Assessment Requirements for DEFWHS012 Test confined space environment

Release: 1

Assessment Requirements for DEFWHS012 Test confined space environment

Modification History

Release	Comments
1	<p>These Assessment Requirements were released in DEF Defence Training Package release 1.0 and meet the Standards for Training Packages.</p> <ul style="list-style-type: none">• Assessment Requirements created drawing upon specified assessment information from superseded unit

Performance Evidence

Evidence required to demonstrate competence must satisfy all of the requirements of the elements and performance criteria. If not otherwise specified the candidate must demonstrate evidence of performance of the following on at least one occasion.

- accessing, reading, interpreting and applying information on testing
- identifying and reporting on contaminants/hazards
- operating test equipment
- reporting abnormalities
- maintaining records/documentation
- identifying intervention points for expert advice to assist in work and to guide problem solving

Knowledge Evidence

Evidence required to demonstrate competence must satisfy all of the requirements of the elements and performance criteria. If not otherwise specified the depth of knowledge demonstrated must be appropriate to the job context of the candidate.

- analysis procedures
- engineering controls
- operating procedures of relevant test equipment
- principles of atmospheric monitoring
- sampling procedures
- testing protocols

Assessment Conditions

Competency should be assessed in an actual workplace or in a simulated environment, with access to equipment and infrastructure appropriate to the outcome. Competency should be demonstrated over time to ensure the candidate is assessed across a variety of situations.

Assessors must satisfy the NVR/AQTF mandatory competency requirements for assessors.
