Assessment Requirements for DEFEXO019 Refurbish explosives packaging

Release: 1

Assessment Requirements for DEFEXO019 Refurbish explosives packaging

Modification History

Release 1. These Assessment Requirements were released in DEF Defence Training Package release 3.0.

Performance Evidence

Evidence required to demonstrate competence in this unit must be relevant to and satisfy all of the requirements of the elements and performance criteria on at least one occasion and includes:

- applying protective coatings
- handling dangerous goods and hazardous substances
- identifying packaging materials and components
- operating equipment and tools
- using manual handling and team lifting techniques
- using PPE
- applying organisational waste management procedures for unserviceable explosives packaging

Knowledge Evidence

Evidence required to demonstrate competence in this unit must be relevant to and satisfy all of the requirements of the elements and performance criteria and includes:

- operational knowledge of:
  - characteristics and limitations of explosive packaging
  - organisational documentation requirements
  - organisational waste management procedures for unserviceable explosives packaging
  - refurbishment procedures
  - relevant colour coding
  -

Assessment Conditions

Assessors must hold credentials specified within the Standards for Registered Training Organisations current at the time of assessment.

Assessment must satisfy the Principles of Assessment and Rules of Evidence and all regulatory requirements included within the Standards for Registered Training Organisations current at the time of assessment.

Assessment must occur in workplace operational situations. Where this is not appropriate, assessment must occur in simulated workplace operational situations that reflect workplace conditions.

Assessment processes and techniques must be appropriate to the language, literacy and numeracy requirements of the work being performed and the needs of the candidate.

Resources for assessment must include access to:

- a range of relevant exercises, case studies and/or simulations
- acceptable means of simulation assessment
- applicable documentation, including workplace procedures, regulations, codes of practice and operation manuals
- relevant materials, tools, equipment and PPE currently used in industry.
