Assessment Requirements for FBPWHS2001 Participate in work health and safety processes

Modification History

| Release | Comments |
|-----------|--|
| Release 2 | This version released with FBP Food, Beverage and Pharmaceutical Training Package Version 6.0. |
| Release 1 | This version released with FBP Food, Beverage and Pharmaceutical Training Package Version 2.0. |

Performance Evidence

An individual demonstrating competency must satisfy all of the elements and performance criteria in this unit.

There must be evidence that the individual has carried out work in accordance with health and safety requirements and procedures, and contributed to maintaining a safe workplace on at least two separate occasions, including:

- following clear, logical verbal or written instructions
- interpreting selected pictorial/graphical and written signs/instructions
- clarifying meaning of instructions with peers and supervisors
- giving accurate verbal or written descriptions of incidents or hazards
- actively participating in inspections, meetings and risk assessments.

Knowledge Evidence

An individual must be able to demonstrate the knowledge required to perform the tasks outlined in the elements and performance criteria of this unit. This includes knowledge of:

- legislation, regulations, standards, codes of practice and industry standards/guidance notes relevant to own work, role and responsibilities
- safety signs and their meanings, including signs for:
 - personal protective equipment
 - emergency equipment
 - dangerous goods class signs
 - specific hazards, such as sharps and radiation
- the difference between a hazard and a risk
- nature of common workplace hazards, including chemicals, bodily fluids, sharps, noise, manual handling, work postures, underfoot hazards and moving parts of machinery

- potential consequences of not following safe work practices
- the elements within the hierarchy of control
- safety measures for controlling common workplace hazards
- sources of information about health and safety in the workplace
- environmental hazards and controls relevant to the worksite, including waste disposal
- the roles and responsibilities of employees for health and safety in the workplace
- the roles and responsibilities of health and safety representatives, committees, supervisors, managers and employers
- workplace specific information, including:
 - hazards of the particular work environment
 - potential emergencies relevant to the workplace
 - designated person for raising issues about health and safety
 - organisation and work procedures, particularly those related to performance of own work, specific hazards and risk control, reporting of hazards, incidents and injuries, consultation, use of personal protective equipment and emergency response
- potential emergency situations, alarms and signals, and required responses.

Assessment Conditions

Assessment of the skills in this unit of competency must take place under the following conditions:

- physical conditions:
 - a workplace setting or an environment that accurately represents a real workplace
- resources, equipment and materials:
 - personal protective equipment
- specifications:
 - workplace information about health and safety in the workplace, including legislative rights and responsibilities.

Assessors of this unit must satisfy the requirements for assessors in applicable vocational education and training legislation, frameworks and/or standards.
