Assessment Requirements for DEFEXO129

Develop unique explosives

Release: 2

Assessment Requirements for DEFEXO129 Develop unique explosives

Modification History

Release 2. Modifications made to Foundation Skills and Assessment Conditions.

Release 1. This unit was released in DEF Defence Training Package release 1.0 and meets the Standards for Training Packages.

This unit supersedes and is equivalent to DEFEO606D Develop unique explosives.

- Unit code updated
- Content and formatting updated to comply with the new standards
- All PC transitioned from passive to active voice
- PC 1.4 removed
- PC 1.6 and 1.7 merged

Performance Evidence

Evidence required to demonstrate competence in this unit must be relevant to and satisfy all of the requirements of the elements and performance criteria on at least one occasion and includes:

- accessing, interpreting and applying technical information related to explosives
- applying computer modelling
- applying diagnostic techniques
- commissioning unique explosives
- maintaining documentation and records
- planning development processes
- conducting research and analysis
- testing unique explosives and analysing results
- identifying design requirements and constraints

Knowledge Evidence

Evidence required to demonstrate competence in this unit must be relevant to and satisfy all of the requirements of the elements and performance criteria and includes:

- Operational knowledge of:
 - analysis processes and techniques
 - characteristics and properties of chemicals used in explosives
 - characteristics, technical capabilities and limitations of explosives
 - computer modelling relevant to explosives
 - reporting and documentation requirements

- testing protocols and techniques
- validation processes

Assessment Conditions

Assessors must hold credentials specified within the Standards for Registered Training Organisations current at the time of assessment.

Assessment must satisfy the Principles of Assessment and Rules of Evidence and all regulatory requirements included within the Standards for Registered Training Organisations current at the time of assessment.

Assessment must occur in workplace operational situations. Where this is not appropriate, assessment must occur in simulated workplace operational situations that reflect workplace conditions.

Assessment processes and techniques must be appropriate to the language, literacy and numeracy requirements of the work being performed and the needs of the candidate.

Resources for assessment must include access to:

- a range of relevant exercises, case studies and/or simulations
- acceptable means of simulation assessment
- applicable documentation, including workplace procedures, regulations, codes of practice and operation manuals
- relevant materials, tools, equipment and PPE currently used in industry.
