DEFFOR020 Inspect, maintain and test digital forensic equipment

Release: 1

DEFFOR020 Inspect, maintain and test digital forensic equipment

Modification History

Release 1. This is the first release of this unit of competency in the DEF Defence Training Package.

Application

This unit describes the skills and knowledge required to inspect, test and maintain digital forensic equipment.

This unit applies to those working in the gathering and analysis of digital information.

The skills and knowledge described in this unit must be applied within the legislative, regulatory and policy environment in which they are carried out. Organisational policies and procedures must be consulted and adhered to.

Those undertaking this unit would work independently or as part of a team, under indirect supervision, while performing complex tasks in a broad range of contexts. They must be able to use discretion and judgement and take responsibility for the quality of their outputs.

No licensing, legislative or certification requirements apply to unit at the time of publication.

Pre-requisite Unit

Not applicable.

Competency Field

Digital Forensics.

Unit Sector

Not applicable.

Elements and Performance Criteria

ELEMENTS

Elements describe the essential outcomes.

1 Inspect digital forensic

PERFORMANCE CRITERIA

Performance criteria describe the performance needed to demonstrate achievement of the element.

1.1 Conduct visual, auditory or tactile inspection to identify possible operational failure of digital equipment or

equipment		physical failure of equipment
	1.2	Identify and report missing parts
	1.3	Record and report damaged equipment
2 Test digital forensic equipment	2.1	Test equipment to ensure it is fit for purpose
	2.2	Record test results
	2.3	Report and record defective equipment
3 Clean, maintain and store digital forensic equipment	3.1	Clean, maintain and assemble equipment
	3.2	Update equipment record
	3.3	Recover and store equipment for future use

Foundation Skills

Foundation skills essential to performance are explicit in the performance criteria of this unit of competency.

Range of Conditions

Range is restricted to essential operating conditions and any other variables essential to the work environment.

Non-essential conditions may be found in the DEF Defence Training Package Companion Volume Implementation Guide.

Unit Mapping Information

This unit supersedes and is equivalent to DEFFOR001 Inspect, maintain and test electronic forensic equipment.
