Performance Evidence

An individual demonstrating competency must satisfy all of the elements and performance criteria in this unit.

There must be evidence that the individual has safely and effectively grafted vines in the field on at least two separate occasions including:

- selecting and preparing vine material for grafting, including disbudding
- using and fitting personal protective equipment (PPE)
- carrying out grafting of vines in the field according to workplace procedures
- conducting post-grafting treatment and packing of vines
- monitoring grafted vines, identifying and reporting non-compliances
- disposing of waste according to environmental workplace procedures
- recording and reporting results of grafting according to workplace procedures.

Knowledge Evidence

An individual must be able to demonstrate the knowledge required to perform the tasks outlined in the elements and performance criteria of this unit. This includes knowledge of:

- purpose and application of PPE
- health and safety hazards and controls in the workplace
- how to set up and operating equipment
- environmental issues and controls
- procedures and responsibility for reporting non-conformances
- soil characteristics as they apply to vine establishment:
  - structure
  - compaction
  - condition
  - present moisture
  - present nutrients and toxic factors
- parts of the vine
- planting requirements and procedures:
Assessment Requirements for FBPVIT3006 Field graft vines

- spacing
- row width
- depth
- soil preparation
- rootling preparation
- soil compaction
- planting procedure
- rootling health
- correct disposal of waste material
- cleaning and storage of equipment
- appearance and features of healthy vine planting material
- cleaning and storage requirements for equipment
- recording workplace information.

Assessment Conditions

Assessment of skills must take place under the following conditions:

- physical conditions:
  - a grape growing workplace or an environment that accurately represents workplace conditions
- resources, equipment and materials:
  - PPE
  - field grafting equipment and services
  - grape vines
  - cleaning procedures, materials and equipment
  - system for recording information
- specifications:
  - workplace procedures, including advice on company practices, safe work practices, and environmental requirements
  - work instructions and schedules.

Assessors of this unit must satisfy the requirements for assessors in applicable vocational education and training legislation, frameworks and/or standards.
