Assessment Requirements for DEFEXO142 Undertake firings of small arms

Release: 2

Assessment Requirements for DEFEXO142 Undertake firings of small arms

Modification History

Release 2. Modifications made to Foundation Skills and Assessment Conditions.

Release 1. This unit was released in DEF Defence Training Package release 1.0 and meets the Standards for Training Packages.

This unit supersedes and is equivalent to DEFEO801A Undertake proof firings of small arms.

- Unit code updated
- Content and formatting updated to comply with the new standards
- All PC transitioned from passive to active voice
- PC 1.1 removed

Performance Evidence

Evidence required to demonstrate competence in this unit must be relevant to and satisfy all of the requirements of the elements and performance criteria on at least two occasions and includes:

- completing at least one assessment with person fired and one assessment with static fired
- handling and operating small arms weapons systems
- identifying ammunition defects (including corrosion, cracks, damaged packing, damaged weapon parts, dented cartridge cases, fluting on cartridge case, incorrect propellants, proud or recessed primer, rust, weeping)
- operating the range of small arms used in the test/trial to conduct all firearm drills

Knowledge Evidence

Evidence required to demonstrate competence in this unit must be relevant to and satisfy all of the requirements of the elements and performance criteria and includes:

- operational knowledge of:
    - firing operation and effect of small arms weapon systems
    - organisational guidelines and standards
    - range safety
    - small arms ballistics

Assessment Conditions

Candidates must complete assessment using live explosives.

This unit must be assessed in an authorised and licensed potential explosion site.

Assessors must hold credentials specified within the Standards for Registered Training Organisations current at the time of assessment.

Assessment must satisfy the Principles of Assessment and Rules of Evidence and all regulatory requirements included within the Standards for Registered Training Organisations current at the time of assessment.

Assessment must occur in workplace operational situations.

Assessment processes and techniques must be appropriate to the language, literacy and numeracy requirements of the work being performed and the needs of the candidate.

Resources for assessment must include access to:

- a range of relevant exercises and case studies
- applicable documentation, including workplace procedures, regulations, codes of practice and operation manuals
- relevant materials, tools, equipment and PPE currently used in industry.
