DEF50617 Diploma of Preventive Health

Release 1

DEF50617 Diploma of Preventive Health

Modification History

Release 1. This is the first release of this qualification in the DEF Defence Training Package.

Qualification Description

This qualification allows for the attainment of competencies in preventive health in a management role.

No licensing, legislative or certification requirements apply to this qualification at the time of publication.

Packaging Rules

14 units of competency are required for this qualification comprising:

- 4 core units listed below, plus
- 10 elective units.

Choose a minimum of 8 elective units from the list below, of which 3 units must be taken from Group A, 3 units must be taken from Group B and 2 units must be taken from Group C.

Choose the remaining 2 elective units from the elective unit lists below or from elsewhere within this training package, or from another endorsed training package, or from an accredited course.

All elective units chosen from outside this qualification must support the learning outcomes of this AQF qualification level.

Where a prerequisite unit is attached to an elective unit it is identified by this symbol ⊥.

The prerequisite units attached to any of the elective units must be undertaken and are additional to the number of elective units required for the qualification.

Elective units selected must not duplicate content already covered by other units in this qualification.

Where imported units are selected, care must be taken to ensure that all prerequisite units specified are complied with.

Core units

DEFPHL011	Perform environmental health planning
DEFPHL012	Manage environmental health operations
DEFPHL013	Manage a deployed capability
DEFPHL014	Investigate and control outbreak of disease
