 - material and personal safety requirements
- risk assessments
- troop and personnel movement requirements
- workplace communication strategies.

Assessment Conditions

As a minimum, assessors must satisfy applicable regulatory requirements, which include requirements in the Standards for Registered Training Organisations current at the time of assessment.

As a minimum, assessment must satisfy applicable regulatory requirements, which include requirements in the Standards for Registered Training Organisations current at the time of assessment.

Assessment processes and techniques must be appropriate to the language, literacy and numeracy requirements of the work being performed and the needs of the candidate.

Assessment must occur in workplace operational situations, where it is appropriate to do so; where this is not appropriate, assessment must occur in simulated workplace operational situations that replicate workplace conditions. This includes assessment in a minimum of two environments, which must include the following:

- protective security
- combat intelligence
- specialist intelligence disciplines.

Resources for assessment must include access to:

- intelligence workers
- relevant communication and information technology equipment and data
- a range of relevant exercises, case studies and/or other simulations
- relevant and appropriate materials, tools, equipment and personal protective equipment currently used in industry
- applicable documentation including operational procedures, regulations, codes of practice

and operation manuals.
