Application

This unit describes the skills required to operate a sustained fire machine gun. It involves the ability to safely handle, safely maintain, safely operate and safely fire the sustained fire machine gun. A sustained fire machine gun is normally fired from a tripod utilising a sighting system enabling direct and indirect fire.

This unit applies to those working as combat arms personnel required to operate a sustained fire machine gun.

The skills and knowledge described in this unit must be applied within the legislative, regulatory and policy environment in which they are carried out. Organisational policies and procedures must be consulted and adhered to.

Those undertaking this unit would work under supervision, usually as part of a team and will operate under direct orders. They would use discretion and judgement, and take responsibility for the quality of their outputs while performing specific tasks in a range of contexts.

No licensing, legislative, regulatory or certification requirements apply to this unit at the time of publication.
