FBPFST5012 Implement and review the processing of aerated confectioneries

Release: 1

FBPFST5012 Implement and review the processing of aerated confectioneries

Modification History

Release	Comments
Release 1	This version released with the FBP Food, Beverage and Pharmaceutical Training Package Version 2.0.

Application

This unit of competency describes the skills and knowledge required to implement and review the preparation and manufacture of aerated confectioneries.

The unit applies to individuals who use knowledge of food science and processes to determine the required food safety, quality and performance of food production equipment.

No occupational licensing or certification requirements apply to this unit at the time of publication. However, legislative and regulatory requirements for food processing exist, so local requirements must be checked. All work must comply with Australian food safety standards and relevant codes of practice.

Pre-requisite Unit

Nil

Unit Sector

Food science and technology (FST)

Elements and Performance Criteria

Elements	Performance Criteria
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
1. Prepare for the manufacture of aerated confectioneries	1.1 Identify the statutory compositional requirements for aerated confectioneries 1.2 Select the required formulation for the aerated confectionery product 1.3 Select the appropriate production system and a sequence of

Elements	Performance Criteria
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
	activity to prepare the system for operation 1.4 Prepare equipment and access safe operating procedures for its operation
2. Monitor the manufacture of aerated confectioneries to ensure quality standards are met	2.1 Implement the production schedule to ensure all resources and requirements are available and meet company requirements 2.2 Set the production system to operating specifications before and during production 2.3 Interpret and document data requirements and collection points for food safety, quality and production standards 2.4 Implement and monitor procedures to deal with non-conformance in relation to process and the final product 2.5 Implement and monitor concentration and drying procedures 2.6 Implement and monitor process control systems
3. Diagnose, rectify and report problems arising from the preparation and manufacture of aerated confectioneries	3.1 Identify product defects and the cause 3.2 Conduct a sensory analysis and analyse results 3.3 Implement adjustments to inputs, process and equipment to maintain quality of product 3.4 Report problems to designated person
4. Review production processes	4.1 Review the critical control points and critical limits for product safety 4.2 Review the operating procedures and the process control system for food safety and quality 4.3 Review the safe work systems for processing 4.4 Review environmental impacts and energy efficiencies for processing

Foundation Skills

This section describes those language, literacy, numeracy and employment skills that are essential for performance in this unit of competency but are not explicit in the performance criteria.

Skill	Description
--------------	--------------------

Skill	Description
Reading	<ul style="list-style-type: none"> Interpret food safety guidelines and regulations Interpret product specifications, quality and workplace procedures
Numeracy	<ul style="list-style-type: none"> Maintain and analyse data resulting from testing of products Determine calibration procedures and schedule for test equipment
Navigate the world of work	<ul style="list-style-type: none"> Monitor adherence to legal and regulatory standards and responsibilities for self and others
Interact with others	<ul style="list-style-type: none"> Clarify the purpose and possible actions to be taken as a result of work-related communications
