Assessment Requirements for DEFRNG018 Monitor and control training area and range visits

Release: 1

Assessment Requirements for DEFRNG018 Monitor and control training area and range visits

Modification History

Release 1. These Assessment Requirements were released in DEF Defence Training Package release 3.0

Performance Evidence

Evidence required to demonstrate competence in this unit must be relevant to and satisfy all of the requirements of the elements and performance criteria on at least one occasion and includes:

- accessing, interpreting and applying range and other instructions and policy
- accessing, interpreting and applying Range Standing Orders
- actioning non-compliance reports
- following instructions/directives and reporting information
- accessing technical specifications, maps and diagrams
- evaluating compliance of training area/range visits
- coordinating controlling training area/range visits

Knowledge Evidence

Evidence required to demonstrate competence in this unit must be relevant to and satisfy all of the requirements of the elements and performance criteria and include knowledge of:

- environmental instructions and policy
- post-activity reports
- training area and range exercise instructions
- range clearance certificates
- range instructions
- range practice manuals
- Range Standing Orders
- standing operating instructions

Assessment Conditions

Assessors must hold credentials specified within the Standards for Registered Training Organisations current at the time of assessment.

Assessment must satisfy the Principles of Assessment and Rules of Evidence and all regulatory requirements included within the Standards for Registered Training Organisations current at the time of assessment.

Assessment must occur in workplace operational situations. Where this is not appropriate, assessment must occur in simulated workplace operational situations that reflect workplace conditions.

Assessment processes and techniques must be appropriate to the language, literacy and numeracy requirements of the work being performed and the needs of the candidate.

Resources for assessment must include access to:

- a range of relevant exercises, case studies and/or simulations
- acceptable means of simulation assessment
- applicable documentation, including workplace procedures, regulations, codes of practice and operation manuals
- relevant materials, tools, equipment and PPE currently used in industry.
