DEFSS00008 Communication Operations Skill Set

Release 1

DEFSS00008 Communication Operations Skill Set

Modification History

Release	Comments
1	This skill set was released in DEF Defence Training Package release 1.0 and meets the Standards for Training Packages. • New skill set composed of units previously contained in DEF20912 Certificate II in Communications Operations

Description

This skill set provides a set of skills for Defence Communication Operators to ensure commanders can communicate effectively using satellite terminals, radios, hand held and desk-top data terminals and security equipment. Whatever the location, deployment or task, Communication Operators provide the appropriate communications systems for the Military whether it is on land, in the air or at sea.

Pathways Information

These units may provide credit towards a range of qualifications in the Defence Training Package.

Licensing/Regulatory Information

No licensing, legislative or certification requirements apply to this skill set at the time of publication.
