel and amend plan
Implement sound plan	9. Ensure that all parties meet their obligations, adhere to quality standards and work within project requirements 10. Ensure that relevant personnel are involved in negotiating and agreeing on changes to the sound plan 11. Ensure that sound system is tuned to achieve desired result 12. Ensure that ***equipment*** technical problems are addressed in ways that cause least disruption to productions 13. Ensure that all work is undertaken with due regard to OHS requirements 14. Prepare and update ***documentation*** as required
Evaluate operations	15. In consultation with relevant personnel identify aspects of the production that worked well and those that could be improved 16. Evaluate own role in operations and note areas for improvement 17. Provide feedback to team members on their performance as required 18. Document evaluation of operations in line with enterprise procedures

Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This section describes the skills and knowledge required for this unit.

Required skills

- communication and teamwork skills sufficient to:
  - liaise and negotiate with sound-production personnel
  - supervise the implementation of sound plans
  - clearly explain/offer options about sound systems for a range of productions
- critical-listening and aural-discrimination skills in the context of sound operations
- initiative and enterprise skills in the context of:
  - contingency planning
  - responding effectively to equipment or system malfunction and other unexpected events during productions

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

REQUIRED SKILLS AND KNOWLEDGE

• literacy skills sufficient to:
  • read and interpret recording documentation
  • document and annotate sound plans
• numeracy skills sufficient to calculate the range of recording devices needed to capture sound in various environments
• planning and organisational skills sufficient to:
  • prioritise work tasks
  • meet deadlines
  • locate and use relevant sources of information in the context of preparing sound plans
• technology skills sufficient to:
  • work with a variety of audio equipment
  • identify and rectify equipment faults

Required knowledge

• techniques and principles in sound system specification, including:
  • applying acoustic principles when evaluating sound systems and their components
  • operational knowledge of a wide range of sound-recording equipment
  • how sound is incorporated into the artistic, technical and operational requirements of productions
  • features and operating characteristics of noise reduction systems
  • fault finding techniques and procedures
  • testing procedures
  • drawing and annotating sound systems in sound plans
• issues and challenges that typically arise in the context of developing and implementing sound plans
• OHS principles of safe listening, including safeguards against hearing loss

Evidence Guide

EVIDENCE GUIDE	
The Evidence Guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, range statement and the Assessment Guidelines for the Training Package.	
Overview of assessment	

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

EVIDENCE GUIDE	
Critical aspects for assessment and evidence required to demonstrate competency in this unit	Evidence of the ability to: • prepare sound plans that clearly specify all production requirements • implement sound plans on at least two occasions • supervise the work of others • work collaboratively with team members.
Context of and specific resources for assessment	Assessment must ensure: • access to a range of industry-current equipment as listed in the range statement • access to venues and productions or events • use of culturally appropriate processes, and techniques appropriate to the language and literacy capacity of learners and the work being performed.
Method of assessment	The following assessment methods are appropriate for this unit: • case studies, and written or oral questioning to test knowledge as listed in the required knowledge section of this unit • authenticated copies of sound plans developed by the candidate.
Guidance information for assessment	Holistic assessment with other units relevant to the industry sector, workplace and job role is recommended, for example: • BSBOHS407A Monitor a safe workplace • CUSSOU401A Record sound • CUSSOU405A Mix recorded music • CUSSOU407A Coordinate location sound recording.

Range Statement

RANGE STATEMENT
The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording, if used in the performance criteria, is detailed below. Essential operating conditions that may be present with training and assessment (depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts) may also be included.

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT	

Relevant personnel may include:	• artists, musicians and performers
	• audio personnel:
	  • sound engineers
	  • sound technicians
	  • sound editors
	  • sound designers
	  • sound effects personnel
	  • post-production editors
	  • foldback mixers
	  • front-of-house mixers
	  • recordists
	  • re-recording mixers
	  • audio stagehands
	• broadcasters
	• broadcast engineers
	• directors
	• producers
	• photographers
	• program managers
	• stage managers
	• floor managers
	• film/video crew.

Production requirements may include:	• attributions • audience • budget • confidentiality • content • contractual arrangements • copyright • deadlines • direct quotes • duration • intellectual property • interviews • location • purpose • schedule • style.

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT	
Productions may include:	• live performance or event • commercial • print advertisement • corporate video • feature film and/or video • filmed event and/or performance • interactive media product • internet production • electronic game production • music recording and/or video • promotional trailer • radio broadcast • short film and/or video • television program • training film and/or video • voice-over.
Elements of a ***sound plan*** may include:	• list of equipment required • features of the sound system • personnel required • block diagrams to indicate positioning of equipment for optimum effect • pre-production testing arrangements • venue considerations • budget • performers' requirements • interaction with other production elements, e.g. lighting • sound sources.
Sound sources may include:	• dialogues and voice-overs • additional dialogue recording (ADR) • effects (FX) • music produced acoustically or electronically • foley • atmosphere • sounds from the natural environment.
Equipment may include:	• amplifiers • limiters • compressors • effects rack • turntables

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT	

	• analogue to digital converters
	• cables
	• compact disc (CD) and digital versatile disc (DVD) players and burners
	• computer technology and associated software
	• recording devices:
	  • hard disk recorder, e.g. digital audio workstation (DAW)
	  • digital audiotape recorder, e.g. S-DAT and R-DAT
	  • digital videotape recorder (DVTR)
	  • mini disc recorder (MD)
	  • modular digital multi-track recorder (MDM)
	• digital audio players, such as:
	  • iPod
	  • MP3
	• headphones
	• microphones and accessories
	• mixing consoles and desks
	• monitors and speakers
	• signal processors and plug-ins
	• sequencers and samplers
	• musical instruments.

Documentation may include:	• microphone plots • sound sources • block diagrams • layout • cue sheets • track sheets • dubbing charts • equipment instructions • OHS requirements • organisational standards • performers' requirements • production schedules and set-up reports • shot lists • sound and audio reports • storyboards • technical manuals.

CUSSOU403A Perform advanced sound editing

Modification History

Not applicable.

Unit Descriptor

Unit descriptor	This unit describes the performance outcomes, skills and knowledge required to perform advanced sound editing. This involves assessing the quality of original recorded sound against production requirements, determining the scope of the sound-editing project, preparing source materials for sound editing, editing sound in line with production requirements, and applying sound effects to enhance the final product. No licensing, legislative, regulatory or certification requirements apply to this unit at the time of endorsement.

Application of the Unit

Application of the unit	This unit applies to sound editors who edit music and sound effects for film, television, interactive media and music productions as well as to technicians who work in film and sound archives. This work is undertaken with minimal supervision and guidance. Sound editors at this level could also be responsible for supervising others. This units builds on the skills covered in the imported unit: • CUFSOU204A Perform basic sound editing.

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

Licensing/Regulatory Information

Not applicable.

Pre-Requisites

Prerequisite units		

Employability Skills Information

Employability skills	This unit contains employability skills.

Elements and Performance Criteria Pre-Content

Elements describe the essential outcomes of a unit of competency.	Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the required skills and knowledge section and the range statement. Assessment of performance is to be consistent with the evidence guide.

Elements and Performance Criteria

ELEMENT	**PERFORMANCE CRITERIA**
Prepare for sound editing	1. Participate in pre-production meetings with ***relevant personnel*** to discuss ***production requirements and procedures*** 2. Check that necessary copyright releases have been organised 3. Consider the impact of different ***release sound formats*** when planning editing work 4. Check sound ***equipment*** to ensure it is operational and appropriate for the task 5. Prepare a team work plan as required and brief relevant personnel accordingly

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

ELEMENT	PERFORMANCE CRITERIA
	6. Obtain original ***sound sources*** and assess their quality against production requirements 7. Check any ***documentation*** in the receipt and preparation of original recordings and copies for ***productions*** 8. Advise where sound sources do not meet quality and production requirements and propose options to resolve issues as required 9. Anticipate problems that may arise during the editing process and plan accordingly
Edit complex sound sequences	10. Check the ***format*** of all sound sources, ensuring it is compatible with editing software, equipment and ***media*** output 11. Critically listen to sound sources to determine the extent and range of required edits 12. ***Manipulate editing software*** and equipment to produce required outcomes and to resolve identified problems 13. Work sensitively and constructively with relevant personnel to achieve best production outcomes
Create overall sound context	14. Determine the ***purpose*** for which sound is being used in productions 15. Identify, select and/or ***produce*** appropriate sound effects or elements 16. Apply knowledge and understanding of ***sonic lexicon*** to enhance final creative outcomes 17. Note sound effects and elements on spotting sheets 18. Incorporate sound effects and elements to meet creative requirements
Finalise editing operations	19. Participate in spotting sessions with relevant personnel and make adjustments to mix as required 20. Ensure that final files are in the correct format 21. Manage the quality check of the final sound mix in line with enterprise procedures and production requirements 22. Archive edited audio files and complete associated documentation according to enterprise procedures 23. Ensure that ***work environment*** is left clean and ready for the next user 24. In collaboration with support personnel, organise and maintain sound effects libraries for future productions 25. Provide feedback to other team members as required 26. Evaluate own performance against technical and creative criteria and note areas for improvement

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This section describes the skills and knowledge required for this unit.

Required skills

- communication and teamwork skills sufficient to:
  - work collaboratively with project team personnel and sound-production personnel
  - provide feedback to project personnel on appropriate editing techniques
  - provide critical feedback on problems with technical quality of masters and condition of equipment
- literacy skills sufficient to:
  - log and label recorded material
  - accurately note sound effects on spotting sheets
  - read and interpret an edit decision list (EDL)
- numeracy skills sufficient to calculate duration and capacity of media at various speed/sample rates
- initiative and enterprise skills in the context of:
  - finding creative solutions to sound-editing challenges
  - applying critical-listening skills to analyse sound recordings and finding solutions to creative and/or technical problems
- learning skills sufficient to maintain currency of knowledgeof editing software and equipment upgrades
- planning and organisational skills sufficient to:
  - prioritise work tasks
  - meet deadlines
  - locate sound effects
- problem-solving skills sufficient to promptly and effectively rectify sound defects, system failures and mechanical breakdowns
- technology skills sufficient to:
  - use a variety of sound-editing equipment and software on both PC and MAC operating systems
  - manage file systems
  - make regular backups

Required knowledge

- principles of sonic storytelling, e.g. using sound (or silence) to:
  - focus attention

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

REQUIRED SKILLS AND KNOWLEDGE

- intensify action
- set pace
- set mood
- evoke feelings

- well-developed understanding of psychoacoustic principles, including:
  - spatial hearing
  - direct sound
  - early sound
  - reverberant sound
  - studio and control room design
  - ergonomics
- well-developed understanding of audio principles, including:
  - frequency
  - pitch
  - amplitude
  - loudness
  - velocity
  - wavelength
  - acoustical phase
  - timbre
  - sound envelope
- intellectual property implications in relation to sound design
- picture and sound synchronisation, including:
  - time codes
  - frame rates
  - sample rates
  - clock leader 2 pips
- principles and techniques of sound editing, including:
  - manipulating sound to achieve technical and creative outcomes
  - using effects to achieve a range of functional sound requirements
  - eliminating audible defects
  - compatibility of different digital standards
  - identification/logging requirements
  - file formats, technical standards and compression
- issues and challenges that typically arise in the context of performing complex sound edits
- OHS principles of:
  - safe listening, including safeguards against hearing loss

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

REQUIRED SKILLS AND KNOWLEDGE
• using a computer and keyboard for periods of time

Evidence Guide

EVIDENCE GUIDE	
The Evidence Guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, range statement and the Assessment Guidelines for the Training Package.	
Overview of assessment	
Critical aspects for assessment and evidence required to demonstrate competency in this unit	Evidence of the ability to: • use all features of a range of current industry sound-editing software and equipment • make critical editing decisions that enhance the quality and impact of the final sound • incorporate a range of sound effects into the final mix • work cooperatively in a team environment • meet deadlines.
Context of and specific resources for assessment	Assessment must ensure: • access to current industry-standard equipment as listed in the range statement • use of culturally appropriate processes, and techniques appropriate to the language and literacy capacity of learners and the work being performed.
Method of assessment	The following assessment methods are appropriate for this unit: • observation of candidate undertaking complex sound edits, including the incorporation of sound effects • direct questioning combined with review of portfolios of evidence and third-party workplace reports of on-the-job performance by candidate • authenticated recordings of material edited by the candidate • case studies and scenarios as a basis for discussing issues and challenges that arise in the context of complex sound editing.
Guidance information for	Holistic assessment with other units relevant to the

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

EVIDENCE GUIDE	
assessment	industry sector, workplace and job role is recommended, for example: • CUSSOU404A Edit dialogues.

Range Statement

RANGE STATEMENT	
The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording, if used in the performance criteria, is detailed below. Essential operating conditions that may be present with training and assessment (depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts) may also be included.	
Relevant personnel may include:	• performer • composer • sound supervisor • supervising sound editor • preservation supervisor • archivist • effects editor • effects mixer • sound mixer • recordist • re-recording mixer • audio assistant • audio and sound engineer • director • producer • post-production picture editor • post-production manager • program manager • sound designer.
Production requirements and procedures may include:	• creative • technical • file formats • agreement on file naming structures • work flow after capture • prerelease screenings to check quality of sound

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT	
	mix • technical checks • spotting sessions • attributions • audience • budget • confidentiality • content • contractual arrangements • copyright • deadlines • direct quotes • duration • intellectual property • interviews • location • purpose • schedule • style.

Release sound formats may include:	• IMAX multichannel system
	• 5.1 surround sound:
	  • cinema
	  • television
	• 4-track Dolby stereo
	• 2-track stereo
	• internet
	• games
	• radio.

Equipment may include:	• digital audio workstation (DAW) with software, such as:
	  • Pro Tools
	  • Nuendo
	  • Pyramix
	  • Fairlight
	  • Sound Forge
	  • Adobe Audition
	  • Final Cut Pro
	  • Avid
	  • EDL software

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT	

	• mixing consoles
	• outboard gear, such as:
	  • re-verb unit
	  • sub-base harmoniser
	  • de-esser
	  • compressor.

Sound sources may include:	• dialogues and voice-overs • special effects • music • walla • ambient sound • atmospheric sound • foley.
Documentation may include:	• pre-mix scripts • mixing sheets • track sheets • de-noising documents • cue sheets • dubbing sheets • queries • notes • manuals.
Production may include:	• commercial • print advertisement • corporate video • feature film and/or video • filmed event and/or performance • interactive media product • internet production • electronic game production • music recording and/or video • promotional trailer • radio broadcast • short film and/or video • television program • training film and/or video • oral histories • voice-over.
Format may include:	• audio/sound, such as:

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT	
	• DAT • AIF (AIFF) • WAV • broadcast WAV format (BWF) • WMA • MIDI • OGG • advanced audio coding (AAC) • Apple Lossless • magnetic tape • Real Audio • QuickTime • MP3 • computerised data.
Media may include:	• radio • video • CD • DVD • DAT • computer hard drive • internet • mobile device • film.

Manipulating editing software may include:	• adjusting and normalising audio levels
	• inserting:
	  • transitions
	  • sound effects
	  • music
	  • voice-overs
	  • overlays
	• manipulating audio clips, such as:
	  • cutting
	  • pasting
	  • copying
	  • moving
	  • splitting.

Purpose may include:	• breakingÂ theÂ screenÂ plane • definingÂ space

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT	
	• focusingÂ attention • establishingÂ locale • creatingÂ environment • emphasisingÂ action • intensifyingÂ action • depictingÂ identity • settingÂ pace • providingÂ counterpoint • creatingÂ humour • symbolisingÂ meaning • creatingÂ metaphor • unifyingÂ transition • creating silence.
Producing sound effects may involve:	• creating and synchronising effects in a post-production studio • recording during shooting • collecting in the field • generating effects electronically.
Sonic lexicon may refer to genres, such as:	• silent film • natural history • drama productions • animation • comedy • horror.
Work environment may include:	• dubbing theatre • on location, including interior and exterior • outside broadcast • post-production studio • recording studio • sound stage • cultural institution • archive.

CUSSOU404A Edit dialogue

Modification History

Not applicable.

Unit Descriptor

Unit descriptor	This unit describes the performance outcomes, skills and knowledge required to edit dialogue for a screen production. As with all post-production work, a high level of attention to detail is required to ensure that the final edit is free of uneven sound. No licensing, legislative, regulatory or certification requirements apply to this unit at the time of endorsement.

Application of the Unit

Application of the unit	Dialogue editors working on film, television and video productions apply the skills and knowledge described in this unit. Though work is typically undertaken with limited supervision or guidance, dialogue editors are expected to liaise closely with other production personnel.

Licensing/Regulatory Information

Not applicable.

Pre-Requisites

Prerequisite units		

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

Prerequisite units		

Employability Skills Information

Employability skills	This unit contains employability skills.

Elements and Performance Criteria Pre-Content

Elements describe the essential outcomes of a unit of competency.	Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the required skills and knowledge section and the range statement. Assessment of performance is to be consistent with the evidence guide.

Elements and Performance Criteria

ELEMENT	**PERFORMANCE CRITERIA**
Clarify project requirements	1. Assess the quality of the original recorded ***dialogue and sound*** against creative and technical ***production requirements*** 2. Identify which sound and dialogue are acceptable, borderline and/or not acceptable through discussion with ***relevant personnel*** 3. Determine creative and ***technical adjustments*** to dialogue and sound that are needed to meet the requirements of the brief 4. Establish a timeline for completing the dialogue and sound-editing process to ensure ***production*** requirements are met 5. Anticipate problems that may arise in the process of completing work and plan accordingly
Prepare to edit dialogue	6. Check dialogue and sound ***equipment*** to ensure it is operational and appropriate for the task 7. Resolve technical faults and problems in line with

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

ELEMENT	PERFORMANCE CRITERIA
	workplace procedures 8. Ensure that ***file systems*** are set up in a logical way and that relevant personnel have access to them 9. Prepare ***work copies*** in quantity to meet ongoing production requirements 10. Undertake all activities according to ***OHS procedures*** 11. Check and complete ***documentation*** in line with enterprise procedures
Clean up dialogue	12. Provide advice to relevant personnel on requirements for automated dialogue replacement (ADR) 13. Ensure that ***sync FX*** are stripped from the dialogue as required 14. Clean up the sync sounds to ensure all dialogue and sound edits fit together smoothly 15. Find alternative takes as required and determine which takes need to be re-recorded to ensure that the quality of final sound mix meets production requirements 16. Oversee the recording of post-sync dialogue and sound as required, ensuring relevant personnel have copies of the appropriate documentation 17. Make regular backups of files to ensure that work in progress can be retrieved if computer equipment malfunctions 18. Recognise potential problems with the creative and technical quality of edited material and adjust as required in consultation with relevant personnel 19. Present final edit to relevant personnel for evaluation against creative, technical and production criteria
Complete work operations	20. Ensure track layout is legible, consistent and clearly indicates the range of different dialogue and sound 21. Ensure the edit master copy is delivered in the correct ***format*** 22. Organise duplication of the master copy, as required 23. Store relevant versions of edited material according to enterprise procedures 24. Ensure that the ***work environment*** is clean and ready for use by the next user
Evaluate work	25. In consultation with relevant personnel identify aspects of the process of editing dialogue that worked well and those that could be improved 26. Review creative content and ***technical quality*** of edited

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

ELEMENT	PERFORMANCE CRITERIA
	material to ensure that required standards were met 27. Evaluate own role in operations and note areas for improvement 28. Provide feedback to team members on their performance as required 29. Document evaluation of operations in line with enterprise procedures and use results of evaluation to improve own work practices

Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This section describes the skills and knowledge required for this unit.

Required skills

- communication, literacy and teamwork skills sufficient to:
  - work cooperatively with production personnel
  - provide critical feedback on problems with technical quality of masters and condition of equipment
  - read and interpret an edit decision list (EDL)
  - log and label dialogue and sound files and versions of edited material, including masters and copies
- numeracy skills sufficient to:
  - calculate duration and capacity of recording media at various speed/sample rates
  - identify and interpret synchronisation time codes
- initiative and enterprise in the context of:
  - applying extreme attention to detail to ensure that dialogue and sound edits meet creative and technical requirements
  - applying critical-listening skills to assess the quality of dialogue tracks for ADR
  - ADR recording, e.g. spotting sync and understanding how to manipulate it
- learning skills sufficient to maintain currency of knowledgeof editing equipment upgrades
- planning and organisational skills sufficient to prioritise work tasks and meet deadlines
- problem-solving skills sufficient to promptly and effectively rectify system failures and mechanical breakdowns

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

REQUIRED SKILLS AND KNOWLEDGE

- technology skills sufficient to:
  - use a variety of sound-editing equipment and software on both PC and MAC operating systems
  - manage file systems
  - make regular backups
  - make suitable track layouts

Required knowledge

- understanding of how sound is used in screen productions, for example to:
  - focus attention
  - intensify action
  - set pace and mood
  - evoke feelings
- understanding of how sound is locked to picture
- industry knowledge, including:
  - features of a range of sound-editing equipment and facilities
  - roles and responsibilities of post-production personnel, including well-developed understanding of documentation and files that editors typically provide
  - filmic language and other relevant terminology
  - sound-editing conventions used in film and video production
  - issues and challenges that typically arise in the context of editing dialogue
- picture and sound synchronisation, including:
  - time codes
  - frame rates
  - sample rates
  - clock leader 2 pips
- principles and techniques of dialogue and sound editing, including:
  - splitting and laying sound and dialogue tracks to ensure consistency
  - different dialogue and sound-editing methods
- function of metadata tags, such as:
  - album
  - artist
  - defaults
  - description
  - episode
  - resolution
  - track
  - version

REQUIRED SKILLS AND KNOWLEDGE

• OHS principles of:
  • safe listening, including safeguards against hearing loss
  • observing regulations with regard to working for periods of time at computers

Evidence Guide

EVIDENCE GUIDE	
The Evidence Guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, range statement and the Assessment Guidelines for the Training Package.	
Overview of assessment	
Critical aspects for assessment and evidence required to demonstrate competency in this unit	Evidence of the ability to: • split and edit dialogue and sound for a film or television production • review the technical quality of edited material so that it conforms to industry standards • use a range of industry-current sound-editing equipment and accessories • work cooperatively in a team environment • meet deadlines.
Context of and specific resources for assessment	Assessment must ensure: • access to current industry-standard equipment as listed in the range statement • use of culturally appropriate processes, and techniques appropriate to the language and literacy capacity of learners and the work being performed.
Method of assessment	The following assessment methods are appropriate for this unit: • observation of candidate undertaking dialogue and sound-editing work • direct questioning combined with review of portfolios of evidence and third-party workplace reports of on-the-job performance by candidate • authenticated recordings of dialogue and sound edited by the candidate • case studies and scenarios as a basis for discussing

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

EVIDENCE GUIDE	
	issues related to editing dialogue and sound.
Guidance information for assessment	Holistic assessment with other units relevant to the industry sector, workplace and job role is recommended, for example: • CUSSOU403A Perform advanced sound editing.

Range Statement

RANGE STATEMENT	
The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording, if used in the performance criteria, is detailed below. Essential operating conditions that may be present with training and assessment (depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts) may also be included.	

Dialogue and sound may include:	• original dialogue and sound
	• replacement of original dialogue and sound
	• fill track
	• wild track
	• library atmosphere/sound
	• sync FX
	• post-sync dialogue
	• additional dialogue:
	  • re-recorded
	  • narration
	• additional sounds:
	  • voice-over
	  • walla
	  • loop group
	  • crowds
	• music.

Production requirements may include:	• creative • technical • artistic • attributions • audience • budget

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT	
	• confidentiality • content • contractual arrangements • copyright • deadlines • direct quotes • duration • intellectual property • interviews • location • purpose • schedule • style.
Relevant personnel may include:	• performer • sound supervisor • supervising sound editor • effects editor • effects mixer • sound mixer • recordist • re-recording mixer • audio assistant • audio and sound engineer • director • producer • post-production picture editor • program manager • sound designer.

Technical adjustments may include:	• cleaning up:
	  • removing bumps and clunks
	  • extending background noises
	  • filling holes
	• finding alternative takes
	• fixing sync
	• laying additional background atmospheres
	• post-syncing dialogue.

Productions may include:	• feature films • documentaries • games

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT	
	• animated productions • short films • commercials • filmed events or performances • music videos • television productions of any type.

Equipment may include:	• digital audio workstation (DAW) with software, such as:
	  • Pro Tools
	  • Nuendo
	  • Pyramix
	  • Fairlight
	  • EDL software
	• mixing consoles
	• outboard gear, such as:
	  • re-verb unit
	  • sub-base harmoniser
	  • de-esser
	  • compressor.

File systems may be established for:	• dialogue • sound effects • music • sections of the production • final master.
Work copies may include:	• post-production masters • digital replications.

OHS procedures may include:	• ergonomic factors:
	  • physical manoeuvres
	  • safe handling techniques
	  • lighting conditions
	• emergency procedures
	• safe working conditions.

Documentation may be:	• computer-generated • manually written • timecode log sheets for location sound recordings • wild line and sound effects log sheets • scripts • ADR or post-sync sheets

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT	
	• sound reports • shot lists • sound library lists • edit decision lists (EDLs) • editing schedules • continuity scripts • manufacturer schedules • manufacturer specifications and instructions • contracts • memos of instruction • budgets • fault reports • marked-up scripts • marked-up transcripts.
Sync FX may include:	• doors opening and closing • footsteps • clothing rustling • cars • baby cries • domestic sounds • other natural sounds • walla.
Format may include:	• AIF (AIFF) • WAV • broadcast WAV format (BWF) • WMA • MIDI • OGG • advanced audio coding (AAC) • Apple Lossless • Real Audio • QuickTime • MP3.
Work environment may include:	• mixing theatre • dubbing theatre • on location, including interior and exterior • ADR recording studio • edit room • production office.

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT	
Technical quality may include:	• sound clarity • audio level • audio balance • smoothness of sound • equalisation • gating/noise reduction • drop-outs in tracks • overlap of sounds • pitch • flaming • phasing.

CUSSOU405A Mix recorded music

Modification History

Not applicable.

Unit Descriptor

Unit descriptor	This unit describes the performance outcomes, skills and knowledge required to mix music that has been recorded live or in a studio. This involves balancing all instrumentals, vocals and recorded/imported sounds, and adding effects. Knowledge of musical styles and mixing conventions is essential, along with highly developed aural-perception skills and the ability to communicate effectively with clients, performers and colleagues. No licensing, legislative, regulatory or certification requirements apply to this unit at the time of endorsement.

Application of the Unit

Application of the unit	Sound mixers and recording engineers apply the skills and knowledge outlined in this unit. They take the multi-track recording of a performance and mix it down to a format ready for mastering.

Licensing/Regulatory Information

Not applicable.

Pre-Requisites

Prerequisite units		

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

Prerequisite units		

Employability Skills Information

Employability skills	This unit contains employability skills.

Elements and Performance Criteria Pre-Content

Elements describe the essential outcomes of a unit of competency.	Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the required skills and knowledge section and the range statement. Assessment of performance is to be consistent with the evidence guide.

Elements and Performance Criteria

ELEMENT	**PERFORMANCE CRITERIA**
Prepare for music mix	1. In consultation with ***relevant personnel***, clarify ***mixing requirements*** with reference to documentation from recording sessions 2. Allocate sufficient time to complete the mix and line up ***facilities and equipment*** accordingly 3. Anticipate problems that may arise during the mixing process and plan accordingly
Mix music elements	4. Ensure that headphones and studio monitors are set at appropriate levels 5. Use a variety of ***techniques*** to balance instruments and vocals 6. Use ***effects*** to enhance and give depth to the music mix 7. Apply knowledge of music genre ***mix styles*** to enhance the sound of the mix 8. Take account of client's tastes and preferences with regard to how the mix should sound 9. ***Clean up*** each track in the mix to remove unwanted

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

ELEMENT	PERFORMANCE CRITERIA
	sound 10. Seek feedback on work in progress from relevant personnel and incorporate modifications
Finalise mixing operations	11. Deliver final mix in the required ***format*** for mastering 12. Complete ***documentation*** relating to final mix ensuring adequate information is provided for mastering and other relevant personnel 13. Ensure that facilities and equipment are left clean and tidy 14. Evaluate own performance against technical and creative criteria and note areas for improvement

Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This section describes the skills and knowledge required for this unit.

Required skills

- communication and teamwork skills sufficient to:
  - discuss and explain aspects of the mixing process to clients
  - respond appropriately to feedback from clients and colleagues
- highly-developed musical aural skills
- initiative and enterprise skills in the context of:
  - finding creative solutions to music mixing challenges
  - applying critical-listening skills to analyse music recordings and finding solutions to creative and/or technical problems
- literacy skills sufficient to interpret documentation from recording sessions
- planning and organisational skills sufficient to:
  - prioritise work tasks
  - meet deadlines
- problem-solving skills sufficient to:
  - promptly and effectively rectify problems with sound mixing equipment
  - find ways of compensating for any deficiency in one's own hearing
- technology skills sufficient to work with a variety of sound mixing equipment

Required knowledge

- principles and techniques of mixing music

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

REQUIRED SKILLS AND KNOWLEDGE

• understanding of mixing conventions for different music genres
• understanding of sound signal paths
• well-developed understanding of psychoacoustic principles, including:
  • spatial hearing
  • direct sound
  • early sound
  • reverberant sound
  • studio and control room design
  • ergonomics
• well-developed understanding of audio characteristics, including:
  • frequency
  • pitch
  • amplitude
  • loudness
  • velocity
  • wavelength
  • acoustical phase
  • timbre
  • sound envelope
• issues and challenges that typically arise in the context of mixing music
• OHS principles of safe listening, including safeguards against hearing loss

Evidence Guide

EVIDENCE GUIDE	
The Evidence Guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, range statement and the Assessment Guidelines for the Training Package.	
Overview of assessment	
Critical aspects for assessment and evidence required to demonstrate competency in this unit	Evidence of the ability to: • use all features of current music industry mixing equipment • balance instruments and vocals • incorporate a range of effects into the final mix • work cooperatively with clients and colleagues • meet deadlines.

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

EVIDENCE GUIDE	
Context of and specific resources for assessment	Assessment must ensure: • access to a range of work environments and productions where music is mixed • access to current industry-standard equipment • use of culturally appropriate processes, and techniques appropriate to the language and literacy capacity of learners and the work being performed.
Method of assessment	The following assessment methods are appropriate for this unit: • observation of candidate mixing music • direct questioning combined with review of portfolios of evidence and third-party workplace reports of on-the-job performance by candidate • authenticated recordings of music mixed by the candidate • case studies and scenarios as a basis for discussing issues and challenges that arise in the context of mixing music.
Guidance information for assessment	Holistic assessment with other units relevant to the industry sector, workplace and job role is recommended, for example: • CUSIND501A Apply music knowledge and artistic judgement • CUSMLT501A Refine aural-perception skills • CUSSOU401A Record sound.

Range Statement

RANGE STATEMENT	
The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording, if used in the performance criteria, is detailed below. Essential operating conditions that may be present with training and assessment (depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts) may also be included.	
Relevant personnel may include:	• artists, musicians and performers • clients • audio and sound engineers

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT	
	• directors • producers • conductors.

Mixing requirements may relate to:	• format for mastering:
	  • audio file
	  • digital audiotape (DAT)
	  • 2-track analogue tape
	• versions:
	  • vocal up
	  • vocal only
	  • instrument only
	  • stems
	• deadlines
	• production schedule
	• music style
	• target audience.

Facilities and equipment may include:	• digital audio workstation (DAW) with software, such as:
	  • Pro Tools
	  • Logic
	  • Cubase
	  • Ableton Live
	  • Reason
	  • Nuendo
	  • Garage Band
	  • Digital Performer
	  • Soundscape
	  • Sonic Studio
	• commercial recording studio
	• home studio
	• analogue studio equipment:
	  • mixing console
	  • signal processors, including equalisers and compressors
	• digital studio equipment:
	  • mixing console
	  • multi-track recorder.

Techniques may include:	• starting the mix by manipulating only fader

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT	

	levels and pan positions
	• soloing individual instruments
	• starting with a basic setup of all instruments and vocals and refining them in relation to each other
	• determining the element or elements that work best and building the mix around them
	• reducing frequencies on some instruments to give the sound of others more prominence
	• using automation to control various parameters of equipment in real time within the mix
	• modifying recorded input signal through the use of:
	  • faders
	  • pan pots
	  • equalisers
	  • compressors
	  • gates
	  • various plug-ins or signal processors.

Effects may include:	• reverb • delay • echo • reverse echo • pitch shift • pitch correction • time stretching • robotic voice effects • flanger • phaser.
Elements of ***mix styles*** may include:	• drum and bass levels • level of lead vocals • level of vocals in relation to instruments • relative volumes of instruments for foregrounding and backgrounding • relative levels of added effects.
Cleaning up tracks may include:	• eliminating amp hiss • eliminating crosstalk/spill • using mutes and gates • deleting/erasing sections for arrangement purposes

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT	
	• eliminating circuit noise.
Format may be:	• mono • stereo • surround sound.
Documentation may include:	• pre-mix scripts • mixing sheets • track sheets • cue sheets • dubbing sheets • queries • notes • manuals.

CUSSOU406A Record sound on location

Modification History

Not applicable.

Unit Descriptor

Unit descriptor	This unit describes the performance outcomes, skills and knowledge required to record sound on location for screen productions. Well-developed understanding of how sound is used in screen productions is essential, along with the ability to work cooperatively and sensitively with performers and other production crew members. No licensing, legislative, regulatory or certification requirements apply to this unit at the time of endorsement.

Application of the Unit

Application of the unit	Sound recordists and boom operators apply the skills and knowledge described in this unit. They are responsible for recording sound effects and location atmosphere. They are also responsible for using boom mounted microphones and radio microphones to record dialogue in both outdoor and indoor locations. The operation of the boom requires precision and physical stamina to ensure that the optimum quality sound is captured without interfering with camera operation or the movement of actors.

Licensing/Regulatory Information

Not applicable.

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

Pre-Requisites

Prerequisite units		

Employability Skills Information

Employability skills	This unit contains employability skills.

Elements and Performance Criteria Pre-Content

Elements describe the essential outcomes of a unit of competency.	Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the required skills and knowledge section and the range statement. Assessment of performance is to be consistent with the evidence guide.

Elements and Performance Criteria

ELEMENT	**PERFORMANCE CRITERIA**
Prepare for location recording	1. Confirm recording requirements in consultation with ***relevant personnel*** and with reference to scripts and other production ***documentation*** 2. Check that sound ***equipment and accessories*** are in working order prior to shoots 3. Ensure adequate supply of ***consumables*** is available for duration of sound recordings
Capture dialogue	4. Participate in technical run-throughs or rehearsals to determine optimum ***positioning*** of boom and microphone for recording shots 5. Rig sound equipment and accessories in line with safety, technical and ***production*** requirements 6. Attach radio or clip microphones to actors' clothing as required 7. Ensure run-up time is sufficient and ***synchronisation***

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

ELEMENT	PERFORMANCE CRITERIA
	codes are referenced to allow stable sound recording 8. Move boom according to scripted shots and respond to direction 9. Follow the actions and anticipate movements of relevant personnel 10. Ensure movement of boom is unobtrusive and sympathetic to actions of relevant personnel and does not generate unwanted noise 11. Monitor sound through headphones to ensure ***unwanted sounds*** are not being captured 12. Communicate with relevant personnel with minimal disruption to operations 13. Correct equipment failures with minimal disruption to operations
Capture sound effects	14. Record background location sound for use in post-production 15. Place multiple microphones in different positions to capture sound perspective of effects being recorded 16. Listen critically to recorded sound and re-record as required to achieve desired effect
Finalise sound-recording operations	17. Save recordings in the appropriate format and log/file in line with organisational procedures 18. Make safety copies or backups in line with organisational procedures 19. De-rig, check and clean sound equipment and accessories 20. Leave locations clean and restored to their pre-recording condition 21. Evaluate own performance against technical and creative criteria and note areas for improvement

Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE
This section describes the skills and knowledge required for this unit.
Required skills
• communication and teamwork skills sufficient to:

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

REQUIRED SKILLS AND KNOWLEDGE

- work cooperatively with camera and lighting operators and others involved in film shoots
  - respond appropriately to requests from performers
  - treat performers sensitively and with respect when positioning microphones
- numeracy skills sufficient to calculateduration and capacity of recording media at various speed/sample rates
- learning skills sufficient to maintain currency of knowledgeof recording equipment upgrades
- literacy skills sufficient to read and interpret scripts and production documentation
- planning and organisational skills sufficient to:
  - prioritise work tasks
  - meet deadlines
- initiative and enterprise skills in the context of:
  - finding creative solutions to sound-recording challenges
  - demonstrating a precise attention to detail
- problem-solving and self-management skills sufficient to:
  - apply critical-listening skills to sound recordings to identify faults in recording
  - promptly and effectively rectify equipment problems
  - comply with on-set protocols
  - work effectively under pressure
- technology skills sufficient to:
  - use a variety of sound-recording equipment
  - manage file structures to ensure compatibility with syncing and editing
  - make regular backups

Required knowledge

- roles and responsibilities of film and television production personnel
- on-set protocols
- well-developed understanding of how sound is used in film productions, including the interrelationship of dialogue, sound effects and musical elements
- principles and techniques of recordingsound for screen productions, including:
  - picture and sound synchronisation
  - creating a sense of audio continuity
  - interaction with camera and lighting crew
  - principles of sound, in particular direct versus reflected sound, and sound perspective
  - operational principles of microphones, including microphone placement
  - operational/technical limitations of recording media
  - acceptable compromises when it comes to the quality of captured sound

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

REQUIRED SKILLS AND KNOWLEDGE
• potential for parallax errors when operating side-on to the sound source • cues and how to respond to them • recording formats and technical standards • timecode levels and standards in analogue and digital applications • issues and challenges that typically arise in the context of recording sound on location • OHS principles of safe listening, including safeguards against hearing loss • relevant sections of the *Safety Guidelines for the Entertainment Industry*

Evidence Guide

EVIDENCE GUIDE	
The Evidence Guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, range statement and the Assessment Guidelines for the Training Package.	
Overview of assessment	
Critical aspects for assessment and evidence required to demonstrate competency in this unit	Evidence of the ability to: • record dialogue using a boom pole for at least two screen productions • record live sound effects on location • work cooperatively in a team environment • meet deadlines • observe safety guidelines on set.
Context of and specific resources for assessment	Assessment must ensure: • access to screen projects where dialogue and sound are being recorded • access to industry-current sound equipment and accessories • use of culturally appropriate processes, and techniques appropriate to the language and literacy capacity of learners and the work being performed.
Method of assessment	The following assessment methods are appropriate for this unit: • case studies to assess candidate's ability to deal with challenges that typically arise in the context of recording sound on location

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

EVIDENCE GUIDE	
	• evaluation of dialogue and sound recorded by the candidate • observation of candidate recording sound on location • written or oral questioning to test knowledge as listed in the required knowledge section of this unit.
Guidance information for assessment	Holistic assessment with other units relevant to the industry sector, workplace and job role is recommended, for example: • CUSSOU401A Record sound • CUSSOU407A Coordinate location sound recording.

Range Statement

RANGE STATEMENT	
The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording, if used in the performance criteria, is detailed below. Essential operating conditions that may be present with training and assessment (depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts) may also be included.	
Relevant personnel may include:	• director • producer • director of photography • production manager • first assistant director (1st AD) • sound supervisor • sound designer • sound recordist • boom operator • sound engineer • performer • actor • camera operator.
Documentation may include:	• production schedules • scripts • storyboards • shot lists.

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT	

Equipment and accessories may include:	• hard disk recorders
	• headphones
	• batteries
	• microphones, including:
	  • dynamic
	  • condenser
	  • radio
	  • omnidirectional
	  • cardioid
	  • hyper-cardioid
	  • figure of eight
	  • shotgun
	• microphone accessories, including
	  • tripod
	  • windscreens
	• boom pole, including:
	  • aluminium
	  • carbon fibre
	  • fisher
	  • hand-held
	  • perambulator
	  • remote panner
	• cables, including:
	  • balanced
	  • unbalanced
	• cable extensions
	• clips
	• connectors, including:
	  • female
	  • male
	  • XLR
	• housing
	• pop filters
	• shock mounts
	• stands, including:
	  • desk
	  • floor
	  • gooseneck

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT	
	• amplifiers • mixers • speakers.
Consumables may include:	• CDs • DVDs • memory cards • batteries • masking tape, marker pens and labels • cue sheets.
Positioning may involve:	• ensuring that boom and microphone are out of the frame of the camera • placing boom and microphone overhead • miking from below • mounting boom and microphone on a dolly • determining movement of boom and microphone during recording of shots • ensuring that position of the microphone, mounts, their shadows and reflections are as unobtrusive as possible • ensuring that extraneous and unwanted noises are not captured • ensuring that boom and microphone are not safety hazards.
Productions may include:	• feature films • documentaries • short films and videos • animation • corporate videos • training films and videos • drama programs • variety and lifestyle programs • news and current affairs • music videos • recordings of live productions • commercials • print advertisements.
Synchronisation may include:	• frame rates • synchronising sound and picture on film, such as: • crystal

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT	

	• sync tones
	• slating
	• time codes, such as:
	  • longitudinal
	  • SMPTE
	  • vertical interval
	  • MIDI
	  • IEC standard
	• time formats, such as:
	  • real time
	  • music time
	  • film time
	• transfers and dubs, such as:
	  • analogue to digital audio
	  • digital to digital audio
	  • film transferring.

Unwanted sounds may include:	• rustling from radio microphones
	• wind noise
	• hum or buzz
	• distortion
	• cable noise
	• extraneous location noises, such as:
	  • traffic
	  • doors closing
	  • electrical appliances.

Unit Sector(s)

Unit sector

CUSSOU407A Coordinate location sound recording

Modification History

Not applicable.

Unit Descriptor

Unit descriptor	This unit describes the performance outcomes, skills and knowledge required to coordinate location sound-recording operations for screen productions. Well-developed understanding of how sound is used in screen productions is essential, along with the ability to work cooperatively and sensitively with performers and other production crew members. No licensing, legislative, regulatory or certification requirements apply to this unit at the time of endorsement.

Application of the Unit

Application of the unit	Senior sound recordists apply the skills and knowledge described in this unit. They are responsible for ensuring that all dialogue and sound is recorded in line with technical and creative production requirements. On a low budget production they would typically be responsible for recording all sound, while on a large budget production they could be supervising sound recordists and monitoring the quality of recorded sound from a mixing desk.

Licensing/Regulatory Information

Not applicable.

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

Pre-Requisites

Prerequisite units		

Employability Skills Information

Employability skills	This unit contains employability skills.

Elements and Performance Criteria Pre-Content

Elements describe the essential outcomes of a unit of competency.	Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the required skills and knowledge section and the range statement. Assessment of performance is to be consistent with the evidence guide.

Elements and Performance Criteria

ELEMENT	**PERFORMANCE CRITERIA**
Clarify recording requirements	1. Participate in pre-production meetings with ***relevant personnel*** to determine scope of recording required 2. Plan recording with reference to scripts and other production ***documentation*** 3. Organise script extracts for sound recordists as required 4. Visit all locations to identify issues or problems that might arise in the context of recording sound and plan accordingly 5. Prepare a team work plan as required and brief personnel accordingly 6. Ensure the selection of sound ***equipment and accessories*** meets ***production*** requirements
Prepare for location	7. Ensure recording devices have sufficient capacity for

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

ELEMENT	PERFORMANCE CRITERIA
recording	expected duration of recordings 8. Ensure adequate supply of ***consumables*** is available for duration of sound recordings 9. Check that sound equipment and accessories are in working order prior to shoots 10. Negotiate with relevant personnel prior to shoots to ensure that recorded sound will meet ***post-production requirements*** 11. Ensure that sound equipment and accessories are rigged according to safety, and technical and production requirements
Monitor location sound recording	12. Participate in technical run-throughs or rehearsals to determine optimum ***positioning*** of boom and other microphones for recording dialogue and sound effects 13. Monitor the quality of sound being recorded and request additional takes as required 14. Provide advice to and supervise sound recordists as required
Finalise sound-recording operations	15. Ensure that recordings are saved in the appropriate format and logged/filed in line with organisational procedures 16. Ensure that safety copies or backups are made in line with organisational procedures 17. Ensure that sound equipment and accessories are de-rigged, checked and cleaned appropriately 18. Ensure that locations are clean and restored to their pre-recording condition 19. Provide feedback to team members as required 20. Evaluate own performance against technical and creative criteria and note areas for improvement

Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

	challenges that typically arise in the context of coordinating location sound recording • evaluation of dialogue and sound recorded by and/or under the supervision of the candidate • evaluation of work plans prepared by the candidate • observation of candidate monitoring sound-recording operations on location • written or oral questioning to test knowledge as listed in the required knowledge section of this unit.
Guidance information for assessment	Holistic assessment with other units relevant to the industry sector, workplace and job role is recommended, for example: • CUSSOU401A Record sound • CUSSOU406A Record sound on location.

Range Statement

RANGE STATEMENT	
The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording, if used in the performance criteria, is detailed below. Essential operating conditions that may be present with training and assessment (depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts) may also be included.	
Relevant personnel may include:	• director • producer • director of photography • production manager • first assistant director (1st AD) • sound supervisor • sound designer • sound recordist • boom operator • sound engineer • performer • actor • camera operator • lighting crew

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT	
	• art department • wardrobe department • make-up artist.
Documentation may include:	• production schedules • budgets • scripts • storyboards • shot lists.

Equipment and accessories may include:	• hard disk recorders
	• headphones
	• batteries
	• microphones, including:
	  • dynamic
	  • condenser
	  • radio
	  • omnidirectional
	  • cardioid
	  • hyper-cardioid
	  • figure of eight
	  • shotgun
	• microphone accessories, including:
	  • tripod
	  • windscreens
	• boom pole, including:
	  • aluminium
	  • carbon fibre
	  • fisher
	  • hand-held
	  • perambulator
	  • remote panner
	• cables, including:
	  • balanced
	  • unbalanced
	• cable extensions
	• clips
	• connectors, including:
	  • female
	  • male

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT	

	• XLR
	• housing
	• pop filters
	• shock mounts
	• stands, including:
	  • desk
	  • floor
	  • gooseneck
	• amplifiers
	• mixers
	• speakers.

Productions may include:	• feature films • documentaries • short films and videos • animation • corporate videos • training films and videos • drama programs • variety and lifestyle programs • news and current affairs • music videos • recordings of live productions • commercials • print advertisements.
Consumables may include:	• CDs • DVDs • memory cards • batteries • masking tape, marker pens and labels • cue sheets.
Post-production requirements may include:	• sync FX • location sound (atmos) • additional dialogue • file management systems.
Positioning may involve:	• ensuring that boom and microphone are out of the frame of the camera • placing boom and microphone overhead • miking from below • mounting boom and microphone on a dolly

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT	
	• determining movement of boom and microphone during recording of shots • ensuring that position of the microphone, mounts, their shadows and reflections are as unobtrusive as possible • ensuring that extraneous and unwanted noises are not captured • ensuring that boom and microphone are not safety hazards • placing multiple microphones in different positions to capture sound perspective of effects being recorded.

CUSSOU501A Develop sound designs

Modification History

Not applicable.

Unit Descriptor

Unit descriptor	This unit describes the performance outcomes, skills and knowledge required to develop sound designs from production briefs. Thorough understanding of the physical nature of sound is essential, along with research and creative-thinking skills to develop a range of options in response to design briefs. No licensing, legislative, regulatory or certification requirements apply to this unit at the time of endorsement.

Application of the Unit

Application of the unit	Sound designers apply the skills and knowledge described in this unit. They work in live theatre, film, television and radio and are responsible for collaborating with other creative personnel to develop the overall sound or musical identity of productions. Skills associated with managing the process of sound design are covered in: • CUSSOU601A Manage production of sound designs.

Licensing/Regulatory Information

Not applicable.

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

Pre-Requisites

Prerequisite units		

Employability Skills Information

Employability skills	This unit contains employability skills.

Elements and Performance Criteria Pre-Content

Elements describe the essential outcomes of a unit of competency.	Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the required skills and knowledge section and the range statement. Assessment of performance is to be consistent with the evidence guide.

Elements and Performance Criteria

ELEMENT	**PERFORMANCE CRITERIA**
Interpret and confirm sound design briefs	1. Participate in preliminary concept meetings with ***relevant personnel*** to discuss creative and technical sound requirements of ***productions*** 2. Continue liaison with relevant personnel until all sound requirements have been confirmed in the context of overall ***production requirements*** 3. Identify and confirm additional personnel needed to fulfil the sound design brief
Break down components of sound design briefs	4. Identify and document the ***sound sources*** specified in the design brief to determine the content, quality and duration of the required sound components 5. Determine and where necessary ***document*** the creative and resource requirements for each sound component 6. Confirm and document the role of personnel required for

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

ELEMENT	PERFORMANCE CRITERIA
	the process of developing sound design projects
Experiment with sound components to express ideas	7. Cultivate and create an energy and environment that will promote the generation of ideas among team members and provide the motivation and incentive to bring ideas to fruition 8. Gather information from a variety of sources and generate, explore and record a range of ideas and options as a creative base for developing the required sound design 9. Transform and manipulate the ideas generated and select those ideas that have the most potential for technical and creative development of the required sound design
Assess creative ideas	10. Contemplate and consider the ideas selected from the creative base, reflecting on and evaluating their viability, cost, technical feasibility and suitability to meet the requirements of the design brief 11. Continuously evaluate and verify creative ideas for the components of the design brief based on the overall sound design concept
Design sound elements	12. Develop sound design concepts taking into consideration the brief and the ideas generated 13. Determine the relevant sound components required to implement the sound design in line with creative and technical requirements 14. Establish a clear relationship between the use and integration of sound components and the function, context and objectives of the work to determine the sound design 15. As required, hold ongoing discussions with relevant personnel to consider, confirm and incorporate additional or changed production requirements and new ideas to achieve best sound design concept 16. Present the sound design in a ***specification*** that best conveys the concept to relevant personnel, including those responsible for implementing the design 17. Confirm final design concept with relevant personnel to ensure that implementation is consistent with the design and that potential difficulties are addressed
Evaluate completed sound designs	18. Discuss and obtain agreement from relevant personnel on ***evaluation techniques*** to evaluate the completed sound design 19. Focus the evaluation on whether the sound design meets

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

ELEMENT	PERFORMANCE CRITERIA
	all aspects of the design brief, and on the viability of the implementation plan 20. Obtain detailed information and opinions from legitimate sources and document results for evaluation 21. Communicate results of evaluation to relevant personnel and use results to improve future practice

Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE This section describes the skills and knowledge required for this unit.
Required skills

• research skills sufficient to locate and use relevant sources of sound and information to respond to creative requirements of sound design briefs
• communication and literacy skills sufficient to:
  • read and interpret design briefs
  • write reports documenting the design concept evaluation
  • develop sound design concept specifications
• initiative, enterprise and creative skills sufficient to:
  • listen critically toand continuously evaluate aspects of sound to fulfil and exceed the requirements of sound briefs
  • interpret music appropriately to ensure a sympathetic and appropriate approach to sound production
  • think laterally when developing concepts
  • shape music and sound imaginatively
  • communicate the production vision and concept within the constraints of production requirements
• problem-solving, planning and organisational skills sufficient to:
  • prioritise work tasks
  • meet deadlines
  • build contingencies into sound designs
  • provide appropriate and timely documentation
• teamwork skills sufficient to work cooperatively with and provide leadership to personnel involved in sound design and implementation
• technology skills sufficient to work with a variety of sound recording, production and playback equipment

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

REQUIRED SKILLS AND KNOWLEDGE
Required knowledge

• well-developed understanding of psychoacoustic principles, including:
  • spatial hearing
  • direct sound
  • early sound
  • reverberant sound
  • studio and control room design
  • ergonomics
• techniques for developing concepts and enhancing innovation, such as brainstorming andmind mapping
• techniques for conducting evaluations of concept designs
• industry knowledge, including:
  • musical styles, forms, elements, systems, practices and customs
  • styles of musical interpretation and sound production
  • relevant musical terminology
  • varied characteristics of sound in a range of recording and performance environments
  • physics and physical nature of sound
  • copyright legislation and permissions
  • issues and challenges that typically arise in the context of developing sound designs
• OHS principles of safe listening, including safeguards against hearing loss

Evidence Guide

EVIDENCE GUIDE	
The Evidence Guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, range statement and the Assessment Guidelines for the Training Package.	
Overview of assessment	

Critical aspects for assessment and evidence required to demonstrate competency in this unit	Evidence of the ability to:
	• develop at least threesound designs that:
	  • fulfil the requirements of design briefs
	  • combine a mix of sound sources
	• developspecifications that clearly communicate

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

EVIDENCE GUIDE	
	sound design concepts to relevant personnel • work effectively as a member of a sound design team.
Context of and specific resources for assessment	Assessment must ensure: • access to a range of industry-current equipment as listed in the range statement • access to sound briefs for a range of productions • use of culturally appropriate processes, and techniques appropriate to the language and literacy capacity of learners and the work being performed.
Method of assessment	The following assessment methods are appropriate for this unit: • evaluation of sound designs documented by the candidate and of their quality in terms of meeting creative briefs • written or oral questioning to test knowledge as listed in the required knowledge section of this unit • case studies to assess ability to develop sound designs for different types of productions or events • observation or recordings of team meetings where the candidate is presenting and seeking feedback on sound design concepts.
Guidance information for assessment	Holistic assessment with other units relevant to the industry sector, workplace and job role is recommended, for example: • CUSSOU503A Implement sound designs • CUSSOU504ACreate a final sound balance.

Range Statement

RANGE STATEMENT
The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording, if used in the performance criteria, is detailed below. Essential operating conditions that may be present with training and assessment (depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts) may also be included.

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT	

Relevant personnel may include:	• clients
	• artists, musicians and performers
	• audio personnel:
	  • sound engineers
	  • sound technicians
	  • sound editors
	  • sound designers
	  • sound effects personnel
	  • post-production editors
	  • foldback mixers
	  • front-of-house mixers
	  • recordists
	  • re-recording mixers
	  • audio stagehands
	• broadcasters
	• broadcast engineers
	• directors
	• producers
	• photographers
	• program managers
	• stage managers
	• floor managers
	• film/video crew.

Productions may include:	• live performance or event • commercial • print advertisement • corporate video • feature film and/or video • filmed event and/or performance • interactive media product • internet production • electronic game production • music recording and/or video • promotional trailer • radio broadcast • short film and/or video • television program • training film and/or video • voice-over.

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT	
Production requirements may include:	• technical • creative • artistic • attributions • audience • budget • confidentiality • content • contractual arrangements • copyright • deadlines • direct quotes • duration • intellectual property • interviews • location • purpose • schedule • style.
Sound sources may include:	• dialogue and voice-overs • special effects • music • walla • ambient sound • atmospheric sound • foley.
Documentation may include:	• pre-mix scripts • mixing sheets • track sheets • de-noising documents • cue sheets • dubbing sheets • queries • notes • manuals.
Specifications may include:	• dubbing charts • cue sheets • scripts • storyboards • scores

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT	
	• oral descriptions • recording formats.

Evaluation techniques may include:	• interviews
	• surveys
	• questionnaires
	• focus groups
	• demographic data
	• feedback
	• reviews
	• evaluation may include:
	  • clients
	  • stakeholders
	  • audience
	  • project personnel
	  • specialists.

CUSSOU502A Produce sound recordings

Modification History

Not applicable.

Unit Descriptor

Unit descriptor	This unit describes the performance outcomes, skills and knowledge required to produce a musical recording. No licensing, legislative, regulatory or certification requirements apply to this unit at the time of endorsement.

Application of the Unit

Application of the unit	Music producers and sound engineers apply the skills and knowledge described in this unit. They are responsible for working collaboratively and creatively with artists and performers to produce musical recordings which can be distributed through record companies and in a range of media, such as television, film, video and the internet. Even though their particular focus is on performers and their skills to produce a creative work, they are responsible also for the quality and balance of the final recording. In addition, they need a range of musical, technical, personal, business and management skills. Skills associated with managing the process of sound recordings are covered in: • CUSSOU602A Manage production of sound recordings.

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

Licensing/Regulatory Information

Not applicable.

Pre-Requisites

Prerequisite units		

Employability Skills Information

Employability skills	This unit contains employability skills.

Elements and Performance Criteria Pre-Content

Elements describe the essential outcomes of a unit of competency.	Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the required skills and knowledge section and the range statement. Assessment of performance is to be consistent with the evidence guide.

Elements and Performance Criteria

ELEMENT	**PERFORMANCE CRITERIA**
Confirm concept for recording project	1. Apply knowledge of commercial music trends, market niches, new musical styles and artists to develop the musical vision and concept for a ***recording project***
	2. Establish and discuss ***production requirements*** with ***relevant personnel***
	3. Apply musicianship knowledge and awareness of sound design possibilities to develop the underlying artistic style and creative concept for the recording
	4. Discuss and confirm vision for sound concepts with relevant personnel to achieve consensus on artistic

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

ELEMENT	PERFORMANCE CRITERIA
	values and agreed project outcomes 5. Address ***copyright requirements*** to ensure that the recording process and product comply with legislation
Confirm recording project arrangements	6. Confirm repertoire, artists, project vision and operational details in consultation with relevant personnel 7. In collaboration with artists, ensure that adequate time and facilities are provided to achieve the agreed performance standard within time and budget constraints 8. Plan and agree on communication processes and time schedules with artists and technical production personnel 9. Ensure that time schedules are drawn up and distributed to each artist for all proposed rehearsal and recording sessions 10. Liaise with technical staff regarding appropriate ***recording sites***
Manage recording sessions	11. Confirm that sessions are scheduled to allow adequate rehearsal and sound testing prior to main recording sessions 12. Ensure recording site, ***sound equipment*** and recording ***formats*** are appropriate for the ***media*** and project requirements 13. Communicate criticism of performers' work in a balanced, constructive and supportive manner that includes positive and achievable options for meeting desired artistic goals 14. Ensure that individual perspectives are considered and conflicting requirements are recognised and constructively negotiated 15. Continuously monitor all aspects of the recording and ensure that any necessary adjustments are made in line with creative and technical requirements 16. Collaborate with relevant personnel to ensure that sound balances are artistically appropriate
Evaluate the recording process and product	17. Discuss and obtain agreement on ***evaluation techniques*** for evaluating the recording process and completed product 18. Seek and obtain feedback from relevant personnel to assess the recording process and product 19. Evaluate own role in the production of recordings and note areas for improvement

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

ELEMENT	PERFORMANCE CRITERIA
	20. Use evaluation results to improve future practice

Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This section describes the skills and knowledge required for this unit.

Required skills

- communication and teamwork skills sufficient to:
  - interpret and clarify written proposals and creative briefs
  - understand artists' requirements
  - work effectively with artists and sound engineers
  - work constructively with group dynamics
  - identify and deal effectively with conflict
  - direct and monitor the work of others
- listening skills sufficient to:
  - use aural imagination to develop coherent and innovative artistic sound outcomes within the scope of planned artistic and commercial objectives
  - discriminate and enhance texture and tone colour in line with objectives
  - understand appropriate intonation, dynamics, phrasing, rhythm and expression to produce the required sound
  - listen critically to the creative and technical work of others
  - listen critically to and adjust performance of others to achieve the required sound
  - continuously evaluate and adjust the production of musical work
- planning and organisational skills sufficient to:
  - clarify roles
  - work within budgets and timeframes
  - plan recording projects
  - use time-management strategies to set priorities
  - develop systems for required documentation
- initiative, enterprise and creative skills sufficient to:
  - demonstrate artistic leadership
  - use innovative approaches to recording to enhance the interpretation and performance of music or to create new possibilities through artistic and technical effects
  - interpret music appropriately to ensure a sympathetic and appropriate approach

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

REQUIRED SKILLS AND KNOWLEDGE

to sound production
• technical skills sufficient to apply knowledge of acoustics:
  • in sound production to recording projects
  • to instruments/voices in placements and settings for sound balance in recording

Required knowledge

• well-developed understanding of psychoacoustic principles, including:
  • spatial hearing
  • direct sound
  • early sound
  • reverberant sound
  • studio and control room design
  • ergonomics
• industry knowledge, including:
  • varied characteristics of sound in a range of recording and performance environments
  • musical repertoire, styles, forms, systems, practices and customs
  • appropriate styles of musical interpretation and sound production
  • relevant musical terminology
  • features and characteristics of a range of instruments
  • performance customs of music genres relevant to selected area of music recording
  • copyright law and permissions
  • issues and challenges that arise in the context of producing musical recordings
• sound understanding of recording techniques, such as:
  • microphone and instrument/voice placement
  • application of effects
  • mixing sound sources
• issues and challenges that typically arise in the context of producing sound recordings
• OHS principles of safe listening, including safeguards against hearing loss

Evidence Guide

EVIDENCE GUIDE
The Evidence Guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, range statement and the Assessment

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

EVIDENCE GUIDE	
Guidelines for the Training Package.	
Overview of assessment	

Critical aspects for assessment and evidence required to demonstrate competency in this unit	Evidence of the ability to:
	• produce at least two sound recordings that demonstrate:
	  • well-developed critical-listening and aural-discrimination skills
	  • a creative and appropriate musical concept that demonstrates knowledge of musicianship, repertoire, recording techniques and an awareness of sound design possibilities
	• work creatively, collaboratively and constructively with performers to produce a sound recording.

Context of and specific resources for assessment	Assessment must ensure:
	• access to:
	  • relevant instruments and equipment
	  • scores, charts or other written music resources
	  • participants, such as performers and technical crew
	  • appropriate recording facilities with adequate space and acoustic qualities
	• use of culturally appropriate processes, and techniques appropriate to the language and literacy capacity of learners and the work being performed.

Method of assessment	The following assessment methods are appropriate for this unit: • observation of a recording session where the candidate is the producer • written or oral questioning to test knowledge as listed in the required knowledge section of this unit • authenticated musical recordings where the candidate was the producer • authenticated samples of project plans prepared by the candidate • case studies and scenarios as a basis for discussion about issues and challenges that arise in the context of producing musical recordings.
Guidance information for	Holistic assessment with other units relevant to the industry sector, workplace and job role is recommended,

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

EVIDENCE GUIDE	
assessment	for example: • BSBPMG510A Manage projects • CUFCMP501A Manage and exploit copyright arrangements • CUSSOU504A Create a final sound balance • CUSSOU603AManage production of sound recordings.

Range Statement

RANGE STATEMENT	
The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording, if used in the performance criteria, is detailed below. Essential operating conditions that may be present with training and assessment (depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts) may also be included.	
Recording projects may be for:	• solo artists • solo artists with backing • groups/ensembles • vocal • vocal and instrumental • instrumental, acoustic and/or electronic.
Production requirements may include:	• technical • creative • artistic • attributions • audience • budget • confidentiality • content • contractual arrangements • copyright • deadlines • direct quotes • duration • intellectual property • interviews

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT	
	• location • purpose • schedule • style.

Relevant personnel may include:	• clients
	• artists, musicians and performers
	• directors
	• producers
	• post-production personnel
	• program managers
	• sound designers and editors
	• video and sound recorders
	• audio personnel:
	  • sound engineers
	  • sound technicians
	  • sound editors
	  • sound designers
	  • sound effects personnel
	  • recordists
	  • re-recording mixers
	• broadcasters
	• broadcast engineers.

Copyright requirements may include:	• provisions of current Copyright Act
	• copyright permission procedures
	• attribution
	• moral rights and performer's rights
	• negotiating with copyright organisations, such as:
	  • owners of copyright: publishers, composers, etc.
	  • Australasian Performing Rights Association (APRA)
	  • Phonographic Performance Company of Australia Limited (PPCA)
	  • Australasian Mechanical Copyright Owners Society (AMCOS)
	  • Copyright Agency Limited (CAL)
	  • archives.

Recording site may include:	• dubbing theatre

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT	
	• on location, including interior and exterior • outside broadcast • post-production studio • recording studio • sound stage.

Sound equipment and accessories may include:	• amplifiers
	• analogue to digital converters
	• cables
	• compact disc (CD) and digital versatile disc (DVD) players and burners
	• computer technology and associated software
	• recording devices:
	  • hard disk recorder, e.g. digital audio workstation (DAW)
	  • digital audiotape recorder, e.g. S-DAT and R-DAT
	  • digital videotape recorder (DVTR)
	  • mini disc recorder (MD)
	  • modular digital multi-track recorder (MDM)
	• digital audio players, such as:
	  • iPod
	  • MP3
	• headphones
	• microphones and accessories
	• mixing consoles and desks
	• monitors and speakers
	• signal processors and plug-ins.

Formats may include:	• quarter inch audiotape • WAV • AIFF • Apple Lossless • WMA • MP3 • Vorbis • ATRAC • AAC.
Media may include:	• radio • video • CD

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT	
	• DVD • computer hard drive • internet • mobile device • film.

Evaluation techniques may include:	• interviews
	• surveys
	• questionnaires
	• focus groups
	• demographic data
	• feedback
	• reviews
	• evaluation may include:
	  • clients
	  • record companies
	  • stakeholders
	  • audience
	  • project personnel
	  • specialists.

CUSSOU503A Implement sound designs

Modification History

Not applicable.

Unit Descriptor

Unit descriptor	This unit describes the performance outcomes, skills and knowledge required to implement sound designs. Thorough understanding of a wide range of sound equipment and sound effects is required, along with the ability to supervise others, including sound mixers, sound editors and other studio technicians. The ability to solve problems that arise in the context of implementing sound designs is essential. No licensing, legislative, regulatory or certification requirements apply to this unit at the time of endorsement.

Application of the Unit

Application of the unit	Sound engineers or producers apply the skills and knowledge described in this unit. They work in live theatre, film, television and radio and are responsible for collaborating with other creative and technical personnel to implement sound designs. Skills associated with managing the process of sound design are covered in: • CUSSOU601A Manage production of sound designs.

Licensing/Regulatory Information

Not applicable.

Pre-Requisites

Prerequisite units		

Employability Skills Information

Employability skills	This unit contains employability skills.

Elements and Performance Criteria Pre-Content

Elements describe the essential outcomes of a unit of competency.	Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the required skills and knowledge section and the range statement. Assessment of performance is to be consistent with the evidence guide.

Elements and Performance Criteria

ELEMENT	**PERFORMANCE CRITERIA**
Confirm sound-design specifications	1. In consultation with ***relevant personnel*** confirm sound-design specifications, ensuring that they meet ***production requirements*** 2. Identify and confirm personnel needed to meet ***production*** briefs 3. Confirm requirements with regard to content, quality and duration of ***sound components*** 4. Identify and meet ***copyright requirements*** 5. Hold ongoing discussions with relevant personnel to consider, confirm and incorporate additional or changed production requirements and new ideas as required
Oversee the sound-production	6. Devise and/or obtain sound components to meet creative and technical requirements according to sound-design ***specifications***

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

ELEMENT	PERFORMANCE CRITERIA
process	7. Ensure that sound effects are recorded as required 8. Ensure that the manipulation of sound components achieves the desired sonic finish and style 9. Identify any changes to sound components in conjunction with relevant personnel 10. Obtain feedback from relevant personnel about work in progress and modify as required 11. Provide direction, advice and assistance to technical staff as required 12. Ensure that the final product is delivered in the required ***format*** for playback ***media*** 13. Make backup copies of recordings in line with enterprise procedures
Finalise operations	14. Ensure that ***documentation*** is prepared and updated as required 15. Ensure that recorded masters, version copies and backups are logged, labelled and stored in a secure and safe place 16. In consultation with relevant personnel, identify aspects of sound-design implementation that worked well and those that could be improved 17. Evaluate own role in operations and note areas for improvement 18. Provide feedback to team members on their performance as required 19. Document evaluation of operations in line with enterprise procedures

Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE
This section describes the skills and knowledge required for this unit.
Required skills

• literacy skills sufficient to:
  • read and interpret sound design concept specifications
  • write reports documenting the evaluation of the sound-design implementation
• initiative, enterprise and creativity in the context of:

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

REQUIRED SKILLS AND KNOWLEDGE

- listening critically to sound recordings and continuously evaluating and adjusting the sound balance
- using aural imagination to develop coherent and innovative artistic sound outcomes within the scope of productions
- accurately identifying and enhancing the characteristics of sound sources
- listening critically to the creative and technical work of others

- communication skills sufficient to:
  - communicate the production vision and concept within the constraints of production requirements
  - provide feedback to recording personnel on appropriate recording and production techniques
  - clearly explain/offer suitable alternatives when production recording difficulties cannot be resolved within operational constraints
- planning and organisational skills sufficient to prioritise work tasksand meet deadlines
- problem-solving skills sufficient to promptly and effectively rectify performance, performance environment and other technical issues that may affect the implementation of sound-design specifications
- teamwork skills sufficient to work cooperatively with and provide leadership to personnel involved in sound-design implementation
- technology skills sufficient to work with a variety of sound recording, production and playback equipment
- self-management skills sufficient toprovide appropriate and timely documentation

Required knowledge

- well-developed understanding of psychoacoustic principles, including:
  - spatial hearing
  - direct sound
  - early sound
  - reverberant sound
  - studio and control room design
  - ergonomics
- industry knowledge, including:
  - varied characteristics of sound in a range of recording and performance environments
  - operational knowledge of a range of sound recording, production and playback equipment
  - understanding compatibility in mono, stereo or multi-channel systems
  - principles and techniques involved in achieving a simultaneous balance
  - computer technologies relevant to sound production

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

REQUIRED SKILLS AND KNOWLEDGE
• copyright legislation and permissions • styles of musical interpretation and sound production • relevant musical terminology • well-developed knowledge of recording techniques, such as: • microphone and instrument/voice placement • application of special effects • mixing sound sources • issues and challenges that typically arise in the context of implementing sound designs • OHS principles of safe listening, including safeguards against hearing loss

Evidence Guide

EVIDENCE GUIDE	
The Evidence Guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, range statement and the Assessment Guidelines for the Training Package.	
Overview of assessment	
Critical aspects for assessment and evidence required to demonstrate competency in this unit	Evidence of the ability to: • implement sound designs on at least two occasions that creatively and technically meet sound-design specifications • work creatively and collaboratively with others on implementing sound designs.
Context of and specific resources for assessment	Assessment must ensure: • access to productions that require the implementation of sound designs • use of culturally appropriate processes, and techniques appropriate to the language and literacy capacity of learners and the work being performed.
Method of assessment	The following assessment methods are appropriate for this unit: • evaluation of soundaspects of productions implemented by candidate and of their quality in terms of meeting specifications • written or oral questioning to test knowledge as listed

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

EVIDENCE GUIDE	
	in the required knowledge section of this unit • case studies to assess ability to implementsound designs for different types of productions or events • authenticated recordings of productions where the candidate implemented sound designs.
Guidance information for assessment	Holistic assessment with other units relevant to the industry sector, workplace and job role is recommended, for example: • CUFCMP501A Manage and exploit copyright arrangements • CUSSOU401A Record sound • CUSSOU407A Coordinate location sound recording • CUSSOU501A Develop sound designs • CUSSOU504A Create a final sound balance.

Range Statement

RANGE STATEMENT	
The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording, if used in the performance criteria, is detailed below. Essential operating conditions that may be present with training and assessment (depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts) may also be included.	

Relevant personnel may include:	• clients
	• artists, musicians and performers
	• directors
	• producers
	• post-production personnel
	• program managers
	• sound designers and editors
	• video and sound recorders
	• audio personnel:
	  • sound engineers
	  • sound technicians
	  • sound editors
	  • sound designers
	  • sound effects personnel

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT	
	• post-production editors • foldback mixers • front-of-house mixers • recordists • re-recording mixers • audio stagehands • broadcasters • broadcast engineers • stage managers • floor managers • film/video crew.
Production requirements may include:	• technical • creative • artistic • attributions • audience • budget • confidentiality • content • contractual arrangements • copyright • deadlines • direct quotes • duration • intellectual property • interviews • location • purpose • schedule • style.
Productions may include:	• live performance or event • commercial • print advertisement • corporate video • feature film and/or video • filmed event and/or performance • interactive media product • internet production • electronic game production

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT	
	• music recording and/or video • promotional trailer • radio broadcast • short film and/or video • television program • training film and/or video • voice-over.
Sound components are sound sources specified in designs and may include:	• dialogues and voice-overs • special effects • music • walla • ambient sound • atmospheric sound • foley.

Copyright requirements may include:	• provisions of current Copyright Act
	• copyright permission procedures
	• attribution
	• moral rights and performer's rights
	• negotiating with copyright organisations, such as:
	  • owners of copyright, e.g. publishers, composers
	  • Australasian Performing Rights Association (APRA)
	  • Phonographic Performance Company of Australia Limited (PPCA)
	  • Australasian Mechanical Copyright Owners Society (AMCOS)
	  • Copyright Agency Limited (CAL)
	  • archives.

Specifications may include:	• dubbing charts • cue sheets • scripts • storyboards • scores • oral descriptions • recording formats.
Formats may include:	• quarter inch audiotape • WAV • AIFF

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT	
	• Apple Lossless • WMA • MP3 • Vorbis • ATRAC • AAC.
Media may include:	• radio • video • CD • DVD • computer hard drive • internet • mobile device • film.
Documentation may include:	• pre-mix scripts • mixing sheets • track sheets • de-noising documents • cue sheets • dubbing sheets • queries • notes • manuals.

Unit Sector(s)

Unit sector

CUSSOU504A Create a final sound balance

Modification History

Not applicable.

Unit Descriptor

Unit descriptor	This unit describes the performance outcomes, skills and knowledge required to create a final sound balance for a production. Thorough understanding of a wide range of sound equipment and techniques for mixing and recording sound is required, along with the ability to supervise others, including engineers, sound mixers, sound editors and other studio technicians. The ability to solve problems that arise in the context of creating a final sound balance is essential. No licensing, legislative, regulatory or certification requirements apply to this unit at the time of endorsement.

Application of the Unit

Application of the unit	Sound producers apply the skills and knowledge described in this unit. They work in live theatre, film, television and radio and are responsible for collaborating with other creative and technical personnel to create a final sound balance. Productions may be recorded or produced live.

Licensing/Regulatory Information

Not applicable.

Pre-Requisites

Prerequisite units	

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

Prerequisite units		

Employability Skills Information

Employability skills	This unit contains employability skills.

Elements and Performance Criteria Pre-Content

Elements describe the essential outcomes of a unit of competency.	Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the required skills and knowledge section and the range statement. Assessment of performance is to be consistent with the evidence guide.

Elements and Performance Criteria

ELEMENT	**PERFORMANCE CRITERIA**
Assess sound sources for simultaneous balance	1. Assess the compatibility of ***sound sources*** for ***productions*** 2. Discuss creative possibilities for achieving the simultaneous balance with ***relevant personnel*** 3. Propose options for meeting ***production requirements*** to relevant personnel as required 4. Collaborate effectively with others during the assessment process
Identify creative and artistic possibilities	5. Explore creative possibilities of sound sources and seek agreement on best options with relevant personnel 6. Take account of relevant information contained in production ***documentation*** when developing options 7. In consultation with relevant personnel ensure that the position and blend of sound sources meet artistic/creative requirements

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

ELEMENT	PERFORMANCE CRITERIA
Direct the final mix	8. Ensure that the relative levels of sound sources conform to loudness parameters 9. Ensure that transitions between sound sources are technically accurate and artistically appropriate 10. Adapt and adjust balance techniques to meet production requirements 11. Confirm that the sound balance and ***characteristics of sound*** are artistically and technically appropriate 12. Identify and remedy problems promptly as required to minimise disruption to the production process 13. Ensure that the level of the composite signal is within technical limits and the desired dynamic range 14. Work sensitively and constructively with relevant personnel to achieve best production outcomes 15. Apply critical listening throughout production to ensure that sound quality meets production requirements 16. Complete all work to meet production requirements and ensure that the ***work environment*** is cleaned and ready for the next user
Evaluate completed audio master	17. In consultation with relevant personnel identify aspects of the process of creating the final sound balance that worked well and those that could be improved 18. Evaluate own role in operations and note areas for improvement 19. Provide feedback to team members on their performance as required 20. Document evaluation of operations in line with enterprise procedures

Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE
This section describes the skills and knowledge required for this unit.
Required skills

• literacy skills sufficient to:
  • read and interpret recording documentation
  • write reports documenting the production process

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

REQUIRED SKILLS AND KNOWLEDGE

- initiative, enterprise and creativity in the context of:
  - listening critically to continuously evaluate and adjust the sound balance
  - using aural imagination to develop coherent and innovative artistic sound outcomes within the scope of productions
  - accurately identifying and enhancing the characteristics of sound sources
  - listening critically to the creative and technical work of others
- communication skills sufficient to:
  - communicate the production vision and concept within the constraints of the production requirements
  - provide feedback to recording personnel on appropriate recording and production techniques
  - clearly explain/offer suitable alternatives when production recording difficulties cannot be resolved within operational constraints
- planning and organisational skills sufficient to prioritise work tasksand meet deadlines
- problem-solving skills sufficient to promptly and effectively rectify performance, performance environment and other technical issues that may affect the achievement of a simultaneous sound balance
- teamwork skills sufficient to work cooperatively with and provide leadership to personnel involved in creating the final sound balance
- technology skills sufficient to work with a variety of sound recording, production and playback equipment
- self-management skills sufficient toprovide appropriate and timely documentation

Required knowledge

- well-developed understanding of psychoacoustic principles, including:
  - spatial hearing
  - direct sound
  - early sound
  - reverberant sound
  - studio and control room design
  - ergonomics
- industry knowledge, including:
  - varied characteristics of sound in a range of recording and performance environments
  - operational knowledge of a range of sound recording, production and playback equipment
  - understanding compatibility in mono, stereo or multi-channel systems
  - principles and techniques involved in achieving a simultaneous balance
  - computer technologies relevant to sound production

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

REQUIRED SKILLS AND KNOWLEDGE
• styles of musical interpretation and sound production • relevant musical terminology • well-developed knowledge of recording techniques, such as: • microphone and instrument/voice placement • application of special effects • mixing sound sources • issues and challenges that typically arise in the context of creating a final sound balance • OHS principles of safe listening, including safeguards against hearing loss

Evidence Guide

EVIDENCE GUIDE	
The Evidence Guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, range statement and the Assessment Guidelines for the Training Package.	
Overview of assessment	
Critical aspects for assessment and evidence required to demonstrate competency in this unit	Evidence of the ability to: • create final sound balances on at least two occasions that: • demonstrate well-developed critical-listening and aural-discrimination skills • meet creative and artistic requirements • work creatively, collaboratively and constructivelyin a team environment, including providing leadership to others.
Context of and specific resources for assessment	Assessment must ensure: • access to a range of industry-current equipment as listed in the range statement • access to a range of productions • use of culturally appropriate processes, and techniques appropriate to the language and literacy capacity of learners and the work being performed.
Method of assessment	The following assessment methods are appropriate for this unit: • evaluation of final sound balances created by

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

EVIDENCE GUIDE	
	candidate and of their quality in terms of meeting specifications • written or oral questioning to test knowledge as listed in the required knowledge section of this unit • case studies to assess ability to create final sound balances for different types of productions or events • authenticated recordings of productions where the candidate created the final sound balance.
Guidance information for assessment	Holistic assessment with other units relevant to the industry sector, workplace and job role is recommended, for example: • CUSSOU401A Record sound • CUSSOU403A Perform advanced sound editing • CUSSOU405A Mix recorded music • CUSSOU501ADevelop sound designs • CUSSOU503AImplement sound designs.

Range Statement

RANGE STATEMENT	
The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording, if used in the performance criteria, is detailed below. Essential operating conditions that may be present with training and assessment (depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts) may also be included.	
Sound sources may include:	• dialogues and voice-overs • additional dialogue recording (ADR) • special effects • music • walla • ambient sound • atmospheric sound • foley.
Productions may include:	• live performance or event • commercial • print advertisement • corporate video

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT	
	• feature film and/or video • filmed event and/or performance • interactive media product • internet production • electronic game production • music recording and/or video • promotional trailer • musical theatre • dance • radio broadcast • short film and/or video • television program • training film and/or video • voice-over.

Relevant personnel may include:	• clients
	• artists, musicians and performers
	• directors
	• producers
	• post-production personnel
	• program managers
	• sound designers and editors
	• video and sound recorders
	• audio personnel:
	  • sound engineers
	  • sound technicians
	  • sound editors
	  • sound designers
	  • sound effects personnel
	  • post-production editors
	  • foldback mixers
	  • front-of-house mixers
	  • recordists
	  • re-recording mixers
	  • audio stagehands
	• broadcasters
	• broadcast engineers
	• stage managers
	• floor managers
	• film/video crew.

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT	
Production requirements may include:	• technical • creative • artistic • attributions • audience • budget • confidentiality • content • contractual arrangements • copyright • deadlines • direct quotes • duration • intellectual property • interviews • location • purpose • schedule • style.
Documentation may include:	• pre-mix scripts • mixing sheets • track sheets • cue sheets • dubbing sheets • queries • notes • manuals.
Characteristics of sound may include:	• level • frequency • mono/stereo/5.1 surround sound • spatial position/image • balance • tonal quality • perspective • acoustic • dynamic range.
Work environment may include:	• dubbing theatre • on location, including interior and exterior • outside broadcast • post-production studio

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT	
	• recording studio • sound stage.

CUSSOU505A Compile music for soundtracks

Modification History

Not applicable.

Unit Descriptor

Unit descriptor	This unit describes the performance outcomes, skills and knowledge required to integrate musical elements into soundtracks for screen productions. An excellent ear for music and a broad knowledge of music styles are essential, along with good interpersonal communication skills, since music editors are sometimes called upon to help smooth out differences between composers and directors. No licensing, legislative, regulatory or certification requirements apply to this unit at the time of endorsement.

Application of the Unit

Application of the unit	Music editors apply the skills and knowledge described in this unit. They work collaboratively with composers, music supervisors, screen producers and/or directors on the selection, production and recording of music for soundtracks for screen productions. At a production level, they are responsible for matching and synchronising music components.

Licensing/Regulatory Information

Not applicable.

Pre-Requisites

Prerequisite units		

Employability Skills Information

Employability skills	This unit contains employability skills.

Elements and Performance Criteria Pre-Content

Elements describe the essential outcomes of a unit of competency.	Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the required skills and knowledge section and the range statement. Assessment of performance is to be consistent with the evidence guide.

Elements and Performance Criteria

ELEMENT	**PERFORMANCE CRITERIA**
Confirm scope of soundtrack project	1. Liaise with ***relevant personnel*** to confirm ***production values*** and expectations in relation to the soundtrack 2. Confirm role of all personnel involved in compiling the soundtrack for a ***production***, including own role 3. Identify ***factors*** that may affect the compilation of the soundtrack and plan own work accordingly
Determine technical and musical requirements	4. Confirm studio arrangements to ensure that all resources are sufficient to meet agreed ***technical requirements*** 5. Obtain a shot list and music components for the soundtrack and map musical events and duration to film shots 6. Assess whether any specific ***equipment*** is needed to produce required music score in line with the shot list 7. Ensure that required equipment is available on time to meet ***production requirements***

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

ELEMENT	PERFORMANCE CRITERIA
	8. Check which music components are live and which are to come from other sources and ensure that all components will be available in line with production schedules
Compile soundtracks for moving image sequences	9. Determine moving image sequences that require theme, incidental or other music 10. Establish routines with the director and film editor for viewing, assessing and discussing shot material 11. Source, secure and prepare ***music components*** for the soundtrack ensuring that ***copyright requirements*** are met 12. Monitor the acoustic quality of the soundtrack to consistently achieve the required sound 13. Incorporate feedback from others on work in progress as required
Synchronise music components of soundtracks to moving image sequences	14. Identify and observe correct frame rate for video or film to ensure synchronisation between sound and images 15. Match music components to screen images or sequences 16. Confirm with relevant personnel that the quality of music/sound components aligns with overall production concept and style 17. Modify settings or sound quality of musical components in soundtracks according to feedback and other sound elements as required 18. Ensure the integrity of timing, sequencing, sound quality and integration with other elements of soundtracks 19. Present completed soundtrack to relevant personnel in line with production requirements
Evaluate work	20. In consultation with relevant personnel identify aspects of the process of compiling music for a soundtrack that worked well and those that could be improved 21. Evaluate the quality and success of the music soundtrack in meeting production requirements and planned outcomes 22. Evaluate own role in operations and note areas for improvement 23. Compare work against previous compositions to assess innovation and the development of techniques and ideas 24. Provide feedback to team members on their performance as required 25. Document evaluation of operations in line with enterprise procedures and use results of evaluation to

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

ELEMENT	PERFORMANCE CRITERIA
	improve own work practices

Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE
This section describes the skills and knowledge required for this unit.
Required skills

- research skills sufficient to locate musical components for soundtracks
- literacy skills sufficient to:
  - read and interpret design briefs
  - follow a full notated music score
- listening and technical skills sufficient to:
  - make music sequencing decisions based on timeframes and beats
  - discriminate sound texture and colour
  - sequence sound in time with pictures for appropriate textures, harmonies, duration and dynamics at each required point
  - ensure soundtrack quality
  - use sound effects and sound samples in compiling soundtrack
  - operate industry-standard sound editing and synchronisation software
- communication and teamwork skills sufficient to:
  - work cooperatively with composers, directors, producers and other artists
  - work effectively in a production team
- initiative, enterprise and creativity in the context of:
  - matching the most appropriate musicto screen images in line with overall artistic vision of productions
  - using innovative approaches to meet soundtrackrequirements
  - listening critically to continuously evaluate and adjust the sound balance
  - listening critically to the creative and technical work of others
- planning and organisational skills sufficient to:
  - work within established budgets and timeframes to achieve planned outcomes
  - demonstrate reliability in all agreed work commitments
  - use time-management strategies to set priorities
- self-management skills sufficient to:
  - meet deadlines
  - provide appropriate and timely documentation

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

REQUIRED SKILLS AND KNOWLEDGE
Required knowledge

• well-developed understanding of:
  • principles and techniques involved in compiling music for soundtracks
  • computer technologies relevant to compiling music for soundtracks
  • film-making aesthetics, processes and technologies
  • issues and challenges that typically arise in the context of compiling music for soundtracks
• music knowledge, including:
  • musical styles
  • musical concepts and ideas in the context of compiling music for soundtracks
  • typical formats for musical plans
  • relevant musical terminology
• copyright law and permissions
• OHS principles of safe listening, including safeguards against hearing loss

Evidence Guide

EVIDENCE GUIDE	
The Evidence Guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, range statement and the Assessment Guidelines for the Training Package.	
Overview of assessment	

Critical aspects for assessment and evidence required to demonstrate competency in this unit	Evidence of the ability to:
	• compile at least three music soundtracks that:
	  • demonstrate well-developed critical-listening and aural-discrimination skills
	  • meet creative and artistic requirements
	  • meet technical requirements for screen soundtracks
	• work creatively, collaboratively and constructively in a team environment.

Context of and specific resources for assessment	Assessment must ensure: • access to a range of industry-current equipment as listed in the range statement • access to productions that require music soundtracks

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

EVIDENCE GUIDE	
	• use of culturally appropriate processes, and techniques appropriate to the language and literacy capacity of learners and the work being performed.
Method of assessment	The following assessment methods are appropriate for this unit: • evaluation of the quality of music soundtracks compiled by candidate in terms of meeting artistic and technical requirements • written or oral questioning to test knowledge as listed in the required knowledge section of this unit • case studies or scenarios to discuss issues, methods and strategies in compiling music soundtracks for screen productions • authenticated recordings of productions where the candidate compiled the music soundtrack.
Guidance information for assessment	Holistic assessment with other units relevant to the industry sector, workplace and job role is recommended, for example: • CUFCMP501A Manage and exploit copyright arrangements • CUFIND401A Provide services on a freelance basis • CUSMCP501A Compose music using electronic media • CUSMCP502A Compose music for screen.

Range Statement

RANGE STATEMENT	
The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording, if used in the performance criteria, is detailed below. Essential operating conditions that may be present with training and assessment (depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts) may also be included.	
Relevant personnel may include:	• client • musician • performer • composer

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT	
	• musical assistant • music mixer • music supervisor • effects editor • effects mixer • recordist • re-recording mixer • audio operators and dubbing machine operator • audio and sound engineer • broadcaster • director • producer • post-production editor • program manager • sound designer.
Production values may include:	• artistic style and quality • overall sound quality aligned with production vision • performance quality manifested in recordings • position and blend of sound sources • relative levels of sound sources • transitions between sound sources • overall sound balance • clarity of sound • colour of sound • sound textures • timbre • orchestration • attack • articulation • dynamics • melody and harmony • mood/phrasing and expression.
Productions may include:	• feature films • documentaries • animated productions • short films • commercials • filmed events or performances • music videos

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT	
	• television productions of any type.
Factors may include:	• design briefs • available personnel • number of people required to complete task • recording requirements • available resources • communication requirements • production values • available budget • provision of a quote for services • complexity of soundtrack • intellectual property • production schedules • technical considerations • timelines.
Technical requirements may include:	• working sympathetically with musical elements in productions • coordinating performances of music to be included in a soundtrack • sourcing additional sound and effects • recording a range of different types of instruments from live and synthesised sources • plotting sound to picture • sequencing • prescoring • animatics • voice-over.
Equipment may include:	• music-recording equipment • MIDI • electronic hardware and software for generating or orchestrating music • timecode systems • preamp, signal processor and compressor • mixers • sequencers • DAT • special effects devices.
Production requirements may include:	• technical • creative • artistic

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT	
	• attributions • audience • budget • confidentiality • content • contractual arrangements • copyright • deadlines • direct quotes • duration • intellectual property • interviews • location • purpose • schedule • style.
Music components may include:	• original music scored for screen productions • music tracks • music sequences • samples • themes • temp tracks • incidental music.

Copyright requirements may include:	• provisions of current Copyright Act
	• copyright permission procedures
	• attribution
	• moral rights and performer's rights
	• negotiating with copyright organisations, such as:
	  • owners of copyright: publishers, composers, etc.
	  • Australasian Performing Rights Association (APRA)
	  • Phonographic Performance Company of Australia Limited (PPCA)
	  • Australasian Mechanical Copyright Owners Society (AMCOS)
	  • Copyright Agency Limited (CAL)
	  • archives.

CUSSOU601A Manage production of sound designs

Modification History

Not applicable.

Unit Descriptor

Unit descriptor	This unit describes the performance outcomes, skills and knowledge required to manage the production of a sound design project. Well-developed planning and organisational skills are required, along with an ability to work collaboratively and creatively in a leadership role with those who contribute to the production of sound designs, e.g. artists, performers, producers and sound engineers. No licensing, legislative, regulatory or certification requirements apply to this unit at the time of endorsement.

Application of the Unit

Application of the unit	Production administrators, executive producers or project managers apply the skills and knowledge described in this unit. They are responsible for managing the production of sound designs, including planning and monitoring the production, engaging specialists where required and overseeing and evaluating sound aspects of productions. They could be working in the live entertainment or screen production industries.

Licensing/Regulatory Information

Not applicable.

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

Pre-Requisites

Prerequisite units		

Employability Skills Information

Employability skills	This unit contains employability skills.

Elements and Performance Criteria Pre-Content

Elements describe the essential outcomes of a unit of competency.	Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the required skills and knowledge section and the range statement. Assessment of performance is to be consistent with the evidence guide.

Elements and Performance Criteria

ELEMENT	**PERFORMANCE CRITERIA**
Clarify sound design brief	1. Participate in preliminary concept meetings with ***relevant personnel*** to discuss ***sound-design specifications*** for ***productions*** 2. Read and interpret sound-design specifications to determine and confirm ***production requirements*** 3. Identify and confirm personnel required for the production 4. Take account of financial and time constraints when planning production of sound designs 5. ***Document*** all ***operational requirements*** needed for the production of sound designs
Plan the production of sound designs	6. Secure the personnel, ***facilities*** and ***equipment*** needed in a timely fashion

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

ELEMENT	PERFORMANCE CRITERIA
	7. Ensure that ***copyright requirements*** are met 8. Contract and brief personnel as required 9. Ensure that arrangements are in place for ongoing communication with sound designers and other relevant personnel so that artistic vision of sound designs can be achieved and resources are available when required 10. Anticipate issues that may arise during the production of sound designs and plan accordingly
Direct the production of sound designs	11. Source and obtain all ***sound components*** necessary to fulfil creative and technical requirements of production briefs 12. Comply with relevant OHS legislation and guidelines throughout all stages of productions 13. Direct the final mix, including recording, mixing and/or editing sound components to achieve the desired sonic finish/style and spatial placement 14. Obtain feedback from relevant personnel about the sound design and negotiate changes as required 15. Deal effectively and promptly with conflicts that arise and work towards solutions that cause least disruption to production schedules 16. Ensure that final mixdown is locked off and transferred to a suitable ***medium*** in line with production requirements 17. Ensure that backup copies are provided for relevant personnel in the required format 18. Maintain documentation as required through all stages of sound-design implementation
Finalise production of sound designs	19. Discuss and obtain agreement from relevant personnel about ***evaluation techniques*** 20. Focus evaluations on the design-production management process and document results 21. Evaluate own role in operations and note areas for improvement 22. Provide feedback to team members on their performance as required 23. Document evaluation of operations in line with enterprise procedures 24. Communicate results to relevant personnel and use results to improve future practice

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This section describes the skills and knowledge required for this unit.

Required skills

- communication skills sufficient to:
  - interact effectively with people with diverse interests and needs
  - show strong leadership qualities and work closely with team members
  - conduct effective negotiations with a wide range of production personnel, external suppliers and service providers
  - coordinate production meetings and brief staff to achieve required outcomes
  - identify and deal positively and constructively with conflictin a timely and collaborative mannerto achieve best production outcomes
- well-developed planning and organisational skills sufficient to coordinate all aspects of managing the production of sound designs, including working within budgets
- well-developed project management skills covering both physical and human resources
- self-management skills sufficient to:
  - work under pressure
  - provide appropriate and timely documentation
  - meet deadlines
  - evaluate own performance
- initiative and flexibility when responding to unexpected changes in the production schedule or process
- literacy skills sufficient to interpret written instructions and to prepare progress and evaluation reports
- numeracy skills sufficient to interpret, monitor and adjust budgets and cost estimates

Required knowledge

- meeting procedures and protocols as they relate to productions
- musical, artistic and technical elements associated with music productions and recordings
- well-developed understanding of:
  - administrative procedures associated with managing a production
  - content, format and timing of different types of documentation
  - duty of care to colleagues and general public
- industry knowledge, including:
  - structure of the relevant industry sector
  - roles and responsibilities of personnel

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

REQUIRED SKILLS AND KNOWLEDGE
• current industry practices, e.g. industrial awards, workers' compensation and contracts • music and sound terminology • sources of products, supplies and equipment • impact of technology on production operations • phases and practices in the production process • issues and challenges that typically arise in the context of managing the production of sound designs • OHS and public safety legislation and regulations as they apply to productions

Evidence Guide

EVIDENCE GUIDE	
The Evidence Guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, range statement and the Assessment Guidelines for the Training Package.	
Overview of assessment	
Critical aspects for assessment and evidence required to demonstrate competency in this unit	Evidence of the ability to: • demonstrate high-level management and communication skills as a team leader • manage at a practical level the production of sound designs • produce creative solutions within constraints of budgets and resources.
Context of and specific resources for assessment	Assessment must ensure: • access to a range of industry-current equipment as listed in the range statement • access to a range of productions • use of culturally appropriate processes, and techniques appropriate to the language and literacy capacity of learners and the work being performed.
Method of assessment	The following assessment methods are appropriate for this unit: • evaluation of sounddesigns, where the production was managed by candidate, and of their quality in terms of meeting specifications

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

EVIDENCE GUIDE	
	• written or oral questioning to test knowledge as listed in the required knowledge section of this unit • case studies to assess ability to manage the production ofsound designs for different types of productions or events • observation or video/audio recordings of production meetings chaired by the candidate to assess team leading skills.
Guidance information for assessment	Holistic assessment with other units relevant to the industry sector, workplace and job role is recommended, for example: • BSBFIM501A Manage budgets and financial plans • BSBOHS509A Ensure a safe workplace • BSBPMG510A Manage projects • CUFCMP501A Manage and exploit copyright arrangements • CUSSOU602A Manage production of sound recordings.

Range Statement

RANGE STATEMENT	
The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording, if used in the performance criteria, is detailed below. Essential operating conditions that may be present with training and assessment (depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts) may also be included.	

Relevant personnel may include:	• clients
	• artists, musicians and performers
	• program managers
	• audio personnel:
	  • sound engineers
	  • sound technicians

RANGE STATEMENT	
	• confidentiality • content • contractual arrangements • copyright • deadlines • direct quotes • duration • intellectual property • interviews • location • purpose • schedule • style.
Documentation may include:	• pre-mix scripts • mixing sheets • track sheets • de-noising documents • cue sheets • dubbing sheets • queries • notes • manuals.
Operational requirements *may include*:	• sound materials • sound sources • facilities, equipment and personnel • technical specifications • schedules.
Facilities may include:	• dubbing theatre • on location, including interior and exterior • outside broadcast • post-production studio • recording studio • sound stage.
Equipment and accessories may include:	• amplifiers • analogue to digital converters • cables • compact disc (CD) and digital versatile disc (DVD) players and burners • computer technology and associated software • recording devices:

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT	
	• hard disk recorder, e.g. digital audio workstation (DAW) • mini disc recorder (MD) • modular digital multi-track recorder (MDM) • digital audio players, such as: • iPod • MP3 • headphones • microphones and accessories • mixing consoles • monitors and speakers • signal processors and plug-ins.
Copyright requirements may include:	• provisions of current Copyright Act • copyright permission procedures • attribution • moral rights and performers' rights • negotiating with copyright organisations, such as: • owners of copyright: publishers, composers, etc. • Australasian Performing Rights Association (APRA) • Phonographic Performance Company of Australia Limited (PPCA) • Australasian Mechanical Copyright Owners Society (AMCOS) • Copyright Agency Limited (CAL) • archives.
Sound components may include:	• dialogue • additional dialogue recording (ADR) • music • literal sound effects • sound samples • synthesised sound • atmospheric sound • ambient sound • sound effects (FX) • foley.

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT	
Media may include:	• radio • video • CD • DVD • computer hard drive • internet • mobile device • film.

Evaluation techniques may include:	• interviews
	• surveys
	• questionnaires
	• focus groups
	• demographic data
	• feedback
	• reviews
	• evaluation may include:
	  • clients
	  • stakeholders
	  • audience
	  • project personnel
	  • specialists.

CUSSOU602A Manage production of sound recordings

Modification History

Not applicable.

Unit Descriptor

Unit descriptor	This unit describes the performance outcomes, skills and knowledge required to manage the production of sound recordings. Well-developed planning and organisational skills are required, along with an ability to work collaboratively and creatively in a leadership role with those who contribute to the production of sound recordings, e.g. artists, performers, producers and sound specialists. No licensing, legislative, regulatory or certification requirements apply to this unit at the time of endorsement.

Application of the Unit

Application of the unit	Production administrators, executive producers or project managers apply the skills and knowledge described in this unit. They are responsible for managing the production of sound recordings, including planning and monitoring rehearsals and recording sessions, engaging specialists where required and overseeing and evaluating the quality of finished recordings. They could be working in the live entertainment or screen production industries.

Licensing/Regulatory Information

Not applicable.

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

Pre-Requisites

Prerequisite units		

Employability Skills Information

Employability skills	This unit contains employability skills.

Elements and Performance Criteria Pre-Content

Elements describe the essential outcomes of a unit of competency.	Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the required skills and knowledge section and the range statement. Assessment of performance is to be consistent with the evidence guide.

Elements and Performance Criteria

ELEMENT	**PERFORMANCE CRITERIA**
Clarify sound-recording brief	1. Participate in production meetings with ***relevant personnel*** to confirm the vision, sound concepts, ***production values*** and expected outcomes for ***recording projects*** 2. Confirm ***production requirements*** 3. Finalise and confirm repertoire, artists and operational details for recording projects in consultation with relevant personnel
Organise resources	4. Identify and confirm production staff requirements and recruit personnel needed for recording projects 5. Ensure artists are secured, confirmed and contracted as required 6. Identify and secure appropriate ***venues*** and resources for rehearsal and recording sessions

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

ELEMENT	PERFORMANCE CRITERIA
	7. Ensure that contracts required for staff and venues are finalised
Prepare for production of sound recordings	8. Ensure that arrangements are in place for ongoing communication with relevant personnel so that artistic vision can be achieved and resources are available when required 9. Ensure that accurate rehearsal and recording session schedules are drawn up and distributed to relevant personnel 10. Ensure that a project schedule for production meetings is finalised and distributed to each technical team member 11. Anticipate issues that may arise during the production of sound recordings and plan accordingly 12. Ensure that the technical team is fully briefed on operations, production values and contingency plans 13. Comply with relevant OHS, ***copyright*** and other legal requirements
Manage recording sessions	14. Ensure that communication in sessions and production meetings is comprehensive and constructive and that ***documentation*** is completed correctly 15. Ensure that all production resources and requirements are in place for recording sessions and other associated activities 16. Communicate systematically with the producer/director to verify and maintain the required production quality 17. Communicate with and direct production staff constructively and consistently through prerecording, recording and post-production to achieve agreed production values 18. Comply with agreed quality, time and budget constraints at all stages of the production
Maintain effective communication with production staff and artists	19. Ensure that agendas for production meetings are planned and circulated to all relevant parties in advance and that discussion of concerns is encouraged to establish and achieve planned artistic outcomes 20. Ensure that individual perspectives are considered and conflicting requirements are recognised and constructively negotiated 21. In collaboration with relevant personnel, ensure that the quality of musical and technical preparation is maintained throughout the production and take action as

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

ELEMENT	PERFORMANCE CRITERIA
	required
Manage post-production	22. Ensure that all components of post-production mix meet agreed production values 23. Facilitate continuing input from artists and director/producer into the post-production process and take remedial action as required 24. Ensure that the physical components of post-production are delivered correctly and in the required ***formats***
Evaluate production of sound recordings	25. Discuss and obtain agreement from relevant personnel about ***evaluation techniques*** 26. Focus evaluations on the way the process of managing sound recordings was handled and document results 27. Evaluate own role in operations and note areas for improvement 28. Provide feedback to team members on their performance as required 29. Document evaluation of operations in line with enterprise procedures

Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This section describes the skills and knowledge required for this unit.

Required skills

- communication skills sufficient to:
  - interact effectively with people with diverse interests and needs
  - show strong leadership qualities and work closely with team members
  - conduct effective negotiations with a wide range of production personnel, and external suppliers and service providers
  - coordinate production meetings and brief staff to achieve required outcomes
  - identify and deal positively and constructively with conflict in a timely and collaborative manner to achieve best production outcomes
- well-developed planning and organisational skills sufficient to coordinate all aspects of managing the production of sound recordings, including working within budgets
- well-developed project management skills covering both physical and human resources

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

REQUIRED SKILLS AND KNOWLEDGE

• self-management skills sufficient to:
  • work under pressure
  • provide appropriate and timely documentation
  • meet deadlines
  • evaluate own performance
• initiative and flexibility when responding to unexpected changes in the production schedule or process
• literacy skills sufficient to interpret written instructions and to prepare progress and evaluation reports
• numeracy skills sufficient to interpret, monitor and adjust budgets and cost estimates

Required knowledge

• meeting procedures and protocols as they relate to productions
• musical, artistic and technical elements associated with music productions and recordings
• well-developed understanding of:
  • administrative procedures associated with managing the production of sound recordings
  • content, format and timing of different types of documentation
  • duty of care to colleagues and general public
• industry knowledge, including:
  • structure of the relevant industry sector
  • roles and responsibilities of personnel
  • current industry practices, e.g. industrial awards, workers' compensation and contracts
  • music and sound terminology
  • sources of products, supplies and equipment
  • impact of technology on production operations
  • phases and practices in the production process
• issues and challenges that typically arise in the context of managing the production of sound recordings
• OHS and public safety legislation and regulations as they apply to sound-recording projects

Evidence Guide

EVIDENCE GUIDE

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

EVIDENCE GUIDE	
The Evidence Guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, range statement and the Assessment Guidelines for the Training Package.	
Overview of assessment	
Critical aspects for assessment and evidence required to demonstrate competency in this unit	Evidence of the ability to: • demonstrate high-level management and communication skills as a team leader • manage at a practical level the production of sound recordings to meet desired production values • produce creative solutions within constraints of budgets and resources.
Context of and specific resources for assessment	Assessment must ensure: • access to a range of industry-current equipment and facilities as listed in the range statement • access to a range of recording projects • use of culturally appropriate processes, and techniques appropriate to the language and literacy capacity of learners and the work being performed.
Method of assessment	The following assessment methods are appropriate for this unit: • evaluation of soundrecordings, where the production was managed by candidate, and of their quality in terms of meeting specifications • written or oral questioning to test knowledge as listed in the required knowledge section of this unit • case studies to assess ability to manage the production ofsound recordings for different types of recording projects • observation or video/audio recordings of production meetings chaired by the candidate to assess team leading skills.
Guidance information for assessment	Holistic assessment with other units relevant to the industry sector, workplace and job role is recommended, for example: • BSBFIM501A Manage budgets and financial plans • BSBOHS509A Ensure a safe workplace • BSBPMG510A Manage projects • CUFCMP501A Manage and exploit copyright arrangements

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

EVIDENCE GUIDE	
	• CUSSOU601A Manage production of sound designs.

Range Statement

RANGE STATEMENT	
The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording, if used in the performance criteria, is detailed below. Essential operating conditions that may be present with training and assessment (depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts) may also be included.	

Relevant personnel may include:	• clients
	• record companies
	• artists, musicians and performers
	• program managers
	• audio personnel:
	  • sound engineers
	  • sound technicians
	  • sound editors
	  • sound designers
	  • sound effects personnel
	  • post-production editors
	  • foldback mixers
	  • front-of-house mixers
	  • recordists
	  • re-recording mixers
	  • audio stagehands
	• broadcasters
	• broadcast engineers
	• directors
	• producers
	• photographers
	• program managers
	• stage managers
	• floor managers
	• film/video crew.

Production values may include:	• artistic quality

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT	
	• overall sound quality aligned with production vision • performance quality manifested in the recording • position and blend of sound sources • relative levels of sound sources • transitions between sound sources • overall sound balance • clarity of the sound • colour of sound • sound textures.
Recording projects may involve:	• solo artists • solo artists with backing • groups/ensembles • instrumental, acoustic and/or electronic • vocal • vocal and instrumental • recording live performances.
Production requirements may include:	• technical • creative • artistic • attributions • audience • budget • confidentiality • content • contractual arrangements • copyright • deadlines • direct quotes • duration • intellectual property • interviews • location • purpose • schedule • style.
Venues may include:	• dubbing theatre • on location, including interior and exterior • outside broadcast

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT	
	• post-production studio • recording studio • sound stage.

Copyright requirements may include:	• provisions of current Copyright Act
	• copyright permission procedures
	• attribution
	• moral rights and performer's rights
	• negotiating with copyright organisations, such as:
	  • owners of copyright: publishers, composers, etc.
	  • Australasian Performing Rights Association (APRA)
	  • Phonographic Performance Company of Australia Limited (PPCA)
	  • Australasian Mechanical Copyright Owners Society (AMCOS)
	  • Copyright Agency Limited (CAL)
	• archives.

Documentation may include:	• pre-mix scripts • mixing sheets • track sheets • de-noising documents • cue sheets • dubbing sheets • queries • notes • manuals.
Formats may include:	• quarter inch audiotape • WAV • AIFF • Apple Lossless • WMA • MP3 • Vorbis • ATRAC • AAC.
Evaluation techniques may include:	• interviews • surveys • questionnaires

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT	

	• focus groups
	• demographic data
	• feedback
	• reviews
	• evaluation may include:
	  • clients
	  • stakeholders
	  • audience
	  • project personnel
	  • specialists.

CUSWRT501A Write about music

Modification History

Not applicable.

Unit Descriptor

Unit descriptor	This unit describes the performance outcomes, skills and knowledge required to write about a range of music-related topics. No licensing, legislative, regulatory or certification requirements apply to this unit at the time of endorsement.

Application of the Unit

Application of the unit	People applying the skills and knowledge outlined in this unit would be expected to write both original and non-narrative music content for a range of purposes. Often they would be working as freelance writers or journalists. Typical writing briefs could include creating program notes for recitals or other performances, reviews and/or critiques of live and recorded music performances, as well as music editorials and music commentary pieces for a range of media.

Licensing/Regulatory Information

Not applicable.

Employability Skills Information

Employability skills	This unit contains employability skills.

Elements and Performance Criteria Pre-Content

Elements describe the essential outcomes of a unit of competency.	Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the required skills and knowledge section and the range statement. Assessment of performance is to be consistent with the evidence guide.

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
Prepare to write material	1. In consultation with ***relevant personnel***, confirm the ***type*** of written material required 2. Identify ***factors*** that may impact on the writing assignment and plan accordingly 3. Determine style or ***tone*** appropriate to the ***publication*** for which written material is being produced 4. Discuss plans or preliminary ideas with relevant personnel as required
Research topic	5. Use appropriate ***information sources*** to gather background material 6. Conduct interviews with people to gather information as required 7. Review information gathered to determine the best approach to writing assignments 8. Discuss results of research, ideas and proposed approach with relevant personnel as required

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

ELEMENT	PERFORMANCE CRITERIA
Write material	9. Ensure that language and writing style are suited to the target audience and publication 10. Ensure that specialised ***vocabulary*** is appropriate to the context of the brief and subject matter 11. Ensure that work is proofed and edited to the standard required 12. Present a draft for review by relevant personnel 13. Adjust work as required and present final draft in the agreed manner and timeframe 14. Evaluate writing process, assessing own performance and noting areas for future improvement

Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This section describes the skills and knowledge required for this unit.

Required skills

- communication, teamwork and literacy skills sufficient to:
  - interpret and clarify written and verbal instructions
  - write content in a style appropriate to target users and audience
  - communicate information to specific audiences
  - structure text-based content effectively for target audiences and delivery format
  - respond positively to constructive feedback
- conceptual skills sufficient to generate a range of text-based content ideas in response to a brief
- initiative and enterprise skills in the context of empathising with the creative work of composers and performers
- technical skills sufficient to:
  - proficiently use word-processing tools
  - check and proofread written content using manual and automated systems
- self-management and planning skills sufficient to:
  - prioritise work tasks
  - source information and reference material in a timely fashion
  - meet deadlines
  - seek expert assistance when problems arise

Required knowledge

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

REQUIRED SKILLS AND KNOWLEDGE

• industry knowledge, including:
  • roles and responsibilities of project team members
  • issues and challenges that arise when writing about music
• the way readers scan and read written material
• writing and communication principles for the relevant medium
• writing and presentation techniques for the relevant medium
• sound knowledge of grammar and punctuation
• media laws sufficient to identify defamation and obscenity and seek expert advice on issues that could lead to legal action
• copyright clearance procedures
• OHS as it relates to working for periods of time on computers
• well-developed understanding of music-related issues, including:
  • musical styles and genres
  • musical form and performance conventions
  • repertoire as it relates to relevant musical styles and genres
  • music notation
  • aural discrimination
  • cultural circumstances of music performance and consumption
  • elements of musical organisation in relation to content of written work
  • technical processes and demands of composition and/or music performances

Evidence Guide

EVIDENCE GUIDE	
The Evidence Guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, range statement and the Assessment Guidelines for the Training Package.	
Overview of assessment	
Critical aspects for assessment and evidence required to demonstrate competency in this unit	Evidence of the ability to: • apply the principles of writing and communication to meet the requirements of music-writing briefs • write a range of content for specific target audiences and within timeframes typical in an industry context • demonstrate a sound knowledge of grammar, punctuation and writing styles • work collaboratively with others

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

EVIDENCE GUIDE	
	• work under pressure and meet deadlines.

Context of and specific resources for assessment	Assessment must ensure:
	• access to:
	  • word-processing software
	  • variety of music-related information sources
	  • appropriate learning and assessment support when required
	• use of culturally appropriate processes, and techniques appropriate to the language and literacy capacity of the candidate and the work being performed.

Method of assessment	The following assessment methods are appropriate for this unit: • evaluation of content written by the candidate in response to a range of briefs • written or oral questioning to test knowledge as listed in the required knowledge section of this unit • case studies and scenarios as a basis for discussion of issues and challenges that arise in the context of writing about music.
Guidance information for assessment	Holistic assessment with other units relevant to the industry sector, workplace and job role is recommended, for example: • BSBWRT501A Write persuasive copy • CUFIND401A Provide services on a freelance basis • CUSIND501A Apply music knowledge and artistic judgement • CUSMLT502A Apply concepts about the impact of music to professional practice • CUSMLT601A Analyse music.

Range Statement

RANGE STATEMENT
The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording, if used in the performance criteria, is detailed below. Essential operating conditions that may be present with training and assessment (depending on the work

RANGE STATEMENT	
situation, needs of the candidate, accessibility of the item, and local industry and regional contexts) may also be included.	
Relevant personnel may include:	• authors • composers • artists and performers • broadcasters • directors • editors or other writers • graphic designers • program or event managers • sound-production or recording personnel • record companies • producers • programmers • academic supervisors • production managers • music promoters, agents and marketers • advertising agencies.
Types of written material may include:	• music reviews and critiques • programs notes for recitals or other performances • music copy for interactive media products • music copy for newsletters or other print media • items for wikis • items for the marketing and/or promotion of music products • educational pieces • information pieces • social and/or corporate networking • band or artist bios.
Factors *may include*:	• expectations of target audience/readers • photos or other visual material to accompany written work • research requirements • complexity of topic • structure • budget • confidentiality • contractual arrangements • copyright clearances

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT	
	• deadlines • length • editing process • intellectual property • location of writing assignment • number of content items • production schedule.
Tone may include:	• dramatic • entertaining • formal • humorous • informal or casual • informational.

Publications may include:	• books
	• program notes
	• corporate documents:
	  • reports
	  • newsletters
	  • marketing and promotional materials
	• print and online publications:
	  • literary
	  • magazines
	  • journals
	  • newspapers.

Information sources may include:	• music industry events, such as:
	  • performances
	  • community activities
	  • conferences
	  • conventions
	  • festivals
	  • functions
	  • trade fairs
	  • competitions and awards
	• electronic and print media, such as:
	  • articles
	  • journals
	  • magazines
	  • news

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT	
	• reviews • industrial relations publications • industry publications • lifestyle and contemporary issues magazines • government publications, such as: • legislation • policy and procedures manuals • internet • libraries and archives, including text, film, video, sound and graphic • peak copyright organisations • personal observations and experience.
Vocabulary may relate to elements, such as:	• specialised knowledge of repertoire • specialised knowledge of artists • critical-listening skills • artistic judgement • music history • performance practice in a range of styles and customs • music technology • music texts • aural recognition and comprehension of musical devices and systems, including: • melody • harmony • timbre • attack • pitch • tempi • dynamics • expression • physics of music and sound production • technical requirements for a range of instruments in a range of musical styles and performance contexts • aural imagination and innovation • musical styles and genres, such as: • traditional, including European classical or traditional music of any other culture

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT	
	• jazz • world • popular • independent music • country • folk.

BSBADM307B Organise schedules

Modification History

Not applicable.

Unit Descriptor

Unit descriptor	This unit describes the performance outcomes, skills and knowledge required to manage appointments and diaries for personnel within an organisation, using manual and electronic diaries, schedules and other appointment systems. No licensing, legislative, regulatory or certification requirements apply to this unit at the time of endorsement.

Application of the Unit

Application of the unit	This unit applies to individuals employed in a range of work environments who provide administrative support to teams and individuals in the management of diaries, schedules and other appointment mechanisms.

Licensing/Regulatory Information

Not applicable.

Pre-Requisites

Prerequisite units		

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

Employability Skills Information

Employability skills	This unit contains employability skills.

Elements and Performance Criteria Pre-Content

Elements describe the essential outcomes of a unit of competency.	Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the required skills and knowledge section and the range statement. Assessment of performance is to be consistent with the evidence guide.

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
1. Establish schedule requirements	1.1. Identify ***organisational requirements*** and protocols for diaries and staff ***planning tools*** 1.2. Identify organisational procedures for different types of appointments 1.3. Determine personal requirements for ***diary and schedule items*** for individual personnel 1.4. Establish appointment priorities and clarify in discussion with individual personnel
2. Manage schedules	2.1. Identify ***recurring appointments*** and deadlines, and schedule these in accordance with individual and organisational requirements 2.2. Establish availability of attendees, and schedule new appointments in accordance with required time lines and diary commitments 2.3. Negotiate ***alternative arrangements*** and confirm when established appointments are changed 2.4. ***Record appointments*** and manage schedules in accordance with ***organisational policy and procedures***

Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE
This section describes the skills and knowledge required for this unit.
Required skills
• communication skills to discuss and confirm requirements and priorities of others and to question others to clarify information • literacy skills to read a range of procedural texts and to write simple instructions • negotiation skills to schedule appointments where there are competing demands • numeracy skills to estimate time, plan accurately and keep records • problem-solving skills to negotiate task distribution and timing for appointments with other members of the group • time management skills to allow realistic time lines to schedule appointments.
Required knowledge
• key provisions of relevant legislation from all forms of government, standards and codes that may affect aspects of business operations, such as: • anti-discrimination legislation • ethical principles • codes of practice • privacy laws • occupational health and safety (OHS) • relationship between satisfactorily organising another person's schedule and achieving team goals • responsibility that is involved in making arrangements for others.

Evidence Guide

EVIDENCE GUIDE	
The Evidence Guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, range statement and the Assessment Guidelines for the Training Package.	
Overview of assessment	
Critical aspects for assessment and evidence required to demonstrate competency in this unit	Evidence of the following is essential: • maintaining schedules which meet individual and organisational needs • prioritising and negotiating competing demands.

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

EVIDENCE GUIDE	
Context of and specific resources for assessment	Assessment must ensure: • access to an actual workplace or simulated environment • access to office equipment and resources • access to a range of diaries, planners and calendars to record and schedule appointments.
Method of assessment	A range of assessment methods should be used to assess practical skills and knowledge. The following examples are appropriate for this unit: • direct questioning combined with review of portfolios of evidence and third party workplace reports of on-the-job performance by the candidate • review of authenticated documents from the workplace or training environment • analysis of responses to case studies and scenarios • demonstration of techniques in a workplace or simulated environment • review of testimony from team members, colleagues, supervisors or managers.
Guidance information for assessment	Holistic assessment with other units relevant to the industry sector, workplace and job role is recommended, for example: • other general administration units.

Employability Skills Information

Employability skills	This unit contains employability skills.

Elements and Performance Criteria Pre-Content

Elements describe the essential outcomes of a unit of competency.	Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the required skills and knowledge section and the range statement. Assessment of performance is to be consistent with the evidence guide.

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
1. Advise on resource requirements	1.1. Calculate estimates of future and present ***business resource needs*** in accordance with ***organisational requirements*** 1.2. Ensure advice is clear, concise and relevant to achievement of organisational requirements 1.3. Provide information on the most economical and effective choice of equipment, materials and suppliers 1.4. Identify resource shortages and possible impact on operations
2. Monitor resource usage and maintenance	2.1. Ensure resource handling is in accordance with established organisational requirements including ***occupational health and safety requirements*** 2.2. Use ***business technology*** to monitor and identify the effective use of resources 2.3. Use consultation with individuals and teams to facilitate effective decision making on the appropriate allocation of resources 2.4. Identify and adhere to relevant ***policies regarding resource use*** in the performance of operational tasks 2.5. Routinely monitor and compare resource usage with estimated requirements in budget plans
3. Acquire resources	3.1. Ensure acquisition and storage of resources is in

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

ELEMENT	PERFORMANCE CRITERIA
	accordance with organisational requirements, is cost effective and consistent with organisational timelines 3.2. Acquire resources within available time lines to meet identified requirements 3.3. Review ***resource acquisition processes*** to identify improvements in future resource acquisitions

Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE
This section describes the skills and knowledge required for this unit.
Required skills
• literacy skills to read and understand organisation's policies and procedures; to write simple instructions for a particular routine task • evaluation skills to diagnose faults and to monitor resource usage • problem-solving skills to determine appropriate fault repair actions • numeracy skills to calculate resource expenditure • technology skills to select and use technology appropriate to a task.
Required knowledge

• key provisions of relevant legislation from all levels of government that may affect aspects of business operations, such as:
  • anti-discrimination legislation
  • ethical principles
  • codes of practice
  • privacy laws
  • occupational health and safety (OHS)
• organisational resource acquisition policies, plans and procedures
• functions of a range of business equipment
• organisational procedures for record keeping/filing systems, security and safe recording practices.

EVIDENCE GUIDE	
The Evidence Guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, range statement and the Assessment Guidelines for the Training Package.	
Overview of assessment	
Critical aspects for assessment and evidence required to demonstrate competency in this unit	Evidence of the following is essential: • collecting and recording data on resource use • observing resource use over defined and operational timeframes • carrying out routine maintenance • knowledge of organisational resource acquisition policies, plans and procedures.
Context of and specific resources for assessment	Assessment must ensure: • access to an actual workplace or simulated environment • access to office equipment and resources.
Method of assessment	A range of assessment methods should be used to assess practical skills and knowledge. The following examples are appropriate for this unit: • direct questioning combined with review of portfolios of evidence and third party workplace reports of on-the-job performance by the candidate • review of documentation estimating future and present business resource needs • analysis of responses to case studies and scenarios • demonstration of techniques • oral or written questioning to assess knowledge of equipment maintenance procedures • review of information provided on the most economical and effective choice of equipment, materials and suppliers • evaluation of documentation reviewing resource acquisition processes.
Guidance information for assessment	Holistic assessment with other units relevant to the industry sector, workplace and job role is recommended, for example: • other general administration units.

Range Statement

RANGE STATEMENT	
The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording, if used in the performance criteria, is detailed below. Essential operating conditions that may be present with training and assessment (depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts) may also be included.	
Business resources may include:	• equipment • facilities • human resources • raw materials • software • stock and supplies
Organisational requirements may include:	• access and equity principles and practice • business and performance plans • defined resource parameters • ethical standards • goals, objectives, plans, systems and processes • legal and organisational policies, guidelines and requirements • management and accountability channels • manufacturer's and operational specifications • OHS policies, procedures and programs • quality and continuous improvement processes and standards • quality assurance and/or procedures manuals • security and confidentiality requirements
Occupational heath and safety requirements may include:	• decision making delegations • equipment use • first aid kit • medical attention • reporting requirements • site access
Business technology may include:	• computer applications • computers • modems • personal schedules • photocopiers
Policies regarding resource use	• budgeting limits

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT	
may include:	• ordering procedures • purchasing authorities • recruitment and personnel • time management • transport/travel policies
Resource acquisition processes may include:	• contracted supplier ordering • internal approvals • non-tendered processes • periodic forecasts • tendered processes

BSBADM502B Manage meetings

Modification History

Not applicable.

Unit Descriptor

Unit descriptor	This unit describes the performance outcomes, skills and knowledge required to manage a range of meetings including overseeing the meeting preparation processes, chairing meetings, organising the minutes and reporting meeting outcomes. No licensing, legislative, regulatory or certification requirements apply to this unit at the time of endorsement.

Application of the Unit

Application of the unit	This unit applies to individuals employed in a range of work environments who are required to organise and manage meetings within their workplace, including conducting or managing administrative tasks in providing agendas and meeting material. They may work as senior administrative staff or may be individuals with responsibility for conducting and chairing meetings in the workplace.

Licensing/Regulatory Information

Not applicable.

Employability Skills Information

Employability skills	This unit contains employability skills.

Elements and Performance Criteria Pre-Content

Elements describe the essential outcomes of a unit of competency.	Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the required skills and knowledge section and the range statement. Assessment of performance is to be consistent with the evidence guide.

Elements and Performance Criteria

ELEMENT	**PERFORMANCE CRITERIA**
1. Prepare for meetings	1.1. Develop ***agenda*** in line with stated ***meeting purpose*** 1.2. Ensure style and structure of meeting are appropriate to its purpose 1.3. Identify meeting participants and notify them in accordance with organisational procedures 1.4. Confirm ***meeting arrangements*** in accordance with requirements of meeting 1.5. Despatch ***meeting papers*** to participants within ***designated time lines***
2. Conduct meetings	2.1. Chair meetings in accordance with organisational requirements, agreed ***conventions*** for type of meeting and ***legal and ethical requirements*** 2.2. Conduct meetings to ensure they are focused, time efficient and achieve outcomes 2.3. Ensure meeting facilitation enables participation, discussion, problem-solving and ***resolution*** of issues 2.4. Brief minute taker on method for recording meeting

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

ELEMENT	PERFORMANCE CRITERIA
	notes in accordance with organisational requirements and conventions for type of meeting
3. Follow up meetings	3.1. Check transcribed meeting notes to ensure they reflect a true and accurate record of the meeting, and are formatted in accordance with organisational procedures and meeting conventions 3.2. Distribute and ***store minutes*** and other follow-up documentation within designated time lines, and according to organisational requirements 3.3. Report outcomes of meetings as required, within designated time lines

Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This section describes the skills and knowledge required for this unit.

Required skills

- communication skills to:
  - participate in sustained complex interpersonal exchanges and to interact with others
  - listen to, incorporate and encourage feedback
  - conduct oral presentations to a group, to consult participants and to answer questions
  - manage and work with a group to construct an action plan
  - chair meetings
- literacy skills to:
  - categorise and organise information
  - assess information for relevance and accuracy
  - identify and elaborate on key agenda items and source additional information
- numeracy and time management skills to allow for sufficient meeting preparation
- problem-solving skills to choose appropriate solutions from available options.

Required knowledge

- culturally appropriate techniques to communicate with people from diverse backgrounds and people with diverse abilities
- key provisions of relevant legislation from all forms of government, standards and codes that may affect aspects of business operations, such as:

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

REQUIRED SKILLS AND KNOWLEDGE
• anti-discrimination legislation • ethical principles • codes of practice • privacy laws • copyright • occupational health and safety • formats for minutes and agendas • group dynamics • meeting terminology, structures, arrangements and responsibilities of chairperson • organisational procedures and policies regarding meetings, chairing and minutes.

Evidence Guide

EVIDENCE GUIDE	
The Evidence Guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, range statement and the Assessment Guidelines for the Training Package.	
Overview of assessment	
Critical aspects for assessment and evidence required to demonstrate competency in this unit	Evidence of the following is essential: • applying conventions and procedures for formal and informal meetings • chairing meetings in relation to agreed agendas.
Context of and specific resources for assessment	Assessment must ensure: • access to reference material in regard to meeting venues, catering, transport suppliers • access to names and contacts for meeting participants • access to office supplies and equipment • access to computers and relevant software.
Method of assessment	A range of assessment methods should be used to assess practical skills and knowledge. The following examples are appropriate for this unit: • analysis of responses to case studies and scenarios • demonstration of techniques • direct questioning combined with review of portfolios of evidence and third party workplace

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

EVIDENCE GUIDE	
	reports of on-the-job performance by the candidate • review of minutes, agendas and other communication • review of testimony from team members, colleagues, supervisors or managers.
Guidance information for assessment	Holistic assessment with other units relevant to the industry sector, workplace and job role is recommended, for example: • other general administration units.

Range Statement

RANGE STATEMENT	
The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording, if used in the performance criteria, is detailed below. Essential operating conditions that may be present with training and assessment (depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts) may also be included.	
Agendas may include:	• correspondence • date, time and location of meeting • date of next meeting • general business • major agenda items • matters or business arising from the minutes • minutes of the previous meeting • reports • statement of the meeting's purpose • welcome
Meeting purpose may include:	• discussion forum for internal or external clients • planning and development of a project • progress of a project • range of business items • setting of enterprise or team goals
Meeting arrangements may include:	• booking an appropriate venue • deciding on process for recording of meeting • establishing costs and operating within a budget

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT	
	• identifying any specific needs of participants • organising accommodation and transport • organising appropriate communication technology • organising catering • organising a minute taker • preparing relevant documentation for participants • scheduling date and time for the meeting
Meeting papers may include:	• agenda • chairperson's report • correspondence • draft documentation • financial reports • itemised meeting papers • notice of meeting • previous minutes • research reports
Designated time lines may include:	• contractual obligations • formal timeframe set by the organisation • informal timeframe set by the administrative organiser • project time lines • statutory requirements (e.g. for annual general meetings) • timeframe decided by participants
Conventions may include:	• casting vote for chairperson • conflict of interest provisions • consensus required • informal discussion • majority of members to agree • moving and seconding formal motions • quorum requirements • restricting discussion to agenda items • speaking through the chairperson • time limit on speakers • waiting to be recognised by the chairperson • voting procedures
Legal and ethical requirements may include:	• codes of practice • legislation relating to companies and

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT	
	associations • requirements for public meetings
Resolution may include:	• agreeing on a course of action • deferring decisions to another meeting
Storage of minutes and other documentation may include:	• authorised access • electronic storage in folders, sub-folders, disk drives, CD-ROM, USBs, tape or server back-up • file names according to organisational procedure • file names which are easily identifiable in relation to the content • file and folder names which identify the operator, author, section, date • filing locations • organisational policy for backing up files • organisational policy for filing hard copies of documents • security
Minutes may include:	• meeting details (e.g. title, date, time, location) • action items • agenda items • apologies and attendees • approval of the record of previous minutes • correspondence • date of the next meeting • formatting from previous minutes • lists rather than complete sentences • matters arising from the previous meetings • names of absent and attending participants • organisation templates • other business • reports • welcome

Employability Skills Information

Employability skills	This unit contains employability skills.

Elements and Performance Criteria Pre-Content

Elements describe the essential outcomes of a unit of competency.	Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the required skills and knowledge section and the range statement. Assessment of performance is to be consistent with the evidence guide.

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
1. Establish documentation standards	1.1. Identify organisational requirements for information entry, storage, output, and quality of ***document*** design and production 1.2. Evaluate organisation's present and future information technology capability in terms of its effect on document design and production 1.3. Identify types of documents used and required by the organisation 1.4. Establish documentation ***standards and design tasks*** for organisational documents in accordance with information, budget and technology requirements
2. Manage template design and development	2.1. Ensure standard formats and templates suit the purpose, audience and information requirements of each document 2.2. Ensure document templates enhance readability and appearance, and meet organisational requirements for style and layout 2.3. Test templates, obtain organisational and user feedback, and make amendments as necessary to ensure maximum efficiency and quality of presentation

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

ELEMENT	PERFORMANCE CRITERIA
3. Develop standard text for documents	3.1. Evaluate ***complex technical functions*** of software for their usefulness in automating aspects of standard document production 3.2. Match requirements of each document with software functions to allow efficient production of documents 3.3. Test macros to ensure they meet the requirements of each document in accordance with documentation standards
4. Develop and implement strategies to ensure the use of standard documentation	4.1. Prepare explanatory notes for the use of standard templates and macros using content, format and language style to suit existing and future users 4.2. Develop and implement training on the use of standard templates and macros and adjust the content and level of detail to suit user needs 4.3. Produce, circulate, name and store master files and print copies of templates and macros in accordance with organisational requirements
5. Develop and implement strategies for maintenance and continuous improvement of standard documentation	5.1. Monitor use of standard documentation templates and macros, and evaluate the quality of documents produced against documentation standards 5.2. Review documentation standards against the changing needs of the organisation, and plan and implement improvements in accordance with organisational procedures

Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This section describes the skills and knowledge required for this unit.

Required skills

- communication skills to present complex instructions orally, to communicate ideas logically, and to explain technical concepts and designs to others
- literacy skills to:
- read and interpret policies and procedures
- review and select technological designs
- consider aspects of context, purpose and audience when designing and formatting texts
- research and analysis skills to evaluate content, structure and purpose of technical

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

REQUIRED SKILLS AND KNOWLEDGE
texts, and to adapt task instructions to suit changes in technology • technological skills to manage design requirements and layouts.
Required knowledge
• cost constraints • document production processes • functions of range of software applications, including desktop publishing, word processing and spreadsheets • key provisions of relevant legislation and regulations from all forms of government, codes and standards that may affect aspects of business operations, such as: • anti-discrimination legislation • ethical principles • codes of practice • privacy laws • organisational policies and procedures relating to document design and formatting • sources of expertise external to the organisation or workgroup.

Evidence Guide

EVIDENCE GUIDE	
The Evidence Guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, range statement and the Assessment Guidelines for the Training Package.	
Overview of assessment	
Critical aspects for assessment and evidence required to demonstrate competency in this unit	Evidence of the following is essential: • designing templates or style sheets for use in document design • documenting processes and strategies to ensure implementation.

Context of and specific resources for assessment	Assessment must ensure:
	• access to office equipment and resources, including:
	  • computer hardware and other document production equipment
	  • range of software applications appropriate to the task
	  • media for production of documents

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

EVIDENCE GUIDE	
	• access to samples of high quality standardised documents.
Method of assessment	A range of assessment methods should be used to assess practical skills and knowledge. The following examples are appropriate for this unit: • analysis of responses to case studies and scenarios • demonstration of techniques • direct questioning combined with review of portfolios of evidence and third party workplace reports of on-the-job performance by the candidate • review of authenticated documents from the workplace or training environment • oral or written questioning to assess knowledge of accounting procedures and techniques.
Guidance information for assessment	Holistic assessment with other units relevant to the industry sector, workplace and job role is recommended, for example: • information and communications technologyunits • other general administration units.

Range Statement

RANGE STATEMENT	
The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording, if used in the performance criteria, is detailed below. Essential operating conditions that may be present with training and assessment (depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts) may also be included.	

Documents may be created:	• using a range of commercial or organisational software packages:
	  • databases
	  • desktop publishing
	  • spreadsheets
	  • word processing

Standards and design tasks may include:	• binding • binding media

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT	
	• checking final print copy • client requirements • colour photocopy • copying • creating templates and style or procedures manual • drafting • drawing • editing • electronic or paper-based • enterprise policies and procedures • enterprise templates or house style conventions for margins, fonts, use of colour • final document presentation • formatting • language and style of document • liaison with external personnel • locating and collecting appropriate information or precedents • print quality • production of graphics • production of multiple and subsequent copies • quality standards • use of page layout software • writing
Complex technical functions may include:	• data transfer • display features • embedding • exporting • fields • form fields • formulae • importing • index • linking • macros • merge criteria • sort criteria • table of contents

Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This section describes the skills and knowledge required for this unit.

Required skills

- literacy skills to interpret and evaluate requirements, and to document reports
- numeracy skills to analyse numerical and other data and to perform media calculations
- problem solving skills to manage contingencies
- technology skills to perform calculations and to create complex spreadsheets.

Required knowledge

- sources of media and comparative data
- media calculation principles and practices including;
  - Average Quarter Hour (AQH)
  - Cost per TARP
  - Cost per Thousand (CPM)
  - Cumulated Audience Reach (CUMES)
  - effective frequency
  - effective reach
  - frequency
  - Gross Rating Points (GRPs)
  - number of responses
  - reach
  - Target Audience Rating Points (TARPS)
- principles of software packages used when performing media calculations
- identification and overview knowledge of key provisions of relevant legislation from all levels of government that affects business operations, codes of practice and national standards, such as:
  - anti-discrimination legislation
  - consumer protection laws
  - copyright legislation
- ethical principles
- fair trading laws
  - privacy laws
  - Trades Practices Act.

Employability Skills Information

Employability skills	This unit contains employability skills.

Elements and Performance Criteria Pre-Content

Elements describe the essential outcomes of a unit of competency.	Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the required skills and knowledge section and the range statement. Assessment of performance is to be consistent with the evidence guide.

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
1. Plan the purchasing of media	1.1. Confirm the requirements of the advertising brief 1.2. Establish the causal relationship between ***marketing communications*** and ***media objectives*** 1.3. Determine how the creative strategy and execution will impact on the proposed media strategy 1.4. Identify how consumer insights relate to media consumption 1.5. Compare and contrast scheduling alternatives
2. Buy media	2.1. Investigate and evaluate ***media market conditions*** 2.2. Conduct negotiations between suppliers for advertisement/commercial placements/spots 2.3. Obtain performance guarantees from media suppliers 2.4. Leverage placement value 2.5. Review proposed media plan against advertising objectives, schedules and budgets
3. Evaluate media performance	3.1. Investigate pre- and post-media performance/ratings and make any necessary changes to the media plan as required 3.2. Evaluate ***media costing data*** to determine effectiveness in relation to return on investment 3.3. Compare actual media performance against media plan objectives

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

ELEMENT	PERFORMANCE CRITERIA
	3.4. Compare direct and indirect response rates 3.5. Determine problems/opportunities in the planning and buying process from differences between planned and actual accomplishments 3.6. Modify existing, or investigate alternative, media strategies based on media performance data

Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This section describes the skills and knowledge required for this unit.

Required skills

- literacy skills sufficient to read and interpret advertising briefs and to write reports with complex concepts and ideas
- negotiation skills to obtain advertisement/commercial placements/spots
- organisational and time management skills to sequence tasks and to meet timelines
- research and evaluation skills to determine the effectiveness of media performance.

Required knowledge

- economic, social and industry trends
- industry products/services
- organisational structure/s and roles and responsibilities
- identification and overview knowledge of key provisions of relevant legislation from all levels of government that affects business operations, codes of practice and national standards, such as:
  - anti-discrimination legislation
  - consumer protection laws
  - copyright legislation
- ethical principles
- fair trading laws
  - privacy laws
  - Trades Practices Act.

EVIDENCE GUIDE	
Critical aspects for assessment and evidence required to demonstrate competency in this unit	Evidence of the following is essential: • evaluation and application of relevant media software options to perform media analysis tasks for at least one advertising campaign • analysis and presentation of media performance for at least one advertising campaign.
Context of and specific resources for assessment	Assessment must ensure: • access to an actual workplace or simulated environment • access to office equipment and resources.
Method of assessment	A range of assessment methods should be used to assess practical skills and knowledge. The following examples are appropriate for this unit: • analysis of responses to case studies and scenarios • demonstration of the use of media software • direct questioning combined with review of portfolios of evidence and third party workplace reports of on-the-job performance by the candidate • oral or written questioning to assess knowledge of the advantages and disadvantages of specific software to perform media tasks • observation of presentation of campaign performance results to advertiser • evaluation of media performance results.
Guidance information for assessment	Holistic assessment with other units relevant to the industry sector, workplace and job role is recommended, for example: • BSBADV405A Perform media calculations • BSBADV406A Buy and monitor media.

Range Statement

RANGE STATEMENT
The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording, if used in the performance criteria, is detailed below. Essential operating conditions that may be present with training and assessment (depending on the work

Elements and Performance Criteria Pre-Content

Elements describe the essential outcomes of a unit of competency.	Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the required skills and knowledge section and the range statement. Assessment of performance is to be consistent with the evidence guide.

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
1. Define media requirements	1.1. Identify the ***target audience characteristics*** from the advertising brief and prepare a detailed ***consumer profile*** which uses the same terms as those used to describe media audiences 1.2. Analyse ***product market factors*** to determine the reach and frequency requirements of advertising media selected 1.3. Analyse the ***creative requirements*** of the advertising message and determine the media implications 1.4. Identify media ***merchandising requirements*** from the advertising brief 1.5. Confirm the media budget and identify ***legal and voluntary constraints***
2. Select media vehicles	2.1. Weigh up the relative merits of identified ***media vehicle*** alternatives taking past media performance into account 2.2. Evaluate and test new or alternative ***media vehicles*** with other advertisers and against proven vehicles 2.3. Select ***media vehicles*** that target the required audience, meet ***media requirements*** and fulfil merchandising requirements within budget 2.4. Select ***media vehicles*** that meet the creative, reach and frequency requirements of the advertising message to be achieved within the budget

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

ELEMENT	PERFORMANCE CRITERIA
	2.5. Ensure selected ***media vehicles*** meet legal and ethical requirements
3. Determine the media schedule	3.1. Ensure the duration and ***timing*** of the media schedule meet the requirements of the advertising brief 3.2. Determine the ***distribution*** of messages over the duration of the schedule to meet the requirements of the advertising brief 3.3. Create a ***media schedule*** to the satisfaction of the advertiser 3.4. Develop alternative media schedules for the advertiser within the budget 3.5. Determine testing schedule for the media plan and continually modify media plan in accordance with results obtained
4. Produce a media plan	4.1. Create a media plan which defines the media requirements of the advertising brief and provides evidence to support each requirement 4.2. Specify the recommended media and vehicle/s, and the ***rationale*** for their selection in the media plan 4.3. Ensure the media plan contains a ***budget allocation*** per medium per advertising period 4.4. Identify the anticipated impact of the advertising and ***measures to assess its effectiveness*** in the ***media*** plan

Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE
This section describes the skills and knowledge required for this unit.
Required skills
• communication skills to consult on the media schedule • evaluation skills to compare and weigh advantages of one medium over another, and to match characteristics with media requirements • literacy skills to interpret the characteristics of different media and to match them to the requirements of the advertising brief.
Required knowledge

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

REQUIRED SKILLS AND KNOWLEDGE

• data analysis and matching techniques
• legal and ethical requirements relating to the advertising industry
• organisational products and services offered
• organisational budget and resource constraints
• principles and characteristics of advertising media, types of media and advertising strategies
• identification and overview knowledge of key provisions of relevant legislation from all levels of government that affects business operations, codes of practice and national standards, such as:
  • anti-discrimination legislation
  • consumer protection laws
  • copyright legislation
• ethical principles
• fair trading laws
  • privacy laws
  • Trades Practices Act
• terms for describing media audiences.

Evidence Guide

EVIDENCE GUIDE	
The Evidence Guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, range statement and the Assessment Guidelines for the Training Package.	
Overview of assessment	

Critical aspects for assessment and evidence required to demonstrate competency in this unit	Evidence of the following is essential:
	• production of a media plan for an advertising campaign for at least one product or service which:
	  • defines the media requirements of the advertising brief
	  • specifies rationales for media vehicles chosen
	  • contains budgetary allocation for each advertising medium
	• measures to assess effectiveness of media vehicles selected.

Context of and specific resources for	Assessment must ensure:

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

EVIDENCE GUIDE	
assessment	• access to an actual workplace or simulated environment • access to office equipment and resources • access to the advertising brief.
Method of assessment	A range of assessment methods should be used to assess practical skills and knowledge. The following examples are appropriate for this unit: • analysis of responses to case studies and scenarios • assessment of documented media plans • demonstration of techniques • direct questioning combined with review of portfolios of evidence and third party workplace reports of on-the-job performance by the candidate • observation of presentations of media plans • oral or written questioning to assess budget knowledge • review of media schedule.
Guidance information for assessment	Holistic assessment with other units relevant to the industry sector, workplace and job role is recommended, for example: • BSBADV511A Evaluate and recommend advertising media options.

Range Statement

RANGE STATEMENT	
The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording, if used in the performance criteria, is detailed below. Essential operating conditions that may be present with training and assessment (depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts) may also be included.	
Target audience characteristics may include:	• analysis of current customers • attitudes • cultural factors • demographics • duplication or presence on customer and outside lists

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT	
	• existing product usage • geographics • lifestyle • psychographics • social factors • values

Consumer profile may include:	• behaviouristic information such as:
	  • benefits sought by buyer
	  • loyalty status
	  • readiness stage
	  • user status
	• combinations of geographic, demographic and psychographic information often including data on media consumption and retail outlet usage overlaid
	• demographic information such as:
	  • age
	  • education
	  • gender
	  • income
	  • marital status
	  • number of children
	  • nationality
	  • occupation
	  • statistical descriptions
	• geographic information such as:
	  • Census Collector District (CCD)
	  • census information
	  • home address
	  • nation of residence
	  • postcode
	  • state or territory of residence
	  • work address
	• psychographic information such as:
	  • activities
	  • attitudes
	  • interests
	  • lifestyle
	  • opinions

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT	
	• values

Product market factors may include:	• whether a product or service:
	  • is convenient
	  • is differentiated or undifferentiated
	  • is established
	  • is frequently or infrequently purchased
	  • is highly competitive
	  • is new
	  • has a high or low level of audience involvement
	• whether the message characteristics are:
	  • ongoing
	  • simple
	  • unique

Creative requirements may include:	• action • cluttered or uncluttered medium • colour • electronic or physical form • fast production time • intrusive medium • local, national or international medium • longer and more profitable space requirements • longer and more profitable time requirements • paper stock • pictures or illustrations • prestigious medium • printing requirements • production technique costs • response forms • sound • words only
Merchandising requirements may include:	• association with a particular media vehicle to give the perception of safety and value • identification with a particular local community • number of required responses

Legal and voluntary constraints may include:	• codes of practice such as those issued by:
	  • Advertising Federation of Australia
	  • Australian Communications and Media

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT	
	Authority • Australian Competition and Consumer Commission • Australian Performing Right Association • Commercial Radio Australia • Free TV Australia • cultural expectations and influences • ethical principles • legislation, including occupational health and safety legislation • policies and guidelines • regulations • social responsibilities such as protection of children, environmental issues • societal expectations
Media vehicles may include:	• aerial advertising • billboards • cable and satellite television • cinema • direct mail • direct response • exhibitions and trade fairs • internet • point-of-sale • radio • sales literature • sales promotion • sponsorship • television • the press • video • video games • videotext
Media requirements may include:	• number of target audience reached • required number of responses, including: • current customer base versus expected attrition and growth target • conversion factor for multi step offers/campaigns • required cost per response

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT	
Timing may include:	• continuous advertising throughout the year • pre-launch advertising • pre-sale advertising • seasonal advertising
Distribution may include:	• advertisements evenly spread over the time schedule • advertisements in waves, with heavy advertising followed by light or no advertising • generation of a budgeted number of responses at no more than the budgeted cost per response
Media schedule includes:	• number of advertisements • placement of advertisements • size/length of advertisements
Rationale may include:	• dissimilarity to any proven media and/or media vehicle, but worth a controlled test based on similarity between media/vehicle audience and organisational customer base • proven ability to reach target audience in the past • proven ability to generate profitable responses in the past • similarity to proven media vehicle/s • similarity between media vehicle/s, audience and organisational target audience or customer base
Budget allocation may include:	• allocation of online budget based on maximum cost for pay per click • allocation per medium based on number of times media and/or media vehicle can be used within the period while maintaining the budgeted average cost per response • budgeted number of responses required for the period • maximum daily budget
Measures to asses its effectiveness may include:	• attitude measurements • awareness measurements • cost per response • gross profit per contact • inquiry measurements • market tests • media audience measurements

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT	
	• number of responses • opinion measurements • physiological measurements • readership measurements • recall measurements • sales measurements • split cable tests • split-run tests • tests of different creative executions • tests of different direct marketing offers • tests of different media vehicles • theatre tests

Employability Skills Information

Employability skills	This unit contains employability skills.

Elements and Performance Criteria Pre-Content

Elements describe the essential outcomes of a unit of competency.	Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the required skills and knowledge section and the range statement. Assessment of performance is to be consistent with the evidence guide.

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
1. Interpret a creative brief	1.1. Confirm the ***central idea*** or creative concept, technique/s for expressing the idea/concept and ***mass print media*** to be used 1.2. Identify and check the ***advertising content*** and ***supporting information*** for accuracy and completeness 1.3. Confirm the time, schedule and budget requirements for creating the advertisement/s 1.4. Identify ***legal and ethical constraints***
2. Create a mass print media advertisement	2.1. Determine and produce the ***elements of a print advertisement*** to communicate the required image, features and benefits of the product or service 2.2. Size and position each element of the print advertisement to achieve balance and focus for the advertisement 2.3. Ensure the typeface selections suit the product and the central idea of the advertisement, and the layout balances white space and margins 2.4. Ensure the layout of the advertisement unifies the elements, attracts the reader to the focal point and guides the reading sequence

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

ELEMENT	PERFORMANCE CRITERIA
	2.5. Ensure the advertisement meets the requirements of the advertising brief and that it meets legal and ethical requirements

Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This section describes the skills and knowledge required for this unit.

Required skills

- creativity and innovation skills to write engaging scripts, and to use visual and design techniques to communicate advertising messages efficiently and effectively
- literacy skills to interpret requirements and to write for a variety of audiences and purposes.

Required knowledge

- industry, services, products and organisation
- legal and ethical requirements relating to the advertising industry
- principles and purposes of advertising
- principles of consumer behaviour and influences on buyer behaviour
- principles of creative elements in print advertisements
- range of available advertising approaches for different markets
- identification and overview knowledge of key provisions of relevant legislation from all levels of government that affects business operations, codes of practice and national standards, such as:
  - anti-discrimination legislation
  - consumer protection laws
  - copyright legislation
- ethical principles
- fair trading laws
  - privacy laws
  - Trades Practices Act
- requirements for advertising timelines, budget, central idea, resources as specified in the advertising brief.

Evidence Guide

EVIDENCE GUIDE	
The Evidence Guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, range statement and the Assessment Guidelines for the Training Package.	
Overview of assessment	

Critical aspects for assessment and evidence required to demonstrate competency in this unit	Evidence of the following is essential:
	• the production of at least three mass print advertisements in accordance with an advertising and creative brief including:
	  • a newspaper advertisement
	  • a magazine advertisement
	  • an outdoor advertisement.

Context of and specific resources for assessment	Assessment must ensure: • access to advertising copy to be used in the advertisement • access to an actual workplace or simulated environment • access to office equipment and resources • access to advertising and creative briefs.
Method of assessment	A range of assessment methods should be used to assess practical skills and knowledge. The following examples are appropriate for this unit: • analysis of responses to case studies and scenarios • assessment of written reports/examples of mass print advertisements • demonstration of techniques used to create mass print advertisements • direct questioning combined with review of portfolios of evidence and third party workplace reports of on-the-job performance by the candidate • oral or written questioning to assess knowledge of principles and purposes of advertising • review of legal and ethical constraints identified.
Guidance information for assessment	Holistic assessment with other units relevant to the industry sector, workplace and job role is recommended, for example: • BSBWRT501AWrite persuasive copy.

Elements and Performance Criteria

Elements and Performance Criteria

Element	Performance Criteria
1 Evaluate the use of media for advertising	1.1 Critically analyse the advantages and disadvantages of each marketing communications media variable and **advertising media options** for a product or service
	1.2 Determine **media characteristics** that match the requirements of the advertising brief for the product or service
	1.3 Analyse media consumption habits for **primary** and **supplementary advertising media** among target audiences
	1.4 Select advertising media options that match the requirements of the advertising brief for the product or service
2 Evaluate single and multiple media strategies	2.1 Evaluate media styles as they relate to brand character of product/service being advertised
	2.2 Compare the **advantages** and **disadvantages of selecting multiple media** in a media plan
	2.3 Develop and apply **criteria** for multiple media combination selection
3 Select and recommend advertising media	3.1 Recommend a **primary advertising media** which meets target audience preferences

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

3.2 Select and recommend **supplementary media** to complement the primary medium

3.3 Ensure recommended media meet the advertising brief and advertiser's requirements and **legal and ethical constraints**

Required Skills and Knowledge

This section describes the skills and knowledge required for this unit.

Required skills

literacy skills sufficient to read and interpret advertising briefs and to write reports with complex concepts and ideas

organisational and time management skills to sequence tasks and to meet timelines

research and data collection skills to evaluate the suitability of media to the product/service, brand and advertising objectives.

Required knowledge

economic, social and industry trends relevant to the choice of appropriate media options

industry products/services - to recommend appropriate media options

identification and overview knowledge of key provisions of relevant legislation from all levels of government that affects business operations, codes of practice and national standards, such as:

anti-discrimination legislation

consumer protection laws

copyright legislation

ethical principles

fair trading laws

privacy laws

Trades Practices Act.

	media combination selection.
Guidance information for assessment	Holistic assessment with other units relevant to the industry sector, workplace and job role is recommended, for example: other advertising units.

Range Statement

The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording, if used in the performance criteria, is detailed below. Essential operating conditions that may be present with training and assessment (depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts) may also be included.

Advertising media options may include:	aerial advertising billboards and posters cable and satellite television cinema digital video discs direct mail direct response email marketing free-to-air television internet magazines newspapers outdoor personal selling podcasting point-of-sale radio sponsorship telemarketing

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

	transit media
	video
	video games
	videotext
Media characteristics may include:	level of audience involvement
	level of audience receptiveness
	motion effects
	proximity to purchase
	sound effects
	visual effects
	whether the target audience responds actively
	whether the target audience responds passively
Primary advertising media may include:	magazines
	newspapers
	radio
	television
Supplementary advertising media may include:	outdoor
	point-of-sale
	transit media such as:
	bus sides
	taxi backs
Advantages of selecting multiple media may include:	increasing the frequency of the advertising message
	increasing the reach of the advertising message
Disadvantages of selecting multiple media may include:	duplication of impact
	duplication of resources
	fail to increase frequency
	fail to increase reach
	may increase the cost of advertising
Criteria for multiple media combination	whether frequency will be increased

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

may include:	whether reach will be increased cost avoidance of 'zipping and zapping'
Legal and ethical constraints may include:	codes of practice such as those issued by: Advertising Federation of Australia Australian Communications and Media Authority Australian Competition and Consumer Commission Australian Performing Right Association Commercial Radio Australia Free TV Australia cultural expectations and influences ethical principles legislation, including occupational health and safety legislation policies and guidelines regulations social responsibilities such as protection of children, environmental issues societal expectations

Employability Skills Information

Employability skills	This unit contains employability skills.

Elements and Performance Criteria Pre-Content

Elements describe the essential outcomes of a unit of competency.	Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the required skills and knowledge section and the range statement. Assessment of performance is to be consistent with the evidence guide.

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
1. Respond to complaints	1.1. Process ***customer complaints*** using ***effective communication*** in accordance with organisational procedures established under organisational policies, legislation or codes of practice 1.2. Obtain, ***document*** and review necessary reports relating to customer complaints 1.3. Make decisions about customer complaints, taking into account applicable legislation, organisational policies and codes 1.4. Negotiate resolution of the complaint and obtain agreement where possible 1.5. Maintain a register of complaints/disputes 1.6. Inform customer of the outcome of the investigation
2. Refer complaints	2.1. Identify complaints that require referral to other personnel or external bodies 2.2. Make ***referrals*** to appropriate personnel for follow-up in accordance with individual level of responsibility 2.3. Forward all documents and investigation reports 2.4. Follow-up appropriate personnel to gain prompt decisions
3. Exercise judgement to resolve customer	3.1. Identify implications of issues for customer and organisation

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

ELEMENT	PERFORMANCE CRITERIA
service issues	3.2. Analyse, explain and negotiate appropriate options for resolution with customer 3.3. Propose viable options in accordance with appropriate legislative requirements and enterprise policies 3.4. Ensure matters for which a solution cannot be negotiated are referred to appropriate personnel

Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This section describes the skills and knowledge required for this unit.

Required skills

- analytical skills to identify trends and positions of products and services
- communication skills to interpret customer complaints, and to monitor and advise on customer service strategies and resolutions
- culturally appropriate communication skills to relate to people from diverse backgrounds and people with diverse abilities
- literacy skills to read and understand a variety of texts; to prepare general information and papers according to target audience; and to edit and proofread texts to ensure clarity of meaning and accuracy of grammar and punctuation
- problem-solving skills to deal with customer enquiries or complaints, to apply organisational procedures to a range of situations and to exercise judgement in this application.

Required knowledge

- key provisions of relevant legislation from all forms of government that may affect aspects of business operations, such as:
  - anti-discrimination legislation
  - ethical principles
  - codes of practice
  - privacy laws
  - occupational health and safety (OHS)
- importance of good communication skills and the individual's role in processing customer complaints
- organisational procedures and standards for processing complaints and recommending appropriate action.

Evidence Guide

EVIDENCE GUIDE	
The Evidence Guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, range statement and the Assessment Guidelines for the Training Package.	
Overview of assessment	
Critical aspects for assessment and evidence required to demonstrate competency in this unit	Evidence of the following is essential: • applying judgement in the application of industry and/or organisational procedures • working with customer complaints • knowledge of organisational procedures and standards for processing complaints.
Context of and specific resources for assessment	Assessment must ensure: • access to an actual workplace or simulated environment • access to office equipment and resources • examples of customer complaints • examples of documents relating to customer complaints policies and procedures.
Method of assessment	A range of assessment methods should be used to assess practical skills and knowledge. The following examples are appropriate for this unit: • direct questioning combined with review of portfolios of evidence and third party workplace reports of on-the-job performance by the candidate • analysis of responses to case studies and scenarios • demonstration of techniques • observation of presentations • oral or written questioning to assess knowledge of individual's role in processing customer complaints • review of documentation outlining necessary reports relating to customer complaints • review of complaints/disputes register.
Guidance information for assessment	Holistic assessment with other units relevant to the industry sector, workplace and job role is recommended, for example: • customer service units

Elements and Performance Criteria Pre-Content

Elements describe the essential outcomes of a unit of competency.	Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the required skills and knowledge section and the range statement. Assessment of performance is to be consistent with the evidence guide.

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
1. Prepare a presentation	1.1. Plan and document presentation approach and intended outcomes 1.2. Choose ***presentation strategies***, ***format and delivery methods*** that match the ***characteristics*** of the target audience, location, resources and personnel needed 1.3. Select ***presentation aids***, ***materials*** and ***techniques*** that suit the format and purpose of the presentation, and will enhance audience understanding of key concepts and central ideas 1.4. Brief others involved in the presentation on their roles/responsibilities within the presentation 1.5. Select ***techniques to evaluate presentation effectiveness***
2. Deliver a presentation	2.1. Explain and discuss desired outcomes of the presentation with the target audience 2.2. Use presentation aids, materials and examples to support target audience understanding of key concepts and central ideas 2.3. Monitor non-verbal and verbal communication of participants to promote attainment of presentation outcomes 2.4. Use persuasive communication techniques to secure audience interest 2.5. Provide opportunities for participants to seek

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

ELEMENT	PERFORMANCE CRITERIA
	clarification on central ideas and concepts, and adjust the presentation to meet participant needs and preferences 2.6. Summarise key concepts and ideas at strategic points to facilitate participant understanding
3. Review the presentation	3.1. Implement ***techniques to review the effectiveness*** of the presentation 3.2. Seek and discuss reactions to the presentation from participants or from key personnel involved in the presentation 3.3. Utilise feedback from the audience or from key personnel involved in the presentation to make changes to central ideas presented

Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This section describes the skills and knowledge required for this unit.

Required skills

- culturally appropriate communication skills to relate to people from diverse backgrounds and people with diverse abilities
- facilitation and presentation skills to communicate central ideas of a message in an informative and engaging manner, and to utilise verbal and non-verbal techniques to sustain participant engagement
- literacy skills to prepare presentation information and to write in a range of styles for different target audiences.

Required knowledge

- data collection methods that will support review of presentations
- industry, product/service
- key provisions of relevant legislation from all forms of government that may affect aspects of business operations, such as:
  - anti-discrimination legislation
  - ethical principles
  - codes of practice
  - privacy laws
  - environmental issues
  - occupational health and safety

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

REQUIRED SKILLS AND KNOWLEDGE
• principles of effective communication • range of presentation aids and materials available to support presentations.

Evidence Guide

EVIDENCE GUIDE	
The Evidence Guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, range statement and the Assessment Guidelines for the Training Package.	
Overview of assessment	
Critical aspects for assessment and evidence required to demonstrate competency in this unit	Evidence of the following is essential: • preparation, delivery and evaluation of the effectiveness of at least two presentations related to the candidate's occupation or area of interest • knowledge of the principles of effective communication.
Context of and specific resources for assessment	Assessment must ensure: • access to an actual workplace or simulated environment • access to office equipment, documentation and resources.
Method of assessment	A range of assessment methods should be used to assess practical skills and knowledge. The following examples are appropriate for this unit: • demonstration of preparation, delivery and evaluation of a presentation • direct questioning combined with review of portfolios of evidence and third party workplace reports of on-the-job performance by the candidate • observation of presentations • review of selected presentation aids, materials and techniques • review of briefing provided for others involved in the presentation • evaluation of techniques implemented to review the effectiveness of the presentation.

EVIDENCE GUIDE	
Guidance information for assessment	Holistic assessment with other units relevant to the industry sector, workplace and job role is recommended, for example: • other general administration units.

Range Statement

RANGE STATEMENT	
The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording, if used in the performance criteria, is detailed below. Essential operating conditions that may be present with training and assessment (depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts) may also be included.	
Presentation strategies may involve:	• case studies • demonstration • discussion • group and/or pair work • oral presentations • questioning • simulations and role-play
Presentation format and delivery methods may include:	• advertising copy • audio • direct marketing copy • individual presentation • public relations copy • scripts • storyboards • team presentation • verbal presentation • video • visuals
Characteristics may include:	• age • cultural and language background • educational background or general knowledge • gender • language, literacy and numeracy needs

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT	
	• physical ability • previous experience with the topic
Presentation aids and materials may include:	• computer simulations and presentations • diagrams, charts and posters • models • overhead projector • paper-based materials • video and audio recordings • whiteboard

Presentation techniques may include:	• animation
	• comparative advertising
	• live action
	• music
	• signature elements such as:
	  • slogans
	  • logotypes
	  • packaging
	• sound effects
	• use of a guest speaker
	• use of black and white
	• use of colour
	• use of humour

Techniques to evaluate presentation effectiveness may include:	• action research • critical friends • focus group interviews • one-on-one interviews with participants and other personnel involve in the presentation • written feedback provided by participants

BSBCON401A Work effectively in a business continuity context

Modification History

Not applicable.

Unit Descriptor

Unit descriptor	This unit describes the performance outcomes, skills and knowledge required to work effectively in a business continuity context. This unit requires an awareness of the organisation's overall business continuity management framework and participation in activities related to the business continuity management framework. No licensing, legislative, regulatory or certification requirements apply to this unit at the time of endorsement.

Application of the Unit

Application of the unit	This unit is for individuals working in administrative and/or support roles who require a basic knowledge of the processes relating to the organisation's business continuity requirements. Business continuity awareness and planning help the organisation to identify barriers and/or interruptions and to determine how the organisation will achieve critical business objectives (even at diminished capacity) until full functionality is restored.

Licensing/Regulatory Information

Not applicable.

ELEMENT	PERFORMANCE CRITERIA
business continuity strategies	***risk*** context relevant to the organisation 2.2. Review and provide feedback on the outcomes of the ***business impact assessment/s*** 2.3. Participate in ***risk treatment*** reviews 2.4. Identify and record the organisation's ***emergency response***, ***continuity and recovery strategies*** 2.5. Identify own role and responsibility within the organisation's ***business continuity plan/s*** 2.6. Identify and report to management on any new or ***emerging risk*** or ***incident***

Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This section describes the skills and knowledge required for this unit.

Required skills

- communication and teamwork skills to:
  - provide feedback to appropriate personnel about the business continuity management framework and strategies
  - read, write and understand a variety of workplace documents
  - work effectively with diverse individuals and groups
- learning skills to participate in training activities and to improve own knowledge and skills about business continuity management
- planning and organising skills to identify risk factors and to take action to minimise risk according to level of responsibility
- problem-solving skills to appropriately address identified risks treatments (within ownlevel of responsibility)
- research and data collection skills to monitor and evaluate risks
- technology skills to use the organisation's data and information management systems

Required knowledge

- Australian/New Zealand Standard AS/NZS 4360:2004Risk Management
- Australian/New ZealandStandard HandbookAS/NZS HB221:2004 Business Continuity Management
- organisation's policies and procedures, including business continuity strategies
- overall operations of the organisation, including existing data and information systems

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

REQUIRED SKILLS AND KNOWLEDGE
• relevant legislation and regulations that impact on business continuity, such as OHS, environment, duty of care, contract, company, freedom of information, industrial relations, privacy and confidentiality, due diligence, records management

Evidence Guide

EVIDENCE GUIDE	
The Evidence Guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, range statement and the Assessment Guidelines for the Training Package.	
Critical aspects for assessment and evidence required to demonstrate competency in this unit	Evidence of the following is essential: • demonstrated understanding of own role in relation to wider business continuity requirements in the organisation • demonstrated understanding of risk and the business continuity management framework processes and policies as they apply in the organisation • participation in contributing to improving business continuity management framework processes within the organisation
Context of and specific resources for assessment	Assessment must ensure: • access to workplace documentation relating to risk management • access to business continuity management framework, business impact assessments and strategies
Method of assessment	A range of assessment methods should be used to assess practical skills and knowledge. The following examples are appropriate for this unit: • direct questioning combined with review of portfolios of evidence and third party workplace reports of on-the-job performance by the participant • review of documentation outlining risk context and organisation's processes and outcomes • work based projects or case studies • scenarios • oral or written questioning to assess basic knowledge of Australian standards for risk management and

Elements and Performance Criteria Pre-Content

Elements describe the essential outcomes of a unit of competency.	Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the required skills and knowledge section and the range statement. Assessment of performance is to be consistent with the evidence guide.

Elements and Performance Criteria

ELEMENT	**PERFORMANCE CRITERIA**
1. Conduct risk and vulnerability assessments	1.1. Identify the relationship between ***corporate risk*** and the ***organisation's*** business continuity management framework 1.2. Analyse and determine internal and external ***risk*** context by collecting information that relates to the organisation's priorities, operations and environment 1.3. Analyse and identify potential internal and external sources of disruption to the organisation's priorities, operations and environment
2. Develop and report on	2.1. Identify the organisation's ***critical business***

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

ELEMENT	PERFORMANCE CRITERIA
the business impact assessment/s	***functions*** and their ***dependencies*** and ***interdependencies***, and analyse and evaluate risks through the ***business impact assessment/s*** 2.2. Develop risk and disruption scenarios through the business impact assessment/s 2.3. Validate risk and ***disruption scenarios*** through the business impact assessment/s 2.4. Analyse, validate and report on the outcomes of the business impact assessment/s to ***management***
3. Develop, implement and report on risk treatments	3.1. Develop and implement risk treatments 3.2. Participate in ***risk treatment*** review 3.3. Report on risk treatment review to management and relevant appropriate personnel 3.4. Update risk treatment review in line with feedback provided by relevant personnel
4. Determine interdependencies and develop response strategies	4.1. Develop the organisation's ***emergency response***, ***continuity and recovery strategies*** 4.2. Consult and seek endorsement on the organisation's emergency response, continuity and recovery strategies from management and other appropriate personnel 4.3. Identify and manage synergies and conflicts in ***resource*** availability and access in conjunction with management 4.4. Coordinate the organisation's emergency response, continuity and recovery strategies
5. Establish the business continuity plan	5.1. Consult relevant personnel and seek support for the development of the organisation's ***business continuity plan/s*** 5.2. Ensure content of business continuity plan is comprehensive and meets, where applicable, the requirements of regulations, standards, industry practice and geographical dispersion 5.3. Document and analyse feedback received through consultation and finalise business continuity plan 5.4. Demonstrate accountability for the organisation's business continuity plan/s
6. Establish the communication plan within the organisation's	6.1. Identify ***stakeholders*** and determine objective and scope of ***communication plan*** for periods before, during and after disruptions occur 6.2. Determine organisation's communication

ELEMENT	PERFORMANCE CRITERIA
planning framework	capabilities in line with objectives and scope, and identify gaps and options for meeting shortfalls 6.3. Develop and implement across the organisation, appropriate risk and incident monitoring, reporting and escalation processes
7. Deliver business continuity professional development activities	7.1. Promote the application of the business continuity management framework and plan to all relevant personnel on an ongoing basis 7.2. Provide staff with appropriate information relating to the cyclical review process of the business continuity management plan 7.3. Conduct business continuity management plan ***exercises*** in line with the organisation's policies and procedures 7.4. Conduct post exercise debriefs, complete post exercise reviews and update business continuity strategies and plans as required 7.5. Manage and record staff learning and development in relation to the business continuity management framework in accordance with organisational requirements, and framework policies and procedures 7.6. Report on the outcomes of staff learning and development, and business continuity framework exercises to relevant personnel

Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE
This section describes the skills and knowledge required for this unit.
Required skills

• analytical skills to analyse relevant workplace information and data, and to make observations and connections between workplace tasks and interactions in relation to people, activities, equipment, environment and systems
• communication, teamwork and leadership skills to:
  • read and interpret an organisation's reports, policies and procedures in order to develop business continuity management plan/s
  • effectively communicate and work with a diverse range of individuals at all levels during and after a disruptive event

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

REQUIRED SKILLS AND KNOWLEDGE
• effectively negotiate the trust and confidence of colleagues and stakeholders • effectively undertake detailed business impact assessment activities across the spectrum of the organisation's stakeholders • information technology skills to effectively respond to information technology issues • initiative and enterprise skills to generate a range of options in response to a disruptive event • planning and organisational skills to participate in or to establish the organisation's improvement and planning processes • presentation skills to develop and present reports or presentations that deal with complex ideas and concepts, and to articulate information and ideas clearly • research skills to undertake the necessary background research for risk and vulnerability assessment, business impact assessment and business continuity plan • risk management and project planning skills to effectively develop and execute potentially complex business continuity planning strategies and plans • stress management skills to work effectively and positively under the pressure of a major incident or situation within the workplace.
Required knowledge
• Australian/New Zealand Standard AS/NZS 4360:2004Risk Management • Australian/New Zealand Standard HandbookAS/NZS HB221:2004 Business Continuity Management • organisation's policies and procedures, including business continuity strategies • overall operations of the organisation, including existing data and information systems, paper and digital recordkeeping systems • past and current internal, external and industry disruptions • relevant legislation and regulations that impact on business continuity, such as OHS, environment, duty of care, contract, company, freedom of information, industrial relations, emergency management, privacy and confidentiality, due diligence, records management • types of available insurance, what is required and insurance providers in relation to business continuity planning • types of available recoverable services.

Evidence Guide

EVIDENCE GUIDE
The Evidence Guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, range statement and the Assessment Guidelines for the Training Package.

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

EVIDENCE GUIDE	
Critical aspects for assessment and evidence required to demonstrate competency in this unit	Evidence of the following is essential: • knowledge of the organisation's overall business continuity framework and how it interrelates with the critical business functions • development and implementation of a business continuity plan that includes appropriate links to emergency response, disaster recovery plans and detailed continuity and recovery strategies • effective management of the communication and staff development activities relating to business continuity risk and vulnerability assessment.
Context of and specific resources for assessment	Assessment must ensure: • access to workplace business continuity documentation • access to feedback from teams and management.
Method of assessment	A range of assessment methods should be used to assess practical skills and knowledge. The following examples are appropriate for this unit: • direct questioning combined with review of portfolios of evidence and third party workplace reports of on-the-job performance by the participant • work based projects or case studies • observation of presentations • oral or written questioning to assess knowledge of business continuity management framework and business continuity plans • review of documented critical success factors, and goals or objectives for area • review of risks prioritised for risk treatment and disruption scenarios • evaluation of business impact assessment • evaluation of business continuity and communication strategies and plans.
Guidance information for assessment	Holistic assessment with other units relevant to the industry sector, workplace and job role is recommended.

Range Statement

RANGE STATEMENT	
The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording, if used in the performance criteria, is detailed below. Essential operating conditions that may be present with training and assessment (depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts) may also be included.	
Corporate risk may include:	• electronic information security • espionage/commercial confidence/sensitivity breach • governance • insolvency • major fraud • professional negligence - threat of major legal action against directors
Organisations may include:	• commercial enterprises • community • government • non-commercial enterprises • not-for-profit • religious organisations
Risk may include:	• aeronautical • armed hold-up • biological • chemical • civil disturbance • disability/death of key person • economic • electronic • erosion • explosion • fire • fraud • hazardous materials • industrial accident • infrastructure failure • market failure • natural disaster • operational collapse - insolvency • pandemic

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT	
	• pollution • privacy and confidentiality • radiological/nuclear • robbery and/or major vandalism • sabotage • structure failure • terrorism • transport accident • war • water • weather/climate change
Critical business functions may include:	• business objectives • customer service functions • financial systems • human resource functions • management • OHS • organisational structure • payroll • records management
Dependencies may include:	• office furniture • office supplies • personnel • support activities • systems and applications • vital records
Interdependencies may include:	• communications • outsourcer and third party suppliers • power • sanitation • security • transport • water
Business impact assessment/s may include:	• breach/reduction of customer service standards • cost/impact on existing and/or increased finance • escalating losses over time • impact of loss of business/resources • loss of revenue • potential fines/penalties/litigation costs • reputation/brand damage

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT	
	• statutory/regulatory breaches
Disruption scenarios may include:	• damage to/loss of critical infrastructure • information and intelligence - unavailable • equipment and other assets - unavailable • litigation • loss of access to building • loss of access to precinct • loss of access to records and organisational information systems • loss of building • loss of communications - voice • loss of communicationsÂ - data • loss of distribution chain • loss of information technology systems • loss of number and availability of staff, including key staff • not meeting legal and business requirements • partnership dependencies - denial of access to goods and services from suppliers, outsourcers
Management may include:	• chief executive officer • company board • delegated business continuity management director/officer • department managers • directors • supervisors
Risk treatment may include:	• activating evacuation plan • activating lockdown procedures • activating workplace emergency management plan • personnel working from home • relocation of facilities • temporarily suspending activities • transferring activities
Emergency response strategies may include:	• contact lists to report incident/s • documentation/reporting/recording procedures • evacuation plan • location of evacuation assembly point • lock down procedures • names and responsibilities of wardens

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT	
	• personnel instructions for evacuation • process for accounting personnel • workplace emergency management plan
Continuity strategies may include:	• action required to resume critical business activities to pre-disruption capacity • contact lists of critical personnel and stakeholders • counselling • critical business activities and prioritisation of when they can/need to resume • list of resources • relocation to alternative worksite • resource replacement • treatment for critical business activities
Recovery strategies may include:	• customer confidence/relationship management • damage assessment • market re-establishment • process for assessing loss and filing insurance claims • relocation of business to original location • salvage and restoration of records, infrastructure and premises
Resources may include:	• critical written and/or electronic records • emergency services • facilities and/or accommodation • finances • information technology infrastructure and applications management • insurance • personnel • plant and equipment • premises • telecommunications
Business continuity plan*/*s may include:	• introduction • organisational details • objectives • purpose • critical business functions • assumptions • processes

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT	
	• activation and stand down • responsibility • version control and maintenance • operational requirements • critical success factors • interdependencies • outage times • compliance • people • structure • roles and responsibilities • contact details • continuity arrangements • accommodation • resources • workarounds and alternate solutions • continuity management tasks • communications • other plans • checklists • maps and drawings
Stakeholders may include:	• chief executive officer • company board • customers • directors • families/next-of-kin • funders • local community • media • personnel • professional bodies • shareholders • relevant government minister/s and department/s • regulators • sponsors • suppliers
Communication plan may include:	• accessibility • assumptions • audience

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT	
	• boundaries • business continuity terminology • capability • equipment • hierarchical organisational chart of internal and external emergency services personnel/delegates • mode • monitoring procedures • radio silence • reporting and recording procedures • sensitivities
Exercises may include:	• drills • discussion exercises • modelling • planned walkthroughs • scenario planning and exercising • simulated exercises • testing

BSBCON701A Establish and review the business continuity management framework and strategies

Modification History

Not applicable.

Unit Descriptor

Unit descriptor	This unit describes the performance outcomes, skills and knowledge required to establish and review the formal and/or informal business continuity management framework and strategies for an organisation. No licensing, legislative, regulatory or certification requirements apply to this unit at the time of endorsement.

Application of the Unit

Application of the unit	This unit is for individuals working in positions of authority who have the responsibility for embedding business continuity management into corporate or organisational levels of a business. This unit addresses the knowledge and processes necessary to establish, monitor and review the requirements of the business continuity management framework. The framework is important as it provides the processes and resources to ensure the continued achievement of critical business objectives in the event of a disruption (even at diminished capacity) until full functionality is restored.

Licensing/Regulatory Information

Pre-Requisites

Prerequisite units		

Employability Skills Information

Employability skills	This unit contains employability skills.

Elements and Performance Criteria Pre-Content

Elements describe the essential outcomes of a unit of competency.	Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the required skills and knowledge section and the range statement. Assessment of performance is to be consistent with the evidence guide.

Elements and Performance Criteria

ELEMENT	**PERFORMANCE CRITERIA**
1. Establish business continuity management framework	1.1. Gain support for the business continuity management framework from ***relevant personnel*** 1.2. Demonstrate clear sponsorship, responsibility and accountability for the business continuity management framework 1.3. In consultation with others, establish ***governance structures*** for the business continuity management framework, in line with the size of the organisation 1.4. Determine and seek approval for ***resources*** required to implement the business continuity management framework 1.5. Support relevant personnel to implement the business continuity management framework 1.6. Establish a management system for the

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

ELEMENT	PERFORMANCE CRITERIA
	organisation's business continuity management program 1.7. Seek ***management*** approval of the organisation's business continuity management framework
2. Monitor the business continuity management framework and strategies	2.1. Develop an appropriate cyclical review process for monitoring the business continuity management framework 2.2. Provide relevant personnel with information relating to the cyclical review process for the business continuity management framework 2.3. Develop and seek approval of ***tools*** to verify and validate the business continuity management framework activities, processes and plans, appropriate to the organisation 2.4. Consult with relevant personnel about the implementation of the business continuity management framework 2.5. Monitor business continuity management framework learning, development and ***exercises*** across organisation
3. Review and evaluate the business continuity management framework and strategies	3.1. Review and analyse reports on business continuity management framework learning and development exercises 3.2. Review and analyse the organisation's communication strategy and implement changes 3.3. Review and update the overall business continuity management framework activities, processes, plans and resources according to results ***pre and post activation*** 3.4. Analyse and integrate the organisation's business impact assessment/s and identify ***dependencies*** and ***interdependencies*** if applicable 3.5. Implement and conduct business continuity management program audits

Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This section describes the skills and knowledge required for this unit.

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

REQUIRED SKILLS AND KNOWLEDGE

Required skills

- analytical skills to:
  - assess relevant workplace information and data to determine and utilise resources, activities, equipment, environment and systems
  - investigate a critical incident and provide recommendations and remedies
- communication, teamwork and leadership skills to:
  - read and interpret an organisation's reports, policies and procedures in order to establish and review business continuity management framework
  - effectively and calmly communicate and work with a diverse range of individuals at all levels during and after a disruptive event
  - review and report on a critical incident to all relevant parties including being able to provide submissions to the chief executive officer (CEO), Board and Directors
  - effectively negotiate the trust and confidence of an organisation's personnel
  - demonstrate leadership across the organisation by acting as a positive role model
- information technology skills to understand complex information technology issues within the organisation's environment
- initiative, enterprise and problem solving skills to:
  - translate a range of ideas into appropriate action when a disruptive event occurs
  - solve problems individually and in teams in response to changing environments
- planning and organisational skills to establish and monitor the organisation's improvement and planning processes
- presentation skills to develop and present reports or presentations that deal with complex ideas and concepts, and to articulate information and ideas clearly to an appropriate audience
- project planning skills to effectively develop and execute potentially complex business continuity management frameworks, and to analyse and provide advice on business continuity management plans
- research skills to undertake the necessary background research for the development and monitoring of the business continuity management framework
- stress management skills to work effectively and positively under the pressure of a major incident or situation within the workplace

Required knowledge

- Australian/New Zealand Standard AS/NZS 4360:2004Risk Management
- Australian/New Zealand Standard HandbookAS/NZS HB221:2004 Business Continuity Management
- circumstances, barriers and/or interruptions that will disrupt, damage or inhibit the continuation of critical business functions
- organisation's current functionality,including existing data and information systems

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

REQUIRED SKILLS AND KNOWLEDGE
• organisation's internal and external dependencies and interdependencies • organisation's policies and procedures, including risk management strategy • past and current internal, external and industry disruptions • relationship of the business continuity management framework to other business processes • relevant legislation and regulations that impact on business continuity, such as OHS, environment, duty of care, contract, company, freedom of information, industrial relations, privacy and confidentiality, due diligence, records management • types of available insurance, what is required and insurance providers in relation to business continuity planning

Evidence Guide

EVIDENCE GUIDE	
The Evidence Guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, range statement and the Assessment Guidelines for the Training Package.	
Critical aspects for assessment and evidence required to demonstrate competency in this unit	Evidence of the following is essential: • knowledge and understanding of an organisation's culture and capabilities, and the need for sustainable business continuity management planning • demonstrated ability to think strategically and to work effectively with others to establish a business continuity management framework for an organisation.
Context of and specific resources for assessment	Assessment must ensure: • access to workplace business continuity documentation • access to feedback from teams and all levels of management.
Method of assessment	A range of assessment methods should be used to assess practical skills and knowledge. The following examples are appropriate for this unit: • direct questioning combined with review of portfolios of evidence • third party workplace reports of on-the-job performance by the participant • observation of presentations

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

EVIDENCE GUIDE	
	• work based projects or case studies • oral or written questioning to assess knowledge of business continuity management framework.
Guidance information for assessment	Holistic assessment with other units relevant to the industry sector, workplace and job role is recommended.

Range Statement

RANGE STATEMENT	
The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording, if used in the performance criteria, is detailed below. Essential operating conditions that may be present with training and assessment (depending on the work situation, needs of the participant, accessibility of the item, and local industry and regional contexts) may also be included.	
Relevant personnel may include:	• chief executive officer • company board • delegated business continuity management officer • directors • department managers • supervisors • chief financial officer (CFO) • chief operating officer (COO) • workplace health and safety officers (WHSO)
Governance structures may include:	• authorisation processes • development and coordination of business continuity management framework • monitoring the business continuity management framework • organisational chart showing management functions and reporting responsibilities • tracking and measurement of performance and outcome of the business continuity management framework
Management may include:	• chief executive officer • company board • delegated business continuity management

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT	
	director/officer • department managers • directors • supervisors
Resources may include:	• critical written and/or electronic records • emergency services • facilities and/or accommodation • finances • information technology infrastructure and applications management • insurance • media relations/communications officer • outsourced services • personnel/human resources • plant and equipment • premises • telecommunications • salvage crew • training personnel
Tools may include:	• component testing (simple checks) • desktop scenario tests • financial audit • hazard and risk identification documentation • information systems • live simulation tests • performance audits • plant and equipment maintenance schedules • technical testing (detailed checks) • workplace health and safety audit
Exercises may include:	• drills • discussion exercises • modelling • planned walkthroughs • scenario planning and exercising • simulated exercises • testing
Pre and post activation may include:	• aims and objectives for business continuity management exercise plan • amendment of business continuity management plan following exercise

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT	
	• assessment of current business continuity management plan • feedback documentation from exercises • identification of emerging threats and risks
Dependencies may include:	• office furniture • office supplies • personnel • systems and applications • vital records
Interdependencies may include:	• communications • outsourcer and third party suppliers • power • sanitation • security • transport • water

Co-requisite units

Co-requisite units		

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

BSBCRT301A Develop and extend critical and creative thinking skills

Modification History

Not applicable.

Unit Descriptor

Unit descriptor	This unit describes the performance outcomes, skills and knowledge required to develop the habit of thinking in a more creative way. No licensing, legislative, regulatory or certification requirements apply to this unit at the time of endorsement.

Application of the Unit

Application of the unit	This unit applies to individuals who need to develop and extend their critical and creative thinking skills. Creative thinking involves looking at things differently, musing, testing, experimenting and challenging existing thought patterns. Creative thinking can take place anywhere - at home, at work, lying in bed at night, in the shower or on the bus. It can be applied to any type of issue or situation. When used effectively it can assist with the improvement of existing, or the development of entirely new or innovative services, products or processes. Sometimes creative thinking may pay off in a seemingly unconnected way at a future time and in an apparently unrelated context. Creative thinking can be learnt and applied through thoughtful application of skills related to observation, analysis, reflection, problem solving, evaluation and critical appraisal. Effective use of creative thinking skills opens up new opportunities for individuals, businesses and communities.

Pre-Requisites

Prerequisite units		

Employability Skills Information

Employability skills	This unit contains employability skills.

Elements and Performance Criteria Pre-Content

Elements describe the essential outcomes of a unit of competency.	Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the required skills and knowledge section and the range statement. Assessment of performance is to be consistent with the evidence guide.

Elements and Performance Criteria

ELEMENT	**PERFORMANCE CRITERIA**
1. Develop a questioning mindset	1.1. Develop the habit of asking ***questions*** from ***different perspectives*** 1.2. Take responsibility for exploring a variety of information sources to provide relevant answers to own questions 1.3. Sort through information and ideas to identify the central questions, issues and challenges 1.4. Challenge preconceptions and assumptions to determine actual constraints in defining a problem for resolution

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

ELEMENT	PERFORMANCE CRITERIA
2. Generate ideas and responses	2.1. Explore and use a range of ***creative thinking techniques*** to generate ideas and responses 2.2. Muse on, play around with and have fun with ideas in relation to a perceived objective 2.3. Identify and challenge ***blockers to creative thinking*** 2.4. Consider and explore realities beyond the current situation 2.5. Evaluate, and where appropriate, challenge ***existing boundaries*** to determine perceived or actual constraints 2.6. Show willingness to take ***risks with ideas and thought processes*** 2.7. Look around in ***familiar and unfamiliar places*** for new inspiration and habitually record observations, experiences, ideas and reflective thoughts to broaden personal knowledge base 2.8. Acknowledge and accept the opportunity for revelation when least expected 2.9. Identify connections and associations from things that seem unconnected
3. Challenge, test and re invent ideas	3.1. Identify, interrogate and challenge the assumptions behind ideas 3.2. Experiment with variations, and explore and challenge a range of different solutions and ideas 3.3. Consciously change perspectives, and evaluate ideas and situations in new ways 3.4. Where appropriate, involve others in ideas and how they might change or be improved
4. Enhance creative thinking skills	4.1. Consciously challenge and question own thought patterns and ways of responding to work and life situations 4.2. Identify and take opportunities to self-assess and to learn about new ideas and different ways of thinking 4.3. Take opportunities to practise and experiment with creative thinking techniques across work and life situations 4.4. Pro-actively talk to others about ways that new ideas and patterns of thinking can be encouraged and developed

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE
This section describes the skills and knowledge required for this unit.
Required skills
• creative thinking skills to participate effectively and actively in a range of creative thinking activities • literacy skills to explore and analyse information dealing with potentially complex concepts from a wide range of sources • problem-solving skills to tease out central themes and issues, and to respond with a range of ideas and solutions • reflective learning and self-management skills to question and challenge own skills and practice, to identify and access learning opportunities, and to be prepared to learn new things in unfamiliar areas.
Required knowledge
• common blockers to creative thinking, both from an individual and organisational perspective • definitions, concepts and history of creativity at an overview level • different creative thinking techniques and how they work, including daydreaming and mental wandering, wishful thinking, use of metaphors and analogies, trigger words, morphological analysis, brainstorming visualisation, mind mapping, lateral thinking games, Edward de Bono's six thinking hats, making associations and storytelling • how creativity applies everywhere, not just in traditionally 'creative' contexts • impacts of creative thinking on individuals, communities and businesses • techniques for filtering to process diverse information • ways of extending and developing individual creative thinking skills.

Evidence Guide

EVIDENCE GUIDE	
The Evidence Guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, range statement and the Assessment Guidelines for the Training Package.	
Overview of assessment	
Critical aspects for assessment and evidence required to demonstrate	Evidence of the following is essential: • active participation in a range of creative thinking

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

EVIDENCE GUIDE	
competency in this unit	activities, including ability to ask relevant questions and to generate a range of ideas in response to a given situation or issue • understanding of creativity and creative thinking at a basic level, including its impact and importance for individuals, communities and businesses • knowledge and application of different creative thinking techniques and processes to a range of situations.
Context of and specific resources for assessment	Assessment must ensure: • interactions with challenges, situations and scenarios to which creative thinking may be applied (usually this would involve interactions with others to reflect the nature of the creative thinking process).
Method of assessment	A range of assessment methods should be used to assess practical skills and knowledge. The following examples are appropriate for this unit: • direct questioning combined with review of portfolios of evidence and third party workplace reports of on-the-job performance by the candidate • direct observation of the candidate participating in collaborative creative thinking activities • evaluation of ideas generated by the candidate (with or without others) and of the processes used to generate and test those ideas • evaluation of a presentation made by the candidate articulating the process of developing ideas or pieces of work, plus evaluation of candidate debating and discussing ideas with others • evaluation of a (non-computerised) game developed by the candidate, played with others, challenged and re-invented • oral or written questioning to assess knowledge of creative thinking techniques, concepts and definitions of creativity.
Guidance information for assessment	Creative thinking always occurs in a specific context. Therefore holistic assessment with other units relevant to the industry sector, workplace and job role is highly recommended. Assessors must, however, retain a strong focus on the creative thinking skills as described in this unit.

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

Range Statement

RANGE STATEMENT	
The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording, if used in the performance criteria, is detailed below. Essential operating conditions that may be present with training and assessment (depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts) may also be included.	
Questions may include:	• are there any boundaries I need to consider? • are there new ideas we can bring to this situation? • how could I solve this problem? • is there a different way of doing this? • what am I or others trying to do? • what do I need to do to make this better? • what extra information do I need? • what is missing? • what is required? • who do I need to talk to about this? • why is this so?
Different perspectives may be those of:	• clients or customers • family members • friends • funding bodies • general public • history • organising committees • regulatory authorities • self • specialists or experts • supervisors or managers • work colleagues

Creative thinking techniques may include:	• brainstorming:
	  • stop and go
	  • sequencing
	  • buzz session
	  • bulletin board
	  • computer-aided

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT	

	• daydreaming and mental wandering
	• Edward de Bono's six thinking hats
	• ego alter or heroes
	• graphic organisers:
	  • visual maps
	  • webbing
	  • concept fans
	• lateral thinking games
	• making associations
	• mind mapping
	• morphological analysis
	• storytelling
	• sub-culture surfing
	• trigger words
	• use of metaphors and analogies
	• vision circles
	• visualisation
	• wishful thinking
	• word salads

Blockers to creative thinking may be:	• cultural
	• emotional
	• environmental
	• family
	• ideas and perceptions about how we should behave, such as:
	  • play according to the rules
	  • don't ask questions
	  • don't be silly
	  • do as you're told
	  • be practical
	  • (taken from Lotherington 2003: Flicking Your Creative Switch)
	• intellectual
	• peer pressure
	• perceptual
	• risk aversion
	• 'way it's done round here'

Existing boundaries may relate to:	• available resources (human, financial, physical) • established tradition or practice in a given field of activity

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT	
	• communication protocols • procedures and processes • specifications • unspoken agreements about who does what and how • work conditions
Risks with ideas and thought processes might involve:	• accepting the limitations of one's own knowledge or capacity • challenging established authority • challenging the continuation of current ways of doing things • changing the rules • exposing oneself or others to possible criticism • facing personal fears and apprehensions • letting go of control • radically changing long established tradition, practice or norms • taking financial risks • taking self or others outside of a comfort zone
Familiar and unfamiliar places may include:	• colleagues • community groupings • friends • hardware stores • information sources with little direct link to the question at hand • journals • junk stores • libraries • museums • recycling yards • shopping centres • websites • workshops

BSBCRT401A Articulate, present and debate ideas

Modification History

Not applicable.

Unit Descriptor

Unit descriptor	This unit describes the performance outcomes, skills and knowledge required to articulate, present and debate ideas. No licensing, legislative, regulatory or certification requirements apply to this unit at the time of endorsement.

Application of the Unit

Application of the unit	This unit applies to individuals who need to present and debate ideas in a work or broader life context. While the unit shares some similarities with units such as BSBCMM401A Make a presentation or BSBRES401A Analyse and present research information, the focus is quite different. This unit focuses on the creative ways in which ideas can be presented to provoke response, reaction and critical debate. Risk taking, storytelling and participation in critical debate are key features of the unit. Ideas might be quite complex in nature and relate to new products, services, creative works or new ways of doing things.

Licensing/Regulatory Information

Not applicable.

Employability Skills Information

Employability skills	This unit contains employability skills.

Elements and Performance Criteria Pre-Content

Elements describe the essential outcomes of a unit of competency.	Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the required skills and knowledge section and the range statement. Assessment of performance is to be consistent with the evidence guide.

Elements and Performance Criteria

ELEMENT	**PERFORMANCE CRITERIA**
1. Analyse ideas for communication to others	1.1. Distil ***key themes***, ***messages and positions*** to aid in clarity of thought and presentation 1.2. Reflect on ***different ways of communicating ideas*** for different purposes and to different people 1.3. Identify the enabling skills and attributes of ***individuals*** who can effectively participate in discussions about ideas
2. Provoke response and reaction	2.1. Explore and use ***different techniques to engage***, ***fascinate and involve others*** in the process of communication and exchange 2.2. Explore the ways that storytelling can be used to communicate ideas 2.3. Create ***innovative approaches to different communication challenges*** 2.4. Be prepared to take ***risks*** in the way ideas are

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

ELEMENT	PERFORMANCE CRITERIA
	presented 2.5. Identify ***specific ways to provoke and encourage response*** in particular individuals or groups
3. Debate and discuss ideas	3.1. Present and argue ***substantiated positions*** on ideas 3.2. Be open to critical analysis of own ideas and to the ideas of others 3.3. Identify and participate in conversations that challenge and explore different concepts and approaches, and generate new ideas 3.4. Respond to questions about ideas with confidence and relevant information 3.5. Reflect on and appraise the views of others, and use to refine ideas and to embrace new ideas

Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This section describes the skills and knowledge required for this unit.

Required skills

- communication skills to present ideas in ways that engage and provoke response, and to debate and discuss potentially complex concepts
- creative thinking skills to develop responses and new ideas in response to feedback
- learning and self-management skills to actively seek feedback and to learn from others
- literacy skills to develop and interpret information dealing with complex ideas.

Required knowledge

- creative and different ways of expressing and communicating ideas, and of making an opportunity pitch
- different ways in which individuals receive and respond to ideas and information, and what influences their response
- nature and role of risk taking in the presentation and debate of ideas
- role of storytelling in communicating ideas and key storytelling techniques
- techniques to tailor comments to particular audiences.

Evidence Guide

EVIDENCE GUIDE	
The Evidence Guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, range statement and the Assessment Guidelines for the Training Package.	
Overview of assessment	
Critical aspects for assessment and evidence required to demonstrate competency in this unit	Evidence of the following is essential: • creative and articulate presentations that provoke interest and response • active and confident participation in critical debate and discussion of ideas.
Context of and specific resources for assessment	Assessment must ensure: • presentations to others about ideas • discussion and debate with others about ideas.
Method of assessment	A range of assessment methods should be used t assess practical skills and knowledge. The following examples are appropriate for this unit: • direct questioning combined with review of portfolios of evidence and third party workplace reports of on-the-job performance by the candidate • direct observation of candidate participation in presentations and debates • evaluation of candidate's skills in responding to new and different communication situations • evaluation of candidate telling a story, making a pitch or presenting ideas to complete strangers in 'different' environments (e.g. in a restaurant, in the corridor, on a bus, in a lift).
Guidance information for assessment	Holistic assessment with other units relevant to the industry sector, workplace and job role is recommended.

Range Statement

RANGE STATEMENT
The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording, if used in the performance criteria, is detailed below. Essential operating

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT	
conditions that may be present with training and assessment (depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts) may also be included.	
Key themes, ***messages and positions*** may relate to:	• essence of the idea • influences on the idea • relationship of idea to established tradition or practice • relationship of idea to new and emerging technology • problems and challenges with the idea • reasons why the idea should be supported • selling a creative team • selling creative ideas • selling self as a creative person • way the idea was developed • who had developed the idea and why
Different ways of communicating ideas may be:	• aural • group presentation/pitch • in a forum • in elevators • one-on-one discussion • on planes • oral • remote (e.g. video conferencing) • visual
Individuals may be:	• colleagues • community members • friends • gallery owners • interviewers (media) • investors • mentors • panels • peers • students • supervisors or managers
Different techniques to engage, ***fascinate and involve others*** may include:	• blogging • media releases • multimedia presentations • music

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT	
	• photography • storytelling • viral marketing • visual depictions
Innovative approaches to communication challenges may involve ability to:	• get across all key messages in a short time • present on unfamiliar topic • respond to impromptu situations • structure information quickly and effectively
Specific ways to provoke and encourage response may include:	• use of engaging objects to explain idea
Risks may involve:	• acknowledging own limits and difficulties • asking for help • breaking out of accepted norms • divulging personal information or vulnerabilities • failing and learning from it • incorporating humour • taking a fun approach with a potentially serious audience
Substantiated positions may be positions which are:	• grounded in appropriate research • result of rational and logical thought • subjected to the analysis of others (e.g. peer review) • supported by relevant information

Modification History

Not applicable.

Unit Descriptor

Unit descriptor	This unit describes the performance outcomes, skills and knowledge required to collaborate in a creative process. No licensing, legislative, regulatory or certification requirements apply to this unit at the time of endorsement.

Application of the Unit

Application of the unit	This unit applies to individuals who participate in a collaborative creative process in a work or broader life context. It is relevant to individuals who are involved in what is traditionally considered creative endeavour but is also very important in broader business and community activities where creative team effort is highly valued. The unit focuses on effective engagement in a collaborative process, underpinned by a commitment to trust and ethics as a key feature of collaborative creative effort.

Licensing/Regulatory Information

Employability Skills Information

Employability skills	This unit contains employability skills.

Elements and Performance Criteria Pre-Content

Elements describe the essential outcomes of a unit of competency.	Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the required skills and knowledge section and the range statement. Assessment of performance is to be consistent with the evidence guide.

Elements and Performance Criteria

ELEMENT	**PERFORMANCE CRITERIA**
1. Enter into a collaborative creative process	1.1. Adopt a ***personal philosophy of trustworthy and ethical behaviour*** 1.2. Maximise the possibilities of sustaining creative partnerships through trustworthy and ethical behaviour 1.3. Use ***professional discretion and judgement*** in dealing with others 1.4. Acknowledge and respect the ***different ways that different people may contribute*** to the creative process 1.5. Acknowledge and work within the legal framework that applies to creative content as part of individual commitment to an ethical approach 1.6. Respect collaborative efforts by relinquishing individual ownership of ideas
2. Engage in a collaborative creative	2.1. Maintain a ***belief in personal ideas***, combined with a willingness to move on as ideas are discarded and

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

ELEMENT	PERFORMANCE CRITERIA
process	others evolve 2.2. Be prepared to let go of own vanity and ego to allow new ideas to emerge 2.3. Use ***language*** and adopt a ***demeanour*** that demonstrates respect and trust for others 2.4. Listen to, value, respect and trust the contributions of others as material to work with rather than positions to argue against 2.5. Challenge, test and share ideas in a supportive way as part of the creative process 2.6. Move on from initial positions and preconceptions to accept and embrace new and unpredictable ideas as they emerge during the creative process 2.7. Play a role that encourages the ***movement and shift of ideas*** within the group towards a well-conceived solution
3. Reflect on own role in the collaborative creative process	3.1. Reflect on own level of participation, relationships with others and personal behaviour in the collaborative process 3.2. Identify ways to do better next time and follow up on any issues that need to be resolved 3.3. Identify and seek opportunities to refine and expand own skills and knowledge, including learning from failing

Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE
This section describes the skills and knowledge required for this unit.
Required skills
• communication skills to nurture trust, to model open and supportive communication, and to articulate potentially complex ideas • creative thinking skills to generate and explore ideas • learning and self-management skills to reflect on and enhance own ability to contribute effectively to a collaborative creative process • problem-solving skills to continually be evaluating and challenging ideas and moving them forward towards solutions.

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

REQUIRED SKILLS AND KNOWLEDGE
Required knowledge
• concept of shared intellectual property from collaborative creativity • concepts of trust and ethical behaviour in the context of creative endeavour • different roles people may play in a collaborative creative process and how this contributes to the overall effort • how the creative process works in different situations (e.g. as an individual, as part of a group) • how the potential for creativity can be maximised within a team • legal framework that affects copyright, moral rights and intellectual property issues • what stops creativity in a group environment.

Evidence Guide

EVIDENCE GUIDE	
The Evidence Guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, range statement and the Assessment Guidelines for the Training Package.	
Overview of assessment	
Critical aspects for assessment and evidence required to demonstrate competency in this unit	Evidence of the following is essential: • positive and full participation in a collaborative creative process that generates, expands and develops ideas into a well-conceived solution • communication and creative-thinking skills that make a positive contribution to the collaborative effort • knowledge and understanding of the ethical framework in which any type of creative endeavour operates.
Context of and specific resources for assessment	Assessment must ensure: • involvement of a team of people in the collaborative creative process.
Method of assessment	A range of assessment methods should be used to assess practical skills and knowledge. The following examples are appropriate for this unit: • direct questioning combined with review of portfolios of evidence and third party workplace reports of on-the-job performance by the candidate

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

EVIDENCE GUIDE	
	• direct observation of the candidate participating in collaborative creative activity • interviews with others participating in the process to determine the nature and quality of the candidate's participation and interactions • evaluation of candidate presentation (verbal or written) on the collaborative process, including challenges, benefits and key learning for the future • oral or written questioning to assess knowledge of concepts of trust and ethical behaviour in the context of creative endeavour.
Guidance information for assessment	A collaborative creative effort always occurs in a specific context. Therefore holistic assessment with other units relevant to the industry sector, workplace and job role is highly recommended. Assessors must, however, retain a strong focus on the key aspects of collaboration and creativity detailed in this unit. Combined assessment with the following unit would also be appropriate: • BSBCRT301A Develop and extend critical and creative thinking skills.

Range Statement

RANGE STATEMENT	
The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording, if used in the performance criteria, is detailed below. Essential operating conditions that may be present with training and assessment (depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts) may also be included.	
Personal philosophy of trustworthy and ethical behaviour may relate to:	• acknowledging discomfort or anger • being prepared to fully participate • communicating in an open way • honesty • honouring commitments • sensitivity to social, cultural, personal situations and dynamics • showing respect • understanding of the consequences of actions

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT	
Professional discretion and judgement may relate to:	• assessing when to keep quiet • being aware of and responding to different personality types • knowing when it is appropriate or inappropriate to share information • knowing with whom information should be shared
Different ways that different people may contribute may relate to:	• different approaches to expressing opinions or ideas • inclinations to lead or follow • influence with others • interpersonal skills • networks • past experience • technical skills and expertise
Belief in personal ideas may be demonstrated by:	• backing ideas up with information and rationale • being prepared to argue for own ideas • confidence in own ability to create many ideas • confidence to share ideas • confident articulation of ideas • spending time developing and refining own ideas
Language that demonstrates respect for others may involve:	• acknowledging new ideas and effort • avoiding negative words • avoiding personal negatives like 'you cannot' or 'you should not' • choosing words wisely • listening • making differentiations between ideas and people • managing tone • speaking at a level appropriate to the listener
Demeanour that demonstrates respect for others may relate to:	• avoiding intellectual bullying • encouraging others to express ideas • facial expression • keeping a positive mindset • listening before speaking • physical position • refraining from blame or accusation

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT	
	• other non-verbal behaviour • understanding the balance between constructive comment and attention seeking
Movement and shift of ideas may involve:	• building in 'what if' scenarios • encouraging a stocktake before moving forward • making connections between seemingly disparate ideas • refining ideas that seem positive • returning to earlier ideas • returning to key objectives • suggesting new processes • turning ideas 'on their head' to resolve blockages

BSBCRT501A Originate and develop concepts

Modification History

Not applicable.

Unit Descriptor

Unit descriptor	This unit describes the performance outcomes, skills and knowledge required to originate and develop concepts for products, programs, processes or services to an operational level. No licensing, legislative, regulatory or certification requirements apply to this unit at the time of endorsement.

Application of the Unit

Application of the unit	This unit applies to individuals who originate and develop concepts of some complexity and progress that concept to the point where it can be implemented. Individuals may be employed by organisations, be sub contractors or consultants brought in by companies to work on specific projects, or be individuals or part of a team working independently. Concepts could be developed for any business or community activity or process such as marketing campaigns, staff development programs, information technology and communication systems. This unit is also highly relevant to practitioners in the creative industries who develop products such advertising campaigns, radio and television programs, entertainment events, films, exhibitions and digital media products. A person undertaking this role would operate with a high degree of autonomy and at a senior level if working within an organisation. However, the process of generating concepts and ideas is collaborative in nature. Skills associated with writing proposals to support concept development are covered in BSBWRT401A Write complex documents.

Prerequisite units		

Employability Skills Information

Employability skills	This unit contains employability skills.

Elements and Performance Criteria Pre-Content

Elements describe the essential outcomes of a unit of competency.	Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the required skills and knowledge section and the range statement. Assessment of performance is to be consistent with the evidence guide.

Elements and Performance Criteria

ELEMENT	**PERFORMANCE CRITERIA**
1. Evaluate and explore needs and opportunities	1.1. Research and evaluate ***existing information that informs new concept development*** 1.2. Where appropriate, identify and use gaps in current range of ***products***, ***programs***, ***processes or services*** as the catalyst for generating new ideas or concepts 1.3. Expand the potential of new ideas through ***exploration of opportunities beyond the obvious***

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

ELEMENT	PERFORMANCE CRITERIA
	1.4. Identify ***factors*** that could have an impact on ideas or concepts to be developed, including potential for commercialisation 1.5. Determine whether other players are filling identified gaps or investigating similar opportunities 1.6. Develop preliminary ideas on innovative and different ways to address needs and opportunities 1.7. In consultation with ***relevant stakeholders***, agree on broad parameters for developing ideas and concepts to meet market requirements
2. Develop a range of creative approaches	2.1. Use a range of ***creative thinking techniques*** to generate innovative and creative concepts to address identified needs 2.2. Challenge, test and experiment with different concepts and ideas as part of a collaborative process 2.3. Evaluate concepts in terms of their suitability for the target audience or purpose, their feasibility and their commercial potential 2.4. Take account of social, ethical and environmental issues as concepts and ideas are generated and discussed 2.5. Identify ***resources*** required to achieve desired creative and innovative outcomes 2.6. Evaluate the effectiveness of different strategies for achieving desired outcomes 2.7. Select concepts or approaches that achieve required outcomes in an innovative and feasible way 2.8. Present proposed concepts or approaches in an appropriate ***format***
3. Refine concepts	3.1. Ensure concept development process is open to ongoing refinement and testing 3.2. Seek input and feedback on concepts from relevant stakeholders 3.3. Seek specialist advice on creative and technical aspects of proposals as required 3.4. Compare concepts with best practice examples of similar products, programs, processes or services 3.5. Use a range of ***creative and practical criteria*** to determine the advantages and disadvantages of different concepts 3.6. Evaluate ***constraints*** on the realisation of concepts or ideas

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

ELEMENT	PERFORMANCE CRITERIA
	3.7. Refine proposals based on analysis and feedback
4. Develop concepts to an operational level	4.1. Use refined concepts as the basis for developing detailed ***implementation specifications***
	4.2. Present specifications to relevant parties for approval, funding or endorsement
	4.3. Reflect on methodology used to generate concepts and ideas and note ways of improving this in the future

Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This section describes the skills and knowledge required for this unit.

Required skills

- communication and teamwork skills to work collaboratively on ideas and to articulate the rationale for concepts in ways that promote constructive discussion with others
- creative thinking skills to generate a range of innovative concepts and ideas, to use lateral thinking and to take a visionary approach to developing concepts and ideas
- initiative and enterprise skills to pro-actively identify market requirements
- planning and organising skills to take account of practical issues for concept implementation
- self-management skills to meet deadlines.

Required knowledge

- broad context in which concepts are being developed
- cultural, social and environmental issues and impacts to be considered in developing new concepts
- issues and requirements to commercialise the concept
- legal requirements that affect work in a given industry context
- practical and operational issues to be considered in a specific work or community context
- range of broad practical and operational issues that determine whether a concept can be implemented (in any context)
- techniques for generating creative ideas and solutions, and for translating these ideas into workable concepts.

Evidence Guide

EVIDENCE GUIDE	
The Evidence Guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, range statement and the Assessment Guidelines for the Training Package.	
Overview of assessment	
Critical aspects for assessment and evidence required to demonstrate competency in this unit	Evidence of the following is essential: • development of at least two concepts, substantiated and supported with sufficient information to allow for implementation to occur • generation of concepts and ideas that provide innovative solutions to identified issues • knowledge of legal requirements that affect work in a given industry context.
Context of and specific resources for assessment	Assessment must ensure: • access to the full range of background information required to evaluate the operational factors that will affect the implementation of concepts • interaction with others to reflect the collaborative nature of the concept development process.
Method of assessment	A range of assessment methods should be used to assess practical skills and knowledge. The following examples are appropriate for this unit: • direct questioning combined with review of portfolios of evidence and third party workplace reports of on-the-job performance by the candidate • evaluation of concepts generated by the candidate, of the processes used to generate and test the ideas and the material developed to support the concept • debate and discussion with the candidate to assess knowledge of the operational context and the broader factors that impact on concept development • evaluation of presentation or 'pitch' made by the candidate in relation to a particular concept • oral or written questioning to assess knowledge of cultural, social and environmental issues and impacts to be considered in developing new concepts.
Guidance information for assessment

Range Statement

RANGE STATEMENT	
The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording, if used in the performance criteria, is detailed below. Essential operating conditions that may be present with training and assessment (depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts) may also be included.	
Existing information that informs new concept development may include:	• creative brief • market research • organisational vision • personal vision and creative aspiration
Products, ***programs***, ***processes or services*** may include:	• art and craft works • advertising campaigns • business services and processes • designs • festivals • films • interactive digital media products • live entertainment productions or events • manufactured products • marketing and promotional campaigns • museum and gallery exhibitions • photoimaging services • radio or television programs
Exploration of opportunities beyond the obvious may involve:	• challenging existing assumptions and preconceptions • considering radical change to the way things are done • exploring practice in a totally different industry context • investigating the use of new media • making connections between seemingly unrelated activities
Factors may include:	• codes of practice • content • cost effectiveness • features of interactive digital media products:

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT	
	• delivery platform • level of interactivity • look and feel • navigation • Indigenous laws and protocols • length of program or film • level of skill and understanding required for implementation • nature and size of target audience • organisational charter and policies • purpose: • advertising or marketing • commercial • educational • entertainment • game • information • relevant legislation, such as: • copyright and intellectual property • privacy • results of market research • revenue raised by existing market share • technical feasibility
Relevant stakeholders may include:	• administrative staff • clients/customers • designers and other creative personnel • directors • external suppliers • information technology personnel • management • program producers • technical specialists • writers
Creative thinking techniques may include:	• brainstorming: • bulletin board • buzz session • computer-aided • sequencing • stop and go

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT	

	• Edward de Bono's six thinking hats
	• ego alter or heroes
	• graphic organisers:
	  • concept fans
	  • visual maps
	  • webbing
	• lateral thinking games
	• making associations
	• mind mapping
	• morphological analysis
	• sub-culture surfing
	• trigger words
	• use of metaphors and analogies
	• vision circles
	• word salads
	• visualisation

Resources may include:	• computer hardware and software • facilities • printed material • specialist equipment • specialist staff • training
Formats may include:	• application forms to funding bodies or sponsors • briefs for consultants • concept maps • electronic presentations to promote the concept • in-house proposal forms
Creative and practical criteria may include:	• cost-effectiveness • evaluation against competing priorities • fit with personal vision and aspirations • fit with strategic directions of organisation • fit with target market needs • how innovative the concept is • level of risk • potential benefits • technical feasibility • time to realise the concept
Constraints may include:	• availability of resources and equipment

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT	
	• availability of skilled experts and personnel • cost • level of technical difficulty • limited funding sources • limited potential for commercialisation • time
Implementation specifications may include:	• briefs for work • detailed specification of concept including purpose and content • operational plan with responsibilities and time lines • resources breakdown (financial, human and physical)

BSBCRT601A Research and apply concepts and theories of creativity

Modification History

Not applicable.

Unit Descriptor

Unit descriptor	This unit describes the performance outcomes, skills and knowledge required to undertake research into different concepts and theories of creativity, and to apply those to a particular field of endeavour. No licensing, legislative, regulatory or certification requirements apply to this unit at the time of endorsement.

Application of the Unit

Application of the unit	This unit applies to individuals who use sophisticated research and critical analysis skills in the exploration of creativity and its application to work and life practice. This research may be related specifically to fields of practice traditionally considered as 'creative', such as the arts, but may equally relate to much broader fields of human activity and endeavour. The scope of the research activity has both significant depth and breadth. A broader, more general approach to the ideas and history surrounding creativity is found in BSBCRT403A Explore the history and social impact of creativity.

Licensing/Regulatory Information

Not applicable.

Pre-Requisites

Prerequisite units		

Employability Skills Information

Employability skills	This unit contains employability skills.

Elements and Performance Criteria Pre-Content

Elements describe the essential outcomes of a unit of competency.	Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the required skills and knowledge section and the range statement. Assessment of performance is to be consistent with the evidence guide.

Elements and Performance Criteria

ELEMENT	**PERFORMANCE CRITERIA**
1. Research concepts and theories of creativity	1.1. Use a range of ***research techniques*** to source information about creativity 1.2. Identify and explore potential ***new***, ***emerging and alternative sources of ideas and thinking*** about creativity 1.3. Expand own knowledge and understanding of creativity through review and ***critical analysis*** of information 1.4. Analyse, compare and contrast a ***range of theoretical perspectives and thinking*** on creativity 1.5. Identify and explore the transmigration of creative thought to innovative output
2. Apply theories of creativity to practice	2.1. Evaluate the relevance and application of different theories and practices of creativity based on analysis

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

ELEMENT	PERFORMANCE CRITERIA
	of ***own work and life experience***
	2.2. Analyse the ways in which different aspects of history, theory and other influences are applied, adapted or challenged in practice
	2.3. Assess the ways in which theories, thinking and practices about creativity may be applied that provide ***benefits to individuals***, ***businesses and the community***
3. Develop, articulate and debate own perspectives theories and practices of creativity	3.1. Take a critical approach to different theories and reflect on own ideas and responses
	3.2. Develop own ***substantiated positions*** in response to research and analysis
	3.3. Articulate own positions in a manner which demonstrates ***clarity of thought and conceptual understanding*** of different theories and thinking
	3.4. Debate own positions on creativity showing belief in own ideas and a willingness to remain open to new perspectives

Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This section describes the skills and knowledge required for this unit.

Required skills

- critical thinking skills to analyse complex information and to develop and substantiate own positions and responses to theories and thinking around creativity
- communication skills to articulate and debate complex concepts
- literacy and problem solving skills to research information dealing with complex concepts and theories of creativity
- self-management skills to develop and substantiate own views and ideas.

Required knowledge

- different theories and concepts of creativity, including different historical perspectives and current and emerging thinking
- potential and actual benefits of creativity for individuals, businesses and communities
- relationship between theories of creativity and creativity in practice (in a particular work or broader social context).

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

Evidence Guide

EVIDENCE GUIDE	
The Evidence Guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, range statement and the Assessment Guidelines for the Training Package.	
Overview of assessment	
Critical aspects for assessment and evidence required to demonstrate competency in this unit	Evidence of the following is essential: • conduct of at least one research project into past, current and emerging theories of creativity • development of substantiated positions on creativity and its application in response to own analysis and research • knowledge of different theories and thinking on creativity and its application in different social and work contexts.
Context of and specific resources for assessment	Assessment must ensure: • use of current and emerging sources of information and thinking on creativity.
Method of assessment	A range of assessment methods should be used to assess practical skills and knowledge. The following examples are appropriate for this unit: • direct questioning combined with review of portfolios of evidence and third party workplace reports of on-the-job performance by the candidate • evaluation of research undertaken by the candidate into theories and application of creativity • observation of the candidate participating in discourse and debate on theories of creativity and on the candidate's own positions and ideas.
Guidance information for assessment

Range Statement

RANGE STATEMENT	
The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording, if used in the performance criteria, is detailed below. Essential operating conditions that may be present with training and assessment (depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts) may also be included.	
Research techniques may include:	• analysis of consumer trends • desk research • finding style leaders • informal discussions • internet search • interviews • literature reviews • observation of creative workers processes and behaviours • personal experience • tracking trendsetters
New, ***emerging and alternative sources of ideas and thinking*** may include:	• component resourcing • consumer trends • current business theories • emerging government policy • emerging research • fashion/design trends • grazing hardware, electronics, junk, second hand goods etc. • individuals in any fields of endeavour • innovative organisations • international trends • new products and sub assembly components • social trends
Critical analysis may involve:	• adapting • analysing and evaluating actions and policies • challenging • clarifying issues, values and standards • comparing analogous situations • comparing and contrasting ideals with practice • comparing and evaluating beliefs, interpretations and theories • critical path process

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT	
	• debate and discussion • developing criteria for evaluation • distinguishing relevant from irrelevant facts • examining and evaluating assumptions • exploring implications and consequences • generating and assessing solutions • ideational connecting of unrelated information • judging • leap of faith • making interdisciplinary connections • making plausible inferences and predictions • noting significant similarities and differences • obtuse connections • openness • questioning • reading and listening critically • reflecting
Range of theoretical perspectives and thinking may be:	• economic • environmental • geographic • heritage • historical • local, national, international • political • philosophical • social/cultural • style/design
Own work and life experience may include:	• evaluation of contexts in which creativity has flourished • observation of nature • observation of the man-made environment • observations of the ways people interrelate • reflection on own creative thinking and endeavours • reflection on own experience with any type of creative endeavour or creative thinking • workplace experience
Benefits to individuals, businesses and the community may include:	• adaptability • better individual and business relationships • capacity for innovation and invention

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT	
	• curiosity • environmentally sustainable practices • greater social cohesion • high degree of value adding • improved productivity and profit • nimbleness of thought • psychological wellbeing of individuals and communities
Substantiated positions may be positions which are:	• grounded in appropriate research • result of rational and logical thought • supported by relevant information • subjected to the analysis of others (e.g. peer review)
Clarity of thought and conceptual understanding may be demonstrated by:	• ability to exchange and debate ideas with others • appropriate distillation of ideas to suit the required purpose • audience understanding • clear articulation of ideas

Employability Skills Information

Employability skills	This unit contains employability skills.

Elements and Performance Criteria Pre-Content

Elements describe the essential outcomes of a unit of competency.	Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the required skills and knowledge section and the range statement. Assessment of performance is to be consistent with the evidence guide.

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
1. Identify customer needs	1.1. Use ***appropriate interpersonal skills*** to accurately identify and clarify ***customer needs and expectations*** 1.2. Assess customer needs for urgency to determine priorities for service delivery in accordance with ***organisational requirements*** 1.3. Use ***effective communication*** to inform customers about available choices for meeting their needs and assist in the selection of preferred options 1.4. Identify limitations in addressing customer needs and seek appropriate assistance from ***designated individuals***
2. Deliver a service to customers	2.1. Provide prompt service to customers to meet identified needs in accordance with organisational requirements 2.2. Establish and maintain appropriate rapport with customers to ensure completion of quality service delivery 2.3. Sensitively and courteously handle ***customer complaints*** in accordance with organisational requirements 2.4. Provide assistance or respond to customers with ***specific needs*** in accordance with organisational requirements 2.5. Identify and use available ***opportunities*** to promote

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

ELEMENT	PERFORMANCE CRITERIA
	and enhance services and products to customers
3. Monitor and report on service delivery	3.1. Regularly review customer satisfaction with service delivery using ***verifiable evidence*** in accordance with organisational requirements 3.2. Identify opportunities to enhance the quality of service and products, and pursue within organisational requirements 3.3. Monitor procedural aspects of service delivery for effectiveness and suitability to customer requirements 3.4. Regularly seek customer feedback and use to improve the provision of products and services 3.5. Incorporate evidence of customer satisfaction in decisions to modify products or services, ensuring they are within organisational requirements 3.6. Ensure reports are clear, detailed and contain recommendations focused on critical aspects of service delivery

Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE
This section describes the skills and knowledge required for this unit.
Required skills
• literacy skills to read and understand a variety of texts; to prepare general information and papers according to target audience; and to edit and proofread texts to ensure clarity of meaning and accuracy of grammar and punctuation • technology skills to select and use technology appropriate to a task • communication skills to monitor and advise on customer service strategies • problem-solving skills to deal with customer enquiries or complaints • analytical skills to identify trends and positions of products and services.
Required knowledge

• key provisions of relevant legislation from all levels of government that may affect aspects of business operations, such as:
  • anti-discrimination legislation
  • ethical principles
  • codes of practice

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

REQUIRED SKILLS AND KNOWLEDGE
• privacy laws • financial legislation • occupational health and safety (OHS) • organisational policy and procedures for customer service including handling customer complaints • service standards and best practice models • public relations and product promotion • techniques for dealing with customers, including customers with specific needs.

Evidence Guide

EVIDENCE GUIDE	
The Evidence Guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, range statement and the Assessment Guidelines for the Training Package.	
Overview of assessment	
Critical aspects for assessment and evidence required to demonstrate competency in this unit	Evidence of the following is essential: • identifying needs and priorities of customers • distinguishing between different levels of customer satisfaction • treating customers with courtesy and respect • responding to and reporting on, customer feedback • knowledge of organisational policy and procedures for customer service.
Context of and specific resources for assessment	Assessment must ensure: • access to an actual workplace or simulated environment • access to office equipment and resources • examples of customer complaints • examples of documents relating to customer service standards and policies.
Method of assessment	A range of assessment methods should be used to assess practical skills and knowledge. The following examples are appropriate for this unit: • direct questioning combined with review of portfolios of evidence and third party workplace

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

EVIDENCE GUIDE	
	reports of on-the-job performance by the candidate • review of reports on customer service delivery • analysis of responses to case studies and scenarios • demonstration of techniques • oral or written questioning to assess knowledge of customer service strategies.
Guidance information for assessment	Holistic assessment with other units relevant to the industry sector, workplace and job role is recommended, for example: • sales units • other customer service units.

Range Statement

RANGE STATEMENT	
The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording, if used in the performance criteria, is detailed below. Essential operating conditions that may be present with training and assessment (depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts) may also be included.	
Appropriate interpersonal skills may include:	• listening actively to what the customer is communicating • providing an opportunity for the customer to confirm their request • questioning to clarify and confirm customer needs • seeking feedback from the customer to confirm understanding of needs • summarising and paraphrasing to check understanding of customer message • using appropriate body language
Customers may include:	• corporate customers • individual members of the organisation • individual members of the public • internal or external • other agencies
Customer needs and expectations	• accuracy of information

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT	
may include:	• advice or general information • complaints • fairness/politeness • further information • making an appointment • prices/value • purchasing organisation's products and services • returning organisation's products and services • specific information
Organisational requirements may include:	• access and equity principles and practice • anti-discrimination and related policy • defined resource parameters • goals, objectives, plans, systems and processes • legal and organisational policies, guidelines and requirements • OHS policies, procedures and programs • payment and delivery options • pricing and discount policies • quality and continuous improvement processes and standards • quality assurance and/or procedures manuals • replacement and refund policy and procedures • who is responsible for products or services
Effective communication may include:	• giving customers full attention • maintaining eye contact, except where eye contact may be culturally inappropriate • speaking clearly and concisely • using active listening techniques • using appropriate language and tone of voice • using clear written information/communication • using non-verbal communication e.g. body language, personal presentation (for face-to-face interactions) • using open and/or closed questions
Designated individuals may include:	• colleagues • customers • line management • supervisor
Customer complaints may include:	• administrative errors such as incorrect invoices or prices

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT	
	• customer satisfaction with service quality • damaged goods or goods not delivered • delivery errors • product not delivered on time • service errors • warehouse or store room errors such as incorrect product delivered
Specific needs of customers may relate to:	• age • beliefs/values • culture • disability • gender • language • religious/spiritual observances
Opportunities to promote and enhance services and products may include:	• extending time lines • packaging procedures • procedures for delivery of goods • returns policy • system for recording complaints • updating customer service charter
Verifiable evidence may include:	• customer satisfaction questionnaires • audit documentation and reports • quality assurance data • returned goods • lapsed customers • service calls • complaints

BSBCUS401A Coordinate implementation of customer service strategies

Modification History

Not applicable.

Unit Descriptor

Unit descriptor	This unit describes the performance outcomes, skills and knowledge required to advise on, carry out and evaluate customer service strategies, including the design of improvement strategies based on feedback. No licensing, legislative, regulatory or certification requirements apply to this unit at the time of endorsement.

Application of the Unit

Application of the unit	This unit applies to individuals with a broad knowledge of customer service strategies who contribute well developed skills in addressing customer needs and problems. They may have responsibility to provide guidance or to delegate aspects of these tasks to others.

Licensing/Regulatory Information

Not applicable.

Employability Skills Information

Employability skills	This unit contains employability skills.

Elements and Performance Criteria Pre-Content

Elements describe the essential outcomes of a unit of competency.	Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the required skills and knowledge section and the range statement. Assessment of performance is to be consistent with the evidence guide.

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
1. Advise on customer service needs	1.1. Clarify and accurately assess ***customer needs*** using appropriate ***communication techniques*** 1.2. Diagnose problems matching service delivery to ***customers*** and develop options for improved service within ***organisational requirements*** 1.3. Provide relevant and constructive advice to promote the improvement of customer service delivery 1.4. Use ***business technology*** and/or ***online services*** to structure and present information on customer service needs
2. Support implementation of customer service strategies	2.1. Ensure customer service strategies and opportunities are promoted to ***designated individuals and groups*** 2.2. Identify and allocate available budget resources to fulfil customer service objectives 2.3. Promptly action ***procedures to resolve customer difficulties*** and ***complaints*** within organisational requirements 2.4. Ensure that decisions to implement ***strategies*** are taken in consultation with designated individuals and groups
3. Evaluate and report on customer service	3.1. Review client satisfaction with service delivery using verifiable data in accordance with organisational requirements

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

ELEMENT	PERFORMANCE CRITERIA
	3.2. Identify and report changes necessary to maintain service standards to designated individuals and groups 3.3. Prepare conclusions and recommendations from verifiable evidence and provide constructive advice on future directions of client service strategies 3.4. Maintain systems, records and reporting procedures to compare changes in customer satisfaction

Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This section describes the skills and knowledge required for this unit.

Required skills

- literacy skills to read a variety of texts, to prepare general information and papers, and to write formal and informal letters according to target audience
- planning skills to develop implementation schedules
- problem-solving skills to diagnose organisational problems relating to customer services.

Required knowledge

- key provisions of relevant legislation from all levels of government that may affect aspects of business operations, such as:
  - anti-discrimination legislation
  - ethical principles
  - codes of practice
  - privacy laws
  - environmental issues
  - occupational health and safety (OHS)
- principles of customer service
- organisational business structure, products and services
- product and service standards and best practice models.

Evidence Guide

EVIDENCE GUIDE	
The Evidence Guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, range statement and the Assessment Guidelines for the Training Package.	
Overview of assessment	
Critical aspects for assessment and evidence required to demonstrate competency in this unit	Evidence of the following is essential: • identifying needs and priorities of the organisation in delivering services to customers • responding to and reporting on customer feedback • designing strategies to improve delivery of products and services • knowledge of the principles of customer service.
Context of and specific resources for assessment	Assessment must ensure: • access to an actual workplace or simulated environment • access to office equipment and resources • examples of customer complaints, feedback and strategies.
Method of assessment	A range of assessment methods should be used to assess practical skills and knowledge. The following examples are appropriate for this unit: • direct questioning combined with review of portfolios of evidence and third party workplace reports of on-the-job performance by the candidate • review of documentation reporting changes necessary to maintain service standards • analysis of responses to case studies and scenarios • demonstration of techniques • observation of presentations • oral or written questioning to assess knowledge of customer service techniques and strategies • review of systems, records and reporting procedures to compare changes in customer satisfaction.
Guidance information for assessment	Holistic assessment with other units relevant to the industry sector, workplace and job role is recommended, for example: • sales units • other customer service units.

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

Range Statement

RANGE STATEMENT	
The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording, if used in the performance criteria, is detailed below. Essential operating conditions that may be present with training and assessment (depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts) may also be included.	
Customer needs may relate to:	• accuracy of information • advice or general information • complaints • fairness/politeness • further information • making an appointment • prices/value • purchasing organisation's products and services • returning organisation's products and services • specific information
Communication techniques may include:	• analysing customer satisfaction surveys • analysing quality assurance data • conducting interviews • consultation methods, techniques and protocols • making recommendations • obtaining management decisions • questioning • seeking feedback to confirm understanding • summarising and paraphrasing
Customers may include:	• corporate customers • individual members of the organisation • individual members of the public • internal or external • other agencies
Organisational requirements may include:	• access and equity principles and practice • anti-discrimination and related policy • confidentiality and security requirements • defined resource parameters

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT	
	• ethical standards • goals, objectives, plans, systems and processes • legal and organisational policies, guidelines and requirements • OHS policies, procedures and programs • payment and delivery options • pricing and discount policies • quality and continuous improvement processes and standards • quality assurance and/or procedures manuals • replacement and refund policy and procedures • who is responsible for products or services
Business technology may include:	• answering machine • binder • computer • fax machine • photocopier • printer • shredder • telephone
Online services may include:	• access to product database by customers online • access to purchase, delivery and account records • call/contact centre • online ordering • online payments • online registration • quick/reasonable response • two-way communication online
Designated individuals and groups may include:	• colleagues • committee • customers • external organisation • line management • supervisor
Procedures to resolve customer difficulties may include:	• external agencies (e.g. Ombudsman) • item replacement • referrals to supervisor • refund of monies • review of products or services

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT	
	• using conflict management techniques

Customer complaints may include:	• administrative errors such as incorrect invoices or prices
	• customer satisfaction with service quality
	• damaged goods or goods not delivered
	• delivery errors
	• products not delivered on time
	• service errors
	• specific e-business problems and issues:
	  • difficulty accessing services
	  • inactive links
	  • not appreciating differing hardware and software
	  • services not available
	  • supply errors such as incorrect product delivered
	  • time taken to access services
	  • unfriendly website design
	  • website faults
	• warehouse or store room errors such as incorrect product delivered

Customer service ***strategies*** may include:	• courtesy/politeness • delivery times • merchandise characteristics • price offers • product/refund guarantees • product/service availability

BSBCUS501A Manage quality customer service

Modification History

Not Applicable

Unit Descriptor

This unit describes the performance outcomes, skills and knowledge required to develop strategies to manage organisational systems that ensure products and services are delivered and maintained to standards agreed by the organisation.

No licensing, legislative, regulatory or certification requirements apply to this unit at the time of endorsement.

Application of the Unit

Many managers are involved in ensuring that products and services are delivered and maintained to standards agreed by the organisation. Typically these managers have staff involved in delivering customer service and are responsible for the quality of their work. In many instances the work will occur within the organisation's policies and procedures framework

At this level, the exercise of considerable discretion and judgement, using a range of problem solving and decision making strategies, will be required.

Licensing/Regulatory Information

	statement. Assessment of performance is to be consistent with the evidence guide.

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
1. Plan to meet internal and external customer requirements	1.1. Investigate, identify, assess, and include the needs of ***customers*** in planning processes 1.2. Ensure plans achieve the ***quality***, time and cost specifications agreed with customers
2. Ensure delivery of quality products and/or services	2.1. Deliver products and/or services to customer specifications within organisation's business plan 2.2. Manage team performance to consistently meet the organisation's quality and delivery standards 2.3. Assist colleagues to overcome difficulty in meeting customer service standards using leadership, supervision, coaching and mentoring
3. Monitor, adjust and review customer service	3.1. Develop and use ***strategies*** to monitor progress in achieving product and/or service targets and standards 3.2. Develop and use strategies to obtain customer feedback to improve the provision of products and/or services 3.3. Develop, procure and use ***resources*** effectively to provide quality products and/or services to customers 3.4. Make decisions to overcome problems and to adapt customer services, products and/or service delivery in consultation with appropriate individuals and groups 3.5. Manage records, reports and recommendations within the organisation's systems and processes

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

Required Skills and Knowledge

This section describes the skills and knowledge required for this unit.

Required skills

- communication, coaching and mentoring skills to provide support to colleagues
- problem-solving skills to deal with complex and non-routine difficulties.

Required knowledge

- techniques for solving complaints including the principles and techniques involved in the management and organisation of:
  - customer behaviour
  - customer needs research
  - customer relations
  - ongoing product and/or service quality
  - problem identification and resolution
  - quality customer service delivery
  - record keeping and management methods
  - strategies for monitoring, managing and introducing ways to improve customer service relationships
  - strategies to obtain customer feedback.

Evidence Guide

The evidence guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, range statement and the Assessment Guidelines for the Training Package.

Overview of assessment	
Critical aspects for assessment and evidence required to demonstrate competency in this unit	Evidence of the following is essential: • plans, policies or procedures for delivering quality customer service • demonstrated techniques in solving complex customer complaints and system problems that lead to poor customer service • knowledge of techniques for solving complaints.
Context of and specific resources for assessment	Assessment must ensure: • access to appropriate documentation and resources normally used in the workplace.

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

Method of assessment	A range of assessment methods should be used to assess practical skills and knowledge. The following examples are appropriate for this unit: • assessment of written reports • demonstration of techniques • direct questioning combined with review of portfolios of evidence and third party workplace reports of on-the-job performance by the candidate • observation of performance in role plays • evaluation of leadership, supervision, coaching and mentoring used to assist colleagues to overcome difficulty in meeting customer service standards • review of strategies developed and used to monitor progress in achieving product and/or service targets and standards • review of records, reports and recommendations about managing customer service.
Guidance information for assessment	Holistic assessment with other units relevant to the industry sector, workplace and job role is recommended, for example: • other units from the Diploma of Management.

Range Statement

The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording, if used in the performance criteria, is detailed below. Essential operating conditions that may be present with training and assessment (depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts) may also be included.	
Customers may be:	• Board members • clients, purchasers of services • co-workers, peers and fellow frontline managers • members of the general public who make contact with the organisation, such as prospective purchasers of services • potential funding bodies

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

	• supervisors • suppliers of goods and services and contractors providing goods and services
Quality may refer to:	• characteristics of a product, system, service or process that meet the requirements of customers and interested parties
Strategies may refer to:	• databases and other controls to record and compare data over time • electronic feedback mechanisms using intranet, internet and email • feedback forms and other devices to enable communication from customers • long-term or short-term plans for monitoring achievement and evaluating effectiveness • policies and procedures • questionnaires, survey and interviews • training and development activities
Resources may include:	• buildings/facilities • equipment • finance • information • people • power/energy • technology • time

BSBDES201A Follow a design process

Modification History

Not applicable.

Unit Descriptor

Unit descriptor	This unit describes the performance outcomes, skills and knowledge required to follow a design process at a basic level. No licensing, legislative, regulatory or certification requirements apply to this unit at the time of endorsement.

Application of the Unit

Application of the unit	This unit applies to any individual who follows a design process to respond to specific issues or challenges, including product and service requirements arising from particular business or community needs. The unit acknowledges the need to encourage the development of skills, which are sometimes called 'design thinking' or 'design consciousness'. In essence, the unit is about purposeful problem solving - defining the challenge, coming up with ideas, working with others to develop ideas, reflecting on progress, presenting an idea so it can be implemented and, of course, evaluating whether an idea has met the original challenge. Designers use the processes described in this unit but at a much more sophisticated and complex level. This unit is not about being a designer.

Licensing/Regulatory Information

Not applicable.

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

Pre-Requisites

Prerequisite units		

Employability Skills Information

Employability skills	This unit contains employability skills.

Elements and Performance Criteria Pre-Content

Elements describe the essential outcomes of a unit of competency.	Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the required skills and knowledge section and the range statement. Assessment of performance is to be consistent with the evidence guide.

Elements and Performance Criteria

ELEMENT	**PERFORMANCE CRITERIA**
1. Clarify the challenge	1.1. Confirm the ***nature and scope of the challenge*** with ***stakeholders*** 1.2. Agree on specific objectives with ***stakeholders*** 1.3. Identify any ***constraints*** that may impact on the design process 1.4. Identify and source ***relevant supporting information and assistance***
2. Explore different ideas and solutions	2.1. Generate a range of ideas to respond to the challenge 2.2. Explore ***different options and ideas*** for meeting objectives 2.3. Involve others in the process of developing ideas and solutions
3. Select and present a	3.1. Reflect on different ideas and feedback, and select a

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

ELEMENT	PERFORMANCE CRITERIA
solution	preferred solution 3.2. Summarise the key ideas in the solution and present to stakeholders in ***appropriate format*** 3.3. Obtain any required approvals to take the solution to the next stage
4. Implement the solution	4.1. Schedule key tasks and organise ***resources to support implementation*** 4.2. Carry out ***testing***, ***prototyping or trialling*** of the proposed solution 4.3. Maintain any required ***documentation*** 4.4. Identify problems and seek ***advice and guidance*** from others
5. Evaluate the solution	5.1. Check the success of the solution based on original objectives 5.2. Seek feedback from appropriate stakeholders 5.3. Review both the solution and the process undertaken to develop the solution as part of an ongoing learning process

Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This section describes the skills and knowledge required for this unit.

Required skills

- communication skills to liaise with others, to share ideas, and to present information and ideas clearly and concisely
- creative thinking skills to generate ideas in response to a defined problem or need in a familiar context
- literacy skills to analyse and interpret information dealing with concepts and ideas from own area of work
- problem-solving skills to identify problems and to work with others to develop solutions
- self-management skills to take responsibility for own work as part of an overall collaborative process.

Required knowledge

- context for the challenge, including any specific factors that impact on work

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

REQUIRED SKILLS AND KNOWLEDGE
• creative thinking techniques that can be used to generate ideas in any context • key features and steps in the design process as a way of thinking and solving problems • legal framework that impacts on activities in a particular context • potential sources of information for new ideas, relevant to the specific context.

Evidence Guide

EVIDENCE GUIDE	
The Evidence Guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, range statement and the Assessment Guidelines for the Training Package.	
Overview of assessment	
Critical aspects for assessment and evidence required to demonstrate competency in this unit	Evidence of the following is essential: • active participation in a project which uses the design process to develop solutions to a given challenge • effective communication skills to be a member of a collaborative team • knowledge of the design process, and how it can be used in developing solutions to different issues and challenges.
Context of and specific resources for assessment	Assessment must ensure: • access to materials, tools and equipment required to implement solutions in the given work context • interaction with others to reflect the collaborative nature of the design process.
Method of assessment	A range of assessment methods should be used to assess practical skills and knowledge. The following examples are appropriate for this unit: • direct questioning combined with review of portfolios of evidence and third party workplace reports of on-the-job performance by the candidate • direct observation of the candidate participating in collaborative processes • evaluation of documentation maintained by the candidate to support different ideas • evaluation of a presentation made by the candidate

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

EVIDENCE GUIDE	
	outlining proposed solutions and processes used to develop those solutions • oral or written questioning to assess knowledge of parameters and context for work in a given industry context.
Guidance information for assessment	The design process does not occur in isolation. Holistic assessment with other units relevant to the industry sector, workplace and job role is recommended, for example: • other technical or specialist units from particular areas of work.

Range Statement

RANGE STATEMENT	
The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording, if used in the performance criteria, is detailed below. Essential operating conditions that may be present with training and assessment (depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts) may also be included.	
Nature and scope of the challenge could be very varied, and may relate to new or improved:	• applications of materials or equipment • processes • products or services • systems • uses of technology
Stakeholders may include:	• client • end users • friends and family • supervisor or manager • work colleagues (working in the same or different areas)
Constraints may relate to:	• availability of materials, equipment or tools • boundaries about what can and cannot be changed • legal restrictions • time and budget
Relevant supporting information	• drawings, specifications or other technical data

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT	
and assistance may include:	• ideas from colleagues • industry associations or organisations • personal experience • policy and procedures manuals • print or electronic media (including internet) • reference manuals • technical experts

Different options and ideas may be generated by:	• brainstorming:
	  • stop and go
	  • sequencing
	  • buzz session
	  • bulletin board
	  • computer-aided
	• daydreaming and mental wandering
	• Edward de Bono's six thinking hats
	• ego alter or heroes
	• graphic organisers:
	  • visual maps
	  • webbing
	  • concept fans
	• lateral thinking games
	• making associations
	• mind mapping
	• morphological analysis
	• storytelling
	• sub-culture surfing
	• trigger words
	• use of metaphors and analogies
	• vision circles
	• visualisation
	• wishful thinking
	• word salads

Appropriate format may be:	• checklists • digital presentation • drawings/sketches • models • plans • verbal presentation
Resources to support	• equipment

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT	
implementation may include:	• financial resources • human resources • information technology support • materials • tools
Testing*, *prototyping or trialling may involve:	• creating a physical model or sample • testing the solution against different scenarios • using a small group to test the solution
Documentation may include:	• diary showing progress of work • progress reports • records of communication (e.g. emails) • working drawings
Advice and guidance may involve:	• facilitating access to networks or contacts • facilitating access to resources • providing technical expertise

BSBDES202A Evaluate the nature of design in a specific industry context

Modification History

Not applicable.

Unit Descriptor

Unit descriptor	This unit describes the performance outcomes, skills and knowledge required to evaluate the nature and role of design in a particular industry context. No licensing, legislative, regulatory or certification requirements apply to this unit at the time of endorsement.

Application of the Unit

Application of the unit	Design occurs in all industries and increasingly, quality design is considered a key factor in building organisational and industry capacity and competitiveness. This unit applies to individuals working in any context, who need to develop a basic appreciation and knowledge of the way that design works in a particular industry, and of its potential impacts on industry and individual work practice.

Licensing/Regulatory Information

Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE
This section describes the skills and knowledge required for this unit.
Required skills
The following skills must be assessed as part of this unit: • research and comprehension skills to source, understand and apply information on design history and theory • research skills to source readily available information on design history and theory.
Required knowledge
• copyright, moral rights, intellectual property issues and legislation as it relates to using information in own work • current trends in design • evolution of design • organisational information practices and their application • sources of information on design history and theory relevant to own design work.

Evidence Guide

EVIDENCE GUIDE	
The Evidence Guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, range statement and the Assessment Guidelines for the Training Package.	
Overview of assessment	
Critical aspects for assessment and evidence required to demonstrate competency in this unit	Evidence of the following is essential: • knowledge of the history and theory of design and how this may be applied in design practice • application of research and evaluation skills.
Context of and specific resources for assessment	Assessment must ensure: • access to information sources on design history and theory.
Method of assessment	A range of assessment methods should be used to assess practical skills and knowledge. The following examples

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

EVIDENCE GUIDE	
	are appropriate for this unit: • direct questioning combined with review of portfolios of evidence and third party workplace reports of on-the-job performance by the candidate • evaluation of how history and theory have been integrated into a design project undertaken by the candidate • evaluation of a presentation made by the candidate about how design history or theory has influenced work • oral or written questioning to assess knowledge of design history, trends and theory.
Guidance information for assessment	Holistic assessment with other units relevant to the industry sector, workplace and job role is recommended.

Range Statement

RANGE STATEMENT	
The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording, if used in the performance criteria, is detailed below. Essential operating conditions that may be present with training and assessment (depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts) may also be included.	
Sources of information may include:	• cultural, historical, scientific texts • film, video, internet • images, objects • journal articles • oral histories • performances/presentations • philosophical texts • religious and spiritual texts • stories • technical or medium specific information
Information may relate to:	• aesthetics • criticism • cultural issues • gender and identity issues

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT	
	• histories of art, craft and design • histories of performances/presentations and related skills • land and place • new technologies • politics • spiritual concerns • world histories
Organising research material may include:	• databases • diagrams, charts • digital storage systems • files, scrapbooks, diaries • mind maps • sketches
Evaluating information may include:	• comparing • considering merit • contrasting • critiquing • discussing and debating • reflecting

BSBDES401A Generate design solutions

Modification History

Not applicable.

Unit Descriptor

Unit descriptor	This unit describes the performance outcomes, skills and knowledge required to generate design solutions in response to a particular design need. No licensing, legislative, regulatory or certification requirements apply to this unit at the time of endorsement.

Application of the Unit

Application of the unit	This unit applies to individuals who generate concepts and solutions in response to a design challenge in any industry context. The starting point may be an open or closed brief; a spontaneous idea; modification of an existing product, service, process or system; or a point in an ongoing design process. This unit builds on BSBDES201A Follow a design process, and places greater focus on research, concept generation and collaboration with others as key aspects of the design process.

Licensing/Regulatory Information

Not applicable.

Pre-Requisites

Prerequisite units		

Employability Skills Information

Employability skills	This unit contains employability skills.

Elements and Performance Criteria Pre-Content

Elements describe the essential outcomes of a unit of competency.	Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the required skills and knowledge section and the range statement. Assessment of performance is to be consistent with the evidence guide.

Elements and Performance Criteria

ELEMENT	**PERFORMANCE CRITERIA**
1. Define the design challenge	1.1. Determine and evaluate ***user*/*client needs*** 1.2. Clarify ***specifications*, *parameters and constraints*** of the design challenge in consultation with relevant stakeholders 1.3. Articulate the essence of the design challenge in an ***appropriate format***
2. Undertake research to inform the design solution	2.1. Source, evaluate and acknowledge ***information*** that may assist in responding to the design challenge 2.2. Consider ***historical*, *current and future perspectives and trends*** that might inform design solutions 2.3. Consider relevant ***social*, *economic*, *environmental*, *ethical and cultural issues*** that may impact on design solutions 2.4. Analyse, distil and collate information to inform the development of the design solution
3. Communicate and	3.1. Establish and develop working relationships with

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

ELEMENT	PERFORMANCE CRITERIA
collaborate with others	***key stakeholders*** 3.2. Seek and integrate input and ideas from others during the design process 3.3. Inform key stakeholders about progress of the design and related implications 3.4. Negotiate and agree on any changed requirements or modifications
4. Generate ideas and responses to the design challenge	4.1. Reflect on and integrate ideas generated from research and consultation 4.2. Use a range of ***creative thinking techniques*** to generate different options and ideas 4.3. Apply relevant principles of ***functionality***, ***ergonomics***, ***aesthetics and sustainability*** to the development of different options
5. Select a design solution	5.1. Develop and use a range of ***criteria against which to evaluate different options and ideas*** 5.2. Select a preferred solution against agreed criteria and in consultation with relevant key stakeholders 5.3. Adjust and refine proposed design solution based on research, testing and reflection 5.4. Present proposed design solution with appropriate ***supporting documentation*** according to project requirements

Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE
This section describes the skills and knowledge required for this unit.
Required skills
• communication skills to liaise, consult and negotiate with others on potentially complex issues • creative, critical thinking and problem-solving skills to generate a range of ideas and solutions to a particular design challenge • research skills to interpret and develop a wide range of visual and written information sources • planning and organisational skills to collate information, and to coordinate liaison and consultation with others during the design process.

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

REQUIRED SKILLS AND KNOWLEDGE
Required knowledge
• copyright, moral rights and intellectual property issues and legislation that impact on design in the relevant context • elements and principles of design and their application in the relevant design context • features of the wider industry, economic, social and historical context in which design solutions are being generated • other designs and the work of other design practitioners in the relevant context • sources of information that support the development of technical and other knowledge • technical knowledge of the area for which design solutions are being generated - in terms of materials, tools, equipment, techniques and industry processes and procedures.

Evidence Guide

EVIDENCE GUIDE	
The Evidence Guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, range statement and the Assessment Guidelines for the Training Package.	
Overview of assessment	
Critical aspects for assessment and evidence required to demonstrate competency in this unit	Evidence of the following is essential: • development of a design solution through research, reflection and the generation and refinement of ideas • effective collaboration with others in the design process • knowledge of design trends and technologies in the relevant industry context.
Context of and specific resources for assessment	Assessment must ensure: • interaction with others to reflect the collaborative nature of the design process • access to sources of information on design in the relevant industry context.
Method of assessment	A range of assessment methods should be used to assess practical skills and knowledge. The following examples are appropriate for this unit:

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

EVIDENCE GUIDE	
	• direct questioning combined with review of portfolios of evidence and third party workplace reports of on-the-job performance by the candidate • evaluation of a design solution generated by the candidate against an original brief, set of criteria or guiding objectives • evaluation of the process used to reach a design solution in terms of research and ideas generation/refinement • oral or written questioning to assess knowledge of technical and context issues that impact on design in a given industry context.
Guidance information for assessment	The design process does not occur in isolation. Holistic assessment with other units relevant to the industry sector, workplace and job role is recommended. Combined assessment with the following unit is appropriate: • BSBCRT301A Develop and extend critical and creative thinking skills.

Range Statement

RANGE STATEMENT	
The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording, if used in the performance criteria, is detailed below. Essential operating conditions that may be present with training and assessment (depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts) may also be included.	

User*/*client needs may be:	• expressed in a brief:
	  • diagrammatic
	  • verbal
	  • visual
	  • written
	• expressed in other documentation such as research papers or workplace plans
	• informally articulated
	• in need of further research

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT	
Specifications**, **parameters and constraints may relate to:	• audience • budgeting and financing • cost of production • medium • purpose • technical issues • timeframes
Appropriate format may include:	• drawings or sketches - manual or computer aided design and drafting (CADD) • electronic presentation • verbal presentation • written notes with rationale or description
Information may include:	• codes of practice • contractual obligations • historical data • industry standards • legal requirements • specialist information • technological trends and developments
Historical**, **current and future perspectives and trends may relate to:	• industry context • materials • social or ethical issues • sustainability • technologies
Social**, **economic**, **ethical and cultural issues may include:	• availability of materials, tools or equipment • budgetary issues • community impact • cost of production • customer relationships • government policies • sponsorship opportunities • triple bottom line (people, planet, profit) • workforce relationships
Environmental issues may include:	• conservation of resources • energy efficiency • environmental consciousness/green design • recycling • use of renewable resources • waste/by products/emissions

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT	
Key stakeholders may include:	• client • employer • end user • peers • supervisor • technical experts • work colleagues

Creative thinking techniques may include:	• brainstorming:
	  • bulletin board
	  • buzz session
	  • computer-aided
	  • sequencing
	  • stop and go
	• daydreaming and mental wandering
	• Edward de Bono's six thinking hats
	• ego alter or heroes
	• graphic organisers:
	  • concept fans
	  • visual maps
	  • webbing
	• lateral thinking games
	• making associations
	• mind mapping
	• morphological analysis
	• storytelling
	• sub-culture surfing
	• trigger words
	• use of metaphors and analogies
	• vision circles
	• visualisation
	• wishful thinking
	• word salads

Functionality, ***ergonomics***, ***aesthetics and sustainability*** may be related to:	• end use and users • production processes
Criteria against which to evaluate different options and ideas may relate to:	• access to resources - physical, human or financial • aesthetic appeal • consistency with original brief

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT	
	• desired level of originality and innovation • ease of manufacture or further development • environmental sustainability • ethical issues • health and safety requirements • impact upon client and community • industry standards and practice • legal issues • level of risk • personal affinity with medium and materials • technological considerations
Supporting documentation may include:	• drawings or plans • illustrations • material samples • models • photographs • specifications for production

BSBDES501A Implement design solutions

Modification History

Not applicable.

Unit Descriptor

Unit descriptor	This unit describes the performance outcomes, skills and knowledge required to take a design concept or solution to the implementation stage. No licensing, legislative, regulatory or certification requirements apply to this unit at the time of endorsement.

Application of the Unit

Application of the unit	This unit applies to individuals who implement concepts and solutions in response to a design challenge in any industry context. It takes BSBDES401A Generate design solutions, to the next stage focusing on the resourcing and testing of a design concept. The outcome of work could be a completed product, object, system or service, but is more likely to be a complete or partial prototype or model for the design. The focus of the unit is on a general knowledge of design techniques and processes, and practical application to a specific design context.

Licensing/Regulatory Information

Not applicable.

Pre-Requisites

Prerequisite units

Prerequisite units		

Employability Skills Information

Employability skills	This unit contains employability skills.

Elements and Performance Criteria Pre-Content

Elements describe the essential outcomes of a unit of competency.	Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the required skills and knowledge section and the range statement. Assessment of performance is to be consistent with the evidence guide.

Elements and Performance Criteria

ELEMENT	**PERFORMANCE CRITERIA**
1. Organise resources for realising the design solution	1.1. Confirm the nature and scope of the proposed design solution 1.2. Research ***resources*** required for developing the design concept to ***implementation stage*** 1.3. Investigate different ***factors that impact on the selection and use of resources*** 1.4. Select and prepare resources based on research and other ***legislative or organisational requirements***
2. Test the design solution	2.1. Experiment with a range of different ***techniques and processes to test the design solution*** 2.2. Evaluate, challenge and refine testing processes 2.3. Gain input and feedback from ***key stakeholders*** during the testing process 2.4. Accurately document outcomes of testing 2.5. Select final design solution based on outcomes of

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

ELEMENT	PERFORMANCE CRITERIA
	testing and input from others
3. Develop the prototype or model	3.1. Create prototype or model based on agreed approaches 3.2. Where appropriate, select and organise materials, tools and equipment according to chosen design solution 3.3. Expose model or prototype to quality checks and ongoing analysis, enhancement and refinement 3.4. Compare completed prototype or model against ***identified needs and other considerations*** and make adjustments as required
4. Present the prototype or model	4.1. Identify key stakeholders to whom design should be presented 4.2. Select ***appropriate format*** for presentation based on nature of the audience and design 4.3. Present prototype or model in a way that optimises clarity, conciseness and appeal

Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE
This section describes the skills and knowledge required for this unit.
Required skills
• communication skills to consult with others on testing and refinement of the design solution • creative thinking skills to develop and adapt responses to experimentation and testing processes • literacy skills to interpret and develop a wide range of visual and written information sources • planning and organisational skills to organise resources and to coordinate a testing process, including liaison and consultation with others during the design process • problem-solving skills to respond to unpredictable issues and challenges that arise during the testing process.
Required knowledge
• copyright, moral rights and intellectual property issues and legislation that impact on design in the relevant context • elements and principles of design and their application in the relevant design

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

REQUIRED SKILLS AND KNOWLEDGE
context • features of the wider industry, economic, social and historical context for the design solution • other designs and the work of other design practitioners in the relevant context • sources of information that support the development of technical and other knowledge • technical knowledge of the area for which design solutions are being implemented - in terms of relevant resources, materials, tools, equipment, techniques and industry processes and procedures.

Evidence Guide

EVIDENCE GUIDE	
The Evidence Guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, range statement and the Assessment Guidelines for the Training Package.	
Overview of assessment	
Critical aspects for assessment and evidence required to demonstrate competency in this unit	Evidence of the following is essential: • critical analysis, testing and development of a model, prototype or aspect of a design solution to meet an identified need • knowledge of design trends and technologies in the relevant industry context.
Context of and specific resources for assessment	Assessment must ensure: • interaction with others to reflect the collaborative nature of the design process • access to resources required to test a design solution in a given industry context (e.g. finance, materials, tools, equipment, expertise).
Method of assessment	A range of assessment methods should be used to assess practical skills and knowledge. The following examples are appropriate for this unit: • direct questioning combined with review of portfolios of evidence and third party workplace reports of on-the-job performance by the candidate • evaluation of a design solution implemented by the candidate against an original brief, set of criteria or

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

EVIDENCE GUIDE	
	guiding objectives • evaluation of the processes used to test and refine the solution • oral or written questioning to assess knowledge of technical and context issues that impact on design in a given industry context.
Guidance information for assessment	The design process does not occur in isolation. Holistic assessment with other units relevant to the industry sector, workplace and job role is recommended. Combined assessment with the following unit is appropriate: • BSBDES401A Generate design solutions.

Range Statement

RANGE STATEMENT	
The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording, if used in the performance criteria, is detailed below. Essential operating conditions that may be present with training and assessment (depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts) may also be included.	

Resources will depend on the nature of the design, but may be:	• financial:
	  • budget allocation
	  • grants
	  • in kind contributions
	  • sponsorship
	• human expertise:
	  • creative
	  • financial
	  • management
	  • technical
	• physical:
	  • hardware or software
	  • materials
	  • tools
	  • workspaces

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT	
Implementation stage could be the point at which:	• marketing can commence • production can commence • production is confirmed • staff can be employed
Factors that impact on the selection and use of resources may relate to:	• environmental considerations • industry context • social or ethical issues • sustainability • technologies
Legislative or organisational requirements may relate to:	• commonwealth or state/territory legislation • licensing requirements • local regulations and standards • policies or procedures
Techniques and processes to test the design solution will depend on the nature of the design, and may include:	• colour tests • mock ups • models • practice pieces • samples • scenario testing • stress tests
Key stakeholders may include:	• client • employer • end user • peers • supervisor • technical experts • work colleagues
Identified needs and other considerations may relate to:	• access to and availability of resources • aesthetic considerations • budgetary constraints • ease of manufacture • opportunities for innovation • specifications of a brief • wider industry trends
Appropriate format may include:	• drawings or sketches - manual or computer aided design and drafting (CADD) • electronic presentation • verbal presentation • written notes with rationale or description

BSBDES601A Manage design realisation

Modification History

Not applicable.

Unit Descriptor

Unit descriptor	This unit describes the performance outcomes, skills and knowledge required to manage the process of taking a design from concept to final realisation or production. No licensing, legislative, regulatory or certification requirements apply to this unit at the time of endorsement.

Application of the Unit

Application of the unit	This unit applies to individuals working in any industry context or design discipline who take responsibility for turning design concept into reality - a product or service of value to the end user. This person could be an individual designer-maker or a designer working as part of a larger design/production team. The unit has a strong focus on planning, implementation and monitoring skills, combined with a sound knowledge of design and production issues and challenges in a given context. In practice this unit supports and is supported by other units describing the specialist skills and knowledge required by specific design disciplines.

Licensing/Regulatory Information

Not applicable.

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

Pre-Requisites

Prerequisite units		

Employability Skills Information

Employability skills	This unit contains employability skills.

Elements and Performance Criteria Pre-Content

Elements describe the essential outcomes of a unit of competency.	Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the required skills and knowledge section and the range statement. Assessment of performance is to be consistent with the evidence guide.

Elements and Performance Criteria

ELEMENT	**PERFORMANCE CRITERIA**
1. Plan realisation of the design	1.1. Collect, analyse and maintain ***relevant information on the design***
	1.2. Discuss and agree on ***standards of work and monitoring requirements*** with ***appropriate stakeholders***
	1.3. Develop clear plan and schedule for design realisation, including key roles and responsibilities linked to time lines and budget
2. Implement and monitor realisation of the design	2.1. Organise and/or allocate ***resources*** to achieve the realisation of design within required standards, timeframes and budget
	2.2. Liaise with others involved in design realisation to ensure obligations and quality standards are met within time, budget and technical resources

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

ELEMENT	PERFORMANCE CRITERIA
	2.3. Maintain accurate, relevant and complete ***documentation*** in accordance with agreed standards 2.4. Monitor process to ensure integrity of design is maintained at all times, including through the process of challenging and interrogating own design work 2.5. Promptly identify ***difficulties or problems*** that arise in relation to realisation of the design and take action to rectify the situation
3. Liaise and negotiate with stakeholders	3.1. Establish and maintain appropriate ***communication channels*** with relevant stakeholders 3.2. Pro-actively seek and provide information to facilitate effective design realisation 3.3. Adhere to agreed terms and conditions or negotiate appropriate changes in light of changed circumstances 3.4. Negotiate and agree on revisions with relevant parties in a professional manner, to enhance quality of outcome
4. Complete design process	4.1. Finalise design outcomes in accordance with terms and conditions 4.2. Seek feedback from key stakeholders on finished design and make final adjustments as agreed 4.3. Evaluate completed design in relation to own work and overall process, to inform future practice

Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE
This section describes the skills and knowledge required for this unit.
Required skills
• communication and negotiation skills to lead and participate in effective client/principal, stakeholder and project team liaison during design realisation • creative thinking skills to generate new or adapted ideas in response to realisation challenges • literacy skills to research and evaluate a wide range of source materials on design and to complete relevant design documentation • numeracy skills to manage budgets

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

REQUIRED SKILLS AND KNOWLEDGE
• planning and organisational skills to coordinate and lead potentially complex processes involving a range of interrelated factors and challenges • problem-solving and decision making skills to develop and implement solutions to unpredictable problems.
Required knowledge
• copyright, moral rights, intellectual property issues and legislation that impact on design work in the relevant industry context at a managerial level • occupational health and safety requirements relevant to the particular work context/design discipline • production/realisation processes as they apply to designs in a particular industry context or design discipline including materials, tools, equipment and processes • quality assurance for design concept realisation applicable to the specific industry context/design discipline.

Evidence Guide

EVIDENCE GUIDE	
The Evidence Guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, range statement and the Assessment Guidelines for the Training Package.	
Overview of assessment	
Critical aspects for assessment and evidence required to demonstrate competency in this unit	Evidence of the following is essential: • planning and implementation of design realisation so that finished product or service meets the requirements of design brief • effective communication and negotiation skills in relation to working with others for design realisation • knowledge of the design process in the specific industry context/design discipline.
Context of and specific resources for assessment	Assessment must ensure: • access to resources, tools, materials and equipment for realisation of a design in specific context • access to a design concept that the candidate can take to realisation stage • interaction with and involvement of others to reflect the collaborative nature of the unit and the communication and negotiation skills required.

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

EVIDENCE GUIDE	
Method of assessment	A range of assessment methods should be used to assess practical skills and knowledge. The following examples are appropriate for this unit: • direct questioning combined with review of portfolios of evidence and third party workplace reports of on-the-job performance by the candidate • evaluation of finished products or services where the candidate has managed the realisation process • evaluation of progress reports or completion reports prepared by the candidate • evaluation of candidate reports on the realisation process highlighting different management techniques used, challenges in the process and how these were addressed.
Guidance information for assessment	The design process does not occur in isolation. Holistic assessment with other units relevant to the industry sector, workplace and job role is recommended, for example: • any specialised design unit.

Range Statement

RANGE STATEMENT	
The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording, if used in the performance criteria, is detailed below. Essential operating conditions that may be present with training and assessment (depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts) may also be included.	
Relevant information on the design may include:	• artwork • brief • checklists • financial data • models • production data • prototypes • specifications • technical data

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT	
	• visual diagrams • working drawings
Standards of work and monitoring requirements may relate to:	• budget targets • creative issues • legal issues • reporting requirements • technical quality • timeframes
Appropriate stakeholders may include:	• client • community • others on whom the design will impact, for example technical or production personnel • others working on the design realisation process • supervisor/manager
Resources may include:	• financial • human • physical
Documentation to be maintained may include:	• digital records and presentations • financial reports • models • photographs • progress reports • prototypes • records of work • working drawings
Difficulties or problems may relate to:	• budgetary overruns • conceptual issues • legal issues • scheduling problems • technical quality
Communication channels may include:	• electronic updates • inspections • project meetings • telephone discussions

BSBDES602A Research global design trends

Modification History

Not applicable.

Unit Descriptor

Unit descriptor	This unit describes the performance outcomes, skills and knowledge required to research and critically evaluate global design trends. No licensing, legislative, regulatory or certification requirements apply to this unit at the time of endorsement.

Application of the Unit

Application of the unit	This unit applies to individuals who need to maintain a current and comprehensive knowledge of global design trends to inform their own professional practice. Often the individual would be a designer, but the unit may also be relevant to those who work in related management, marketing and production areas. The unit focuses on research and analysis of information and ideas at a complex level, plus the evaluation and extension of one's own professional skills.

Licensing/Regulatory Information

Not applicable.

Pre-Requisites

Prerequisite units

Prerequisite units		

Employability Skills Information

Employability skills	This unit contains employability skills.

Elements and Performance Criteria Pre-Content

Elements describe the essential outcomes of a unit of competency.	Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the required skills and knowledge section and the range statement. Assessment of performance is to be consistent with the evidence guide.

Elements and Performance Criteria

ELEMENT	**PERFORMANCE CRITERIA**
1. Research design trends	1.1. Analyse and select ***formal and informal research strategies*** to source ***information on global design trends*** 1.2. Identify and explore ***new and alternative sources*** 1.3. Evaluate the credibility of information gathered and ensure research scope is sufficiently broad
2. Analyse design trends to inform own practice	2.1. Use information to challenge and extend own perspectives and ways of thinking 2.2. Examine and assess the implications and consequences of design trends on own work 2.3. Use ***critical analysis*** to identify creative or commercial opportunities presented by emerging trends and technologies 2.4. Develop systems to identify and respond to future opportunities
3. Develop and articulate positions	3.1. Develop ***substantiated positions and ideas*** in

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

ELEMENT	PERFORMANCE CRITERIA
and ideas	relation to global design trends 3.2. Generate informed discussion, debate and critical analysis with peers and colleagues 3.3. Use debate and feedback as a way of challenging and refining own positions
4. Extend own design skills	4.1. Pro-actively identify and use opportunities presented by research to extend own design skills 4.2. Re-evaluate and refine approaches to work in the context of current and emerging trends 4.3. Use practice, discussion and ongoing evaluation to continuously improve skills

Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This section describes the skills and knowledge required for this unit.

Required skills

- communication skills to articulate and debate conceptual or technical ideas
- critical thinking skills to distil and synthesise information from varied sources and to develop own positions and ideas on a complex range of issues
- literacy skills to research complex, varied and unfamiliar information sources
- planning and organisational skills to undertake the research process.

Required knowledge

- broad global design trends that apply to all design disciplines
- business implications/consequences of adopting trends and emergent technologies
- copyright/moral/intellectual property issues associated with research and with design more broadly
- design industry networks and professional development opportunities - local, national and international
- research methodologies and options
- sources of information on global design, design trends and broader references that may inform emerging and innovative design practice
- specific current and emerging design technologies and trends (at a global level) in at least one area of design.

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

Evidence Guide

EVIDENCE GUIDE	
The Evidence Guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, range statement and the Assessment Guidelines for the Training Package.	
Overview of assessment	
Critical aspects for assessment and evidence required to demonstrate competency in this unit	Evidence of the following is essential: • conducting research on a complex range of design issues, trends and ideas • analysing, critiquing and synthesising complex sources to develop own positions and ideas • design research • knowledge of copyright/moral/intellectual property issues associated with research and with design more broadly.
Context of and specific resources for assessment	Assessment must ensure: • use of a current and varied range of familiar and unfamiliar information sources.
Method of assessment	A range of assessment methods should be used to assess practical skills and knowledge. The following examples are appropriate for this unit: • direct questioning combined with review of portfolios of evidence and third party workplace reports of on-the-job performance by the candidate • evaluation of research undertaken by the candidate in terms of scope, depth and the level of critical thinking applied • direct observation of candidate debating issues arising from research into global design trends • oral or written questioning to assess knowledge of global design trends in terms of depth and complexity.
Guidance information for assessment	Holistic assessment with other units relevant to the industry sector, workplace and job role is recommended.

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

Range Statement

RANGE STATEMENT	
The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording, if used in the performance criteria, is detailed below. Essential operating conditions that may be present with training and assessment (depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts) may also be included.	
Formal and informal research strategies may include:	• formal study • participating actively in relevant industry associations • participating in, and contributing to, discussion through conferences, meetings, seminars, courses and journals • participating in professional development and other learning opportunities • reading current literature, including specialist journals and industry magazines • web research
Information on global design trends may relate to:	• best practice examples • emerging and future technology • history • philosophy • role of design in the broader social, economic and political environment • sustainability

New and alternative sources may include:	• inspirations from nature
	• work from other areas of community or business activity for example:
	  • artists
	  • authors
	  • business people
	  • entertainers
	  • film makers
	  • historians
	  • philosophers
	  • photographers
	  • scientists

Critical analysis may include:	• analysing and evaluating actions and policies • clarifying issues, values and standards

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT	
	• comparing analogous situations • comparing and contrasting ideals with practice • comparing and evaluating beliefs, interpretations and theories • developing criteria for evaluation • distinguishing relevant from irrelevant facts • examining and evaluating assumptions • exploring implications and consequences • generating and assessing solutions • making interdisciplinary connections • making plausible inferences and predictions • noting significant similarities and differences • reading and listening critically
Substantiated positions and ideas may be those which are:	• grounded in appropriate research • result of rational and logical thought • subjected to the analysis of others • supported by relevant information

BSBDIV301A Work effectively with diversity

Modification History

Not applicable.

Unit Descriptor

Unit descriptor	This unit describes the performance outcomes, skills and knowledge required to recognise and interact productively with diversity in the workplace. It covers sensitive responses to, and interactions with, all manner of diversity that might be encountered during the course of work. No licensing, legislative, regulatory or certification requirements apply to this unit at the time of endorsement.

Application of the Unit

Application of the unit	This unit applies to individuals who work in a variety of contexts, where they will be expected to interact with a diverse client and/or co worker population.

Licensing/Regulatory Information

Not applicable.

Pre-Requisites

Prerequisite units		

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

Employability Skills Information

Employability skills	This unit contains employability skills.

Elements and Performance Criteria Pre-Content

Elements describe the essential outcomes of a unit of competency.	Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the required skills and knowledge section and the range statement. Assessment of performance is to be consistent with the evidence guide.

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
1. Recognise individual differences and respond appropriately	1.1. Recognise and respect ***individual differences*** in ***colleagues***, clients and customers 1.2. Respond to differences sensitively 1.3. Ensure behaviour is consistent with ***legislative requirements*** and ***enterprise guidelines*** 1.4. Accommodate diversity using appropriate verbal and non-verbal communication
2. Work effectively with individual differences	2.1. Recognise and document knowledge, skills and experience of others in relation to team objectives 2.2. Encourage colleagues to utilise and share their specific qualities, skills or backgrounds with other team members and clients in order to enhance work outcomes 2.3. Ensure relations with customers and clients demonstrate that diversity is valued by the business

Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE
This section describes the skills and knowledge required for this unit.

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

REQUIRED SKILLS AND KNOWLEDGE
Required skills
• culturally appropriate communication skills to relate to people from diverse backgrounds and people with diverse abilities • problem-solving and initiative skills to recognise and address own responses to difference.
Required knowledge

• key provisions of relevant legislation from all forms of government that may affect aspects of business operations, such as:
  • anti-discrimination legislation
  • ethical principles
  • codes of practice
  • privacy laws
  • occupational health and safety
• major groups in the community and work environment, as defined by cultural, religious and other traditions and practices
• reasonable adjustments that facilitate participation by people with a disability
• value of diversity to the economy and society in terms of workforce development, Australia's place in the global economy, innovation and social justice.

Evidence Guide

EVIDENCE GUIDE	
The Evidence Guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, range statement and the Assessment Guidelines for the Training Package.	
Overview of assessment	
Critical aspects for assessment and evidence required to demonstrate competency in this unit	Evidence of the following is essential: • adjusting language and behaviour as required by interactions with diversity • awareness of diversity issues • knowledge of relevant legislation.
Context of and specific resources for assessment	Assessment must ensure: • access to an actual workplace or simulated environment • access to office equipment and resources

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

EVIDENCE GUIDE	
	• examples of diversity issues in the workplace • examples of documents relating to diversity policies and procedures.
Method of assessment	A range of assessment methods should be used to assess practical skills and knowledge. The following examples are appropriate for this unit: • analysis of responses to case studies and scenarios • direct questioning combined with review of portfolios of evidence and third party workplace reports of on-the-job performance by the candidate • oral or written questioning to assess knowledge of sourcing support about workplace diversity • review of documentation outlining the knowledge, skills and experience of others in relation to team objectives.
Guidance information for assessment	Holistic assessment with other units relevant to the industry sector, workplace and job role is recommended, for example: • workplace effectiveness units.

Range Statement

RANGE STATEMENT	
The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording, if used in the performance criteria, is detailed below. Essential operating conditions that may be present with training and assessment (depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts) may also be included.	
Individual differences may include:	• ability • age • belief systems/values • culture • expertise/experience/working styles • gender • interests • interpersonal style • language

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT	
	• mental ability • past experiences • physical characteristics • politics • race • religion • sexual orientation • thinking and learning styles
Colleagues may include:	• internal customers • junior staff • managers and supervisors • peers • stakeholders
Legislative requirements may include:	• disability discrimination legislation • human rights and equal opportunity legislation • racial and sex discrimination legislation
Enterprise guidelines may include:	• codes of conduct or ethics • diversity policies • human resources policies and procedures

Employability Skills Information

Employability skills	This unit contains employability skills.

Elements and Performance Criteria Pre-Content

Elements describe the essential outcomes of a unit of competency.	Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the required skills and knowledge section and the range statement. Assessment of performance is to be consistent with the evidence guide.

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
1. Research diversity	1.1. Analyse existing practices and ***information*** in relation to ***diversity*** 1.2. Identify potential benefits of diversity and analyse in relation to ***business objectives*** 1.3. Consult ***key stakeholders*** about their requirements for a diversity policy 1.4. Access diversity policies from similar organisations and review for relevance to own organisation
2. Draft policy and plan for implementation	2.1. Draft ***diversity policy*** 2.2. Develop ***action plans*** for policy 2.3. Consult key stakeholders for feedback on draft policy and action plans 2.4. Determine relationships and links with other related policies 2.5. Revise policy for implementation
3. Implement diversity policy	3.1. Explain and interpret policy to key stakeholders 3.2. Promote policy across the organisation through a range of ***communication channels*** 3.3. Identify intended and unintended impacts of policy implementation 3.4. Develop tools, benchmarks and other indicators for planning and measuring impact of policy

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

ELEMENT	PERFORMANCE CRITERIA
	implementation 3.5. Monitor business activities, team plans and staff performance to ensure diversity policy is effectively implemented
4. Review diversity policy	4.1. Gather and analyse information about diversity, the policy and its implementation 4.2. Consult key stakeholders to provide feedback on the policy 4.3. Develop and approve recommendations for changes to the policy 4.4. Refine policy

Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This section describes the skills and knowledge required for this unit.

Required skills

- culturally appropriate communication skills to relate to people from diverse backgrounds and people with diverse abilities
- high level research and analytical skills to review business needs and to determine how diversity approaches apply
- interpersonal skills to consult and negotiate with people at all levels, and to present ideas for change and foster support for them
- planning and organising skills to implement and monitor diversity policy.

Required knowledge

- business operations including:
  - familiarity with structure, roles and responsibilities
  - business plans and strategic direction
  - issues that can be linked to diversity
- diversity within the community and business environment:
  - cultures
  - beliefs
  - traditions and practices
- equal opportunity theory
- productive diversity - contemporary theory about diversity and its potential contribution to business advantage

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

REQUIRED SKILLS AND KNOWLEDGE

• legislation, codes of practice and national standards, for example:
  • Commonwealth Human Rights and Equal Opportunity Act
  • Commonwealth Racial Discrimination Act/s
  • Commonwealth Sex Discrimination Act
  • Commonwealth Disability Discrimination Act
  • relevant state/territory legislation.

Evidence Guide

EVIDENCE GUIDE	
The Evidence Guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, range statement and the Assessment Guidelines for the Training Package.	
Overview of assessment	
Critical aspects for assessment and evidence required to demonstrate competency in this unit	Evidence of the following is essential: • development of a comprehensive diversity policy with details of an implementation strategy and how it will be monitored and reviewed OR • critical analysis of an existing diversity policy with an evaluation of its effectiveness and recommendations for improvement • knowledge of relevant legislation, codes of practice and national standards.
Context of and specific resources for assessment	Assessment must ensure: • access to workplace documents and data.
Method of assessment	A range of assessment methods should be used to assess practical skills and knowledge. The following examples are appropriate for this unit: • assessment of written reports evaluating the effectiveness of diversity policies and their implementation • direct questioning combined with review of portfolios of evidence and third party workplace reports of on-the-job performance by the candidate • observation of presentations • review of action plans to support diversity policy

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

EVIDENCE GUIDE	
	implementation • review of documentation promoting the policy across the organisation • evaluation of recommendations for policy changes.
Guidance information for assessment	Holistic assessment with other units relevant to the industry sector, workplace and job role is recommended, for example: • other units from the BSB60407 Advanced Diploma of Management.

Range Statement

RANGE STATEMENT	
The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording, if used in the performance criteria, is detailed below. Essential operating conditions that may be present with training and assessment (depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts) may also be included.	
Information may include:	• complaints and grievances e.g. sexual harassment, racial discrimination • customer analysis and feedback • equal opportunity targets • recruitment patterns • stakeholder opinions • statistical data
Diversity includes differences in:	• age • belief systems and values • culture • expertise, experience and working styles • gender • interests • interpersonal style • language, literacy and numeracy • physical differences • politics • race • religion

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT	
	• sexual orientation • thinking and learning styles
Business objectives may include:	• business goals and plans • future directions statements • vision or mission statements
Key stakeholders may include:	• customers and clients • heads of business units • managers and supervisors • organisation executives • staff working in a range of job roles and functions
Diversity policy may include:	• benefits of recognising diversity • human resources practices • key diversity issues for the organisation • organisational vision and purpose about diversity • policies the organisation will commit to • proposed action • reasonable adjustments
Action plans may include:	• financial plans • promotional strategies • resource requirements • risk management issues and strategies • sales and distribution projections • specific actions, initiatives and tasks to be undertaken • staffing/responsibility requirements and arrangements • time lines
Communication channels may include:	• face-to-face meetings • inclusion in training events • internet and intranet • posters, leaflets and fliers • presentations and speeches

Employability Skills Information

Employability skills	This unit contains employability skills.

Elements and Performance Criteria Pre-Content

Elements describe the essential outcomes of a unit of competency.	Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the required skills and knowledge section and the range statement. Assessment of performance is to be consistent with the evidence guide.

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
1. Review website content and use	1.1. Monitor and analyse customer and user feedback in accordance with organisational timelines 1.2. Analyse automatically collected website data and identify trends 1.3. Make recommendations on changes to the website and its content in response to ***feedback and data analysis*** and approve changes scheduled for implementation 1.4. Review cost implications of the recommended changes to determine their viability
2. Update website	2.1. Replace superseded and inaccurate information with current information and add additional material in accordance with organisational requirements 2.2. Follow protocols for ensuring the accuracy and authenticity of information 2.3. Remove services no longer available or required and add new ones in accordance with organisational requirements 2.4. Check ***off-line information*** against that posted on the website and rectify discrepancies in accordance with organisational timelines 2.5. Follow ***security procedures*** for updating the website
3. Carry out non	3.1. Analyse user feedback to confirm that faults have

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

ELEMENT	PERFORMANCE CRITERIA
technical site maintenance	resulted from the site and are not user problems 3.2. Rectify faults and make improvements to the site in response to user feedback approved by the organisation 3.3. Add new web pages and/or active links and remove redundant pages and links in accordance with organisational requirements 3.4. Make site changes in response to changes in marketing strategy in accordance with organisational requirements and consideration of cost benefits

Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This section describes the skills and knowledge required for this unit.

Required skills

- literacy skills to interpret policies and procedures, provide recommendations to others and to draft text in a logical sequence and structure appropriate for an online format
- numeracy skills for basic statistical analysis of website usage data
- communication skills for consultation with users and customers.

Required knowledge

- identification and overview knowledge of key provisions of relevant legislation from all levels of government that may affect aspects of business operations, such as:
  - anti-discrimination legislation
- ethical principles
  - codes of practice
  - privacy laws
  - Occupational Health and Safety
- basic principles of website design and maintenance
- online security issues.

Employability skills	This unit contains employability skills.

Elements and Performance Criteria Pre-Content

Elements describe the essential outcomes of a unit of competency.	Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the required skills and knowledge section and the range statement. Assessment of performance is to be consistent with the evidence guide.

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
1. Investigate e business opportunities	1.1. Undertake a competitive analysis to determine the likely impact ***new capabilities*** will have on industry sectors and competitors 1.2. Complete and assess ***value chain analysis*** to identify ***processes and relationships*** that may benefit from the adoption of e-business solutions 1.3. Identify ***threats and opportunities*** to e-business implementation and evaluate potential ***contributions to the business*** 1.4. Conduct resource analysis to identify cost and revenue implications in developing opportunities 1.5. Identify and evaluate legal and ethical issues relating to e-business opportunities
2. Evaluate e business models	2.1. Identify and analyse ***business-to-business***, ***business-to-consumer***, intra-organisational e-business applications and ***e-business models*** 2.2. Rank compatible e-business models in terms of their strengths and weaknesses, considering resourcing, technical and security requirements of each 2.3. Assess cost implications of implementation of e-business models

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

ELEMENT	PERFORMANCE CRITERIA
	2.4. Determine an e-business model most appropriate in relation to business plan
3. Design an e business	3.1. Formulate purpose, objectives and values for the e-business 3.2. Identify target market, and value chain structure in accordance with chosen e-business model 3.3. Identify and obtain ***technical needs and expertise*** required to implement e-business model 3.4. Investigate and develop plan to address culture change issues to manage transition to an e-business
4. Implement an e business strategy	4.1. Develop ***policies and guidelines*** to support customers, supply chain and staff to ensure successful implementation 4.2. Monitor performance of business goals and adjust policies and procedures to respond to changing needs of customers, staff and supply chain 4.3. Review e-business systems and models, seeking feedback from users and personnel responsible for e-business implementation 4.4. Incorporate evaluation results and feedback to improve future e-business strategies

Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This section describes the skills and knowledge required for this unit.

Required skills

- analytical and problem-solving skills to assess information and apply to identified business needs
- communication skills to collaborate with technical experts and other staff
- literacy skills to identify and interpret market and product information.

Required knowledge

- features of a range of software and hardware systems
- key provisions of relevant legislation from all forms of government that may affect aspects of business operations, such as:
  - anti-discrimination legislation

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

REQUIRED SKILLS AND KNOWLEDGE
• ethical principles • codes of practice • privacy laws • copyright • occupational health and safety • organisational policies and procedures relating to the systems, products and/or service being worked with.

Evidence Guide

EVIDENCE GUIDE	
The Evidence Guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, range statement and the Assessment Guidelines for the Training Package.	
Overview of assessment	
Critical aspects for assessment and evidence required to demonstrate competency in this unit	Evidence of the following is essential: • evaluation of e-business opportunities involving new business models and not simply electronic versions of existing businesses • rationale and supporting evidence for choice of e-business solution • knowledge of relevant legislation.
Context of and specific resources for assessment	Assessment must ensure: • access to an actual workplace or simulated environment • access to office equipment and networked computers • documentation relating to analysis and strategies/policies for implementation.
Method of assessment	A range of assessment methods should be used to assess practical skills and knowledge. The following examples are appropriate for this unit: • direct questioning combined with review of portfolios of evidence and third party workplace reports of on-the-job performance by the candidate • review of authenticated documents from the workplace or training environment

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

EVIDENCE GUIDE	
	• demonstration of techniques in a workplace or simulated environment.
Guidance information for assessment	Holistic assessment with other units relevant to the industry sector, workplace and job role is recommended, for example: • BSBEBU502AImplement e-business solutions • IT use units.

Range Statement

RANGE STATEMENT	
The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording, if used in the performance criteria, is detailed below. Essential operating conditions that may be present with training and assessment (depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts) may also be included.	
New capabilities may include:	• 24-hour operation • automated marketing efforts • communication • distribution channel • global reach • online customer service • online inventory • online payments • online purchasing • online sales systems • supply chain

Value chain analysis may include:	• an analysis of a series of primary activities, such as:
	  • inbound logistics
	  • marketing and sales
	  • operations
	  • outbound logistics
	  • service support
	• and their support activities, such as:
	  • business infrastructure

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT	
	• human resources management • procurement • technological development
Processes and relationships may include:	• customer service • delivery of core services • delivery of government services • delivery of products • development of new products, services and markets • organisational structures • trading communities
Threats and opportunities may include:	• business to government (B2G) opportunities where e-business is conducted between an enterprise and the government • business-to-business (B2B) opportunities where e-business is conducted between companies • business-to-consumer (B2C) opportunities where e-business is conducted between an enterprise and a customer • competition legislation • disintermediation threats/opportunities where the role of 'middlemen' or other middle supply chain elements is reduced or made redundant as newer more efficient supply chain technologies are implemented • infrastructure requirements: disaster recovery, failsafe systems • internal business opportunities that improve productivity utilising e-business development • re-intermediation opportunities, where e-business creates new value between producers and consumers • risk management: payments, fraud etc.

Contributions to the business may include:	• effect on:
	  • customer satisfaction ratings
	  • growth
	  • market share
	  • profitability
	  • return on investment
	  • sales

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT	
	• staff morale i.e. using efficient technologies to enhance workplace • staff productivity and professional development
Business-to-business may include:	• involves e-business between organisations • may be B2G (business to government)
Business-to-consumer may include:	• involves e-business between an enterprise and a customer
E-business models may include:	• aggregator models • collaboration partners • competitor cooperation model • e-auction • e-government • e-mall • e-office • e-procurement • e-shop/e-tailing • information brokers • micro-payments business model • multilevel marketing • portal • tender services • third party marketplaces • trust services • value chain integrators • value chain service providers • virtual community • web rings
Technical needs and expertise may include:	• advice on existing business strategy and base business versus growth business • advice on staffing arrangements • advice on technology issues/compatibility • banking information for electronic funds transfer • contact person • feedback loops • new protocols relating to legal or security issues for e-business • open and international standards e.g. EAN.UCC or UN/EDIFACT

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT	
	• personal identification and password for online access to business processes e.g. purchasing or supply
Policies and guidelines may include:	• business ethics • confidentiality • electronic communication • fraud prevention and detection • human resources management • information management • intellectual property • legal issues e.g. jurisdiction, contract validity, taxation • outsourcing • performance management • privacy • risk management • security

BSBFIA301A Maintain financial records

Modification History

Not applicable.

Unit Descriptor

Unit descriptor	This unit describes the performance outcomes, skills and knowledge required to maintain financial records for a business. It includes maintaining daily financial records such as reconciling debtors' and creditors' systems, preparing and maintaining a general ledger, and preparing a trial balance. It also includes activities associated with monitoring cash control for accounting purposes. No licensing, legislative, regulatory or certification requirements apply to this unit at the time of endorsement.

Application of the Unit

Application of the unit	This unit applies to individuals who are skilled operators and apply a broad range of competencies in various work contexts. They may exercise discretion and judgement using appropriate theoretical knowledge of financial records to provide technical advice and support to a team.

Licensing/Regulatory Information

Not applicable.

Employability Skills Information

Employability skills	This unit contains employability skills.

Elements and Performance Criteria Pre-Content

Elements describe the essential outcomes of a unit of competency.	Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the required skills and knowledge section and the range statement. Assessment of performance is to be consistent with the evidence guide.

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
1. Maintain daily financial records	1.1. Correctly maintain daily financial records and in accordance with ***organisational requirements*** for accounting purposes 1.2. Identify and rectify or refer ***discrepancies*** or errors in ***documentation*** or transactions to ***designated persons*** in accordance with organisational requirements 1.3. Accurately credit and debit transactions and promptly enter into ***journals*** in accordance with organisational requirements
2. Maintain general ledger	2.1. Maintain general ledger in accordance with organisational requirements 2.2. Post ***transactions*** into general ledger in accordance with organisational reporting requirements 2.3. ***Reconcile systems for accounts payable and receivable*** with general ledger 2.4. Accurately prepare trial balance from general ledger in accordance with organisational requirements
3. Monitor cash control	3.1. Ensure cash flow is accurately accounted for in accordance with organisational requirements 3.2. Make and receive ***payments*** in accordance with

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

ELEMENT	PERFORMANCE CRITERIA
	organisational requirements 3.3. Collect or follow-up outstanding accounts within designated time lines 3.4. Check payment documentation for accuracy of information and despatch to creditors within ***designated time line***

Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE This section describes the skills and knowledge required for this unit.
Required skills
• literacy skills to identify financial information; to read and understand the organisation's accounting procedures; and to edit and proofread documents to ensure conformity and consistency of information • communication skills to clarify information and to refer errors or discrepancies to appropriate people • numeracy skills to read and interpret financial data and to prepare cash analysis sheets • problem-solving skills to reconcile figures.
Required knowledge

• key provisions of relevant legislation from all levels of government that may affect aspects of business operations, such as:
  • anti-discrimination legislation
  • ethical principles
  • codes of practice
  • privacy laws
  • financial legislation
  • occupational health and safety (OHS)
• organisational policies and procedures relating to maintaining financial records
• definition of credits/creditors and debits/debtors
• principles of double entry bookkeeping and accrual accounting
• methods of presenting financial data.

Evidence Guide

EVIDENCE GUIDE	
The Evidence Guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, range statement and the Assessment Guidelines for the Training Package.	
Overview of assessment	
Critical aspects for assessment and evidence required to demonstrate competency in this unit	Evidence of the following is essential: • identifying and responding to discrepancies and errors • transferring and recording financial data accurately • reconciling expenditures and revenue • knowledge of organisational policies and procedures relating to maintaining financial records.
Context of and specific resources for assessment	Assessment must ensure: • access to an actual workplace or simulated environment • access to office equipment and resources • examples of source documents relating to financial record keeping.
Method of assessment	A range of assessment methods should be used to assess practical skills and knowledge. The following examples are appropriate for this unit: • direct questioning combined with review of portfolios of evidence and third party workplace reports of on-the-job performance by the candidate • review of identification and rectification or referral of discrepancies or errors in documentation or transactions • analysis of responses to case studies and scenarios • demonstration of techniques • oral or written questioning to assess knowledge of financial record keeping • examples of financial documentation.
Guidance information for assessment	Holistic assessment with other units relevant to the industry sector, workplace and job role is recommended, for example: • general administration units • other financial administration units.

Range Statement

RANGE STATEMENT	
The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording, if used in the performance criteria, is detailed below. Essential operating conditions that may be present with training and assessment (depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts) may also be included.	
Organisational requirements may include:	• designated time lines • guidelines for reconciling journals • legal and organisational policies, guidelines and requirements • OHS policies, procedures and programs • procedures for totalling adjusted journals • quality assurance and/or procedures manuals • resolution procedures • security procedures
Discrepancies may relate to:	• bank charges • dishonoured cheques • errors in transposing between source documents and journals • interest
Documentation may include:	• purchase credit notes • purchase invoices • sales credit notes • sales invoices
Designated persons may include:	• bank • line management • organisation's authorisations department • statutory body • supervisor
Journals may include:	• cash payments • cash receipts • purchases and purchase returns • sales and sales returns
Transactions may include:	• commencing business entries • correction of posting errors • interest expense

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT	
	• interest receivable • non-cash transactions (e.g. writing-off depreciation, stock losses) • purchase of a fixed asset on credit • sale of a fixed asset on credit • withdrawal of stock/assets by owner • write-off a bad debt
Reconciling systems for accounts payable and receivable may include:	• checking accuracy of creditor account balances (e.g. cash payments journal, purchases journal, purchases returns journal, general journal) • checking accuracy of debtor account balances (e.g. cash receipts journal, sales return journal, general journal) • checking cash payments and receipt journals against bank statement • checking the total of the creditor's schedule equals the balance of the creditor's control account • checking the total of the debtor's schedule equals the balance of the debtor's control account
Payments may include:	• cash • cheque • credit card • direct debit
Designated time lines may include:	• by month end • monthly • within agreed period • within organisational deadline

ELEMENT	PERFORMANCE CRITERIA
	general ledger accounts system 3.3. Prepare final general ledger accounts to reflect gross and net profits for reporting period
4. Prepare end of period financial reports	4.1. Prepare ***revenue statement*** in accordance with organisational requirements to reflect operating profit for ***reporting period*** 4.2. Prepare ***balance sheet*** to reflect financial position of business at end of reporting period 4.3. Identify and correct, or refer errors for resolution in accordance with organisational policy and procedures

Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This section describes the skills and knowledge required for this unit.

Required skills

- communication skills to clarify reporting requirements and obtain required data
- literacy skills to:
  - identify financial information
  - follow the Australian Accounting and Auditing Standards
  - follow the organisation's accounting procedures
- numeracy skills to calculate percentages, addition and subtraction.

Required knowledge

- double-entry bookkeeping principles
- general journal and general ledger entries
- key provisions of relevant legislation and regulations from all forms of government, standards and codes that may affect aspects of business operations, such as:
  - Australian Taxation Office regulations
  - accounting and auditing standards
  - Goods and Services Tax (GST) regulations
  - anti-discrimination legislation
  - ethical principles
  - codes of practice
  - finance legislation

Elements describe the essential outcomes of a unit of competency.	Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the required skills and knowledge section and the range statement. Assessment of performance is to be consistent with the evidence guide.

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
1. Compile financial information and data	1.1. Collect, evaluate and code current ***financial data*** to ensure consistency, quality and accuracy in accordance with ***organisational requirements*** 1.2. Use ***conversion and consolidation procedures*** to compile analysis in accordance with organisational requirements 1.3. Make, record and disclose asset and liability valuations in accordance with organisational requirements 1.4. Ensure that ***discrepancies***, unusual features or queries are identified, resolved or referred to the appropriate authority
2. Prepare statutory requirement reports	2.1. Correctly record income and expenditure to ensure compliance with ***statutory requirements*** 2.2. Calculate liabilities for tax in accordance with current legislation and ***revenue gathering practices*** 2.3. Correctly identify relevant receipts, ***revenue documentation*** and payments 2.4. Ensure that statements and claims take full advantage of ***available benefits and allowances*** in accordance with statutory requirements 2.5. Submit statutory requirement reports to appropriate authorities within ***stated deadlines***

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

ELEMENT	PERFORMANCE CRITERIA
3. Provide financial business recommendations	3.1. Ensure that ***recommendations*** are logically derived and supported by ***evidence*** in report 3.2. Provide recommendations to propose constructive actions to enhance the effectiveness and efficacy of functions and services 3.3. Ensure recommendations are concise and facilitate direction and control of organisation's operations 3.4. Identify and prioritise ***significant issues*** in statements including comparative financial performances for review and decision making 3.5. Ensure structure and ***format of reports*** are clear and conform to organisational and statutory requirements

Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This section describes the skills and knowledge required for this unit.

Required skills

- literacy skills to identify financial information and the organisation's accounting procedures, and to create financial reports
- problem-solving skills to deal with a defined range of predictable problems
- decision making skills to make routine decisions
- numeracy skills to calculate data and to reconcile figures.

Required knowledge

- key provisions of relevant legislation from all levels of government that may affect aspects of business operations, such as:
  - anti-discrimination legislation
  - ethical principles
  - codes of practice
  - privacy laws
  - financial legislation
  - occupational health and safety (OHS)
- principles of double entry bookkeeping and accrual accounting
- techniques for forecasting and analysis
- Federal government taxes and charges

BSBFIM501A Manage budgets and financial plans

Modification History

Not applicable.

Unit Descriptor

Unit descriptor	This unit describes the performance outcomes, skills and knowledge required to undertake financial management within a work team in an organisation. This includes planning and implementing financial management approaches, supporting team members whose role involves aspects of financial operations, monitoring and controlling finances, and reviewing and evaluating effectiveness of financial management processes in line with the financial objectives of the work team and the organisation. No licensing, legislative, regulatory or certification requirements apply to this unit at the time of endorsement.

Application of the Unit

Application of the unit	This unit addresses the requirement for managers to ensure that financial resources are used effectively. This is done by ensuring access to budget/s and ongoing monitoring expenditure against the budget/s. The unit applies to managers working in small and large business environments and not for profit organisations.

Licensing/Regulatory Information

Elements and Performance Criteria Pre-Content

Elements describe the essential outcomes of a unit of competency.	Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the required skills and knowledge section and the range statement. Assessment of performance is to be consistent with the evidence guide.

Elements and Performance Criteria

ELEMENT	**PERFORMANCE CRITERIA**
1. Plan for financial management	1.1. Review and analyse previous ***financial data*** to establish areas which have generated a profit or loss 1.2. Undertake research to review reasons for previous profit and loss 1.3. Review business plan to establish critical dates and initiatives that will require or generate resources in next financial cycle 1.4. Analyse cash flow trends 1.5. Review statutory requirements for compliance and liabilities for tax 1.6. Review existing software and its suitability for financial management
2. Establish budgets and allocate funds	2.1. Use previous financial data to determine allocations for resources 2.2. Make informed estimates of new items for inclusion

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

ELEMENT	PERFORMANCE CRITERIA
	in budget 2.3. Prepare budgets in accordance with ***organisational requirements*** and ***statutory requirements***
3. Implement budgets	3.1. Circulate budgets and ensure managers and supervisors are clear about budgets, reporting requirements and financial delegations 3.2. Manage risks by checking there are no opportunities for misappropriation of funds and that systems are in place to properly record all financial transactions 3.3. Review profit and loss statements, cash flows and ageing summaries 3.4. Revise budgets, as required, to deal with contingencies 3.5. Maintain audit trails to ensure accurate tracking and to identify ***discrepancies*** between agreed and actual allocations 3.6. Ensure compliance with due diligence
4. Report on finances	4.1. Ensure structure and ***format*** of reports are clear and conform to organisational and statutory requirements 4.2. Identify and prioritise significant ***issues*** in statements, including comparative financial performances for review and decision making 4.3. Prepare ***recommendations*** to ensure financial viability of the organisation 4.4. Evaluate the effectiveness of financial management processes

Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE
This section describes the skills and knowledge required for this unit.
Required skills
• communication skills to explain budgets and reporting requirements, and to deal with questions • mathematical skills to read and interpret budgets • technology skills to work with financial software.
Required knowledge

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

REQUIRED SKILLS AND KNOWLEDGE

• financial probity
• principles of accounting and financial systems
• relevant Australian, international and local legislation and conventions, such as:
  • bilateral or regional trade agreements
  • International Commercial Terms (INCOTERMS)
  • Trade Practices Act
  • Warsaw Convention
  • World Trade Organization determinations
• requirements of the Australian Tax Office, including Goods and Services Tax, Company Tax, PAYG.

Evidence Guide

EVIDENCE GUIDE	
The Evidence Guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, range statement and the Assessment Guidelines for the Training Package.	
Overview of assessment	
Critical aspects for assessment and evidence required to demonstrate competency in this unit	Evidence of the following is essential: • preparation of budgets which align with the business plan, use previous financial data and meet all compliance requirements • analysis of the effectiveness of existing financial management approaches • knowledge of the requirements of the Australian Tax Office.
Context of and specific resources for assessment	Assessment must ensure: • access to appropriate documentation and resources normally used in the workplace.
Method of assessment	A range of assessment methods should be used to assess practical skills and knowledge. The following examples are appropriate for this unit: • assessment of written reports on financial systems and financial management • direct questioning combined with review of portfolios of evidence and third party workplace

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

EVIDENCE GUIDE	
	reports of on-the-job performance by the candidate • review of budgets prepared • oral or written questioning to assess knowledge of legislative requirements or the tax system • evaluation of documentation reviewing profit and loss statements, cash flows and ageing summaries • analysis of maintenance of audit trails • review of recommendations prepared to ensure the financial viability of the organisation.
Guidance information for assessment	Holistic assessment with other units relevant to the industry sector, workplace and job role is recommended, for example: • other units from the BSB60407 Advanced Diploma of Management.

Range Statement

RANGE STATEMENT	
The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording, if used in the performance criteria, is detailed below. Essential operating conditions that may be present with training and assessment (depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts) may also be included.	
Financial data may include:	• budgets, forecasts and variations • cash flow/profit reports • financial/operational statements and reports (e.g. expenditures and receipts, profit and loss statements) • market valuations
Organisational requirements may include:	• financial analysis assessments • financial management manuals • legal and organisational policies, guidelines and requirements • occupational health and safety policies, procedures and programs • price and exchange parameters • quality assurance and/or procedures manuals

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT	
	• recording and filing systems • reporting requirements • standard financial analysis techniques
Statutory requirements may include:	• delegated authorities • internal control procedures • limits on volumes and types of financial transactions • reporting of duty, excise and other overseas government charges • reporting periods • taxation and payment timings
Discrepancies may include:	• absence of auditable trail • expenditure report mismatches • inappropriate authorisations • incorrect payments • incorrect report formats • unreconciled cash flows and operating statements • variances from budget and phasings
Format may include:	• audits • balance sheets • cash flow statements • electronic forms • financial year reports • operating statements • spreadsheets • statutory forms
Issues may include:	• cost structures • internal controls • losses and returns • profitability • statutory obligations • suppliers and markets
Recommendations may refer to:	• cash flow • changes in business activity including markets, goods or services traded • consolidation • expenses and overheads • labour costs including decisions to move production to other locations or sites

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT	
	• loss • profit • write-offs

BSBHRM402A Recruit, select and induct staff

Modification History

Not applicable.

Unit Descriptor

Unit descriptor	This unit describes the performance outcomes, skills and knowledge required to execute tasks associated with the recruitment cycle. No licensing, legislative, regulatory or certification requirements apply to this unit at the time of endorsement.

Application of the Unit

Application of the unit	This unit applies to individuals with a role in recruitment, selection and induction functions who work under the direction of a human resources manager. It is not assumed that the individuals addressed by this unit have staff who report to them, although this may be the case. Performance of the work described in this unit will be underpinned by in depth knowledge of the work of the organisation, and how recruitment and selection practices fit with other human resource functions.

Licensing/Regulatory Information

Not applicable.

Employability Skills Information

Employability skills	This unit contains employability skills.

Elements and Performance Criteria Pre-Content

Elements describe the essential outcomes of a unit of competency.	Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the required skills and knowledge section and the range statement. Assessment of performance is to be consistent with the evidence guide.

Elements and Performance Criteria

ELEMENT	**PERFORMANCE CRITERIA**
1. Determine job descriptions	1.1. Clarify time lines and requirement for appointment 1.2. Assist with preparation of ***job descriptions*** which accurately reflect the role requirements in accordance with organisational procedures and ***legislation***, ***codes and national standards*** and ***occupational health and safety*** (***OHS***) ***considerations*** 1.3. Consult with relevant personnel about job descriptions 1.4. Ensure that job descriptions do not contravene legislative requirements 1.5. Obtain approvals to advertise position
2. Plan for selection	2.1. ***Advertise*** vacancies for ***staffing requirements*** in accordance with organisational policies and procedures 2.2. Consult with relevant personnel to convene selection panel and to develop interview questions

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

ELEMENT	PERFORMANCE CRITERIA
	2.3. Short list applicants 2.4. Ensure that interview questions do not breach legislative requirements 2.5. Schedule interviews and advise relevant personnel of times, dates and venues
3. Assess and select applicants	3.1. Participate in interview process and assess candidates against agreed selection criteria 3.2. Discuss assessment with other selection panel members 3.3. Correct any biases or deviations from agreed procedures and negotiate for preferred candidate 3.4. Contact referees for referee reports 3.5. Prepare selection report and make recommendations to senior personnel for appointment 3.6. Advise unsuccessful candidates of outcomes and respond to any queries 3.7. Complete all necessary documentation in accordance with organisational procedures 3.8. Secure agreement of preferred candidate
4. Appoint and induct successful candidate	4.1. Provide successful candidate with employment contract and other documentation 4.2. Advise managers and staff of starting date and make necessary administrative arrangements for pay and employee record keeping 4.3. Advise manager and work team of new appointment 4.4. Arrange induction in accordance with organisational policy

Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE
This section describes the skills and knowledge required for this unit.
Required skills
• communication skills to use networks to source suitable applicants, to listen to and understand what is being said in interviews, and to advise on the outcomes of the selection process • literacy skills to work with job descriptions to devise suitable questions for

Elements and Performance Criteria

Elements and Performance Criteria

Element	Performance Criteria
1 Develop performance management systems	1.1 Analyse strategic and operational plans to identify relevant policies and objectives for **performance management** system
	1.2 Design methods and processes for line managers to develop **key performance indicators** for positions reporting to them
	1.3 Develop organisational timeframes and processes for formal performance management sessions
	1.4 Ensure systems developed are flexible enough to cover the range of **employment situations** within the organisation
	1.5 Consult with key stakeholders about the system and agree on its features
	1.6 Gain support for the implementation of the

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

		performance management system
2	Implement performance management systems	2.1 Train relevant groups and individuals to monitor performance and to identify **performance gaps**
		2.2 Ensure that line managers are monitoring performance regularly and that **intervention** occurs to acknowledge poor performance and excellent performance
		2.3 Work with line managers, where necessary, to assist them to address poor performance in accordance with organisational policies and legal requirements
		2.4 Support line managers to counsel and discipline employees who continue to perform below standard
		2.5 Provide support to **terminate** employees who fail to respond to interventions, in accordance with organisational protocols and legislative requirements
		2.6 Recognise excellence in accordance with organisational policy
		2.7 Ensure documented outcomes of performance management sessions are accessible and are stored in accordance with organisational policy
3	Coordinate formal feedback processes	3.1 Develop performance feedback plans by relevant managers/team leaders and lodge them with human resources staff
		3.2 Provide training and assistance to managers/team leaders participating in the feedback process
		3.3 Agree on and sign, plans for performance improvement and **individual learning and development**
		3.4 Establish processes to deal with any problems or grievances which arise from the performance feedback
		3.5 Make available specialist advice on **career development** to participants in the process

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

4 Coordinate individual/group learning development plans	4.1 Contract **appropriate providers** for performance development, as identified by the plans, in accordance with organisational policies
	4.2 Design learning and development plans to contribute to the development of a **learning organisation**
	4.3 Deliver learning and development plans according to agreed timeframes and ensure they deliver **specified outcomes**
	4.4 Monitor learning and development activities to ensure compliance with **quality assurance standards**
	4.5 Negotiate **remedial action** with providers where necessary
	4.6 Generate reports to advise appropriate managers on progress and success rates of activities
	4.7 Regularly evaluate and improve all aspects of the performance management system, in keeping with organisational objectives and policies

Required Skills and Knowledge

This section describes the skills and knowledge required for this unit.

Required skills

analytical skills to ensure system is practical and gathers necessary information

conflict management skills to deal with grievances, disputes or disagreements that may arise

leadership skills to obtain support and endorsement of the performance management system across the organisation

training, coaching, mentoring and facilitation skills to ensure managers are competent to deliver the systems.

Required knowledge

equal employment opportunity, diversity and anti-discrimination policies and legislation

grievance procedures

models for giving feedback and options for skill development

options in the design of performance management systems

role of performance management in relation to broader human resources and business objectives.

Evidence Guide

The evidence guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, range statement and the Assessment Guidelines for the Training Package.

Overview of assessment

Critical aspects for assessment and evidence required to demonstrate competency in this unit	Evidence of the following is essential: demonstrated evidence of how a range of performance management systems work and their relative strengths and weaknesses demonstrated understanding of how a performance development system aligns with human resources strategy ability to design, gather support for, and implement an effective performance management system knowledge of equal employment opportunity, diversity and anti-discrimination policies and legislation.
Context of and specific resources for assessment	Assessment must ensure: access to appropriate documentation and resources normally used in the workplace.
Method of assessment	A range of assessment methods should be used to assess practical skills and knowledge. The following examples are appropriate for this unit: assessment of written reports on performance management and performance development systems direct questioning combined with review of

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

	portfolios of evidence and third party workplace reports of on-the-job performance by the candidate observation of demonstrated techniques in performance management observation of presentations review of plans for performance improvement and individual learning and development review of reports generated to advise appropriate managers on progress and success rates of activities oral or written questioning to assess knowledge of models for giving feedback and options for skill development.
Guidance information for assessment	Holistic assessment with other units relevant to the industry sector, workplace and job role is recommended, for example: BSBHRM507A Manage separation or termination other units from the Diploma of Business (Human Resource Management).

Range Statement

The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording, if used in the performance criteria, is detailed below. Essential operating conditions that may be present with training and assessment (depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts) may also be included.

Performance management includes:	a process or set of processes for establishing a shared understanding of what an individual or group is to achieve, and managing and developing individuals in a way which increases the probability it will be achieved in both the short and long term
Key performance indicators include:	those measures developed to gauge

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

	performance outcomes against targets
Employment situations may include:	casual and contract work full-time work marketing/sales office/clerical part-time work physical labour processing production technical/scientific tele-working warehousing/transport
Performance gaps may include situations where outcomes are less then those stated in the strategic objectives, such as:	costs above budget disruptive conflict external interference failure to meet strategic and/or operational objectives lost time disputes low/high turnover of labour productivity below budget quality/occupational health and safety/environmental failure work bans/go slow
Intervention may include:	coaching counselling discipline giving praise recognition of good performance
Termination means:	cessation of the contract of employment between an employer and an employee, at the initiative of the employer within relevant industrial agreements
Individual learning and development may include:	enhancement of knowledge

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

	mentoring personal development project work skills training visits
Career development means:	plan of learning development and experiences to prepare a person for more rewarding positions
Appropriate providers include:	consultants external providers internal providers trainers
Learning organisation means:	organisation that displays the capacity to continually adapt to changes in its business environment
Specified outcomes means:	achievement of performance targets
Quality assurance standards means:	pre-determined statements relating to specifications on how a product or service is presented to the user
Remedial action means:	action designed to rectify a particular problem or aspect of performance

BSBHRM506A Manage recruitment selection and induction processes

Modification History

Not applicable.

Unit Descriptor

Unit descriptor	This unit describes the performance outcomes, skills and knowledge required to manage all aspects of the recruitment selection and induction processes in accordance with organisational policies and procedures. No licensing, legislative, regulatory or certification requirements apply to this unit at the time of endorsement.

Application of the Unit

Application of the unit	This unit applies to human resources managers or human resources personnel who take responsibility for managing all aspects of selecting new staff and orientating those staff to their new positions. It is not assumed that the manager will be directly involved in the selection processes themselves, although this may well be the case. In small organisations this role may belong to someone who is not a dedicated human resources professional; the unit however will still be applicable.

Licensing/Regulatory Information

	review of human resources plan and risk management plans oral or written questioning to assess knowledge of human resources practices and functions.
Guidance information for assessment	Holistic assessment with other units relevant to the industry sector, workplace and job role is recommended, for example: other units from the Advanced Diploma of Management.

Range Statement

The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording, if used in the performance criteria, is detailed below. Essential operating conditions that may be present with training and assessment (depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts) may also be included.

Emerging practices and trends might include:	changes in consumer patterns or community expectations economic trends labour market trends new products or services new technologies political or legislative changes qualification or educational changes
Future labour needs refers to:	number, type, competency and quality of labour required to achieve organisation's strategic objectives
Options for sourcing labour supply refers to:	various ways in which labour can be brought to the job or accessed: employing a range of recruitment options hiring causal labour hiring new graduates or trainees

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

	outsourcing
	using contractors or consultants
Strategic objectives and targets for human resources may refer to:	equal employment opportunity and diversity
	human resources information systems
	induction
	industrial relations
	job analysis and design
	occupational health and safety
	performance management
	professional development
	recruitment and selection
	remuneration
	staff retention and succession planning
Options for the provision of human resources services may include:	external provision by a consultant or contractor/s
	having the work performed elsewhere (outsourcing)
	internal human resources provision of the service/s
	internal non-human resources provision of the service/s
	merging of business units
Human resources plan includes:	priorities
	objectives
	timeframes

BSBINM201A Process and maintain workplace information

Modification History

Not applicable.

Unit Descriptor

Unit descriptor	This unit describes the performance outcomes, skills and knowledge required to collect, process, store and maintain workplace information and systems. It also includes the maintenance of filing and records systems. No licensing, legislative, regulatory or certification requirements apply to this unit at the time of endorsement.

Application of the Unit

Application of the unit	This unit applies to individuals who perform a range of routine tasks in the workplace, using a limited range of practical skills and fundamental knowledge of information and information systems in a defined context, under direct supervision or with limited individual responsibility.

Licensing/Regulatory Information

Not applicable.

Pre-Requisites

Prerequisite units

Employability Skills Information

Employability skills	This unit contains employability skills.

Elements and Performance Criteria Pre-Content

Elements describe the essential outcomes of a unit of competency.	Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the required skills and knowledge section and the range statement. Assessment of performance is to be consistent with the evidence guide.

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
1. Collect information	1.1. Collect ***information*** in a timely manner and ensure that it is relevant to organisational needs 1.2. Use ***business equipment/technology*** available in the work area to effectively obtain information 1.3. Apply ***organisational requirements*** relating to security and confidentiality in handling information
2. Process workplace information	2.1. Use business equipment/technology to process information in accordance with organisational requirements 2.2. Process information in accordance with defined timeframes, guidelines and procedures 2.3. Update, modify and file information in accordance with organisational requirements 2.4. Collate and despatch information in accordance with specified timeframes and organisational requirements
3. Maintain information systems	3.1. Maintain information and filing systems in accordance with organisational requirements 3.2. Identify, ***remove*** and/or ***relocate inactive or dead files*** in accordance with organisational requirements 3.3. Establish and assemble new files in accordance with organisational requirements 3.4. Update reference and index systems in accordance with organisational requirements

Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE
This section describes the skills and knowledge required for this unit.
Required skills
• literacy skills to read and understand organisation's recordkeeping and information systems(including classification systems), to follow sequenced written instructions and to comprehend/interpret nature of record content • numeracy skills to sequence and index files • planning skills to organise work priorities and arrangements • problem-solving skills to solve routine problems • technology skills to select and use technology appropriate to maintaining workplace information.
Required knowledge

• key provisions of relevant legislation from all forms of government that may affect aspects of business operations, such as:
  • anti-discrimination legislation
  • ethical principles
  • codes of practice
  • privacy laws
  • occupational health and safety
• organisational policies and procedures relating to collecting and processing workplace information
• organisational recordkeeping/filing systems and security procedures
• organisation's business and structure
• range of filing systems including paper-based and software-based.

Evidence Guide

EVIDENCE GUIDE	
The Evidence Guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, range statement and the Assessment Guidelines for the Training Package.	
Overview of assessment	

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

EVIDENCE GUIDE	
Critical aspects for assessment and evidence required to demonstrate competency in this unit	Evidence of the following is essential: • applying organisational policies and procedures for collecting and processing workplace information • accuracy in recording and documenting information • correctly storing, classifying and maintaining documents and records.
Context of and specific resources for assessment	Assessment must ensure: • access to an actual workplace or simulated environment • access to office equipment and resources • examples of workplace information systems.
Method of assessment	A range of assessment methods should be used to assess practical skills and knowledge. The following examples are appropriate for this unit: • direct questioning combined with review of portfolios of evidence and third party workplace reports of on-the-job performance by the candidate • review of maintenance of information and filing systems • analysis of responses to case studies and scenarios • demonstration of techniques • oral or written questioning to assess knowledge of the management of information in the workplace.
Guidance information for assessment	Holistic assessment with other units relevant to the industry sector, workplace and job role is recommended, for example: • general administration units • other information management units.

Range Statement

RANGE STATEMENT
The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording, if used in the performance criteria, is detailed below. RANGE STATEMENT	
regional contexts) may also be included.	
Information may include:	• computer databases (library catalogue, customer records) • computer files (letters, memos and other documents) • correspondence (faxes, memos, letters, email) • forms (insurance forms, membership forms) • invoices (from suppliers, to debtors) • minutes of meetings • personnel records (personal details, salary rates) • sales records (monthly forecasts, targets achieved)
Business equipment/technology may include:	• answering machine • binder • computer • fax machine • filing systems (manual/computerised/electronic) • photocopier • printer • telephone
Organisational requirements may include:	• despatching and collecting procedures • legal and organisational policies, guidelines and requirements • OHS policies, procedures and programs • procedures for deciding which records should be captured and filed • procedures for updating records • security procedures
Removing inactive or dead files may include:	• compressing computer files prior to archiving • periodically archiving or deleting files • transferring files at regular intervals or routinely checking for dead or inactive files • transferring records from the active filing system to secondary storage
Relocating inactive or dead files may include:	• electronic (email, internet access, diskette, tape, CD-ROM) • microfilm • photographic material

ELEMENT	PERFORMANCE CRITERIA
needs	sufficiency of information to ensure relevance of information and system 3.2. Review the contribution of information to decision making and implement appropriate modifications to collection processes 3.3. Identify future information needs and incorporate in modifications to collection processes 3.4. Document future information needs and incorporate in modifications to reporting processes

Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This section describes the skills and knowledge required for this unit.

Required skills

- analytical skills to classify and report information
- literacy skills to read and understand a variety of texts; and to write, edit and proofread documents to ensure clarity of meaning, accuracy and consistency of information
- problem-solving skills to deal with information which is contradictory, ambiguous, inconsistent or inadequate
- technology skills to display information in a format suitable to the target audience.

Required knowledge

- key provisions of relevant legislation from all forms of government that may affect aspects of business operations, such as:
  - anti-discrimination legislation
  - ethical principles
  - codes of practice
  - privacy laws
  - occupational health and safety (OHS)
- methods for checking validity of information and its sources
- organisational recordkeeping/filing systems, security procedures and safe recording practices
- policies and procedures relating to distribution of workplace information, and legal and ethical obligations.

Range Statement

RANGE STATEMENT	
The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording, if used in the performance criteria, is detailed below. Essential operating conditions that may be present with training and assessment (depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts) may also be included.	
Information may include:	• computer databases (e.g. library catalogue, customer records) • computer files (e.g. letters, memos and other documents) • correspondence (e.g. faxes, memos, letters, email) • financial figures • forms (e.g. insurance forms, membership forms) • invoices (e.g. from suppliers, to debtors) • personnel records (e.g. personal details, salary rates) • production targets • sales records (e.g. monthly forecasts, targets achieved)
Organisational requirements may include:	• code of conduct/code of ethics • information protocols • legal and organisational policies, guidelines and requirements • management and accountability channels • OHS policies, procedures and programs • procedures for updating records • quality assurance and/or procedures manuals • security and confidentiality requirements
Methods of collecting information may include:	• checking research provided by others • checking written material including referrals and client files • classification tools • individual research • information from other organisations • interviews with colleagues/customers

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT	
	• observation and listening • previous file records • questioning (in person or indirect) • recruitment applications and other forms
Interpersonal skills may include:	• consultation methods, techniques and protocols • networking • seeking feedback from group members to confirm understanding • summarising and paraphrasing • using appropriate body language
Format may include:	• adding headers and footers • incorporating graphics and pictures • inserting symbols • using legends • using a particular software application • using tables and charts
Technology may include:	• answering machine • computer • email • fax machine • internet/extranet/intranet • photocopier • shredder • telephone
Systems may include:	• information management systems • knowledge management systems • record management systems
Designated persons may include:	• clients • colleagues • committee • external agencies • line management • statutory bodies • supervisor
Feedback may include:	• audit documentation and reports • comments from clients and colleagues • customer satisfaction questionnaires • quality assurance data • returned goods

Unit Descriptor

Unit descriptor	This unit describes the performance outcomes, skills and knowledge required to access and use a knowledge management system, to input into a knowledge management system, and to contribute to monitoring, reviewing and improving a knowledge management system and work practices. No licensing, legislative, regulatory or certification requirements apply to this unit at the time of endorsement.

Application of the Unit

Application of the unit	This unit applies to individuals who apply a broad range of competencies in various work contexts. They may exercise discretion and judgement using appropriate theoretical knowledge of knowledge management to assist in increasing productivity, to improve quality or to recognise the benefits to the organisation through the improved use of knowledge. For the purpose of this unit, knowledge management is defined as the whole range of strategies, methods, activities and techniques used formally and informally by individuals and the organisation (as formalised in a knowledge management system) to identify, collect, organise, store, retrieve, analyse, share and apply knowledge to the work of the organisation.

Elements and Performance Criteria Pre-Content

Elements describe the essential outcomes of a unit of competency.	Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the required skills and knowledge section and the range statement. Assessment of performance is to be consistent with the evidence guide.

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
1. Organise learning to use information or knowledge management system	1.1. Identify learning needs of ***relevant personnel*** and ***stakeholders*** for input into, and use of, ***an information or knowledge management system*** 1.2. Identify and secure human, financial and physical resources required for ***learning activities*** to use an information or knowledge management system 1.3. Organise and facilitate learning activities 1.4. Promote and support use of the system throughout the organisation 1.5. Monitor and document effectiveness of learning activities
2. Manage use of information or knowledge management system	2.1. Ensure implementation of ***policies and procedures for the information or knowledge management system*** are monitored for compliance, effectiveness and efficiency 2.2. Address implementation issues and problems as they arise

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

ELEMENT	PERFORMANCE CRITERIA
	2.3. Monitor integration and alignment with data and information systems 2.4. Collect information on achievement of ***performance measures*** 2.5. Manage contingencies such as system failure or technical difficulties by accessing technical specialist help as required
3. Review use of information or knowledge management system	3.1. Analyse effectiveness of system and report on strengths and limitations of the system 3.2. Review business and operational plan and determine how effectively the system is contributing to intended outcomes 3.3. Make recommendations for improvement to system, policy or work practices

Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This section describes the skills and knowledge required for this unit.

Required skills

- analytical and problem-solving skills to ensure the system is working in accordance with organisational expectations and to deal with contingencies
- technology skills to work with and manage the use of the information or knowledge management system.

Required knowledge

- legislation, codes of practice and national standards, for example:
  - privacy and confidentiality legislation
  - freedom of information legislation
  - AS 5037:2005 Knowledge management - A guide
- organisational policies and procedures, for example:
  - records management
  - information management
  - customer service
  - commercial confidentiality
- organisational operations, and existing data and information systems.

Evidence Guide

EVIDENCE GUIDE	
The Evidence Guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, range statement and the Assessment Guidelines for the Training Package.	
Overview of assessment	
Critical aspects for assessment and evidence required to demonstrate competency in this unit	Evidence of the following is essential: • analysis of the strengths and weaknesses of information or knowledge management system/s and evaluation of suitability for a particular work or organisational context • knowledge of relevant legislation, codes of practice and national standards.
Context of and specific resources for assessment	Assessment must ensure: • access to system • access to system user feedback.
Method of assessment	A range of assessment methods should be used to assess practical skills and knowledge. The following examples are appropriate for this unit: • assessment of written reports reviewing and evaluating information or knowledge management systems • direct questioning combined with review of portfolios of evidence and third party workplace reports of on-the-job performance by the candidate • observation of presentations • oral or written questioning to assess knowledge of relevant organisational policies and procedures • review of identified learning needs personnel and stakeholders regarding the information or knowledge management system • evaluation of monitoring and documentation about the effectiveness of learning activities • analysis documentation reporting on the strengths and limitations of the system • review of recommendations made for improvements to the system, policy or work practices.
Guidance information for	Holistic assessment with other units relevant to the

EVIDENCE GUIDE	
assessment	industry sector, workplace and job role is recommended, for example: • other units from the Diploma of Management.

Range Statement

RANGE STATEMENT	
The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording, if used in the performance criteria, is detailed below. Essential operating conditions that may be present with training and assessment (depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts) may also be included.	
Relevant personnel include:	• managers, leaders, supervisors and coordinators • owners • staff, team members and colleagues
Stakeholders include:	• clients and customers • employee representatives • funding bodies • industry, professional and trade associations • regulatory bodies and authorities • sponsors • tenderers, suppliers and contractors
Information or knowledge management is defined as:	• equipment, strategies, methods, activities and techniques used formally and informally by individuals and the organisation to identify, collect, organise, store, retrieve, analyse, share and draw on information and knowledge valuable to the work of the organisation
An information or knowledge management system:	• comprises policies, protocols, procedures and practices to manage information or knowledge within the organisation and among relevant stakeholders
Learning activities include:	• coaching and mentoring programs • help desks • information sessions, briefings, workshops and training programs • paper-based or electronic (including intranet)

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT	
	learning opportunities • use of expert workers such as coaches and mentors to help other personnel use the system
Policies and procedures for the information or knowledge management system cover:	• complying with legislative requirements (such as privacy, confidentiality and defamation requirements) and other policies and procedures • content guidelines • ensuring accuracy and relevance of knowledge input into the system • mechanisms, formats and styles of input to system, including appropriate alternative formats for people with a disability • permissions for input • removing out-of-date, inaccurate and content that is no longer relevant • selecting, maintaining and disposing of knowledge in the system • sharing knowledge in the system
Performance measures include:	• key performance indicators • other systems and measures to enable assessment of how, when, where and why outcomes are being achieved • performance objectives • performance standards (including codes of conduct) • qualitative or quantitative mechanisms to measure individual performance

Elements and Performance Criteria Pre-Content

Elements describe the essential outcomes of a unit of competency.	Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the required skills and knowledge section and the range statement. Assessment of performance is to be consistent with the evidence guide.

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
1. Obtain information relevant to business issues	1.1. Review staff and customer feedback and business performance data 1.2. Identify, define and analyse business problems and issues 1.3. Identify information required to reach a decision on problems/issues 1.4. Source and gather reliable information 1.5. Test information for reliability and validity, and reject where contradictory or ambiguous 1.6. Utilise formal and informal networks to access corporate knowledge/memory not held in formal systems and review appropriately
2. Analyse information and knowledge	2.1. Ensure objectives for analyses are clear, relevant and consistent with the decisions required 2.2. Identify patterns and emerging trends correctly and interpret as to cause and effect 2.3. Utilise ***statistical analyses*** and interpretation where appropriate 2.4. Undertake ***sensitivity analysis*** on any proposed options 2.5. Ensure documentation reflects a logical approach to the evaluation of the evidence and conclusions drawn

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

ELEMENT	PERFORMANCE CRITERIA
	2.6. Adjust ***management information systems*/*decision support systems*** to meet information processing objectives
3. Take decisions on business issues identified	3.1. Ensure sufficient valid and reliable information/evidence is available to support a decision 3.2. Utilise ***risk management*** plans to determine acceptable courses of action 3.3. Utilise appropriate ***quantitative methods*** to assist decision making 3.4. Consult specialists and other ***relevant groups and individuals*** 3.5. Ensure decisions taken are within the delegation/accountability of the group/individual responsible 3.6. Make decisions in accordance with organisational guidelines and procedures 3.7. Ensure decisions taken are consistent with organisational objectives, values and standards 3.8. Ensure decisions are taken in a timely manner
4. Disseminate information to the organisation	4.1. Ensure advice/information needs are documented and are specific to location, format and time line requirements 4.2. Document information and update databases regularly 4.3. Design and test systems to meet information requirements of decision makers 4.4. Ensure information is up-to-date, accurate, relevant and sufficient for the recipient 4.5. Develop ***communication plans*** and disseminate information 4.6. Adhere to confidentiality/privacy policies in the transmission/release of information/advice 4.7. Review and update communication plans regularly 4.8. Utilise ***technology*** which provides optimum efficiency and quality 4.9. Maintain ***corporate knowledge*** and ensure security

Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE This section describes the skills and knowledge required for this unit.
Required skills
• analytical skills to identify improvement opportunities in relation to the services/products delivered internally or concepts/ideas in area of expertise • communication and consultation skills to ensure all relevant groups and individuals are advised of what is occurring and are provided with an opportunity for input • quantitative and qualitative research skills to locate and review relevant data and information • technology skills to consider various software and hardware options for storing and accessing data and information.
Required knowledge
• new technologies and their suitability to knowledge and information management • risk management.

Evidence Guide

EVIDENCE GUIDE	
The Evidence Guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, range statement and the Assessment Guidelines for the Training Package.	
Overview of assessment	
Critical aspects for assessment and evidence required to demonstrate competency in this unit	Evidence of the following is essential: • documentation which tracks a particular problem/issue through information gathering and analysis, decision making and taking, and dissemination to relevant groups and individuals • development and utilisation of relevant information storage and retrieval systems, as well as accessing informal knowledge and information from informal networks within the organisation • knowledge of new technologies and their suitability to knowledge and information management.
Context of and specific resources for assessment	Assessment must ensure: • access to appropriate documentation and resources

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

EVIDENCE GUIDE	
	normally used in the workplace.
Method of assessment	A range of assessment methods should be used to assess practical skills and knowledge. The following examples are appropriate for this unit: • assessment of written reports on knowledge management and information management • direct questioning combined with review of portfolios of evidence and third party workplace reports of on-the-job performance by the candidate • oral or written questioning to assess knowledge of information management systems • review of documentation identifying, defining and analysing business problems and issues • evaluation of communication plans • evaluation of the transmission/release of information/advice in terms of adhering to confidentiality/privacy policies.
Guidance information for assessment	Holistic assessment with other units relevant to the industry sector, workplace and job role is recommended, for example: • other units from the Advanced Diploma of Management.

Range Statement

RANGE STATEMENT	
The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording, if used in the performance criteria, is detailed below. Essential operating conditions that may be present with training and assessment (depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts) may also be included.	
Statistical analyses may include:	• correlation calculations • long-term trend analyses • probability assessment • regulation analyses • short to medium-term trend analyses
Sensitivity analyses means:	• applying 'what if' scenarios to available

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT	
	options
Management information systems means:	• formal systems for collecting, storing and synthesising information to be used in management decision making
Decision support systems are:	• management information systems which include some form of computer-based assistance to decision making (expert systems)
Risk management means:	• process of identification of potential negative events and the development of plans to mitigate or minimise the likelihood or consequences of the negative event if it occurs
Quantitative methods may include:	• dynamic programming • linear programming • queuing theory • simulation • transportation methodology
Relevant groups and individuals means:	• those personnel who have knowledge about the issue being dealt with and the expertise to assist the decision making process
Research may include:	• focus groups • group interviews • individual interviews • surveys
Communication plans means:	• structured program for the dissemination of information and the receipt of feedback information from individuals relevant to the process or activity
Technology may include:	• audio-visual media • internet • intranet • print media • radio • telephone • television
Corporate knowledge may include:	• copyright • intellectual property • technology

BSBINN301A Promote innovation in a team environment

Modification History

Not applicable.

Unit Descriptor

Unit descriptor	This unit describes the performance outcomes, skills and knowledge required to be an effective and pro active member of an innovative team. No licensing, legislative, regulatory or certification requirements apply to this unit at the time of endorsement.

Application of the Unit

Application of the unit	This unit applies individuals who play a pro active role in demonstrating, encouraging or supporting innovation in a team environment. The individual may be a team participant or a team leader. The team may 'make itself' or be constructed by others. It may have core members and members who participate at certain times or for particular purposes. It may be permanent or temporary, or come together at different times to work on specific projects. The team could consist of a team of contractors/freelancers, permanent staff, clients and service providers, or any combination of these groups. It may operate within an organisation or across several organisations - or simply across a group of individuals. The key focus of the unit is on what makes for an innovative team, what keeps it working well, how the structure of work can make a difference and what skills and knowledge are needed to maximise opportunities for innovation. Where a greater focus on team leadership is required this unit should be combined with units such as BSBLED401A Develop teams and individuals.

Pre-Requisites

Prerequisite units		

Employability Skills Information

Employability skills	This unit contains employability skills.

Elements and Performance Criteria Pre-Content

Elements describe the essential outcomes of a unit of competency.	Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the required skills and knowledge section and the range statement. Assessment of performance is to be consistent with the evidence guide.

Elements and Performance Criteria

ELEMENT	**PERFORMANCE CRITERIA**
1. Create opportunities to maximise innovation within the team	1.1. Evaluate and reflect on ***what the team needs and wants to achieve*** 1.2. Check out ***information about current or potential team members' work*** in the context of developing a more innovative team 1.3. Bring people into the team or make suggestions for team members based on what needs to be achieved and the potential for cross-fertilising ideas 1.4. Acknowledge, respect and discuss the ***different ways that different people may contribute*** to building or

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

ELEMENT	PERFORMANCE CRITERIA
	enhancing the team
2. Organise and agree effective ways of working	2.1. Jointly establish ***ground rules*** for how the team will operate 2.2. Agree and communicate responsibilities in ways that encourage and reinforce ***team-based innovation*** 2.3. Agree and share tasks and activities to ensure the best use of skills and abilities within the team 2.4. Plan and schedule activities to allow time for thinking, challenging and collaboration 2.5. Establish personal reward and stimulation as an integral part of the team's way of working
3. Support and guide colleagues	3.1. Model ***behaviour that supports innovation*** 3.2. Seek ***external stimuli and ideas*** to feed into team activities 3.3. Pro-actively share information, knowledge and experiences with other team members 3.4. Challenge and test ideas within the team in a positive and collaborative way 3.5. Pro-actively discuss and explore ideas with other team members on an ongoing basis
4. Reflect on how the team is working	4.1. De-brief and reflect on activities and on opportunities for improvement and innovation 4.2. Gather and use feedback from within and outside the team to generate discussion and debate 4.3. Discuss the ***challenges of being innovative*** in a constructive and open way 4.4. Take ideas for improvement, build them into future activities and communicate key issues to relevant colleagues 4.5. Identify, promote and celebrate successes and examples of successful innovation

Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE
This section describes the skills and knowledge required for this unit.
Required skills

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

REQUIRED SKILLS AND KNOWLEDGE
• communication skills to work collaboratively as part of a team, to provide guidance and support to others, and to participate in open and constructive discussions • creative thinking skills to generate, explore, test and challenge ideas • learning skills to stretch boundaries of own knowledge and skills • literacy skills to analyse a wide range of information from varied sources • planning and organisational skills to participate in the effective allocation of work in a team context • problem-solving skills to work constructively to overcome issues and challenges of both a practical and conceptual nature and to make ideas become realities • self-management skills to take a pro-active team role and to reflect on own performance in modelling and encouraging behaviour that supports innovation.
Required knowledge
• barriers to innovation that can occur within a team and broader barriers that sometimes hinder innovation • broad concepts of innovation including what innovation is, different types of innovation and the benefits of innovation • characteristics of teams that are more likely to be innovative and characteristics of broader environments that support and encourage innovation • different roles that people may play within a team, how this impacts on the way a team works and what it might achieve • group dynamics in a team.

Evidence Guide

EVIDENCE GUIDE	
The Evidence Guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, range statement and the Assessment Guidelines for the Training Package.	
Overview of assessment	
Critical aspects for assessment and evidence required to demonstrate competency in this unit	Evidence of the following is essential: • active participation in a team where the team takes a pro-active and considered approach to innovation and innovative practice • collaborative and open communication within the team • knowledge and understanding of the internal and external factors that contribute to a team becoming

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

EVIDENCE GUIDE	
	and remaining innovative.
Context of and specific resources for assessment	Assessment must ensure: • demonstration of skills as part of a team.
Method of assessment	A range of assessment methods should be used to assess practical skills and knowledge. The following examples are appropriate for this unit: • direct questioning combined with review of portfolios of evidence and third party workplace reports of on-the-job performance by the candidate • direct observation of team interactions • evaluation of reports by the candidate or the team (could be oral or written) discussing the ideas, challenges and opportunities associated with teams, and how they can be more innovative • evaluation of feedback from other people in the team about the candidate's communication approaches and abilities • oral or written questioning to assess knowledge of the characteristics of innovative teams, innovation concepts more broadly and they ways in which innovation can be encouraged • review of jointly established 'groundrules' for how the team will operate.
Guidance information for assessment	Innovation does not occur in isolation. Holistic assessment with other units relevant to the industry sector, workplace and job role is highly recommended.

Range Statement

RANGE STATEMENT	
The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording, if used in the performance criteria, is detailed below. Essential operating conditions that may be present with training and assessment (depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts) may also be included.	
What the team needs and wants to achieve may relate to:	• addressing particular customer feedback • conceiving and implementing a particular

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT	
	project • developing new services or products • generating ongoing ideas within the work unit • improving budgetary performance • improving or changing work conditions • new ideas that impact beyond the workplace (e.g. that have a broader social or community impact)
Information about current or potential team members' work may relate to:	• interests • lifestyle preferences • past jobs • technical strengths • work preferences • working styles
Different ways that different people may contribute may relate to individual strengths around:	• creating positive energy within the team • fundamental literacy strengths (e.g. particularly strong in visual literacy, written or spoken communication) • generating ideas • networks or spheres of influence • particular ways of thinking • powers of persuasion • problem-solving capacities • specific technical skills or knowledge
Ground rules may relate to:	• boundaries or lack of boundaries for team activities and ideas • confidentiality • copyright, moral rights or intellectual property • regularity of communication • key roles and responsibilities • time lines • ways of communicating
Team-based innovation may be encouraged through:	• accessing training and learning opportunities • enough but not too much guidance and structure • equitable sharing of workload • follow-through with ideas • supportive communication
Behaviour that supports innovation may include being:	• collaborative • equitable

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

RANGE STATEMENT	
	• fair • fun • hardworking • reflective • responsible • sympathetic
External stimuli and ideas might be from:	• Australia or overseas • colleagues outside of the team • family and friends • internet • journals • networks or technical experts • other organisations
Challenges of being innovative may relate to:	• budgetary or other resource constraints • competing priorities • organisational culture • problems with breaking old patterns of behaviour or thinking • time pressures

BSBINN501A Establish systems that support innovation

Modification History

Not applicable.

Unit Descriptor

Unit descriptor	This unit describes the performance outcomes, skills and knowledge required to conceptualise and establish new systems that support and encourage innovation in the workplace. No licensing, legislative, regulatory or certification requirements apply to this unit at the time of endorsement.

Application of the Unit

Application of the unit	This unit may apply to individuals working in any community or industry context, in small or large organisations. While managers are often responsible for the development of new systems, depending on the organisation size and the nature of the system being developed, senior operational personnel or internal/external specialists may also undertake this role. Systems are varied in nature and might apply to human resources management, team management, organisational structures, product development, information technology, marketing or training and assessment. The critical focus is on systems conceived and developed with innovation as the key driver.

Pre-Requisites

Prerequisite units		

Employability Skills Information

Employability skills	This unit contains employability skills.

Elements and Performance Criteria Pre-Content

Elements describe the essential outcomes of a unit of competency.	Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the required skills and knowledge section and the range statement. Assessment of performance is to be consistent with the evidence guide.

Elements and Performance Criteria

ELEMENT	**PERFORMANCE CRITERIA**
1. Research context for new system development	1.1. Explore and analyse the ***impact*** of ***systems*** in the overall context of innovation 1.2. Explore and gain clarity around ***system objectives***, particularly in relation to innovation 1.3. Analyse current organisational systems to identify ***gaps or barriers*** to innovation 1.4. Research and analyse current and emerging information about systems in ***other organisations and contexts*** 1.5. Evaluate the ***resources and other commitment*** required to foster innovation 1.6. Identify ***key stakeholders*** who can play a role in conceptualising or supporting new system ideas
2. Generate system	2.1. Create system concepts that will foster innovation

© Commonwealth of Australia, 2025 Service and Creative Skills Australia

ELEMENT	PERFORMANCE CRITERIA
concepts and options	using ***individual and group techniques*** 2.2. Evaluate and discuss a range of ideas with relevant stakeholders 2.3. Clearly articulate the ways in which innovation is better supported by system ideas and options 2.4. Clearly articulate how the system itself is innovative 2.5. Expose ideas and options to ***ongoing testing***, ***exploration and challenge*** 2.6. Select and refine system ideas that meet the workplace requirements and which are both feasible and innovative
3. Develop a plan for the system	3.1. Determine the need for ***specialised assistance*** and integrate into system planning 3.2. Analyse the potential impact of the new system on people, resources and other organisational practices 3.3. Consult with all stakeholders who will be involved with, or affected by, the new system 3.4. Develop an operational plan for the system, with budget, time lines and responsibilities 3.5. Develop a communication strategy to support the introduction of the new system 3.6. Evaluate the coaching and training needs of those who will use the system and plan a learning and development strategy
4. Trial the system	4.1. Present and consult on system proposals with relevant stakeholders 4.2. Analyse and integrate feedback into the system development process 4.3. Determine appropriate context and parameters for the trialling process 4.4. Initiate the trial, taking account of all required consultative, coaching and technical issues 4.5. Monitor and review the trial in relation to its goals for fostering innovation 4.6. Open the improvement process to ongoing collaborative input and challenge 4.7. Adjust system to reflect evaluation feedback
