Application

This unit describes the performance outcomes, skills and knowledge required to research and plan projects that represent a diversity of visual arts practice of Aboriginal and/or Torres Strait Islander artists, with an understanding of the international context.

It applies to individuals who may be working autonomously or with others, as project officers or managers in the Aboriginal and Torres Strait Islander visual arts industry. Individuals could be working in urban, regional, rural or remote settings. The work environment could involve interactions with artists and their communities in contexts such as cultural/arts centres and cooperatives, commercial and public galleries, museums, retail outlets, community projects, exhibitions, events and festivals.

This unit reflects the diversity of Aboriginal and Torres Strait Islander cultures and visual arts practices. It emphasises the importance of Aboriginal and Torres Strait Islander peoples controlling their own cultural heritage and identity.
