Assessment Requirements for DEFEXO064 Load and unload platforms

Release: 2

Assessment Requirements for DEFEXO064 Load and unload platforms

Modification History

Release 2. Modifications made to Foundation Skills and Assessment Conditions.

Release 1. This unit was released in DEF Defence Training Package release 1.0 and meets the Standards for Training Packages.

This unit supersedes and is equivalent to DEFEO401D Load and unload platforms.

- Unit code updated
- Content and formatting updated to comply with the new standards
- All PC transitioned from passive to active voice
- PC 3.1 removed
- PC 1.1 reworded
- Elements 2 and 3 merged

Performance Evidence

Evidence required to demonstrate competence in this unit must be relevant to and satisfy all of the requirements of the elements and performance criteria on at least one occasion and includes:

- ensuring the appropriate preparatory, execution, securing and documentation actions are taken
- identifying serviceability of safety systems
- inspecting explosive ordnance to confirm serviceability and configuration
- loading/unloading items of explosive ordnance to/from a platform
- preparing and inspecting items of explosive ordnance for loading/unloading
- securing and documenting the loading/unloading of items of explosive ordnance to/from a platform
- using and applying safety mechanisms including locking mechanisms and dead man brakes
- using special to purpose loading/unloading and handling equipment associated with the explosive ordnance

Knowledge Evidence

Evidence required to demonstrate competence in this unit must be relevant to and satisfy all of the requirements of the elements and performance criteria and includes:

- operational knowledge of:
 - procedures for loading/unloading a specific item of explosive ordnance to/from a platform
 - relevant characteristics and requirements of the explosive ordnance to be loaded/unloaded
 - use and application of any special to purpose loading/unloading equipment to be used

- use and capacity of lifting/transfer equipment
- WHS requirements for the operation including emergency procedures to be implemented

Assessment Conditions

Assessors must hold credentials specified within the Standards for Registered Training Organisations current at the time of assessment.

Assessment must satisfy the Principles of Assessment and Rules of Evidence and all regulatory requirements included within the Standards for Registered Training Organisations current at the time of assessment.

Assessment must occur in workplace operational situations. Where this is not appropriate, assessment must occur in simulated workplace operational situations that reflect workplace conditions.

Assessment processes and techniques must be appropriate to the language, literacy and numeracy requirements of the work being performed and the needs of the candidate.

Resources for assessment must include access to:

- a range of relevant exercises, case studies and/or simulations
- acceptable means of simulation assessment
- applicable documentation, including workplace procedures, regulations, codes of practice and operation manuals
- relevant materials, tools, equipment and PPE currently used in industry.
