Application

This unit describes the skills required to collect meteorological, hydrographic, geospatial and geological information for an area.

This unit was developed for combat engineer personnel required to collect environmental information for an area in a deployed operational environment, but is applicable to any individual in this field of work.

The skills and knowledge described in this unit must be applied within the legislative, regulatory and policy environment in which they are carried out. Organisational policies and procedures must be consulted and adhered to.

Those undertaking this unit would typically work as part of a team under direct supervision. They use discretion and judgement, and take responsibility for the quality of their outputs while performing routine tasks in a broad range of unpredictable contexts.

No licensing, legislative or certification requirements apply to unit at the time of publication.
