Qualification Description

This qualification allows for the attainment of competencies for the collection, correlation and dissemination of sensor information, in order to create an accurate and timely tactical picture. It qualifies individuals who apply a broad range of knowledge and skills in varied contexts.

No licensing, legislative or certification requirements apply to this qualification at the time of publication.

Packaging Rules

12 units of competency are required for this qualification:

- 5 core units
- 7 elective units

Choose a minimum of 5 elective units from the list below, of which at least 1 must be taken from Group A.

Choose the remaining 2 elective units from either the list below or from elsewhere within this training package, or from another endorsed training package, or from an accredited course.

All elective units selected from outside this qualification must reflect the occupational and learning outcomes of this AQF qualification level. Seek further advice on selecting imported units of competency in the DEF Implementation Guide.

Elective units selected must not duplicate content already covered by other units in this qualification.
