Assessment Requirements for FBPCEL2006

Operate the crushing process

Release: 1

Assessment Requirements for FBPCEL2006 Operate the crushing process

Modification History

Release	Comments
Release 1	This version released with FBP Food, Beverage and Pharmaceutical Training Package Version 2.0.

Performance Evidence

An individual demonstrating competency must satisfy all of the elements and performance criteria in this unit.

There must be evidence that the individual has operated at least one crushing process, including:

- accessing workplace information to identify crushing requirements
- selecting and fitting personal protective equipment (PPE)
- confirming supply of services, materials and product required for crushing
- preparing and confirming status of product and materials prior to crushing process commencement
- setting up and starting up the crushing process
- monitoring the crushing process
- taking corrective action in response to non-conformance results
- shutting down the process after crushing operations are completed
- conducting work according to environmental and health and safety requirements in the workplace.

Knowledge Evidence

An individual must be able to demonstrate the knowledge required to perform the tasks outlined in the elements and performance criteria of this unit. This includes knowledge of:

- purpose and principles of crushing and links between crushing process and related processes in wine operations
- stages and changes which occur during crushing and the effect of crushing stages on the end product
- method of monitoring the crushing process and common causes of non-conformance and corrective action required
- health and safety hazards in the workplace and controls
- workplace procedures and responsibility for:

- reporting problems
- environmental issues and controls
- waste handling requirements
- recording requirements.

Assessment Conditions

Assessment of skills must take place under the following conditions:

- physical conditions:
 - a wine operations workplace or an environment that accurately represents workplace conditions
- resources, equipment and materials:
 - PPE for crushing operations
 - equipment and materials for crushing process
 - products for crushing
 - system for recording and reporting information
- specifications:
 - workplace procedures for crushing operations.

Assessors of this unit must satisfy the requirements for assessors in applicable vocational education and training legislation, frameworks and/or standards.
