Assessment Requirements for DEFWHS009 Develop laser safety plans

Release: 1

Assessment Requirements for DEFWHS009 Develop laser safety plans

Modification History

Release	Comments
1	<p>These Assessment Requirements were released in DEF Defence Training Package release 1.0 and meet the Standards for Training Packages.</p> <ul style="list-style-type: none">• Assessment Requirements created drawing upon specified assessment information from superseded unit

Performance Evidence

Evidence required to demonstrate competence must satisfy all of the requirements of the elements and performance criteria. If not otherwise specified the candidate must demonstrate evidence of performance of the following on at least one occasion.

- applying complex mathematical processes
- identifying relevant laser hazards
- developing procedures and plans to mitigate the hazards in the working environment
- identifying inspection tools and methods appropriate to the workplace
- identifying intervention points for advice to assist in work and to guide problem solving

Knowledge Evidence

Evidence required to demonstrate competence must satisfy all of the requirements of the elements and performance criteria. If not otherwise specified the depth of knowledge demonstrated must be appropriate to the job context of the candidate.

- principles and practices of work health and safety inspections
- characteristics of lasers including the types of lasers and the fundamentals of laser operation
- laser environment
- organisational policy and procedures relevant to laser operations
- relevant Australian and international standards
- report writing techniques

Assessment Conditions

Competency should be assessed in an actual workplace or in a simulated environment, with access to equipment and infrastructure appropriate to the outcome. Competency should be demonstrated over time to ensure the candidate is assessed across a variety of situations.

Assessors must satisfy the NVR/AQTF mandatory competency requirements for assessors.
