# **Assessment Requirements for DEFFOR019 Give evidence of digital media crime**

**Release: 1**

# Assessment Requirements for DEFFOR019 Give evidence of digital media crime

## Modification History

Release 1. This is the first release of this unit of competency in the DEF Defence Training Package.

## Performance Evidence

Evidence required to demonstrate competence in this unit must be relevant to and satisfy all of the requirements of the elements and performance criteria on at least one occasion and include:

- applying the constraints of individual qualifications
- applying the rules of evidence
- describing complex technical procedures in simple non-technical language
- maximising the potential evidentiary value of the digital evidence
- presenting expert evidence
- writing complex reports.

## Knowledge Evidence

Evidence required to demonstrate competence in this unit must be relevant to and satisfy all of the requirements of the elements and performance criteria and include knowledge of:

- constraints and limitations of individual qualifications
- court procedures relevant to the specific legal process
- legislative requirements of presenting evidence
- legislative, policy and procedural context in which digital forensic evidence is given
- procedures and protocols in different judicial systems
- prosecution process
- role of expert witnesses
- role of legal personnel
- rules of evidence
- types of evidence admissible in judicial systems
- use of forensic documentation and notes in giving evidence.

## Assessment Conditions

Assessors must hold credentials specified within the Standards for Registered Training Organisations current at the time of assessment.

Assessment must satisfy the Principles of Assessment and Rules of Evidence and all regulatory

requirements included within the Standards for Registered Training Organisations current at the time of assessment.

Assessment must occur in workplace operational situations. Where this is not appropriate, assessment must occur in simulated workplace operational situations that reflect workplace conditions.

Assessment processes and techniques must be appropriate to the language, literacy and numeracy requirements of the work being performed and the needs of the candidate.

Resources for assessment must include access to:

- a range of relevant exercises, case studies and/or simulations
- applicable documentation, including workplace procedures, regulations, codes of practice and operation manuals
- relevant materials, tools, equipment and personal protective equipment (PPE) currently used in industry.
