Application

This unit describes the skills required to operate a visual target designation system. It includes preparing the equipment for operation, acquiring air and surface targets, interpreting position data and communicating information for use in targeting.

This unit typically applies to a Naval Defence environment and was developed for boatswain's mates but is applicable to any individual in this field of work.

The skills and knowledge described in this unit must be applied within the legislative, regulatory and policy environment in which they are carried out. Organisational policies and procedures must be consulted and adhered to.

Those undertaking this unit would generally perform routine tasks as part of a team and under indirect supervision. They would need to be prepared for a wide of range of contexts that could be unfamiliar and highly unpredictable.

No licensing, legislative or certification requirements apply to unit at the time of publication.
