

# CUVPHI524A Make wedding photo imaging products

Release: 1

#### **CUVPHI524A** Make wedding photo imaging products

## **Modification History**

| Version    | Comments  |
|------------|---|
| CUVPHI524A | This version first released with CUV11 Visual Arts, Craft and Design Training Package version 1.0 |

## **Unit Descriptor**

This unit describes the performance outcomes, skills and knowledge required to provide photo imaging services for wedding clients. The unit deals with the recording of key moments, moods and activities of a wedding day (including individual portraits) as well as presenting photo images in various forms.

### **Application of the Unit**

This unit applies to the provision of wedding photo imaging services. The wedding photographer creates and delivers images with a quality and consistency greater than that achieved by an enthusiast.

Wedding images and creative products have no agreed resale value by the subject and are for personal collection or use. Wedding photographers work with a range of photographic service providers (e.g. processing, printing, mounting, framing and presentation services) and recording professionals (e.g. videographers) and are often responsible for supervising assistants.

This unit aligns to the workflow associated with the professional wedding photo imaging sector and requires the application of skills and knowledge in order to respond to the needs of wedding clients, plan and prepare shoots, process and optimise images, supply images and integrated presentation products, and liaise/consult with a range of associated and allied persons, work teams, government agencies and private enterprises.

## **Licensing/Regulatory Information**

No licensing, legislative, regulatory or certification requirements apply to this unit at the time of endorsement.

## **Pre-Requisites**

Not applicable.

Approved Page 2 of 14

## **Employability Skills Information**

This unit contains employability skills.

## **Elements and Performance Criteria Pre-Content**

| Element   | Performance Criteria   |
|---|--|
| Elements describe the essential outcomes of a unit of competency. | Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the required skills and knowledge section and the range statement. Assessment of performance is to be consistent with the evidence guide. |

### Required Skills and Knowledge

This section describes the skills and knowledge required for this unit.

#### Required skills

- photo imaging skills to:
  - create meaningful images in private or public spaces in a respectful manner
  - optimise or create files or film to wedding photo imaging industry standards
  - use industry-standard digital media, design and presentation technologies
- research skills to:
  - compare contemporary styles and conceptual or aesthetic approaches to wedding photo imaging
  - maintain professional practice arrangements for wedding photo imaging
- critical thinking skills to:
  - recognise and address barriers to effective photo imaging workflow
  - reflect on and analyse own performance
- literacy skills to develop and interpret business documents and contracts
- numeracy skills to:
  - maintain contractual and financial records for business and taxation purposes
  - prepare pricing structures, payment plans, budgets, quotations and invoices for clients
- planning and organising skills to:
  - coordinate activities of models, assistants, and creative and shoot teams
  - interpret and respond to photo imaging briefs
  - organise shoots on location or in studio and prepare shoot management timelines
- learning skills to review personal performance within shoot context
- problem-solving skills to:
  - identify or rectify equipment malfunction or failure
  - adjust for unforeseen or changed circumstances of the wedding shoot
- teamwork skills to work with a shoot and post-shoot team
- communication skills to:
  - · conduct interviews and consultation
  - develop rapport with subjects and recognise and overcome tension and nervousness that may arise from subjects having photographs taken
  - establish and nourish industry links with suppliers, contractors and employees
  - make business presentations
  - negotiate prices and fair exchange of services with clients and project stakeholders
  - resolve complaints and disputes
  - seek feedback from clients on shoot progress and image selection
  - work effectively with diversity and deal empathetically with subjects
- technology skills to check and reinstate equipment, studio and props.

#### Required knowledge

 broad wedding photo imaging environment, including the styles, and where and how the image products are used

Approved Page 6 of 14

- business practice, including partnerships, contracts, intellectual property, copyright, legal, moral, insurance, financial, budget, political, OHS, licences and permits
- relationship between photo imaging practitioner and wedding clients
- procedures for selecting, testing and evaluating technology to determine its suitability for wedding production purposes
- traditions and contemporary issues that inform wedding photo imaging practice
- protocols for working with government institutions/regulations relating to the wedding environment.

Approved Page 7 of 14

#### **Evidence Guide**

The evidence guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, range statement and the Assessment Guidelines for the Training Package.

| Overview of assessment  |   |
|---|---|
| Critical aspects for  | Evidence of the ability to:   |
| assessment and evidence required to demonstrate competency in this unit | <ul> <li>apply a typical workflow in wedding photo imaging professional practice</li> <li>apply business, coordination and negotiation skills to own photo imaging practice</li> <li>apply technical and imaging skills, including capturing and</li> </ul>   |
|   | <ul> <li>optimising wedding images</li> <li>interact and liaise with clients and associated professionals within the context of a wedding shoot, including empathetic communication skills</li> <li>work within a diverse range of cultural and religious practices and rituals in a wedding context.</li> </ul>  |
| Context of and specific resources for assessment                        | <ul> <li>Assessment must ensure:</li> <li>access to:</li> <li>a range of photo imaging production equipment employed in a wedding context, such as album layout software, cameras, computers, printers, darkrooms, lighting and accessories</li> <li>a range of locations and studios for wedding photo imaging shoots</li> <li>sources of information to research contemporary styles</li> </ul>   |
|   | <ul> <li>and conceptual or aesthetic approaches to wedding photo imaging</li> <li>appropriate learning and assessment support when required</li> <li>opportunity for collaboration with or in allied industries, such as designers, fashion stylists, make-up artists, hairdressers, processing labs/printers, bookbinders and presentation specialists</li> <li>the use of culturally appropriate processes, and techniques appropriate to the oracy, language and literacy capacity of the candidate and the work being performed.</li> </ul> |
| Method of assessment  | A range of assessment methods should be used to assess practical skills and knowledge. The following examples are   |

Approved Page 8 of 14

#### appropriate for this unit:

- direct questioning combined with review of portfolios of evidence
- review of third-party reports from experienced practitioners
- direct observation of candidate applying a typical workflow in wedding photo imaging professional practice
- direct observation of candidate participating in wedding photo imaging events and making wedding photo imaging products
- case studies to assess candidate's ability to research contemporary styles and conceptual or aesthetic approaches to wedding photo imaging
- participation in and observation of wedding photo imaging awards
- review of creative products against wedding industry standards and service specifications.

Assessment methods should closely reflect workplace demands (e.g. literacy) and the needs of particular groups (e.g. people with disabilities, and people who may have literacy or numeracy difficulties, such as speakers of languages other than English, remote communities and those with interrupted schooling).

## Guidance information for assessment

Holistic assessment with other units relevant to the industry sector, workplace and job role is recommended, for example:

- CUVPHI516A Research the role and use of the photo image in visual communication
- CUVPHI517A Research and exploit photo imaging trends
- CUVPHI518A Explore the descriptive and emotive nature of photo lighting
- CUVPHI519A Investigate and exploit innovative imaging options
- CUVPHI520A Produce an innovative presentation of professional work
- CUVPHI529A Employ colour management in a digital imaging workplace.

Approved Page 9 of 14

## **Range Statement**

The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording, if used in the performance criteria, is detailed below. Essential operating conditions that may be present with training and assessment (depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts) may also be included.

| Sources of information | contemporary wedding or fashion media, newspapers,          |
|------------------------|---|
| may include:           | television and magazines                                    |
