Assessment Requirements for DEFRNG009 Supervise contractors

Release: 2

Assessment Requirements for DEFRNG009 Supervise contractors

Modification History

Release 2. Modifications have been made to Performance Criteria and Assessment Conditions.

Release 1. This unit was released in DEF Defence Training Package release 1.0 and meets the Standards for Training Packages.

This unit supersedes and is equivalent to DEFRM209B Supervise contractors.

- Unit code updated
- Content and formatting updated to comply with new standards
- All PC transitioned from passive to active voice

Performance Evidence

Evidence required to demonstrate competence in this unit must be relevant to and satisfy all of the requirements of the elements and performance criteria on at least one occasion and includes:

- maintaining documentation
- interpreting and applying contractual requirements, legislation, policies and procedures
- writing reports
- identifying and rectifying contractual non-compliance

Knowledge Evidence

Evidence required to demonstrate competence in this unit must be relevant to and satisfy all of the requirements of the elements and performance criteria and include knowledge of:

- details of the relevant Defence contract
- relevant contractual documentation requirements
- relevant legislation, policies and procedures
- supervisory processes

Assessment Conditions

Assessors must hold credentials specified within the Standards for Registered Training Organisations current at the time of assessment.

Assessment must satisfy the Principles of Assessment and Rules of Evidence and all regulatory requirements included within the Standards for Registered Training Organisations current at the time of assessment.

Assessment must occur in workplace operational situations. Where this is not appropriate, assessment must occur in simulated workplace operational situations that reflect workplace

conditions.

Assessment processes and techniques must be appropriate to the language, literacy and numeracy requirements of the work being performed and the needs of the candidate.

Resources for assessment must include access to:

- a range of relevant exercises, case studies and/or simulations
- acceptable means of simulation assessment
- applicable documentation, including workplace procedures, regulations, codes of practice and operation manuals
- relevant materials, tools, equipment and PPE currently used in industry.
