Release: 1

DEFRNG038 Provide technical advice on ranges and training areas

Modification History

Release 1. This is the first release of this unit of competency in the DEF Defence Training Package.

Application

This unit describes the skills and knowledge required to provide technical advice on ranges and training areas.

It includes the skills required to analyse issues, formulate options and provide advice.

This unit applies to Defence personnel who work in range management and range control but may be relevant to others who work in this field. Those undertaking this unit would work independently or as part of a team, under indirect supervision while performing complex tasks, in a small range of familiar contexts. They would use discretion and judgement and take responsibility for the quality of their outputs.

No licensing, legislative or certification requirements apply to this unit at the time of publication.
