FBPTEC4021 Apply regulatory requirements to the production of alcoholic beverages

Release: 1

FBPTEC4021 Apply regulatory requirements to the production of alcoholic beverages

Modification History

Release	Comments
Release 1	This version released with FBP Food, Beverage and Pharmaceutical Training Package version 3.0.

Application

This unit of competency describes the skills and knowledge required to ensure that the production of alcoholic beverages complies with legislation and regulations, particularly with obligations related to excise.

The unit applies to individuals who may not be directly responsible for designing procedures for compliance with legislation, but who should be aware of the existence of legislation, its intent and the arrangements in place to ensure compliance.

No licensing or certification requirements apply to this unit at the time of publication.

However, legislative and regulatory requirements for food processing exist, so local requirements must be checked. All work must comply with Australian food safety standards and relevant codes of practice.

Pre-requisite Unit

Nil

Unit Sector

Technical (TEC)

Elements and Performance Criteria

Elements	Performance Criteria
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
1. Identify legal requirements of alcoholic beverage production	1.1 Identify legislation and regulations relevant to the production of alcohol type produced at facility 1.2 Investigate purpose and intent of regulatory requirements 1.3 Identify roles and responsibilities of authorities responsible for

Elements	Performance Criteria
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
	administering requirements 1.4 Identify requirements of alcoholic beverage producers, including licencing requirements where required 1.5 Review workplace procedures to ensure compliance with legal requirements 1.6 Determine appropriate method to establish dutiable quantities
2. Complete records to comply with legal requirements	2.1 Record details of raw materials used to manufacture excisable products 2.2 Record fermentation details for each batch 2.3 Record distillation or brew house details for each batch 2.4 Record dilution details for each batch 2.5 Record bulk storage details that traces excisable product as it moves in and out of bulk vessels, including any spillage and processing losses 2.6 Record packaging details for product run 2.7 Record packaged stock records that trace product as it moves in and out of underbond package storage area 2.8 Maintain calibration schedules for measuring equipment

Foundation Skills

This section describes those language, literacy, numeracy and employment skills that are essential for performance in this unit of competency but are not explicit in the performance criteria.

Skill	Description
Reading	<ul style="list-style-type: none"> Analyse compliance and legal documentation from a variety of sources to determine compliance requirements
Numeracy	<ul style="list-style-type: none"> Calculation to determine dutiable quantity of alcohol (litres x strength = Lals) Calculations to determine excise duty payable (volume x strength = dutiable litres of alcohol, dutiable litres of alcohol x excise duty rate = duty payable) Measure accurately using L, mL

Skill	Description
	<ul style="list-style-type: none"> Determine container fill tolerances
