Qualification Description

This qualification is designed to reflect team leadership, supervisory and advanced technical roles in life insurance in a range of organisations. Individuals in these roles have autonomy in performing technical operations, apply solutions to a range of often complex problems, and research, analyse and evaluate information from a variety of sources. They apply initiative to plan, coordinate and evaluate their own work and provide guidance to others.

Licensing/Regulatory Information

Work functions in the occupational areas where this qualification may be used are subject to regulatory requirements. Refer to the FNS Implementation Guide Companion Volume or the relevant regulator for specific guidance on requirements.
