Qualification Description

This qualification describes the skills and knowledge for production and packaging roles carried out under broad supervision within pharmaceutical manufacturing environments. Individuals with this qualification perform tasks involving a broad range of skills that are applied in a wide variety of contexts, which will involve discretion and judgement in selecting and operating equipment, coordinating resources and applying contingency measures during work.

Work must comply with good manufacturing practice, health and safety and environmental regulations and legislation that apply to the workplace.

No occupational licensing, legislative or certification requirements apply to this qualification at the time of publication.

Entry Requirements

There are no entry requirements for this qualification.

Packaging Rules

To achieve this qualification, competency must be demonstrated in:

- 16 units of competency:
 - 5 core units, plus
 - 11 elective units.

Elective units must ensure the integrity of the qualifications' Australian Qualification Framework (AQF) alignment and contribute to a valid, industry-supported vocational outcome. The electives are to be chosen as follows:

- 5 must be from group A
- 4 must be from group B
- 2 from the remaining units listed in groups A or B, or any currently endorsed Training Package or accredited course.
