Assessment Requirements for FBPFSY2002

Apply food safety procedures

Release: 1

Assessment Requirements for FBPF SY2002 Apply food safety procedures

Modification History

Release	Comments
Release 1	This version released with FBP Food, Beverage and Pharmaceutical Training Package Version 6.0.

Performance Evidence

An individual demonstrating competency must satisfy all of the elements and performance criteria in this unit.

There must be evidence that the individual has effectively implemented the food safety program and procedures on two separate occasions in a food processing and/or food packaging environment, including:

- identifying own responsibilities with regard to food safety, including food allergen management
- identifying food safety risks in the workplace, and the control measures used to manage them
- applying control measures in own work
- monitoring compliance with food safety standards
- identifying and acting on non-compliances.

Knowledge Evidence

An individual must be able to demonstrate the knowledge required to perform the tasks outlined in the elements and performance criteria of this unit. This includes knowledge of:

- sources of information and expertise on procedures and responsibilities for food safety relating to own work
- basic concepts of critical control point (CCP)-based food safety, including identification of hazards that are likely to occur, establishing appropriate methods of control and confirming that controls are met
- food safety management arrangements in the workplace, including:
 - workplace policies and procedures to implement responsibilities
 - the relationship between the quality system and the food safety program
 - the role of internal and external auditors
 - procedures followed to investigate contamination and cross-contact allergenic events
- Food Standards Code and why it exists, relevant to work role

- good manufacturing practices (GMP) relevant to work role
- state/territory food legislation, relevant to workplace
- common microbiological, physical, chemical and allergen hazards related to the foods handled in the work area
- handling and storage requirements of ingredients, materials and products handled and used
- methods used to monitor that food safety is under control, including the purpose of sampling
- action required in the event of non-compliance (corrective action is typically described in the food safety program and/or related workplace information)
- purpose of keeping records, and the recording requirements of the food safety program
- methods used in the workplace to isolate or quarantine food that may be unsafe or non-conforming
- product and ingredient recall procedures where required by work responsibilities
- personal protective clothing and footwear, clothing maintenance, laundering and storage requirements
- housekeeping requirements and responsibilities relating to own work, and use and storage of housekeeping/cleaning equipment where relevant
- procedures to follow in the event of pest sighting or discovery of infestation
- purpose and importance of cleaning and sanitisation procedures.

Assessment Conditions

Assessment of the skills in this unit of competency must take place under the following conditions:

- physical conditions:
 - a food or beverage processing workplace or an environment that accurately represents actual workplace conditions
- resources, equipment and materials:
 - food safety information relating to the workplace, including a food safety program outlining food safety hazards and control methods
 - personal protective equipment and clothing
- specifications:
 - work instructions and procedures relevant to work task
 - cleaning and sanitisation policies and procedures.

Assessors of this unit must satisfy the requirements for assessors in applicable vocational education and training legislation, frameworks and/or standards.
