# Assessment Requirements for FBPWHS2002 Identify and control risks in own work

# Assessment Requirements for FBPWHS2002 Identify and control risks in own work

## Modification History

| Release | Comments |
|---|---|
| Release 1 | This version released with FBP Food, Beverage and Pharmaceutical Training Package Version 2.0. |

## Performance Evidence

An individual demonstrating competency must satisfy all of the elements and performance criteria in this unit.

There must be evidence that the individual has identified and controlled risks on at least two occasions, including:

- implementing workplace procedures associated with hazard identification and risk control
- identifying workplace hazards and associated risks
- assessing risks
- taking action to minimise risks
- documenting outcomes of risk assessments.

## Knowledge Evidence

An individual must be able to demonstrate the knowledge required to perform the tasks outlined in the elements and performance criteria of this unit. This includes knowledge of:

- steps in managing health and safety risks in the workplace
- hazard identification methods
- procedures for risk assessment
- ways of controlling hazards and risks, including hierarchy of control
- types of hazards relevant to work role, including:
  - physical environment
  - equipment or machinery
  - materials or substances
  - how work tasks are designed or performed
- basic health and safety legislative and workplace requirements for identifying hazards, assessing risk and applying controls:
  - when, where and how hazards must be identified
  - when, where and how risk assessments must be conducted

- risk assessment mechanisms commonly used
- record keeping requirements.

## Assessment Conditions

Assessment of skills must take place under the following conditions:

- physical conditions:
    - skills must be demonstrated in a workplace setting or an environment that accurately represents a real workplace
- resources, equipment and materials:
    - production facilities
    - tools for conducting risk assessments, recording and reporting outcomes
- specifications:
    - current health and safety legislation and codes of practice relevant to identifying hazards and controlling risks in the workplace
    - workplace documentation relevant to identifying hazards and controlling risks in the workplace.

Assessors of this unit must satisfy the requirements for assessors in applicable vocational education and training legislation, frameworks and/or standards.
